BILLING CODE 6717-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 10 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the Federal Register.

Categories within each NGPA sections are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 mile rule)
102–3: New well (1,000 ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register.**

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
- 102–2: New well (2½ mile rule)
- 102–3: New well (1,000 ft rule)
- 102–4: New onshore reservoir
- 102–5: New reservoir on old OCS lease

Section 107–DP: 15,000 feet or deeper
- 107–GB: Geopressured brine
- 107–CS: Coal seams
- 107–DV: Devonian shale
- 107–PE: Production enhancement
- 107–TF: New tight formation
- 107–RT: Recompletion tight formation

Section 108: Stripper well
- 108–SA: Seasonally affected
- 108–ER: Enhanced recovery
- 108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register.**

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
- 102–2: New well (2.3 mile rule)
- 102–3: New well (1,000 ft rule)
- 102–4: New onshore reservoir
- 102–5: New reservoir on old OCS lease

Section 107–DP: 15,000 feet or deeper
- 107–GB: Geopressured brine
- 107–CS: Coal seams
- 107–DV: Devonian shale
- 107–PE: Production enhancement
- 107–TF: New tight formation
- 107–RT: Recompletion tight formation

Section 108: Stripper well
- 108–SA: Seasonally-affected
- 108–ER: Enhanced recovery
- 108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-C

[Project No. 6668-000]

Energenics Systems, Inc., Application for Preliminary Permit

September 20, 1982.

Take notice that Energenics Systems, Inc. (Applicant) filed on September 1, 1982, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 6668 to be known as the Grand Valley Project located on the Colorado River in Mesa County, Colorado. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Granville J. Smith, President, Energenics Systems, Inc., 1717 K Street, Suite 706, Washington, D.C. 20006.

Project Description—The proposed project would utilize the existing U.S. Water and Power Resources Service's Grand Valley Diversion Dam and reservoir and would consist of a powerhouse with two generating units having a total rated capacity of 1.6 MW, a switchyard and a transmission line. The Applicant estimates that the average annual energy output would be 11,000,000 kWh. Energy generated at the project would likely be sold to the Public Service Company of Colorado for distribution to its customers.

Purpose Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, a study of environmental impacts, geotechnical investigations in the immediate area of the dam itself and in the area of the powerhouse tailrace, and of the project's compatibility with irrigation needs. Based on results of these studies, Applicant would decide whether to proceed with more detailed studies and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $30,000.

Competing Application—Anyone desiring to file a competing application for preliminary permit must file with the Commission, on or before January 3, 1983, the competing application itself (see: 18 CFR 4.30 et. seq. (1981)). A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be filed with the Commission on or before December 2, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations (see: 18 CFR 4.30 et. seq. or 4.101 et. seq. (1981), as appropriate).

Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Motions To Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of the Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025–26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be filed on or before December 2, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION," "COMPETING APPLICATION," "PROTEST," or "MOTION TO INTERVENE," as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or motion to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 6561-000]

Energenics Systems Inc.; Application for Preliminary Permit

September 20, 1982.

Take notice that Energenics Systems Inc. (Applicant) filed on July 30, 1982, an application for preliminary permit pursuant to the Federal Power Act, 16 U.S.C. 791(a) 825(r) for Project No. 6561 to be known as the Rathbun Dam Hydroelectric Project located on the Chariton River in Appanoose County, Iowa. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Granville J. Smith, Energenics Systems Inc., 1717 K Street, N.W., Suite 706 Washington, D.C. 20006.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir. Project No. 6561 would consist of: (1) A proposed 6 foot diameter and 150-foot-long penstock at the right side of the existing dam; (2) a proposed powerhouse containing one turbine/generator with a total installed capacity of 2 MW; (3) a 50-foot-long, 14-foot-wide concrete trailrace; (4) a proposed transmission line, less than one mile long, interconnecting with the Iowa Southern Utilities; and (5) appurtenant facilities. Applicant estimates the average annual energy production to be 5.5 GWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months. during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. In addition, historic and recreational aspects of the project would be determined, along with the consultation with Federal, state, and lical agencies for information, comments and recommendations relevant to the project. The Applicant estimates that the cost of the studies would be $35,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must file with the Commission, on or before January 3, 1983, the competing application itself (see: 18 CFR 4.30 et. seq. (1981)). A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to file such an application in response to this notice. A notice of intent to file an

application for license or exemption must be filed to the Commission on or before October 4, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations (see: 18 CFR 4.30 et. seq. or 4.101 et. seq. (1981), as appropriate).

Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Motions To Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025–26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be filed on or before October 4, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or motion to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 6610-000]

Energenics Systems Inc.; Application for Preliminary Permit

September 21, 1982.

Take notice that Energenics systems Inc. (Applicant) filed on August 18, 1982, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 6610 to be known as the Mississippi River Lock and Dam No. 20 Hydroelectric project located on the Mississippi River in Lewis County, Missouri. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Granville J. Smith, Energenics Systems Inc., 1717 K Street, N.W., Suite 706, Washington, D.C. 20006.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir. Project No. 6610 would consist of: (1) A proposed powerhouse which will be built to replace a section of the existing dam weir; (2) the installation of two bulb units with a total installed capacity of 25 MW; (3) a proposed approach channel and tailrace; (4) a proposed transmission line, less than one mile long, interconnecting with a local utility company; and (5) appurtenant facilities. Applicant estimates the average annual energy production to be 130 GWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. In addition, historic and recreational aspects of the project would be determined, along with the consultation with Federal, state, and local agencies for information, comments and recommendations relevant to the project. The Applicant estimates that the cost of the studies would be $50,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must file with the Commission, on or before December 13, 1982, the competing application itself (see: 18 CFR 4.30 et seq. (1981)). A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to file such an application in response to this notice. A notice of intent to file an application for license or exemption must be filed to the Commission on or before November 15, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations (see: 18 CFR 4.30 et seq. or 4.101 et seq. (1981), as appropriate).

Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Motions To Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025–26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be filed on or before November 15, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or motion to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

[Project No. 6823-000]

Eric R. Jacobson; Application for Preliminary Permit

September 21, 1982.

Take notice that Eric R. Jacobson (Applicant) filed on August 20, 1982, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for Project No. 6823 to be known as the Bridal Veil Project located on Bridal Veil Creek, near the town of Telluride, in the Uncompahgre National Forest in San Miguel County, Colorado. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Marian R. Jacobson, P.O. Box 2162, Grand Junction, Colorado 81502.

Project Description—The proposed project would consist of: (1) Upper Lewis Lake at elevation 12,881 feet M.S.L., Lower Lewis Lake at elevation 12,842 feet M.S.L., Blue Lake at elevation 12,202 feet M.S.L., and Mud Lake at elevation 12,255 feet M.S.L.; (2) a system of existing intakes or siphons at each lake connected by a 3.5-mile-long system of steel penstocks from 3 feet to 10 inches in diameter which would be repaired or replaced and connected to; (3) an existing historic powerhouse located at the head of Bridal Veil Falls to be restored and would include a rebuilt 350–kW turbine-generator; (4) a new 4620-foot-long, 4.4–kV transmission line along the existing right-of-way; and (5) appurtenant facilities. Energy produced would be sold to a local utility or industry. The proposed project would produce up to 3,048,480 kWh annually. The powerhouse is a National Historic Landmark and is owned by Idarado Mining Company.

Proposed Scope of Studies under Permit—A preliminary permit, if issued, does not authorize construction. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, coordination with the U.S. Forest Service, and a study of environmental impacts. Based on results of these studies, Applicant would decide whether to proceed with more detailed studies and the preparation of an application for license to construct and operate the project. The Applicant has estimated that the cost of studies under the preliminary permit would be $150,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must file with the Commission, on or before January 3, 1983, the competing application itself (see: 18 CFR 4.30 et. seq. (1981)). A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to file such an application in response to this notice. A notice of intent to file an application for license or exemption must be filed with the Commission on or before December 6, 1982, an should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations (see: 18 CFR 4.30 et. seq. or 4.101 et. seq. (1981), as appropriate).

Agency Comment—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Motions to Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025–26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before December 6, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "MOTION TO INTERVENE," as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch,

Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or motion to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26040 Filed 9-21-82; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 6458-000]

Everand Jensen; Application for Exemption for Small Hydroelectric Power Project of 5 MW or Less Capacity

September 21, 1982.

Take notice that on June 23, 1982, Everand Jensen (Applicant) filed an application under Section 408 of the Energy Security Act of 1980 (Act) (16 U.S.C. 2705 and 2708 *as amended*), for exemption of a proposed hydroelectric project from licensing under Part I of the Federal Power Act. The proposed small hydroelectric Project No. 6458 would be located on Birch Creek, a tributary of the Snake River, near Hagerman, in Gooding County, Idaho. Correspondence with the Applicant should be directed to: Mr. Everand Jensen, Star Route, Box 32, Bliss, Idaho 83314.

Project Description—The proposed Birch Creek Hydroelectric project would consist of: (1) A 6-foot-high diversion structure with negligible storage; (2) two intake structures; (3) a 450-foot-long, 18-inch-diameter steel penstock for Powerhouse No. 1; (4) a 283-foot-long, 18-inch-diameter steel penstock for Powerhouse No. 2; (5) Powerhouse No. 1 containing one generating unit with an installed capacity of 24 kW; (6) Powerhouse No. 2 containing one generating unit with an installed capacity of 37 kW; and (7) a 0.25-mile-long, 34.5-kV transmission line. Applicant estimates that the average annual energy production would be 0.54 million kWh.

Purpose of Exemption—An exemption, if issued, gives the Exemptee priority of control, development, and operation of the project under the terms of the exemption from licensing, and protects the Exemptee from permit or license applicants that would seek to take or develop the project.

Agency Comments—The U.S. Fish and Wildlife Service, The National Marine Fisheries Service, and the Idaho Department of Fish and Game are requested, for the purposes set forth in Section 408 of the Act, to file within 60 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or to otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General comments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 60 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Competing Application—Any qualified license applicant desiring to file a competing application must file with the Commission, on or before November 15, 1982, either the competing license application that proposes to develop at least 7.5 megawatts in that project, or notice of intent to file such a license application. Filing of a timely notice of intent allows an interested person to file the competing license application no later than 120 days from the date that comments, protests, etc. are due. Applications for preliminary permit will not be accepted.

A notice of intent must conform with the requirements of 18 CFC 4.33(b) and (c) (1980). A competing license application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Motions to Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Commission Rules 211 or 214, 18 CFR 385.211 or 385.214 47 FR 19025-26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be filed on or before November 15, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory. Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or motion to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. ER82-670-000, and ER82-555-000, ER82-556-000, ER82-557-000, ER82-558-000, and ER82-559-000]

Michigan Power Co.; Order Accepting for Filing and Suspending Revised Rates, Noting Interventions, Granting Waiver of Notice, Consolidating Dockets, and Establishing Hearing Procedures

Issued: September 16, 1982.

On July 21, 1982, Michigan Power Company (Michigan) tendered for filing a proposed two-step rate increase for firm power service to its two wholesale customers, the City of Dowagiac and the Village of Paw Paw, Michigan.[1] The proposed Step I rates would increase revenues by approximately $248,000 (12%) for the calendar year 1981 (Period I) test period. The proposed Step II rate would further increase revenues by approximately $314,000 (a total increase of 27%). Michigan's submittal primarily reflects the pass-through of Michigan's increased purchased power costs incurred as a result of increased rates for service from Indiana and Michigan Electric Company (IME) in Docket Nos. ER82-555-000, *et al.*[2] By order dated July 14, 1982, in Docket Nos. ER82-555-000, *et al.*, the Commission, *inter alia*, accepted for filing IME's two-step rate increase applicable for service to Michigan and suspended IME's Step I and Step II rates for one day and five

[1] *See* Attachment A for rate schedule designations.

[2] Michigan purchases approximately 98% of its power and energy requirements from IME.

months to become effective on July 29, 1982, and December 29, 1982 subject to refund. Michigan requests waiver of the notice requirements to allow its proposed Step I and Step II rates to become effective coincident with the effective dates designated for IME's corresponding rates.

Notice of Michigan's filing was published in the Federal Register with responses due by August 17, 1982. Paw Paw and Dowagiac filed timely petitions to intervene although neither intervenor has raised any specific substantive issues.[3] Paw Paw states that it is a customer of Michigan and will be affected by the proposed rate increase. Dowagiac contends that Michigan's rates should be suspended on the same basis as were IME's inasmuch as Michigan's filing is predicated largely on purchased power costs. Dowagiac states that it does not object to Michigan's request or waiver of notice and a July 29 effective date for the Step I rates, if the rates become effective, subject to refund and suspensions consistent with our treatment of IME's filing.

Discussion

Under Rule 214(c)(1) of the Commission's Rules of Practice and Procedure (18 CFR 385.214), Paw Paw's and Dowagiac's timely interventions serve to make them parties to this proceeding absent opposition within 15 days of their pleadings.

Our preliminary examination of Michigan's filing indicates that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Accordingly, we shall accept the rates for filing and shall suspend them as ordered below.

As we have previously noted, Michigan's submittal, in large part, represents a pass-through of increased purchased power costs attributable to IME's earlier filing. Apart from these purchased power costs, which at this time are properly reflected in Michigan's cost of service although they are being paid to IME subject to refund, our preliminary review suggests that Michigan's proposed rates may not produce substantially excessive revenues as defined in *West Texas Utilities Company*, Docket No. ER82–23–000 (February 26, 1982). Accordingly, we agree that it is appropriate to suspend Michigan's rates so that they become effective coincident with the rates filed by IME in Docket Nos. ER82–555–000, *et al.* With respect to Michigan's request for waiver of the notice requirements, we note that both Dowagiac and Paw Paw intervened in the IME proceeding with appropriate notice of that rate change and in anticipation of this filing by Michigan to recover associated purchased power costs. In addition, neither intervenor objects to the requested waiver. Thus, we find that good cause exists to waive the notice requirements and to suspend Michigan's proposed Step I and II rates to become effective on July 29, 1982, and December 29, 1982, respectively, subject to refund.

Because we find that common questions of law and fact may be presented in this docket and in Docket Nos. ER82–555–000, *et al.*, we shall consolidate these proceedings for purposes of hearing and decision.

The Commission orders: (A) Waiver of the notice requirements is hereby granted; Michigan's proposed rates are hereby accepted for filing and suspended, with the Step I and Step II rates to become effective, subject to refund, on July 29, 1982, and December 29, 1982, respectively.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the Department of Energy Organization Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held concerning the justness and reasonableness of Michigan's rates.

(C) Docket No. ER82–670–000 is hereby consolidated with the pending proceeding in Docket Nos. ER82–555–000, *et al.*, for purposes of hearing and decision.

(D) The Commission staff shall serve top sheets in this proceeding on or before October 1, 1982.

(E) The administrative law judge designated to preside in Docket Nos. ER82–555–000, *et al.*, shall convene a conference in this proceeding promptly following the service of top sheets in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. The presiding judge is authorized to establish procedural dates and to rule on all motions (except motions to dismiss) as provided in the Commission's Rules of Practice and Procedure.

(F) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

Attachment A.—Michigan Power Company, Rate Schedule Designations, Docket No. ER82–670–000

Designation and Description

(1) Ninth Revised Sheet No. 6 under FPC Electric Tariff Original Volume No. 1 (Supersedes Eighth Revised Sheet No. 6), Step I Rates.

(2) Fifth Revised Sheet No. 7 under FPC Electric Tariff Original Volume No. 1 (Supersedes Eighth Revised Sheet No. 7), Fuel Adjustment Clause.

(3) Tenth Revised Sheet No. 6 under FPC Electric Tariff Original Volume No. 1 (Supersedes (1) above), Step II Rates.

BILLING CODE 6717–01–M

[Docket No. TA83–1–25–000]

Mississippi River Transmission Corp.; Rate Change Filing

September 15, 1982.

Take notice that on August 31, 1982 Mississippi River Transmission Corporation ("Mississippi") tendered for filing Eighty-Fourth Revised Sheet No. 3A to its FERC Gas Tariff, First Revised Volume No. 1. An effective date of October 1, 1982 is proposed.

Mississippi states that Eighty-Fourth Revised Sheet No. 3A is being submitted to reflect changes in purchased gas costs by reason of the rate filing of its principal pipeline supplier, United Gas Pipe Line Company at Docket No. RP82–57, which includes the effect on United of the commencement of deliveries through the new Northern Border Pipeline Co. system. Mississippi states that it expects such commencement date to occur sometime after September 1, 1982 but on or before October 1, 1982, and that it is submitting the instant filing with a proposed October 1, 1982 effective date in order to provide its sale for resale customers the normal thirty (30) day notice with respect to the filing. Mississippi requests that in the event deliveries from Northern Border do not commence on September 1, 1982, the date when Mississippi's previously-filed Alternate Eighty-Third Revised Sheet No. 3A is to become effective, that Eight-Fourth Revised Sheet No. 3A be accepted to be effective October 1, 1982. Mississippi further states that it will charge its Unrecovered Purchased Gas Cost Account for any increased gas cost caused by United's RP82–57 rate change from the date Northern Border deliveries do commence and to October 1, 1982.

Mississippi states that copies of its filing have been served on all

---

[3] Dowagiac did, however, raise numerous cost of service issues in its petition to intervene in Docket Nos. ER82–555–000, *et al.* that petition was granted.

jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rule 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, .214). All such petitions or protests should be filed on or before September 23, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26018 Filed 9-21-82; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP81-79-001]

Natural Gas Pipeline Co. of America, Columbia Gulf Transmission Co., and Tennessee Gas Pipeline Co., a Division of Tenneco, Inc.; Petition To Amend

September 17, 1982.

Take notice that on May 7, 1982, Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, Columbia Gulf Transmission Company (Columbia Gulf), 3805 West Alabama Avenue, Houston, Texas 77027, and Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), 1010 Milam, Houston, Texas 77002 filed in Docket No. CP81-79-001 a joint petition to amend the order issued June 18, 1981, in Docket No. CP81-79-000 pursuant to Section 7(c) of the National Gas Act so as to authorize a change in the ownership in joint offshore pipeline facilities, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioners state that Natural's present percentage dedication is 75 percent of West Delta Block 109 platform production, offshore Louisiana, and would likely increase from this level pending final unit determination at the conclusion of well drilling. Natural, it is asserted, has been advised that the final unit determination would not occur for several months but Natural's present ownership percentage of 81.82 percent would most likely be increased while the ownership percentages of Columbia Gulf and Tennessee would correspondingly be reduced.

It is indicated that because of the expected increase in Natural's percentage dedication in West Delta 109 production, Petitioners have agreed that Natural should own 100 percent of the facilities and that Natural would transport the remaining natural gas volumes through the West Delta 109 pipeline facilities.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 7, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 384.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 6433-000]

Warren B. Nelson; Application for Exemption for Small Hydroelectric Power Project of 5 MW or Less Capacity

September 21, 1982.

Take notice that on June 15, 1982, Warren B. Nelson (Applicant) filed an application under Section 408 of the Energy Security Act of 1980 (Act) (16 U.S.C. 2705 and 2708 *as amended*), for exemption of a proposed hydroelectric project from licensing under Part I of the Federal Power Act. The proposed small hydroelectric Project No. 6433 would be located on Riordan Creek near Yellow Pine in Valley County, Idaho. The proposed project would affect U.S. lands in Boise National Forest. Correspondence with the Applicant should be directed to: Mr. Joseph B. Nelson, P.O. Box 3382, Boise Idaho 83703.

Project Description—The proposed project would consist of: (1) A 6-foot-high, 40-foot-long diversion structure; (2) an 8,200-foot-long, 26-inch-diameter steel penstock; (3) a powerhouse with a rated capacity of 1,900 KW; and (4) a 250-foot-long, 6.9-kV transmission line. interconnecting with an existing Idaho Power Company transmission line. The estimated annual energy output is 9.6 million kWh.

Purpose of Exemption—An exemption, if issued, gives the Exemptee priority of control, development, and operation of the project under the terms of the exemption from licensing, and protects the Exemptee from permit or license applicants that would seek to take or develop the project.

Agency Comments—The U.S. Fish and Wildlife Service, The National Marine Fisheries Service, and the Idaho Department of Fish and Game are requested, for the purposes set forth in Section 408 of the Act, to file within 60 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or to otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General comments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 60 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Competing Application—Any qualified license applicant desiring to file a competing application must file with the Commission, on or before November 15, 1982, either the competing license application that proposes to develop at least 7.5 megawatts in that project, or notice of intent to file such a license application. Filing of a timely notice of intent allows an interested person to file the competing license application no later than 120 days from the date that comments, protests, etc. are due. Applications for preliminary permit will not be accepted.

A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing license application must conform with the

requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone may file comments, a protest, or a petition to intervene in accordance with the requirements of Commission Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025–26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motions to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motion to intervene must be filed on or before November 15, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION," "COMPETING APPLICATION," "PROTEST," or "MOTION TO INTERVENE," as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or motion to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26048 Filed 9-21-82; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 6435-000]

Joseph B. Nelson; Application for Exemption for Small Hydroelectric Power Project of 5 MW or Less Capacity

September 21, 1982.

Take notice that on June 15, 1982, Joseph B. Nelson (Applicant) filed an application under Section 408 of the Energy Security Act of 1980 (Act) (16 U.S.C. 2705 and 2708 *as amended*), for exemption of a proposed hydroelectric project from licensing under Part I of the Federal Power Act. The proposed small hydroelectric Project No. 6435 would be located on Trapper Creek near Yellow Pine in Valley County, Idaho. The proposed project would affect U.S. lands in Boise National Forest. Correspondence with the Applicant should be directed to: Mr. Warren B. Nelson, 3410 Montvue Drive, Meridian, Idaho 83642.

Project Description—The proposed project would consist of: (1) A 6-foot-high, 40-foot-long diversion structure; (2) a 5,800-foot-long 20-inch-diameter steel penstock; (3) a powerhouse with a rated capacity of 875 kW; and (4) a 50-foot-long, 6.–9kV transmission line interconnecting with an existing Idaho Power Company transmission line. The estimated annual energy output is 3.6 million kWh.

Purpose of Exemption—An exemption, if issued, gives the Exemptee priority of control, development, and operation of the project under the terms of the exemption from licensing, and protects the Exemptee from permit or license applicants that would seek to take or develop the project.

Agency Comments—The U.S. Fish and Wildlife Service, The National Marine Fisheries Service, and the Idaho Department of Fish and Game are requested, for the purposes set forth in Section 408 of the Act, to file within 60 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or to otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General comments concerning the project and its resouces are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 60 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Competing Application—Any qualified license applicant desiring to file a competing application must file with the Commission, on or before November 15, 1982, either the competing license application that proposes to develop at least 7.5 megawatts in that project, or notice of intent to file such a license application. Filing of a timely notice of intent allows an interested person to file the competing license application no later than 120 days from the date that comments, protests, etc. are due. Applications for preliminary permit will not be accepted.

A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing license application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Motions to Intervene— Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Commission Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025–26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be filed on or before November 15, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPICATION", "COMPETING APPLICATION", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or motion to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

BILLING CODE 6717-01-M

[Project No. 4493-001]

North Valley Land Corp.; Surrender of Preliminary Permit

September 17, 1982.

Take notice that North Valley Land Corporation, Permittee for the proposed Grider Creek Hydroelectric Project No. 4493, has requested that its preliminary permit be terminated. The preliminary permit was issued on August 14, 1981,

and would have expired July 31, 1983. The project would have been located on Grider Creek in Siskiyou County, California. The Permittee stated that a preliminary study found that the project would not be economically feasible.

The Permittee filed its request on August 13, 1982, and the surrender of the preliminary permit for Project No. 4493 is deemed effective as of the date of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26035 Filed 9-21-82; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP82-476-000]

Northern Natural Gas Company, Division of InterNorth, Inc.; Application

September 17, 1982.

Take notice that on August 9, 1982, Northern Natural Gas Company, Division of InterNorth, Inc. (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP82-476-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a delivery point and the modification of two existing delivery points, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Peoples Natural Gas Company (Peoples) has requested Applicant to construct a new delivery point to serve the town of Richland, Nebraska. It is indicated that Richland currently uses propane as its energy source but desires natural gas service to accommodate the increased expansion and growth that has occured in the city. The proposed delivery point would provide natural gas service to approximately forty-eight (48) residential, three (3) commercial and four (4) essential agricultural consumers, with an estimated annual usage of 117,000 Mcf of natural gas.

Peoples has requested Applicant to modify the Gretna, Nebraska Town Border Station #1A thereby increasing its annual firm load from 36,808 to 90,079 Mcf to provide for increased expansion and growth that has occurred behind the town border station, it is asserted. It is further explained that Peoples has agreed to provide natural gas service to the J.P. Parks Asphalt Plant which has requirements of 109 Mcf per hour.

It is stated that Applicant proposes to modify one delivery point for industrial and residential service for West Texas Gas, Inc. (WTG) in Pecos County, Texas, with an estimated annual usage of 365,000 Mcf of natural gas.

Additional volumes delivered through the proposed facilities would be within the present entitlements of Peoples and volumes sold to WTG would be made pursuant to Rate Schedule X-40 of Applicant's FERC Gas Tariff, Original Volume No. 2.

It is estimated that the cost of the proposed facilities would be $101,804, which cost would be financed from cash on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 7, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a part in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP80-22-003]

Northern Natural Gas Company, Division of InterNorth, Inc.; Petition To Amend

September 17, 1982.

Take notice that on August 9, 1982, Northern Natural Gas Company, Division of InterNorth, Inc. (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP80-22-003 a petition to amend the order issued July 27, 1980, in Docket No. CP80-22 pursuant to Section 3 of the Natural Gas Act so as to authorize Petitioner to import from Canada up to 67,500 Mcf of natural gas per day for an additional two years ending October 31, 1989, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that the order of July 27, 1980, authorized it to import from Canada up to 100,000 Mcf of natural gas per day at a point near Monchy, Saskatchewan. Petitioner states that it also was authorized by the Economic Regulatory Administration (ERA) to import up to 200,000 Mcf per day and up to 73,000,000 Mcf per year at a point near Emerson, Manitoba minus whatever volumes Petitioner elected to import near Monchy for the period from November 1, 1981, through October 31, 1987. It is indicated that Petitioner purchased the subject gas from Consolidated Natural Gas Limited of Calgary, Alberta, Canada (Consolidated).

Pursuant to an amending agreement between Petitioner and Consolidated dated May 13, 1982, Petitioner proposes to extend the term of the original contract an additional two years, through October 31, 1989. The following import increases at Monchy would be pursuant to the Commission's authorization and import increases at Emerson would be pursuant to ERA authorization:

	Contract year	Original authorized volumes (1,000³ per day)	Additional volumes proposed (1,000³ per day)	Total daily contract quantity (1,000³ per day)
At Monchy:				
From 11/01/80 to 10/31/81	1st	0	0	0
From 11/01/81 to 8/31/82	2d Pt 1	0	0	0
From 9/01/81 to 10/31/82	2d Pt 2	100,000	0	100,000
From 11/01/82 to 10/31/83	3d	100,000	0	100,000
From 11/01/83 to 10/31/84	4th	100,000	0	100,000
From 11/01/84 to 10/31/85	5th	75,000	25,000	100,000
From 11/01/85 to 10/31/86	6th	50,000	30,000	80,000
From 11/01/86 to 10/31/87	7th	25,000	42,500	67,500

	Contract year	Original authorized volumes (1,000³ per day)	Additional volumes proposed (1,000³ per day)	Total daily contract quantity (1,000³ per day)
From 11/01/87 to 10/31/88	8th	0	67,500	67,500
From 11/01/88 to 10/31/89	9th	0	67,500	67,500
At Emerson:				
From 11/01/80 to 10/31/81	1st	60,000	0	60,000
From 11/01/81 to 8/31/82	2d Pt 1	200,000	0	200,000
From 9/01/81 to 10/31/82	2d Pt 2	100,000	0	100,000
From 11/01/82 to 10/31/83	3d	100,000	0	100,000
From 11/01/83 to 10/31/84	4th	100,000	0	100,000
From 11/01/84 to 10/31/85	5th	75,000	25,000	100,000
From 11/01/85 to 10/31/86	6th	50,000	30,000	80,000
From 11/01/86 to 10/31/87	7th	25,000	42,500	67,500
From 11/01/87 to 10/31/88	8th	0	67,500	67,500
From 11/01/88 to 10/31/89	9th	0	67,500	67,500

Petitioner states that the total additional volume it would import is 98,550,000 Mcf of gas at the international border price as set from time to time by the National Energy Board of Canada which is currently $4.94 per million Btu in U.S. dollars.

Petitioner asserts that production from presently connected sources of gas would be insufficient to meet its system demands by 1984 and that the additional imports would enable Petitioner to insure a reliable long term gas supply for its customers.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 12, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP82-56-002]

Northwest Pipeline Corp.; Motion To Make Tariff Sheets Effective

September 15, 1982.

Take notice that on August 31, 1982, Northwest Pipeline Corporation filed with the Federal Energy Regulatory Commission a Motion for Waiver to Amend Suspended Tariff Sheets and to Make the Amended Tariff Sheets Effective. Northwest moves to make effective on October 1, 1982, subject to refund, revised tariff sheets incorporating two adjustments to those tariff sheets filed on March 31, 1982.

The rates set forth on the revised tariff sheets reflect (1) the reallocation of Northwest's cost of service due to termination of the Winter Service rendered by Northwest under Rate Schedule WS-1 and (2) the change in rate design to a conventional *Atlantic Seaboard* type of rate design. Northwest has requested waiver of the Commission's regulations and orders to the extent necessary to make proposed rates effective on October 1, 1982. Northwest states that the customers identified in the Motion do not oppose granting the requested waiver.

Northwest states that copies of this filing were served on the Company's jurisdictional customers, affected state regulatory agencies and otherwise upon all parties to this proceeding.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426, in accordance with Rule 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, .214). All such petitions or protests should be filed on or before Sept. 23, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ES82-73-000]

Pacific Power & Light Co.; Application

September 16, 1982.

Take notice that on September 8, 1982, Pacific Power and Light Company (Applicant) filed an application with the Federal Energy Regulatory Commission, pursuant to Section 204 of the Federal Power Act, seeking an order (1) authorizing it to issue and sell not more than $50,000,000 (1,000,000 shares if the stated value is $50 per share) of its Adjustable Rate No Par Serial Preferred Stock, and (2) granting it an exemption from competitive bidding pursuant to 18 CFR 34.2(b)(2).

An person desiring to be heard or to make any protest with reference to this application should, on or before October 7, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with 18 CFR 385.211 or 385.214, respectively. The application is on file with the Commission and available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. EF82-3041-000]

Southeastern Power Administration; Filing

September 17, 1982.

Take notice that on September 2, 1982, the Assistant Secretary for Conservation and Renewable Energy of the Department of Energy confirmed and approved, on an interim basis effective midnight September 30, 1982, an extension of Rate Schedules KP-1-B and KP-2-B and confirmed and approved a new Rate Schedule JHK-1-D for power from Southeastern Power Administration's (SEPA) Kerr-Philpott Projects. The approval extends through March 31, 1983.

The Assistant Secretary states that the Commission, by order issued March

19, 1982, in Docket No. EF81-3041, extended confirmation and approval of Rate Schedules KP-1-B, KP-2-B and JHK-1-C through September 30, 1982. JHK-1-D replaces JHK-1-C.

The interim rate schedules are submitted for confirmation and approval on a final basis pursuant to authority vested in the Commission by Delegation Order No. 0204-33. Approval is requested for a period ending March 31, 1983.

An person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 1, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP82-125-005]

Transcontinental Gas Pipe Line Corp.; Amendment

September 17, 1982.

Take notice that on August 10, 1982, Transcontinental Gas Pipe Line Corportion (Applicant), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP82-125-005 an amendment to its application filed in Docket No. CP82-125-000 pursuant to Section 3 of the Natural Gas Act to extend the requested period of import authorization for gas to be purchased from TransCanada PipeLines Limited (TransCanada) from a 10-year term to a 15-year term, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant states that its application requests authority *inter alia,* to import a purchased quantity of up to 300,000 Mcf of natural gas per day from Canada and, as to storage quantities, the export to Canada of up to 300,000 Mcf of natural gas per day and import into the United States of up to 600,000 Mcf per day for a term of ten years. It is stated that Applicant also requested import and export authority to enable it to cause up to 40,000,000 Mcf of the natural gas to be purchased annually from TransCanada to be stored at two storage facilities: 20,000,000 Mcf at ANR Storage Company's (ANR Storage) storage facilities in Michigan, and 20,000,000 Mcf at Union Gas Limited's (Union Gas) storage facilities near Dawn, Ontario. Because the storage arrangements with ANR Storage and Union Gas provide for a 20-year term, Applicant asserts that an extension of purchases from TransCanada or some alternate source or sources of gas supply is necessary to maintain such storage arrangements after expiration of the initial term of ten years. Applicant states that it has amended its agreement with TransCanada, by an agreement dated June 9, 1982, and therefore, amends its application so as to extend the initial term of the purchase and sale from 10 to 15 years from the date of first deliveries and to set forth the corresponding increases in the total quantities to be delivered under the contract to 1,643,700,000 Mcf.

It is further stated that by this amendment, the make-up provisions were amended to provide a one-year make-up period for take or pay gas and for make-up from year-to-year and to limit excess gas available for best efforts transportation to ten percent of the daily contract quantity.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before October 7, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26037 Filed 9-21-82; 8:45 am]
BILLING CODE 6717-01-M

[Docket No. RM79-34 and Docket No. ST82-359]

Transportation Certificates for Natural Gas Displacement of Fuel Oil and United Gas Pipe Line Co.; Self-Implementing Transactions

September 16, 1982.

Take notice that the following transactions have been reported to the Commission as being implemented pursuant to Part 284 of the Commission's Regulations and Sections 311 and 312 of the Natural Gas Policy Act of 1978 (NGPA). The "Recipient" column in the following table indicates the entity receiving or purchasing the natural gas in each transaction.

The "Part 284 Subpart" column in the following table indicates the type of transaction. A "B" indicates transportation by an interstate pipeline pursuant to § 284.102 of the Commission's Regulations.

A "C" indicates transportation by an intrastate pipeline pursuant to § 284.122 of the Commission's Regulations. In those cases where Commission approval of a transportation rate is sought pursuant to § 284.123(b)(2), the table lists the proposed rate and expiration date for the 150-day period for staff action. Any person seeking to participate in the proceeding to approve a rate listed in the table should file a petition to intervene with the Secretary of the Commission.

A "D" indicates a sale by an intrastate pipeline pursuant to § 284.142 of the Commission's Regulations and Section 311(b) of the NGPA. Any interested person may file a complaint concerning such sales pursuant to § 284.147(d) of the Commission's Regulations.

A "E" indicates an assignment by an intrastate pipeline pursuant to § 284.163 of the Commission's Regulations and Section 312 of the NGPA.

An "F" indicates a fuel oil displacement transaction implemented pursuant to § 284.202 of the Commission's Regulations. Any interested persons may file a complaint concerning such transaction pursuant to § 284.205(d) of the Commission's Regulations.

A "G" indicates transportation by an interstate pipeline on behalf of another interstate pipeline pursuant to a blanket certificate issued under § 284.221 of the Commission's Regulations.

A "G (HT)" or "G (HS)" indicates transportation, sales or assignments by a Hinshaw Pipeline pursuant to a blanket certificate issued under § 284.222 of the Commission's Regulations.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6717-01-M

[Project No. 6580-000]

Barbara James Williams; Application for Preliminary Permit

September 20, 1982.

Take notice that Barbara James Williams (Applicant) filed on August 9, 1982, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for Project No. 6580 to be known as the Red Mill Dam Project located on the Browns River in Chittenden County, Vermont. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Ms. Barbara J. Williams, 20708 Corinth Road, Olympia Fields, Illinois 60461.

Project Description—The proposed project would consist of: (1) The proposed 17-foot-high dam 45 feet long; (2) a reservoir having a surface area of 2 acres with negligible storage with a normal surface elevation of 525 feet M.S.L.; (3) a new intake; (4) a new 5-foot diameter penstock 60 feet long; (5) a new powerhouse with three options: 1 unit with a generating capacity of 130 kW; 2 units with a generating capacity of 160 kW; and 2 units with a generating capacity of 130 kW; (6) a new tailrace; (7) a new 600-volt transmission line 50 feet long; (8) appurtenant facilities. Project facilities would be owned by Applicant. All project power would be sold to the Central Vermont Power Corporation.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time the Applicant would perform studies to determine the feasibility of the project. Depending upon the outcome of the studies, the Applicant would decide whether to proceed with an application for FERC license. Applicant estimates the cost of the studies under permit would be $50,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must file with the Commission, on or before December 2, 1982, the competing application itself, or a notice of intent to file such an application (see: 18 CFR 4.30 et seq. (1981); Docket No. RM81-15, issued October 29, 1981, 46 FR 55245, November 9, 1981).

The Commission will accept applications for license or exemption from licensing, or a notice of intent to file such an application in response to this notice. A notice of intent to file an application for license or exemption must be filed with the Commission on or before December 2, 1982, and should specify the type of application

forthcoming. Any application for license or exemption from licensing must be filed in accordance with the Commission's regulations (see: 18 CFR 4.30 et seq. or 4.101 et seq. (1981), as appropriate).

Filing of a timely notice of intent to file an application for preliminary permit, allows an interested person to file an acceptable competing application for preliminary permit no later than January 31, 1983.

Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Motions To Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be filed on or before December 2, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATIONS", "COMPETING APPLICATIONS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or motion to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[Docket No. GP82-55-000]

Wyoming Oil and Gas Conservation Commission, NGPA Section 107 Determination, Amoco Production Company, Champlin 449 Amoco "A" No. 1, JD No. 81-45333; Petition To Reopen Final Well Category Determination and To Withdraw Application

September 16, 1982.

On September 1, 1982 Amoco Production Company (Amoco) filed with the Federal Energy Regulatory Commission (Commission) a petition to reopen a final well category determination made by the Wyoming Oil and Gas Conservation Commission (Wyoming) under section 107(c)(5) of the Natural Gas Policy Act of 1978 (NGPA) for the above referenced well. Amoco seeks to withdraw its application for such determination. The determination for the subject will become final by operation of § 275.202 of the Commission's regulations before the date on which Amoco's petition for reopening and withdrawal was made.

Amoco states that the subject well, located in Sweetwater County, is not producing from a tight formation area as originally thought. On August 13, 1981, the Commission received Wyoming's notice of determination that the above referenced well was producing from the "Mesaverde" tight formation under section 107(c)(5). The Commission's forty-five day review period for final determination ended on September 27, 1981. Amoco now states that the subject well is actually producing from "Lewis" formation, which is not a designated tight formation area, and thus requests that the Commission withdraw the determination under section 107(c)(5) of the NGPA for Champlin 449 Amoco "A" No. 1 well.

With respect to the question of refunds arising out of Amoco's request for withdrawal of final well category determination, notice is hereby given that whether refunds will be required is a matter subject to the review and final decision of the Commission.

Any person desiring to be heard or to protest this petition should file, within 30 days after publication of this notice in the **Federal Register** with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, a protest or petition to intervene in accordance with Rule 211 or 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.211 and 214. All protests filed with the Commission will be considered, but will not make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing must file a petition ot intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Northwest Alaskan Pipeline Co.; Availability

[Docket No. CP78-123, et al.]

September 17, 1982.

Take notice that the Commission's Alaskan Delegate, John B. Adger, Jr., has completed and filed a report on issues associated with authorizing "tracking" [1] for charges billed by the Alaska Natural Gas Transportation System (ANGTS). This report was requested by the Commission in an order of April 28, 1980, in Docket Nos. CP78-123, *et al.*[2] The report was filed in Docket No. RM 81-21 in anticipation of a possible rulemaking proceeding to consider the report's recommendations; however, it is also being served on all parties in Docket Nos. CP78-123, *et al.* The report is available for public inspection at the Commission's Division of Public Information, located in Room 1000 at 825 North Capitol Street, NE., in Washington, D.C.

Office of Hearings and Appeals

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of implementation of special refund procedures.

SUMMARY: The Office of Hearings and Appeals has directed that $40,000 in refunds made available pursuant to a consent order entered into by Lyon County Co-operative Oil Company be distributed to customers who were not members of the Lyon Co-operative and which purchased motor gasoline and

[1] "Tracking" refers to automatic adjustment of the shippers' FERC-approved rates for changes in the ANGTS charges which they incur.

[2] "Findings and Order Issuing Certificates of Public Convenience and Necessity and Authorizing the Importation of Natural Gas," Docket Nos. CP78-123, *et al.*, issued April 28, 1980, at 112. The Commission repeated this request in its "Order Granting Applications for Rehearing in Part," issued in the same proceeding on June 20, 1980, at page 40.

middle distillates from the firm during the consent order period.

DATE AND ADDRESS: Requests for adjustment in the refund mechanism specified must be received within 90 days of publication of this notice in the **Federal Register** and should be addressed to the Office of Hearings and Appeals, Department of Energy, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461. All comments should conspicuously display a reference to case number HEF–0002.

FOR FURTHER INFORMATION CONTACT: Thomas O. Mann, Deputy Director, Office of Hearings and Appeals, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461, (202) 633–8377.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(c) of the procedural regulations of the Department of Energy, 10 CFR 205.282(c), notice is hereby given of the issuance of the final Decision and Order set out below. The Order provides for the disbursement of the contents of an escrow account funded by Lyon County Co-operative Oil Company pursuant to a consent order entered into by Lyon and the DOE. The settlement covered Lyon's sales of motor gasoline and middle distillates for the period November 1, 1973 through December 31, 1974, to customers who were not members of the Lyon Co-operative.

On April 9, 1982, the Office of Hearings and Appeals issued a Proposed Decision and Order tentatively setting forth procedures to distribute refunds to parties who were injured by Lyon's violations. *Office of Enforcement,* No. HEF–0002 (April 9, 1982) (proposed decision); 47 Fed. Reg. 16396 (April 16, 1982). The Proposed Decision described a two-stage process for distribution of the funds made available by the Lyon consent order.

The Decision attached to this notice indicates that a mechanism different from that described in the Proposed Decision and Order will be used to distribute the Lyon funds for two reasons. First, DOE audit files indicate that all Lyon overcharges to non-member customers were attributable to sales to 16 parties. The audit files also identify these 16 non-member customers and specify the amount each customer was overcharged. Secondly, the audit files contain all of the information these 16 parties would have been required to submit in their applications for refund if the April 16 Decision and Order had been adopted without modification. That information indicates that each of the 16 customers qualifies for refunds. Accordingly, the final decision concludes that the $40,000 Lyon settlement fund plus accumulated interest should be distributed to those customers. The decision additionally states that refunds should not be disbursed to the Lyon customers until 90 days after the issuance of the final Decision and Order, in order to provide an opportunity for any aggrieved party to request an adjustment in the manner in which the refunds have been apportioned. During this 90 day period, any firm other than the 16 already identified in the decision may present its claim that it is entitled to a portion of the Lyon consent order funds. Any portion of principal and accumulated interest in the Lyon escrow account which cannot be disbursed to the allegedly overcharged customers will be deposited in the United States Treasury.

Requests for adjustments should be sent to the address set forth at the beginning of this notice. All requests must be received within 90 days of publication of this notice. All such requests will be available for public inspection between the hours of 1:00 and 5:00 p.m., Monday through Friday, except federal holidays, in the Public Docket Room of the Office of Hearings and Appeals, located in Room 1111, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461.

Issued in Washington, D.C., on September 16, 1982.

George B. Breznay,

Director, Office of Hearings and Appeals.

Department of Energy

Washington, D.C. 20461

September 16, 1982.

Decision and Order of the Department of Energy

Special Refund Procedures

Name of Petitioner: Office of Enforcement, Economic Regulatory Administration: In the Matter of Lyon County Co-operative Oil Company.

Date of Filing: October 9, 1981.

Case Number: HEF–0002.

This proceeding concerns a Petition for the Implementation of Special Refund Procedures filed by the Economic Regulatory Administration's Office of Enforcement (OE) (now the Office of Special Counsel) with the Office of Hearings and Appeals pursuant to the provisions of 10 CFR, Part 205, Subpart V. Under those procedural regulations the OE may request that the Office of Hearings and Appeals formulate and implement special procedures to make refunds in order to remedy the effects of alleged violations of DOE regulations. The OE filed the Petition in this case in connection with a consent order which the DOE entered into with Lyon County Co-operative Oil Company (Lyon) on October 9, 1981.

Lyon, with its home office located in Marshall, Minnesota, is engaged in the marketing of motor gasoline and middle distillates to resellers and end-users, and was subject to the Mandatory Petroleum Price and Allocation Regulations set forth at 10 CFR Part 212, Subpart F. A DOE audit of Lyon's records revealed possible violations of the DOE price regulations with respect to sales of motor gasoline, diesel fuel, and Nos. 1 and 2 fuel oil from November 1, 1973 through December 31, 1974. Based on those findings, on July 25, 1977, the OE issued a remedial order to Lyon. On December 14, 1978, the Office of Hearings and Appeals denied Lyon's appeal of the remedial order. *Lyon County Co-operative Oil Co.,* 2 DOE ¶ 80,190 (1978). In order to settle the dispute between Lyon and the DOE regarding Lyon's sales of petroleum products during the audit period, Lyon and the DOE entered into a consent order on June 6, 1979. Under the terms of the consent order, Lyon agreed to pay $40,000 to the DOE. This sum represented a refund of the full amount of the overcharges alleged in the remedial order and interest thereon through the date of the consent order. The settlement covered Lyon's sales of motor gasoline and middle distillates for the period November 1, 1973 through December 31, 1974, to resellers and end-users who were not members of the Lyon Co-operative. The $40,000 which Lyon paid the DOE is being held in an interest-bearing account established with the United States Treasury pending determination of its proper distribution.

On June 15, 1979, the OE published a notice in the **Federal Register** requesting interested persons who believed that they had claims to all or a portion of the Lyon refund amount to provide written notification of their claims to the DOE within 30 days of publication. 44 Fed. Reg. 34632 (1979). The DOE also gave notice through a press release issued the same day. The DOE did not receive any claims in response to the **Federal Register** notice or the press release. Subsequently, the OE filed its petition pursuant to Subpart V.

On April 9, 1982, the Office of Hearings and Appeals issued a Proposed Decision and Order tentatively setting forth procedures to distribute refunds to parties who were injured by Lyon's violations. *Office of Enforcement,* No. HEF–0002 (April 9, 1982) (proposed decision); 47 FR 16396 (April 16, 1982). In the Proposed Decision we described a two-stage process for distribution of the funds made available by the Lyon consent order. Specifically, we proposed to disburse funds in the first stage to claimants who could demonstrate that they were adversely affected by Lyon's overcharges in its sales of covered products during the applicable period. We also proposed several procedures for disbursing any funds remaining after the meritorious claimants had received their shares.

Since the issuance of the Proposed Decision and Order, we have reviewed the data gathered in the audit of Lyon's records. We have decided not to adopt the proposed two-stage distribution scheme for two reasons. First, the audit files indicate that all Lyon overcharges to non-member customers were attributable to sales to 16 parties. The audit files also identify these 16 non-member customers and specify the amount each

customer was overcharged. Secondly, the audit files contain all of the information which these 16 parties would have been required to submit in their applications for refund if we had adopted the April 16 proposal without modification. That information indicates that the 16 customers qualify for refunds.

In our proposed decision and other previous decisions establishing special refund procedures, we have required those parties claiming a portion of consent order funds in the first stage who are not end-users or consumers to demonstrate that they did not pass through the effects of alleged overcharges to their customers.[1] *E.g., Office of Special Counsel (Tenneco)*, 9 DOE ¶ 82,539 (1982). We have also stated in our prior decisions that parties that purchased relatively small amounts of product need not submit evidence showing that they did not pass the overcharges through to their customers to establish eligibility for a refund. In particular, firms claiming purchases averaging less than 50,000 gallons per product per month have been exempted from such a showing. *E.g., Office of Special Counsel (Tenneco)*, 9 DOE ¶ 82,536 at 85,204 (1982); *Office of Enforcement (Vickers)*, 8 DOE ¶ 82,597 at 85,396 (1981). Requiring relatively small purchasers of petroleum products to establish that they did not pass through price increases might prove too great a burden on those firms' recordkeeping and accounting capabilities. *See Office of Special Counsel (Tenneco); Office of Enforcement (Vickers).* Moreover, it is also probable that these smaller purchasers would not find it worthwhile to apply for a refund if they were required to show they absorbed the effects of overcharges. This is because the costs a firm would incur in preparing the detailed application might outweigh the benefits it would receive if its claim were approved. *See Tenneco Oil Co./Cary Oil Co.*, 9 DOE ¶ 82,598 at 85,520 (1982). The applicant's cost of submitting the application and the agency's cost of processing it should be proportional to the benefits obtained by applicants receiving refunds. *Uban Oil Co.*, 9 DOE ¶ 82,541 at 85,222 (1982).

The files from OE's audit of Lyon indicate that the customers in this case all purchased small volumes of product from Lyon. Our analysis of the material in the audit file indicates that Lyon's largest customer for any single product purchased approximately 50,000 gallons of that product per month and that all other firms purchased substantially less than 50,000 gallons per product per month. Consequently, the dollar amount each firm was overcharged was not considerable. The average amount each of the 16 customers was overcharged was only $2,265. For 13 of the customers, the amount overcharged each firm was less than 600.

In view of these considerations, we have concluded that it would impose an undue burden to require Lyon's customers to prove that they did not pass through the price increases. As we have stated, the purchase volumes of the 16 Lyon customers fall within the threshold amounts established in our prior cases and the average amount of overcharges was quite small in value. We have also determined that the DOE should refund the money in escrow to those overcharged on a *pro rata* basis rather than solicit additional claims. This is because those firms overcharged by Lyon have been identified, the amount each firm was overcharged has been adjudicated in a final agency order which is no longer subject to judicial review, and the amounts at issue are relatively small. The solicitation of additional claims now would not be equitable to the injured parties or efficient. Consequently, it is appropriate to distribute the Lyon funds at this stage.

Each of the 16 firms overcharged by Lyon will be refunded a share of the $40,000 consent order fund based on the ratio of the amount that firm was overcharged to the total amount remitted by Lyon. The interest earned on the funds received from Lyon will be apportioned using the same ratio. Appendix A sets forth the amount to be refunded and the percentaage of the interest to be awarded to each firm. The total amount paid to each firm will be determined at the time of actual disbursement from the escrow account.

In the event that the DOE is unable to ascertain the present location of one or more of the overcharged customers, we have determined that it would not be administratively efficient to distribute the remaining funds through a second stage refund process. Because of the small sums involved, the cost of any further tracing process to identify the firms or individuals who should receive refunds would be disproportionately large in comparison with the amount of the refund. Payment to the United States Treasury is appropriate when alternative schemes would not be practical in light of the small sums involved. *See Office of Enforcement (C.K. Smith)*, 9 DOE ¶ 82,594 at 85,501 (1982); *see also Terrace Mobil*, 9 DOE ¶ 83,045 at 86,333–34 (1982). Therefore, the portion of the refund and accumulated interest which cannot be disbursed to the overcharged customers will be deposited into the miscellaneous receipts account of the United States Treasury.[2]

Finally, the disbursement of funds as set forth above shall not be made until 90 days after the date of issuance of this Decision and Order in order to provide an opportunity for any aggrieved party to request an adjustment in the manner in which the refunds have been apportioned. The 90 day period will also permit any firm other than the sixteen already identified to present its claim that it is entitled to a portion of the Lyon refund. *See* 10 CFR 205.283(b).

It Is Therefore Ordered That:

(1) The Director of the Office of Washington Financial Services of the DOE's Office of the Controller shall disburse the deposit fund escrow account established at the Department of the Treasury for the Lyon County Co-operative Oil Company consent order funds as described in paragraph (2) below.

(2) Each Lyon customer listed in Column I of the Appendix to this Decision shall receive a refund in the amount indicated for that firm in Column II of the attached Appendix, plus that percentage of the interest accumulated in the Lyon escrow account which is specified in Column III.

(3) The disbursement of funds as ordered in Paragraph (2) above shall be made ninety (90) days after the date of the issuance of this Decision and Order.

(4) Any portion of the principal and accumulated interest in the Lyon escrow account which cannot be disbursed pursuant to paragraph (2) above shall be deposited in the United States Treasury.

(5) This is a final order of the Department of Energy.

Dated: September 16, 1982.

George B. Breznay,

Director, Office of Hearings and Appeals.

Office of the Secretary

International Atomic Energy Agreements; Civil Uses; Proposed Subsequent Arrangements; Government of Japan

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of proposed "subsequent arrangements" under the Additional Agreement for Cooperation Between the Government

[1] The audit files do not specify whether these 16 customers were resellers or end-users. We have assumed that they all are resellers. If they were end-users, they would not have to show that they had been adversely effected by the overcharges in order to qualify for a refund. However, given the circumstances of this case, it makes no difference whether they are resellers or end-users.

[2] Due to the rounding off process in our calculations of the refund to be disbursed to each customer, the sum of $2.00 out of the $40,000 principal remains undistributed. This amount should also be deposited in the United States Treasury.

of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Peaceful Uses of Atomic Energy, as amended, and the Agreement for Cooperation Between the Government of the United States of America and the Government of Japan Concerning Civil Uses of Atomic Energy, a amended.

The subsequent arrangements to be carried out under the above mentioned agreements involve approval of the following sales:

1) Contract Number S–EU–746, the Central Bureau for Nuclear Measurement, Geel, Belguim, 10 grams of plutonium, for use as standard reference material.

2) Contract Number S–EU–745, to the Commissariat A L'Energie Atomique, France, 3 grams of plutonium and 2 grams of uranium depleted in the isotope U–235, for use as standard reference material.

3) Contract Number S–JA–323, to the Power Reactor and Nuclear Fuel Development Corporation, Tokyo, Japan, 5 grams of plutonium, for use as standard reference material.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the furnishing of these nuclear materials will not be inimical to the common defense and security.

These subsequent arrangements will take effect no sooner than fifteen days after the date of publication of this notice.

For the Department of Energy.

Dated: September 15, 1982.

Dennis J. O'Brien,

Acting Deputy Assistant Secretary for International Energy Security.

BILLING CODE 6450-01-M

Marias River Electric Cooperative, Inc.; Application for Amendment to Authorization To Export Electric Energy

AGENCY: Department of Energy (DOE).

ACTION: Notice of Application by the Marias River Electric Cooperative, Inc. (MRE) for Authorization to Export Increased Amounts of Electric Energy.

SUMMARY: DOE has received an application from MRE for an amendment to the export authorization issued by the Federal Power Commission in Docket IT–6097 on October 19, 1970. Specifically, MRE has requested that its export authorization be increased from the previously authorized maximum amount of 2,000,000 kwh of electric energy per year at a maximum rate of transmission of 500 kw to 3,500,000 kwh at a maximum rate of transmission of 750 kw.

FOR FURTHER INFORMATION CONTACT:

Garet Bornstein, Office of Energy Emergency Operations (EP–42), Department of Energy, Forrestal Building, Mail Stop GB–270, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252–1714

Lise Courtney M. Howe, Office of General Counsel (GC–11), Department of Energy, Forrestal Building, Mail Stop 6F–094, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252–2900

SUPPLEMENTARY INFORMATION: On May 14, 1982, MRE filed an application with DOE requesting that the authorization to export electric energy granted in Docket IT–6097 be increased from 2,000,000 kwh per year at a maximum rate of transmission of 500 kw to 3,500,000 kwh per year at a maximum rate of transmission of 750 kw.

According to the application, the purchaser of the additional energy to be exported will continue to be Southern Utilities, Ltd., a Canadian corporation engaged in the distribution of electric energy in and around the Town of Coutts, Province of Alberta, Canada. These increased amounts of power and energy will be used by Southern Utilities, Ltd. in meeting its increased electrical utility loads. In the applicant's opinion, the increased level of exports, if authorized, will not impair the sufficiency of electrical supply within the United States or to any of the member/consumers within its serving area.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Office of Energy Emergency Operations (EP–42), Department of Energy, Forrestal Building, Mail Stop GB–270, 1000 Independence Avenue, SW., Washington, D.C. 20585, in accordance with § 1.8 or § 1.10 of the Rules of Practice and Procedure (18 CFR 1.8, 1.10

Any such petitions and protests should be filed on or before October 15, 1982. Such protests will be considered by DOE in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are available for public inspection and copying at the DOE Freedom of Information Act Reading Room, Room 1E–190, 1000 Independence Avenue, SW., Washington, D.C.

Issued in Washington, D.C., September 16, 1982.

William A. Vaughan,

Assistant Secretary, Environmental Protection, Safety, and Emergency Preparedness.

ENVIRONMENTAL PROTECTION AGENCY

[PF–292; PH FRL 2211–2]

Certain Companies; Pesticide, Food, and Feed Additive Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received pesticide, food, and feed additive petitions relating to establishment of tolerances for

residues of certain pesticide chemicals in or on certain raw agricultural commodities, and food and feed items.

ADDRESS: Written comments to the product manager (PM) cited in each specific petition at the address below: Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agnecy, 401 M St., SW., Washington, D.C. 20460.

Written comments may be submitted while the petitions are pending before the Agency. The comments are to be identified by the document control number "[PF–292]" and the specific petition number. All written comments filed in response to this notice will be available for public inspection in the product manager's office from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: The product manager cited in each petition at the telephone number provided.

SUPPLEMENTARY INFORMATION: EPA gives notice that the Agency has received the following pesticide, food, and feed additive petitions relating to establishment of tolerances for residues of certain pesticide chemicals in or on certain raw agricultural commodities, food and feed items in accordance with the Federal Food, Drug, and Cosmetic Act. The analytical method for determining residues, where required, is given in each petition.

PP 2F2684. Dow Chemical Co., PO Box 1706, Midland, MI 48640. Proposes amending 40 CFR 180.342 by establishing a tolerance for the combined residues of the insecticide chlorpyrifos (*O,O*-diethyl *O*-(3,5,6-trichloro-2-pyridyl) phosphorothioate and its metabolite 3,5,6-trichloro-2-pyridinol in or on the raw agricultural commodity cattle meat (fat basis) at 2.0 parts per million (ppm). The proposed analytical method for determining residues is gas chromatography. (PM 12, Jay Ellenberger, 703–557–2386).

PP 2F2723. Mobay Chemical Corp., PO Box 4913 Hawthorne Road, Kansas City, MO 64120. Proposes amending 40 CFR 180.349 by establishing a tolerance for residues of the nematocide ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl)phosphoramidate and its cholinesterase-inhibiting metabolites in or on the raw agricultural commodity grapes at 0.1 ppm. The proposed analytical method for determining residues is gas chromatography with thermionic flame ionization. (PM–21, Henry Jacoby, 703–557–1900).

PP 2F2728. Rhone-Poulenc, Inc., PO Box 125 Black Horse Lane, Monmouth Junction, NJ 08852. Proposes amending 40 CFR 180.399 by establishing tolerances as follows.

(a) For residues of the fungicide iprodione 3-(3,5-dichlorophenyl)-*N*-(1-methylethyl)-2,4-dioxo-1-imidazolidinecarboxamide and its metabolites 3-(1-methylethyl)-*N*-(3,5-dichlorophenyl)-2,4-dioxo-1-imidazolidinecarboxamide and 3-(3,5-dichlorophenyl)-2,4-dioxo-1-imidazolidinecarboxamide, in or on the raw agricultural commodities almond nutmeat at 0.05 ppm and almond hulls at 0.25 ppm.

(a) For the combined residues of 3-(3,5-dichlorophenyl)-*N*-(1-methylethyl)-2,4-dioxo-1-imidazolidinecarboxamide, by converting the non-hydroxylated phenyl ring moiety to the *N*-heptafluorobutyrate derivative of 3-,5-dichloroaniline common moiety, as iprodione equivalents in or on the raw agricultural commodities meat, meat byproducts (meat, kidney, fat, and liver) of cattle, goats, hogs, horses, and sheep at 0.80 ppm.

(c) For the combined residues of 3-(3,5-dichlorophenyl)-*N*-(1-methylethyl)-2,4-dioxo-1-imidazolidinecarboxamide, 3-(3,5-dichlorophenyl)-2,4-dioxo-1-imidazolidinecarboxamide, and *N*-(3,5-dichloro-4-hydroxyphenyl)-ureido carboxamide by converting respectively, the hydroxylated and the non-hydoxylated moiety to the 4-methoxy-3,5-dichloroaniline and the 3,5-dichloroaniline heptafluorobutyrates, as iprodione equivalents in or on the raw agricultural commodity milk at 0.15 ppm.

The proposed analytical method for determining residues is gas liquid chromatography with electron capture detector. (PM 21, Henry Jacoby, 703–557–1900).

FAP 2H5362. ICI Americas Inc., Concord Pike and New Murphy Road, Wilmington, DE 19897. Proposes amending 21 CFR Part 193 by establishing a regulation permitting residues of the insecticide (±)alpha-cyano-(3-phenoxyphenyl) methyl (±)-*cis,trans*-3-(2,2-dichloroethenyl)-2,2-dimethylcyclopropanecarboxylate in or on foods at 0.05 ppm resulting from application of the insecticide in connection with an experimental use permit. (PM 17, Franklin Gee, 703–557–2690).

FAP 2H5328. FMC Corp., 2000 Market St., Philadelphia, PA 19103. Proposes amending 21 CFR Part 193 by establishing a regulation permitting residues of the insecticide (±)alpha-cyano-(3-phenoxyphenyl) methyl (±)-*cis,trans*-3-(2,2-dichloroethenyl)-2,2-dimethylcyclopropanecarboxylate in or on cottonseed oil at 5.00 ppm. (PM 17, Franklin Gee, 703–557–2690).

FAP 2H5366. BFC Chemical Inc., 4311 Lancaster Pike, Wilmington, DE 19805. Proposes amending 21 CFR Part 561 by establishing a regulation permitting residues of the insecticide amitraz (*N'*-(2,4-dimethylphenyl)-*N*-[[(2,4-dimethylphenyl)imino]-methyl]-*N*-methylmethanimidamide) and its metabolites containing the 2,4-dimethylaniline moiety in or on the commodity dried apple pomace at 10.0 ppm in connection with an experimental use program. (PM 12, Jay Ellenberger, 703–557–2386).

PP 2F2743. Ciba-Geigy Corp., PO Box 18300 Greensboro, NC 27419. Proposes amending 40 CFR Part 180 by establishing a tolerance for the combined residues of the fungicide metalaxyl [*N*-(2,6-dimethylphenyl)-*N*-(methoxyacetyl) alanine methyl ester] and its metabolites containing the 2,6-dimethylaniline moiety, each expressed as metalaxyl, in or on raw agricultural commodities pineapples and pineapple fodder 0.1 ppm. The proposed analytical method for determining residues is gas chromatography with alkali flame ionization detector. (PM 21, Henry Jacoby, (703–557–1900).

PP 2F2737. Uniroyal Chemical, 74 Amity Road, Bethany, CT 06525. Proposes amending 40 CFR 180.406 by establishing a tolerance for residues of the harvest growth regulant (2,3-dihydro-5,6-dimethyl-1,4-dithiin 1,1,4,4-tetraoxide) in or on the raw agricultural commodity potatoes at 0.1 ppm. The proposed analytical method for determining residues is gas chromatography. (PM 25, Robert Taylor, 703–557–1800).

PP 2F2727. Elanco Products Co., 740 South Alabama St., Indianapolis, Indiana 46285. Proposes amending 40 CFR 180.390 by establishing a tolerance for the combined residues of the herbicide tebuthiuron (*N*-[5-1,1-dimethylethyl)-1,3,4-thiadiazol-2-yl]-*N,N'*-dimethylurea) and its metabolites containing the dimethylethyl thiadiazole moiety in or on the raw agricultural commodity milk at 0.2 ppm. The proposed analytical methods for determining residues are thin-layer chromatography, high pressure liquid chromatography, and mass spectrometry. (PM 25, Robert Taylor, 703–557–1800).

(Sec. 408(d)(1), 68 Stat. 512, (7 U.S.C. 136); 409(b)(5), 72 Stat. 1786, (21 U.S.C. 348))

Dated: September 13, 1982.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Certain Companies; Pesticide and Feed Additive Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received pesticide and feed additive petitions relating to establishment and amendment of tolerances for residues of certain pesticide chemicals in or on certain raw agricultural commodities and feed items.

ADDRESS: Written comments to the product manager (PM) cited in each specific petition at the address below: Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460.

Written comments may be submitted while the petitioners are pending before the Agency. The comments are to be identified by the document control number "[PF-293]" and the specific petition number. All written comments filed in response to this notice will be available for public inspection in the product manager's office from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: The product manager cited in each petition at the telephone number provided.

SUPPLEMENTARY INFORMATION: EPA gives notice that the Agency has received the following pesticide and feed additive petitions relating to establishment and amendment of tolerances for residues of certain pesticide chemicals in or on certain raw agricultural commodities and feed items in accordance with the Federal Food, Drug, and Cosmetic Act. The analytical method for determining residues, where required, is given in each petition.

PP 2F2733. Dow Chemical Co., PO Box 1706, Midland, MI 48640. Proposes amending 40 CFR 180.350 by establishing indirect or inadvertent tolerances for residues of the soil microbiocide nitrapyrin [2-chloro-6-(trichloromethyl)pyridine and its metabolite, 6-chloropicolinic acid in or on the following raw agricultural commodities when present therein as a result of its application to the growing of crops listed in 40 CFR 180.350(a): soybeans at 0.5 part per million (ppm); soybean, forage at 1.0 ppm; and soybean straw at 2.0 ppm. The proposed analytical method for determining residues is gas chromatography using electron capture detector. (PM 23, Richard Mountfort, 703-557-1830).

FAP 2H5365. Dow Chemical Co. Proposes amending 21 CFR Part 561 by establishing a regulation permitting indirect residues of the soil microbiocide nitrapyrin and its metabolite in soybean meal at 1.0 ppm. This tolerance would cover residues resulting in soybeans from application of nitroapyrin to crops for which there are specific tolerances established, or from the irrigation water from treated rice fields. (PM 23, Richard Mountfort, 703-557-1830).

FAP 2H5363. Monsanto Co., 1101 17th St., NW., Washington, D.C. 20036. Proposes amending 21 CFR Part 561 by establishing a regulation permitting the combined residues of the herbicide glyphosate (*N*-phosphonomethyl)-glycine and its metabolite, aminomethylphosphonic acid in or on soybean hulls at 30.0 ppm in connection with an experimental use permit. (PM 25, Robert Taylor, 703-557-1800).

PP 1F2500. Ciba-Geigy Corp., PO Box 18300 Greensboro, NC 27419. In the **Federal Register** of June 9, 1981 (46 FR 30562), EPA announced that Ciba-Geigy Corp. had submitted a pesticide petition (PP 1F2500) which proposed the establishment of tolerances for the combined residues of the fungicide metalaxyl [*N*-(2,6-dimethylphenyl)-*N*-(methoxyacetyl) alanine methyl ester] and its metabolites containing the 2,6-dimethylaniline moiety, each expressed as metalaxyl, in or on the raw agricultural commodities spinach at 10 ppm; soybean forage and fodder at 7 ppm; green onions at 5 ppm; wheat forage and straw at 2 ppm; tomatoes and dry bulb onions at 1 ppm; kidney of cattle, goats, hogs, horses, poultry, and sheep at 1.0 ppm; broccoli, cabbage, and cauliflower at 0.6 ppm; cucumber, head lettuce, potatoes, and soybean grain at 0.5 ppm; melons at 0.3 ppm; liver of cattle, goats, hogs, horses, poultry, and sheep at 0.3 ppm; wheat grain at 0.2 ppm; cottonseed at 0.1 ppm; eggs and meat of poultry (excluding liver and kidney) at 0.05 ppm; meat, fat, and meat byproducts (excluding liver and kidney) of cattle, goats, hogs, horses, poultry, and sheep at 0.05 ppm; and milk at 0.02 ppm.

Ciba-Geigy Corp. has amended the petition by increasing the proposed tolerances on dry bulb onions from 1 ppm to 3.0 ppm; liver of cattle, goats, hogs, horses, poultry, and sheep from 0.3 ppm to 0.4 ppm; and decreasing tolerances on kidney of cattle, goats hogs, horses, pountry, and sheep from 1.0 ppm to 0.4 ppm. The proposed analytical method for determining residues is gas chromatography with flame ionization detector or mass spectrometry. (PM-21, Henry Jacoby, 703-557-1900).

(Sec. 408(d)(1), 68 Stat. 512, (7 U.S.C. 136); 409(b)(5), 72 Stat. 1786, (21 U.S.C. 348))

Dated: September 9, 1982.

Emergency Exemptions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted specific exemptions for the control of various pests in the States listed below. Also listed are 14 crisis exemptions initiated by certain States.

DATES: See each exemption for its effective dates.

FOR FURTHER INFORMATION CONTACT: See each exemption for the name of the contact person. The following information applies to all contact people: Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 716, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-1192).

SUPPLEMENTARY INFORMATION: EPA has granted specific exemptions to the:

1. Arizona Department of Agriculture and Horticulture for the use of acephate on citrus to control citrus thrips; July 29, 1982 to October 15, 1982. Arizona had initiated a crisis exemption for this use. (Jack E. Housenger)

2. Arizona Department of Agriculture and Horticulture for the use of imazalil on citrus to control *Penicillium* spp; August 2, 1982 to August 1, 1983. (Jack E. Housenger)

3. California Department of Food and Agriculture for the use of acephate on citrus to control citrus thrips; July 29, 1982 to October 30, 1982. California had initiated a crisis exemption for this use. (Jack E. Housenger)

4. California Department of Food and Agriculture for the use of benomyl on crucifer seeds to control *Phoma lingam*; August 9, 1982 to July 1, 1983, or upon registration of benomyl for this use in the State of California, whichever occurs first. California had initiated a crisis exemption for this use. EPA has not yet made its final determination concluding the rebuttable presumption against registration (RPAR) of pesticide products containing benomyl. (Libby Welch)

5. California Department of Food and Agriculture for the use of dichlorvos on figs to control dried fruit beetles; July 21, 1982 to October 30, 1982. California had initiated a crisis exemption for this use. (Jim Tompkins)

6. California Department of Food and Agriculture for the use of fenamiphos on grapes to control dagger and root-knot nematodes; August 1, 1982 to July 31, 1983. (Jim Tompkins)

7. California Department of Food and Agriculture for the use of imazalil on cotton (seed treatment) to control *Thielavopsis basicola*; July 21, 1982 to March 12, 1983. California had initiated a crisis exemption for this use. (Jack E. Housenger)

8. California Department of Food and Agriculture for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to November 30, 1982. (Jack E. Housenger)

9. California Department of Food and Agriculture for the use of paraquat on rice to control weeds; August 2, 1982 to August 1, 1983. (Jim Tompkins)

10. California Department of Food and Agriculture for the use of metalaxyl on tomatoes to control late blight; July 29, 1982 to March 26, 1983. California had initiated a crisis exemption for this use. (Jack E. Housenger)

11. California Department of Food and Agriculture for the use of napropamide on basil, marjoram, and savory to control annual grasses and broadleaf weeds; July 29, 1982 to April 7, 1983. California had initiated a crisis exemption for this use. (Jack E. Housenger)

12. California Department of Food and Agriculture for the use of paraquat on kiwi fruit to control annual weeds and grasses; July 6, 1982 to August 31, 1982. California had initiated a crisis exemption for this use. (Jack E. Housenger)

13. California Department of Food and Agriculture for the use of permethrin on almonds to control navel orangeworms; July 9, 1982 to October 31, 1982. (Jim Tompkins)

14. California Department of Food and Agriculture for the use of permethrin or celery to control leafminers; July 19, 1982 to July 1, 1983. California has initiated a crisis exemption for this use. (Libby Welch)

15. California Department of Food and Agriculture for the use of propargite on sweet corn to control two-spotted and Pacific spider mites; July 19, 1982 to October 31, 1982. California has initiated a crisis exemption for their use. (Libby Welch)

16. California Department of Food and Agriculture for the use of sodium chlorate on beans (lima, blackeye, pinto, and mung) as a desiccant; July 29, 1982 to December 15, 1982. (Libby Welch)

17. Florida Department of Agriculture and Consumer Services for the use of imazalil on citrus to control *Penicillium digitatum;* August 2, 1982 to June 30, 1982. (Jack E. Housenger)

18. Georgia Department of Agriculture for the use of acephate on peanuts to control thrips; July 16, 1982 to October 1, 1982. (Libby Welch)

19. Georgia Department of Agriculture for the use of fenvalerate on southern peas to control cowpea *Curculio;* August 7, 1982 to October 31, 1982. (Libby Welch)

20. Idaho Department of Agriculture for the use of metalaxyl/captan on pea seed for export to the United Kingdom and Sweden to control downy mildew; August 2, 1982 to March 31, 1983. (Jack E. Housenger)

21. Idaho Department of Agriculture for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to November 30, 1982. (Jack E. Housenger)

22. Idaho Department of Agriculture for the use of triadimefon on sugar beets to control powdery mildew; July 9, 1982 to August 31, 1982. (Libby Welch)

23. Maryland Department of Agriculture for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to October 31, 1982. (Jack E. Housenger)

24. Maryland Department of Agriculture for the use of mevinphos on watercress to control aphids; July 26, 1982 to October 31, 1982. (Jack E. Housenger)

25. Massachusetts Department of Food and Agriculture for the use of acephate on cranberries to control brown spanworms; July 19, 1982 to August 1, 1982. Massachusetts had initiated a crisis exemption for this use. (Libby Welch)

26. Massachusetts Department of Food and Agriculture for the use of linuron on onions to control various weeds; July 31, 1982 to September 31, 1982. Massachusetts had initiated a crisis exemption for this use. (Libby Welch)

27. Missouri Department of Agriculture for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to October 31, 1982. (Jack E. Housenger)

28. New Jersey Department of Environmental Protection for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to November 30, 1982. (Jack E. Housenger)

29. New Jersey Department of Environmental Protection for the use of iprodione on onions and leeks to control white rot; July 6, 1982 to November 30, 1982. (Libby Welch)

30. New York Department of Environmental Conservation for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to November 30, 1982. (Jack E. Housenger)

31. Ohio Department of Agriculture for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to November 30, 1982. (Jack E. Housenger)

32. Ohio Department of Agriculture for the use of permethrin on mushrooms to control *Sciarid* and phorid flies; July 21, 1982 to June 12, 1983. (Jack E. Housenger)

33. Oklahoma Department of Agriculture for the use of metalaxyl on peanuts to control pod rot; July 16, 1982 to July 31, 1982. (Libby Welch)

34. Oregon Department of Agriculture for the use of methomyl on canberries to control leafrollers, orange *Tortrix,* and alfalfa loopers; August 7, 1982 to September 30, 1982. Oregon had initiated a crisis exemption for this use. (Libby Welch)

35. Oregon Department of Agriculture for the use of triadimefon on sugar beets to control powdery mildew; July 9, 1982 to August 31, 1982. (Libby Welch)

36. Pennsylvania Department of Agriculture for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to November 30, 1982. (Jack E. Housenger)

37. Pennsylvania Department of Agriculture for the use of mevinphos on watercress to control aphids; July 26, 1982 to October 31, 1982. Pennsylvania had initiated a crisis exemption for this use. (Jack E. Housenger)

38. South Carolina Division of Regulatory and Public Service Programs for the use of 1,2-dibromo-3-chlorpropane on peaches to control nematodes; August 13, 1982 to November 30, 1982. Notice of the conclusion of the rebuttable presumption against registration (RPAR) of pesticide products containing 1,2-dibromo-3-chloropropane was published in the **Federal Register** of October 29, 1979 (44 FR 65135). (Libby Welch)

39. Texas Department of Agriculture for the use of metalaxyl on peanuts to control pod rot; July 16, 1982 to July 31, 1982. (Libby Welch)

40. Utah Department of Agriculture for the use of cyhexatin on sweet and tart cherry trees to control spider mites; July 21, 1982 to Ocotober 1, 1982. (Jack E. Housenger)

41. Virginia Department of Agriculture and Consumer Services for the use of methiocarb on grapes to control

depredating birds; July 14, 1982 to November 30, 1982. (Jack E. Housenger)

42. Washington Department of Agriculture for the use of methiocarb on grapes to control depredating birds; July 14, 1982 to November 30, 1982. (Jack E. Housenger)

43. Washington Department of Agriculture for the use of metalaxyl/captan on pea seed for export to the United Kingdom and Sweden to control downy mildew; August 2, 1982 to March 31, 1983. (Jack E. Housenger)

44. Washington Department of Agriculture for the use of methomyl on caneberries to control leafrollers, orange *Tortrix*, and alfalfa loopers; August 7, 1982 to September 30, 1982. (Libby Welch)

45. West Virginia Department of Agriculture for the use of mevinphos on watercress to control aphids; July 26, 1982 to October 31, 1982. (Jack E. Housenger)

46. Wisconsin Department of Agriculture, Trade, and Consumer Protection for the use of oxyfluorfen on dry bulb onions to control weeds; July 29, 1982 to March 1, 1983. Wisconsin had initiated a crisis exemption for this use. EPA completed a rebuttable presumption against registration (RPAR) on this chemical; the final determination was published in the **Federal Register** of June 23, 1982 (47 FR 27118). (Jim Tompkins)

47. United States Department of the Interior for the use of sodium cyanide to control mammalian predators preying on whooping cranes at Gray's Lake National Wildlife Refuge in Idaho; October 1, 1982 to September 30, 1983. (Jim Tompkins)

Crisis exemptions were initiated by the:

1. California Department of Food and Agriculture on July 2, 1982, for the use of benomyl on crucifers to control blackleg. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until July 1, 1983. (Libby Welch)

2. California Department of Food and Agriculture on July 15, 1982, for the use of carbofuran on artichokes to control the cribrate weevil. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until July 15, 1983. (Jack E. Housenger)

3. California Department of Food and Agriculture on June 17, 1982, for the use of permethrin on alfalfa grown for seed to control the spotted alfalfa aphid. Since it was anticipated that this program would be needed for more than 15 days, California requested a specific exemption to continue it. The program ended on August 17, 1982. (Jack E. Housenger)

4. California Department of Food and Agriculture on July 2, 1982, for the use of propyzamide on artichokes to control annual weeds and grasses. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until December 31, 1982. (Libby Welch)

5. Ohio Department of Agriculture on July 9, 1982, for the use of metalaxyl on tobacco to control blue mold. The program ended July 24, 1982. (Libby Welch).

6. California Department of food and Agriculture on June 28, 1982, for the use of methiacarb on crucifer seeds to control depredating birds. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until June 25, 1983. (Libby Welch)

7. California Department of Food and Agriculture on July 2, 1982, for the use of permethrin on celery to control the leafminer. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until July 1, 1983. (Libby Welch)

8. California Department of Food and Agriculture on July 28, 1982, for the use of permethrin on tomatoes to control the pinworm, leafminer, and *Heliothis*. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until July 28, 1983. (Libby Welch)

9. California Department of Food and Agriculture on July 8, 1982, for the use of triadimefon on cucurbits to control powdery mildew. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until July 8, 1983. (Jack E. Housenger)

10. California Department of Food and Agriculture on July 6, 1982, for the use of triadimefon on sugar beets to control powdery mildew. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until July 15, 1983. (Libby Welch)

11. California Department of Food and Agriculture on June 29, 1982, for the use of vinclozolin on strawberries to control *Botrytis* gray mold. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until June 29, 1983. (Jack E. Housenger)

12. North Carolina Department of Agriculture on July 21, 1982, for the use of chlorpyrifos on grapes to control the grape root borer. The need for this program ended August 9, 1982. (Jack E. Housenger)

13. Texas Department of Agriculture on July 27, 1982, for the use of permethrin on soybeans to control soybean loopers. Since it was anticipated that this program would be needed for more than 15 days, Texas has requested a specific exemption to continue it. The need for this program is expected to last until November 15, 1982. (Libby Welch)

14. Texas Department of Agriculture on July 27, 1982, for the use of permethrin on field corn to control the southwestern corn borer. Since it was anticipated that this program would be needed for more than 15 days, Texas has requested a specific exemption to continue it. The need for this program ended August 31, 1982. (Jack E. Housenger)

(Sec. 18, as amended, 92 Stat. 819 (7 U.S.C. 136))

Dated: September 10, 1982.

Guidelines for Development of Test Data; Initiation of Annual Review Process

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Office of Toxic Substances (OTS) has published guidelines for health effects, environmental effects and chemical fate testing which are available through the National Technical Information Service (NTIS), as announced in the **Federal Register** of July 30, 1982 (47 FR 33001). The Agency will now be conducting an annual review of the generic test guidelines to ensure that testing methodologies recommended by the Agency remain current and consistent

with advances in science. Interested persons are invited to submit written comments to the EPA on the TSCA test guidelines being published by NTIS.

DATE: These comments are to be received no later than the close of business January 3, 1983.

ADDRESS: Written comments should bear the document control number OPTS 46011 and should be submitted to: Document Control Officer (TS–793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–409, 401 M St., SW., Washington, D.C 20460.

FOR FURTHER INFORMATION CONTACT: Douglas G. Bannerman, Acting Director, Industry Assistance Office (TS–799), Office of Toxic Substances, Environmental Protection Agency, Room E–511B, 401 M St., SW., Washington, D.C. 20460, In Washington, D.C.: (554–1404), Toll-free: (800–424–9065), Outside the USA: (Operator—202–554–1404).

SUPPLEMENTARY INFORMATION: Section 4(b)(2)(B) of TSCA [90 Stat. 2007 (15 U.S.C. 2603)], requires that, from time to time, but not less than once each 12 months, the Administrator shall review the adequacy of the standards for development of data prescribed in rules under subsection (a) and shall, if necessary, institute proceedings to make appropriate revisions of such standards. EPA's current policy, published for comment in the **Federal Register** of March 26, 1982 (47 FR 13012), calls for the development of test standards on a rule-by-rule basis, rather than incorporation of generic test standards into an individual rule. The rule-by-rule development of the test standards will itself achieve the major goals of the annual review requirement—assuring that testing performed pursuant to section 4(a) test rules for particular chemicals is performed according to the most up-to-date techniques which are available and validated. While it is possible that new testing developments will occur after the standards are imposed for an individual chemical, it is difficult to conceive of a situation in which it would be feasible to change the standards for a chemical already being tested. Thus, an annual review of standards for a chemical already being tested would not generally be performed in the absence of compelling reasons to do so.

In addition to the rule-by-rule development of test standards for individual chemicals subject to section 4(a) rules, EPA will achieve the purposes of section 4(b)(2)(B) through an annual review of is generic test methodology guidelines. These guidelines serve as one of several bases for the development of rule-by-rule test standards. To make the annual review process meaningful and in order to keep test guidelines current with advances and improvements in scientific methodology, the Agency has voluntarily developed a formal process for the annual review of generic test guidelines. Today's notice initiates the first of these reviews.

The OTS annual review will take optimum advantage of existing Agency internal and external resources for information gathering and processing. A comment period has been provided so that potential users and the general public can review the test guidelines and submit suggestions for future improvements, thereby, assisting the Agency in maintaining state of the art test guidelines. Comments offering suggestions or proposing changes in any of the generic test guidelines which will increase clarity or help to keep test guidelines current with advances in science will be carefully reviewed and incorporated as deemed appropriate in the development of guideline modifications or of new guidelines or in individual chemical test standards. The Agency will carefully evaluate public comments on the test guidelines. New guidelines or guideline modifications will be subjected to peer review prior to publication through NTIS so that these documents will represent current levels of scientific expertise available at the time of publication. The current public comment period is open through January 3, 1983 and comments will be accepted on all generic testing guidelines announced as available in the **Federal Register** of July 30, 1982 (47 FR 33001). The annual review, beginning in October of 1983 and in October of subsequent years, will request comment on new guidelines, guideline modifications, and and areas of focused concern requiring further scientific development. The Agency will not consider comments on issues resolved during previous reviews, unless new data have been developed to justify reappraisal.

A formal OTS annual review of test guidelines provides a structured process which will ensure that the Agency will recommend test guideance which is representative of state of the art technology. Development of up-to-date test guidelines will assist the Agency in utilizing the most appropriate and cost effective testing available on a chemical-by-chemical basis.

The annual review process will complete its first cycle in October, 1983. All future annual review cycles are scheduled to begin during the beginning of successive fiscal years.

Dated: September 14, 1982.

Mobay Chemical Corp.; Approval of Application To Register a Pesticide Product Involving a Changed Use Pattern

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has approved the application by the Mobay Chemical Corp. to register the insecticide Oftanol 6 Emulsifiable Insecticide involving a changed use pattern pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: William Miller, Product Manager (PM) 16, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 211, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–2600).

SUPPLEMENTARY INFORMATION: EPA issued a notice published in the **Federal Register** of January 13, 1982 (47 FR 1408) that the Mobay Chemical Corp., 1140 Connecticut Ave., NW., Washington, D.C. 20036, had submitted an application to register the insecticide Oftanol 6 Emulsifiable Insecticide containing 66 percent of the active ingredient 1-methylethyl 2-[[ethoxy[(1-methylethyl]amino]phosphinothioyl]oxy] benzoate. The application proposed a changed use pattern for this active ingredient.

The application was approved on July 19, 1982 as a restricted use pesticide for domestic use for control of termites. This active ingredient was previously registered only for non-domestic use on the agricultural crop, corn. The product was assigned EPA Registration No. 3125–339.

A copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the product manager. The data and other scientific information used to support registration, except for the material specifically protected by section 10 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (92 Stat. 819; 7 U.S.C. 136), will be available for public inspection in accordance with section

3(c)(2) of FIFRA within 30 days after registration date. Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A–101), EPA, 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) identify the product name and registration number and (2) specify the data or information desired.

(Sec. 3(c)(2) FIFRA, as amended)

Dated: September 10, 1982.

Edwin L. Johnson,

Director, Office of Pesticide Programs.

BILLING CODE 6560–50–M

[OPP–C30204A; PH–FRL 2212–3]

Uniroyal Chemical Inc.; Approval of Application to Conditionally Register a Pesticide Product Containing a New Active Ingredient

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has conditionally approved the application by Uniroyal Chemical Inc. to register the plant growth regulant Harvade 5F containing an active ingredient not included in any previously registered pesticide product pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: Robert Taylor, Product Manager (PM) 25, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, CM#2 Rm. 245, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–1800).

SUPPLEMENTARY INFORMATION: EPA issued a notice published in the **Federal Register** of October 13, 1981 (46 FR 50413) that Uniroyal Chemical Inc., 74 Amity Road, Bethany, CT 06525, had submitted an application to register the plant growth regulant Harvade 5F containing 49 percent of the active ingredient (2,3-dihydro-5,6-dimethyl-1,4-dithiin 1,1,4,4-tetraoxide) an ingredient not included in any previously registered product.

The application was approved on August 13, 1982 for general use in pesticide formulation. The product was assigned EPA Registration No. 400–155.

A copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the product manager. The data and other scientific information used to support registration, except for the material specifically protected by section 10 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (92 Stat. 819; 7 U.S.C. 136), will be available for public inspection in accordance with section 3(c)(2) of FIFRA within 30 days after registration date. Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A–101), EPA, 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) identify the product name and registration number and (2) specify the data or information desired.

(Sec. 3(C)(2) FIFRA, as amended)

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. CC82–122]

Interconnection Arrangements Between and Among the Domestic and International Record Carriers

September 13, 1982.

By *Order*, Mimeo No. 5976, released August 25, 1982, we requested that carriers file contracts assertedly grandfathered by the Record Carrier Competition Act of 1981, Pub. L. No. 97–130, § 4, 95 Stat. 1687, for publication in the **Federal Register**. Interested persons may comment on the issue of whether the contracts are subject to Section 4 and are otherwise lawful. These comments must be filed within twenty (20) days of this publication in the **Federal Register**. Carriers submitting contracts may file replies within ten (10) days of the filing of comments.

Two carriers filed contracts listed below.

The text of contracts follows.

TRT Telecommunications Corp.—Contract of May 19, 1980, with Western Union Telegraph Co. and modification of July 1, 1980.

FTC Communications, Inc.—Contract of November 10, 1980, with Western Union Telegraph Co.

Federal Communications Commission,

Gary M. Epstein,

Chief, Common Carrier Bureau.

TRT Telecommunications Corp.

May 19, 1980.

Mr. Delmar Harmon,

Vice President—Carrier Relations, Westrn Union Telegraph Company, One Lake Street, Upper Saddle River, New Jersey 07548.

Dear Mr. Harmon: This letter will confirm the arrangements we have agreed to under which TRT will provide, on a non-exclusive basis, transiting facilities for a portion of the overseas transmission of international telex traffic filed with Western Union pursuant to Western Union's tariff for overseas telex routing service (OTRS) or such other similar traffic as to which Western Union assumes tariffing, billing and collection responsibilities.

For telex traffic transferred to TRT pursuant to this Agreement, Western Union will pay TRT $.30 per minute, except for UK-destined traffic as to which Western Union will pay TRT $.10 per minute. In addition, Western Union will pay TRT for the amounts due TRT's correspondents for their handling of the traffic. The above amounts will be paid on a monthly basis to TRT no later than ninety (90) days following the month in which the traffic is transmitted.

In consideration for TRT's entering into this Agreement, including TRT's investment in facilities to accommodate Western Union's anticipated traffic, Western Union agrees that it will route a minimum of fifty million (50,000,000) minutes of traffic (no more than ten million (10,000,000) minutes destined to the United Kingdom (UK) will be counted against this minimum) during the initial five year period after the effective date of this Agreement. (In all instances in this Agreement, minutes shall mean minutes as billed by Western Union to its customers.) In addition, if Western Union routes more than fifty million (50,000,000) minutes of traffic via TRT, it agrees that no more than 25% of the total telex traffic (in minutes) transferred to TRT pursuant to this Agreement will be destined to the United Kingdom. TRT agrees to accommodate up to forty thousand (40,000) minutes per day within ninety (9) days after the effective date of this Agreement, eighty thousand (80,000) minutes per day within one hundred-fifty (150) days after the effective date of this Agreement and up to one hundred twenty thousand (120,000) minutes per day upon Western Union's providing TRT with reasonable advance notice of its intention to transmit that volume of traffic. Western Union will provide TRT wth sufficient advance notice of its projected traffic volumes to allow TRT adequate opportunity to acquire the facilities necessary to accommodate Western Union's anticipated traffic.

If Western Union routes more than ten million (10,000,000) minutes of traffic subject to this Agreement to TRT during any of the five consecutive 12-month periods commencing with the effective date of this Agreement, the amounts due TRT for its handling of traffic to points other than the UK for such Excess Minutes (i.e., total minutes of traffic transferred during each such 12-month period minus ten million (10,000,000) minutes) shall, at Western Union's election, be reduced on a non-cumulative basis in accordance with the following discount schedule:

Excess minutes	Discount minute
0 to 3 million	$.02
3 to 6 million	.04
6 to 9 million	.06
9 to 12 million	.08
Over 12 million	.10

The above discounts will not be applicable to traffic destined to the UK and UK-destined traffic shall not be considered in the calculation of the discounts applicable pursuant to the above schedule except that a maximum of two million (2,000,000) minutes of UK destined traffic may be included as part of the ten million (10,000,000) minutes of non-discounted traffic required before the discount schedule becomes applicable.

Western Union's fifty million (50,000,000) minute commitment under this Agreement must be satisfied solely out of traffic for which no Excess Minute Discount is applicable. However, should Western Union elect the above Excess Minute Discounts in any 12-month period, it may, within the next succeeding year, repay to TRT the average discount applicable during the preceding year for as much as five million (5,000,000) minutes of such discounted traffic and thereby qualify that traffic for satisfaction of Western Union's fifty million (50,000,000) minute commitment.

TRT will provide the same quality of international transmission and switching for Western Union's traffic pursuant to this Agreement that TRT provides to its own telex customers, except that TRT will have the option upon ninety (90) days notice to Western Union, to require it at any time after January 1, 1981, to switch all TRT-routed UK-destined traffic directly to TRT's overseas telex trunks. Traffic will be transferred to TRT via 50 baud telex trunks provided by Western Union and terminating at TRT's switching center in Ft. Lauderdale, Florida.

Western Union agrees that all outbound "OTRS" (or similar) traffic transmitted by TRT pursuant to this Agreement will be considered TRT's traffic for purposes of obtaining allocations of return telex traffic from foreign correspondents.

This Agreement is completely independent of the Western Union—TRT Agreement for Express Telex Service dated December 12, 1979, and telex traffic transmitted pursuant to this Agreement cannot be used to satisfy Western Union's obligations to TRT pursuant to the Agreement for Express Telex Service. Similarly, this Agreement does not apply to any other traffic originating on the Western Union system that is transmitted via TRT pursuant to (1) our Agreement of August 25, 1967 or (2) our similar arrangements for the exchange of TWX-originated international telex traffic.

This Agreement shall be binding upon both parties immediately upon execution as evidenced by your signature in the space provided at the end of this letter. However, the effective date of the Agreement shall be August 15, 1980, or as soon thereafter as Western Union, using its best efforts, is able to permit its customers to access TRT, via OTRS (or any similar service), for "conversational" or "live" connections with overseas telex subscribers.

In the event that performance of this Agreement is prohibited or enjoined by the Federal Communications Commission or by any court of competent jurisdiction, all obligations or duties arising out of this Agreement shall be postponed for the duration of such prohibition or injunction, and any such prohibition or injunction shall toll the running of the five year period and 12-month periods referred to above in connection with minimum traffic quarantees and the discount applicable to Excess Minutes.

On and after the effective date of this Agreement, this Agreement shall supersede the agreement between the parties evidenced by TRT's telex messages to Western Union dated October 4, 1979, and April 25, 1980.

Sincerely,

David H. Lubetzky.

Delmar Harmon.

TRT Telecommunications Corp.

July 1, 1980.

Mr. Richard C. Callaghan,
Vice President, Western Union Telegraph Company, 1828 L Street, N.W., Washington, D.C. 20036.

Dear Dick: TRT Telecommunications Corporation (TRT) has entered into an Agreement with The Western Union Telegraph Company (Western Union) evidenced by TRT's letter to Western Union, dated May 19, 1980, under which TRT will provide transiting telex facilities to Western Union. Said Agreement presently provides that "... the effective date of the Agreement shall be August 15, 1980 or as soon thereafter as Western Union, using its best efforts, is able to permit its customers to access TRT, via OTRS (or any similar services), for 'conversational' or 'live' connections with overseas telex subscribers.

In view of the fact that the parties desire to exchange traffic pursuant to this Agreement without further delay, it has now been agreed between Western Union and TRT to modify the May 19 Agreement to provide that said Agreement shall become effective as of the date of this letter. However, the five year period relating to the 50 million minute traffic guarantee by Western Union described in the last paragraph beginning on page 1 of the May 19, 1980 letter and the first consecutive 12-month period relating to the calculation of discounts described in the first paragraph beginning on page 2 of the May 19, 1980 letter shall be extended by an additional number of days equal to the number of days between the date of this letter and the earliest of the following dates:

1. The date on which the transfer by Western Union to TRT of the 500,000th minute of traffic pursuant to the Agreement occurs;

2. Any date on which transfer by Western Union to TRT of more than 10,000 minutes of traffic pursuant to the Agreement occurs;

3. December 1, 1980.

The traffic transferred to TRT pursuant to the Agreement between the date of this letter and the earliest of the above dates will be included as part of Western Union's 50 million minute traffic guarantee but will not be included in the calculation of the discounts pursuant to the schedule set forth at page two of the May 19, 1980 letter.

Except as described above, the aforesaid transiting facilities Agreement shall remain as set forth in the letter from TRT to Western Union, dated May 19, 1980.

Two copies of this letter have been furnished to you. To indicate Western Union's concurrence with this modification of the prfor May 19, 1980 Agreement, would you please sign at the place designated below and return one signed copy to me.

Very, truly yours,

David H. Lubetzky.

Richard C. Callaghan,
Vice President, Western Union Telegraph Company.

FTC Communications, Inc.

November 10, 1980.

Mr. Delmar Harmon,
Vice President, The Western Union Telegraph Company, One Lake Street, Upper Saddle River, NY 07950.

Dear Mr. Harmon: This letter will confirm the arrangements we have agreed to under which FTCC will provide, on a non-exclusive basis, transiting facilities for overseas transmission of a portion of the international Telex traffic filed with Western Union pursuant to Western Union's tariff No. FCC 276 for International Telex Access Service or such other similar traffic as to which Western Union assumes tariffing, billing and collection responsibilities. Western Union agrees to transfer to FTCC all such traffic routed by the sender via FTCC.

For Telex traffic transferred to FTCC pursuant to this Agreement, Western Union will pay FTCC 30 cents per minute for all destination countries other than the United Kingdom, and 10 cents per minute to the United Kingdom, plus an allowance for payouts to foreign administrations. The allowance for payouts to foreign administrations shall be the lesser of: (1) the total actual FTCC payout to foreign administrations for the traffic transferred to FTCC pursuant to this Agreement, or (2) the total payout to foreign administrations for such traffic assuming the prime route payouts as reported from time to time to the Federal Communications Commission by TRT Telecommunications Corporation (TRT) pursuant to § 43.53 of the FCC's Rules; provided that in calculating (2) above, the payout rate applicable to traffic transmitted via FTCC shall not be reduced due to a reduction in the TRT prime route payout rate until 90 days from the effective date of said reduction in TRT payouts. FTCC shall provide Western Union with data applicable to it necessary for the performance of the foregoing computation. Western Union will pay FTCC the amounts due under this agreement no later than ninety (90) days following the month in which the traffic is transmitted.

FTCC shall supply Western Union with a list of destination countries to which it will accept traffic pursuant to this Agreement and will give Western Union advance notice of any changes in such list. Western Union shall file necessary revisions to applicable

Western Union tariffs within 15 days of receipt of such notice of change. The change shall become effective upon the effectiveness of such tariff revision.

Western Union agrees that it will not discourage senders from routing traffic via FTCC by charging senders rates for traffic covered hereby to any destination country which are higher than the rates charged by Western Union for traffic to the same country transmitted overseas by any other carrier; except that if such other carrier is willing to accept lower payment than that specified in the second paragraph above, Western Union may pass such reduction to the public in the form of reduced collection rates for traffic routed via such carriers. If Western Union reduces collection rates in accordance with the foregoing provision, FTCC shall have the right to accept a lower payment for its transmission services hereunder; and if it does so, Western Union will reduce its collection rates for traffic routed via FTCC to pass such reduction to the public.

FTCC will provide the same quality of international transmission and switching for Western Union's traffic pursuant to this Agreement that FTCC provides to its own Telex customers. Traffic will be transferred to FTCC via 50 baud Telex trunks provided by Western Union and terminating at FTCC's switching center in New York, New York. Western Union shall take such steps as necessary to prevent switching traffic to FTCC that is destined to a country not included on the list of countries provided by FTCC to Western Union.

Western Union agrees that all outbound "ITAS" (or similar) traffic transmitted by FTCC pursuant to this Agreement will be considered FTCC's traffic for purposes of obtaining allocations of return Telex traffic from foreign correspondents.

This Agreement does not apply to any traffic originating on the Western Union system that is transmitted via FTCC pursuant to (1) our Agreement of April 12, 1973 or (2) our similar arrangements for the exchange of TWX-originated international Telex traffic, or (3) to any traffic not billed by Western Union or not pursuant to a Western Union tariff.

This Agreement shall be binding upon both parties immediately upon execution as evidenced by your signature in the space provided at the end of this letter. However, the Effective Date of the Agreement shall be December 21, 1980, or as soon thereafter as Western Union, using its best efforts, is able to permit its customers to access FTCC, via ITAS (or any similar service), for "conversational" or "live", or store and forward connections with overseas Telex subscribers.

In the event that performance of this Agreement is prohibited, delayed or enjoined by the Federal Communications Commission or by any court of competent jurisdiction, all obligations or duties arising out of this Agreement shall be postponed for the duration of such prohibition, delay or injunction.

The term of this Agreement shall be five years from the Effective Date, and shall continue thereafter from year to year unless terminated by either party by written notice at least 60 days prior to the expiration of the then current term.

Sincerely,

R. Treglos,

FTC Communications, Inc.

Accepted:

The Western Union Telegraph Company.

Delmar Harmon,

Vice President.

BILLING CODE 6712-01-M

FEDERAL ELECTION COMMISSION

[Notice 1982-7]

Filing Dates for Indiana Special General Election

AGENCY: Federal Election Commission.

ACTION: Notice of Filing Dates for Indiana Special General Election.

SUMMARY: Committees required to file reports in connection with the Special General Election to be held in the 1st Congressional District of Indiana on November 2, 1982, must file a 12-day pre-election report by October 21, 1982, and a 30-day post-election report by December 2, 1982.

FOR FURTHER INFORMATION CONTACT: Ms. Bobby Werfel, Public Information Office 1325 K Street, NW., Washington, D.C. 20463, Tel: (202) 523-4068; Toll-free: (800) 424-9530.

Notice of Filing Dates for Special General Election, 1st Congressional District, Indiana

All principal campaign committees of candidates in the Special General Election and all other political committees which suppport candidates in the Special General Election shall file a 12-day pre-election report due on October 21, 1982, and a 30 day post-election report due on December 2, 1982. In addition, because this Special Election coincides with the regularly scheduled General Election, all political committees filing monthly are also required to file the above mentioned reports. All other political committees should contact the Commission for further information concerning General Election reporting requirements.

Dated: September 17, 1982.

Frank P. Reiche,

Chairman, Federal Election Commission.

FEDERAL MARITIME COMMISSION

[Docket No. 82-45]

Cutters Exchange, Inc. v. Cargo International Inc., et al.; Filing of complaint and Assignment

Notice is given that a complaint filed by Cutters Exchange, Inc. against Cargo International Inc., et al. was served September 14, 1982. Complainant alleges that respondent has operated as an independent ocean freight forwarder without benefit of a bond, in violation of 46 U.S.C. 841 b(section 44, Shipping Act, 1916).

This proceeding has been assigned to Administative Law Judge Norman D. Kline. Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

Francis C. Hurney,

Secretary.

FEDERAL RESERVE SYSTEM

Acquisition of Bank Shares by Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of New York** (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Manufacturers Hanover Corporation,* New York, New York; to acquire 100 percent of the voting shares or assets of MHC Holding (Delaware) Inc., Wilmington, Delaware and thereby indirectly acquire Manufacturers Hanover Bank (Delaware), Wilmington, Delaware. Comments on this application must be received not later than October 13, 1982.

B. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Mid-Central Bancshares Corporation,* Charleston, Illinois; to acquire 51 percent of the voting shares or assets of Ashmore State Bank, Ashmore, Illinois. Comments on this application must be received not later than October 13, 1982.

C. **Federal Reserve Bank of Kansas City** (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *CharterCorp,* Kansas City, Missouri; to acquire 100 percent of the voting shares or assets of the successor by merger to American National Bank, St. Louis, Missouri. Comments on this application must be received not later than October 15, 1982.

2. *CharterCorp,* Kansas City, Missouri; to acquire 100 percent of the voting shares or assets of the successor by merger to City Bank, St. Louis, Missouri. Comments on this application must be received not later than October 15, 1982.

D. **Federal Reserve Bank of Dallas** (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *First Bancshares of Texas, Inc.,* Longview, Texas; to acquire 95.2 percent of the voting shares or assets of The Hamilton National Bank, Hamilton, Texas. Comments on this application must be received not later than October 13, 1982.

Board of Governors of the Federal Reserve System, September 16, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Formation of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become bank holding companies by acquiring voting shares and/or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and request for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than the date indicated for each application.

Federal Reserve Bank of New York (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Barclays Bank PLC* and its subsidiary, Barclays Bank International Limited, each a bank holding company whose principal office is in London, England (consumer finance; Alcoa, Tennessee): To engage through their subsidiary, BarclaysAmerican/Financial, Inc., in making direct consumer loans, including loans secured by real estate, and purchasing sales finance contracts representing extensions of credit such as would be made or acquired by a consumer finance company, and wholesale financing (floor planning) and acting as agent for the sale of related credit life, credit accident and health and credit property insurance. Credit life and credit accident and health insurance sold as agent may be underwritten or reinsured by BAC's insurance underwriting subsidiaries. This activity would be conducted from an office of BAC located in Alcoa, Tennessee, serving customers in Alcoa and surrounding areas in Tennessee. This notification is for the relocation of an existing office located in Alcoa, Tennessee. Comments on this application must be received not later than October 15, 1982.

2. *Barclays Bank PLC* and its subsidiary, Barclays Bank International Limited, each a bank holding company whose principal office is in London, England (consumer finance; Salisbury, North Carolina): To engage through their subsidiaries BarclaysAmerican/Financial, Inc., BarclaysAmerican/Financial Services, Inc., and BarclaysAmerican/Mortgage, Inc., in making direct consumer loans, including loans secured by real estate, and purchasing sales finance contracts representing extensions of credit such as would be made or acquired by a consumer finance company, and wholesale financing (floor planning) and acting as agent for the sale of related credit life, credit accident and health and credit property insurance. Credit life and credit accident and health insurance sold as agent may be underwritten or reinsured by BAC's insurance underwriting subsidiaries. This activity would be conducted from an office of BAC located in Salisbury, North Carolina serving customers in Salisbury and surrounding areas in North Carolina. This notification is for the relocation of an existing office located in Salisbury, North Carolina. Comments on this application must be received not later than October 15, 1982.

3. *Barclays Bank PLC* and its subsidiary, Barclays Bank International Limited, each a bank holding company whose principal office is in London, England (consumer finance; Charlotte, North Carolina): To engage through their subsidiary BarclaysAmerican/Financial, Inc., BarclaysAmerican Financial Services, Inc., and BarclaysAmerican/Mortgage, Inc., all North Carolina corporations, in making direct consumer loans, including loans secured by real estate, and purchasing sales finance contracts representing extensions of credit such as would be made or

acquired by a consumer finance company, and wholesale financing (floor planning) and acting as agent for the sale of related credit life, credit accident and health and credit property insurance. Credit life and credit accident and health insurance sold as agent may be underwritten or reinsured by BAC's insurance underwriting subsidiaries. This activity would be conducted from an office of BAC located in Charlotte, North Carolina serving customers in Charlotte and surrounding areas in North Carolina. This notification is for the relocation of an existing office located in Charlotte, North Carolina. Comments on this application must be received not later than October 15, 1982.

4. *Barclays Bank PLC* and its subsidiary, Barclays Bank International Limited, each a bank holding company whose principal office is in London, England (consumer finance; Ontario, Oregon): To engage through their subsidiary, BarclaysAmerican/Financial, Inc., in making direct consumer loans, including loans secured by real estate, and purchasing sales finance contracts representing extensions of credit such as would be made or acquired by a consumer finance company, and wholesale financing (floor planning) and acting as agent for the sale of related credit life, credit accident and health and credit property insurance. Credit life and credit accident and health insurance sold as agent may be underwritten or reinsured by BAC's insurance underwriting subsidiaries. This activity would be conducted from an office of BAC located in Ontario, Oregon, serving customers in Ontario and surrounding areas in Oregon. This notification is for the relocation of an existing office located in Payette, Idaho. Comments on this application must be received not later than October 15, 1982.

5. *Barclays Bank PLC* and its subsidiary, Barclays Bank International Limited, each a bank holding company whose principal office is in London, England (consumer finance; Monroe, Louisiana): To engage through their subsidiaries, BarclaysAmerican/Financial, Inc. and BarclaysAmerican/Financial Inc. (Texas), in making direct consumer loans, including loans secured by real estate, and purchasing sales finance contracts representing extensions of credit such as would be made or acquired by a consumer finance company, and wholesale financing (floor planning) and acting as agent for the sale of related credit life, credit accident and health and credit property insurance. Credit life and credit accident and health insurance sold as agent may be underwritten or reinsured by BAC's insurance underwriting subsidiaries. This activity would be conducted from an office of BAC located in Monroe, Louisiana, serving customers in Monroe and surrounding areas in Louisiana. This notification is for the relocation of an existing office in Ruston, Louisiana. Comments on this application must be received not later than October 15, 1982.

Board of Governors of the Federal Reserve System, September 16, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

Agenda: From 9:00–10:00 a.m., October 29, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of 5 U.S.C. 552b(c)(6), and Section 10(d) of Pub. L. 92–463 (5 U.S.C. Appendix I).

* * * * *

Substantive information may be obtained from the contact persons listed above. Summaries of the meetings and rosters of Committee members may be obtained as follows: NIAAA: Mrs. Diana Widner, Committee Management Officer, Room 16C18, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443–4375. NIDA: Ms. Claudette Wright, Committee Management Officer, Room 10–22, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443–1644. NIMH: Ms. Helen W. Garrett, Committee Management Officer, Room 17C26, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443–4333.

Dated: September 16, 1982.

Sue Simons,

Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

Centers for Disease Control

Safety and Occupational Health Study Section; Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control announces the following National Institute for Occupational Safety and Health (NIOSH) committee meeting:

Name: Safety and Occupational Health Study Section
Date: October 19–20, 1982
Place: Conference Room G, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857
Time and type of meeting: Open—8:30 a.m. to 10:00 a.m.—October 19. Closed—10:00 a.m. to 5 p.m.—October 19. Closed—8:30 a.m. to 5 p.m.—October 20.
Contact person: Mark R. Green, Ph. D., Executive Secretary, 5600 Fishers Lane, Parklawn Building, Room 8–63, Rockville, Maryland 20857, Telephone: 301–443–4493
Purpose: The committee is charged with the initial review of research, training,

demonstration, and fellowship grant applications for Federal assistance in program areas administered by the National Institute for Occupational Safety and Health, and with advising the Institute staff on training and research needs.

Agenda: Agenda items for the open portion of the meeting will include consideration of minutes of previous meeting and administrative reports. Beginning at 10:00 a.m., October 19, through October 20, 1982, the Study Section will be performing the initial review of research, demonstration and training grant applications for Federal assistance, and will not be open to the public, in accordance with the provisions set forth in Section 552b(c)(6), Title 5 U.S. Code, and the Determination of the Director, Centers for Disease Control, pursuant to Public Law 92–463.

Agenda items are subject to change as priorities dictate.

The portion of the meeting so indicated is open to the public for observation and participation. A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: September 14, 1982.

William H. Foege,

Director, Centers for Disease Control.

BILLING CODE 4160-19-M

Health Care Financing Administration

Medicare Program; Exclusion From Medicare Coverage of DMSO for Conditions Other Than Interstitial Cystitis

AGENCY: Health Care Financing Administration (HCFA), HHS

ACTION: Notice of ruling.

SUMMARY: This notice announces a HCFA ruling that restates Medicare policy for the coverage of the drug dimethyl sulfoxide (DMSO). DMSO is a covered service only when administered for the treatment of interstitial cystitis. This HCFA ruling assures uniform Medicare policy on the coverage of DMSO.

EFFECTIVE DATE: Effective for services furnished after September 22, 1982.

FOR FURTHER INFORMATION CONTACT: Sheila Ryan, Director, Division of Medical Services Coverage Policy, (301) 594–8561.

SUPPLEMENTARY INFORMATION: We plan to compile and publish all rulings in the "Health Care Financing Administration Rulings" booklet which will be indexed for citation purposes. When this ruling is republished in the booklet, it will be known as HCFAR 82–1. The text of the HCFA ruling is as follows:

Exclusion From Medicare Coverage of DMSO for Conditions Other Than Interstitial Cystitis

HCFAR 82–1

Purpose: This ruling restates HCFA policy regarding Medicare coverage of DMSO.

Citations: Section 1862(a)(1) of the Social Security Act; 42 U.S.C. 1395y(a)(1); 42 CFR 405.310(k); 20 CFR 422.40

Pertinent history: The Medicare statute prohibits payment for any expenses incurred for items or services "which are not reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member" (section 1862(a)(1) of the Act). HCFA has interpreted this statutory provision to exclude from Medicare coverage medical and health care services and items that are not demonstrated to be safe and effective by acceptable clinical evidence. HCFA's source of medical advice on issues of medical safety and efficacy of services and items is the Public Health Service (PHS).

DMSO has been used as an industrial solvent since the 1940s. In 1959, it was found to be useful in protecting biological tissues from damage when they are preserved by freezing. In 1963, DMSO was reported to have medicinal properties and an investigational new drug application for the study of its use in humans was approved by the Food and Drug Administration (FDA). Testing was halted, however, in 1965 after experiments in animals indicated that DMSO had adverse effects on the eyes. Experiments were resumed the following year in light of the lack of evidence of eye damage in humans.

In 1972, the FDA asked the National Academy of Sciences—National Research Council to evaluate all the data available to the FDA on use of DMSO in humans. A committee appointed by the Academy concluded that only a very small number of scientific reports could be used as the basis for scientific conclusions on the toxicity and effectiveness of DMSO. Further, the committee made the following conclusions:

- The evidence on DMSO does not warrant the general approval of the drug. There is suggestive evidence that DMSO may be effective in the treatment of acute traumatic injury and nontraumatic painful shoulder and in relieving the pain of rheumatoid arthritis.
- DMSO produces side effects, particularly of the skin, in many persons. In rare cases, DMSO has been linked to discolored patches of skin in humans. Also, when tested in some species of laboratory animals, DMSO altered the lens of the eye.
- DMSO should be restricted to investigational use until it can be clearly demonstrated that it therapeutic effects are sufficient to risk the side effects it may cause.
- More reliable data are needed on the possible adverse effects and on the way DMSO works in the body.

The FDA approved DMSO for use in the symptomatic relief of chronic interstitial cystitis in 1978. HCFA consulted with PHS when preparing this ruling, and again received advice that there is still insufficient evidence to establish that DMSO is safe and effective in conditions other than interstitial cystitis. The drug is currently being tested for other conditions.

Ruling: DMSO is not established to be safe and effective for any use other than interstitial cystitis, therefore, the use of DMSO for conditions other than interstitial cystitis is excluded from Medicare coverage under the authority of section 1862(a)(1) of the Act.

(Secs. 1102 and 1862(a)(1) of the Social Security Act; 42 U.S.C. 1302 and 1395y(a)(1))

(Catalog of Federal Domestic Assistance Program No. 13.773, Medicare—Hospital Insurance and No. 13.774, Medicare—Supplementary Medical Insurance)

Dated: September 16, 1982.

Carolyne K. Davis,

Administrator, Health Care Financing Administration.

Office of the Secretary
Office of Human Development Services

Model Act for the Adoption of Children With Special Needs

Correction

In FR Doc. 82–23459 beginning on page 37836 in the issue of Thursday, August 26, 1982, make the following corrections:

1. On page 37836, first column, five lines from the bottom of the page, "section 302(c)" should have read "section 402(c)".

2. On page 37837, second column, six lines from the bottom of the page, "combination of" should have read "combination of the".

3. In the third column, in the last line of paragraph (c) *Continuing special need required for certification,* "eligible" should have read "eligible pursuant to:".

4. In the next line, "(a)(1) or (1)(2)" should have read "(a)(1) or (a)(2)", and

four more lines down, "(1)(3)" should have read "(a)(3)".

5. In the same column, the *Commentary to Section 403* contained errors and is reprinted correctly as follows:

Subsection (a). Assistance payments may begin after an agreement is signed—as early as the time of placement or after an interlocutory or final adoption decree has been issued. Adoption assistance may be made available for costs related to the adoption process, such as legal and court costs of adoption, other costs incidental to adoption placement, or costs for medical treatment or other needs.

Time-limited assistance is designed to help with expenses of integrating the child into the family or to provide funds for a specific short-term service. Long-term adoption assistance is designed for children who cannot be adopted unless their long-term financial needs are met by subsidy. The ceiling on the subsidy to accord with foster family allowances is based on current practice in a majority of the States. One objective of the adoption assistance program is to

* * * * *

6. On page 37838, first column, second line from the top of the page, insert the word "or" at the end of the line.

7. In the same column, in the eighth and ninth lines from the bottom of the page, the words "Legislators debating enactment families" should be removed.

8. In the second column, five lines from the top of the page, after the words "necessary postadoption", insert "services were not available. In addition,".

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

New Community Development Corporation

[Docket No. D-82-681]

Redelegation of Authority

AGENCY: Department of Housing and Urban Development (HUD)/New Community Development Corporation.

ACTION: Redelegation of Authority

SUMMARY: This Redelegation of Authority authorizes the Regional Administrator and Deputy Regional Administrator, Region II (New York) and the Area Manager and Deputy Area Manager, New York Area Office, to exercise the authority of the General Manager, New Community Development Corporation, to transfer a parcel of Federally-owned surplus land, together with any improvements and related personal property, to the Town of East Hampton, New York.

EFFECTIVE DATE: September 22, 1982.

FOR FURTHER INFORMATION CONTACT: Angelo M. Scioscia, Director, Office of Surplus Land, Department of Housing and Urban Development, 451 Seventh Street, SW., Room 5182, Washington, D.C. 20410, Telephone 202/755-1882 (This is not a toll-free number).

SUPPLEMENTARY INFORMATION: On September 24, 1980, at 45 FR 63360, the Secretary of the Department of Housing and Urban Development delegated the responsibility for management and disposition of surplus Federal property to the General Manager, New Community Development Corporation. The General Manager is redelegating this Authority in turn to the Regional Administrator, Deputy Regional Administrator, Region II (New York) and the Area Manager and Deputy Area Manager, New York Area Office to expedite the transfer of the below listed parcel of Federally-owned surplus land to the Town of East Hampton, N.Y.

Accordingly, the General Manager, New Community Development Corporation, redelegates to the Regional Administrator, Deputy regional Administrator, Region II (New York) and the Area Manager and Deputy Area Manager, New York Area Office, the authority to transfer the real property listed below, together with any improvements and related personal property, to the Town of East Hampton, New York: Montauk Air Force Station, Family Housing Area, Montauk, New York (GAS Control No. 2-D-NY-692-D)

(Sec. 414 of the Housing and Urban Development Act of 1969, 40 U.S.C. 484b; Delegation of Authority, September 24, 1980, 45 FR 63360)

Dated: September 9, 1982.

Warren T. Lindquist,

General Manager, New Community Development Corporation, Department of Housing & Urban Development.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Powder River Federal Coal Production Region; Coal Lease Offering

September 13, 1982.

U.S. Department of the Interior, Bureau of Land Management, Wyoming State Office, 2515 Warren Avenue, P.O. Box 1828, Cheyenne, Wyoming 82001. Notice is hereby given that certain coal resources in the tracts described below in Campbell County, Wyoming will be offered for competitive lease by sealed bid to the qualified bidder submitting the highest bonus bid for each tract in accordance with the provisions of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 181 et seq.). Each tract will be leased to the qualified bidder of the highest cash amount provided that the high bid for the tract equals or exceeds the fair market value of the tract as determined by the authorized officer after the sale. The sale will be held at 10:00 a.m., Friday, October 15, 1982, in the third floor conference room, Lea Building, 2515 Warren Avenue, Cheyenne, Wyoming. No bids received after 4:30 p.m., Thursday, October 14, 1982, will be considered.

Coal Offered

Fortin Draw Tract, W-78630

The coal resource to be offered consists of all recoverable reserves in the following-described lands located about five miles east of Gillette, Wyoming:

T. 50 N., R. 71 W., 6th P.M.,
Sec. 34, S½N½, SW¼.

Containing 320.00 acres, Campbell County, Wyoming.

Total recoverable reserves are estimated to be 26.6 million tons. The average overall quality of the coal in the tract is 8000 BTU/lb. with 6 percent ash, 30 percent moisture, and 0.5 percent sulfur.

Surface Owner Consent Information: This tract has one qualified surface owner. Consent granted by the surface owner has been filed with and verified by the Bureau of Land Management. All of the lands in the tract are covered by the consent.

Purchase Price of Surface Owner Consent: $125,000.

Minimum Bid: $4,200 per acre.

Rocky Butte Tract, W-78633

The coal resource to be offered consists of all recoverable reserves in the following-described lands located approximately seven miles southeast of Gillette, Wyoming:

T. 48 N., R. 71 W., 6th P.M.,
Sec. 1, lots 1, 2, 3, 4, S½N½, S½ (all);
Sec. 2, lots 1, 2, 3, 4, S½N½, S½ (all);
Sec. 3, lots 1, 2, 3, 4, S½N½, S½ (all);
Sec. 4, lots 1, 2, 3, 4, S½N½, S½ (all);
Sec. 5, lots 1, 2, S½NE¼, SE¼NW¼, E½SW¼, SE¼;
Sec. 8, E½, E½NW¼, SE¼SW¼;
Sec. 9, NE¼, W½, W½SE¼.
T. 49 N., R. 71 W., 6th P.M.,
Sec. 32, S½NE¼, N½SE¼, SE¼SE¼;
Sec. 33, S½N½, S½;

Sec. 34, SW¼, SW¼SE¼.

Containing 4,855.54 acres, Campbell County, Wyoming.

Total recoverable reserves are estimated to be 445 million tons. The average overall quality of the coal in the tract is 8,462 BTU/lb. with 5.0 percent ash, 30.2 percent moisture, 0.3 percent sulfur, 31.8 percent volatile matter and 33.3 percent fixed carbon.

Surface Owner Consent Information: This tract has five qualified surface owners. Consents granted by these surface owners (three consent agreements) have been filed with and verified by the Bureau of Land Management. The lands covered by each consent and the purchase price of the consents are shown below:

T. 48 N., R. 71 W., 6th P.M.,
Sec. 3, lot 1, SE¼NE¼.
T. 49 N., R. 71 W., 6th P.M.,
Sec. 33, SE¼NE¼, E½SE¼;
Purchase Price: $114,000.00 (consent also covers lands lying outside tract).

T. 48 N., R. 71 W., 6th P.M.,
Sec. 2, NE¼SW¼.
Purchase Price: $150,000.00.

T. 48 N., R. 71 W., 6th P.M.,
Sec. 5, lot 2, SW¼NE¼, SE¼NW¼, E½SW¼;
Sec. 8, E½NW¼.
T. 49 N., R. 71 W., 6th P.M.,
Sec. 32, S½NE¼, N½SE¼, SE¼SE¼;
Sec. 33, SW¼, S½NW¼, SW¼NE¼, W½SE¼.
Purchase Price: $6,000,000 (Consent also covers lands lying outside tract).
Minimum Bid: $100 per acre.

Rental and Royalty

Leases issued as a result of this offering will provide for payment of an annual rental of $3.00 per acre per year and a royalty payable to the United States of 12.5 percent of the value of coal produced by strip or auger mining methods and 8.0 percent of the value of coal produced by underground methods. The value of the coal shall be determined in accordance with 30 CFR 211.63.

Notice of Availability

Bidding instructions for each tract offered, the terms and conditions of surface owner consents filed and verified, and details on the post-sale transfer or assignment of surface owner consents are included in the Detailed Statements of Lease Sale. Copies of the Statements and of the proposed coal leases are available in the Wyoming State Office. Case file documents are also available for inspection in the Wyoming State Office.

Additional Information

The environmental impact statement and land use plan on which the Secretary based his February 22, 1982, decision to offer these lease tracts for sale are being challenged in the consolidated lawsuit in the U.S. District Court for the District of Montana, *Northern Cheyenne Tribe* v. *Watt*, Civil No. 82–116–BLG, and *National Wildlife Federation* v. *Burford*, Civil No. 82–117–BLG.

Proposed Livestock Grazing Management Program for Clark County, Las Vegas District, Nevada

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of Availability of the Final Environmental Impact Statement (FEIS) on the Livestock Grazing Management Program in Clark County, Nevada.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared an FEIS concerning livestock grazing management on 3.6 million acres of BLM-administered land in Clark County in the Las Vegas District in southern Nevada. This program involves evaluation of proposed levels of rangeland management intensity on livestock grazing allotments, potential reclassification of selected allotments for ephemeral-perennial grazing, alternative methods of protection of crucial resource areas, and range improvements. The FEIS contains only comments, responses, and minor changes to the Draft Environmental Impact Statement (DEIS) and should be used together with the DEIS. This revised procedure has saved substantial time, money, and paperwork and is authorized under 40 CFR 1503.4(c). The DEIS was made available to the public on June 17, 1982, with comments due by August 13, 1982. The DEIS was the subject of a public hearing held in Las Vegas on July 15, 1982.

FOR FURTHER INFORMATION CONTACT: Kemp Conn, District Manager, Attn: EIS Team Leader, Bureau of Land Management, P.O. Box 26569, Las Vegas, NV 89126, (702) 385–6403.

Copies of the DEIS and FEIS are available for review at the following BLM offices:

Office of Public Affairs, 18th and C Streets, NW., Washington, D.C. 20240
Nevada State Office, 300 Booth Street, Reno, NV 89520
Battle Mountain District Office, North 2nd and Scott Streets, Battle Mountain, NV 89820

[INT FES 82-36]

Proposed Livestock Grazing Management for the Bodie-Coleville Planning Units, Bishop Resource Area, Bakersfield District, California

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of

1969, the Bureau of Land Management has prepared a final environmental impact statement concerning a proposed grazing management program for the Bodie-Coleville Planning Units in Mono County in eastern California. The proposed action allocates 14,977 AUMs to livestock, 685 AUMs to deer, and 121 AUMs to wild horses. The alternatives analyzed include no grazing, no action (continue present management with 19,004 AUMs to livestock), maximization of livestock production (17,404 AUMs to livestock), maximization of environmental quality protection (10,999 AUMs to livestock) and a multiple use compromise (11,732 AUMs to livestock).

A limited number of copies of this document are available upon request at the:

Bishop Resource Area, Bureau of Land Management, 873 N. Main Street, Suite 201, Bishop, California 93514, (714) 872–4881

California State Office, Bureau of Land Management, 2800 Cottage Way, Sacramento, California 95825, (916) 484–4541

In addition to the above offices, copies of this EIS are available for public reading and review at:

Division of Rangeland Management, Bureau of Land Management, Premier Building, Room 909–H, 1725 I Street, N.W., Washington, D.C. 20006

Bakersfield District Office, Bureau of Land Management, Federal Building, Room 304, 800 Truxtua Street, Bakersfield, CA 93301

Dated: September 15, 1982.

Ron Hofman,

Associate State Director.

BILLING CODE 4310-84-M

Rawlins District, Wyoming; Intent To Hold Public Scoping Meetings

AGENCY: Bureau of Land Management, Interior.

ACTION: Hold public scoping meetings on Pan Aero Corporation's proposed wind energy development project near Medicine Bow, Carbon County, Wyoming.

SUMMARY: The proposed action is development of a wind energy production facility utilizing 872 wind turbine generators ranging from 120 feet to 390 feet high. The proposal would also require about 50 miles of access roads and 59 miles of transmission lines. The entire project would utilize about 150 acres and would be located entirely on public land. The project would take from 7 to 10 years to construct and would have the capacity to generate about 1,000 megawats of electricity.

All attendees of the public scoping meetings will be given an opportunity to participate and suggest topics for consideration in determining the issues to be considered and the extent of environmental analysis. Written comments are also welcome.

DATES: Public scoping meetings will be held in order to receive public comment and concerns. The dates, times and locations of the meetings are as follows:

October 19, 1982, 7 p.m., Albany County Library, 310 S. 8th Street, Laramie, Wyoming

October 20, 1982, 7 p.m., Town Hall, Medicine Bow, Wyoming

Any person wishing to submit written comments, including any issues, suggestions or alternatives to the proposed action should send these to the office listed below. Written comments will be accepted until November 15, 1982.

ADDRESSES: Information and materials providing a description of the project are available for review at the Bureau of Land Management, Rawlins District Office, 1300 3rd St., Rawlins, Wyoming.

For further information, contact Kirby Boldan, Bureau of Land Management, Rawlins District Office, P.O. Box 670, Rawlins, Wyoming 82301. Phone (307) 324–7171.

Elbert W. Spencer,

Assistant District Manager

Socorro District Grazing Advisory Board; Meeting

Notice is hereby given in accordance with Public Law 94–579, that a meeting of the Socorro District Grazing Advisory Board will be held on Tuesday, October 19, 1982.

The meeting will begin at 10:00 a.m., in the Community Hall on the rodeo grounds in Datil, New Mexico.

The agenda for the meeting will include:

(1) Response to inquiries made at the last meeting regarding Advisory Board elections, replacing boundary fences, base waters, cattleguards, and county agreements.

(2) Proposed grazing regulations.

(3) Implementation of the West Socorro Rangeland Management Program.

(4) Continued Implementation of the East Socorro Rangeland Management Program.

(5) Grazing management plans.

The meeting is open to the public. Interested persons may make oral statements to the Board at 1:00 p.m., or file written statements for the Board's consideration.

Dated: September 13, 1982.

2. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands described in paragraph one are hereby open to operation of the public lands laws generally. All valid applications received at or prior to 10:00 a.m. on October 12, 1982, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Inquiries concerning the lands should be addressed to Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

Dated: September 14, 1982.

J. K. Latimer,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

Minerals Management Service

Oil and Gas and Sulphur Operations in the Outer Continental Shelf

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the receipt of a proposed development and production plan.

SUMMARY: Notice is hereby given that Shell Offshore Inc. has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS–G 3560, Block 33, Eugene Island Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the Plan and that it is available for public review at the Office of the Minerals Manager, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: Minerals Management Service, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837–4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979 (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: September 13, 1982.

John L. Rankin,

Acting Minerals Manager, Gulf of Mexico OCS Region.

BILLING CODE 4310-31-M

Office of Surface Mining Reclamation and Enforcement

[Federal Lease No. 71692]

Availability of Draft Environmental Impact Statement and Public Hearing on the Proposed North Rochelle Mine, Campbell County, Wyo.

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of availability of draft environmental impact statement (OSM–EIS–9) and public hearing.

SUMMARY: Pursuant to §1506.6 of Title 40, Code of Federal Regulations, notice is hereby given that the Office of Surface Mining (OSM), Western Technical Center, has prepared a draft environmental impact statement (EIS) on the proposed North Rochelle Mine. The EIS has been written to assist the Department in making a decision on Shell Oil Company Mining's application to surface mine about 197 million tons of coal over a period of 26 years. The proposed site is 50 miles south of the City of Gillette, Wyoming. The mine would encompass 4,587 acres of State, private and Federal land (Thunder Basin National Grasslands) of which 3,271 acres would be disturbed for mining, roads, railroad spur, and facilities.

Copies of the draft EIS may be obtained from OSM at the location listed under **"ADDRESSES"** below. Copies are also available for review at locations listed under **"ADDRESSES."**.

A public hearing will be held. All interested parties are invited to attend this hearing to give their comments. See **"DATES"** and **"ADDRESSES"** for time and location.

DATES: A public hearing will be held on October 27, from 7:00 to 9:00 p.m. The Draft EIS will be available on September 23 at the address listed under **"ADDRESSES"**. All written comments should be received by the Office of Surface Mining at the location listed under **"ADDRESSES"** no later than November 24, 1982.

ADDRESSES: The public hearing will be held at the Campbell County Community Recreation Center in Gillette, Wyoming. Copies of the draft EIS may be obtained from and comments should be addressed to: Allen D. Klein, Administrator, Office of Surface Mining, Brooks Towers, 1020 Fifteenth Street, Denver, Colorado 80202.

Copies of the EIS are available for review at the Converse County Courthouse and the Douglas Library, Douglas, Wyoming; the Campbell County Courthouse and the George Amos Memorial Library, Gillette, Wyoming; and at the State of Wyoming, Department of Environmental Quality, 401 Nineteenth Street, Cheyenne, Wyoming.

FOR FURTHER INFORMATION CONTACT: Allen D. Klein, Attn: Charles Albrecht (telephone 303–837–5656) at the location given under **"ADDRESSES."**

SUPPLEMENTARY INFORMATION: The EIS evaluates two alternative actions the Department could take on the mining and reclamation plan which has been submitted to OSM and the State of Wyoming. Those alternatives are approval and disapproval or no action.

OSM has identified a preferred alternative. The State of Wyoming, the Forest Service, and OSM have identified stipulations that would be attached to the permit if it is granted.

OSM, with assistance from the Geological Survey, Forest Service, Interstate Commerce Commission, and State of Wyoming, has analyzed the impacts of the alternatives. Public comments are sought on this analysis as presented in the EIS. All substantive comments, written or oral, will be considered in preparing the final EIS and in the final recommendation for action on the subject mining and reclamation plan. See **"DATES"** and **"ADDRESSES"** for information on the hearing and comments.

J. Steven Griles,

Acting Director.

BILLING CODE 4310-05-M

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Finance Applications; Decision-Notice

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed by Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: September 17, 1982.

By the Commission, Review Board Number 3, Members Krock, Joyce and Dowell.

Agatha L. Mergenovich,

Secretary.

MC–F–14947, filed August 25, 1982. SURE-WAY TRANSPORTATION, INC. (SURE-WAY) (103 Buckner, Columbia, MO 65201)—PURCHASE (PORTION)—ECKLEY TRUCKING, INC. (ECKLEY) (P.O. Box 156, Mead, NE 68041). Representative: Peter A. Greene, Suite 700, 1920 N Street, NW, Washington, DC 20036. Sure-Way seeks to purchase a portion of the authority of Eckley. L. E. Clark, Jr. and Robert Jurgensmeyer, who control Sure-Way, seek authority to acquire control of the said rights through the transaction. Sure-Way is purchasing a portion of the interstate operating rights contained in No. MC–5227 (Sub-No. 89)X, Part 7, authorizing the transportation of *construction materials*, between Chicago, IL, and points in Will County, IL, on the one hand, and, on the other, points in IA, MO, KS, NE, CO, and MN. Sure-Way is authorized to operate as a common carrier pursuant to certificates issued in No. MC–147774 and subs thereunder.

[FR Doc. 82-26060 Filed 9-21-82; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier tuthority are those where service is for a named shipper "under contract".

BILLING CODE 7035-01-M

Motor Carrier, Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F-202

The following applications were filed in Region 6. Send protests to: Interstate Commerce Commission, Region 6 Motor Carrier Board, 211 Main St., Suite 501, San Francisco, CA 94105.

BILLING CODE 7035-01-M

[Ex Parte No. 367 (Sub-264)]

Rail Carriers; the Atchison, Topeka and Santa Fe Railway Co., Exemption for Contract Tariff ICC-ATSF-C-0114 (Fertilizer)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: A provisional exemption is granted under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e), and the above-noted contract tariff may become effective on one day's notice. This exemption may be revoked if protests are filed.

DATE: Protests are due within 15 days of publication in the **Federal Register.**

ADDRESS: An original and 6 copies should be mailed to: Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Douglas Galloway (202) 275–7278.

SUPPLEMENTARY INFORMATION: The 30-day notice requirement is not necessary in this instance to carry out the transportation policy of 49 U.S.C. 10101a or to protect shippers from abuse of market power; moreover, the transaction is of limited scope. Therefore, we find that the exemption request meets the requirements of 49 U.S.C. 10505(a) and is granted subject to the following conditions:

This grant neither shall be construed to mean that the Commission has approved the contract for purposes of 49 U.S.C. 10713(e) nor that the Commission is deprived of jurisdiction to institute a proceeding on its own initiative or on complaint, to review this contract and to determine its lawfulness.

This action will not significantly affect the quality of the human environment or conservation of energy resources.

(49 U.S.C. 10505)

Decided: September 15, 1982.

By the Commission, Division 2, Commissioners Andre, Gilliam, and Taylor. Commissioner Taylor is assigned to this Division for the purpose of resolving tie votes. Since there was no tie in this matter, Commissioner Taylor did not participate.

Agatha L. Mergenovich

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-6 (Sub-121)]

Rail Carriers; Burlington Northern Railroad Co.—Abandonment—In Dunklin County, Mo; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that the Commission, Review Board Number 3, has issued a certificate authorizing the Burlington Northern Railroad Company to abandon its rail line between Kennett, near railroad milepost 231.5 and Holcomb, near railroad milepost 242.5, a distance of 11 miles in Dunklin County, MO, subject to certain conditions. Since no investigation was instituted, the requirement of § 1121.38(b) of the Regulations that publication of notice of abandonment decisions in the **Federal Register** be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on the applicant, with copies to Louis E. Gitomer, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective 30 days from the service date of the certificate.

BILLING CODE 7035-01-M

UNITED STATES INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-122]

Certain Miniature, Battery-Operated, All-Terrain, Wheeled Vehicles; Notice of Commission Request for Comments Regarding Proposed Termination of Respondents Based on a Settlement Agreement

AGENCY: U.S. International Trade Commission.

ACTION: Request for public comments on proposed termination of investigation as to three respondents based on a settlement agreement.

SUMMARY: The settlement agreement would result in the termination of this investigation as to respondents LJN Toys, Ltd. (LJN), LJN Toys (Hong Kong), Ltd. (LJN HK) and Universal International (Holdings) U.S.A. Ltd. (Universal). This notice requests comments from the public on the proposed termination of these respondents.

DATES: Comments will be considered if received within 15 days of publication of this notice. They should conform with section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR § 201.8), and should be addressed to Kenneth R. Mason, Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436. Under the authority of section 201.4(b) of the Commission's rules (19 CFR § 201.4(b)), the period for filing comments has been shortened to 15 days from the 30 days prescribed by section 210.51(c)(2) of the Commission's rules (19 CFR § 210.51(c)(2)) because of the short time remaining for the completion of the investigation.

SUPPLEMENTARY INFORMATION: This investigation is being conducted under section 337 of the Tariff Act of 1930 (19 U.S.C. § 1337) and concerns alleged unfair trade practices in the importation into and sale in the United States of certain miniature, battery-operated, all-terrain, wheeled vehicles. Notice of the institution of the investigation was published in the **Federal Register** of May 19, 1982 (47 FR 21638). An amendment to the notice of investigation was published in the **Federal Register** of August 11, 1982 (47 FR 34864).

On July 19, 1982, complainants Schaper Manufacturing Co., Division of Kusan, Inc. (Schaper) and A. Eddy Goldfarb, d.b.a. A. Eddy Goldfarb and Associates (Goldfarb) and respondents LJN, LJN HK and Universal jointly moved to terminate this investigation as to those respondents pursuant to a settlement agreement. The Commission investigative attorney filed a response to the motion which supports termination. On August 19, 1982, the presiding officer recommended that the joint motion be granted.

SUMMARY OF SETTLEMENT AGREEMENT: The settlement agreement provides that:

1. Certain related concurrent litigation is to be terminated by the execution and filing of Consent Judgments which are annexed to the settlement agreement.

2. The Commission's investigation as to respondents LJN, LJN HK and Universal is to be terminated on the basis of the settlement agreement pursuant to a joint motion to terminate.

3. Complainant Schaper is to grant and does grant a nonexclusive license to respondents LJN and LJN HK permitting them to "manufacture, have manufactured for them, export to the United States, import into the United States, offer for sale, distribute and sell throughout the world miniature toy vehicles" under the terms of a license agreement which is annexed to the settlement agreement. The subject matter of the license agreement is certain proprietary rights relating to "toy vehicles", including U.S. Patent No. 4,306,375, other patents, designs, copyrights, and rights to trade dress and indicia of source or origin, but excluding trademarks, asserted or potentially assertable as of June 30, 1982, against those respondents. Corresponding foreign rights are also granted to the extent they do not conflict with those preexisting exclusive licensees. The royalty is payable in equal shares to both complainants and includes an initial lump sum minimum royalty payment and a running royalty expressed as a percentage of net selling price, which declines over time. In addition, certain other payments are to be made over the duration of the license agreement to both complainants and an advertising campaign is to be conducted during 1983 to promote the sale of toy vehicles under the license agreement. The license agreement states that "it is intended that the definition of Toy Vehicle and the basis for royalty payments be broader than the scope of rights granted." The term of the license is coincident with the term of United States Patent No. 4,306,375 and other proprietary rights granted, but will continue at least through December 31, 1984. The respondents may not sublicense nor may they assign the rights granted except to a successor of their entire business as a going concern. The license agreement includes a most-favored licensee clause.

4. Complainants and the moving respondents mutually release one another from any and all claims which have been or might have been asserted by them relating to "miniature toy vehicles" through June 30, 1982, the release by complainants being subject to the rights of any preexisting exclusive licensees of complainant Schaper under its foreign rights.

5. Respondents LJN, LJN HK and Universall acknowledge and agree that all past use or future use by them under license of complainants Schaper's trade dress and indicia of origin in the configuration of "toy vehicles" shall innure to the benefit of Schaper.

6. The parties will issue a joint press release annexed to the settlement agreement which announces the settlement and will otherwise take steps to make the settlement known.

WRITTEN COMMENTS REQUESTED: In order to discharge its statutory obligation to consider the public interest, the Commission seeks written comments from interested persons regarding the proposed termination of this investigation based on the settlement agreement on (1) the public health and welfare, (2) competitive conditions in the U.S. economy, (3) the production of like or directly competitive articles in the United States, and (4) U.S. consumers. All written comments must be filed with the Secretary to the Commission no later than 15 days after the publication of this notice in the **Federal Register**. In addition, pursuant to 19 CFR § 210.14(a)(2), the Commission has requested comments from the Department of Health and Human Services, the Department of Justice, the Federal Trade Commission, and the U.S. Customs Service.

ADDITIONAL INFORMATION: The original and 14 copies of all written submissions must be filed with the Secretary to the Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202-523-0161. Any person desiring to submit

a document (or portion thereof) to the Commission in confidence must request *in camera* treatment. Such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons the Commission should grant such treatment. The Commission will either accept the submission in confidence or return it. All nonconfidential written submissions will be available for public inspection at the Secretary's Office.

FOR FURTHER INFORMATION CONTACT: Wayne W. Herrington, Esq., Office of the General Counsel, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436; telephone 202–523–0480.

Issued: September 17, 1982.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

[Investigations Nos. 701–TA–187 (Preliminary) and 731–TA–100 (Preliminary)]

Certain Tool Steels From Brazil and West Germany; Determinations

Determinations

On the basis of the record[1] developed in investigation No. 701–TA–187 (Preliminary), the Commission determines, pursuant to section 703(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a)), that there is a reasonable indication that an industry in the United States is materially injured or is threatened with material injury by reason of imports of tool steel bar and rod provided for in items 606.9300, 606.9400, 606.9505, 606.9510, 606.9520, 606.9525, 606.9535, 606.9540, 607.2800, 607.3405, 607.3420, 607.4600, 607.5405, and 607.5420 of the Tariff Schedules of the United States Annotated (TSUSA), which are alleged to be subsidized by the Government of Brazil.[2 3]

On the basis of the record[1] developed in investigation No. 731–TA–100 (Preliminary), the Commission determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured or is threatened with material injury by reason of imports from West Germany of tool steel bar and rod provided for in items 606.9300, 606.9400, 606.9505, 606.9510, 606.9520, 606.9525, 606.9535, 606.9540, 607.2800, 607.3405, 607.3420, 607.4600, 607.5405, and 607.5420 of the Tariff Schedules of the United States Annotated (TSUSA), which are alleged to be sold in the United States at less than fair value (LTFV).[2 3]

Background

On July 30, 1982, a petition was filed with the U.S. International Trade Commission and the U.S. Department of Commerce by counsel for Al Tech Specialty Steel Corp., Continental Copper & Steel Industries Inc. (Braeburn Alloy Steel Division), Carpenter Technology Corp., Columbia Tool Steel Company, Colt Industries, Inc. (Crucible Specialty Metals Division), Cyclops Corp., Guterl Special Steel Corp., Jessop Steel Company, Latrobe Steel Company, and the Untied Steelworkers of America (AFL–CIO/CLC), alleging that producers, manufacturers, or exporters of tool steel bar and rod in Brazil receive, directly or indirectly, subsidies from the Brazilian Government and that the U.S. industry producing these products is materially injured and is threatened with material injury by reason of the subsidized imports from Brazil. Accordingly, the Commission instituted countervailing duty investigation No. 701–TA–187 (Preliminary) under section 703(a) of the Tariff Act of 1930 to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of such merchandise from Brazil.

On July 30, 1982, a second petition was filed by counsel on behalf of the same group of petitioners with the Commission and the Department of Commerce alleging that tool steel bar and rod from the Federal Republic of Germany are being, or are likely to be, sold in the United States at LTFV and that the U.S. industry producing these products is materially injured, or threatened with material injury, by reason of LTFV imports from the Federal Republic of Germany. Accordingly, the Commission instituted antidumping investigation No. 731–TA–100 (Preliminary) under section 733(a) of the Tariff Act of 1930 to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of such merchandise from the Federal Republic of Germany.

Notice of the institution of the Commission's investigations and of the public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, D.C., and by publishing the notice in the **Federal Register** of Aug. 11, 1982 (47 FR 34868). The conference was held in Washington, D.C. on August 23, 1982, at which time all persons who requested the opportunity were permitted to appear in person or by counsel. The

[1] The "record" is defined in sec. 207.2(i) of the Commission's Rules of Practice and Procedure (47 FR 6190, Feb. 10, 1982).

[2] Commissioner Haggart determines only that there is a reasonable indication that an industry in the United States is materially injured.

[3] Commissioner Calhoun did not participate in this investigation.

Commission voted on these investigations on September 8, 1982.

Views of the Commission [4]

Introduction

We deterimne, pursuant to section 703(a) of the Tariff Act of 1930 (hereinafter the Act),[5] that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury [6] by reason of imports o tool steel bar and rod which are alleged to be subsidized by the Government of Brazil.[7][8][9][10] Further, we determine, pursuant to section 733(a) o the Act,[11] that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury 6 by reason of imports of tool steel bar and rod from West Germany which are alleged to be sold at less than fair value.[12][13]

Domestic Industry

Section 771(4)(A) of the Act defines the term "industry" as the "domestic producers as a whole of a like product or those producers whose collective output of the like product constitutes a major portion of the total domestic production of that product." [14] Section 771(10) defines "like product," in turn, as a "product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation." [15]

The imported articles which are the subject of these investigations are tool steel bar and rod. Both imported and domestic tool steel bar and rod are alloy steels used in tools for cutting, shaping, forming, and blanking of materials at either ordinary or elevated temperatures. Tool steels are capable of being hardened and tempered, and are used in those products requiring hot-hardness, wear resistance, and toughness.[16] Types of tool steels vary in chemical composition and in form of finishing, depending upon the final use to which the steel will be put. The production of all tool steels (regardless of chemical composition) occurs on the same production line initially, with some differing procedures occurring during the final stages of production to achieve the desired physical characteristics. These characteristics of each type of tool steel are such as to permit some substitutability. Therefore, for purposes of this preliminary investigation, we have not differentiated among the different specifications of tool steel in our like product analysis.[17]

Tool steel is imported and produced domestically as both bar and rod, although almost all tool steel consists of bar. Bar and rod have certain distinguishable characteristics, namely that rod is always produced in coils and not cut to length while bar is cut to length. Bar can also be made by cutting rod to length. The production process for both bar and rod is similar. However, there are limitations on the diameter possible for rod, and therefore, it may not be suitable for some end uses where a larger diameter of steel is required. We have determined for purposes of this preliminary investigation, that there are two "like products" corresponding to imported bar and imported rod, and accordingly, two corresponding industries producing these products.[18][19][20]

In this preliminary investigation, the information available to the Commission is essentially on a combined basis for bar and rod.[21] Separate data are not maintained for bar and rod operations. Therefore, for purposes of assessing the effect of the allegedly subsidized or LTFV imports in these investigations, we have used the data regarding the domestic product line which includes both bar and rod pursuant to section 771(4)(D) of the Act.[22]

Material Injury by Reason of LTFV or Subsidized Imports

In a preliminary investigation, the Commission is directed by title VII of the Tariff Act of 1930 to determine, based upon the best information available at the time of the determination, whether there is a reasonable indication that an industry in the United States is materially injured or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of the merchandise that is the subject of the investigation.[23]

Section 717(7) of the Act directs the Commission to consider, in making its determination, among other factors, (1) the volume of imports of the merchandise under investigation, (2) their impact or domestic prices and (3) the consequent impact on the domestic industry.[24]

---

[4] Commissioner Calhoun did not participate in these investigations.

[5] 19 U.S.C. § 1671b(a).

[6] Commissioner Haggart determines only that there is a reasonable indication of material injury, and therefore does not reach the issue of threat of material injury.

[7] Retardation of establishment of an industry in the United States is not an issue in these investigations and will not be disucssed further.

[8] We have made these determinations on a case-by-case basis. Should either of the affirmative preliminary cases return for final determinations, however, we do not preclude cumulation of the imported products if the record developed shows that such cumulation is appropriate.

[9] For a further disucssion of related cumulation issued by Commissioner Stern, *see* Stainless Steel Sheet and Strip from West Germany, inv. No. 731-TA-62 (Preliminary), USITC Pub. No. 1252, pp. 7-10 (1982).

[10] Commissioner Frank disagrees with the other Commissioners in this opinion. He believes that cumulation of like products from Brazil and West Germany is appropriate now and thee is no need to separate imports of tool steel bar and rod or make it difficult to anlayze available financial or other data.

Commissioner Frank notes that a low threshold applies in preliminary investigations. His views on this are discussed in Certain Steel Products from Belgium, France, Italy, Luxembourg, the Netherlands, Romania, the United Kingdom, and West Germany, inv. Nos. 701-TA-66 (Preliminary), *et al.*, USITC Pub. No. 1221, Vol. 1 (1982).

[11] 19 U.S.C. § 1673b(a).

[12] *See* footnote page 4.

[13] *See* footnote page 4.

[14] 19 U.S.C. § 1677(4)(A).

[15] 19 U.S.C. § 1677(10).

[16] For a description of these qualities, *see* Report, p. A-9.

[17] During the course of the investigations, counsel for the Brazilian and West German importers alleged that certain types of tool steel are not produced in the United States and, therefore, that imports of these steels could not injure a domestic industry. For one of these products, West German mold steel, the Commission has ascertained that there is production of such steel in the United States. It likewise appears that there may also be U.S. production of the other tool steels cited by those in opposition to the petition.

[18] It appears that most of the domestic producers of bar also produce rod as well. Producers of either bar or rod of both are as follows: Al Tech Specialty Steel Corp.; Braeburn Allow Steel Division, Continental Copper and Steel Industries, Inc.; Columbia Tool Steel Co.; Crucible Specialty Metals Division, Colt Industries, Inc.; Jessop Steel Co.; Latrobe Steel Co.; Carpenter Technology Corp.; Cyclops Corp.; and Cuterl Special Steel Corp.; National Forge Co.; Electrolloy Steel Co.; A. Finkl & Sons; Champaion Steel Co.; and Copperweld Steel Co.

[19] We emphasize that the definition of the domestic industry in this preliminary investigation is based on the information now available. Based on the record developed in any final investigation, a different definition of the domestic industry is not precluded.

[20] Commissioner Frank determines that despite some of the pre-finishing production processes being slightly different, tool steel bar and rod (which are alloy steels) are like products and does not find two like products. He considers minor chemical composition or end-uses not to be important enough differences to require finding two like products where one like product should be found.

[21] At the conference and in their post-conference briefs, those opposed to the petition argued that tool steel plate should be considered as part of the domestic industry. Tool steel plate may be an intermediate product in the production of bar as well as in the production of other shapes and products, such as octogons and stamping dies, or it may be sold by the producers directly. Plate that is produced and cut into bars by the U.S. tool steel producers has been included in the domestic industry data.

[22] 19 U.S.C. § 1677(4)(D).

[23] 19 U.S.C. §§ 1671b, 1673b.

[24] 19 U.S.C. § 1677(7).

Condition of the Domestic Industry

The condition of the domestic tool steel industry has been deteriorating since 1979, and this downward trend has quickened in the first half of 1982. Although domestic capacity to produce tool steels has remained relatively constant during the 1979–1982 period, shipments by U.S. producers have declined steadily from 94,560 tons in 1979 to 67,360 tons in 1981. Domestic producers' share of the U.S. market declined from 78.4 percent in 1979 to 69.9 percent in 1981.[25] Comparing the first half of 1981 to the first half of 1982, U.S. producer shipments declined more than 9,000. For the period 1979–1981, capacity utilization fell from 62 percent to 53 percent and from January–June 1981 to January–June 1982, capacity utilization declined again from 53 percent to 33 percent.[26]

While the levels of inventories reported by the U.S. producers declined between 1978 and 1981, the number of days' supply in inventory has steadily increased, reflecting the reduced levels of sales.[27]

Employment patterns have exhibited a steadily downward trend. Employment among production and related workers declined 17 percent from 1979 to 1981. From January–June 1981 to January–June 1982, the decline was 28 percent. The number of hours paid—a useful indicator of employment trends in an industry with reduced production—fell by more than 20 percent between 1979 and 1981, and by more than 30 percent during the first half of 1982 as compared with first half of 1982.[28]

Financial performance information reported to the Commission was provided by producers accounting for 70 percent of domestic production. Sales, gross profits, and net profits before taxes fell steadily between 1979 and 1981. As with other factors discussed above, sales, gross profits, and net profits declined precipitously from January–June 1981 to the corresponding period of 1982. The number of domestic firms reporting operating losses more than doubled from January–June 1981 to January–June 1982.[29] [30]

[25] Report, p. A–31.
[26] Report, pp. A–18–20.
[27] Report, p. A–20.
[28] Report, pp. A–21–23.
[29] Report, p. A–24.
[30] The number of firms reporting losses in 1982 accounted for nearly one third of domestic tool steel production.

Reasonable Indication of Material Injury or Threat of Material Injury[31] *by Reason of Imports from Brazil*

Imports from Brazil rose from negligible amounts in 1979 to 1,751 tons in 1981. From January–June 1981 to January–June 1982 imports rose from 311 tons to 1,637 tons. In addition, the percentage of domestic consumption represented by imports from Brazil increased from less than .05 percent in 1979 to 1.9 percent in 1981. From January–June 1981 to January–June 1982, the percentage of domestic consumption represented by imports Brazil increased from 0.7 percent to 3.7 percent.[32]

This investigation also showed that Brazilian tool steel undersold comparable domestic tool steel in nearly every quarter for which a comparison is available. Margins of underselling ranged from 3 to 28 percent. Price was found to be a major consideration in the purchase of tool steel bar and rod.[33]

With regard to threat, we base our determination on the above factors as well as the following information. Brazil's total exports of tool steel products increased 13.9 percent from 1980 to 1981, even though Brazilian production declined over that period.[34] Brazil has gone from being the 12th largest source of U.S. imports of tool steel in 1979 to the fifth largest in 1981. For the priod January–June 1982, Brazil was the forth largest supplier of U.S. imports.[35] The record indicates that Brazil's two leading producers of specialty steel have both increased their capacities in 1980 and 1981. One of these companies is participating in a government program to promote exports and the principal targets of this effort include, in particular, the United States market.[36] [37]

Reasonable Indication of Material Injury or Threat of Material Injury[38] *by Reason of Imports From West Germany*

Imports from West Germany more than tripled from 1979 to 1981. From January–June 1981 to January–June 1982, imports from West Germany more than doubled. As a percentage of apparent U.S. consumption, imports from West Germany increased from 1.7 percent in 1979 to 7.4 percent in 1981. From January–June 1981 to January–June 1982, imports from West Germany as a percentage of apparent U.S. consumption increased from 5.3 to 11.1 percent. By June 1982, West Germany had become the largest source of U.S. tool steel imports.[39]

Price comparisons revealed that West German tool steel bar and rod has undersold domestic tool steel bar and rod by significant margins in most instances. Margins of underselling ranged from 3 to 45 percent.[40] Lost sales information confirms the importance of price to purchasers. The Commission was able to confirm three instances of lost sales and in each case purchasers indicated that price was a major consideration. In two cases, purchasers indicated that domestic producers lowered their prices to meet the West German price.[41]

With regard to threat, we base our determination on the above factors as well as the following information. Imports from West Germany have increased since 1979, and the rate of increase in imports from West Germany appears to be accelerating. Information on West German productive capacity is not available at this time and we believe that further information should be available in the event of a final investigation.[42]

Conclusion

Our investigation reveals that the domestic industry is losing market share, its sales are decreasing, and its financial position is deteriorating. At the same time, imports from both Brazil and West Germany are increasing, both in absolute numbers and in market share. Imports from both Brazil and West Germany undersell the domestic product by significant margins. Historically, Brazilian production has been directed toward the U.S. market and Brazilian capacity has been increasing.[43] Imports from West Germany have likewise steadily increased and that country is now the largest single source of imports.[44] Therefore, we conclude that there is a reasonable indication that the domestic tool steel industry is materially injured or threatened with material

Heavyweight Motorcycles, Engines, and Power Train Subassemblies; Investigation and Hearing

AGENCY: United States International Trade Commission.

ACTION: Institution of an investigation under section 201 of the Trade Act of 1974 (19 U.S.C. § 2251) to determine whether motorcycles having engines with total piston displacement over 700 cubic centimeters (cc) and engines and power train subassemblies therefore (whether imported separately or in combination), and parts of such engines and subassemblies, all the foregoing provided for in items 692.50, 660.56, 660.67, and 692.55 of the Tariff Schedules of the United States, are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.

For the purposes of this investigation, the term "power train subassemblies" covers transmissions and the other parts of a motorcycle which transmit power from the engine to the rear wheel.

EFFECTIVE DATE: September 16, 1982.

FOR FURTHER INFORMATION CONTACT: Daniel Leahy, Senior Investigator, U.S. International Trade Commission, Washington, D.C. 20436 (202-523-1369).

SUPPLEMENTARY INFORMATION:

Background.—The investigation (No. TA-201-47) was instituted following receipt of a petition on September 1, 1982, filed on behalf of Harley-Davidson Motor Co., Inc., and Harley-Davidson York, Inc. This investigation is governed by the Commission's Rules of Practice and Procedure, part 201 (19 CFR § 201) and part 206, subparts A and B (19 CFR § 206, subparts A and B).

Public hearing.—A public hearing in connection with this investigation will be held in Washington, D.C., at 9:30 a.m., on Tuesday, November 30, 1982, in the Hearing Room, U.S. International Trade Commission Building, 701 E Street, NW. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission at his office in Washington no later than the close of business Friday, November 19, 1982.

Prehearing procedures.—To facilitate the hearing process, it is requested that persons wishing to appear at the hearing submit prehearing briefs enumerating and discussing the issues which they wish to raise at the hearing. An original and fourteen copies of such prehearing briefs should be submitted to the Secretary no later than the close of business Monday, November 22, 1982 (19 CFR § 201.8). Confidential submissions should be in accordance with the requirements of section 201.6 of the Commission's rules (19 CFR § 201.6). Copies of any prehearing briefs submitted will be made available for public inspection in the Office of the Secretary. Any prepared statements submitted will be made a part of the transcript. Oral presentations at the hearing should, to the extent possible, be limited to issues raised in the prehearing briefs.

A prehearing conference will be held on Wednesday, November 24, 1982, at 10 a.m., in Room 117 of the U.S. International Trade Commission Building.

Persons not represented by counsel or public officials who have relevant matters to present may give testimony without regard to the suggested prehearing procedures outlined above.

Other written submissions.—Other written submissions should be filed with the Secretary to the Commission not later than December 6, 1982. Commercial or financial data which are confidential should be clearly marked "Confidential Business Information" and should be submitted in accordance with the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR § 201.6). Submissions should also conform to the general requirements of section 201.8 of the Commission's rules (19 CFR § 201.8).

Inspection of petition.—The petition filed in this case is available for public inspection at the Office of the Secretary, U.S. International Trade Commission.

Issued: September 17, 1982.

By order of the Commission.

Hot-Rolled Carbon Steel Plate From Brazil

AGENCY: United States International Trade Commission.

ACTION: Suspension of final countervailing duty investigation.

SUMMARY: On September 7, 1982, the United States Department of Commerce suspended its countervailing duty investigation involving hot-rolled carbon steel plate from Brazil (47 FR 39394, September 7, 1982). The basis for the suspension is an agreement by the Government of Brazil to offset all benefits which Commerce found to constitute subsidies with an export tax on all exports of the subject products to the United States. Accordingly, the United States International Trade Commission hereby gives notice of the suspension of its countervailing duty investigation involving hot-rolled carbon steel plate, provided for in items 607.6615, 607.9400, 608.0710, and 608.1100 of the Tariff Schedules of the United States Annotated, from Brazil (investigation No. 701-TA-87 (Final)).

EFFECTIVE DATE: September 13, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Eninger (202-523-0312), Office of Investigations, U.S. International Trade Commission.

This notice is published pursuant to section 207.40 of the Commission's Rules of Practice and Procedure (19 CFR 207.40).

Issued: September 14, 1982.

[Investigation No. 731-TA-107 (Preliminary)]

Melamine From Brazil; Investigation and Conference

AGENCY: United States International Trade Commission.

ACTION: Institution of a preliminary antidumping investigation and scheduling of a conference to be held in connection with the investigation.

SUMMARY: The U.S. International Trade Commission hereby gives notice of the institution of investigation No. 731-TA-107 (Preliminary) under section 733(a) of the Tariff Act (19 U.S.C. 1673b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is

threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Brazil of melamine, provided for an item 425.10 of the Tariff Schedules of the United States, which are alleged to be sold in the United States at less than fair value.

EFFECTIVE DATE: September 13, 1982.

FOR FURTHER INFORMATION CONTACT: Ms. Abigail Eltzroth, Office of Investigations, U.S. International Trade Commission; telephone 202–523–0289.

SUPPLEMENTARY INFORMATION:

Background.—This investigation is being instituted following receipt of a petition filed by Melamine Chemicals, Inc. on September 13, 1982. Copies of the petition are available for public inspection in the Office of the Secretary, U.S. International Trade Commission, 701 E Street, NW., Washington, D.C. The Commission must make its determination in this investigation within 45 days after the date of the filing of a petition, or by October 28, 1982 (19 CFR § 207.17). This investigation will be subject to the provisions of part 207 of the Commission's Rules of Practice and Procedure (19 CFR § 207, 44 FR 76457 and 47 FR 6190), and particularly subpart B thereof. Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided for in section 201.11 of the Commission's Rules of Practice and Procedure (19 CFR § 201.11), not later than seven (7) days after the publication of this notice in the **Federal Register**. Any entry of appearance filed after this date will be referred to the Director of Operations, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the notice.

Service of documents.—The Secretary will compile a service list from the entries of appearance filed in this investigation. Any party submitting a document in connection with the investigation shall, in addition to complying with section 201.8 of the Commission's rules (19 CFR § 201.8), serve a copy of each such document on all other parties to the investigation. Such service shall conform with the requirements set forth in section 201.16(b) of the rules (19 CFR § 201.16(b)).

Written submissions.—Any person may submit to the Commission on or before October 8, 1982, a written statement of information pertinent to the subject matter of this investigation. A signed original and fourteen copies of such statements must be submitted.

Any business information which a submitter desires the Commission to treat as confidential shall be submitted separately, and each sheet must be clearly marked at the top "Confidential Business Data." Confidential submissions must conform with the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). All written submissions, except for confidential business data, will be available for public inspection.

Conference.—The Director of Operations of the Commission has scheduled a conference in connection with this investigation for 9:30 a.m., on October 6, 1982 at the U.S. International Trade Commission Building, 701 E Street, NW., Washington, D.C. Parties wishing to participate in the conference should contact the investigator for the investigation, Ms. Abigail Eltzroth, telephone 202–523–0289, not later than October 4, 1982, to arrange for their appearance. Parties in support of the imposition of antidumping duties in this investigation and parties in opposition to the imposition of such duties will each be collectively allocated one hour within which to make an oral presentation at the conference.

For further information concerning the conduct of this investigation and rules of general application, consult the Commission's Rules of Practice and Procedure, part 207, subparts A and B (19 CFR 207), and part 201, subparts A through E (19 CFR 201). Further information concerning the conduct of the conference will be provided by Ms. Eltzroth.

This notice is published pursuant to section 207.12 of the Commission's Rules of Practice and Procedure (19 CFR 207.12).

Issued: September 15, 1982.

By order of the Commission.

[Investigation No. 701–TA–190 (Preliminary)]

Nitrocellulose From France

AGENCY: United States International Trade Commission.

ACTION: Institution of preliminary countervailing duty investigation and scheduling of a conference to be held in connection with the investigation.

SUMMARY: The U.S. International Trade Commission hereby gives notice of the institution of investigation No. 701–TA–190 (Preliminary) under section 703(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from France of nitrocellulose,[1] provided for in item 445.25 of the Tariff Schedules of the United States, which are alleged to be subsidized by the Government of France.

EFFECTIVE DATE: September 14, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Bill Schechter, Office of Investigations, U.S. International Trade Commission; telephone 202/523–0300.

SUPPLEMENTARY INFORMATION:

Background

This investigation is being instituted following receipt of a petition filed by counsel for Hercules, Inc., Wilmington, Delaware. A nonconfidential copy of the petition is available for public inspection during official working hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street, NW., Washington, D.C. 20436, telephone (202–523–0448). The Commission must make its determination in this investigation within 45 days after the date of the filing of the petition, or by October 29, 1982 (19 CFR 207.17). This investigation will be subject to the provisions of part 207 of the Commission's Rules of Practice and Procedure (19 CFR 207, 44 FR 76457 and 47 FR 6190), and particularly subpart B thereof.

Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission not later than seven (7) days after the publication of this notice in the **Federal Register** (19 CFR 201.11). Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the notice.

Service of documents.—The Secretary will compile a service list from the entries of appearance filed in this investigation. Any party submitting a document in connection with the investigation shall, in addition to complying with section 201.8 of the Commission's rules (19 CFR 201.8), serve a copy of each such document on all other parties to the investigation. Such service shall conform with the

[1] Also known as cellulose nitrate.

requirements set forth in section 201.16(b) of the rules (19 CFR 201.16(b)).

In addition to the foregoing, each document filed with the Commission in the course of this investigation must include a certificate of service setting forth the manner and date of such service. This certificate will be deemed proof of service of the document. Documents not accompained by a certificate of service will not be accepted by the Secretary.

Written submissions.—Any person may submit to the Commission on or before October 7, 1982, a written statement of information pertient to the subject matter of this investigation (19 CFR 207.15). A signed original and fourteen (14) copies of such statements must be submitted (19 CFR 201.8).

Any business information which a submitter desires the Commission to treat as confidential shall be submittal separately, and each sheet must be clearly marked at the top "Confidential Business Data." Confidential submissions must conform with the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). All written submissions, except for confidential business data, will be available for public inspection.

Conference.—The Director of Operations of the Commission has scheduled a conference in connection with this investigation for 9:30 a.m., on October 5, 1982, at the U.S. International Trade Commission Building, 701 E Street, NW., Washington, D.C. Parties wishing to participate in the conference should contact the supervisory investigator for the investigation, Mr. Jim McClure, telephone 202/523-0439, not later than September 29, 1982, to arrange for their appearance. Parties in support of the imposition of countervailing duties and parties in opposition to the imposition of such duties will each be collectively allocated one hour within which to make an oral presentation at the conference.

Record.—The record of Commission investigation No. 731-TA-96 (Preliminary), Nitrocellulose from France, will be incorporated in the record of investigation No. 701-TA-189 (Preliminary).

For further information concerning the conduct of this investigation and rules of general application, consult the Commission's Rules of Practice and Procedure, part 207, subparts A and B (19 CFR 207), and part 201, subparts A through E (19 CFR 201), 47 FR 6182, February 10, 1982 and 47 FR 13791, April 1, 1982. Further information concerning the conduct of the conference will be provided by Mr. McClure.

This notice is published pursuant to section 207.12 of the Commission's Rules of Practice and Procedure (19 CFR 207.12).

Issued: September 17, 1982.

[Investigation No. 731-TA-52 (Final)]

Sheet Piling From Canada

AGENCY: United States International Trade Commission.

ACTION: Suspension of final antidumping investigation.

EFFECTIVE DATE: September 15, 1982.

SUMMARY: On September 15, 1982, the United States Department of Commerce suspended its antidumping investigation involving sheet piling from Canada (47 FR 40683, September 15, 1982). The basis for the suspension is an agreement by the Acier Casteel, Inc., a manufacturer and exporter which accounts for substantially all the known imports of this product from Canada, to revise their prices to eliminate sales of this merchandise to the United States at less than fair value. Accordingly, the United States International Trade Commission hereby gives notice of the suspension of its antidumping investigation involving sheet piling, provided for in items 609.96 and 609.98 of the Tariff Schedules of United States Annotated, from Canada (investigation No. 731-TA-52 (Final)).

DEPARTMENT OF JUSTICE

Canada Coal Co.; Proposed Consent Decree in Action To Enjoin Discharge of Water Pollutants

In accordance with Departmental policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that a proposed consent decree in *United States* v. *Canada Coal Company, Inc.*, Civil Action No. 78-234, has been lodged with the United States District Court for the Eastern District of Kentucky. The proposed consent decree requires the payment of $60,000 in

settlement of all civil penalty claims asserted in the case for violation of the Clean Water Act, 33 U.S.C. 1251, *et seq.*, as well as increased monitoring and sampling.

The Department of Justice will receive written comments for thirty (30) days from the date of publication of this notice. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and refer to *United States* v. *Canada Coal Company, Inc.*, (D.J. Ref. No. 90-5-1-1-1109).

The proposed consent decree may be examined at the Office of the United States Attorney, Eastern District of Kentucky, 206 Federal Building, Barr and Limestone Streets, Lexington, Kentucky, 40501; at the Region IV Office of the Environmental Protection Agency, 345 Courtland Street, N.E., Atlanta, Georgia, 30308; and at the Environmental Enforcement Section, Land and Natural Resources Division, U.S. Department of Justice, Room 1515, 10th and Pennsylvania Avenue, N.W., Washington, D.C. 20530. A copy of the proposed decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division, U.S. Department of Justice.

Carol E. Dinkins,

Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

Antitrust Division

Itoh and Co. et al. and Pan-Alaska Fisheries, Inc.; Proposed Judgments

Pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. section 16c, the Antitrust Division publishes below, two comments it received on the proposed judgments in the cases of *United States v. C. Itoh & Co., Ltd., et al.*, Civil No. C-82-810 and *United States v. Pan-Alaska Fisheries, Inc., et al.*, Civil No. C-82-809, together with its responses to such comments.

Joseph H. Widmar,

Director of Operations.

United States Department of Justice and U.S. District Court, in Seattle, Wash. Washington, D.C.

Dear Sirs: Regarding the proposed consent decree on crabs of Alaska.

I am an economist and my family is a consumer occasionally of crabs. We buy our crabs—usually in a can and usually at orientally owned and operated stores. The crabs we get are usually from Japan, Korea, Tailand [sic], Formosa as are shrimp which come from warmer waters. The point is that real competition from these areas will fill the market with product if Alaskan prices rise and I would like to address the possible results of your proposed decree:

1. Greater "competition" in the Alaska and Seattle local market place should make for a greater bureaucracy to deal with girating [sic] prices and less real productivity.

2. To maintain profit levels high enough to attract capital and retain it—would require higher prices for product or lower prices to producers to pay for the bureaucracy.

3. Higher prices to consumers would shift consumer demand to foreign sources over which US has little control and decrease market share for Alaska and Seattle.

4. Lower prices to producers (fisherman) would presumably negate the whole purpose of your decree since it would benefit no one.

You'll forgive my scepticism of "justice" and "bureaucrats" but it is born of long gov't service, broad corporate ownership, community forum participation, and yearning for a better society with increased productivity, competitive capacity and spirit, independent of gov't duress.

I have been disturbed by recent developments in Japan relations and believe that the Japanese Government deeply shares that concern.

Bilaterial trade in seafood and grain are also high on the agenda and what we do to grain prices certainly can't come close to the small amount of control exercised here.

Perhaps the U.S. Gov't should remove itself from the grain marketing picture? Metal? Aircraft Credit?

Regards.

David S. Smith,

1913 Westmont Drive, Alhambra, CA 98103, 213-284-5952.

U.S. Department of Justice

Washington, D.C. 20530

July 30, 1982.

Mr. David S. Smith,
1913 Westmont Drive, Alhambra, California 91803.

Dear Mr. Smith: Thank you for your letter of July 1, 1982. As you may be aware, the Antitrust Division of the Department of Justice filed complaints and proposed consent decrees on June 30, 1982 in two cases involving anticompetitive practices in the Alaska seafood industry. I am enclosing with this letter copies of the complaints and proposed consent decrees for your perusal. The proposed consent decrees are designed in each case to ensure price competition among buyers of certain Alaskan seafood products.

Although the proposed consent decrees do place the defendant companies under certain obligations, they do not in any sense impose a regime of government control over Alaska seafood markets. The terms of the consent decrees simply obligate the defendants to act independently of each other in the marketplace, and require the companies to set up antitrust compliance programs to ensure that their employees understand their responsibilities in this regard. The net effect of these requirements should be to restore free and open competition in Alaska seafood markets.

Thank you for your interest in the effective enforcement of the antitrust laws.

Sincerely yours,

Charles S. Stark,

Chief, Foreign Commerce Section, Antitrust Division.

Enclosures.

July 18, 1982.

Mr. Stark: I read the legal notice in our local paper The Post Intelligencer here in Seattle, Wash. In regard to Crab Fishing in Alaska I am a crab fisherman and would appreciate any information regarding the notices or what other steps we or I am to take or do. Thank you.

William E. Goodfellow,

4625 So. 289 Pl., Auburn, Wash. 98002.

U.S. Department of Justice

Washington, D.C. 20530

August 11, 1982.

Mr. William E. Goodfellow,
4625 So. 289 Place, Auburn, Washington 98002.

Dear Mr. Goodfellow: Thank you for your letter of July 18, 1982. The legal notices recently published in Seattle newspapers were designed to inform the public that the Justice Department has submitted two proposed "consent decrees" to the federal district court in Seattle that would settle two antitrust cases brought by the Department involving alleged price fixing in certain Alaska seafood markets. One case charged that four Dutch Harbor crab processing companies had unlawfully agreed with one another on the price they would pay for live Bering Sea crab, and that an association of crab fishermen had participated in that agreement. In the second case, the complaint alleged that eight Japanese companies had fixed the price they paid to processors for processed Bering Sea tanner crab.

The consent decrees are proposed court orders that would prevent the defendants from repeating the conduct challenged in the complaints. Although the consent decrees have been signed by the defendants, as well as by the Justice Department, they must be approved by the federal district court before they become effective. The court may wish to consider comments from the public in deciding whether to enter the decrees.

I am enclosing for your review copies of the complaints, proposed consent decrees (called "final judgments" in legal terminology), and competitive impact statements, which explain the decrees. If you have any comments concerning the proposed decrees that you wish the court to consider, please send them to me at the above address by September 30, 1982. We will publish them in the Federal Register and file them with the court.

Thank you for your interest in this matter.

Sincerely yours,

Charles S. Stark,

Chief, Foreign Commerce Section, Antitrust Division.

Enclosures.

BILLING CODE 4410-01-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (82-53)]

NASA Advisory Council, Aeronautics Advisory Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Meeting

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Aeronautics Advisory Committee, Ad Hoc Informal Advisory Subcommittee on NASA Aeronautical Projects.

DATE AND TIME: October 15, 1982, 8:30 a.m. to 4:30 p.m.

ADDRESS: National Aeronautics and Space Administration, 600 Independence Avenue SW, Room 647, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Mr. Frederick P. Povinelli, National Aeronautics and Space Administration, Code R, Washington, D.C. 20546 (202/755-8550).

SUPPLEMENTARY INFORMATION: The Ad Hoc Informal Advisory Subcommittee on NASA Aeronautical Projects is meeting to continue their study of NASA/industry responsibilities in the conduct of aeronautical technology development programs. The Ad Hoc Subcommittee, chaired by Dr. Robert Loewy is comprised of 10 members. The meeting will be open to the public up to the seating capacity of the room (approximately 20 persons including the subcommittee members and participants).

Type of Meeting: Open.
AGENDA:

8:30 a.m.—Chairperson's Remarks
9 a.m.—Presentation of Project Information
1:30 p.m.—Discussion of Information and Identification of Future Activity
4:30 p.m.—Adjourn

Richard L. Daniels,

Director, Management Support Office, Office of Management.

September 15, 1982.

[FR Doc. 82-26007 Filed 9-21-82; 8:45 am]
BILLING CODE 7510-01-M

[Notice (82-54)]

NASA Advisory Council (NAC); Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Informal Task Force for the Study of Issues in Selecting Private Citizens for Space Shuttle Flight.

DATE AND TIME: October 7-8, 1982, 9 a.m. to 5 p.m.

ADDRESS: Lyndon B. Johnson Space Center, Conference Room 945, Building 1, Houston, Texas 77058.

FOR FURTHER INFORMATION CONTACT: Mr. Carl R. Praktish, Code LB-4, National Aeronautics and Space Administration, Washington, DC 20546 (202/755-8380).

SUPPLEMENTARY INFORMATION: The NASA Advisory Council Informal Task Force for the Study of Issues in Selecting Private Citizens for Space Shuttle Flight was established under the NASA Advisory Council to conduct a study of the relevant issues and to report its findings and recommendations to the Council. The Task Force is comprised of its Chairman, Dr. John E. Naugle, and seven other members.

The meeting will be closed to the public as follows: (1) October 7, 1:15-2:15 p.m. The discussion of lessons learned from the astronaut selection process will consider the qualifications of specific astronaut candidates; (2) October 8, 9 a.m.-5 p.m. The discussion will evaluate candidates from whom to solicit advice on the options for the selection process. During these sessions, the qualifications of persons considered for astronaut positions and candidates to provide advice to the Task Force will be candidly discussed and appraised.

Because these sessions will be concerned throughout with matters listed in 5 U.S.C. 552b(c)(6), it has been determined that these sessions should be closed to the public.

The morning meeting in Conference Room 945, Building 1 will be open and visitors will be admitted up to its capacity which is approximately 35 persons, including Task Force members and other participants. The afternoon tour of facilities, et al, will be open and visitors will be admitted up to a capacity of approximately 12 persons including Task Force members and other participants.

Visitors should ask for the appropriate badge at the Receptionist's Desk, Building 1, to meet Johnson Space Center security requirements.

Visitors will be requested to sign a register at the Conference Room.

Type of meeting: Open—except for two closed sessions as noted in the agenda below.

October 7, 1982

9 a.m.—Introduction, Mission Opportunities, Medical and Training Requirements, Flight Experience and Onboard Role (open)
1:15 p.m.—Astronaut Selection Process Review and Evaluation (closed)
2:15 p.m.—Tour
5 p.m.—Adjourn

October 8, 1982

9 a.m.—Evaluation of Candidates From Whom to Solicit Advice on Selection Process Options (closed)
5 p.m.—Adjourn

Richard L. Daniels,

Director, Management Support Office, Office of Management.

September 16, 1982.

NATIONAL ENDOWMENT FOR THE ARTS

Inter-Arts Panel; Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Inter-Arts Panel (Presenting Organizations) to the National Council on the Arts will be held on October 12, 1982, from 9:00 a.m.-5:00 p.m., October 13, 1982, from 9:00 a.m.-5:00 p.m., October 14, 1982, from 9:00 a.m.-5:00 p.m., and October 15, 1982, from 9:00 a.m.-5:00 p.m. in room 1422 of the Columbia Plaza Office Complex, 2401 E Street, N.W., Washington, D.C. 20506.

A portion of this meeting will be open to the public on October 15, 1982, from 10:00 a.m.-12:00 noon to discuss guidelines.

The remaining sessions of this meeting on October 12-14, from 9:00 a.m.-5:00 p.m., October 15, 1982, from 9:00 a.m.-10:00 a.m. and 12:00 noon-5:00 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the Federal Register of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National

Endowment for the Arts, Washington, D.C. 20506, or call (202) 634–6070.

John H. Clark,

Director, Office of Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7537–01–M

Visual Arts Panel; Overview Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that a meeting of the Visual Arts Panel to the National Council on the Arts will be held on October 7–8, 1982 from 9:00 a.m.–5:00 p.m. in the Columbia Plaza Office Complex, 2401 E Street N.W., Washington, D.C. Room 1422.

This meeting will be open to the public on a space available basis. The topic for discussion will be briefing on Visual Arts Seminar and Guidelines.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634–6070.

John H. Clark,

Director, Office of Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7537–01–M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Proposed Meetings

In order to provide advance information regarding proposed meetings of the ACRS Subcommittees and of the full Committee, the following preliminary schedule reflects the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or cancelled since the last list of proposed meetings published August 25, 1982 (47 FR 37319). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the **Federal Register** approximately 15 days (or more) prior to the meeting. Those Subcommittee meetings for which it is anticipated that there will be a portion or all of the meeting open to the public are indicated by an asterisk (*). It is expected that the sessions of the full Committee meeting designated by an asterisk (*) will be open in whole or in part to the public. ACRS full Committee meetings begin at 8:30 a.m. and Subcommittee meetings usually begin at 8:30 a.m. The time when items listed on the agenda will be discussed during full Committee meetings and when Subcommittee meetings will start will be published prior to each meeting. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the October 1982 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone 202/634–3267, Attn: Barbara Jo White) between 8:15 a.m. and 5:00 p.m., Eastern Time.

ACRS Subcommittee Meetings

**Emergency Core Cooling Systems (ECCS)*, September 28, 1982, Washington, DC. The Subcommittee will discuss: (1) natural circulation modeling in Babcock and Wilcox Small Break LOCA Model; (2) Reactor Coolant Pump trip requirement status; (3) results of recent Semiscale tests and status of Mod–5 proposal; (4) status of Appendix K review proposal; (5) status of LOFT consortium effort.

**Reactor Operations*, September 29, 1982, Washington, DC. The Subcommittee will discuss: (a) the pressure transients during shutdown at Turkey Point Unit 4 and other related incidents with the Staffs of the Offices of Analysis and Evaluation of Operational Data, Nuclear Reactor Regulation, Inspection and Enforcement, and Region II; (b) discussion of Quality Assurance Policy, Accreditation of Licensee's Quality Assurance Program; and (c) a discussion of suppression pool or containment sump water contamination with potential adverse effects on post-accident cooling pumps.

**Metal Components Working Group*, September 30, 1982, Washington, DC. The Subcommittee will hear and discuss with the NRC Staff its interim position on pressurized thermal shock. The views of the industry and others on this matter will also be heard.

**Clinch River Breeder Reactor (CRBR) Working Group On Systems Integration and Instrumentation Control*, September 30, 1982, Washington, DC. The Subcommittee will be briefed on the design of the CRBR plant protection and instrument and control systems.

**Anticipated Transients Without Scram (ATWS)*, October 1, 1982, Washington, DC. The Subcommittee will discuss the proposed plan and schedule of the NRC Task Force on ATWS for resolution of this issue.

Meeting with Reactor Safety Commission (RSK), October 5 and 6, 1982, Washington, DC. The Subcommittee will discuss the use of Probabilistic Risk Assessment (PRA) and quantitative safety goals in the design and regulation of nuclear power plants; recent or proposed changes in safety-related policy, including items such as consideration of Class 9 accidents in the design of nuclear plants; changes in safety-related technology, including items such as the use of the Double-Ended Pipe Break as the basis for plant design and consideration of pressurized thermal shock of reactor pressure vessels; and handling/disposal of radioactive wastes.

**Extreme External Phenomena*, October 21 and 22, 1982, Los Angeles, CA. The Subcommittee will review the issues associated with the flooding and seismic hazards at Systematic Evaluation Program (SEP) plants, the NRC Staff's proposed solutions for plants which do not meet the requirements of the Standard Review Plan (SRP), the site-specific development of design basis tornado windspeeds, and the recent ACRS recommendations on the evaluation of seismic design margins.

**Clinch River Breeder (CRBR) Thermal Hydraulic Design*, October 26, 1982, Washington, DC. The Subcommittee will review the thermal hydraulic aspects of the CRBR plant design.

**Systematic Evaluation Program (SEP)*, October 26 and 27, 1982, Washington, DC. The Subcommittee will review the completion of Integrated Plant Safety Assessment/Systematic Evaluation for Oyster Creek and, to the extent possible, for Dresden 2 and Millstone 1.

**Clinch River Breeder Reactor (CRBR)*, October 27 and 28, 1982, Washington, DC. The Subcommittee will continue the review of the Hypothetical Core Disruptive Accident energetics for CRBR.

**Procedures*, November 3, 1982, Washington, DC. The Subcommittee will review activities of ACRS Members regarding (1)(a) working group activities sponsored by ACRS, (b) attendance at ACRS meetings, and (c) comments by ACRS members as individuals prior to ACRS consideration of a matter; (2) review and distribution of Category B documents; and (3) working relations with NRC Regional Offices.

**Safety Philosophy, Technology and Criteria*, November 3, 1982, Washington, DC. The Subcommittee will continue discussions of Safety Goals and their implementation, and severe accident and backfitting policy.

**Waterford Station Unit 3*, November 9, 1982, New Orleans, LA. The Subcommittee will review the Operator Training Program with the Licensee, the

Region IV Office, and the cognizant NRR Staff members.

Clinch River Breeder Reactor (CRBR) Structures and Materials, November 16, 1982 (Tentative), Washington, D.C. The Working Group will continue its review of the CRBR structures and materials to include leak before break, inservice inspection, weldments, and structural seismic margins.

Reactor Radiological Effects, November 18 and 19, 1982, Washington, DC. The Subcommittee will (1) review FY 1983–87 Long-Range Research Plan on radiation safety and waste management programs; (2) review research needs regarding control room habitability and occupational radiation exposures; (3) be briefed by the Department of Energy (DOE) on DOE's radiation safety research programs; and (4) review and comment on DOE's Dose Reduction Working Group draft recommendations (established in response to PL 96–567).

Emergency Core Cooling Systems (ECCS), November 30 and December 1, 1982, San Jose, CA. The Subcommittee will discuss revision of the General Electric (GE) SAFER/GESTER Code and GE's proposals for revision of Appendix K of 10 CFR 50.

Reactor Radiological Effects and Site Evaluation, Date to be determined (November, Tentative), Washington, DC. The Subcommittees will (1) review and comment on Federal Emergency Management Agency's (FEMA) draft national plan on the use of potassium iodide (KI) as a thyroid blocking agent in the event of a radiation accident; (2) discuss consideration of seismic events in nuclear power plant emergency planning; (3) review NRC proposed revision to 10 CFR Part 20 (Standards for Protection Against Radiation); (4) be briefed by the Environmental Protection Agency (EPA) on proposed Federal Radiation Protection Guidance for Occupational Exposure; and (5) be briefed by the Department of Energy (DOE) on its comments on NRC's proposed revision to Part 20.

Metal Components, Date to be determined (November, Tentative), Washington, DC. The Subcommittee will review the elimination of the double-ended pipe break criteria for pipe whip supports.

Metal Components and Three Mile Island Unit 1, December 1, 1982, Washington, DC. The Subcommittee will review the Steam Generator Generic Recommendation Report and TMI–1 steam generator problems and corrective actions.

Safety Research Program, December 8, 1982, Washington, DC. The Subcommittee will discuss the NRC Safety Research Program and Budget for FY 1984 and 1985 and also Draft 1 of the ACRS Report to the Congress on this matter.

Metal Components, Date to be determined (December, Tentative), Washington, DC. The Subcommittee will review the NRC action plan on integrity of steel bolts.

Seabrook Nuclear Plant Units 1 and 2, Date and location to be determined (December, Tentative). The Subcommittee will visit the site and review the application of the Public Service of New Hampshire for an operating license.

Combination of Dynamic Loads, Date to be determined (February, Tentative), Washingtin, DC. The Subcommittee will discuss the status report on work being done on the combination of dynamic loads.

Reliability and Probabilistic Assessment, Date to be determined, Washington, DC. The Subcommittee will discuss the ACRS review of the Limerick Probabilistic Risk Assessment.

ACRS Full Committee Meeting

October 7–9, 1982: Items are *Tentatively* scheduled.

A. *Washington Public Power Supply System Unit 2 (WPPSS)*—Operating License.

B. *Integrity of Reactor Pressure Vessels*—NRC Action Plan to resolve problems associated with reactor pressure vessel thermal shock.

C. *ECCS Evaluation Models*—Proposed changes in 10 CFR Part 50, Appendix K, ECCS Evaluation Models.

D. *Anticipated Transients Without Scram*—Proposed NRC Action Plan to resolve ATWS issues.

E. *Human Factors Integrated Program Plan*—Proposed NRC Action Plan regarding human factors considerations in the design and operation of nuclear power plants.

F. *ACRS Subcommittee Activity*—Reports of ACRS Subcommittees regarding safety-related matters such as nuclear power plant operations, staffing of nuclear plants, impact of Small Break LOCA's on natural circulation, and the CRBR control and instrumentation system.

G. *Future ACRS Activities*—Discuss anticipated subcommittee activities and proposed full committee activities.

November 4–6, 1982: Agenda to be announced.

December 9–11, 1982: Agenda to be announced.

Dated: September 16, 1982.

Samuel J. Chilk,

Acting Advisory Committee Management Officer.

BILLING CODE 7590-01-M

Applications for Licenses To Export/ Import Nuclear Facilities or Materials

Pursuant to 10 CFR 110.70(b) "Public notice of receipt of an application," please take notice that the Nuclear Regulatory Commission has received the following applications for import/export licenses. A copy of each application is on file in the Nuclear Regulatory Commission's Public Document Room located at 1717 H Street, NW., Washington, D.C.

A request for a hearing or a petition for leave to intervene may be filed within 30 days after publication of this notice in the **Federal Register.** Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner upon the applicant, the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, the Secretary, U.S. Nuclear Regulatory Commission and the Executive Secretary, Department of State, Washington, D.C. 20520.

In its review of applications for licenses to export production or utilization facilities, special nuclear material or source material, noticed herein, the Commission does not evaluate the health, safety or environmental effects in the recipient nation of the facilities or material to be exported. The table below lists all new major applications.

Dated this 14th day of September at Bethesda, Maryland.

For the Nuclear Regulatory Commission.

Marvin R. Peterson,

Acting Assistant Director, Export/Import and International Safeguards, Office of International Programs.

[Docket No. 50-369]

Duke Power Co.; Issuance of Amendment Facility Operating License No. NPF-9

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 16 to Facility Operating License No NPF-9, issued to Duke Power Company (licensee) for the McGuire Nuclear Station, Unit 1 (the facility) located in Mecklenburg County, North Carolina. The amendment is effective as of its date of issuance.

This amendment revises the descriptions of the offsite organization and the station organization.

Issuance of this amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CRF Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CRF 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) Duke Power Company letter date July 30, 1982, (2) Amendment No 16 to Facility Operating License No. NPF-9 and (3) the Commission's related Safety Evaluation.

These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and the Atkins Library, University of North Carolina, Charlotte (UNCC Station), North Carolina 28223. A copy of these items may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 14th day of September 1982.

For the Nuclear Regulatory Commission.

Carl R. Stahle,

Acting Chief, Licensing Branch No. 4, Division of Licensing, NRR.

BILLING CODE 7590-01-M

[Docket No. 50-389A]

Florida Power & Light Company, Orlando Utility Commission and Florida Municipal Power Agency; Finding of No Significant Antitrust Changes and Time for Filing Requests for Reevaluation

The Director of Nuclear Reactor Regulation has made an initial finding in accordance with section 105c(2) of the Atomic Energy Act of 1954, as amended, that no significant (antitrust) changes in the licensees' activities or proposed activities have occurred subsequent to the previous construction permit review of Unit 2 of the St. Lucie Plant by the Attorney General and the Commission. The finding is as follows:

Section 105c(2) of the Atomic Energy Act of 1954, as amended, provides for an antitrust review of an application for an operating license if the Commission determines that significant changes in the licensee's activities or proposed activities have occurred subsequent to the previous construction permit review. The Commission has delegated the authority to make the "significant change" determination to the Director, Office of Nuclear Reactor Regulation. Based upon an examination of the events since the St. Lucie Unit No. 2 construction permit antitrust review, the staffs of the Antitrust and Economic Analysis Branch, Office of Nuclear Reactor Regulation and the Antitrust Section of the Office of the Executive Legal Director, hereafter referred to as "staff," have jointly concluded, after consultation with the Department of Justice, that the changes that have occurred are not of the nature to require a second antitrust review at the operating license stage of the application.

The conclusion of the staff's analysis is as follows:

Subsequent to the completion in March of 1982 of the construction permit antitrust proceedings, Seminole Electric Cooperative has decided to withdraw its proposed six percent participation in St. Lucie 2. The reasons given were the current uncertainties of the nuclear industry, the lack of support from the financial community for nuclear projects, and the overall costs of St. Lucie 2. In addition, Seminole has found an economic alternative to St. Lucie 2 in two-600MW coal fired units that it has under construction with delivery of the power from those units to its members using transmission services afforded by Florida Power and Light and Florida Power Corporation. Thus, the decision by Seminole to withdraw from St. Lucie 2 appears to be a reasonable business decision.

Orlando's planned participation in St. Lucie 2 has not changed. In addition, Orlando is planning a 415 MW coal fired unit in which Florida Municipal Power Agency would receive a 35 percent ownership participation. Power will be delivered to FMPA members utilizing the transmission systems of Orlando, Florida Power and Light Co. and Florida Power Corporation. These power supply arrangements are each considered to be pro-competitive.

Florida Municipal Power Agency will acquire an 8.806 percent ownership interest in St. Lucie 2 on behalf of the nineteen of its twenty six members that chose to participate in the project. Florida Power and Light Company will provide the necessary transmission service to deliver the power to the participants to which it is connected or to other electric systems for delivery of the power to those participants to which it is not connected.

Joint action agencies, such as Seminole Electric Cooperative and Florida Municipal Power Agency, coupled with transmission services by Florida Power and Light and Florida Power Corporation have made power supply options available to small cooperative and municipal electric systems statewide. These are positive developments consistent with the antitrust license conditions and settlement provisions of the construction permit antitrust proceedings. Staff therefore concludes that they do not represent significant changes that would warrant a

second antitrust review in connection with the operating license application.

Based on the staff's analysis, it is my finding that a formal operating license antitrust review of the St. Lucie Plant, Unit 2 is not required.

Signed on September 14, 1982, by Harold R. Denton, Director of Office of Nuclear Reactor Regulation.

Any person whose interest may be affected by this finding may file with full particulars a request for reevaluation with the Director of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 by (30 days).

For the Nuclear Regulatory Commission.

Argil Toalston,

Chief, Antitrust and Economic Analysis Branch, Division of Engineering, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket Nos. 50-315 and 50-316]

Indiana and Michigan Electric Co.; Issuance of Amendments To Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 61 to Facility Operating License No. DPR-58 and Amendment No. 44 to Facility Operating License No. DRP-47 issued to Indiana and Michigan Electric Company (the licensee), which revised Technical Specifications for operation of Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2 (the facilities) located in Berrien County, Michigan. The amendments are effective as on the date of issuance.

The amendments revise the Technical Specifications to reflect a revised LOCA analysis for Unit 1 and implementation of Supplement 2 to the PDC-II power distribution control procedures for both Units.

The applications for amendments comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the applications for amendments dated April 7, 1982 and July 12, 1982, (2) Amendment Nos. 61 and 44 to License Nos. DPR-58 and DPR-74, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Maude Reston Palenske Memorial Library, 500 Market Street, St. Joseph, Michigan 49085. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 15th day of September, 1982.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactors Branch No. 1, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-309]

Maine Yankee Atomic Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 64 to Facility Operating License No. DPR-36 issued to the Maine Yankee Atomic Power Company (the licensee), which revised the license for operation of the Maine Yankee Atomic Power Station (the facility) located in Lincoln County, Maine. The amendment is effective as of the date of issuance and is to be implemented in accordance with the provisions of 10 CFR 73.40(b) and 10 CFR 73.55(b)(4).

The amendment adds license conditions to include the Commission approved Guard Training and Qualification Plan and the Safeguards Contingency Plan as a part of the license.

The licensee's filing, which has been handled by the Commission as an application, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since this amendment does not involve a significant hazards condition.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

The licensee's filing dated June 1, 1982 consists of Safeguards Information required to be protected from public disclosure pursuant to 10 CFR 73.21.

For further details with respect to this action, see (1) Amendment No. 64 to Facility Operating License No. DPR-36 and (2) the Commission's related letter to the licensee dated Sept. 15, 1982. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the Wiscasset Public Library Association, High Street, Wiscasset, Maine. A copy of items (1) and (2) may be obtained upon request to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 15th day of September, 1982.

For the Nuclear Regulatory Commission.

Robert A. Clark,

Chief, Operating Reactors Branch No. 3, Division of Licensing.

BILLING CODE 7590-01-M

[Docket Nos. 50-338 and 50-339]

North Anna Power Station, Units No. 1 and No. 2; Proposed Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Facility Operating Licenses No. NPF-4 and No. NPF-7, issued to Virginia Electric and Power Company (the licensee), for operation of the North Anna Power Station, Units No. 1 and No. 2, located in Louisa County, Virginia.

In accordance with the licensee's application for amendment dated July 13, 1982, the amendment would revise Facility Operating Licenses No. NPF-4 and No. NPF-7 to permit the receipt and storage of 500 spent fuel assembles from the Surry Power Station, Units No. 1 and No. 2.

Prior to issuance of the proposed license amendments, the Commission

will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

By October 22, 1982, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating licenses and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matters within the scope of the amendment under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene shall be filed with the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner or representative for the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325–6000 (In Missouri (800) 342–6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Robert A. Clark: (Petitioner's name and telephone number); (date petition was mailed); (Plant name); and (publication date and page number of this **Federal Register** Notice). A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Michael W. Maupin, Esq., Hunton, Williams, Gay and Gibson, P.O. Box 1535, Richmond, Virginia 23212, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated July 13, 1982, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the Board of Supervisors Office, Louisa County Courthouse, Louisa, Virginia 23093 and at the Alderman Library, Manuscripts Department, University of Virginia, Charlottesville, Virginia 22902.

Dated at Bethesda, Maryland this 16th day of September 1982.

For the Nuclear Regulatory Commission.

Robert A. Clark,

Chief, Division of Licensing.

[FR Doc. 82-26129 Filed 9-21-82; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-338 and 50-339]

North Anna Power Station, Units No. 1 And No. 2; Proposed Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Facility Operating Licenses No. NPF-4 and No. NPF-7, issued to Virginia Electric and Power Company (the licensee), for operation of the North Anna Power Station, Units No. 1 and No. 2, located in Louisa County, Virginia.

In accordance with the licensee's application for amendment dated August 20, 1982 the amendment would revise the Technical Specifications to permit the expansion of fuel storage capacity for North Anna units Nos. 1 and 2 from 966 to 1737 fuel assemblies and identify a new nominal center-to-center spacing between fuel assemblies of 10⅞ inches.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

By October 22, 1982, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating licenses and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing

Board Panel will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or a appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matters within the scope of the amendment under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene shall be filed with the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street, N.W. Washington, D.C. by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner or representative for the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325–6000 (In Missouri (800) 342–6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Robert A. Clark: (Petitioner's name and telephone number); (date petition was mailed); (Plant name); and (publication date and page number of this **Federal Register** Notice). A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission Washington, D.C. 20555, and to Michael W. Maupin, Esq., Hunton, Williams, Gay and Gibson, P.O. Box 1535, Richmond, Virginia 23212, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714.

For further details with respect to this action, see the application for amendment dated August 20, 1982, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW. Washington, D.C. 20555 and at the Board of Supervisors Office, Louisa County Courthouse, Louisa, Virginia 23093 and at the Alderman Library, Manuscripts Department, University of Virginia, Charlottesville, Virginia 22902.

Dated at Bethesda, Maryland this 10th day of September 1982.

For the Nuclear Regulatory Commission.

Robert A. Clark,

Chief, Operating Reactors Branch No. 3, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50–460–OL; ASLBP No. 82–478–06–OL]

Washington Public Power Supply System; Establishment of Atomic Safety and Licensing Board

Pursuant to delegation by the Commission dated December 29, 1972, published in the **Federal Register**, 37 FR 28710 (1972), and §§ 2.105, 2.700, 2.702, 2.714, 2.714a, 2.717 and 2.721 of the Commission's Regulations, all as amended, an Atomic Safety and Licensing Board is being established in the following proceeding to rule on petitions for leave to intervene and/or requests for hearing and to preside over the proceeding in the event that a hearing is ordered:

Washington Public Power Supply System

WPPSS Nuclear Project No. 1

Construction Permit No. CPPR–134

This Board is being constituted pursuant to a notice published by the Commission on August 16, 1982, in the **Federal Register** (47 FR 35567–68) entitled, "Receipt of Application for Facility Operating License; Availability of Applicant's Environmental Report; Consideration of Issuance of Facility Operating License; and Notice of Opportunity for Hearing."

The Board is comprised of the following Admininstrative Judges:

Ivan W. Smith, Chairman, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Glenn O. Bright, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Dr. Jerry Harbour, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Issued at Bethesda, Maryland this 16th day of September 1982.

B. Paul Cotter, Jr.,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

BILLING CODE 8010-01-M

[Release No. 22630; (70-6780)]

Michigan Power Co.; Proposed Issuance and Sale of Long-Term Notes to Banks

September 10, 1982.

Michigan Power Company ("Michigan"), P.O. Box 413, Three Rivers, Michigan 49093, a public-utility subsidiary of American Electric Power Company, Inc., a registered holding company, has filed a declaration with this Commission pursuant to Sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act").

Michigan has $20 million of notes outstanding evidencing borrowings from Manufacturers Hanover Trust Company and National Bank of Detroit in aggregate amounts of $13 million and $7 million, respectively. Each such note matures December 31, 1987, and bears interest through December 31, 1982, at a fluctuating rate per annum equal at all times to the rate of interest publicly announced by Manufacturers Hanover Trust Company as its prime rate; at a rate of 102% of said prime rate through December 31, 1985; and at 104% of said rate thereafter. At August 31, 1982, such prime rate was 13½%. Each note is prepayable, in which or in part and without payment of a premium or penalty, at any time prior to maturity. Michigan believes that it would be desirable to refinance such notes with the proceeds of fixed rate bank borrowings at such time as interest rates fall sufficiently to warrant such refinancing.

Accordingly, Michigan requests authorization to issue and sell through December 31, 1983, up to $20 million principal amount of its unsecured promissory notes (the "Notes") in connection with borrowings by the company from one or more commercial banks pursuant to a proposed Term Loan Agreement (the "Agreement"). Each Note will be due and payable on a date which shall not be less than two nor more than ten years from the date thereof; and will bear interest on the unpaid principal amount which shall be no greater than the rate of interest payable by the company to Manufacturers Hanover Trust Company under the existing Term Loan Agreement as of the date upon which a definitive Agreement is executed. No compensating balances shall be maintained or fees paid in the form of substitute interest by the company with respect to a lending bank's commitment under the Agreement. The proposed Agreement further specifies that, in the event a Note is paid prior to maturity in whole or in part, Michigan shall pay a

fee to the lending bank calculated to reimburse the bank for interest lost, if any, as a result of the prepayment. Michigan will apply all of the proceeds of the Note or Notes, at the time of such borrowings, to the repayment of notes evidencing indebtdess to Manufacturers Hanover Trust Company and National Bank of Detroit.

Michigan believes that long-term debt financing in the form of unsecured notes issued to commercial banks is the most practicable and cost-effective alternative available to it because of the company's modest size and capital needs and its relatively weak financial strength. The company also feels that the ability to carry out fixed rate financing through unsecured debt at an appropriate time will provide valuable flexibility.

The declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by October 6, 1982, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the declaration, as filed or as it may be amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 82-26072 Filed 9-21-82; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-19047; File No. SR-NYSE-82-14]

Self-Regulatory Organization; New York Stock Exchange, Inc.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on September 8, 1982, the New York Stock Exchange, Inc., filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change will facilitate the operation of R4 on a six-month experimental basis and will implement trade comparison procedures using universal contraparty names and automatic submission of trade data into comparison in conjunction with R4. The text of the proposed rule change consists of procedures to be followed in implementing the R4 experiment.

These procedures are intended as "interim rules" for the operation of the experiment and would supersede any other rule inconsistent therewith. Prior to the expiration of the six-month period, the Exchange expects either to submit a formal codification of the procedures, revised as appropriate based on the Exchange's experience with R4, or to request an extension of the time period for the experiment pending further study and evaluation. The Exchange may also terminate the experiment at any time.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.

Intense competition for small-size order flow resulting from the availability of automatic execution services on other exchanges (i.e. MAX on the Midwest Stock Exchange, PACE on the Philadelphia Stock Exchange and SCOREX on the Pacific Stock Exchange), has prompted the Exchange to investigate ways in which it can compete more effectively for such orders. The Exchange is planning to test several procedures to provide rapid execution and efficient order handling. R4 is one such experiment.

The R4 experiment is intended as a step in the possible development by the Exchange of a product which would allow member organizations to provide their customers with near-instantaneous executions of small-size market orders, ultimately through equipment developed for the Service, including an intelligent interactive terminal which could be used by the Registered Representative in his office. The execution price would be based upon the quotation displayed by the Exchange's published quotation (bought on offer or sold on bid). The ultimate system would automatically send an execution report back to the Registered Representative and print a report on the Floor. Thus, there would be a minimal lapse between the time the Registered Respresentative enters the order into the system and the time the Registered Representative receives an execution report. Ultimately, this product would also cause a transaction effected through the system to be reported to the Consolidated last sale reporting system (the "Tape"). It would also update the Exchange's published quotation and would automatically submit trade data within the system into comparison. The above description is based on the Exchange's present perception of how such a product would work, the details of which are subject to change.

Although the R4 experiment is consistent with a program designed to provide member organizations with the ability to give near-instantaneous executions to those customers who desire them, the facilities necessary to provide the ultimate product described above are not presently available. The R4 experiment will therefore utilize the order-routing channels presently available to member organizations through the Designated Order Turnaround ("DOT"). System and the procedures outlined below will be followed to provide execution reports to customers.

Initially, eligible participants in the experiment are Merrill Lynch, Pierce, Fenner & Smith Inc. and Dean Witter Reynolds Inc. Eligible stocks are expected to be the thirty Dow Jones Industrial stocks. As the experiment progresses, the member organizations which participate may be changed and stocks may be added and deleted.

The key aspects of the procedures for the R4 experiment can be summarized as follows:

- Registered Representatives commit an immediate and guaranteed execution to a customer based upon the composite quotation.
- Registered Representatives do not send an order to the Floor for execution—they send

a *completed report of execution* to the Floor.

- R4 transactions are executed through an Exchange facility and the time of execution is considered the point at which the execution report passes programmed validation guidelines. The trades, however, will not be considered to have occurred in the regular market on the Floor and Exchange rules will apply accordingly.
- The specialist, when receiving a report via R4, shall accept that report as the report of an execution which has already taken place at the reported price, inclusive of any commission, commission equivalent, differential or other charge imposed by the specialist.
- When an R4 report reaches the Floor and the reported price of the completed transaction is at the current quotation on the Floor at that time and such current quotation is on behalf of the book or the Crowd, the specialist gives up the book or the Crowd, based on priority. Of course, if the specialist has priority over an order in the Crowd at the price of the current quotation, he is not precluded from taking the R4 report into his own account.
- When an R4 report reaches the Floor and the reported price of the completed transaction is either between or outside the current quotation on the Floor at that time, the specialist must accept the execution for his own account.
- If an R4 report does not pass programmed validation guidelines and is rejected back to the entering organization, such member organization is responsible for providing the customer with the guaranteed execution by following the procedure it normally uses to correct an error.
- Registered Representatives are prohibited from using R4 to execute customer "short" sale orders.
- R4 uses the universal contras *RX* and *RR* for comparison purposes and automatically submits completed trade data into comparison.

The Exchange is aware that certain aspects of the proposed R4 procedures might have an impact on the market on the Floor for the stocks involved in the experiment or might raise other questions or concerns including some that relate to the structure of the market. The purpose of the experiment—which we plan to monitor closely—is to help determine the impact, if any, of the R4 experimental procedures and identify unanticipated problems.

The Service offers the following benefits to member organizations and their customers:

—Provides a greater choice in the way customers' orders can be executed; i.e., through R4, a customer can receive an execution the second the customer decides to buy or sell and agrees on the price based on the composite quotation *or* a customer can have the order sent to the Floor through the Exchange's Designated Order Turnaround ("DOT") System if the customer feels it would allow him to obtain a better price.
—Relieves R4 subscribers and specialists of the expense of submitting R4 trade data into comparison and eliminates errors and omissions which might otherwise occur if they submitted their own data.
—Provides a fully compared trade on trade date.
—Reduces frequency of uncompared trades through the use of universal contras.

The procedures for the experiment constitute rules in that they revise current comparison procedures and the way orders are normally executed on the Exchange. The Exchange is also requesting an exemption for the specialist from the short selling rules pursuant to paragraph (f) of SEC Rule 10a–1 with respect to principal short sales effected to fill R4 reports at a price which represents a "minus" or "zero minus" tick on the Exchange. The Exchange is also modifying its rules with respect to a specialist's principal transactions pursuant to an R4 report from the tick restrictions in Rule 104 and from the general prohibition against the specialist dealing for his own account unless such dealings are reasonably necessary to maintain a fair and orderly market (*i.e.*, the specialist's negative obligation). In addition, the Exchange is modifying its rules with respect to a transaction for his own account in a specialty stock that would result in putting into effect any stop order he may have on his book.

Reporting and comparison procedures for R4 will also prevail over existing rules governing these procedures. In addition, odd-lot and PRL orders executed through R4 would be executed in the same manner and at the same price as the round-lot orders, *i.e.*, on the basis of the best composite quotation at the time the order is received by the Registered Representative rather than on the basis of the price of the next round-lot sale as called for presently in Rule 124.

Statutory Basis for the Proposed Rule Change

The R4 experiment proposed herein is designed to facilitate transactions involving small-size market orders on the Exchange and to provide for efficient clearance and settlement of these transactions. Implementation of the experiment will be consistent with those provisions of the Securities Exchange Act of 1934 (the "Act") which encourage use of new data processing and communications techniques and more efficient market operations. It will also advance the prompt and accurate clearance and settlement of securities transactions. See Sections 11A(a)(1) and 17A(a)(1).

B. Self-Regulatory Organization's Statement on Burden on Competition

As explained above, the R4 experiment provides an opportunity for the Exchange to compete more effectively for small-size order flow with other exchanges which utilize automatic execution systems. Thus, the Exchange does not believe the R4 experiment will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change. However, the Exchange has consulted with the member organizations that will participate in the experiment and has been informed that the procedures satisfy their needs.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Commission has found good cause for approving the proposed rule change on an accelerated basis in that it may prove useful for the NYSE to experiment with this rapid execution system as soon as possible in light of the recent periods of high volume on the NYSE. In addition, the NYSE has completed all preliminary work necessary to implement the experiment and the NYSE notes the temporary nature of the proposed rule change. Accordingly, the Commission has found that notice for 30 days prior to approval of the proposed rule change is unnecessary and that accelerated approval is in the public interest.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the Provisions of 5 U.S.C. 552, will be available for inspection and copying in the

Commission's Public Reference Section, 450 5th Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: September 14, 1982.

George A. Fitzsimmons,

Secretary.

[FR Doc. 82-26073 Filed 9-21-82; 8:45 am]

BILLING CODE 8010-01-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Commissioner's Advisory Group; Notice of Open Meeting

There will be a meeting of the Commissioner's Advisory Group on October 12 and 13, 1982. The meeting will be held in Room 3313 of the Internal Revenue Service Building. The building is located at 1111 Constitution Ave., N.W., Washington, D.C. The meeting will begin at 9:00 a.m. on Tuesday, October 12, and 9:00 a.m. on Wednesday, October 13. The agenda will include the following topics:

Tuesday, October 12, 1982

Tax Compliance Legislation of 1982, Request for Expeditious Treatment on Field Audits and Rulings, IRS Undercover Programs, IRS Paperwork Reduction Efforts.

Wednesday, October 13, 1982

FY 1983 Taxpayer Service Program Pro Se Taxpayer—Approaches by Counsel and Appeals.

The meeting, which will be open to the public, will be in a room that accommodates approximately 50 people. If you would like to have the Committee consider a written statement, please call or write to John E. Burke, Assistant to the Deputy Commissioner, 1111 Constitution Ave., N.W., Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: John E. Burke, Assistant to the Deputy Commissioner (202) 566-4143 (Not toll free).

James I. Owens,

Acting Commissioner.

[FR Doc. 82-26134 Filed 9-21-82; 8:45 am]

BILLING CODE 4830-01-M

Office of the Secretary

Supplement to Department Circular; Public Debt Series No. 23-82

September 16, 1982.

The Secretary announced on September 15, 1982, that the interest rate on the notes designated Series W-1984, described in Department Circular—Public Debt Series—No. 23-82 dated September 9, 1982, will be 12⅛ percent. Interest on the notes will be payable at the rate of 12⅛ percent per annum.

Gerald Murphy,

Acting Fiscal Assistant Secretary.

[FR Doc. 82-26160 Filed 9-21-82; 8:45 am]

BILLING CODE 4810-40-M

Amendment To Department Circular; Public Debt Series—No. 23-82

September 16, 1982.

Department of the Treasury Circular, Public Debt Series—No. 23-82, dated September 9, 1982, as supplemented, descriptive of the 12⅛ percent Treasury Notes of Series W-1984, is hereby amended, effective September 30, 1982, to issue the notes as an additional issue of the 12⅛ percent Treasury Notes of Series F-1984, as described in Department of the Treasury Circular, Public Debt Series—No. 29-80, dated September 15, 1980, as supplemented. The provision in Department of the Treasury Circular, Public Debt Series—No. 23-82, for a $5,000 minimum denomination on the Series W-1984 notes will have no effect following the merger of the two issues. Both series of 12⅛ percent notes will have a $1,000 minimum denomination and will mature on September 30, 1984.

The additional issue of the 12⅛ percent Treasury Notes of Series F-1984 will accrue interest from September 30, 1982, and payment for the notes will be calculated on the basis of the auction price determined in accordance with Department of the Treasury Circular, Public Debt Series—No. 23-82. Otherwise, the notes are as described in the following excerpt from Department of the Treasury Circular, Public Debt Series—No. 29-80:

"2.1. The securities will be dated September 30, 1980, and will bear interest [1] from that date, payable on a semiannual basis on March 31, 1981, and each subsequent 6 months on September 30 and March 31, until the principal becomes payable. They will mature September 30, 1984, and will not be subject to call for redemption prior to maturity.

"2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

"2.3. The securities will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

"2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. Book-entry securties will be availabe to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered and book-entry securities, and the transfer of registered securities will be permitted.

"2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date."

The foregoing amendment was effected under authority of Sections 18 and 20 of the Second Liberty Bond Act, as amended (49 Stat. 21, as amended; 31 U.S.C. 753, 754b), and 5 U.S.C. 301. Notice and public procedures thereof are unnecessary as the fiscal policy of the United States is involved.

Gerald Murphy,

Acting Fiscal Assistant Secretary.

[FR Doc. 82-26161 Filed 9-21-82; 8:45 am]

BILLING CODE 4810-40-M

[1] On September 23, 1980, the Secretary of the Treasury announced that the interest rate on the notes would be 12¼ percent per annum.

CIVIL AERONAUTICS BOARD

[M–362, September 16, 1982]

TIME AND DATE: 10 a.m., September 23, 1982.

PLACE: Room 1027 (open), room 1012 (closed), 1825 Connecticut Avenue, NW., Washington, D.C. 20428.

SUBJECT:

1. Ratification of Items Adopted by Notation.
2. Dockets 40815 and 40894, Notices of Golden West and Aspen to suspend service at Lake Tahoe, California. (BDA, OCCCA)
3. Dockets 40808 and 40809, Republic's Notices to suspend service at Klamath Falls and Bend/Redmond, Oregon. (BDA, OCCCA)
4. Dockets 40807 and 40817, Wien's 90-day notice to suspend service at 109 communities in Alaska effective October 1, 1982, and Alaska Airlines' 90-day notice to suspend service at 28 communities in Alaska effective October 1, 1982. (BDA, OCCCA)
5. Docket 40810, Republic's notice of intent to suspend all service at Benton Harbor/St. Joseph, Michigan. (BDA, OCCCA)
6. Docket 40210 and Docket EAS–550, Metroflight, Inc.'s notice of intent to suspend service at Lawton/Ft. Sill, Oklahoma and Lawton's EAS determination. (Memo 950–A, BDA, OCCCA, OGC)
7. Docket 38818, Second-year subsidy rate for Precision Valley Aviation for provision of essential air service at Montpelier/Barre, Vermont. (Memo 304–B, BDA, OCCCA, OC)
8. Docket 36244, Pioneer Airways, Inc.'s application for compensation for losses in Southern Nebraska. (BDA, OC, OCCCA, BCAA)
9. Dockets 32484, 38011, 30228, 40661, and 40801, Termination of section 406 subsidy payments at end of FY 1982. (BDA, OCCCA, OGC, OC)
10. Commuter carrier fitness determination of Manu'a Air Transport, Inc. (Memo 1497, BDA)
11. Dockets 40674, 40726, and 40847, Motion of Aloha Airlines to consolidate three section 401 certificate applications for intra-Hawaii authority to be heard in one formal hearing. (BDA)
12. Dockets 40832 and 40833, Application of International Air Associates, Inc. waiver of service requirements of section 302.1705 of the Board's Regulations. (BDA)
13. Dockets 40634 and 40635, Applications of United Air Carriers, d.b.a. Overseas National Airways. (Memo 1402–A, BDA)
14. Docket 40673, *Regulatory Flexibility Act;* definition of "small business", (Memo 1255–A, OGC)
15. Docket 40500, *Conner Air Lines, Inc.* v. *Seagreen Air Transport, Ltd.,* petition for Board review of dismissal by the Enforcement Division of OGC of Conner's complaint alleging Seagreen's violation of its section 402 foreign air carrier permits. (Memo 1495, OGC)
16. Docket 39387, USAir petition for permanent confidential treatment for detailed domestic service segment data. (OC, BDA, BIA, BCAA, OEA, OCCCA, OGC)
17. Dockets 39932 and 36294, Denied Board Compensation. (OGC, BDA, BIA, OC, OEA, OCCCA)
18. Docket 40399, Application of Action Air Cargo Corporation for a certificate of public convenience and necessity U.S.-Azores/Africa. (Memo 1491, BIA, OGC, BALJ)
19. Docket 40793, Application of United Air Carriers, Inc. d.b.a. Overseas National Airways for a certificate of public convenience and necessity to engage in scheduled foreign air transportation (New York-Beirut-Amman-Kuwait-Abu Dhabi-Dubai) (Memo 1498, BIA, OGC, BALJ)
20. Docket 35634, IATA agreement proposing a new cargo rate structure within Asia. (Memo 1481, BIA)
21. Docket 36496, Guaranteed Air Fare Rule. (BIA)
22. Report on Canada. (BIA)
23. Discussion on Upcoming Civil Aviation Negotiations with Peru. (BIA)
24. Update on United States-Chile Negotiations. (BIA)
25. Docket 40915, Pan American's Section 23 Complaint against British Airways. (BIA)

STATUS: 1–21 (open), 22–25 (closed).

PERSON TO CONTACT: Phyllis T. Kaylor, the Secretary (202) 673–5068.

CIVIL AERONAUTICS BOARD

[M–361 Amdts. 1, 2 and 3, September 10, 1982]

Deletions and Additions to the September 14, 1982 Meeting

TIME AND DATE: 10 a.m., September 14, 1982.

PLACE: Room 1027 (open), room 1012 (closed), 1825 Connecticut Avenue, NW., Washington, D.C. 20428.

SUBJECT:

4. Dockets EAS–765 and EAS–792, Coastal Airlines' Petition for reconsideration of Order 82–6–61 selecting Air Vermont to provide essential air service at Berlin, New Hampshire, and Newport, Vermont. (Memo 518–E, BDA, OCCCA)
15. Docket 35634, IATA agreement proposing a new cargo rate structure within Asia. (Memo 1481, BIA)
15a. Dockets 40534, *et al.,* Order instituting the *Braniff South American Route Transfer Case.* (Memo 1482, BIA, OGC)
17. Dockets 40831, 40940, Applications of Arrow Airways, Inc. for certificate of public convenience and necessity and exemption (Denver-London). (BIA, OGC, BALJ)
24. Report on Japan. (BIA)

STATUS: 4 (open), 15 (open), 15a (open), 17 (open), 24 (closed).

PERSON TO CONTACT: Phyllis T. Kaylor, the Secretary (202–673–5068).

SECURITIES AND EXCHANGE COMMISSION

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 47 FR 39935, September 10, 1982.

STATUS: Open meeting.

PLACE: Room 1C30, 450 5th Street, N.W., Washington, D.C.

DATE PREVIOUSLY ANNOUNCED: Tuesday, September 7, 1982.

CHANGES IN THE MEETING: Deletion. The following item was not considered at an open meeting scheduled on Thursday, September 16, 1982, at 10:00 a.m.

Consideration of an application filed by Union-Investment-Gesellschaft m.b.H. ("Union-Investment"), a West German management company, on behalf of Unifonds, a West German mutual fund, requesting an order pursuant to Sections 6(c) and 7(d) of the Investment Company Act of 1940, permitting registration of Union-Investment under the Act so that it may sell Unifonds shares in the United States, and granting exemptions from many of the provisions of the Act to the extent necessary to permit Union-Investment to comply with various West German regulations and business practices that conflict with those to which U.S. companies are subject. For further information, please contact Barbara Fraser at (202) 272–3042.

Chairman Shad and Commissioners Evans, Longstreth and Treadway determined by vote that Commission business required the above change and that no earlier notice thereof was possible.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Catherine McGuire at (202) 272–3085.

Part II

Department of Health and Human Services

National Institutes of Health

Recombinant DNA Advisory Committee, Meeting; Recombinant DNA Research: Proposed Actions Under Guidelines

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Recombinant DNA Advisory Committee; Meetings

Pursuant to Pub. L. 92–463, notice is hereby given of a meeting of the Recombinant DNA Advisory Committee at Wilson Hall, Building 1, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20205, on October 25, 1982, from 9:00 a.m. to adjournment at approximately 6:00 p.m. This meeting will be open to the public to discuss:

CDC/NIOSH report on medical surveillance
Classification of microorganisms for purposes of Guidelines
Review of protocols for required containment levels
Containment levels for cloning toxin genes
Amendment of Guidelines
Proposed exemptions to Guidelines
Other matters requiring necessary action by the Committee

Attendance by the public will be limited to space available.

Dr. William J. Gartland, Jr., Executive Secretary, Recombinant DNA Advisory Committee, National Institutes of Health, Building 31, Room 4A52, telephone (301) 496–6051, will provide materials to be discussed at the meeting, rosters of committee members, and substantive program information. A summary of the meeting will be available at a later date.

In addition, notice is hereby given of a meeting of the Large-Scale Review Working Group sponsored by the Recombinant DNA Advisory Committee at the National Institutes of Health, Wilson Hall, Building 1, 9000 Rockville Pike, Bethesda, Maryland 20205, on October 28, 1982, from 9:00 a.m. to 12:00 noon. The meeting will be open to the public to discuss:

CDC/NIOSH report on medical surveillance
Proposed revision of the Physical Containment Recommendations for Large-Scale Uses of Organisms Containing Recombinant DNA Molecules

Attendance will be limited to space available.

Further information may be obtained from Dr. Elizabeth Milewski, Executive Secretary, Large-Scale Review Working Group, NIAID, Building 31, Room 4A52, Bethesda, Maryland, telephone (301) 496–6051.

Dated: September 15, 1982.

Betty J. Beveridge,

NIH Committee Management Officer.

OMB's "Mandatory Information Requirements for Federal Assistance Program Announcements" (45 FR 39592) requires a statement concerning the official government programs contained in the *Catalog of Federal Domestic Assistance*. Normally NIH lists in its announcements the number and title of affected individual programs for the guidance of the public. Because the guidance in this notice covers not only virtually every NIH program but also essentially every federal research program in which DNA recombinant molecule techniques could be used, it has been determined to be not cost effective or in the public interest to attempt to list these programs. Such a list would likely require several additional pages. In addition, NIH could not be certain that every federal program would be included as many federal agencies, as well as private organizations, both national and international, have elected to follow the NIH Guidelines. In lieu of the individual program listing, NIH invites readers to direct questions to the information address above about whether individual programs listed in the *Catalog of Federal Domestic Assistance* are affected.

NIH programs are not covered by OMB Circular A–95 because they fit the description of "programs not considered appropriate" in Section 8–(b)–(4) and (5) of that Circular.

[FR Doc. 82-26000 Filed 9-21-82; 8:45 am]
BILLING CODE 4140-01-M

Recombinant DNA Research; Proposed Actions Under Guidelines

AGENCY: National Institutes of Health, PHS, DHHS.

ACTION: Notice of Proposed Actions under NIH Guidelines for Research Involving Recombinant DNA Molecules.

SUMMARY: This notice sets forth proposed actions to be taken under the NIH Guidelines for Research Involving Recombinant DNA Molecules. Interested parties are invited to submit comments concerning these proposals. After consideration of these proposals and comments by the NIH Recombinant DNA Advisory Committee (RAC) at its meeting on October 25, 1982, the Director of the National Institute of Allergy and Infectious Diseases will issue decisions on these proposals in accord with the Guidelines.

DATE: Comments must be received by October 22, 1982.

ADDRESS: Written comments and recommendations should be submitted to the Director, Office of Recombinant DNA Activities, Building 31, Room 4A52, National Institutes of Health, Bethesda, Maryland 20205. All comments received in timely response to this notice will be considered and will be available for public inspection in the above office on weekdays between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Background documentation and additional information can be obtained from Drs. Stanley Barban and Elizabeth Milewski, Office of Recombinant DNA Activities, National Institutes of Health, Bethesda, Maryland 20205, (301) 496–6051.

SUPPLEMENTARY INFORMATION: The National Institutes of Health will consider the following actions under the Guidelines for Research Involving Recombinant DNA Molecules.

I. Request for Permission To Clone a Hybrid Gene Involving the Gene Encoding Diphtheria Toxin

Dr. John Murphy of Harvard Medical School requests permission to construct a hybrid molecule in which the gene coding for the melanocyte stimulating hormone (MSH) is joined to a segment of the gene encoding diphtheria toxin. The diphtheria toxin gene segment would encode the A subunit and portions of the B subunit. The segment would be devoid of the diphtheria toxin binding domain. The MSH gene would be a synthetic oligonucleotide. The MSH-diphtheria toxin hybrid gene would be introduced into poorly mobilizable plasmids such as pBR322, PUC9, or PUC8, and cloned in *E. coli* EK1 host-vector systems. Dr. Murphy proposes that work leading up to the gene fusion would be conducted under P1+EK1 containment. P1+EK1 containment would be appropriate for cloning the diphtheria toxin segment, as without a binding domain the polypeptide has very low toxicity. Dr. Murphy proposes that propagation of the hybrid gene in *E. coli* K–12 be conducted in the high containment Building 550 at the Frederick Cancer Research Facility (FCRF), since the specific toxicity of the hybrid gene product is unknown. Laboratory practices and containment equipment are to be specified by the IBC.

II. Request for Permission To Clone a Toxin Structural Gene From E. Coli

Drs. Alison O'Brien and Randall Holmes of the Uniformed Services University of the Health Sciences request permission to clone the

structural gene of the *shiga*-like toxin of *Escherichia coli*. The *E. coli* shiga-like toxin has biological activity similar to the activity of *Shigella dysenteriae* neurotoxin. The shiga-like toxin gene would be cloned in *E. coli* EK1 host-vector systems using plasmid, cosmid, or lambda cloning vectors.

III. Request To Release Strains of Pseudomonas Syringae and Erwinia Herbicola

Drs. Nicholas Panopoulos and Steven Lindow of the University of California, Berkeley, request permission to construct and release *Pseudomonas syringae* pv. *syringae* and *Erwinia herbicola* carrying *in vitro* generated deletions of all or part of the genes involved in ice nucleation for purposes of biological control of frost damage in plants.

IV. Request To Field-Test Transformed Tomato and Tobacco Plants

Dr. John Sanford of Cornell University requests permission to field-test tomato and tobacco plants that will be transformed with bacterial and yeast DNA using pollen as a vector. Plants will be screened in the field to detect transformation events.

V. Proposed Revision of Appendix F

NIH staff proposes to revise Appendix F, Section F–1, second sentence, to clarify that the subject experiments are not in fact "prohibited," but rather fall under Section III–A of the Guidelines, which requires that the experiments receive RAC review and NIH and IBC approval before initiation. The current language is inaccurate.

The relevant sentence in Appendix F currently reads as follows: "Cloning of genes coding for molecules toxic for vertebrates that have an LD_{50} of less than 100 nanograms per kilogram body weight [e.g., microbial toxins such as the botulinum toxins, tetanus toxin, diphtheria toxin, *Shigella dysenteriae* neurotoxin] is prohibited."

NIH staff proposes that this sentence be amended to be read as follows: "The cloning of genes coding for molecules toxic for vertebrates that have and LD_{50} of less than 100 nanograms per kilogram body weight [e.g., microbial toxins such as the botulinum toxins, tetanus toxin, diphtheria toxin, *Shigella dysenteriae* neurotoxin] is covered under Section III–A–1 of the Guidelines and requires RAC review and NIH and IBC approval before initiation."

Dated: September 14, 1982.

Bernard Talbot,

Acting Director, National Institute of Allergy and Infectious Diseases, National Institutes of Health.

OMB's "Mandatory Information Requirements for Federal Assistance Program Announcements" (45 FR 39592) requires a statement concerning the official government programs contained in the *Catalog of Federal Domestic Assistance*. Normally NIH lists in its announcements the number and title of affected individual programs for the guidance of the public. Because the guidance in this notice covers not only virtually every NIH program but also essentially every federal research program in which DNA recombinant molecule techniques could be used, it has been determined to be not cost effective or in the public interest to attempt to list these programs. Such a list would likely require several additional pages. In addition, NIH could not be certain that every federal program would be included as many federal agencies, as well as private organizations, both national and international, have elected to follow the NIH Guidelines. In lieu of the individual program listing, NIH invites readers to direct questions to the information address above about whether individual programs listed in the *Catalog of Federal Domestic Assistance* are affected.

NIH programs are not coverd by OMB Circular A–95 because they fit the description of "programs not considered appropriate" in Section 8–(b)–(4) and (5) of that Circular.

September 22, 1982

Part III

Environmental Protection Agency

Approval and Promulgation of State Implementation Plans; Utah; Final and Proposed Rulemaking

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-7-FRL 2151-7]

Approval and Promulgation of State Implementation Plans; Revisions to the Utah Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: On August 11, 1980, the Governor of Utah submitted revisions to the Utah State Implementation Plan (SIP) to meet the requirements of section 172 of the Clean Air Act concerning the ozone and carbon monoxide (CO) nonattainment areas of the State and the requirements in section 127 of the Act regarding public notification. On May 5, 1981 (46 FR 25110), EPA published a proposed rulemaking based on that submittal. In the notice EPA proposed to approve 1) the section 127 public notification plan, 2) the section 172(b)(11)(A) alternatives analysis plan, and 3) the extension request for the City of Provo to meet the primary standards for CO. EPA also proposed to approve with conditions the Inspection/Maintenance (I/M) programs for both Salt Lake County and Davis County and to revoke several CO and ozone strategies promulgated by EPA prior to the enactment of the CAA of 1977.

Because no comments were received on the unconditional approvals, EPA is today approving the public notification plan, the alternatives analysis plan, the extension for Provo, and the revocation of the outdated strategies, except for the I/M strategy. Elsewhere in today's **Federal Register**, EPA is reproposing action on the I/M component of the SIP.

DATES: This action will be effective 30 days following publication.

ADDRESSES: Copies of the revision are available for public inspection between 8:00 a.m. and 4:00 p.m. Monday through Friday at the following offices:

Environmental Protection Agency, Region VIII, Air Programs Branch, 1860 Lincoln Street, Denver, Colorado 80295

Environmental Protection Agency, Public Information Reference Unit, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460

The Office of the Federal Register, 110 L Street NW., Room 8401, Washington, D.C. 20408

FOR FURTHER INFORMATION CONTACT: Barry Levene, Air Programs Branch, Environmental Protection Agency, 1860 Lincoln Stree, Denver, Colorado 80295, (303) 837-3711

SUPPLEMENTARY INFORMATION: On May 5, 1981 (46 FR 25112) EPA proposed to approve portions of the Utah SIP revised in an August 11, 1980, submittal from the Governor and to conditionally approve others. The portions proposed for approval include the Public Notification Plan required by Section 127 of the Clean Air Act, the Alternatives Analysis Plan required by Section 172(b)(11)(A), and the extension of the CO attainment date for Provo until December 31, 1983. EPA also proposed to revoke several ozone and CO strategies promulgated by EPA prior to the enactment of the Clean Air Act of 1977. The portions proposed for conditional approval concern the I/M programs in Salt Lake and Davis counties. EPA is taking final action only on the portions proposed for unconditional approval. Elsewhere in today's **Federal Register**, EPA is reproposing action on the I/M component.

No comments were received on the portions of the SIP proposed for unconditional approval on May 5, 1981. Neither were there any comments on the proposal to revoke several CO and ozone strategies promulgated by EPA prior to enactment of the Clean Air Act Amendments of 1977.

EPA is therefore approving the following portions of the Utah SIP :

1. Extension of the attainment date for CO in Provo until December 31, 1983.

2. The Public Notification Plan required by section 127 of the Clean Air Act.

3. The Alternatives Analysis Plan required by section 172(b)(11)(A).

EPA is also revoking the strategies proposed for revocation in the May 5, 1981, proposal except for the strategy concerning an I/M program, because the I/M component of the SIP is now being proposed for disapproval.

Under Section 307(b)(1) of the Clean Air Act, petitions for review of this action must be filed in the United States Court of Appeals for the appropriate circuit by (60 days from today). This action may not be challenged later in proceedings to enforce its requirements (See 307(b)(2)).

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

List of Subjects in 40 CFR Part 52

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, and Hydrocarbons, Intergovernmental relations.

This rulemaking is issued under the authority of Section 110 of the Clean Air Act (42 U.S.C. 7410).

Dated: September 2, 1982.

Note.—Incorporation by reference of the State Implementation Plan for the State of Utah was approved by the Director of the Federal Register on July 1, 1982.

Anne M. Gorsuch,

Administrator.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Title 40, Part 52 of the Code of Federal Regulations is amended as follows:

Subpart TT—Utah

1. In § 52.2320 (c)(11) is added as follows:

§ 52.2320 Identification of plan.

* * * * *

(c) * * *

(11) Provisions to meet the requirements of Section 127 and Part D for carbon monoxide and ozone were submitted on August 11, 1980.

§§ 52.2336, 52.2338, 52.2339, 52.2340, 52.2341, 52.2342, 52.2343, 52.2329 [Removed]

2. Section 52.2336 is removed.
3. Section 52.2338 is removed.
4. Section 52.2339 is removed.
5. Section 52.2340 is removed.
6. Section 52.2341 is removed.
7. Section 52.2342 is removed.
8. Section 52.2343 is removed.
9. Section 52.2329 is removed.
10. Section 52.2322(j) is added as follows:

§ 52.2322 Extensions.

* * * * *

(j) The Administrator hereby extends to December 31, 1983, the attainment date for the national standards for carbon monoxide in the City of Provo.

11. In § 52.2331 the attainment date table is revised for the Wasatch Front AQCR. As revised the attainment date table is as follows:

§ 52.2331 Attainment dates for national standards

* * * * *

Air quality control region and nonattainment area	Pollutant						
	Particulate matter		Sulfur oxides		Nitrogen dioxide	Carbon monoxide	Ozone
	Primary	Secondary	Primary	Secondary			
Wasatch Front:							
a. Nonattainment Portions	b	b	b	b	a	d	c
b. Remainder of AQCR	a	a	a	a	a	a	a
Four Corners Interstate	a	a	a	a	a	a	a
Utah Intrastate	a	a	a	a	a	a	a

a. Air Quality levels presently below secondary standards.
b. December 31, 1982.
c. December 31, 1985.
d. December 31, 1983.

NOTE 1.—Footnotes which are italic are described by the Administrator because the plans do not provide a specific date, or the date provided is not acceptable.

NOTE 2.—Sources subject to plan requirements and attainment dates established under Section 110(a)(2)(A) of the Act prior to the 1977 Clean Air Act Amendments remain obligated to comply with those requirements by the earlier deadlines. The earlier attainment dates are set out at 40 CFR 52.325.

BILLING CODE 6560-50-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-7-FRL 2151-5]

Approval and Promulgation of State Implementation Plans; Inspection/Maintenance Component of the Utah Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed rulemaking.

SUMMARY: On August 11, 1980, the Governor of Utah submitted revisions to the Utah State Implementation Plan (SIP) to meet the requirements of Section 172 of the Clean Air Act Amendments of 1977 regarding the ozone and carbon monoxide (CO) nonattainment areas of the State and the requirements of Section 127 of the Act regarding public notification. On May 5, 1981 (46 FR 25110), EPA published a proposed rulemaking based on that submittal. EPA proposed to approve: 1) the Section 127 public notification plan, 2) the Section 172(b)(11)(A) alternatives analysis plan, and 3) the extension of the CO primary standards attainment date for Provo until December 31, 1983, as allowed under Section 172(a)(2). EPA also proposed to approve with conditions the Inspection/Maintenance (I/M) component of the plan and to revoke several CO and ozone strategies promulgated by EPA prior to the amendment of the Act.

Comments were received only on the I/M portion of the notice. EPA is reproposing action on the I/M component by proposing disapproval of the I/M portion of the Plan because all the requirements of Section 172 are not met. Final action on the other portions is published elsewhere in today's **Federal Register**.

DATE: Comments due on or before October 22, 1982.

ADDRESSES: Written comments should be addressed to: Robert R. DeSpain, Chief, Air Programs Branch, Environmental Protection Agency, 1860 Lincoln Street, Denver, Colorado 80295.

Copies of the revision are available for public inspection between 8:00 a.m. and 4:00 p.m. Monday through Friday at the following office: Environmental Protection Agency, Region VIII, Air Programs Branch, 1860 Lincoln Street, Denver, Colorado 80295.

FOR FURTHER INFORMATION CONTACT: Barry Levene, Air Programs Branch, Environmental Protection Agency, 1860 Lincoln Street, Denver, Colorado 80295, (303) 837-3711.

SUPPLEMENTARY INFORMATION:

I. Background

The State of Utah submitted major revisions to its State Implementation Plan on January 3, 1979. These revisions included, among other things, provisions for county-operated inspection/maintenance (I/M) programs in Davis County and in Salt Lake County. On May 16, 1979 (44 FR 28688), EPA proposed to disapprove certain portions of the Utah SIP, including the I/M provisions, due to a number of significant deficiencies. In response to EPA's proposal, the State submitted revisions to their SIP on November 5, 1979. As a result of a review to this submittal, EPA identified deficiencies and proposed, on February 19, 1980 (45 FR 10817), to approve the strategies for ozone in Weber County and for CO and ozone for all other areas if certain supplemental materials were submitted prior to final rulemaking.

On August 11, 1980, the State submitted supplemental materials in response to the February 19, 1980 proposal. All of the required materials were contained in the August 11, 1980, submittal, except for decisions by each county on the type of I/M enforcement mechanism to be used and supporting legal opinions stating that the counties had adequate authority for the chosen enforcement mechanisms. Schedules and implementation commitments in the form of resolutions from both counties' Boards of Health were submitted and provided for implementation of the programs by December 31, 1981.

On May 5, 1981 (46 FR 25112) EPA proposed to approve, with certain conditions, those portions of the Utah SIP revised in the August 11, 1980, submittal. The portions proposed for unconditional approval include the Public Notification Plan required by Section 127 of the Clean Air Act, the Alternative Analysis Plan required by Section 172(b)(11)(A), and the extension of the CO primary standards attainment date for Provo until December 31, 1983.

No comments were received on other portions of the SIP proposed for approval on May 5, 1981. Neither were there any comments on the proposal to revoke several CO and ozone strategies promulgated by EPA prior to enactment of the Clean Air Act Amendments of 1977. Final approval of these portions is published elsewhere in today's **Federal Register**.

On May 5, 1981, EPA proposed that the I/M component of the SIP be approved conditioned on adoption and submission to EPA of a specific procedure for effective enforcement of the program along with rules, ordinances, or other documentation representing a commitment to enforce and supporting legal opinions. Since EPA learned that Salt Lake County had revised its schedule to provide for program implementation by December 1982, EPA also proposed that, prior to final rulemaking, Salt Lake County provide documentation concerning its revised implementation schedule. Because the Counties of Davis and Salt Lake are responsible for the implementation of the program, each on its own separate schedule, the deadlines for submittal of this information were proposed to be November 30, 1981, for the Salt Lake County program, and June 30, 1981, for the Davis County program. EPA asked specifically for comments on the appropriateness of this condition and deadlines associated with it.

A revised resolution from the Salt Lake City-County Board of Health and an implementation schedule were received by EPA on April 22, 1981, just prior to EPA's May 5, 1981 proposal. The schedule contains revised dates for key milestones with a program implementation date of December 31, 1982. The stated reason for the revision of the schedules was the decision to proceed with a contractor operated program, which, accorded the EPA policy, must be implemented by December 31, 1982. This deadline is acceptable according to EPA policy but, as discussed below, the County has missed several key implementation milestones.

One comment latter on the davis County I/M program was received during the comment period for the May 5, 1981, notice. The Davis County Board of Health in its June meeting had taken several actions related to the county's I/M program. The comment letter summarized the Board's action to proceed with the I/M program as long as three conditions are met:

1. A reasonable and workable enforcement mechanism must be developed prior to program implementation.

2. A clear understanding of the outcome of pending Clean Air Act amendments must be developed and agreed upon prior to program implementation.

3. To make the planning efforts of Davis and Salt Lake Counties more congruent, the implementation date should be extended for one year until December 31, 1982.

On June 2, 1982, Davis County extended its implementation date to December 31, 1982.

In addition, on August 3, 1981, Davis County provided EPA an outline of potential enforcement mechanisms,

accompanied by legal opinions from the County Attorney and State Attorney general on the legal authority for such mechanisms. None of these mechanisms had been adopted.

II. Discussion

EPA issued guidance on February 24, 1978, on the general criteria for SIP approval including I-M, and on July 17, 1978, regarding the specific criteria for I/M SIP approval. Both of these items are part of the SIP guidance material referred to in the General Preamble for Proposed Rulemaking (44 FR 20372, 20373, and 6). The key elements for I/M SIP approval are as follows:

Legal Authority. States or local governments must have adopted the necessary statutes, regulations, ordinances, etc., to implement and enforce the inspection/maintenance program. (Section 172(b)(10)).

Commitment. The appropriate governmental unit(s) must be committed to implement and enforce the I/M program. (Section 172(b)(10)).

Resources. The necessary finances and resources to carry out the I/M program must be identified and committed. (Section 172(b)(7)).

Schedule. A specific schedule to establish the I/M program must be included in the State Implementation Plan. (Section 172(b)(11)(b)). Interim milestones are specified in the July 17, 1982, memorandum in accordance with the general requirements of 40 51.15(c).

Program Effectiveness. As set forth in the July 17, 1978, guidance memorandum, the I/M program must achieve a 25% reduction in passenger car exhaust emissions of hydrocarbons and a 25% reduction for carbon monoxide. This reduction is measured by comparing the levels of emissions projected to December 31, 1987, with and without the I/M program. This policy is based on Section 172(b)(2) which states "the plan provisions * * * shall * * * provide for the implementation of all reasonably available control measures. * * *."

Specific provisions of these five key elements are detailed in a previous EPA proposal published on February 19, 1980 (46 FR 10818) on the Utah I/M program.

III. EPA Action

EPA is proposing to disapprove the I/M component of the Utah Co-ozone SIP because it does not meet the requirements of Section 172(b)(10) and 172.(b)(2) of the Clean Air Act Amendments of 1977. In addition, the deadlines proposed in EPA's proposed conditional approval have not been met, although a final conditional approval was not published. The SIP remains deficient in the areas of enforceability, commitment, and schedules for both Salt Lake and Davis Counties.

A. Enforceability

EPA believes that, although the counties have submitted adequate general legal authority to implement and enforce I/M programs, there remains a question as to whether or not any mechanism that may be selected to implement that authority will be within the general authority and whether it will be effective. Davis County, in its comment letter, recognizes the issue and has evaluated several alternatives. A description of alternative mechanisms was provided to EPA on August 3, 1981, along with legal opinions from the County Attorney and State Attorney General. The opinions indicate that at least one of the approaches is within the county's legal authority, but there is no indication that this mechanism has been adopted through rules, ordinances or other means. This mechanism seems to be generally consistent with EPA policy, but EPA is unable to determine whether it will be enforceable and effective. Salt Lake County has provided no information on any recommended or adopted enforcement mechanism. Thus the Utah SIP does not provide adequate evidence that will be enforceable or effective. EPA believes that the counties' failure to adopt an effective enforcement mechanism constitutes a major deficiency.

B. Commitment

Both counties have made general commitments in the form of resolutions to implement and enforce I/M programs, but no commitments have been made regarding the specific enforcement mechanism to be used. No rules, ordinances, or other documentation representing a commitment to enforce has been provided. Uncertainties regarding the specific enforcement mechanism have not been resolved even though they were identified in previous EPA proposals on February 19, 1980 (45 10818) and May 5, 1981 (46 FR 25112). The counties' lack of commitment to the I/M programs is also evidenced by the fact that implementation schedules have not been met. Regulations implementing the program have not been adopted according to the submitted schedules. Salt Lake County has failed to meet its own date for distributing requests for proposals for its contract-run centralized programs. Both counties are at least one year behind schedule. EPA therefore believes that neither county has demonstrated a sufficient commitment to implementation and enforcement of an I/M program as required by Section 172(b)(10).

C. Schedule

On June 2, 1981, the Davis County Board of Health passed a resolution which extended its I/M implementation date until December 31, 1982. EPA was informed of this action in Davis County's comment letter on EPA's May 5, 1981, proposal. The rationale for the decision, which was based primarily on the desire for increased coordination with neighboring Salt Lake County, was provided to EPA on November 18, 1981.

EPA policy allows for a December 31, 1982, deadline only if a centralized program is planned. Davis County has selected a decentralized approach which, according to EPA policy, must be in place by December 31, 1981. EPA believes that its current policy on implementation deadlines is consistent with the requirements of Section 172(b)(2) which requires that "all reasonably available control measures * * *" be implemented "as expeditiously as practicable." EPA believes that necessary coordination between the two counties would have taken place within the timeframe established by EPA policy. Therefore, EPA is proposing to disapprove the revised implementation schedule.

Although the Salt Lake County schedule contains all key milestones, they have not been met. In fact, the County is approximately one year behind. Request for proposals have not yet been issued for the centralized program and regulations have not been drafted. A conditional approval is inappropriate because it is virtually impossible that the December, 1982 deadline can be met even if the schedule were revised.

Disapproval of the plan will result in continuation of the ban on construction or modification of major stationary sources in the CO and ozone nonattainment areas of Salt Lake and Davis Counties (Section 110(a)(2)(I) of the Clean Air Act).

The Clean Air Act also authorizes EPA to restrict certain federal funds from areas if reasonable efforts are not being made to submit an adequate SIP. If EPA determines that reasonable efforts are not being made, Section 176(a) of the Act states that "The Administrator shall not approve any projects or award any grants authorized by this Act and the Secretary of Transportation shall not approve any projects or award any grants under Title 23, United States Code, other than for safety, mass transit, or transportation improvement projects related to air

quality improvement or maintenance." In addition, under section 316 of the Act, EPA may condition, restrict or withhold wastewater treatment construction grants in areas where an approved SIP is not in effect Prior to applying this limitation EPA will publish a proposed rulemaking and request comments on its determination. See 45 FR 24692 and 45 FR 53382 (1980).

Under 5 U.S.C. 605b, I certify that this disapproval does not have a significant economic impact on a substantial number of small entities. Any economic impact would be a result of a separate EPA action. The construction ban has been in effect since July, 1979.

Under Executive Order 12291, this action is not Major. It has been submitted to the Office of Management and Budget (OMB) for review. Any comments from OMB to EPA and any EPA response to those comments are available for public inspection at the Region VIII office of EPA.

This notice of proposed rulemaking is issued under the authority of Section 110 of the Clean Air Act (42 U.S.C. 7410).

List of Subjects in 40 CFR Part 52

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, Hycarbons, Intergovernmental relations.

Dated: June 2, 1982.

BILLING CODE 6560-50-M

federal register

Wednesday
September 22, 1982

Part IV

Department of Agriculture

Agricultural Marketing Service

Standards for Grades of Carcass Beef and Standards for Grades of Slaughter Cattle

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Parts 53 and 54

Standards for Grades of Carcass Beef and Standards for Grades of Slaughter Cattle

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of withdrawal.

SUMMARY: On Wednesday, December 30, 1981, the U.S. Department of Agriculture (USDA) published a notice of proposed rulemaking to revise the official U.S. standards for grades of carcass beef and standards for grades of slaughter cattle (46 FR 63052–63075). The following is the Department's decision on that proposal.

The proposal allowed until March 31, 1982, for all segments of the industry and the general public to comment. The official number of written comments that were timely received was 3,953. Also, public hearings were conducted on the proposal during February 1982, at the following locations: February 9, Salt Lake City, Utah; February 11, Atlanta, Georgia; February 16, Washington, D.C.; February 22, Des Moines, Iowa; and February 25, Dallas, Texas. A total of 95 persons made statements at these hearing sessions and transcripts of all statements were made. Those transcripts, as well as all submitted comments, are public information available to anyone caring to review them at the Agricultural Marketing Service, USDA.

Since 1927, the USDA has viewed its role in beef grading as providing a service to the meat industry, for a fee, that best represents what the beef producers, manufacturers, wholesalers, marketers, and the consuming public needs, understands, and wants. The beef grades are intended to facilitate the orderly and efficient marketing of livestock and beef by providing a common language for all users. The Department has consistently upheld the philosophy that beef grade standards cannot be static; they must be dynamic to be of the greatest value to all users of the system, from the producer to the consumer. As new technology has emerged and as consumers' tastes and desires have changed, the Department has kept with this philosophy by modernizing the standards as necessary to meet the changing needs of the users of the system. It is further the desire and obligation of this Administration to provide the type and nature of service that best reflects the identifiable and agreed upon wishes of the indusry in marketing beef to a knowledgeable and satisfied consuming public. Marketing is not good marketing unless the consumer is satisfied.

For the reasons set forth below, the Department has decided to withdraw the proposed beef grade changes, and to implement no changes in this voluntary, user-paid-for service at this time.

DATE: This withdrawal is effective September 22, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. John Ford, Deputy Assistant Secretary for Marketing and Inspection Services, 242–E Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250; (202) 447–7813.

SUPPLEMENTARY INFORMATION:

Background

The Federal grading of beef is a voluntary service, provided under the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621 *et seq.*), which is designed to facilitate the marketing of livestock and meat. Beef grades are intended to segregate the beef supply into groups of carcasses with similar attributes of palatability and yields of cuts. These are the criteria that generally are of primary concern to consumers and the beef industry as they affect the acceptability of beef and to a great extent the ultimate price and consumption of beef. Beef grades have served as useful marketing tools since the voluntary beef grading and stamping service was begun in May 1927. Grades provide a common language and basis for marketing of livestock and meat as well as providing an opportunity for consumer desires to be communicated through the marketing channels so that necessary changes in livestock feeding and production may be made.

Beef grading is voluntary, and not all beef marketed is graded. In 1981, approximately 55 percent of commercial beef production was graded. However, approximately 75 percent of the fed-beef supply was graded. Fed beef is the portion of the beef supply which provides most of the beef available to consumers as retail cuts. Non-fed beef is generally regarded as manufacturing beef and used in sausage, ground beef, and other prepared-type products. Of the beef that was graded in 1981, approximately 5 percent was Prime, 90 percent was Choice, and 4 percent was Good. Most of the fed-beef supply that was not graded would fail to meet the requirements for Prime or Choice. Such fed beef is generally equivalent to the Good grade but is marketed ungraded (commonly referred to as "no rolls").

When beef is voluntarily graded, the official grade consists of both a quality grade and a yield grade. The quality grades are intended to identify differences in the palatability of cooked beef principally through the characteristics of marbling and maturity. The official USDA quality grades are Prime, Choice, Good, Standard, Commercial, Utility, Cutter, and Canner. The yield grades identify differences in the percentage of product that may be obtained from a carcass. The official USDA yield grades are denoted by numbers 1 through 5 with Yield Grade 1 representing the highest yield of cuts (highest cutability).

Since grading is a tool to facilitate marketing, grades should identify segments of the beef supply that have similar attributes of importance to purchasers; e.g., a superior level of palatability or yield for which a value differential should exist. Thus, grading can provide a means of identifying and communicating users' desires throughout the industry. Grades should be as compatibile as possible with efficient production practices although the most desired grade(s) is not necessarily the most efficient to produce. In addition, grades should be based on criteria that can be evaluated as rapidly and accurately as possible while still identifying attributes of importance.

The Department's Current Proposal

Recommendations for changes in the standards may be initiated by the Department or by interested parties; however, before giving consideration to proposing changes, the Department must be assured that such changes would potentially improve the standands. When it appears that a change is warranted, a proposal is published and interested parties are provided an opportunity to comment. A decision regarding adoption of the proposed change is made only after receipt and analysis of all timely received comments.

Events and Concerns Leading to the USDA Proposal. In April 1981, the Department received a formal petition from the National Cattlemen's Association (NCA) that asked for consideration and appropriate action on a resolution "to improve and modernize the USDA Beef Grading Standards." Other formal and informal proposals have also been received. The NCA petition maintained that the current grading system inhibits the production of leaner beef and leads to the overfattening of some cattle and to economic inefficiencies. The NCA petition suggested that their revision of the current standards would lower production costs by reducing the

average feeding time by 15 to 30 days and at the same time provide a product that is as acceptable as the product in the current grades and more in line with consumer desires for leaner beef.

Subsequent to the beef grade changes promulgated in March 1975, the Department initiated a major study of beef quality in cooperation with Texas A&M University, Colorado State University, and Iowa State University. This study, involving over 1,000 beef carcasses, was completed in early 1981 and was the most comprehensive study of grades, grade factors, and beef palatability ever conducted. The Department used an analysis of that study, along with all other available information, in developing its current proposal. The Department concluded that the proposed standards for the Prime and Choice grades would not significantly lower the overall palatability (tenderness, juiciness, and flavor) for those two grades. Therefore, for the most part, the analysis assumed that there would not be a shift in demand due to the proposed changes in the standards. The one available consumer survey that looked at the 1976 change, a change of similar magnitude to this proposed change, did not find any significant changes in purchasing patterns due to the 1976 revisions in the grade standards.

Furthermore, the Department does acknowledge the apparent inefficiencies in a system that produces excess fat that must be created, chilled, and transported only to be trimmed off before the final product appears in the meat counter of a retail store. While there is not a direct cause and effect relationship, there is some evidence that the existing standards do have an influence on the production system that at times produces a relatively high percentage of overfat cattle.

A panel discussion at the National Beef Grading Conference held in Ames, Iowa, in January 1981, concluded that most cattle are sold based on an estimated percentage of Choice in conjunction with weight and number of days on feed. Most cattle are fed until the feeder or buyer estimates that 75 percent or more of the lot or pen will grade Choice. This normally occurs at market weights of 1,050 to 1,200 pounds depending on the size, age, and breed of cattle. At the same time as the cattle are developing the marbling to grade Choice, they are also developing increased exterior and seam fat. The NCA and some other segments of the beef industry have concluded that with the existing grade standards it is generally impossible to achieve the goal of 75 percent or more Choice without producing a relatively high percentage of Yield Grade 4 and Yield Grade 5 cattle that are discounted for being overfat.

Even though most fed cattle may be marketed only after they reach the goal of 75 percent or more Choice, the cattle feeder's profits are still based on considerations of marginal costs and marginal revenues. As cattle approach the traditional market weights of 1,050 to 1,200 pounds, marginal costs are increasing because of decreases in feed efficiency (pounds of grain required per pound of gain). Marginal revenues are simultaneously affected by rising and falling market prices, by premiums paid for Choice cattle over Good cattle, and by discounts for Yield Grade 4 and 5 cattle. These premiums and discounts change over time. For example, over the most recent 4 years preceding the Department's proposal, premiums for Choice slaughter cattle over Good cattle averaged from $3 to $5 per hundred pounds. However, in early February 1981, prices for Good and Choice cattle differed by only $2 dollars per hundred pounds based on the price quotations from certain central markets. These price quotations are based on the slaughter cattle standards. Since 1975, the discounts for Yield Grade 4 and 5 cattle have varied considerably. Prior to 1975, the discounts were less than estimated value differences. The discounts have now increased to often reflect or even exceed the expected value differences. Under certain market conditions, cattle are fed to a point where the total discounts exceed the total premiums. Feeding to a goal of 75 percent or more Choice is one of several factors than can contribute to that type of situation.

Based on a sample of 1,287 carcasses examined in late 1980 and early 1981, the Department estimates that almost 23 percent of fed cattle slaughtered at that time produced a carcass that was either Yield Grade 4 or Yield Grade 5. In 1980, there were approximately 24 million fed steers and heifers slaughtered. This slaughter level produced an estimated 5.5 million Yield Grade 4 or Yield Grade 5 carcasses. An examination of wholesale dressed meat prices in 1980 shows that typical discounts for these carcasses ranged from $12 to $15 per hundred pounds. Assuming that these heavier carcasses averaged 750 pounds, then the total discount for these 5.5 million carcasses would probably have been between $500 and $800 million. These cattle cost as much, if not more, to produce than cattle with more desirable yield grades. It is believed that most of this loss in revenue was borne by the cattle feeder because buyers estimate the number of Yield Grade 4 and 5 cattle when they offer price quotations.

There is a significant portion of the industry that suggests cattle feeders cannot produce leaner beef under the current standards. This is probably true as long as the target goal for feeders is 75 percent or more Choice. The number of overfat cattle could, however, be reduced through improved production practices or if this goal was lowered to 50 to 60 percent Choice. It is not clear whether this goal is set by the production side of the industry or by the consumer side.

The current proposal would have provided feeders with the opportunity to feed to a constant percentage of Choice with less time on feed. With shorter feeding times, overall profitability in the long term should increase because (1) overall feed efficiency would go up for lighter market weights, and (2) the total discounts for Yield Grade 4 and 5 carcasses should go down as fewer are produced.

However, the impacts of the current proposal were highly dependent on the resultant change in feeding patterns. The Department recognizes that there are differences in opinion as to (1) the number and types of feedlot operations that would change feeding patterns in response to a change in the grade standards, and (2) the magnitude of that response in terms of the reduction in average time on feed.

The Department projected, as one of several "best cases", that the average time on feed for approximately half of fed cattle would be reduced by approximately 15 days, or that the overall average time on feed would be reduced by approximately 7 days. The estimated short-term impacts of this projected case are summarized below:

If all fed cattle were fed 7 days less, there would be a 1.7 percent decrease in total live weight, a 2.1 percent decrease in carcass weight, and a 1.4 to 1.8 percent decrease in the supply of closely trimmed retail cuts. Total feed costs would be reduced by almost 5 percent or over $200 million. This represents a decrease in overall production costs of 1.1 percent. It was also estimated that the average yield grade would be decreased by 0.1 to 0.15. With this amount of shift in average yield grade, an estimated 3 to 4 percent of fed cattle would move from Yield Grade 4 down to Yield Grade 3, potentially decreasing overall discounts by 13 to 17 percent. Under this response, it was estimated that the percentage of Choice cattle would rise from 64 percent to 74 percent

and that the percentage of Good cattle would decrease from 28 percent to 12 percent of the fed-beef supply. This could affect the premiums paid for Choice cattle.

The Department's proposal was essentially based upon these two conclusions: (1) That slightly reduced feeding time could result in a product that was less expensive to produce; and (2) that the change would not result in a significant lessening of palatability of Prime and Choice. Stated another way, it appeared that production costs could be lowered while maintaining acceptable palatability levels. With this possibility in mind, the Department published its proposal.

Summary of the USDA Proposal

—Minimum marbling requirements for the Prime, Choice, and Good grades in A maturity beef (cattle up to approximately 30 months of age) would be reduced to minimum moderate, typical slight, and minimum traces marbling, respectively.

—All young beef inferior to the minimum requirements for the Good grade would be graded Utility.

—The Standard grade would be eliminated.

—In the Prime, Choice, and Good grades, the rate of increase in marbling requirements in B maturity beef (from cattle approximately 30 to 42 months of age) would be doubled. (The relationship between marbling and maturity would increase from 1:1 to 2:1.)

—Quality grade requirements for bullock (young bull) beef would be changed to remain the same as those for steer, heifer, and cow beef in A maturity. However, bullock beef still would be identified as a separate class.

—Related standards for slaughter cattle would be changed to reflect the changes made in the standards for carcass beef.

—No changes would be made in the yield grade section of the standards.

Public Response to the Department's Proposal

The following tables present a breakdown of the public response to the Department's proposed changes. A complete summary of the comments is contained in the public record and is available for public inspection at the Livestock, Meat, Grain, and Seed Division, AMS, USDA.

[4]Includes all comments opposed to USDA or NCA alternatives and all those that favored the present or pre-76 standards and the "New Grade" or "New Name" alternatives.

Factors of the Department's Decision

The Department's role in providing the beef industry the voluntary, user fee grading service is again to merely try to reflect what the users of USDA beef grades desire the service to constitute. Since this service is a marketing tool, it is obvious that consumer opinion is vitally important to this process, regardless of whether that opinion is based upon fact or perception.

Of the livestock producer organizations submitting written comments, 55 percent favored the USDA proposal with modifications, but 43 percent opposed the USDA proposal. Of individual livestock producers submitting written comments, 10 percent favored the proposal, 43 percent favored with modifications, and 46 percent opposed the USDA proposal. The USDA proposal was further opposed by 100 percent of all individual retailers submitting written comments, nearly 100 percent of all Hotel, Restaurant, and Institutional (HRI) trade user individuals and organizations, approximately 100 percent of all HRI supplier individuals and organizations, and 8 of the 12 meat packers or meat packing organizations responding. Individual consumers submitting written statements opposed the proposal by 97.4 percent (2,486 comments) and approved the proposal by 2.5 percent (63 comments).

A significant portion of the individuals and organizations submitting testimony or comments stated that they appreciated the purpose of the USDA proposal—that being the USDA objective of encouraging the production and availability of leaner, less expensive beef. The Department certainly wants to encourage a better market for leaner beef at a savings to both producer and consumer alike, by the general trend of the comments expressed a desire for the Department to focus on encouraging consumption of lean beef because of, not in spite of, the lesser fat content.

USDA stated in the Preliminary Regulatory Impact Analysis for this grade change proposal that quality is the most important consideration for consumers in purchasing beef. The comments and testimony strongly indicated that reduced quality, or even the perception of reduced quality in beef could lead to consumer confusion and even to a lessened demand for beef. There is no question that a significant majority of those responding were opposed to the USDA proposal principally upon the issue of quality reduction, be it real or perceived.

Of concern to some responding was the breadth of a new Choice range, approximatley 75 percent of fed beef under the proposed standards. There was a feeling among some that this breadth was too all-encompassing to constitute a meaningful marketing tool and that this too could lead to consumer confusion based upon a perception of lowered quality.

The Department believes that the proposed grade changes could have benefitted purveyors and the HRI trade by identifying a larger category of Prime beef for their customers who demand top quality beef. While the opposition of a large portion of the HRI trade to the proposed change seems based more on tradition and custom than it does upon analyzation of new factual data, and while the Department feels its palatability data is sound, it is nevertheless obvious that perception of fact is important to successful marketing.

The Department does recognize that no amount of research is going to convince all parties that the fat content of beef can be slightly lowered without a significant loss of palatability, or that slightly less feeding can produce a similarly desirable product at a reduced cost. Acceptance must come either through changed consumer taste, aggressive industry marketing, or both.

Continuing Concerns

In taking this action of withdrawing the proposed changes in beef grading, the Department suggests several areas of concern to all industry participants and to the consuming public.

Of concern to USDA is the movement toward disuse of USDA beef grades by retailers. In recent years, retailers have shown an increased tendency to change or modify merchandising programs for reasons other than grading. If retailers or wholesalers find they must purchase graded beef, where they previously purchased ungraded or "no roll" beef, the added cost due to the grading service is only a tenth of a cent per pound. The Department feels the Federal grading system has served industry and consumers well, and will closely monitor this trend in the months ahead.

Furthermore, the Department is concerned about the profitability involved in providing the American consumer with adequate supplies of fairly priced beef at the quality level desired. High interest rates, inflation, and a decrease in the amount of discretionary dollars in the consumer budget have created an economic situation where raising and feeding cattle have been relatively unprofitable in recent years. This has occurred during the phase of the cattle cycle that has traditionally been the most profitable. The cattle feeding industry has two basic problems to solve that are related. They are: (1) Finding ways to produce cattle at reduced costs; and (2) finding and maintaining an overall production (supply) level that leads to a quantity-price relationship on the demand side that makes the production level profitable to produce. If feeding cattle continues to be unprofitable, feeders may significantly cut back on operations leading to far more significant impacts on retail prices. Consumers and industry alike have a stake in profitability. The Department does not expect to see major changes in feeding patterns under the current standards. Some proponents of the existing standards believe that many of the objectives of the proposed changes could be achieved by an extensive educational and promotional campaign extolling the virtues of Good grade beef or by changing the Good name in order to avoid the perceived consumer and industry aversion to its connotation. There was widespread support in the oral testimony and in the written comments for either increased marketing efforts for USDA Good beef or development of a new "lean" grade. The "new grade" concept had much support, and should be addressed by the industry in the future.

The Department feels these concerns, as well as others, should be immediately and continually addressed by the entire beef industry. The Department will closely monitor the health and applicability of USDA beef grades in the months ahead, and will offer new proposals of change and adjustment if such seem appropriate. The Department furthermore will remain willing to work with committees or research groups representing all segments of the industry—producers, packers, the HRI trade, retailers, and consumers—to further study USDA beef grades in an attempt to devise more acceptable proposals in the future and as the need may arise.

However, it is primarily the responsibility of the entire beef industry to work together and with the

consuming public to assist the Department in continually modernizing USDA beef grades so that consumer confidence and industry acceptance are maintained.

In consideration of the foregoing, the proposal published in the **Federal Register** (46 FR 63052–63075) on December 30, 1981, is hereby withdrawn.

List of Subjects in 7 CFR Part 54

Meat and meat products.

Done at Washington, D.C., on September 20, 1982.

John E. Ford,

Deputy Assistant Secretary for Marketing and Inspection Services.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday. This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS

DOT/FHWA	USDA/SCS		DOT/FHWA	USDA/SCS
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/MA	LABOR		DOT/MA	LABOR
DOT/NHTSA	HHS/FDA		DOT/NHTSA	HHS/FDA
DOT/RSPA			DOT/RSPA	
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	

List of Public Laws

Last Listing September 15, 1982

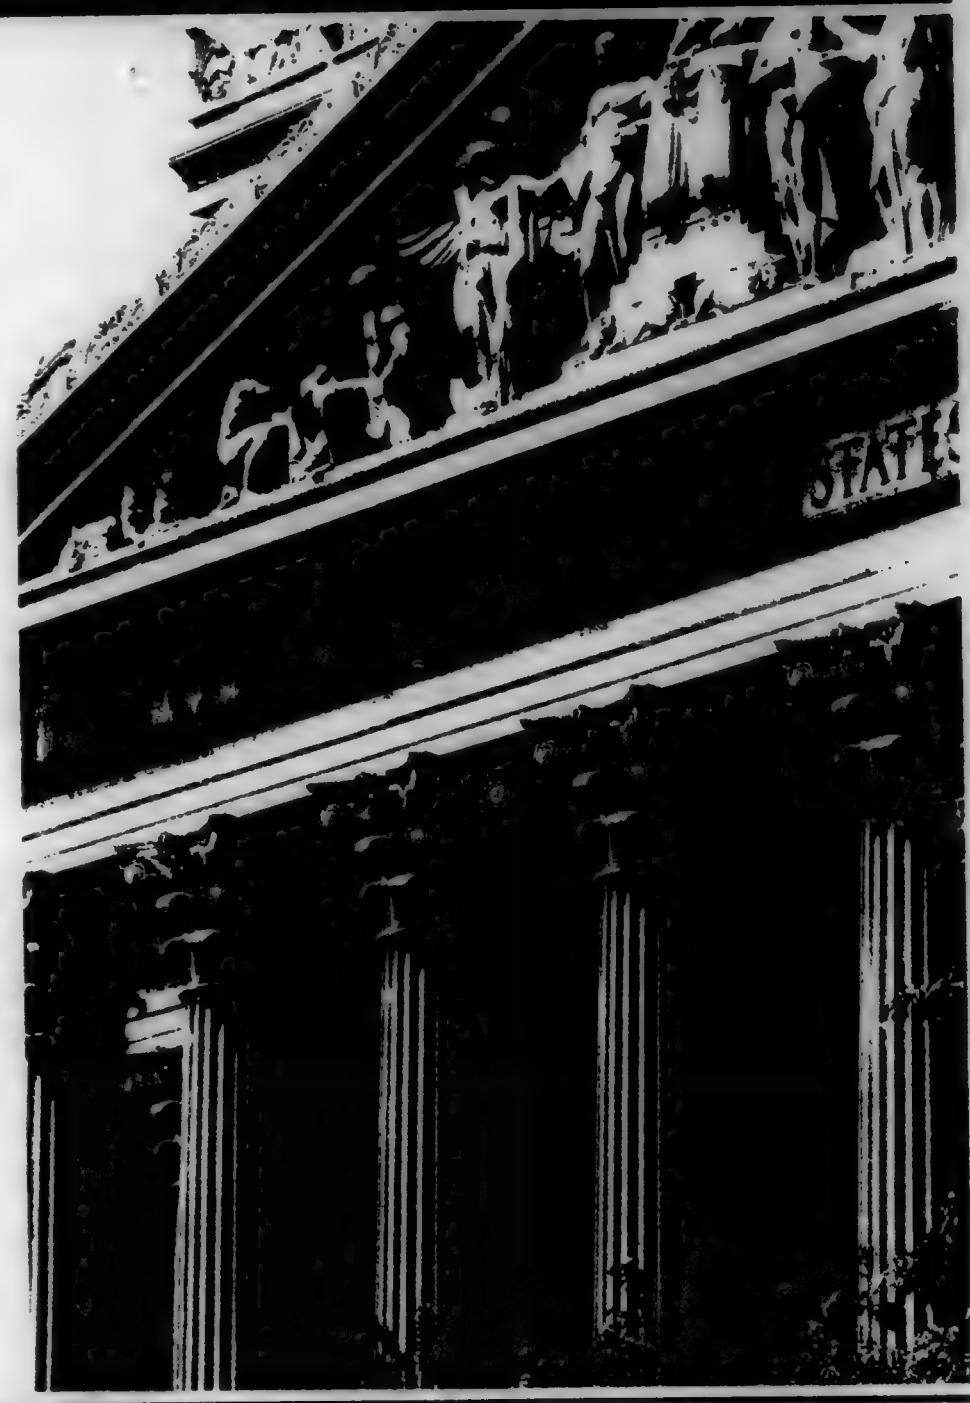
This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (telephone 202–275–3030).

S.J. Res. 194 / Pub. L. 97–260 To provide for the appointment of Nancy Hanks as a citizen regent of the Board of Regents of the Smithsonian Institution. (Sep. 18, 1982; 96 Stat. 1101) Price: $1.75.

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index,* or both.

LSA • List of CFR Sections Affected



The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$20.00 per year

Federal Register Index

The Index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$21.00 per year

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers:
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register.**

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Title 3—

The President

Proclamation 4973 of September 21, 1982

Honoring the Ukrainian Helsinki Monitoring Group

By the President of the United States of America

A Proclamation

The spontaneous formation on November 9, 1976, in Kiev, Ukraine, of the Ukrainian Public Group to Promote the Implementation of the Helsinki Accords affirmed once more that the human spirit cannot be crushed and that the desire for human freedom cannot be conquered.

The long prison terms meted out to members of the Ukrainian Helsinki Monitoring Group for their courageous activities to secure greater freedom in Ukraine are graphic testimony to the inability of Communism to compete with the principles of freedom in the marketplace of ideas. The flagrant persecution and imprisonment of Ukrainian citizens for their attempts to exercise basic human rights is an international embarrassment to the Soviet Union and proof that the Soviet Union has failed to live up to its pledges to honor the understandings embodied in the Helsinki Accords.

In commemorating this sixth anniversary of the founding of the Ukrainian Helsinki Monitoring Group, we renew our determination never to forget the valiant struggle of the peoples of Ukraine for their inalienable rights, and we pledge to do all we can to ameliorate the plight of those Ukrainians who have been persecuted by the Soviet authorities for attempting to assert their rights.

By a concurrent resolution agreed to on June 21, 1982 (H. Con. Res. 205), the Congress authorized and requested the President to proclaim November 9, 1982, the sixth anniversary of the establishment of the Ukrainian Public Group to Promote the Implementation of the Helsinki Accords, as a day honoring that Group.

On this day Americans are reminded of the preciousness of our own freedom, and we reaffirm our cherished hope that the aspiration for freedom will ultimately prevail over the morally bankrupt rule of force which denies human rights to so many in the world today.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby designate November 9, 1982, as a day honoring the sixth anniversary of the establishment of the Ukrainian Public Group to Promote the Implementation of the Helsinki Accords.

IN WITNESS WHEREOF, I have hereunto set my hand this 21st day of Sept. in the year of our Lord nineteen hundred and eighty-two, and of the Independence of the United States of America the two hundred and seventh.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 47, No. 185
Thursday, September 23, 1982

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF TRANSPORTATION

14 CFR Part 39

Federal Aviation Administration

[Docket No. 80-ANE-36; Amdt. 39-4464]

General Electric Company CF6-45 Series and CF6-50 Series Model Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: Emergency telegraphic Airworthiness Directives (TADs) were issued on July 25, 1980, February 19, 1981, February 23, 1982, and April 9, 1982, requiring inspections and, in some cases, rework of certain stage one and stage two high pressure turbine (HPT) disks on General Electric CF6-45 and CF6-50 series model engines, in order to prevent disk failure because of low cycle fatigue cracking of the disk embossments. This AD, which combines and supersedes the requirements of the previous TADs, is hereby published in the **Federal Register** as an amendment to Section 39.13 of Part 39 of the Federal Aviation Regulations.

DATES: Effective date—The TADs were effective upon receipt. This amendment is effective October 31, 1982. Comments on the rule must be received on or before October 29, 1982. Compliance schedule—as prescribed in the text of the AD.

ADDRESSES: The applicable Service Bulletins, (CF6-50/-45) 72-700, dated November 20, 1980, and 72-709, dated February 19, 1981, may be obtained from General Electric Company, Neumann Way, Cincinnati, Ohio 45215.

Send comments on the rule to: Federal Aviation Administration, Office of the Regional Counsel, New England Region, Attn: Rules Docket No. 80-ANE-36, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: Arthur W. Nelson, Transport Engine Section, ANE-141, Engine Certification Branch, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273-7347.

SUPPLEMENTARY INFORMATION:

Prior Regulatory History

Pursuant to the authority delegated by the Administrator, emergency TAD No. T80-16-51, applicable to operators of General Electric CF6-45 and -50 series model engines, was adopted on July 25, 1980. This action was required as a result of a reported instance of a first stage HPT disk failure due to low cycle fatigue which initiated in an embossment radius irregularity. The TAD required the inspection of all first and second stage HPT disks in which the potential for radius irregularities was known to exist.

Emergency TAD No. T81-05-51, also applicable to operators of General Electric CF6-45 and CF6-50 series model engines, was adopted on February 19, 1981, when it was subsequently found that similar cracks existed in disks without radius irregularities. This TAD required fluorescent penetrant inspection of all first stage disks not affected by the earlier TAD. A third emergency TAD No. T82-05-51, also applicable to operators of General Electric CF6-45 and CF6-50 series model engines, was adopted on February 23, 1982, when a number of first state HPT disks were found to be cracked with fewer cycles in service than the threshold or repetitive inspection intervals previously specified. This third TAD required reductions in the initial fluorescent penetrant inspection times for disks with both MPO and MTU serial numbers, as well as a reduction in the reinspection time periods, and discontinued the previously imposed inspection requirements on stage 2 disks.

A fourth emergency TAD No. T82-06-51, also applicable to operators of General Electric CF6-45 and CF6-50 series model engines, was adopted on April 9, 1982, when a first stage HPT disk failed with fewer cycles since inspection than the required repetitive inspection interval. In addition, the results of recent disk inspections indicated that certain disks had more rapid embossment cracking than previously predicted. This fourth TAD required fluorescent penetrant inspections of certain first stage HPT disks with reduced initial and repetitive inspections. In order to improve embossment crack detection, two complete independent inspections were required each time a disk is inspected.

All TADs required the removal from service of any disk with crack indications.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impractical and contrary to the public interest, and good cause existed for making the four TADs effective immediately. Since these conditions still exist, the requirements of the four TADs have been combined, and the final rule is hereby published in the **Federal Register** as an Amendment to Section 39.13 of Part 39 of the Federal Aviation Regulations to make it effective to all persons.

Request for Comments on the Rule

Although this action is in the form of a final rule, which involves requirements affecting immediate flight safety and, thus, was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule.

List of Subjects in 14 CFR Part 39

Engines, Air transportation, Aircraft, Aviation safety, and Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended

by adding the following new AD which combines and supersedes previous TAD Nos. T80-16-51, T81-05-51, T82-05-51, and T82-08-51.

General Electric Company. Applies to CF6-45 series and -50 series model turbofan engines.

Compliance required as indicated unless already accomplished.

Inspect all first stage HPT disks, P/Ns 9045M34P07 and 9045M34P09, for cracks in accordance with General Electric CF6-45/50 Engine Service Bulletin 72-700, dated November 20, 1980, or Alert Service Bulletin 72-709 dated February 19, 1981, or later revision approved by the Manager, Engine Certification Branch, FAA, New England Region, per the following schedule utilizing two complete independent inspections, hereafter referred to as "double inspections."

A. Disks not previously inspected shall be "double inspected" prior to reaching 2,000 cycles in service for MTU serial number disks and 3,200 cycles in service for MPO serial number disks. All disks removed from service for inspection shall be reinspected every 750 cycles in service thereafter.

B. Disks previously inspected shall be reinspected using the "double inspection" procedure prior to reaching 750 cycles in service since last inspection and every 750 cycles in service thereafter.

C. All first stage turbine disks exposed at each high pressure rotor disassembly shall be "double inspected" prior to further flight per General Electric CF6-45/50 Service Bulletins 72-700 or 72-709.

D. Disks with crack indications must be removed from service prior to further flight.

E. First stage HPT disks, P/Ns 9045M34P07 and 945M34P09, shall not be returned to service after February 1, 1984.

NOTE: For the purposes of this AD, "return to service" is defined as installation on an aircraft.

F. All MTU prefix serial numbered disks reworked per General Electric CF6-45/50 Service Bulletin 72-700 at zero cycles of service may follow the initial inspection limits for MPO prefix serial numbers. Established life limits of first stage HPT disks are not to be exceeded.

Airplanes may be ferried in accordance with the provisions of Federal Aviation Regulation 21.197 to a base where the AD can be accomplished.

Upon request of an operator, an equivalent means of compliance with the requirements of this AD may be approved by the Manager, Engine Certification Branch, FAA, New England Region.

The manufacturer's specifications and procedures identified and described in this directive may be obtained upon request to General Electric Company, Neumann Way, Cincinnati, Ohio 45215. These documents may also be examined at the FAA, New England Region, 12 New England Executive Park, Burlington, Massachusetts. A historical file on this AD is maintained by the FAA, New England Region Office, Burlington, Massachusetts.

This amendment becomes effective on October 31, 1981.

(Sec. 313(a), 601, 603 Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is not considered to be major under Executive Order 12291 or significant under the criteria of DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). A regulatory evaluation has been prepared and placed in the regulatory docket. A copy may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

Issued in Burlington, Massachusetts, on September 13, 1982.

Robert E. Whittington,

Director, New England Region.

[FR Doc. 82-26173 Filed 9-22-82; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 82-ASO-46]

Alteration of Transition Area, Somerset, Kentucky

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment corrects a deficiency in the description of the Somerset, Kentucky, Transition Area. This is an editorial correction and no change in airspace is intended.

DATES: Effective date: 0901 G.m.t., October 28, 1982. Comments must be received on or before October 18, 1982.

ADDRESSES: Send comments on the rule in triplicate to: Federal Aviation Administration, ATTN: Manager, Airspace and Procedures Branch, ASO-530, Air Traffic Division, P. O. Box 20636, Atlanta, Georgia 30320

The official docket may be examined in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, telephone: (404) 763-7646.

FOR FURTHER INFORMATION CONTACT: Donald Ross, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P. O. Box 20636, Atlanta, Georgia 30320; telephone: (404) 763-7646.

SUPPLEMENTARY INFORMATION:

Request for Comments on the Rule

Although this action is in the form of a final rule, which involves an editorial change to correct a deficiency in the description of the Transition Area, and, thus, was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy aspects of the rule that might suggest the need to modify the rule.

The Rule

The purpose of this amendment to § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to alter the description of the Somerset, Kentucky, Transition Area to correct an error that has gone undetected for approximately two years. In 1980, the Transition Area was amended due to a relocation of a navigational aid. The amendment (Docket No. 80-SO-42), which was effective November 30, 1980, has not been carried forward in the Compilation of Regulations which were published in Advisory Circular AC 70-3, dated January 29, 1982. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70-3 dated January 29, 1982. Under the circumstances presented, the FAA concludes that there is a need for a regulation to properly describe the Somerset, Kentucky, Transition Area. Therefore, I find that notice or public procedure under 5 U.S.C. 553(b) is unnecessary and that good cause exists for making this amendment effective in less than 60 days after its publication in the **Federal Register.**

List of Subjects in 14 CFR Part 71

Aviation safety, Airspace, Transition area.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) (as amended) is further amended, effective 0901 G.m.t., October 28, 1982, as follows:

Somerset, KY [Revised]

By deleting the following words from the description, "* * * Somerset RBN (Lat. 37°03'19"N., Long. 84°36'58"W.) extending from the 8.5-mile radius area to 8.5 miles southwest of the RBN. * * *"

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a));

section 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in East Point, Georgia, on September 13, 1982.

George R. LaCaille,

Acting Director, Southern Region.

[Airspace Docket No. 82-AWA-4]

Designation of Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points; Alteration of VOR Federal Airways

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the descriptions of several airways in the vicinity of Louisville, KY, by deleting alternate airway segments and renumbering other airway segments. This action supports our agreement with the International Civil Aviation Organization (ICAO) to eliminate all alternate airway descriptions from the National Airspace System.

EFFECTIVE DATE: December 23, 1982.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace Regulations and Obstructions Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

History

On August 2, 1982, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the descriptions of several Federal Airway in the vicinity of Louisville, KY, by deleting the alternate route segments (47 FR 33278). This action supports our agreement with ICAO to eliminate all alternate route designations from our National Airspace System. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.123 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70-3 dated January 29, 1982.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations alters the description of several Federal Airways in the vicinity of Louisville, KY, by deleting alternate airway segments and renumbering other airway segments. This action supports our agreement with ICAO to eliminate all alternate airways from the National Airspace System.

Federal airways.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as amended (47 FR 12155 and 20569) is further amended, effective 0901 G.m.t., December 23, 1982, as follows.

1. V-171 [Amended]

By deleting the words "From Louisville, KY, Lewis, IN, including an E alternate from Louisville to Lewis via INT Louisville 312° and Bloomington 153° radials, and Bloomington;" and substituting the words "From Lexington, KY, INT Lexington 251° and Louisville, KY 114° radials, Louisville; Lewis, IN;"

2. V-514 [New]

By adding "V-514 from Louisville, KY; INT Louisville, 312° and Bloomington, IN, 153° radials, Bloomington; to Lewis, IN,"

3. V-51 [Amended]

By deleting the words "Livingston, TN; Louisville, KY, including a W alternate from Livingston to Louisville via INT Livingston 333° and New Hope, KY, 165° radials and New Hope;" and substituting the words, "Livingston, TN; Louisville, KY;"

4. V-513 [New]

By adding "V-513 From Livingston, TN; INT Livingston 333° and New Hope, KY, 165° radials; New Hope, KY, to Louisville, KY."

5. V-67 [Amended]

By deleting the words "Knoxville; London, KY, including an E alternate via INT Knoxville 013° and London 141° radials; Lexington, KY; Cincinnati, OH, including a W alternate via INT Lexington 327° and Cincinnati 192° radials, and also an E alternate from London to Cincinnati via INT London 004° and Lexington 107° radials and Falmouth, KY;" and substituting the words, "Knoxville; London, KY; Lexington, KY; Cincinnati, OH;"

6. V-517 [New]

By adding "V-517 From Knoxville, KY; INT Knoxville 013° and London, KY, 141° radials; London; INT London 004° and Falmouth, KY, 184° radials; Falmouth; to Cincinnati, OH."

7. V-52 [Amended]

By deleting the words "Nashville, TN, including a N alternate" and substituting the words "to Nashville, TN"

8. V-5 [Amended]

By deleting the words "Nashville, TN, including an east alternate via INT Chattanooga 332° and Nashville 116° radials; Bowling Green, KY; New Hope, KY, including an east alternate from Nashville to New Hope via INT Nashville 034° and New Hope 202° radials; Louisville, KY;" and substituting for them the words "Nashville, TN; Bowling Green, KY; New Hope, KY; Louisville, KY;"

9. V-515 [New]

By adding "V-515 From Chattanooga, TN; INT Chattanooga 332° and Nashville, TN, 116° radials; Nashville; INT Nashville, 034° and New Hope, KY, 202° radials; New Hope; to Louisville, KY."

10. V-4 [Amended]

By deleting the words, "Centralia, IL; Pocket City, IN; including an S alternate; Louisville, KY, including an N alternate via INT Pocket City 068° and Louisville 280° radials; Lexington, KY, including an N alternate via INT Louisville 081° and Lexington 303° radials and also an S alternate via INT Louisville 114° and Lexington 251° radials; Newcombe, KY; Charleston, WV; Elkins, WV, including an S alternate via INT Charleston 063° and Elkins 228° radials;" and substituting for them the words, "Centralia, IL; Pocket City, IN; Louisville, KY; Lexington, KY; Newcombe, KY; Charleston, WV; Elkins, WV;"

11. V-512 [New]

By adding "V-512 From Pocket City, IN; INT Pocket City 068° and Louisville, KY, 280° radials; Louisville, INT Louisville 081° and Lexington, KY, 303° radials; Lexington; Newcombe, KY; Charleston, WV; INT Charleston 063° and Elkins, WV, 228° radials; to Elkins."

12. V-511 [New]

By adding "V-511 Dyersburg, TN; INT Dyersburg 006° and Cunningham, KY, 224° radials; Cunningham; INT Cunningham 056° and Pocket City, IN 206° radials, Pocket City; INT Pocket City 046° and Bloomington, IN, 205° radials, Bloomington; INT Bloomington 025° radials, and Indianapolis 185° radials to Indianapolis."

13. V-67 [Amended]

By deleting the words "Dyersburg, TN; Cunningham, KY;" and substituting for them the words "Dyersburg, TN; INT Dyersburg 096° and Cunningham, KY, 187° radials, Cunningham;"

14. V-182 [Amended]

By deleting the words, "Terre Haute, IN" and substituting for them the words "Terre Haute, IN, INT 079° and Indianapolis, IN, 230° radials to Indianapolis."

15. V-14 [Amended]

By deleting the words, "Indianapolis, IN, including an S alternate via INT of Terre Haute 079° and Indianapolis 230° radials;" and substituting for them the words "Indianapolis, IN;"

16. V-140 [Amended]

By deleting the words "Nashville, TN, Livingston, TN, including a south alternate via INT Nashville 085° and Livingston 226° radials;" and substituting for them the words "Nashville, TN; to Livingston, TN;"

17. V-35 [Amended]

By deleting the words "Charleston, WV, including an E alternate via Bluefield, WV;" and substituting for them the words "Charleston, WV;"

18. V-519 [New]

By adding "V-519 From Knoxville, TN; INT Knoxville, 050° and Glade Springs 246° radials; Glade Springs; to Bluefield, WV."

(Secs. 307(a) and 313(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on September 15, 1982.

[Airspace Docket No. 82-AWA-3]

Designation of Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points; Alteration and Designation of VOR Federal Airways

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the description of Federal Airway V-2 between Dickinson, ND, and Rochester, NY, by deleting alternate airway segments and renumbering other airway segments. This action supports our agreement with the International Civil Aviation Organization (ICAO) to eliminate all alternate airway descriptions from the National Airspace System.

EFFECTIVE DATE: December 23, 1982.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace Regulations and Obstructions Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

History

On August 12, 1982, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the description of Federal Airway V-2 between Dickinson, ND, and Rochester, NY, by deleting the alternate route segments (47 FR 35002). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.123 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70-3 dated January 29, 1982.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations alters the description of Federal Airway V-2 between Dickinson, ND, and Rochester, NY, by deleting the alternate route segments. This action supports our agreement with ICAO to eliminate all alternate route segments from the National Airspace System.

List of Subjects in 14 CFR Part 71

Federal airways.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (46 FR 409) is amended, effective 0901 G.m.t., December 23, 1982, as follows:

V-2 [Amended]

By deleting the words "Dickinson, ND; 10 miles, 60 miles, 38 MSL, Bismarck, ND, including an N alternate from Dickinson, 10 miles 38 MSL INT Dickinson 078° and Bismarck 290° radials, 28 miles, 38 MSL, to Bismarck; 14 miles, 62 miles, 34 MSL Jamestown, ND, including an N alternate from Bismarck 14 miles, 65 miles, 34 MSL, Jamestown; 7 miles, 43 miles, 28 MSL, Fargo, ND, including an N alternate from Jamestown, 7 miles, 46 miles, 28 MSL, Fargo; Alexandria, MN, including an N alternate, Gopher, MN; Nodine, MN, including an N alternate; Lone Rock, WI, including a south alternate via INT Nodine 159° and Lone Rock 286° radials; Madison, WI; Badger, WI; Muskegon, MI, including an S alternate via INT Badger 102° and Muskegon 252° radials, Lansing, MI, including an S alternate from Muskegon to Lansing via INT Muskegon 154° and Grand Rapids, MI, 284° radials and Grand Rapids (7 miles wide, 3 miles north and 4 miles south of centerline); Grand Rapids to Lansing; Salem, MI, including an N alternate via INT Lansing 091° and Salem 308° radials;" also, "Buffalo; Rochester, NY, including a north alternate via INT of Buffalo 045° and Rochester 273° radials;" and substituting for them the words, "Dickinson, ND; 10 miles, 60 miles, 38 MSL, Bismarck, ND; 14 miles, 62 miles, 34 MSL Jamestown, ND; Fargo, ND; Alexandria, MN; Gopher, MN; Nodine, MN; Lone Rock, WI; Madison, WI; Badger, WI; Muskegon, MI; Lansing, MI; Salem, MI;" and "Buffalo; Rochester, NY;" respectively.

V-510 [New]

By adding "V-510 From Dickinson, ND; INT Dickinson 078° and Bismarck, ND, 290° radials, 28 miles, 38 MSL Bismarck; INT Bismarck 067° and Jamestown, ND, 279° radials, 14 miles, 65 miles, 34 MSL, Jamestown; Fargo, ND; INT Fargo 110° and Alexandria, MN, 321° radials; Alexandria; Gopher, MN; INT Gopher 116° and Nodine, MN, 328° radials; Nodine; Lone Rock. From Muskegon, MI; INT Muskegon 154° and Grand Rapids, MI, 284° radials, Grand Rapids (7 miles wide, 3 miles N and 4 miles S of the centerline); Grand Rapids; Lansing, MI; INT Lansing 091° and Salem, MI, 308° radials; Salem. From Buffalo, NY, INT Buffalo 045° and Rochester, NY, 273° ; Rochester."

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Airspace Docket No. 82-ASW-41]

Designation of Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points; Alteration of Transition Area: Marksville, LA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment will alter the transition area at Marksville, LA. The intended effect of the amendment is to provide the proper controlled airspace for aircraft executing a new instrument approach procedure to the Marksville Municipal Airport. This amendment is necessary since there is a proposed change in the standard instrument approach procedure (SIAP) using the nondirectional radio beacon (NDB).

EFFECTIVE DATE: December 23, 1982.

[Airspace Docket No. 82-ASW-37]

Designation of Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points; Designation of Transition Area: Grove, OK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Correction to final rule.

SUMMARY: The nature of the action being taken is to correct an editorial error which occurred in a final rule. The intended effect of the action is to properly describe a transition area designated by the final rule. The circumstances which created the need for the action are a mistake in the geographical coordinates which designated the Grove, OK, transition area.

EFFECTIVE DATE: September 23, 1982.

FOR FURTHER INFORMATION CONTACT: Kenneth L. Stephenson, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101, telephone (817) 624-4911, extension 302.

SUPPLEMENTARY INFORMATION:

History

Federal Register Document 82-23340 was published on August 26, 1982 (47 FR 37376), designating the transition area at Grove, OK. Inadvertently, an error occurred in the geographical coordinates which improperly describe the transition area. This action is taken to correct the error by designating the proper location of the airspace. This correction is a minor matter upon which the public would have no particular desire to comment. Therefore, notice and public procedure are not necessary.

List of Subjects in 14 CFR Part 71

Control zones, Transition areas.

The Rule

This correction to **Federal Register** Document 82-23340 (47 FR 37376) is made by deleting "* * * latitude 36°34'14" N.," and substituting "latitude 36°36'14" N.," to the final rule.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, by the Administrator, the final rule, Docket Number 82-ASW-37, published in the **Federal Register** Document 82-23340, is corrected as stated above, effective upon publication.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.61(c))

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 1103; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal, and (4) is certified that the rule will not have a significant economic impact on a substantial number of small entities as the anticipated impact is minimal.

Issued in Fort Worth, TX, on September 13, 1982.

[Airspace Docket No. 81-AGL-24]

Designation on Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points; and Establishment of Jet Routes and Area High Routes; Alteration of VOR Federal Airways—Minneapolis Terminal Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes seven new airways, realigns three existing airways, and realigns two jet routes in the Minneapolis, MN, area. This action improves the arrival/departure procedures in the Minneapolis terminal area.

EFFECTIVE DATE: December 23, 1982.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace Regulations and Obstructions Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

History

On August 6, 1981, the FAA proposed to amend Parts 71 and 75 of the Federal Aviation Regulations (14 CFR Parts 71 and 75) to establish several VOR Federal Airways, realign several VOR Federal Airways, and realign two jet routes in the Minneapolis, MN, area (46 FR 40035). This action improves traffic flow in the Minneapolis terminal area. After further study, V-82 as described in the NPRM has been omitted from this final rule. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, these amendments are the same as those proposed in the notice. Sections 71.123 and 75.100 of Parts 71 and 75 of the Federal Aviation Regulations were republished in Advisory Circular AC 70-3 dated January 29, 1982.

The Rule

These amendments to Parts 71 and 75 of the Federal Aviation Regulations alter several VOR Federal Airways and jet routes and establish several VOR Federal Airways in the vicinity of Minneapolis, MN, airport terminal area. This action will enhance traffic flow and reduce controller coordination problems.

List of Subjects in 14 CFR Parts 71 and 75

Adoption of the Amendments

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Accordingly, pursuant to the authority delegated to me, § 71.123 and 75.100 of Parts 71 and 75 of the Federal Aviation Regulations (14 CFR Parts 71 and 75) are amended, effective 0901 G.M.T., December 23, 1982, as follows:

§ 71.123 [Amended]

1. V-410 [New]

From Gopher, MN; Gopher 100° and Eau Claire, WI, 209° radials; Eau Claire.

V-411 [New]

From Rochester, MN; Rochester 319° and Farmington MN, 184° radials; Farmington.

V-412 [New]

From Redwood Falls, MN; Redwood Falls 053° and Flying Cloud, MN, 276° radials; Flying Cloud.

V-413 [New]

From Gopher, MN; Gopher 321° and Brainerd, MN, 174° radials; Brainerd.

V-414 [New]

From Gopher, MN; Gopher 267° and Alexandria, MN, 148° radials; Alexandria.

V-416 [New]

From Gopher, MN; 321° and Alexandria, MN, 110° radials; Alexandria.

V-418 [New]

From Gopher, MN; Gopher 109° and Nodine, WI, 328° radials; Nodine.

V-2 [Amended]

After the words "Nodine, MN" by deleting the words, "including an N alternate"

V-26 [Amended]

After the words "Redwood Falls, MN, including an S alternate;" by deleting the words "Flying Cloud, MN; INT Flying Cloud 061° and Eau Claire, WI, 271° radials; Eau Claire, including a south alternate from Redwood Falls to Eau Claire via Farmington, MN" and substituting for them the words "Farmington, MN; Eau Claire, WI"

V-161 [Amended]

After the words "Rochester 243° radials;" by deleting the words "INT Rochester 356° and Gopher, MN, 116° radials;" and substituting for them the words "INT Rochester 005° and Gopher, MN, 144° radials;"

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

§ 75.100 [Amended]

J-30 [Amended]

By deleting the words "Gopher, MN," and substituting for them the words "Farmington, MN"

J-118 [Amended]

By deleting "Dubuque, IA;" and substituting the words "Dubuque, IA, INT Dubuque 306° and Gopher 155° radials,"

(Sec. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transporation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on September 15, 1982.

14 CFR Part 73

[Airspace Docket No. 82-AWA-15]

Special Use Airspace; Alteration of Oswego, NY, Restricted Area R-5203

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment alters the description of Restricted Area R-5203, located in the Oswego, NY, area by changing the time of designation. On July 22, 1982, an amendment to R-5203 was published in the Federal Register (47 FR 31678) Airspace Docket No. 82-AEA-7, which changed the time of designation from continuous to real time periods. Due to unforeseen operational requirements, the time published failed to meet the using agency's needs. This action increases the designated utilization period by one hour (2100L to 2200L) Monday through Friday in order to meet those needs.

DATES: Effective date—September 23, 1982. Comments must be received on or before October 25, 1982.

ADDRESSES: Send comments on the rule in triplicate to: Director, FAA Eastern Region, Attention: Manager, Air Traffic Division, Docket No. 82-AWA-15, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, NY 11430.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, D.C.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Bill Hill, Airspace Regulations and Obstruction Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

Request for Comments on the Rule

Although this action is in the form of a final rule, which involves making a minor change in the time designation of a restricted area and, thus, was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, aeronautical, economic and energy aspects of the rule that might suggest the need to modify the rule. Send comments on environmental and land use aspects to: 21st Air Division, DOCOFS, Hancock Field, Syracuse, NY.

The Rule

The purpose of this amendment to § 73.52 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) is to change the time of designation for Restricted Area R-5203. This change increases the real time designation period by one hour on weekdays to accommodate a regularly scheduled activity which was unforseen when time reductions were made on July 22, 1982. Section 73.52 of Part 73 of the Federal Aviation Regulations was republished in Advisory Circular AC 70-3 dated January 29, 1982. Since this amendment makes a minor change in the real time use of R-5203, I find that notice or public procedure under 5 U.S.C. 553(b) is contrary to the public interest and that good cause exists for making this amendment effective upon publication in the Federal Register.

List of Subjects in 14 CFR Part 73

Restricted area.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 73.52 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) as amended (47 FR 31678), is further amended, effective 0901 G.m.t., September 23, 1982 as follows:

R-5203 Oswego, NY [Amended]

Under time of designation by deleting the words "From 0800 to 2100 local time, Monday through Friday" and substituting the words "From 0800 to 2200 local time, Monday through Friday."

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of a Regulatory Flexibility Act.

Issued in Washington, D.C., on September 15, 1982.

John W. Baier,

Acting Manager, Airspace and Air Traffic Rules Division.

BILLING CODE 4910-13-M

14 CFR Part 73

[Airspace Docket No. 82-ASO-25]

Special Use Airspace; Establishment of Restricted Area R-2930, Cape Kennedy, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates new Restricted Area R-2930, Cape Kennedy, FL. This joint use restricted area will provide adequate protected airspace required for space shuttle recovery and astronaut training. The restricted area is intended for infrequent use in support of the NASA space program and frequent use is not authorized.

EFFECTIVE DATE: October 28, 1982.

FOR FURTHER INFORMATION CONTACT: Robert Maxey, Airspace Regulations and Obstructions Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

History

On August 12, 1982, the FAA proposed to amend Part 73 of the Federal Aviation Regulations (14 CFR Part 73) to establish new Restricted Area R-2930, Cape Kennedy, FL (47 FR 35003). The restricted area is needed to provide protected airspace for space shuttle recovery and astronaut training. Astronaut training will be limited to two one and one-half hour periods per day the week prior to each shuttle launch date. Nonparticipating aircraft can expect clearance to transit the area during periods of nonuse. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 73.29 of Part 73 of the Federal Aviation Regulations were published in Advisory Circular AC 70-3 dated January 29, 1982.

The Rule

This amendment to Part 73 of the Federal Aviation Regulations designates new Restricted Area R-2930, Cape Kennedy, FL, to provide protected airspace for space shuttle recovery and astronaut training in support of the NASA Space Program.

List of Subjects in 14 CFR Part 73

Restricted areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 73.29 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) is amended, effective 0901 G.m.t., October 28, 1982, as follows:

R-2930, Cape Kennedy, FL [New]

Boundaries. Beginning at lat. 28°47'20" N., long. 81°05'00" W.; to lat. 28°56'00" N., long. 80°47'00" W.; thence south 3 NM from and parallel to the U.S. coast to lat. 28°51'15" N., long. 80°42'20" W.; to lat. 28°51'15" N., long. 80°47'15" W.; to lat. 28°49'10" N., long. 80°50'45" W.; to lat. 28°42'10" N., long. 80°48'20" W.; to lat. 28°38'00" N., long. 80°47'02" W.; to lat. 28°31'20" N., long. 80°43'50" W.; to lat. 28°24'30" N., long. 80°41'45" W.; to lat. 28°22'30" N., long. 80°40'50" W.; to lat. 28°22'30" N., long. 80°35'00" W.; to lat. 28°24'30" N., long. 80°30'00" W.; thence south 3 NM from and parallel to the U.S. Coast; to lat. 28°19'00" N., long. 80°33'30" W.; to lat. 28°19'00" N., long. 80°46'30" W.; thence to point of beginning.

Designated altitudes. 11,000 feet MSL to unlimited.

Times of use. Intermittent by NOTAM beginning one week prior to space shuttle launch date until shuttle recovery.

Using agency. Eastern Space and Missile Center (ESMC), Patrick Air Force Base, FL.

Controlling agency. Federal Aviation Administration, Miami ARTCC.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on September 15, 1982.

BILLING CODE 4910-13-M

SECURITIES AND EXCHANGE COMMISSION

17 CFR Parts 200, 230, 239, and 240

[Release Nos. 33-6426 and 34-19055]

Registration Statement and Other Disclosure Documents Related to Standardized Options

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission today announced the adoption of three rules and a new optional registration statement designed to make the disclosure of information about standardized options more meaningful to investors and less burdensome to registrants and others.

EFFECTIVE DATE: These amendments are effective October 25, 1982 for all documents filed on or after that date, but registrants and others may use the new rules and optional registration statement immediately.

FOR FURTHER INFORMATION CONTACT: Thomas G. Lovett (202) 275-2913 or William L. Golden (202) 272-2855, Division of Market Regulation, regarding Rule 9b-1, and John Thomas (202) 272-2748 or David B. H. Martin (202) 272-2573, Division of Corporation Finance, regarding Form S-20 and Rules 134a, 135b, and 153b, Securities and Exchange Commission, 450 5th Street, N.W., Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission today announced the adoption of three new rules and one new form relating to the offer and sale of standardized options. Specifically, the Commission has adopted: (1) An optional registration statement form, Form S-20 (17 CFR 239.20), to be used to register standardized options under the Securities Act of 1933 ("Securities Act") (15 U.S.C. 77a et seq.); (2) Rule 153b (17 CFR 230.153b), which provides that the delivery requirement of Section 5(b) of the Securities Act is satisfied by providing copies of the Form S-20 prospectus to the options market(s) on which the options are traded; (3) Rule 9b-1 (17 CFR 240.9b-1) under the

Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a et seq.), which establishes an options disclosure document (the "disclosure document") containing information concerning standardized options and options trading; and (4) Rule 135b (17 CFR 230.135b), which exempts the disclosure document from the requirements of Section 5 of the Securities Act. The new rules and form are intended to enhance investor understanding of standardized options by presenting all essential information about such options in a more readable Exchange Act disclosure document, and by making available a prospectus for investors who may be interested in more detailed information about the issuer of the options.

In addition, the Commission is adopting Rule 134a (17 CFR 230.134a) under the Securities Act, which permits the dissemination of instructional information about options and options trading without such information being deemed a prospectus for purposes of Section 5 of the Securities Act.

Finally, the Commission is delegating to the Director of the Division of Market Regulation the authority to accelerate or extend the time period with respect to distribution of the disclosure document or amendments thereto and to require refiling of the disclosure document or amendments.

I. Discussion

The Commission received thirteen letters in response to its request for comments on the proposal to establish a new disclosure framework specifically tailored to the information needs of investors in standardized options.[1] While generally supportive of the proposal, the commentators made a number of suggestions which they believed would further reduce compliance burdens and simplify investors' review of the information required to be disclosed. As a result of these suggestions and further analysis by the Commission, the final rules reflect several modifications from those proposed.

A. Form S–20 Registration Statement and Rule 153b

1. *Delivery of the Prospectus pursuant to Rule 153b.* In proposing Form S–20, the Commission stated that the delivery requirements of Section 5(b)(2) of the Securities Act constituted the basic statutory means of assuring that investors are provided with material information about the registrant and the securities being offered. The commentators pointed out, however, that in the context of the proposed options disclosure framework, the disclosure document,[2] rather than a traditional prospectus, would be the investors' primary source of information about standardized options.[3] Commentators argued that a prospectus delivery requirement would be contrary to the stated goals of reducing costs and simplifying disclosure concerning standardized options trading. It was strongly urged that, for the convenience of investors and to minimize the distribution burdens that otherwise would be imposed upon registrants and broker-dealers, the Commission should not require actual delivery of the prospectus to investors.

In response to these concerns, the Commission is adopting Rule 153b, which provides that the statutory requirement to deliver the prospectus portion of Form S–20 shall be deemed to be satisfied by the regiatrant's delivery of copies of the prospectus to each options market trading the options covered by the prospectus in order to redistribute the prospectus to any investor who requests it.[4] The Commission is taking this step because it believes that the unique nature of standardized options, coupled with the significant costs savings associated with the proposed disclosure system, justifies this step. The availability of the rule is conditioned upon the issuer's providing a reasonable number of copies of the prospectus to the options market(s) and each options market promptly providing the prospectus to investors who request it. Because the subjects and issues raised by Rule 153b were discussed in the Proposing Release, the Commission is adopting the Rule without additional notice and comment.

2. *Information Required in the Prospectus.* The information required in Part I of Form S–20 relates to the registrant as issuer of the options. The Proposing Release identified four items of information that would be included in the Part I prospectus. Commentators addressed Items 3 and 4, a description of the securities to be registered and a discussion of the federal income tax consequences of the registered securities, respectively.

Item 3 would contain such information as whether certificates were issued, the registrant's procedures for accepting and rejecting transactions, remedies and the back-up system to assure performance of contractual obligations. One commentator questioned the need to bifurcate disclosure concerning the exercise of options between the disclosure document and the prospectus,[5] and two commentators argued that, because of the changeability of the information in Item 3, should a prospectus delivery requirement be adopted, any reference to this information should be deleted so as not to require costly revision and recirculation of the prospectus each year.[6] In view of the Commission's determination not to require delivery of the prospectus to investors, the concerns of the commentators appear to be alleviated. Moreover, the Commission believes that this information may be of interest to some options investors and, therefore, should be available to those investors through the prospectus. Thus, along with proposed Items 1 and 2, the Commission is adopting proposed Item 3 without change.

Regarding proposed Item 4, which would have required a discussion of the tax consequences of options transactions, the Commission requested comment on whether, in the alternative, it would be preferable to include tax information in the disclosure document rather than in Part I of Form S–20. As discussed *infra*, almost all the commentators expressed the view that it would be more convenient to investors and less costly to registrants if the tax information were described generically and set forth in the disclosure document.[7] Since the Commission has determined not to require delivery of the prospectus to investors, a discussion of tax consequences should be contained

---

[1] Securities Act Release No. 6411 (June 24, 1982) (47 FR 28868) (the "Proposing Release").

[2] As discussed below, the new system contemplates that disclosure to investors may be accomplished by delivery of a series of disclosure documents: A "core" document discussing options trading generally and supplemental documents describing specific options classes or kinds of options, such as debt options or foreign currency options.

[3] *See, e.g.*, comment letters of the Options Clearing Corporation ("OCC") and the Securities Industry Association ("SIA") (File No. S7–935). All subsequent comment letters also refer to comments contained in File No. S7–935 submitted in response to the Proposing Release.

[4] In two other unique situations, the Commission has taken a similar approach with respect to the prospectus delivery requirement. Rules 153 and 153a under the Securities Act were adopted because of the impracticality of requiring compliance with the requirements of Section 5(b)(2) of the Securities Act in connection with the unusual circumstances of the transactions covered by those Rules. In this regard, *see* Commission Release at 2 FR 1075 (May 28, 1937) and Release No. 33–5316 [October 8, 1972] (37 FR 21836).

[5] Comment letter of OCC.

[6] Comment letter of the American Bar Association ("ABA") and OCC.

[7] Only the National Association of Securities Dealers ("NASD") suggested that, should a non-generic discussion of the tax consequences of options trading be required, it should be included in the prospectus rather than the disclosure document.

in the disclosure document. Item 4, therefore, has been deleted from the prospectus.

3. *Information not Required in the Prospectus.* With respect to proposed Item 5, which required presentation of the information about officers and directors called for by Item 401 of Regulation S–K, one commentator suggested that Item 401 required more information than would be of interest to most investors in options.[9] The Commission notes, however, that information about the registrant's management is required to be furnished only in Part II of the registration statement and believes it is sufficiently important to warrant such disclosure.

No comments were directed to the other proposed informational requirements for Part II of Form S–20 which are being adopted as proposed. The numbering of the Items in Part II of the Form has been revised to reflect the changes, described above, in the content requirements of Part I.

B. The Rule 9b–1 Options Disclosure Document

Under the revised disclosure framework, Rule 9b–1 establishes a new disclosure document to be used in conjunction with new Form S–20. Much of the information presently required to be disclosed in the registration statement has been shifted to the disclosure document where it will be presented in a manner designed to enhance its readability to options investors.

1. *Availability of Rule 9b–1.* Rule 9b–1 is available to any "options market", as defined in the Rule, which markets and sells standardized options within the United States. The definition of options market encompasses not only domestic and foreign exchanges, but also an automated quotation system of a registered securities association. In discussing the availability of Rule 9b–1 in the Proposing Release, the Commission pointed out the desirability of two or more options markets working together to prepare a single disclosure document covering options traded on each participating options market. Noting that the four existing U.S. options markets, for example, are currently cooperating with the OCC in developing a single disclosure document covering equity options,[9] the Commission requested comment on whether the rule should specifically require options markets that permit the trading of options on the same type of underlying security to jointly prepare a disclosure document covering such options.

All commentators who addressed the issue supported the idea of joint preparation of disclosure documents whenever feasible, pointing out that separate documents would not only be burdensome and confusing to broker-dealers and investors but also duplicative and unnecessarily expensive to the industry.[10] The commentators generally opposed, however, a specific requirement that the document be jointly prepared, asserting that competitive, economic and administrative concerns would cause the options markets to cooperate in preparing joint disclosure documents, and that, in certain circumstances, separately prepared disclosure documents covering particular options products may be desirable and appropriate.[11]

Given these considerations and the fact that the existing options markets have demonstrated their ability to work cooperatively on a voluntary basis in preparing a basic disclosure document covering equity options, the Commission has determined not to mandate joint preparation.

A related concern was raised by the NASD. The NASD asserted that, because no options are "currently" quoted on NASDAQ, its automated quotation system, it might not meet the technical definition of an "options market" contained in paragraph (a)(1) of Rule 9b–1. It expressed the hope that, while the definition of an options market is phrased in the present tense, the rule would not exclude the NASD, which has pending before the Commission a proposal to trade options,[12] from participation in the preparation of any disclosure documents.

By defining "options market" as a securities exchange or automated quotation system "on which standardized options *are* traded" (emphasis added), the Commission does not intend to limit the availability of the new disclosure system to the exchanges that currently operate options markets, but rather anticipates the system will be available to entities, such as the NASD or the New York Stock Exchange, which may serve as markets for standardized options in the future. Of course, if an entity assists in the preparation of a disclosure document in anticipation of beginning to act as a market for the option covered by that document, it must be listed as one of the preparers of the document.

2. *Disclosure Requirements.* Paragraph (c) of Rule 9b–1 sets forth the specific categories of information required to be disclosed in the disclosure document. Except with respect to proposed Item 8, which would have required a description of the tax consequences of trading options, there was virtually no public comment on the proposed informational requirements.

A number of commentators, however, opposed the proposed tax disclosure requirements. They asserted that, while investors should be informed of the importance of tax considerations to options investment decisions, the Commission should not require substantive discussion of the specific tax provisions applicable to options transactions in either Form S-20 or the disclosure document. Several commentators contended that the disclosure document should merely contain a prominently placed statement advising investors that there are significant tax consequences of options transactions and that investors should consult their tax advisers before investing in options.[13] One commentator, however, stated that tax consequences of options should be discussed in detail in the disclosure document.[14]

Commentators opposing a requirement that detailed disclosure of tax consequences be included in the disclosure document argued that the tax considerations attending options investment decisions are extremely complex and difficult to deal with effectively in the document without confusing the general, non-professional investor. It was asserted that, since tax considerations are by their nature highly technical, their inclusion in the disclosure document would burden it with lengthy and detailed discussions of little informative value.[15]

Several commentators also objected to inclusion of tax information in the disclosure document on the ground that tax law is especially vulnerable to legislative or administrative changes and, consequently, any tax treatment of options investments in the disclosure

[9] Comment letter of OCC.

[9] While Rule 9b–1 speaks in terms of the "options markets" preparing the disclosure document, the Commission notes that the rule is not intended to preclude options issuers or others from participating in the preparation of the disclosure document, provided that the options markets themselves are primarily responsible for the document.

[15] *See, e.g.*, comment letters of the NASD, OCC, SIA and ABA.

document might become quickly outdated. It was asserted that the disclosure documents would therefore require frequent amendments and supplements which would vitiate one of the major purposes of the revised disclosure system—*i.e.*, to relieve the options markets of the burden and costs of frequently redelivering disclosure material to options investors.[16]

One commentator also opposed inclusion of tax information; on the ground that tax consequences depend upon the individual tax posture of each investor which no amount of detailed tax disclosure could address and, as a result each investor would generally have to consult with his own tax adviser in any event.[17] Another commentator questioned the need for disclosure of tax information with respect to options investments when no such disclosure is required for investors who invest only in stocks and bonds.[18]

The Commission has considered these arguments carefully. It believes that, while the foregoing concerns regarding inclusion of substantive discussions of the tax consequences of options investments in the disclosure document are not without merit, tax consequences of options trading are such an integral part of options investment decisions that they should not be entirely excluded from the disclosure document.

The Commission recognizes, however, that detailed disclosure of tax consequences may necessarily result in a document that might be required to be amended at frequent intervals. Therefore, the Commission has determined to balance the need for tax disclosure with the goal of producing a simplified document that requires infrequent updating. Accordingly, the Commission is retaining the requirement of a discussion of the significant tax consequences of options trading in the disclosure document, but believes that such disclosure can be done generically by explaining that tax treatment is always relevant and often critical to the success or failure of a particular options strategy. Moreover, the document should note that different tax treatment may result from different dispositions of options positions and, with respect to option call writers, whether that person is covered or uncovered. The Commission also believes the document should inform investors of the importance of consulting with their tax advisers.

Thus, all the categories of information proposed to be included in the disclosure document pursuant to paragraph (c) of Rule 9b–1 are being retained in the final rule.[19] In addition, as a result of the adoption of Rule 153b, which permits delivery of the prospectus to be satisfied by delivery to the options markets, two more categories of information have been added to the content requirements for the options disclosure document. New Item 9 calls for the identification of the issuer of the options, including a brief reference to its function in clearing transactions and guaranteeing performance. New Item 11 requires a statement prominently displayed in the disclosure document to the effect that the options described therein are the subject of a registration statement filed with the Securities and Exchange Commission and indicates specifically from whom investors can obtain a copy of the prospectus.

3. *Procedural Requirements.* Rule 9b–1(b)(1) provides that the disclosure document be filed with the Commission 60 days prior to the date it is distributed to investors, unless the Commission "determines otherwise having due regard to the adequacy of the information disclosed and the public interest and protection of investors." Under this section, it is anticipated that the Commission will accelerate the time period for delivery if it determines that disclosure is adequate or extend the time in the event it is unable to make such a determination. As discussed below, the Commission has similar powers with respect to the filing of amendments.

Paragraph (b)(2) of Rule 9b–1 provides that a disclosure document must be amended should the information therein become materially inaccurate or incomplete.[20] It further provides that an amendment must be filed with the Commission 30 days prior to the date definitive copies are furnished to customers, unless the Commission determines otherwise. Several commentators objected to the requirement of a 30-day advance filing of an amendment with the Commission.[21] One commentator argued that the preparers must be able to amend or supplement a disclosure document promptly so as to avoid potential liability for information which, because of some unforeseen change, becomes materially inaccurate or incomplete.[22] Another commentator contended that the failure to provide a "sticker" procedure could result in an unnecessary interruption in options trading.[23]

Since the inception of standardized options trading, no occasions have arisen in which the OCC, with little or no notice, has been required to amend or sticker its prospectus. Indeed, other than the annual amendments to the prospectus required under the Securities Act,[24] the OCC has found it necessary only once to even supplement the prospectus. Given the more generalized nature of the disclosure document, the need to amend suddenly should be reduced further. Thus, in most cases, the Commission believes that the options markets should be able to identify and file needed amendments to the disclosure document substantially before such amendments need become effective. In the unusual case where a change of circumstances occurs which immediately affects options trading in a material way, the Commission believes that the options markets would successfully meet this disclosure obligation by the issuance of a prompt press release explaining the material change in information, coupled with the immediate filing of an amendment under the proposed rule. In that circumstance, paragraph (b)(1) of the Rule would allow the Commission to accelerate the time period where it determines that such acceleration is appropriate, having due regard to the adequacy of the information disclosed and the public interest and the protection of investors. Thus, the 30-day advance filing requirement has generally been retained.

Nevertheless, the Commission has determined that, in the unusual case, an options market may distribute an amendment without the 30-day advance filing with the Commission where it determines, in good faith, that such delivery is necessary to ensure timely and accurate disclosure and provided that it also files the amendment with the Commission at the same time as, or prior to the time of, public distribution. While Rule 9b–1 would provide this alternative, the Rule also will allow the Commission to require refiling of a revised amendment within 30 days of filing, having due regard to the adequacy of the information disclosed and the

[16] *See*, e.g., comment letters of the NASD, OCC, and ABA.

[17] Comment letter of the OCC.

[18] Comment letter of the ABA.

[19] In its comment letter, the OCC expressed concern that detailed disclosure with respect to exercise and settlement of options would be required in the disclosure document. The Commission believes that a general discussion of these matters will be sufficient.

[20] Options markets are free, of course, to make any other amendments that they feel are necessary or appropriate.

[21] *See* comment letters of OCC and TCO.

[22] Comment letter of OCC.

[23] Comment letter of TCO.

[24] *See* Proposing Release at n. 6.

public interest and the protection of investors. Paragraph (b)(2) of Rule 9b–1 has been modified to reflect this determination.[25]

4. *Certain Technical Amendments.* In response to points made by one commentator,[26] the Commission has made two amendments to the definition of standardized options in paragraph (a)(4) of Rule 9b–1. First, the Commission has amended the definition by deleting the phrase "trading on an options market," and specifically listing the markets on which options are traded, thereby eliminating any circularity in the proposed definition. Second, the Commission has added language to authorize the Commission, by order, to allow the use of Rule 9b–1 for new investment vehicles that the Commission believes should be included within the new disclosure framework.

Two commentators pointed out that while, under current exchange rules, a prospectus must be delivered to a customer "at or prior to the time" his or her account is approved for options trading, proposed paragraph (d) of Rule 9b–1 provides that an account may not be approved for options trading unless the broker or dealer "previously has delivered" the disclosure document.[27] They argued that the delivery rule should be no more restrictive than existing exchange rules governing prospectus delivery. The Commission agrees. The wording of paragraph (d) has been clarified to reflect the fact that the disclosure document may be furnished to a customer either before or at the time his or her account is approved for options trading.

5. *Delegation of Authority.* The Commission is amending its Rules of Organization to delegate to the Director of the Division of Market Regulation final authority to review the disclosure document, and amendments and supplements thereto, contemplated by Rule 9b–1 and, under appropriate circumstances, to allow the disclosure document or amendments to be distributed to the public prior to the time period specified in paragraph (b) of Rule 9b–1, or to extent the time period before which distribution can be made to the public. The Commission is also delegating to the Division the power to require refiling of disclosure documents or amendments. The Commission believes that such delegation would facilitate the processing of Rule 9b–1 disclosure documents. Accordingly, the Commission is amending Section 200.30–3 (17 CFR 200.30–3) of the Commission's rules relating to general organization by adding a new paragraph (a)(39) to delegate to the Director of the Division of Market Regulation the authority detailed above.

C. Rule 135b

Rule 135b provides that an option disclosure document prepared in accordance with Rule 9b–1 shall not be deemed to be an offer to sell or an offer to buy for purposes of Section 5 of the Securities Act. Several commentators contended that, as Rule 135b is drafted, it is unclear whether the disclosure document could be deemed to be a prospectus so as to subject the preparers to the liability of provisions of Section 12 of the Securities Act.[28] For purposes of clarification, it should be noted that if the disclosure document is deemed not to be an offer to sell or buy it cannot be deemed to be a prospectus. Thus, the rule as drafted is in fact intended to relieve the preparers of the disclosure document from liability under Section 12(1) of the Act for distributing a disclosure document to investors which might, absent such relief, violate Section 5 of the Act.[29]

D. Rule 134a

In view of the complex nature of options trading, the Commission proposed of Rule 134a which would permit the preparation and dissemination of certain educational materials concerning options and options trading without deeming these materials to be a prospectus, as defined in the Securities Act. While several modifications in the proposed rule were urged, all commentators who addressed the Rule in their comments urged its adoption.[30] The Commission is adopting Rule 134a as proposed.

As noted in the Proposing Release, the Commission's decision to permit the dissemination of additional educational information about options is based in part on its expectation that the self-regulatory organizations will use their established monitoring procedures to review and approve the options communications of broker-dealers and others pursuant to the provisions of the rule.[31] In this regard, one commentator correctly noted that Rule 134a, as proposed, was not limited to broker-dealers and urged that the rule be made expressly applicable to issuers and the options markets as well.[32] The rule is intended to encompass issuers and the options markets as long as the communications are subject to detailed self-regulatory review and clearance by people other than those who prepared the instructional material.

Although one commentator urged that Rule 134a be expanded to apply to all types of communications whether or not they are written,[33] it would render self-regulatory review difficult or impossible in cases where no text of the communication could be reviewed in advance of its public dissemination. Nevertheless, the Commission intends that the term "written materials" be construed broadly to encompass any exact written version of a communication which subsequently may be presented in a different format, such as a video production or a speech.

II. Regulatory Flexibility Act Considerations

The Chairman of the Commission has certified that the proposed simplified disclosure system will not have a significant economic impact on a substantial number of small entities. The Commission did not receive any comments concerning the Chairman's certification.

III. Text of Final Rules

List of Subjects

17 CFR Part 200

Administrative practice and procedure, Freedom of information, Privacy, Securities.

17 CFR Parts 230, 239 and 240

Reporting requirements, Securities.

In accordance with the foregoing, Part 200 of Chapter II, Title 17 of the Code of Federal Regulation is amended as follows:

---

[25] When faced with misleading disclosures or omissions, the Commission, of course, would also be able to employ its enforcement powers pursuant to the Securities Act and Exchange Act to address defective disclosure. For example, the Commission could employ Section 21 of the Exchange Act to obtain injunctive relief with respect to activities connected with that defective disclosure.

[26] Comment letter of OCC.

[27] Comment letters of OCC and Amex.

[28] *See, e.g.*, comment letters of OCC and TCO.

[29] In its comment letter, OCC also questioned whether it would be liable under the Securities Act if broker-dealers failed to deliver a prospectus to investors. With the adoption of Rule 153b, and delivery to the options exchanges, OCC's concern has been answered.

[30] *See, e.g.*, comment letters of the NASD, TCO and Amex.

[31] The American Stock Exchange commented that it intends to amend its rules in this regard to ensure that it can carefully monitor compliance with the requirements of Rule 134a. The Commission expects that other self-regulatory organizations also will make any necessary adjustments in their rules and procedures.

[32] Comment letter of TCO.

[33] Comment letter of NASD.

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

1. By adding paragraph (a)(39) to § 200.30–3 to read as follows:

§ 200.30–3 Delegation of authority to Director of Division of Market Regulation.

* * * * *

(a) * * *

(39) Pursuant to Rule 9b–1,

(i) To enable distribution of an options disclosure document or amendment to an options disclosure document to the public prior to the time required in the Rule or to lengthen the period before distribution can be made;

(ii) To require refiling of an amendment to an options disclosure document pursuant to the procedure set forth in (b)(2)(a) of the Rule.

In accordance with the foregoing, Parts 230, 239 and 240 of Chapter II, Title 17 of the Code of Federal Regulations are amended as follows:

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

2. By adding § 230.134a to read as follows:

§ 230.134a Options material not deemed a prospectus.

Written materials relating to standardized options, as defined in Rule 9b–1 under the Securities Exchange Act of 1934, shall not be deemed to be a prospectus for the purposes of Section 2(10) of the Securities Act of 1933: *Provided,* That such materials are limited to explanatory information, describing the general nature of the standardized options markets or one or more strategies: *And, Provided further,* That:

(a) The potential risks related to options trading generally and to each strategy addressed are explained;

(b) No past or projected performance figures, including annualized rates of return are used;

(c) No recommendation to purchase or sell any option contract is made;

(d) No specific option class is identified;

(e) The materials contain the name and address of a person or persons from whom a current prospectus meeting the requirements of Section 10 of the Act may be obtained; and

(f) If there is a definitive options disclosure document, as defined in Rule 9b–1 of the Securities Exchange Act of 1934, the materials shall contain the name and address of a person or persons from whom a copy of such document may be obtained.

3. By adding § 230.135b to read as follows

§ 230.135b Materials not deemed an offer to sell or offer to buy.

For the purposes only of Section 5 of the Act, materials meeting the requirements of Rule 9b–1 of the Securities Exchange Act of 1934 shall not be deemed to constitute an offer to sell or offer to buy any security.

4. By adding § 230.153b to read as follows:

§ 230.153b Definition of "preceded by a prospectus", as used in Section 5(b)(2), in connection with certain transactions in standardized options.

The term "preceded by a prospectus", as used in Section 5(b)(2) of the Act with respect to any requirement for the delivery of a prospectus relating to standardized options registered on Form S–20, shall mean the delivery, prior to any transactions, of copies of such prospectus to each options market upon which the options are traded, for the purpose of redelivery to options customers upon their request, *Provided* That:

(a) Such options market shall thereto have requested of the issuer, from time to time, such number of copies of such prospectus as may have appeared reasonably necessary to comply with the requests of options customers, and shall have delivered promptly from its supply on hand a copy to any options customer making a request thereof; and

(b) The issuer shall have furnished such options market with such reasonable number of copies of such prospectus as may have been requested by the options market for the purpose stated above.

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

5. By adding § 239.20 to read as follows: [Form S–20 does not appear in the Code of Federal Regulations].

§ 239.20 Form S–20, for standardized options.

This Form may be used to register standardized options under the Securities Act of 1933 where the issuer undertakes not to issue, clear, guarantee or accept an option registered on Form S–20 unless there is a definitive options disclosure document meeting the requirements of Rule 9b–1 of the Securities Exchange Act of 1934.

Securities and Exchange Commission

Form S–20

Registration Statement Under the Securities Act of 1933

(Exact name of registrant as specified in its charter)

(Address, including zip code, and telephone number, including area code, of registrant's principal executive offices)

(Name, Address, including zip code, and telephone number, including area code, of agent for service)

Approximate date of commencement of proposed sale to public

CALCULATION OF REGISTRATION FEE

Title of securities to be registered	Amount to be registered	Proposed maximum fee or charge per unit	Proposed maximum aggregate fee or charge	Amount of registration fee

Form S–20—GENERAL INSTRUCTIONS

I. Eligibility requirement for use of Form S–20

This form may be used for registration of standardized options under the Securities Act of 1933 ("Securities Act") provided that the registrant undertakes not to issue, clear, guarantee or accept an option registered on Form S–20 unless there is a definitive options disclosure document meeting the requirements of Rule 9b–1 of the Securities Exchange Act of 1934 with respect to the options class.

II. Application of General Rules and Regulations

A. Attention is directed to the General Rules and Regulations under the Securities Act, particularly those comprising Regulation C [17 CFR 230.400 to 230.494] thereunder. That Regulation contains general requirements regarding the preparation and filing of the registration statement.

B. Attention is directed to Regulation S–K [17 CFR Part 229] for the requirements applicable to the content of the non-financial statement portions of registration statements under the Securities Act. Where this Form directs the registration to furnish information required by Regulation S–K and the item of Regulation S–K so provides, information need only be furnished to the extent appropriate.

Part I. Information Required in Prospectus

Item 1. *Forepart of the Registration Statement and Outside Front Cover Page of Prospectus.* Set forth in the forepart of the registration statement and on the outside front cover page of the prospectus the information required by Item 501 of Regulation S–K [§ 229.501 of this chapter]. In the case of a foreign registrant, the information required by Item 502(f) of

Regulation S–K [§ 229.502(f) of this chapter] also shall be included. In addition, the outside front cover page of the prospectus shall contain a statement to the effect that (1) an options disclosure document containing a description of the risks of options transactions is required to be furnished to option investors and stating from whom such a document may be obtained; (2) the financial statements and certain additional information required by Part II of the registration statement, other than exhibits, can be obtained without charge upon request from the registrant; and (3) the exhibits required by Part II of the registration statement can be inspected at the offices of the registrant or obtained from the registrant or the Securities and Exchange Commission upon payment of an appropriate fee.

Item 2. *Description of Registrant.* (a) State the year in which the registrant was organized, its form of organization and the name of the State or other jurisdiction under the laws of which it was organized.

(b) List all the parents of the registrants showing the basis of control.

(c) Briefly describe the business of the registrant and the services rendered by it.

Item 3. *Description of Securities to be Registered.* State the title of the securities to be registered, the rights evidenced by such securities, whether certificates representing these securities are issued, the contractual obligations of the registrant with respect to such securities and any restriction on the purchase of such securities.

Instruction. This item only requires a brief summary of the provisions of the security. A complete legal description of the provisions referred to is not required and should not be given: only a succinct resume is required.

Part II. Information Not Required in Prospectus

Item 4. *Directors and Executive Officers.* Furnish the information required by Item 401 of Regulation S–K [§ 229.401 of this chapter].

Item 5. *Legal Proceedings.* Furnish the information required by Item 103 of Regulation S–K [§ 229.103 of this chapter].

Item 6. *Legal Opinions and Experts.* Furnish the information required by Items 601(b)(5) and 601(b)(24) of Regulation S–K [§ 229.601 of this chapter].

Item 7. *Financial Statements.* Include financial statements meeting the requirements of Regulation S–X [17 CFR Part 210] and the supplementary financial information specified by Item 12 of Regulation S–K [17 CFR 229.20].

Item 8. *Undertakings.* Furnish the following undertakings:

1. The undersigned registrant hereby undertakes to file a post-effective amendment, not later than 120 days after the end of each fiscal year subsequent to that covered by the financial statements presented herein, containing financial statements meeting the requirements of Regulations–X [17 CFR 210] and the supplementary financial information specified by Item 12 of Regulation S–K [17 CFR 229.20].

2. The undersigned registrant hereby undertakes not to issue, clear, guarantee or accept any security registered herein until there is a definitive options disclosure document meeting the requirements of Rule 9b–1 of the Securities Exchange Act of 1934 with respect to the class options.

Signatures

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S–20 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of ———, State of ———, on ———, 19——. (Registrant) ——— by (signature and Title) ———.

Pursuant to the requirements of the Securities Act of 1933, this registration statement has been signed by the following persons in the capacities and on the dates indicated.

(Signature) ———
(Title) ———
(Date) ———

Instructions 1. The registration statement shall be signed by the registrant, its principal executive officer or officers, its principal financial officer, its controller or principal accounting officer and by at least a majority of the board of directors or persons performing similar functions. If the registrant is a foreign person, the registration statement shall also be signed by its authorized representative in the United States.

2. The name of each person who signs the registration statement shall be typed or printed beneath his signature. Any person who occupies more than one of the specified positions shall indicate each capacity in which he signs the registration statement. Attention is directed to Rule 402 concerning manual signatures and to Item 601 of Regulation S–K concerning signatures pursuant to powers of attorney.

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1934

6. By adding § 240.9b–1 (Rule 9b–1) to read as follows:

§ 240.9b–1 Options disclosure document.

(a) *Definitions.* The following definitions shall apply for the purpose of this rule.

(1) "Options market" means a national securities exchange, an automated quotation system of a registered securities association or a foreign securities exchange on which standardized options are traded.

(2) "Options class" means all options contracts covering the same underlying instrument.

(3) "Options disclosure document" means a document prepared by one or more options markets which contains the information required by this rule with respect to the options classes covered by the document.

(4) "Standardized options" are options contracts trading on a national securities exchange, an automated quotation system of a registered securities association, or a foreign securities exchange which relate to options classes the terms of which are limited to specific expiration dates and exercise prices, or such other securities as the Commission may, by order, designate.

(b)(1) Five preliminary copies of an options disclosure document containing the information specified in paragraph (c) of this section shall be filed with the Commission by an options market at least 60 days prior to the date definitive copies are furnished to customers, unless the commission determines otherwise having due regard to the adequacy of the information disclosed and the public interest and protection of investors. Five copies of the definitive options disclosure document shall be filed with the Commission not later than the date the options disclosure document is furnished to customers. Notwithstanding the above, the use of an options disclosure document shall not be permitted unless the options class to which such document relates is the subject of an effective registration statement on Form S–20 under the Securities Act. (2)(i) If the information contained in the options disclosure document becomes or will become materially inaccurate or incomplete or there is or will be an omission of material information necessary to make the disclosure document not misleading, the options market shall amend its options disclosure document by filing five copies of an amendment to such document with the Commission at least 30 days prior to the date definitive copies are furnished to customers, unless the Commission determines otherwise having due regard to the adequacy of the information disclosed and the public interest and protection of investors. Five copies of the definitive options disclosure document, as amended, shall be filed with the Commission not later than the date the amended options disclosure document is furnished to customers.

(ii) Notwithstanding paragraph (b)(2)(i) of this section, an options market may distribute such materials prior to such 30-day period if it determines, in good faith, that such delivery is necessary to ensure timely and accurate disclosure with respect to the subject standardized options contracts. Five copies of any amendment distributed pursuant to this paragraph shall be filed with the Commission at the time of distribution. In that instance, if the Commission determines, having given due regard to the adequacy of the information

disclosed and the public interest and the protection of investors, it may require refiling of the amendment pursuant to paragraph (b)(2)(i) of this Rule.

(c) *Information required in an options disclosure document.* An options disclosure document shall contain the following information, unless otherwise provided by the Commission, with respect to the options classes covered by the document:

(1) A glossary of terms;

(2) The mechanics of buying, writing and exercising the options, including settlement procedures;

(3) The risks of trading the options;

(4) The uses of the options;

(5) The market for the options;

(6) Transaction costs for the options;

(7) Applicable margin requirements;

(8) The tax consequences of trading the options;

(9) Identification of the issuer of the options;

(10) Identification of the instrument or instruments underlying the options class; and

(11) The registration of the options on Form S–20 and the availability of the prospectus and the information in Part II of the registration statement; and

(12) Such other information as the Commission may specify.

(d) *Broker-dealer obligations.* (1) No broker or dealer shall accept an order from a customer to purchase or sell an option contract relating to an options class that is the subject of an options disclosure document, or approve the customer's account for the trading of such option, unless the broker or dealer furnishes or has furnished to the customer the options disclosure document.

(2) If an options disclosure document is amended, each broker and dealer shall promptly send the information contained in the definitive amendment to each customer whose account is approved for trading the options class(es) to which the options disclosure document relates.

The Commission finds with respect to its delegation to the Division of Market Regulation, in accordance with 5 U.S.C. 553(b)(A) and 5 U.S.C. 553(d) of the Administrative Procedure Act, that the delegation relates solely to agency organization, procedure, or practice and that notice and public procedures in accordance with 5 U.S.C. 553 are not necessary, pursuant to subsection (b) thereof and that, in view of the foregoing, good cause exists for dispensing with the normal 30-day delay in effectiveness.

Statutory Authority

These amendments are being adopted pursuant to Sections 2, 7, 10, and 19(a) of the Securities Act of 1933 and Sections 9, 15 and 23(a) of the Securities Exchange Act of 1934.

(Sec. 2, 7, 10, 19(a), 48 Stat. 74, 78, 81, 85; secs. 201, 205, 209, 210, 48 Stat. 905, 906, 908; secs. 1–4, 8, 88 Stat. 883, 885; sec. 12(a), 73 Stat. 143; sec. 7(a), 74 Stat. 412; sec. 27(a), 84 Stat. 1433; sec. 306(a)(2), 90 Stat. 57; sec. 505, 94 Stat. 2292; secs. 9, 15, 23(a), 48 Stat. 889, 895, 901; sec. 230(a), 49 Stat. 704; secs. 3, 8, 49 Stat. 1377, 1379; sec. 2, 52 Stat. 1075; secs. 6, 10, 78 Stat. 570–574, 580; sec. 11(d), 84 Stat. 121; sec. 18, 89 Stat. 155; sec. 204, 91 Stat. 1500; 15 U.S.C. 77b, 77g, 77j, 77s(a), 78i, 78o, 78w(a))

Dated: September 16, 1982.

By the Commission.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 165

[CCGD8–82–10]

Safety Zone, Calcasieu Channel, Industrial Canal, Calcasieu River, Lake Charles, LA

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: On March 2, 1981, Trunkline LNG Company submitted an application to the USCG Captain of the Port, Marine Safety Office, Port Arthur, Texas, requesting a safety zone be established around their waterfront facility. The Trunkline LNG facility is located in the Industrial Canal, Calcasieu River, Lake Charles, LA. A permanent safety zone would be established around the facility, and a moving safety zone would be established around a non-gas free LNG vessel while transiting to and from the Trunkline facility. The safety zone is established to insure the safety of the port and security of the facility. The proposed rule requires permission from the Captain of the Port or the District Commander to enter the safety zone.

EFFECTIVE DATE: This amendment becomes effective on September 23, 1982.

FOR FURTHER INFORMATION CONTACT: Lt M. H. Simpson, Project Officer, c/o Commanding Officer, U.S. Coast Guard Marine Safety Office, Federal Building/Customhouse, Port Arthur, TX 77640, Tel: (713) 983–8239.

SUPPLEMENTARY INFORMATION: On May 13, 1982, the Coast Guard published a notice of proposed rule making in the Federal Register for these regulations (47 FR 20834). Interested persons were requested to submit comments and one comment was received.

Drafting Information

The principal persons involved in drafting this rule are LT M. H. Simpson, Project Officer, c/o Commanding Officer, U.S. Coast Guard Marine Safety Office, Federal Building/Customhouse, Port Arthur, Texas 77640, Tel: (713) 983–8239, and LT J. C. Helfrich, Project Attorney, c/o Commander, Eighth Coast Guard District (d1), Hale Boggs Federal Building, 500 Camp Street, New Orleans, LA 70130, Tel: (504) 589–6188.

Discussion of Comments

The one comment to the public notice offered no objection to the proposed regulation. Submitted by Trunkline LNG Company, the applicant requesting the safety zone, the comment addressed some minor inaccuracies contained in the Supplementary Information of the proposed rule making. The fenced area of the terminal is approximately 125 acres rather than the 170.46 acres noted in the proposed rule. Also in error was the statement concerning permanent private aids to navigation (flashing green lights, 2.5 seconds period; flash length .5 second) fixed to four mooring dolphins adjacent to the shoreline of the facility. These aids are actually installed on each of two end mooring dolphins and on each of two end breasting dolphins. A third inaccuracy noted by the applicant addressed the location of the facility corners in reference to the aid to navigation lights. In the proposed rule, the reference of 19 feet north and 360 feet north for the west and east corners respectively should both be the same distance, only south of the lights.

Harbors, Marine safety, Waterways.

Final Regulations

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

In consideration of the foregoing, Part 165 of Title 33, Code of Federal Regulations, is amended by adding § 165.805 to read as follows:

§ 165.805 Calcasieu Channel and Industrial Canal, Calcasieu River, Lake Charles, LA.

(a) The waters within the following boundaries are a safety zone: The area extending 150 feet out into the Industrial Canal, Calcasieu River, Lake Charles, LA, along the shoreline of the Trunkline LNG Company's waterfront property,

from position 30°06'31.9" N., 93°18'22.8" W. to the end of the turning basin and to include an area 50 feet out from any LNG ships while moored to the Trunkline LNG facility.

(b) The waters within the following boundaries are a safety zone while a non-gas free LNG vessel is transiting within the Calcasieu River ship channel and between buoy "CC" and the Trunkline LNG facility: The area 2 miles ahead, 1 mile astern, and to either side of an LNG vessel to the width of the ship channel. Meeting, crossing, or overtaking situations are not permitted within the safety zone unless specifically authorized by the USCG Captain of the Port.

(c) Notice of transiting LNG vessels will be provided by Broadcast and/or Local Notice to Mariners.

(92 Stat. 1475, 1477 (33 U.S.C. 1225, 1231); 49 CFR 1.46 (n))

Dated: August 25, 1982.

J. J. Wicks,

Captain, USCG, Captain of the Port.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: Regulatory and narrative revisions to the Connecticut State Implementation Plan (SIP) were submitted to EPA by the Commissioner of the Connecticut Department of Environmental Protection (DEP) on April 8, 1982. Under EPA's new, parallel processing procedures, EPA proposed approval of a draft form of these revisions on November 17, 1981 (46 FR 56461).

In this notice, EPA is approving these revisions, which will change parts of the SIP narrative, strengthen state regulation 19-508-18(d) to reduce the total suspended particulate (TSP) emission limits for fuel oil burning equipment, and revise state regulation 19-508-18(f) to reduce the allowable TSP emissions from iron foundries and hot mix asphalt plants. These changes will satisfy the conditions for approval of Connecticut's primary standard attainment plan for TSP, specified at 45 FR 84781 and 84787 (December 23, 1980).

EFFECTIVE DATE: September 23, 1982.

ADDRESSES: Copies of the Connecticut document which is incorporated by reference, comments received, and EPA's response to comments are available for public inspection during normal business hours at the Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, and the Connecticut Department of Environmental Protection, Air Compliance Unit, State Office Building, Hartford, Connecticut 06115. Copies of the material submitted by Connecticut are also available at the Office of the Federal Register, 1100 L Street, N.W., Washington, D.C. 20408.

FOR FURTHER INFORMATION CONTACT: Sarah Simon, Air Management Division, EPA Region I, Room 1903, J.F.K. Federal Building, Boston, Massachusetts 02203, (617) 223-4448.

SUPPLEMENTARY INFORMATION: The Connecticut DEP has adopted revisions to Regulation 19-508-18, governing TSP emissions, which strengthen the existing SIP by tightening the emission limits for certain categories of sources. These SIP revisions, including parts of the TSP narrative, were submitted by the Commissioner of the DEP on April 8, 1982.

A discussion of these revisions, the TSP attainment plan conditions these revisions were designed to meet, and EPA's review were presented in a Notice of Proposed Rulemaking (46 FR 56461, November 17, 1981) and will not be repeated here. With the approval of these revisions, Connecticut will have a completely approved primary TSP attainment plan.

EPA received letters from five commenters dealing with various parts of the revisions. Several of these letters requested a comment period extension. Region I allowed an additional 30 days and then prepared memoranda responding to the issues raised.

The complete memorandum is available at the EPA addresses listed above.

Industry comments included the following issues:

(1) The process weight limits for foundry sand operations will be difficult to enforce because they are not appropriate for all operations, it may be difficult to aggregate emissions from multiple operations, and the term "tons of material cast" is unclear.

(2) The term "tons of iron produced" in the cupola furnace regulation is unclear.

(3) The proposed foundry regulations do not adequately consider economic impacts, as they may cause plant closures and do not differentiate between foundries on the basis of size and operating hours.

Brief summaries of EPA's responses appear below. More detail can be found in the supporting memoranda.

(1) The State decided to withdraw the process weight limit for foundry sand processes from its SIP revision. This resolves the problems concerning applicability, aggregation of emissions, and the definition of material cast. The State regulation includes two emission limits, a 90% reduction requirement and the questioned process weight limit. Since only the 90% requirement is in the SIP revision, only that compliance method will be used for federal enforcement purposes. The narrative submittals that accompanied the TSP RACT regulations have been expanded to clarify the State's intended enforcement scheme. EPA believes that the 90% removal requirement will adequately control TSP emissions from sand operations.

(2) The State clarified its definition of "tons of iron produced."

(3) EPA has found no evidence that foundries will close. A foundry industry consultant informed EPA that most foundries are already meeting the new emission limit. EPA also believes that Connecticut considered factors such as foundry size and hours of operation in developing its RACT limits.

The Connecticut Fund for the Environment (CFE) submitted detailed comments concerning a wide range of issues. For example, CFE claims that:

(1) The State's revisions are not as strict as EPA's RACT recommendations and do not meet the conditions for approval of the Part D TSP attainment plan.

(2) The State and EPA did not reevaluate the impact of revised sulfur

dioxide (SO_2) limits on the entire TSP attainment plan and that TSP levels in Connecticut are increasing.

EPA's responses to all of CFE's comments are available in the response memorandum mentioned above. Due to their length, they will not be included in full in this notice. To summarize our response briefly:

(1) EPA notes that its RACT recommendations were intended to serve only as guidance. Connecticut is tightening its TSP limits in this revision, and our review has found that these limits are RACT in Connecticut.

(2) The State found that its revised SO_2 limits would not have significant impact on TSP levels. EPA concurs and finds that the State's revision to its sulfur-in-fuel limitations was not a part of the State's Part D plan for TSP. Thus, the change in SO_2 limits did not require a re-evaluation of the TSP plan. In addition, ambient air quality data show that TSP levels in many areas of Connecticut are improving.

EPA has determined that these revisions are acceptable for inclusion in the SIP and that the RACT revisions and submittals satisfy the conditions of approval for Connecticut's TSP Primary Attainment Plan, specified at 45 FR 84781 and 84787 (12–23–80).

Action

After evaluation of the state's submittal, the Administrator has determined that these Connecticut revisions meet the requirements of the Clean Air Act and 40 CFR Part 51. Accordingly, they are approved as revisions to the Connecticut SIP.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291. The Agency finds that good cause exists for making this action effective immediately since these implementation plan revisions are already in effect under state law and EPA approval imposes no additional regulatory burden.

Under Section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by (60 days from today). This action may not be challenged later in proceedings to enforce its requirements.

(See sec. 307(b)(2))

List of Subjects in 40 CFR Part 52

Air pollution control, Ozone, Sulfur oxides, Nitrogen oxides, Lead, Particulate matter, Carbon monoxide, Hydrocarbons, Intergovernmental relations.

(Secs. 110(a), 172, and 301(a), Clean Air Act, as amended (42 U.S.C. 7410(a), 7502, and 7601(a)))

Dated: September 16, 1982.

Anne M. Gorsuch,

Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Connecticut was approved by the Director of the Federal Register on July 1, 1982.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart H—Connecticut

1. Section 52.370 is amended by adding paragraph (c)(22) as follows:

§ 52.370 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(22) Revisions to the narrative and State Regulation 19–508–18, subparts (d), f(1), f(2), and part of f(3), governing total suspended particulate emissions, submitted by the Commissioner of the Connecticut Department of Environmental Protection on April 8, 1982.

2. Section 52.373 is amended by adding paragraph (b) as follows:

§ 52.373 Approval status.

* * * * *

(b) The Administrator approves the total suspended particulate regulation for foundry sand processes as submitted and identified under paragraph (c)(22) of this section. This includes *only* the requirement to remove ninety percent of the particulate matter and *not* the requirement to emit not more than 0.75 pounds of particulate per ton of material cast, a provision which may be found in state regulation 19–508–18(f)(3).

§ 52.380 [Amended]

3. Section 52.380 is amended by removing and reserving paragraphs (c)(4) and (c)(5).

Correction

In FR Doc. 82–22836, appearing on page 36602, on Friday, August 20, 1982, in the third column, in the third line of the introductory text of § 244.203, "October 20, 1987" should be corrected to read "October 20, 1977.

BILLING CODE 1505–01–M

GENERAL SERVICES ADMINISTRATION

41 CFR Ch. 101

[FPMR Temp. Reg. D–67]

Locating Federal Facilities in Central Business Areas

AGENCY: General Services Administration.

ACTION: Temporary regulation.

SUMMARY: This regulation temporarily suspends GSA's regulations concerning the assignment and use of space that require priority consideration be given to locating Federal agencies in central business areas (CBA). The regulations are suspended as requested by the Office of Management and Budget memo order to GSA dated May 11, 1982.

DATES: Effective date: September 23, 1982. Expiration date: June 30, 1983.

FOR FURTHER INFORMATION CONTACT: Paul H. Herndon III, Director, Space Management Division (202–566–1675).

SUPPLEMENTARY INFORMATION: The General Services Administration has determined that this rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs to consumers or others; or have significant adverse effects. The General Services Administration has based all administrative decisions underlying this rule on adequate information concerning the need for, and consequences of, this rule; has determined that the potential benefits to society from this rule outweigh the potential costs and has

maximized the net benefits; and has chosen the alternative approach involving the least net cost to society.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

In 41 CFR Chapter 101, the following temporary regulation is added to the appendix at the end of Subchapter D to read as follows:

General Services Administration,
Washington, D.C. 20405.
September 16, 1982.

Federal Property Management Regulations Temporary Regulation D–67

To: Heads of Federal agencies.
Subject: Locating Federal facilities in Central Business Areas.

1. *Purpose.*—This regulation suspends instructions regarding the use of provisions in Part 101–17, Assignment and Utilization of Space.

2. *Effective date.*—This regulation is effective upon publication in the Federal Register.

3. *Expiration date.*—This regulation expires June 30, 1983, unless sooner superseded or canceled.

4. *Background.*—Executive Order 12072 of August 16, 1978, requires that "the process for meeting Federal space needs in urban areas shall give first consideration to a centralized community business area and adjacent areas of similar character, including other specific areas which may be recommended by local officials." On May 11, 1961, the Director, Office of Management and Budget, requested GSA to delay all moves being made solely in compliance with the Federal Property Management Regulations implementing the EO and to reassess the economic and operational impact thereof.

5. *Effect on other directives.*—Until further notice agencies are directed to take no actions pursuant to the following provisions of Part 101–17:

a. Section 101–17.002(c) is suspended in its entirety, except the first sentence in paragraph 101–17.002(c)(1).

b. Section 101–17.002(d) is suspended in its entirety.

c. Section 101–17.002(e) is suspended in its entirety.

d. Section 101–17.002(f) is suspended in its entirety.

e. Section 101–17.002(k) (1) and (2) are suspended in their entirety.

f. Section 101–17.002(m) (1) and (4) are suspended in their entirety.

g. Section 101–17.101(b)(1) is revised to suspend the requirement that primary consideration be given to location in the central business area in urban areas.

h. Section 101–17.4701, paragraph 6b, is revised to suspend the requirement that first consideration be given to housing county level field offices in the central business area. The preference given to federally controlled space remains in effect.

i. Section 101–17.4702, paragraph IA, is suspended in its entirety.

j. Section 101–17.4702, paragraph IB(1) a and b, are revised to suspend all references to locating and satisfying needs in the CBA. The provisions of these paragraphs for the General Services Administration and the Postal Service to notify each other of projects being planned remain in effect.

Ray Kline,
Acting Administrator of General Services.

BILLING CODE 6820-24-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA 6419]

List of Communities Eligible for the Sale of Insurance Under the National Flood Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain flood plain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATES: The date listed in the fifth column of the table.

ADDRESSES: Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Program (NFIP) at: P.O. Box 3429, Bethesda, Maryland 20034; phone (800) 638–8620.

FOR FURTHER INFORMATION CONTACT: Mr. Richard E. Sanderson, Chief, Natural Hazards Division (202) 287–0270, 500 C Street Southwest, Donohoe Building, Room 505, Washington, DC 20472.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Since the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for property in the community.

In addition, the Director of the Federal Emergency Management Agency has identified the special flood hazard areas in some of these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. In the communities listed where a flood map has been published, Section 102 of the Flood Disaster Protection Act of 1973, as amended, requires the purchase of flood insurance as a condition of Federal or federally related financial assistance for acquisition or construction of buildings in the special flood hazard area shown on the map.

The Director finds that delayed effective dates would be contrary to the public interest. The Director also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

The Catalog of Domestic Assistance Number for this program is 83.100 "Flood Insurance." This program is subject to procedures set out in OMB Circular A–95.

Pursuant to the provisions of 5 USC 605(b), the Associate Director, State and Local Programs and Support, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule, if promulgated will not have a significant economic impact on a substantial number of small entities. This rule provides routine legal notice stating the community's status in the NFIP and imposes no new requirements or regulations on participating communities.

List of Subjects in 44 CFR Part 64

Flood insurance—flood plains.

PART 64—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Section 64.6 is amended by adding in alphabetical sequence new entries to the table.

In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 64.6 List of eligible communities.

State and county	Location	Community No.	Effective dates of authorization/cancellation of sale of flood insurance in community	Special flood hazard area identified
Illinois:				
Massac	Joppa, village of	170757A	Aug. 16, 1982, emergency	Nov. 23, 1973 and Apr. 23, 1976.
Alexander	Tamms, village of	170005A	do	May 10, 1974 and June 11, 1976.

State and county	Location	Community No.	Effective dates of authorization/cancellation of sale of flood insurance in community	Special flood hazard area identified
Mississippi: DeSoto	Southaven, town of	280331, new	do.	
North Carolina: Lenoir and Pitt	Grifton, town of	370192B	Apr. 10, 1975, emergency; Feb. 17, 1982, regular; Feb. 17, 1982, suspended; Aug. 16, 1982, reinstated.	Dec. 17, 1973, Jan. 23, 1976 and Feb. 17, 1982.
Kansas: Pottawatomie and Riley	Manhattan, city of	200300C	Jan. 30, 1974, emergency; Apr.1, 1982, regular; Apr. 1,1982, suspended; Aug. 23, 1982, reinstated.	Mar. 8, 1974, Dec. 13, 1974 and May 24, 1977.
Indiana: Warrick	Unincorporated areas	180418B	Apr. 11, 1975, emergency; May 17, 1982, regular; May 17, 1982, suspended; Aug. 25, 1982, reinstated.	Mar. 24, 1978.
Arkansas: Lawrence	Unincorporated areas	050443C	Aug. 30, 1982, emergency	June 3, 1977 and Aug. 4, 1981.
Michigan:				
St. Joseph	Lockport, township of	260715A	do.	Nov. 3, 1978.
Lake	Yates, township of	260432	do.	Aug. 15, 1975.
Tennessee: Sumner	Millersville, city of	470368, new	do.	do.
Texas: Montague	Unincorporated areas	480839	do.	do.
Arkansas:				
Independence	Batesville, city of	050091B	Aug 16, 1982, suspension withdrawn	Nov. 23, 1973, Feb. 13, 1976 and Jan. 24, 1977.
Jackson	Unincorporated areas	050096B	do.	June 3, 1977.

44 CFR Part 65

[Docket No. FEMA 6402]

Identification and Mapping of Special Flood Hazard Areas; Changes in Special Flood Hazard Areas Under the National Flood Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Interim rule.

SUMMARY: This rule lists those communities where modification of the base (100-year) flood elevations is appropriate because of new scientific or technical data. New flood insurance premium rates will be calculated from the modified base (100-year) elevations for new buildings and their contents and for second layer insurance on existing buildings and their contents.

DATES: These modified elevations are currently in effect and amend the Flood Insurance Rate Map (FIRM) in effect prior to this determination.

From the date of the second publication of notice of these changes in a prominent local newspaper, any person has ninety (90) days in which he can request through the community that the Associate Director, State and Local Programs and Support reconsider the changes. These modified elevations may be changed during the 90-day period.

ADDRESSES: The modified base (100-year) flood elevation determinations are available for inspection at the office of the Chief Executive Officer of the community, listed in the fourth column of the table. Send comments to that address also.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, P.E., Chief, Engineering Branch, Office of State and Local Programs and Support, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 287–0220.

SUPPLEMENTARY INFORMATION: The numerous changes made in the base (100-year) flood elevations on the Flood Insurance Rate Map(s) make it administratively infeasible to publish in this notice all of the modified base (100-year) flood elevations contained on the map. However, this rule includes the address of the Chief Executive Officer of the community where the modified base (100-year) flood elevation determinations are available for inspection. Any request for reconsideration must be based on knowledge of changed conditions, or new scientific or technical data.

These modifications are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR Part 65.4.

For rating purposes, the revised community number is listed and must be used for all new policies and renewals.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These elevations, together with the flood plain management measures required by § 60.3 of the program regulations are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time, enact stricter requirements on its own, or pursuant to policies established by other Federal, State or regional entities.

The changes in the base (100-year) flood elevations listed below are in accordance with 44 CFR 65.4.

44 CFR Part 65

Identification and Mapping of Special Flood Hazard Areas; Changes in Special Flood Hazard Areas Under the National Flood Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: The Associate Director, State and Local Programs and Support, after consultation with the Chief Executive Officer of each community listed, finds that modification of the proposed Special Flood Hazard Areas (SFHAs) for those communities is appropriate as a result of requests for changes in the interim and/or Proposed Rule.

DATES: These modified SFHAs are in effect as of the dates listed in the sixth column of the attached list and amend the Flood Insurance Rate Map(s) (FIRM) in effect for each listed community prior to this date.

ADDRESSES: The modified SFHA determinations for each community are available for inspection at the office of the Chief Executive Officer of the community, listed in the fifth column of the table.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, P. E., Chief, Engineering Branch, Office of State and Local Programs and Support, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287–0230.

SUPPLEMENTARY INFORMATION: The Associate Director, State and Local Programs and Support has published a notification of the SFHAs in prominent local newspapers for the communities listed below. Ninety (90) days have elapsed since that publication, and the Associate Director has received appeals from the communities requesting changes in the proposed SFHA determinations.

The numerous changes made in the SFHAs on the Flood Insurance Rate Map for each community make it administratively infeasible to publish in this notice all of the SFHA changes contained on the maps. However, this notice includes the address of the Chief Executive Officer where the modified SFHA determinations are available for inspection.

The modifications are pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR Part 65.

For rating purposes, the revised community number is listed and must be used for all new policies and renewals.

These SFHAs are basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These SFHAs together with the flood plain management measures required by 60.3 of the program regulations are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities.

These modified SFHAs shall be used to calculate the appropriate flood insurance premium rates for new buildings and their contents.

The changes in the SFHAs listed below are in accordance with 44 CFR 65.4.

State and county	Location	Date and name of newspaper where notice was published	Chief executive officer of community	Effective date of modified flood insurance rate map	New community No.

BILLING CODE 6718-03-M

44 CFR Part 67

National Flood Insurance Program; Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the nation.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required either to adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the community. This date may be obtained by contacting the office where the maps are available for inspection indicated in the table below.

ADDRESS: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program (202) 287–0230, Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the final determination of flood elevations for each community listed.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR Part 67). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Agency has developed criteria for flood plain management in flood prone areas in accordance with 44 CFR Part 60.

Pursuant to the provisions of 5 U.S.C. 605(b), the Associate Director to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that the final flood elevation determinations, if promulgated, will not have a significant economic impact on a substantial number of small entities. A flood elevation determination under section 1363 forms the basis for new local ordinances, which, if adopted by a local community, will govern future construction within the flood plain area. The elevation determinations, however, impose no restriction unless and until the local community voluntarily adopts flood plain ordinances in accord with these elevations. Even if ordinances are adopted in compliance with Federal standards, the elevations prescribe how high to build in the flood plain and do not prescribe development. Thus, this action only forms the basis for future local actions. It imposes no new requirement; of itself it has no economic impact.

List of Subjects in 44 CFR Part 67.

Flood insurance—flood plains.

The final base (100-year) flood elevations for selected locations are:

Proposed Rules

Federal Register
Vol. 47, No. 185
Thursday, September 23, 1982

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

7 CFR Part 1945

Emergency Loans

AGENCY: Farmers Home Administration, USDA.

ACTION: Proposed rule.

SUMMARY: The Farmers Home Administration (FmHA) proposes to amend its insured emergency (EM) loan regulations to correlate and clarify Subparts B and D so that production loss calculations will be made on a fair and equitable basis for all farmers. A termination date is established to provide that all EM loan applications will be processed under the same regulation.

This action is needed to implement administrative changes to correct program deficiencies. The intended effect is to provide for more efficient administration of the program so that EM loans will be made on a fair and equitable basis to farmers suffering substantial agricultural losses, who need the Federal assistance to continue their farming operations.

DATES: Comments must be received by November 22, 1982.

ADDRESSES: Submit written comments in duplicate to Carl O. Opstad, Chief, Directives Management Branch, Farmers Home Administration, USDA, Room 6346–S, Washington, DC 20250, telephone (202) 382–9725. All written comments made pursuant to this notice will be available for public inspection during regular work hours at the above address.

FOR FURTHER INFORMATION CONTACT: Keith L. Smalley, Emergency Loan Officer, Emergency Division, Farmers Home Administration, USDA, Room 5346–S, Washington, DC 20250, telephone (202) 382–1651.

SUPPLEMENTARY INFORMATION: This proposed action has been reviewed under USDA procedures established in Secretary's Memorandum 1512–1 which implements Executive Order 12291 and has been determined to be "non major". This action will cause no major increase in costs or prices for individuals, organizations, or other Government agencies affected; and there will be no significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This action does not directly affect any FmHA programs or projects that are subject to A–95 clearinghouse review.

Approval has been requested from the Office of Management and Budget in regard to the recordkeeping and reporting requirements contained herein.

The Catalog of Federal Domestic Assistance number is 10.404 Emergency Loans (EM).

This document has been reviewed in accordance with 7 CFR Part 1901, Subpart G, "Environmental Impact Statements." It is the determination of FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Public Law (Pub. L.) 91–190, an Environmental Impact Statement is not required.

Need for Governmental Action

The Congress has been critical of FmHA's overall management of the Disaster Emergency Program. The Administration agrees with these criticisms.

Emergency (EM) loans are being made to farmers who have suffered losses to one crop while having offseting good production in another crop(s). Although some corrective measures have been taken to assure that Emergency loans are made to those actually suffering production losses, it has become evident that an urgent need exists for further revision and clarification of the regulations governing the EM loan program. Revisions must be made in Subparts B and D of Part 1945 so that farmers served under these regulations receive equal and fair treatment in obtaining EM loans.

It is important to take action to prevent the policies and practices causing the program abuses from continuing. It is also important to act immediately so that the effect of these changes can be implemented before a sizeable number of loans are made having subsidized interest rates and terms that would last for several years requiring the unnecessary outlay of several million dollars.

Therefore, to help alleviate these serious problems and restore fiscal integrity to the EM program, corrective amendments are proposed.

Major Alternative Actions Considered

Alternative No. 1: Continue with existing regulations. Both Subparts B and D of 7 CFR, Part 1945 provide for making EM loans to farmers. If the regulations are not revised, EM loan applications made under designations with incidence periods beginning prior to May 26, 1981, would continue to be processed after September 30, 1982, under 7 CFR, Part 1945, Subpart B. Continuing to provide EM loans under Subpart B would permit excessive numbers of EM loans to be made which would be detrimental to the President's plan for economic recovery. The method of calculating production losses would continue to lack uniformity. The method of establishing prices and yields in making loss loan calculations for all crops would not be done on a uniform equitable basis. Acreage-poundage controls would continue to be considered in calculating production losses, thereby giving an unfair advantage to crops under this type of control. Lack of uniformity would exist between Subparts B and D of Part 1945, regarding the percentage of projected income that can be advanced as an annual production loan when only crops and/or livestock and livestock products are available as security for a loan. The definitions of joint farming operation and types of security for FmHA loans would continue to be unclear.

Alternative No. 2: Revise regulations to correlate, unify, and better define terms used in the FmHA EM regulations. All EM loan applications will be processed in a more equitable manner. Regulations governing EM loans will be clarified with regard to the meaning of a joint farming operation, types of security for EM loans, and how prices and normal yields are established.

Alternative No. 2 was selected as the best solution to correct the inequities and deficiencies that have been identified.

The following is a summary of the revisions to be made by this action.

7 CFR, Part 1945, Subpart B is amended by revising the following paragraphs as summarized below:

1. Section 1945.51(a) is revised to provide for a termination date for Part 1945, Subpart B at the close of business on September 30, 1982.

2. Section 1945.54(a)(22) is revised to delete acreage-poundage controls as a consideration in establishing normal year's production and in calculating production losses. Sources of production records for establishment of normal year's production is redesignated as § 1945.63(a)(1).

3. Section 1945.54(a)(32)(i) is revised to clarify the definition of basic security.

4. Section 1945.54(a)(32)(ii) is revised to clarify the definition of normal income security.

5. Section 1945.54(a)(32)(iii) is revised to clarify the definition of additional security.

6. Section 1945.62(c)(2) is revised to define a joint farming operation.

7. Section 1945.62(d) is revised to reference the paragraph with § 1945.63(a)(2)(xvii) in regard to calculating production losses when an applicant's farming operation is conducted in both a designated and nondesignated county(ies).

8. Section 1945.63(a)(1) is revised to clarify how production losses are calculated and the sources of records and their priority of use in establishing normal year's production. Subparagraphs (v) and (vi) are deleted.

9. Section 1945.63(a)(2)(i) through (a)(2)(vii) are revised for clarity.

Subsection (a)(2)(iii) is revised to conform to the requirements of Pub. L. 97–35 regarding average prices to be used to establish production losses, and (a)(2)(xvii) is added to this section to clarify how production losses are calculated for an EM applicant whose farming operation is conducted in both a designated and a nondesignated county(ies).

10. Section 1945.66(a)(1) is revised to reference this paragraph with § 1945.63(a)(2)(xvii).

11. Section 1945.67(d) is revised to clarify that subsequent EM loans can only be made after September 30, 1982, to borrowers who were indebted for EM loan(s) on December 15, 1979.

12. Section 1945.67(h) is added to this paragraph to provide that FmHA employees will not guarantee repayment of advances by other creditors.

13. Section 1945.68(b)(1) is revised to correct a typographical error.

14. Section 1945.69(f)(1) is revised to change the percent from 50 percent to 75 percent of planned gross farm income that can be advanced for annual production purposes, and to delete the reference to the greater of $100,000 or one-half of the estimated gross farm income when the applicant can provide only a first lien on a crop(s) and/or livestock and livestock products.

7 CFR, Part 1945, Subpart D, is amended by revising the following paragraphs as summarized below:

15. Section 1945.154(a)(23) is revised to delete the reference to tobacco under acreage-poundage control as a consideration in establishing normal year's production and in calculating production losses. The source of records and their priority of use is redesignated as § 1945.163(a)(1).

16. Section 1945.154(a)(33)(i) is revised to clarify the definition of basic security.

17. Section 1945.154(a)(33)(ii) is revised to clarify the definition of normal income security.

18. Section 1945.154(a)(33)(iii) is revised to clarify the definition of additional security.

19. Section 1945.162(c)(2) is revised to define a joint farming operation.

20. Section 1945.162(d) is revised to reference this paragraph with § 1945.163(a)(2)(xvii) in regard to calculating production losses when an applicant's farming operation is conducted in both a designated and nondesignated county(ies).

21. Section 1945.163(a)(1) is completely revised to redesignate the source of prices and priority of records to be used in calculating production losses.

22. Section 1945.163(a)(2)(i), (a)(2)(ii), (a)(2)(iv) and (a)(2)(vi) are revised for clarity and (a)(2)(xvii) is added to this paragraph to clarify how production losses are calculated for an EM applicant whose farming operation is conducted in both a designated and a nondesignated county(ies).

23. Section 1945.166(a)(1) is revised to reference this paragraph with § 1945.63(a)(2)(xvii).

24. Section 1945.166(d) is revised to substitute the word refinancing for financing in this section.

25. Section 1945.167(a) is revised to delete the word minor as it relates to crops to further clarify the paragraph.

26. Section 1945.167 (e) is revised to clarify that subsequent EM loans for any purpose can only be made after September 30, 1982 to borrowers who were indebted for EM loan(s) on December 15, 1979.

27. Section 1945.167 (i) is added to this paragraph to provide that FmHA employees will not guarantee repayment of advances from other credit sources.

28. Section 1945.169 (f) (1) is revised to state that 75 percent of planned gross farm income can be advanced for annual production purposes, and to delete the reference to the greater of $100,000 or 75 percent of the estimated gross farm income when the applicant can provide only a first lien on a crop(s) and/or livestock and livestock products.

List of Subjects in 7 CFR Part 1945

Agriculture, Disaster assistance, Intergovernmental relations, Livestock, Loan programs—Agriculture.

PART 1945—EMERGENCY

Therefore, as proposed, Subparts B and D of Part 1945, Chapter XVIII, Title 7, Code of Regulations are amended as follows:

Subpart B—Emergency Loan Policies, Procedures and Authorizations for Those Applications Associated With Disaster Designations Having a Beginning Incidence Period Dated Prior to May 26, 1981

1. In § 1945.51, paragraph (a) is revised to read as follows:

§ 1945.51 Introduction.

(a) *Policy.* This subpart prescribes the policies, procedures, and authorizations of the Farmers Home Administration (FmHA) for making Insured Emergency (EM) loans to farmers, ranchers, and aquaculture operators (hereinafter referred to as farmers). FmHA's policy is to make loans to any otherwise qualified applicant without regard to race, color, religion, sex, national origin, marital status, age, or physical/mental handicap (provided the applicant can execute a legal contract). This subpart applies to borrowers and FmHA personnel involved in making EM loans. *Use of this subpart will terminate at close of business (COB) September 30, 1982.* Any EM loans not approved by COB September 30, 1982, will be processed according to Subpart D of Part 1945 of this chapter.

* * * * *

2. In § 1945.54, paragraphs (a)(22), (a)(32)(i), (a)(32)(ii), and (a)(32)(iii) are revised to read as follows:

§ 1945.54 Definitions and abbreviations.

(a) *Definitions.*

* * * * *

(22) *Normal year's production.* The normal year's production is the average per acre yield or production per animal unit of the 4 better years out of the 5 years immediately preceding the disaster year.

* * * * *

(32) *Security.* * * *

(i) *Basic security.* Real estate, fixtures, personal property, *e.g.*, foundation herds, flocks, aquatic animals and plant

organisms; and machinery and equipment serving as security. When no collateral other than crops, livestock and/or livestock products and/or repayment ability as defined in § 1945.09 (d) of this subpart is available as security for the loan(s), such collateral is also considered to be basic security and sales proceeds *will not* be released for any purpose unless the Farm and Home Plan for that crop year includes plans for release of the proceeds for necessary farm operating or family living expenses.

(ii) *Normal income security.* All collateral (crops, livestock, and/or livestock products) planned to be marketed in the regular course of business, except as set forth in paragraph (a)(32)(i) of this section unless liquidation is approved. When liquidation is approved, all security including normal income security, becomes basic security and sales proceeds *cannot be* released except as reflected in the Farm and Home Plan for that crop year.

(iii) *Additional security.* All collateral not covered by paragraphs (a)(32)(i) or (ii) of this section including: General intangibles, accounts and contract rights, which is encumbered, in addition to basic security and normal income security. Real estate and chattels can be additional security if required by loan approval conditions.

* * * * *

3. In § 1945.62, paragraphs (c)(2) and (d) are revised to read as follows:

§ 1945.62 Eligibility requirements.

* * * * *

(c) *Established farmer.*

* * * * *

(2) An individual invovled in a joint farming operation is not considered to be an established farmer for EM loan purposes. A joint farming operation is an operation where two or more farmers work together sharing equally or unequally land, labor, equipment, expenses and income. The joint ownership of land and/or equipment or the exchange of labor and equipment in separate farming operations does not constitute a joint operation. Thus, the latter type of arrangement is not considered a joint operation, but two separate individual operations.

* * * * *

(d) *Operate in a disaster area.* An applicant for an actual loss loan must have sustained qualifying losses in an area in which the availability of EM loans for actual losses has been determined in accordance with Subpart A of Part 1945 of this chapter and must have filed an application before the expiration of the termination date. When an applicant's farming operation is located both in a designated county(ies) and a non-designated county(ies) refer to § 1945.63(a)(2)(xvii) of this subpart.

* * * * *

4. In § 1945.63, paragraphs (a)(1), and (a)(2)(i) through (a)(2)(vii) are revised, and paragraph (a)(2)(xvii) is added to read as follows:

§ 1945.63 Determining qualifying losses, eligibility for actual loss loan(s) and the maximum amount of actual loss loan(s), annual production and major adjustment loan(s).

* * * * *

(a) *Production losses.* (1) The normal year's production will be established by eliminating the poorest year of the 5-year production history immediately preceding the disaster year and averaging the remaining 4 years' production. The applicant *must* select the year to be eliminated. The year selected to be eliminated *must* be the same year for all farm enterprises (i.e., *all* crops, livestock, and livestock products), which constituted a part of the applicant's farming operation during that year. A State Supplement will be issued which will be used in connection with paragraph (a)(1)(iii) of this section. The State Supplement will contain average production figures provided by the USDA State Crop and Livestock Reporting Service, when available. If those records are not available, the State Supplement will contain statistical data on production from similar State or Federal bodies. When this information is available by County, county averages will be used. If available only by State, the State averages will be used throughout the State. In those States where neither a County nor State average is available for an agricultural commodity(ies), the State Director, with the advice of representatives of other Federal and State agricultural agencies, will establish County or State averages and advise County Offices of these averages in the State Supplement. State Directors and Farmer Programs Chiefs in adjoining States will consult with each other before releasing these figures. An applicant must use data from the production record source(s) in the order of priority as listed in paragraphs (a)(1)(i), (ii) and (iii) of this section. The applicant will identify, on Form FmHA 1945–22, the production record source(s) to be used in determining the normal year's production for each commodity that was produced on all farms operated by the applicant in the disaster year. *The order of priority of production records that will be used is:*

(i) The applicant's actual reliable farm records.

(ii) The agriculture stablization and Conservation Service (ASCS) established yields. When this production record source is used, an applicant must obtain the information from ASCS and submit it with the application to FmHA. This production record source will be used only for those commodities for which the applicant's reliable farm records were not maintained.

(iii) County or State averages. When this production record source is used, an applicant needs to provide production data for only the disaster year. The averages will be found in the State Supplement mentioned in paragraph (a)(1) of this section. This production record source will be used only for those commodities for which neither the applicant's reliable farm records nor ASCS established yields are available.

(iv) When one source of records is not available for the full 5 years preceding the disaster year combinations of record sources in paragraphs (a)(1) (i), (ii) and (iii) of this section will be used.

(2) * * *

(i) In calculating production losses, the same established unit prices will be used for the disaster year and the normal year in computing the dollar value of each enterprise. Unit prices will be established in accordance with paragraph (a)(2)(iii) of this section. In the production loss calculations, those crop production yields and production per animal unit records authorized in paragraphs (a)(1) (i), (ii) and (iii) of this section will be used.

(ii) Information certified on Form FmHA 1945–22 for the disaster year for all single enterprises (as defined in § 1945.54(a)(14)(i)), which suffered a loss due to the disaster, will be transposed from Form FmHA 1945–22 to the appropriate places on Form FmHA 1945–26. The FmHA official completing Form FmHA 1945–26 is responsible for verifying loss information provided by the applicant. Information obtained from ASCS on Form FmHA 1945–29 will be cross checked with information provided by the applicant on Form FmHA 1945–22. Any discrepancies will be resolved, loss calculations adjusted if necessary, and the correct information recorded in the County Office case file. When the applicant's disaster loss is due to a reduction in *quality*, rather than due to a reduction in *quantity*, the applicant will be given credit for this by adjusting actual production yield downward. This will be accomplished by converting the dollar value of the quality loss to a percentage of yield

reduction in sufficient amount to compensate for the quality loss. When such an adjustment is necessary, the basis used in making the adjustment will be the applicant's *accurate* records of production and sales receipts showing the price received and the grade of the commodity in question. This information will be well documented by the County Supervisor.

(iii) The gross dollar value of production losses will be computed for all crops and all livestock enterprises which suffered losses due to the disaster, by calculating the value of the disaster year's production and subtracting that amount from the calculated value of the normal year's production. Unit prices for all agricultural commodities produced commercially in each State will be established on a Statewide bases by all FmHA State Directors each year, and published in a State Supplement to be issued not later than February 15 of each year. *These commodity prices will be established by averaging the monthly market prices of each commodity for the 12-month period preceding the calendar year in which the disaster occurs.* The monthly average market prices will be provided by USDA State Crop and Livestock Reporting Service, or similar State or Federal agency or body. Once established, these prices *will not be changed* for any EM actual production loss loan processed under any disaster occurring on or after February 1 of that calendar year and through January 31 of the next calendar year. If Statewide figures are not available, the state Director will consult with other agricultural agency representatives and agricultural lenders in the local area before establishing commodity prices. State Directors and Farmer Programs Chiefs in adjoining States will consult each other before releasing their established commodity price lists.

(iv) The amount of actual production loss will be calculated for the single enterprise which is a basic part of the farming operation (see § 1945.54(a)(14) of this subpart) by subtracting all compensatory disaster payments which are related to the disaster and which have been received or will be received; *i.e.*, crop insurance indemnity payments, ASCS disaster program payments, or any other disaster compensation *for that enterprise*, from the gross dollar amount of production losses for that enterprise as determined in paragraph (a)(2)(iii) of this section.

(v) The dollar value of the actual production loss for the single enterprises, which is a basic part of the farming operation as designated by the applicant in item F, Form FmHA 1945–22, will be divided by the previously calculated normal year's gross income for that enterprise. This establishes the percentage reduction in production from normal for that enterprise. If the percentage loss in *any* single enterprise which is a basic part of the farming operation, equals or exceeds 20 percent, and the applicant is otherwise eligible, EM actual loss loan assistance will be considered.

(vi) Once eligibility is established based on production losses, the total production loss sustained by the applicant, directly attributable to the disaster, is computed by adding the gross dollar value of production losses of *all* single enterprises, whether or not they constitute a basic part of the farming operation, and subtracting from that total all compensatory disaster payments received or to be received for those enterprises.

(vii) The maximum production loss loan is limited to *90 percent* of the total calculated actual production loss sustained by the applicant.

* * * * *

(xvii) When an applicant's farming operation(s) is conducted in a designated county(ies) and a nondesignated county(ies), eligibility will be established based on losses to a single enterprise which constitutes a basic part of the farming operation without regard to whether the single enterprise is located in the designated county. The disaster year's *actual* yields, both in the designated and nondesignated counties, will be used to determine losses. Compensatory payments will be subtracted as explained in paragraph (a)(2)(iv) of this section when determining eligibility. The amount of the production loss loan will be limited to the production loss sustained in the designated county, *minus* compensatory payments received or to be received for that portion of the operation located in the designated county.

* * * * *

5. In § 1945.66 paragraph (a)(1) is revised to read as follows:

§ 1945.66 Loan purposes.

* * * * *

(a) *Loans for actual losses.*

(1) The amount of the maximum actual loss loan(s) in addition to the limitations contained in § 1945.63 (a)(2)(xvii) and (d) of this subpart, is further limited to the actual dollar loss, or the actual amount of essential family, farm, and nonfarm enterprise credit that the applicant needs to carry on normal operations, *whichever is the lesser.* Actual loss loan funds will not be used to finance a nonfarm enterprise, unless such enterprise is needed to support a reasonable standard of living for the family. The use of the loss loan funds will be identified in the farm and home plan so that a determination can be made as to whether such loan(s) were used for authorized purposes and covered all or a portion of the actual dollar loss. Actual loss loan funds not needed immediately will be scheduled for later disbursement through the Finance Office "Loan Disbursement System". After each actual loss loan is made the resulting operation must be one which is not substantially larger (due to the direct or indirect use of loan funds) than the pre-disaster operation, does not realistically project a net farm income (gross income less annual farm operating expenses) substantially greater than that of the normal operation conducted before the disaster, and is financially sound.

* * * * *

6. In § 1945.67 paragraph (d) is revised and (h) is added to read as follows:

§ 1945.67 Loan limitations and special provisions.

* * * * *

(d) *Subsequent EM loans.* Subsequent (additional) EM loans *will* be made under the provisions of this subpart, until the close of business (COB), September 30, 1982, to EM borrowers who initially became indebted for EM loans under this subpart. Effective October 1, 1982 *only those borrowers who were indebted for EM loans on December 15, 1979, and who applied for an initial annual production loan within 12 months from the disaster authorization date, may receive subsequent EM annual production loans.* Such loans will be made under the provisions of FmHA Instruction 1945–D.

* * * * *

(h) *Prohibition on guaranteeing repayment of advances from other credit sources.* FmHA employees will not guarantee repayment of advances from other credit sources, either personally or on behalf of applicants, borrowers, or FmHA.

7. In § 1945.68, the title of paragraph (b)(1) is revised to read as follows:

§ 1945.68 Rates and terms.

* * * * *

(b) *Terms of loans.* * * *

(1) *Operating purposes (Subtitle B).* * * *

* * * * *

8. In § 1945.69, paragraph (f)(1) is revised to read as follows:

§ 1945.69 Security requirements.

* * * * *

(f) *Operating purposes.* (1) Loan funds used for annual production purposes will be secured by a first lien on the crop(s) and/or livestock and livestock products being financed with EM loan funds, plus enough other security, including personal property, real estate, and crop insurance, to assure that the Government's financial interest will be protected. When the applicant can provide *no* security other than a first lien on the crop(s) and/or livestock and livestock products, the amount of the loan will be limited to 75 percent of the planned gross farm income as shown on Form FmHA 431–2, or as shown on another acceptable plan of operation based on normal production and prices authorized by the State Director for developing annual farm plans within the State. When an EM borrower, who is indebted for an annual production loan which is secured by only a first lien on the crop(s) and/or livestock and livestock products, needs a subsequent EM annual production loan to complete that year's farming operation, and the loan is needed to protect the Government's investment already in the crop and/or livestock and livestock products, the 75 percent gross income requirement may be waived by the State Director.

* * * * *

Subpart D—Emergency Loan Policies, Procedures and Authorizations for Applications Associated With FmHA Disaster Designations Having a Beginning Incidence Period Date on or After May 26, 1981

9. In § 1945.154, paragraphs (a)(23), (a)(33)(i), (a)(33)(ii), and (a)(33)(iii) are revised to read as follows:

§ 1945.154 Definitions and abbreviations.

(a) *Definitions.*

* * * * *

(23) *Normal year's production.* The normal year's production is the average per acre yield or production per animal unit of the 4 better years out of the 5 years immediately preceding the disaster year.

* * * * *

(33) *Security* * * *.

(i) *Basic security.* Real estate, fixtures, personal property, *e.g.*, foundation herds, flocks, aquatic animals and plant organisms, and machinery and equipment serving as security. When no collateral other than crops, livestock and/or livestock products and/or repayment ability as defined in § 1945.169(d) of this subpart is available as security for the loan(s), the collateral is also considered to be basic security and sales proceeds *will not* be released for any purpose unless the Farm and Home Plan for that crop year includes plans for release of the proceeds for necessary farm operating or family living expenses.

(ii) *Normal income security.* All collateral (crops, livestock, and/or livestock products) planned to be marketed in the regular course of business, except as set forth in paragraph (a)(33)(i) of this section, unless liquidation is approved. When liquidation is approved, all security, including normal income security, becomes basic security and sales proceeds *cannot* be released except as reflected in the Farm and Home Plan for that crop year.

(iii) *Additional security.* All collateral not covered by paragraphs (a)(33) (i) or (ii) of this section including: General intangibles, accounts and contract rights, which is encumbered, in addition to basic security and normal income security. Real estate and chattels can be additional security if required by loan approval conditions.

* * * * *

10. In § 1945.162, paragraphs (c)(2) and (d) are revised to read as follows:

§ 1945.162 Eligibility requirements.

* * * * *

(c) *Established farmer.* * * *

* * * * *

(2) An individual involved in a joint farming operation is not considered to be an established farmer for EM loan purposes. A joint farming operation is an operation where two or more farmers work together sharing equally or unequally land, labor, equipment, expenses and income. The joint ownership of land/or equipment or the exchange of labor and equipment in separate farming operations does not constitute a joint operation. Thus, the latter type of arrangement is not considered a joint operation, but two separate individual operations.

* * * * *

(d) *Operate in a disaster area.* An applicant for an actual loss loan must have sustained qualifying losses in an area in which the availability of EM loans for actual losses has been determined in accordance with Subpart A of Part 1945 of this chapter and must have filed an application before the expiration of the termination date. When an applicant's farming operation is located both in a designated county(ies) and a non-designated county(ies) refer to § 1945.163 (a)(2)(xvii) of this subpart.

* * * * *

11. In § 1945.163, paragraphs (a)(1), (a)(2)(i), (a)(2)(ii), and (a)(2)(iv) are revised and paragraph (a)(2)(xvii) is added to read as follows:

§ 1945.163 Determining qualifying losses, eligibility for actual loss loan(s) and the maximum amount of actual loss loan(s), annual production and major adjustment loan(s).

* * * * *

(a) *Production losses.*

(1) The normal year's production will be established by eliminating the poorest year of the 5-year production history immediately preceding the disaster year and averaging the remaining 4 years' production. The applicant *must* select the year to be eliminated. The year selected to be eliminated *must* be the same year for all farm enterprises (i.e., *all* crops, livestock, and livestock products), which constituted a part of the applicant's farming operation during that year. A State Supplement will be issued which will be used in connection with paragraph (a)(1)(iii) of this section. The State Supplement will contain average production figures provided by the USDA State Crop and Livestock Reporting Service, when available. If those records are not available, the State Supplement will contain statistical data on production from similar State or Federal bodies. When this information is available by County, county averages will be used. If available only by State, the State averages will be used throughout the State. In those States where neither a County nor State average is available for an agricultural commodity(ies), the State Director, with the advice of representatives of other Federal and State agricultural agencies, will establish County or State averages and advise County Offices of these averages in the State Supplement. State Directors and Farmer Programs Chiefs in adjoining States will consult with each other before releasing these figures. An applicant must use data from the production record source(s) in the order of priority as listed in paragraphs (a)(1)(i), (ii) and (iii) of this section. The applicant will identify, on Form FmHA 1945–22, the production record source(s) to be used in determining the normal year's production for each commodity that was produced on all farms operated by the applicant in the disaster year. The order of priority of production records that will be used is:

(i) The applicant's actual reliable farm records.

(ii) The Agriculture Stabilization and Conservation Service (ASCS) established yields. When this

production record source is used, an applicant must obtain the information from ASCS and submit it with the application to FmHA. This production record source will be used only for those commodities for which the applicant's reliable farm records were not maintained.

(iii) County or State averages. When this production record source is used, an applicant needs to provide production data for only the disaster year. The averages will be found in the State Supplement mentioned in paragraph (a)(1) of this section. This production record source will be used only for those commodities for which neither the applicant's reliable farm records nor ASCS established yields are available.

(iv) When one source of records is not available for the full 5 years preceding the disaster year combination of record sources (a)(i), (ii) and (iii) of this section as set forth above will be used.

(2) * * *

(i) In calculating production losses, the same established unit prices will be used for the disaster year and the normal year in computing the dollar value of each enterprise. Unit prices will be established in accordance with paragraph (a)(2)(iii) of this section. In the production loss calculation, those crop production yields and production per animal unit records authorized in paragraphs (a)(1)(i), (ii) and (iii) of this section will be used.

(ii) Information certified on Form FmHA 1945–22 for the disaster year for all single enterprises (as defined in § 1945.154(a)(15)(i)), which suffered a loss due to the disaster, will be transposed from Form FmHA 1945–22 to the appropriate places on Form FmHA 1945–26. The FmHA official completing Form FmHA 1945–26 is responsible for verifying loss information provided by the applicant. Information obtained from ASCS on Form FmHA 1945–29 will be cross checked with information provided by the applicant on Form FmHA 1945–22. Any discrepancies will be resolved, loss calculations adjusted if necessary, and the correct information recorded in the County Office case file. When the applicant's disaster loss is due to a reduction in *quality*, rather than due to a reduction in *quantity*, the applicant will be given credit for this by adjusting actual production yield downward. This will be accomplished by converting the dollar value of the quality loss to a percentage of yield reduction in sufficient amount to compensate for the quality loss. When such an adjustment is necessary, the basis used in making the adjustment will be the applicant's *accurate* records of production and sales receipts showing the price received and the grade of the commodity in question. This information will be well documented by the County Supervisor.

* * * * *

(iv) The amount of actual production loss will be calculated for the single enterprise which is a basic part of the farming operation (see § 1945.154(a)(15) of this subpart) by subtracting all compensatory disaster payments which are related to the disaster and which have been received or will be received; *i.e.* crop insurance indemnity payments, ASCS disaster program payments, or any other disaster compensation for that enterprise, from the gross dollar amount of production losses for that enterprise as determined in paragraph (a)(2)(iii) of the section.

* * * * *

(vi) Once eligibility is established based on production losses, the total production loss sustained by the applicant, directly attributable to the disaster, is computed by adding the gross dollar amount of production losses of *all* single enterprises, whether or not they constitute a basic part of the farming operation, and subtracting from this total all compensatory disaster payments received or to be received for those enterprises.

* * * * *

(xvii) When an applicant's farming operation(s) is conducted in a designated county(ies) and a nondesignated county(ies), eligibility will be established based on losses to a single enterprise which constitutes a basic part of the farming operation, without regard to whether the single enterprise is located in the designated county. The disaster year's *actual* yields, both in the designated and nondesignated counties, will be used to determine losses. Compensatory payments will be subtracted as explained in paragraph (a)(2)(iv) of this section when determining eligibility. The amount of the production loss loan will be limited to the production loss sustained in the designated county, *minus* compensatory payments received or to be received for that portion of the farming operation located in the designated county.

* * * * *

12. In § 1945.166 (a)(1) and (d) are revised to read:

§ 1945.166 Loan purposes.

* * * * *

(a) *Loans for actual losses.* (1) The amount of the maximum actual loss loan(s) in addition to the limitations contained in § 1945.163 (a)(2)(xvii) and (d) of this subpart, is further limited to the actual dollar loss, or the actual amount of essential family, farm, and nonfarm enterprise credit that the applicant needs to carry on normal operations, *whichever is the lesser.* Actual loss loan funds will not be used to finance a nonfarm enterprise, unless such enterprise is needed to support a reasonable standard of living for the family. The use of the loss loan funds will be identified in the farm and home plan so that a determination can be made as to whether such loan(s) were used for authorized purposes and covered all or a portion of the actual dollar loss.

* * * * *

(d) *Annual production and major adjustment loan indebtedness ceiling.* During fiscal year 1982, no such loan assistance may be made or guaranteed in an amount that would cause the combined total of unpaid principal indebtedness to exceed $500,000; and during fiscal year 1983, and all fiscal years thereafter, no such loan assistance may be made or guaranteed in any amount. The combined total of *all* EM insured and/or guaranteed major adjustment loan funds used for both Subtitle A and Subtitle B purposes which are to be secured by real estate, and which will be used for refinancing secured and/or unsecured debts, will not exceed $300,000 outstanding principal indebtedness regardless of the number of qualifying disasters. Borrowers with EM loans outstanding on December 15, 1979, may receive subsequent EM annual production loans in accordance with the provisions of paragraph (b) of this section in amounts necessary to continue their normal farming operation(s) without regard to this indebtedness ceiling.

* * * * *

13. In § 1945.167, the introductory paragraph of paragraph (a) and paragraph (e) are revised, and (i) is added to read as follows:

§ 1945.167 Loan limitations and special provisions.

(a) *Use of EM loan funds not authorized for expansion purpose(s).* EM loan funds (actual loss, annual production, and major adjustment Subtitle A and Subtitle B) *will not* be used to expand an applicant's farming, ranching, or aquaculture operation beyond that which constituted the normal predisaster operation(s). This limitation is not intended to prohibit minor changes in crop or livestock enterprises provided:

* * * * *

(e) *Subsequent EM loans.* Subsequent (additional) EM loans will be made under the provisions of this subpart, until the close of business (COB), September 30, 1982, to EM borrowers who initially became indebted for EM loans under this subpart. Effective October 1, 1982, *only those borrowers who were indebted for EM loans on December 15, 1979, and who applied for an initial annual production loan within 12 months from the disaster authorization date, may receive subsequent EM annual production loans.* Such loans will be made under the provisions of this subpart.

* * * * *

(i) *Prohibition on guaranteeing repayment of advances from other credit sources.* FmHA employees will not guarantee repayment of advances from other credit sources, either personally or on behalf of applicants, borrowers, or FmHA.

14. In § 1945.169, paragraph (f)(1) is revised to read:

§ 1945.169 Security requirements.

* * * * *

(f) *Operating purposes.*

(1) Loan funds used for annual production pruposes will be secured by a first lien on the crop(s) and/or livestock and livestock products being financed with EM loan funds, plus enough other security, including personal property, real estate, and crop insurance, to assure that the Government's financial interest will be protected. When the applicant can provide *no* security other than a first lien on the crop(s) and/or livestock and livestock products, the amount of the loan will be limited to 75 percent of the planned gross farm income as shown on Form FmHA 431–2, or as shown on another acceptable plan of operation based on normal production and prices authorized by the State Director for developing annual farm plans within the State. When an EM borrower, who is indebted for an annual operating loan which is secured by only a first lien of the crop(s) and/or livestock and livestock products, needs a subsequent EM annual production loan to complete that year's farming operation, and the loan is needed to protect the Government's investment already in the crop and/or livestock and livestock products the 75 percent gross income requirement may be waived by the State Director.

BILLING CODE 3410-07-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 82-ASW-64]

Proposed Alteration of Transition Area: Duncan, OK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Aviation Administration proposes alteration of the transition area at Duncan, OK. The intended effect of the proposed action is to privide additional controlled airspace for aircraft executing a new instrument approach procedure to Halliburton Field. This action is necessary to provide protection for aircraft executing a new standard instrument approach procedure (SIAP) using the back course of the ILS localizer to Runway 17.

DATE: Comments must be received on or before October 25, 1982.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Airspace, and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8 a.m. and 4:30 p.m. The FAA Rules Docket is located in the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, TX.

FOR FURTHER INFORMATION CONTACT: Kenneth L. Stephenson, Airspace and Procedures Branch, ASW–535, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101; telephone: (817) 624–4911, extension 302.

SUPPLEMENTARY INFORMATION:

History

Federal Aviation Regulation Part 71, Subpart G 71.181 as republished in Advisory Circular AC 70–3 dated January 29, 1982, contains the description of transition areas designated to provide controlled airspace for the benefit of aircraft conducting instrument flight rules (IFR) activity. Alteration of the transition area at Duncan, OK, will necessitate an amendment to this subpart. This amendment will be required at Duncan, OK, since there is a proposed change in IFR procedures to Halliburton Field.

Comments Invited

Interested persons are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposals. (Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposals.) Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 82–ASW–64." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposals contained in this notice may be change in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Manager, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101, or by calling (817) 624–4911, extension 302. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should contact the office listed above.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zones, Transition areas.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the FAA proposes to

amend 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Duncan, Ok [Amended]

That airspace extending upward from 700 feet above the surface within an 8.5–mile radius of Halliburton Field (latitude 34°26'20" N., longitude 97°57'34" W.) and within 5 miles each side of a 350° bearing from the airport, extending from the 8.5–mile radius area to 17.5 miles north of the airport; and within 2 miles each side of the Duncan VOR 155° radial extending from the 8.5–mile radius area to 7 miles southeast of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.61(c).)

Note.—The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Fort Worth, TX, on September 13, 1982.

F. E. Whitfield,

Acting Director, Southwest Region.

14 CFR Part 71

[Airspace Docket No. 82–ANE–33]

Proposed Amendment to the Description of the Sanford, Maine, 700-Foot Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice (NPRM) proposes to amend the Sanford, Maine, 700-foot transition area to provide additional airspace protection for aircraft executing a Very High Frequency Omni Range (VOR) original Standard Instrument Approach Procedure (SIAP). This amendment is needed to provide controlled airspace for aircraft executing an approach to land at Sanford Municipal Airport, Sanford, Maine.

DATE: Comments must be on or before October 30, 1982.

ADDRESSES: Send comments in triplicate to: Manager, Operations, Procedures and Airspace Branch, ANE–530, New England Region, Federal Aviation Administration, Air Traffic Division, 12 New England Executive Park, Burlington, Massachusetts 01803. The docket may be examined at the following location: Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: David Hurley, Operations, Procedures and Airspace Branch, ANE–530, Federal Aviation Administration, Air Traffic Division, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273–7285.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking process by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the New England Region, Attention: Manager, Operations, Procedures and Airspace Branch, ANE–530, Air Traffic Division, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received on or about October 30, 1982, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this amendment to a Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426–8065. Communications must identify the number of this NPRM.

Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11–2 which describes the application procedures.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition area.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations [14 CFR Part 71] to amend the 700–foot transition area at Sanford Municipal Airport, Sanford, Maine. This action will provide additional controlled airspace protection for aircraft executing the VOR original SIAP.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Section 71.181 of the Federal Aviation Regulations [14 CFR Part 71] as follows:

Sanford, Maine

Add to existing text: "and within 3.5 miles each side of the Kennebunk, Maine VOR 243° radial, extending from the 7-mile radius arc a to 24.5 miles SW of the VOR; excluding the portion within the Portsmouth, New Hampshire (Pease AFB) transition area."

(Secs. 307(a) of the Federal Aviation Act of 1958 [49 U.S.C. 1348(a); Sec 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c); Sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61)].

Note.—The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, it is certified that this (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) if promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Burlington, Massachusetts, on September 13, 1982.

Robert E. Whittington,

Director, New England Region.

[FR Doc. 82-26170 Filed 9-22-82; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 82–ANE–23]

Proposed Amendment to Description of Block Island, Rhode Island Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Amendment to Notice of proposed rulemaking.

SUMMARY: On June 24, 1982, a Notice of proposed rulemaking (NPRM) was published in the **Federal Register** which proposed to amend the Block Island, Rhode Island, 700-foot transition area to provide additional airspace protection

for aircraft executing the proposed Very High Frequency Omni Range (VOR) Runway 28 original Standard Instrument Approach Procedure (SIAP) at Block Island State Airport, Block Island, Rhode Island. The proposed amendment, however, provided insufficient airspace. Accordingly, the Notice of proposed rulemaking is being amended to further increase the size of the transition area.

DATE: Comments must be on or before October 30, 1982.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Operations, Procedures and Airspace Branch, ANE–530, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803. The docket may be examined at the following location: Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: David Hurley, Operations, Procedures and Airspace Branch, ANE–530, Federal Aviation Administration, Air Traffic Division, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273–7285.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking process by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Chief, ANE–530, Operations, Procedures and Airspace Branch, ANE–530, Air Traffic Division, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received on or about October 30, 1982, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this amendment to a Notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426–8065. Communications must identify the number of this NPRM.

Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11–2 which describes the application procedures.

The Amended Proposal

On June 24, 1982 (47 FR 27373), a Notice of proposed rulemaking (NPRM) was published in the Federal Register which proposed to amend the Block Island, Rhode Island, 700-foot transition area to provide additional airspace protection for aircraft executing the proposed VOR for Runway 28 SIAP at Block Island State Airport, Rhode Island. The FAA Flight Inspection Field Office has since revised the VOR Runway 28 SIAP to accommodate a greater variety of aircraft, while at the same time providing lower minimum altitudes. This revision does, however, require additional airspace protection for aircraft executing subject approach. Accordingly, the Notice of proposed rulemaking is being amended to further increase the size of the transition area.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition area.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Section 71.181 of the Federal Aviation Regulations [14 CFR Part 71] by amending the 700-foot transition area at Block Island State Airport, Block Island, Rhode Island, as follows:

Block Island, Rhode Island

Delete: "within a 5 mile radius."
Insert in lieu thereof: "within a 8.5 mile radius."

(Sec. 307(a) of the Federal Aviation Act of 1958 [49 USC 1348(a); sec. 6(c) of the Department of Transportation Act (49 USC 1655(c); sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61))

Note.— The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, it is certified that this (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) if promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Burlington, Massachusetts, on September 13, 1982.

Robert E. Whittington,
Director, New England Region.

14 CFR Part 71

[Airspace Docket No. 82-ASW-53]

Proposed Designation of Transition Area: Caldwell, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Aviation Administration proposes to designate a transition area at Caldwell, TX. The intended effect of the proposed action is to provide controlled airspace for aircraft executing a new instrument approach procedure to the Caldwell Municipal Airport. This action is necessary to provide protection for aircraft executing a standard instrument approach procedure (SIAP) using the College Station VORTAC. Coincident with this proposed action, the airport is changed from visual flight rules (VFR) to instrument flight rules (IFR).

DATE: Comments must be received on or before October 22, 1982.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8 a.m. and 4:30 p.m. The FAA Rules Docket is located in the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, TX.

FOR FURTHER INFORMATION CONTACT: Kenneth L. Stephenson, Airspace and Procedures Branch, ASW–535, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101; telephone: (817) 624–4911, extension 302.

SUPPLEMENTARY INFORMATION:

History

Federal Aviation Regulation Part 71, Subpart G 71.181 as republished in Advisory Circular AC 70–3 dated January 29, 1982, contains the description of transition areas designated to provide controlled airspace for the benefit of aircraft conducting instrument flight rules (IFR)

activity. Designation of the transition area at Caldwell, TX, will necessitate an amendment to this subpart. This amendment will be required at Caldwell, TX, since there is a proposed change in IFR procedures to the Caldwell Municipal Airport.

Comments Invited

Interested persons are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposals. (Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposals.) Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 82–ASW–63." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Manager, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101, or by calling (817) 624–4911, extension 302. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should contact the office listed above.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zones, Transition areas.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the FAA proposes to amend 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Caldwell, TX [New]

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Caldwell Municipal Airport (latitude 30°31'12" N., longitude 96°42'13" W).

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.61(c))

Note.—The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Fort Worth, TX, on September 13, 1982.

F. E. Whitfield,

Acting Director, Southwest Region.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM79–76–069 (Louisiana—3 Addition) et al.]

High-Cost Gas Produced From Tight Formations; Louisiana; Public Hearing

September 17, 1982.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of hearing on proposed rules.

SUMMARY: On August 6, 1982, the Director of the Office of Pipeline and Producer Regulation of the Federal Energy Regulatory Commission issued a Notice of Proposed Rulemaking in Docket No. RM79–76–069 (Louisiana—3 Addition), (47 FR 35232, August 13, 1982)) on the recommendation of the Louisiana Office of Conservation that the Cotton Valley Group be designated as a tight formation under § 271.703 of the Commission's regulations (18 CFR 271.703).

The commission has received several requests in response to this Notice of Proposed Rulemaking that a public hearing be held at which time interested parties may present their comments, views, arguments and data concerning the recommendation made by the Louisiana Office of Conservation that the Cotton Valley Group be designated as a tight formation. The Commission agrees that a public hearing should be held in this rulemaking. The parties seeking the hearing have indicated that the hearing is needed to specifically address the issues raised in conjunction with the methodologies used to calculate permeability and flow rate values for recommended formations under the guidelines found in § 271.703 (c)(2)(i).

Because the issues raised in this proceeding are raised as well in several other cases currently pending before the Commission, these cases will be consolidated for the purposes of this hearing, and persons interested in any of the following cases are invited to present their views at the hearing scheduled below. The following cases are consolidated for the purpose of holding a public hearing: Docket No. RM79–76–069 (Louisiana—3 Addition); Docket No. RM79–76–136 (Utah—5); Docket No. RM79–76–090 (Texas—9 Addition II); Docket No. RM79–76–091 (Texas—10 Addition); Docket No. RM79–76–093 (Texas—18); Docket No. RM79–76–094 (Texas—19); Docket No. RM79–76–101 (Colorado—23); Docket No. RM79–76–130 (Colorado—28); Docket No. RM79–76–098 (Montana—1). Persons desiring to participate in such hearing are requested to follow the procedures stipulated herein.

DATES: The public hearing will be held on Thursday, October 14, 1982, at 10:00 a.m. Requests to participate and amount of time requested should be directed to the Secretary of the Commission no later than October 1, 1982.

ADDRESS: The hearing will be held in a hearing room at the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

Requests to participate and questions regarding participation should be directed to the Office of the Secretary, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8511.

SUPPLEMENTARY INFORMATION: In the Notice of Proposed Rulemaking issued on August 6, 1982, in Docket No. RM79–76–069 (Louisiana—3 Addition), the

Director of the Office of Pipeline and Producer Regulation noted that although the Louisiana Office of Conservation had submitted to the Commission its original recommendation for the Cotton Valley Group based on geometric means or median permeability and flow rate values, the Louisiana Office of Conservation had amended its recommendation so that based on the average permeability and flow rate values for such formation, it satisfied the Commission's guidelines for designation found in § 271.703(c)(2)(i). The Louisiana Office of Conservation stated in its amended recommendation that it still believes that the median method of calculating permeability and flow rate is a proper method for estimating reservoir performance and therefore should be acceptable to the Commission, to demonstrate compliance with the guidelines.

Persons requesting a public hearing in this matter have cited the issue concerning the proper method of determining flow rate and permeability values as the issue on which they felt a public hearing was needed. Since the issue of the proper methodology is also raised in several other tight formation recommendations which the commission has received from other jurisdictional agencies, the Commission believes that the public interest would best be served by holding a hearing in which all these cases are consolidated. This will enable all persons who are interested in pending tight formation cases concerning the proper methodology for calculating premeability and flow rate values to present their views on the issue. The Commission will then be in the position to resolve the issue in all such cases, having developed a record on the issue.

The public hearing will not be of a judicial or evidentiary type. There will be no cross-examination of persons presenting statements. However, the panel may question such persons and any interested persons may submit to the presiding officer questions to be asked of persons making statements. The presiding officer will determine whether the questing is relevant and time limitations permit it to be presented. Any further procedural rules will be announced by the presiding officer at the hearing. Transcripts of the hearing will be available in the public file for this proceeding, Docket No. RM79-76-089 (Louisiana—3 Addition) *et al.*, in the Commission's Office of Public Information and may be ordered from that office.

Requests to participate in the hearing should be submitted by September 30, 1982, to the Office of the Secretary, and should request the amount of time required for the oral presentation. Persons participating at the hearing should, if possible, bring 50 copies of their testimony to the hearing. A list of the participants in the hearing will be available in the Commission's Office of Public Information and at the hearing room on the morning the hearing is convened.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 115

[CGD 81-057]

General Bridge Permit Program Regulations

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The proposed rules would establish a program for the issuance of General Bridge Permits. Presently, an individual permit is issued for the construction, reconstruction or modification of each bridge across navigable waters of the United States after a detailed review of the impact on navigation and the environment. The proposed procedures would permit bridges having common characteristics to be evaluated as a group. Thereafter, individual bridges could be authorized by simply verifying that they met the criteria of a General Bridge Permit. This would eliminate significant delay in many instances, thereby reducing costs for the public and the government.

DATE: Comments must be received on or before November 22, 1982.

ADDRESSES: Comments should be mailed to Commandant, G-CMC/44, 2100 Second St., SW, Rm 4402, Washington, D.C. 20593. The comments will be available for inspection and copying at that address. Normal office hours are between 8 a.m. and 4 p.m., Monday through Friday. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Jerome D. Schwartz, Project Manager, Bridge Permits Branch, G-NBR/24, 2100 Second St., SW, Room 2418, Washington, DC 20593. Telephone number (202) 755-7820.

SUPPLEMENTARY INFORMATION:

The public is invited to participate in this rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, the proposal to which their comments apply (CGD 81-057) and give reasons for each comment. If acknowledgement is desired, a stamped self-addressed post card should be enclosed.

The proposed rules may be changed in view of comments received. All comments received on or before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

Drafting Information

The principal persons involved in drafting this notice are Jerome D. Schwartz, Project Manager, Bridge Permits Branch, Bridge Administration Division, Office of Navigation, G-NBR/24, 2100 Second St., SW, Room 2418, Washington, DC 20593 and Michael Tagg, Project Counsel, Office of the Chief Counsel.

Discussion of the Proposed Regulations

These regulations will establish a General Bridge Permit program for the Coast Guard. The program is designed to establish a "fast track" method for the authorization of bridges of similar design over a waterway or an area of many waterways. The current program requires the authorization of each individual bridge over waterways in the same region, despite similiarity of design and siting. The proposed General Bridge Permit will grant authority for the construction, reconstruction, or modification of a specific category of bridges across waterways in a defined region subject to conditions which protect navigation and the environment. This will result in a shift of focus from specific bridges to similar bridge structures in a region with respect to navigational and environmental aspects. It is a movement away from a review of detailed construction plans, towards a review of criteria for work under a General Bridge Permit.

General permits of the type envisioned by this rulemaking have been used sucessfully in other permit programs administered by federal agencies. For many years the U.S. Army Corps of Engineers has issued general permits for a variety of structures and dredge and fill work in the waterways of many different regions of the United States. The U.S. Geological Survey and the Bureau of Land Management, in a

joint effort, have general permits in effect for outer continental shelf oil and gas development structures. General permits for certain industrial pollutant discharges are presently under development by the Environmental Protection Agency.

The common characteristics of bridges or other structures which may be covered by a General Bridge Permit may include: the type of bridge or structure; the nature of the waterway to be crossed; the geographic area in which the bridges will be built; or other common features. Suggested categories of General Bridge Permits may be submitted to the Commandant or any District Commander. Proposed General Bridge Permits will normally be initiated by the District Comander of the district in which the construction will take place or which will be primarily impacted by the anticipated construction. Notice of a proposed General Bridge Permit will be published in the Federal Register and opportunity given for public comment. In appropriate cases, public hearings may be held. The decision to issue or deny a particular General Bridge Permit will be made by the Commandant subsequent to review of the record submitted by the District Commander. The Commandant will conduct a navigational and environmental review and analysis of the record prior to taking final agency action. If a General Bridge Permit proposal is found not to provide for the reasonable needs of navigation with minimal environmental impact, a General Bridge Permit will not be issued. If a General Bridge Permit proposal is found to provide for the reasonable needs of navigation with minimal environmental impact, a General Bridge Permit containing appropriate criteria and permit conditions will be issued. The permit will be published in the Federal Register and become effective immediately.

When an application is made for an individual bridge permit, the Coast Guard will conduct a search to determine if the bridge application proposal falls within an existing General Bridge Permit. If it does, authorization is granted for the construction to commence. If it does not, the District Commander may propose a new General Bridge Permit or process the applicant's request for an individual bridge permit.

Authorization to construct a bridge project under a General Bridge Permit will not relieve the permittee of the obligation or responsibility to obtain any other Federal, State or local approvals required to construct a project, nor will it allow a permittee to ignore the provisions of such approvals.

Certain standard criteria are specified in the proposed regulations which will apply to all bridges to be constructed, reconstructed or modified under the authority of General Bridge Permits. Basically, the standard criteria require that the bridge project provide for the reasonable needs of present and prospective navigation and have no significant effect on wetlands, historic and archeological properties, parklands, the National Wild and Scenic River System, floodplains, barrier islands or endangered species.

General Bridge Permits will also contain specific conditions to ensure that the bridge will provide for the reasonable needs of present and prospective navigation with minimal effect on the quality of the human environment. Only those project categories determined by the Coast Guard to be categorically excluded from the National Environmental Policy Act (NEPA) will qualify to be considered for General Bridge Permits. Under this program no bridge project may be authorized for construction under a General Bridge Permit unless it is covered by a water quality certification and coastal zone management consistency certification and the state's concurrence, as appropriate.

Water Quality Certification: Section 401(a)(1) of the Federal Water Pollution Control Act (33 U.S.C. 1341(a)(1)) provides that bridge permits will not be issued until the state in which the bridge construction work will occur has certified that the construction and operation of the bridge will comply with applicable provisions of that Act. A certification waiver procedure is also provided by Section 401. States will be requested to exercise their certification authority at the time a specific General Bridge Permit is proposed or to indicate that this authority will be waived. This will eliminate later delays when the General Bridge Permit is finalized and a permittee applies for approval from the Coast Guard to proceed with construction work under a General Bridge Permit. A General Bridge Permit will contain special conditions of certification, if any, and list those states which have not granted their certification or waiver. If prospective permittees desire to perform bridge construction work in a state which has not granted a certification or waiver for the General Bridge Permit, they must receive certification or waiver on a project-by-project basis before construction may be authorized. The Coast Guard solicits comments on this certification procedure, particularly from state agencies responsible for water quality certification. Public comment on this issue will also be welcomed.

Coastal Zone Management Consistency Certification: Section 307(c) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1456 (c)) requires non-Federal applicants for permits affecting state coastal zones to certify that the proposed activity will comply with the state's approved coastal zone management program. States will be requested to exercise their authority for concurrence in that certification at the time a specific General Bridge Permit is proposed. This will eliminate later days when the permit is finalized and a permittee expects to receive approval from the Coast Guard to proceed with construction under a General Bridge Permit. A General Bridge Permit document will contain any special conditions of the state's concurrence and list those states which require consistency certification on a project-by-project basis. The Coast Guard solicits comments on this certification procedure, particularly from state agencies responsible for coastal zone management plans. Public comment on this issue will also be welcomed.

Evaluation

The review procedure for issuance of a General Bridge Permit will enhance the environmental evaluation for applicable bridge projects. Before individual permits are issued, the investigation is concentrated on the specific or cumulative effect of a single proposed project in an area rather than the cumulative effects of a number of projects in a region. Through consideration of the cumulative effects of several similar bridge projects before a General Bridge Permit is issued, segmented review and adverse impacts will be minimized.

Issuance of General Bridge Permits will improve the efficiency of the Coast Guard Bridge Administration Program by reducing the backlog of individual bridge permit applications, allowing for additional attention to be directed toward major bridge proposals, and by reducing the paperwork burden. An intensive analysis of Coast Guard bridge permit files from 1978 through September 1981 indicates that similar projects which would qualify categorically for a General Bridge Permit have historically had minimal environmental and navigational impacts. Therefore, individual in-depth environmental and navigational evaluation could have been dispensed with. For example, of the 181 individual

bridge permits issued by the Coast Guard in fiscal year 1981, at least 15 of these, pedestrian bridges, could have been constructed without delay under the authority of just one General Bridge Permit had these proposed regulations been in effect. Ultimately, one-third of the bridges that would otherwise be permitted individually each year could be constructed under the authority of a small number of General Bridge Permits through this proposed General Bridge Permit Program. Coast Guard review of each particular proposed bridge project merely would be to ascertain that the location and design of the proposal qualifies under the standard criteria and bridge project category of a specific General Bridge Permit, and ensure that the permittee is aware of the General Bridge Permit conditions. The resultant reduction in permit paperwork processing is one of the objectives of the Administration in its efforts to reform the regulatory system.

Construction costs will be reduced because of the elimination of delays incurred during processing of an individual bridge permit, which ordinarily takes approximately one year. It is difficult to quantify the savings, due to uncertainty as to the number and types of bridges that might be built under the General Bridge Permit program, however, the percentage savings will coincidentally be equal to the inflation rate experienced by the general construction industry (12%). Based on the 181 bridge permits issued in fiscal year 1981, the estimated savings would have been $24,000 for each bridge.

An Environmental Assessment of this proposed rulemaking has been prepared which includes a discussion of the environmental impacts of the standard criteria. The Environmental Assessment is available for examination at the above address. This assessment indicates that the proposed regulations will not significantly affect the environment. It is anticipated that a Finding of No Significant Impact (FONSI) will be issued in accordance with Coast Guard procedures under the National Environmental Policy Act of 1969.

These proposed regulations have been reviewed under the provisions of E.O. 12291 and have been determined not to be a major rule and are considered to be nonsignificant in accordance with guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5 of 5–22–80). The economic impact of these proposed rules will be beneficial, e.g., reduce costs and delays. However, it is certified in accordance with § 605(b) of the Regulatory Flexibility Act (94 Stat. 1164) that these rules, if promulgated, will not have a significant economic impact on a substantial number of small entities. This is because very few small entities build bridges across navigable waters of the United States.

We are having difficulty in making an assessment of the number of people affected by this proposed rulemaking under the Paperwork Reduction Act and Executive Order 12291. We are especially interested in receiving comments on the information collection or reporting requirements of the proposed rulemaking.

List of Subjects in 33 CFR Part 115

Administrative practice and procedure, Bridges.

Proposed Regulations

In consideration of the foregoing, the Coast Guard proposes to amend Part 115 of Title 33, Code of Federal Regulations, as follows:

PART 115—BRIDGE LOCATIONS AND CLEARANCES; ADMINISTRATIVE PROCEDURES

The authority citation for Part 115 is revised to read as follows:

Authority: c. 425, sec. 9, 30 Stat. 1151 (33 U.S.C. 401); c. 1130, sec. 1, 34 Stat. 84 (33 U.S.C. 491); sec. 5, 28 Stat. 362, as amended (33 U.S.C. 499); sec. 11, 54 Stat. 501, as amended (33 U.S.C. 521); c. 753, Title V, sec. 502, 60 Stat. 847, as amended (33 U.S.C. 525); 86 Stat. 732 (33 U.S.C. 535); 14 U.S.C. 633; sec. g(6), 80 Stat. 941 (49 U.S.C. 1655(g)); 49 CFR 1.46(c).

Subpart A [Heading Added]

2. By inserting "Subpart A—Individual Bridge Permits" before § 115.01.

3. By adding Subpart B as follows:

* * * * *

Subpart B—General Bridge Permits

Sec.

115.80 General Bridge Permits.
115.85 Procedures for issuing permits.
115.90 Standard and special criteria for bridges under a General Bridge Permit.
115.95 Authorization to proceed under a General Bridge Permit.
115.100 Revocation or withdrawal of General Bridge Permits and authorization to proceed.

Subpart B—General Bridge Permits.

§ 115.80 General Bridge Permits.

(a) A General Bridge Permit is a permit issued by the Commandant for a category of bridge structure or construction work in a specific region of the United States or nationwide. The permit will be issued when the structures or work to be performed are substantially similar and would cause no more than a minimal individual and cumulative environmental impact. The permits issued through this program apply to routine and obvious actions which satisfy the conditions of a categorical exclusion as described in Commandant Instruction M16475.1A which is based upon the requirements set forth in the National Environmental Policy Act of 1969, as amended (Pub. L. 91–190) as implemented by the Council on Environmental Quality (CEQ) regulations (40 CFR Parts 1500–1506).

(b) A General Bridge Permit for any region of the United States may be issued by the Commandant after notice and opportunity for public participation have been provided. The permit will include standard and special criteria and conditions which apply to minimum horizontal and vertical clearances, any necessary environmental protective measures, the effective time limits, and any other requirements necessary to comply with the bridge statutes and environmental control laws.

(c) A General Bridge Permit is reevaluated five years after the date of issuance. The permit may be extended by the Commandant provided the permit criteria continue to be met.

(d) The definitions found in § 114.05 of this chapter apply to this subpart.

§ 115.85 Procedures for issuing permits.

(a) A General Bridge Permit may be proposed by any District Commander having responsibility for one or more of the bridges to be covered by the permit. If the permit is limited to proposed bridge construction work in that district, the District Commander is responsible for developing the permit record. If the permit would cover proposed bridge construction work in more than one district, the Commandant designates the official who will have primary responsibility for developing the permit record or assumes this responsibility.

(b) Notice of the proposed General Bridge Permit is published in the **Federal Register** and disseminated by other means in the district or districts most affected. In appropriate cases, public hearings may be held. The permit record includes the findings of fact made by the responsible official, necessary environmental documentation and evaluation, all public comments, and transcripts of any public hearings.

(c) The following criteria are considered in the evaluation of every proposal for the establishment of a General Bridge Permit:

(1) The likelihood that the proposed permit will be utilized.

(2) The potential cumulative environmental impacts created by the bridge projects which could be constructed under the proposed permit.

(3) The necessity that the proposed category of bridges provides for the reasonable needs of present and prospective navigation.

(d) Upon completion of the permit record, the responsible official prepares conclusions and recommendations and submits the record to the Commandant for final action.

(e) The Commandant conducts a navigational and environmental review of the permit record prior to taking final action. If the proposed General Bridge Permit is found to provide for reasonable needs of navigation with not more than a minimal environmental impact, a permit containing appropriate standard and special criteria and conditions is issued.

(f) The issuance or denial of a General Bridge Permit is published in the **Federal Register**. A permit is effective upon publication.

§ 115.90 Standard and special criteria for bridges under a General Bridge Permit.

(a) The following standard criteria describe the basic characteristics of any bridge construction project which may be authorized under a specific General Bridge Permit.

(1) The bridge must provide for the reasonable needs of present and prospective navigation.

(2) The bridge must not interfere with any Federal navigation or flood control project.

(3) The bridge must have no significant effect on flood heights and associated drift.

(4) The bridge must not relocate the stream or riverbed channel.

(5) The bridge must not be located across wetlands if the District Commander determines that there is a feasible and prudent alternative location for the proposed bridge construction work, the following apply:

(i) A bridge may be located across tidal wetlands provided the proposed design and construction does not require dredging or the placement of fill material in the waterbody or wetlands.

(ii) A bridge may be located across non-tidal wetlands provided that the bridge structure will pass the 100 year flood and that dredging or the placement of fill into any wetlands adjacent to the waterbody does not extend beyond 100 feet on either side of the ordinary high water mark of that waterbody. Bridge projects which incorporate a maximum of 200 cubic yards of fill below the ordinary high water mark may be constructed, reconstructed, or modified across non-tidal wetlands provided the District Commander determines that the fill will not have a significant environmental impact on the wetlands.

(6) The bridge must not be located within one-half mile of any property eligible to be, proposed to be, or listed in the National Register of Historic Places (16 CFR Part 60).

(7) The bridge must not be located within one-half mile of any property protected under Section 4(f) of the Department of Transportation Act (49 U.S.C. 1653) unless it is to be used solely for park purposes and will not promote development of any type within the area protected under Section 4(f).

(8) The bridge must not be located in or over, or affect any federally, listed established or prospective component of the National Wild and Scenic River System under 16 U.S.C. 1274 and 1276.

(9) The bridge must not cause a significant encroachment within the base floodplain, or increase the probability of loss of human life, lead to the interruption or loss of a vital transportation link, or adversely affect the beneficial values of the floodplain.

(10) The bridge must not be located on or provide access to a barrier island.

(11) The bridge must not be located within the critical habitat of any federally listed endangered or threatened species.

(b) In addition to the standard criteria in paragraph (a) of this section, a General Bridge Permit contains special criteria specifying:

(1) The maximum quantity of fill material that is authorized for bridge construction work;

(2) A description of the category of bridge construction, reconstruction or modification;

(3) The characteristics of the waterway(s) in which construction, reconstruction or modification may occur; and

(4) Any other limitation deemed appropriate by the Commandant.

§ 115.95 Authorization to proceed under a General Bridge Permit.

(a) Prior to the commencement of any bridge construction work which may be covered by an existing General Bridge Permit, the appropriate District Commander determines that the project meets the standard and special criteria of the General Bridge Permit. The builder or owner of the proposed project must request authorization to proceed from the District Commander. The request must contain the following:

(1) The name and address of the bridge builder and owner.

(2) A vicinity map which shows the waterway and location of the proposed bridge project. The vicinity map submitted for the authorization must be of letter size and of good reproducible quality. It shall have a simple title and date in the lower right hand corner, a graphic scale, and north arrow. It shall identify the entire work site showing the distance to the nearest town, community, or other identifying location, and the latitude and longitude, if known. The course of the waterway shall be shown and any structures crossing the waterway within one-half mile of the proposed structure shall be identified. The location of any historic sites, wetlands, public parks, recreation areas, or wildlife or waterfowl refuges shall be shown.

(3) The plans of the proposed bridge project, in letter size and of good producible quality.

(b) Upon receipt of a request for authorization to proceed, the District Commander reviews the authority for the bridge project under a particular General Bridge Permit.

(1) No bridge construction work will be authorized unless certification or waiver under 33 U.S.C. 1341 is received from the appropriate water pollution control agency.

(2) No bridge construction work will be authorized unless certification and concurrence or waiver under 16 U.S.C. 1456 is received indicating that the proposed construction, reconstruction or modification, and the operation and maintenance of the bridge complies with a state's Federally approved coastal zone management program.

(3) If the proposed project qualifies, the Distict Commander issues authorization to proceed accompanied by a copy of the applicable General Bridge Permit.

(c) If the District Commander determines that the proposed bridge project does not qualify under an existing General Bridge Permit and denies authorization to proceed, the builder or owner may appeal as provided in § 114.50 of this chapter.

(d) A bridge builder or owner who is denied authorization to proceed under a General Bridge Permit may apply for an individual permit as provided by § 115.50.

§ 115.100 Revocation or withdrawal of General Bridge Permits and authorization to proceed.

(a) Authorization to proceed under a General Bridge Permit may be revoked by the cognizant District Commander when that person determines that the builder or owner fails to comply with

any of the conditions of the General Bridge Permit or authorization, or that the bridge structure constitutes an unreasonable obstruction to navigation of Federal flood control programs. The bridge builder or owner may appeal the action of the District Commander under § 114.50 of this chapter.

(b) The Commandant may withdraw a General Bridge Permit when the character of navigation, environmental quality, or other circumstances warrant. Withdrawal action is taken only after notice and opportunity to comment is given by publication in the **Federal Register.**

Dated September 16, 1982.

R. A. Bauman,

Rear Admiral, U.S. Coast Guard Chief, Office of Navigation.

33 CFR Part 175

[CGD 82-073]

Visual Distress Signal Equipment Requirements

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to amend its regulation governing the carriage of visual distress signals on boats. Members of the boating public have expressed considerable confusion over language in the present regulation that identifies the waters on which they are required. The visual distress regulations are being rewritten to define more clearly where the signals are required.

DATE: Comments must be received prior to November 8, 1982.

ADDRESSES: Comments should be mailed to Commandant (G-CMC), U.S. Coast Guard, Washington, D.C. 20593. The comments will be available for inspection and copying at the Marine Safety Council, Room 4402, 2100 2nd Street S.W., Washington, D.C. Normal office hours are between 9:00 A.M. and 4:00 P.M., Monday through Friday. Comments may also be hand delivered to this address.

FOR FURTHER INFORMATION CONTACT: Mr. William Sobeck, Office of Boating, Public and Consumer Affairs (G-BEL), U.S. Coast Guard Headquarters, Washington, D.C. 20593, (202) 426-4176.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their names and the proposal to which the comments apply, and give the reasons for each comment. Receipt of comments will be acknowledged if a stamped self-addressed postcard or envelope is enclosed.

The rules may be changed in light of the comments received. All comments received before the expiration date of the comment period will be considered before final action is taken on this proposal. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

Discussion of Proposed Rule

The Coast Guard published final rules on the carriage of visual distress signals on boats on December 17, 1979 (44 FR 73024). The intent of that rule is to require carriage of visual distress signals on boats subject to the jurisdiction of the United States when used on the high seas, the territorial seas of the United States, and the U.S. waters of the Great Lakes. It also applies to waters which share key characteristics of the open seas or the Great Lakes (e.g., high probability of unconfined search areas for a boat in distress). It was not, however, intended to include restricted or otherwise confined waters where a boater in distress would normally be able to attract the attention of others nearby. In summary, if a boat in distress must pass within a mile of the shore before entering unconfined waters, the occupants have reasonable opportunity of attracting attention without special distress signals.

Existing demarcation lines, such as those used for navigational Rules of the Road, were not chosen since they do not satisfactorily discriminate between waters which are relatively confined and waters which are not.

Since publication of those rules the Coast Guard has received numerous inquiries on the definition of coastal waters. Confusion exists regarding the requirement in waters which, although named "bays" or "sounds," do not appear to meet the intent of the rules. The intent was not to include small bodies of water or restricted, even though large, bodies of water other than the five Great Lakes.

This change seeks to establish a definition not dependent on the size or name a body of water has been given, and to clearly delimit those areas where visual distress signals are *most* needed. By using the words "waters" in the current proposed definition of "coastal waters," the interpretation of the applicability of the regulation can be shifted away from the artifice of the name of the water toward that of the potential need to use the required signals. Likewise, in describing a two mile wide entrance into a body of water, the words "any distance" allows the distance between shorelines, including those of charted islands, to delimit the carriage requirements.

An example of waters on which visual distress signals may be required is Mobile Bay, whose entrance between Dauphin Island and Mobile Point (2.8 nautical miles) exceeds two miles. An example of water on which visual distress signals will not be required is Tampa Bay, whose largest entrance (Southwest Channel) is 1.4 nautical miles between Egmont Key and Passage Key.

In practice, these do not differ from the current enforcement interpretation, although it is hoped that the reasoning may now be more readily understood.

Regulatory Evaluation

An economic evaluation has not been conducted, since the impact is expected to be minimal. No new costs will be imposed on the boating public or the manufacturers of visual distress signals. To the extent that a person may have interpreted the existing regulations to require the devices in restricted waters, there may be some slight savings.

These proposed regulations have been reviewed under the provisions of Executive Order 12291 and have been determined to be a nonmajor rule. In addition, the proposed regulations are considered to be nonsignificant in accordance with the guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5 of May 22, 1980). In accordance with Section 605(b) of the Regulatory Flexibility Act (94 Stat. 1164) it is certified that these rules, if promulgated, will not have a significant economic impact on a substantial number of small entities.

DRAFTING INFORMATION: The principal persons involved in drafting this rule are William B. Sobeck, Project Manager, Office of Boating, Public and Consumer Affairs, and Lieutenant Walter Brudzinski, Project Attorney, Office of the Chief Counsel.

List of Subjects in 33 CFR Part 175

Marine safety.

PART 175—EQUIPMENT REQUIREMENTS

Proposed Regulations

In consideration of the foregoing, the Coast Guard proposes to amend Part 175 of Title 33, Code of Federal Regulations as set forth below.

1. The authority citation for Part 175 is revised to read as follows:

Authority: Secs. 5 and 39, 85 Stat. 215, 228 (46 U.S.C. 1454, 1488); 49 CFR 1.46(n)(1).

2. Part 175 is amended by revising § 175.105(b) to read as follows:

§ 175.105 Definitions.

* * * * *

(b) "Coastal waters" means:

(1) The U.S. waters of the Great Lakes (Lake Erie, Huron, Michigan, Ontario, and Superior);

(2) The territorial seas of the United States; and

(3) Those waters directly connected to the Great Lakes and territorial seas (i.e. bays, sounds, harbors, rivers, inlets, etc.), where any entrance exceeds 2 nautical miles between opposite shorelines to the first point where the largest distance between shorelines narrows to 2 miles as shown on the current edition of the appropriate National Ocean Survey chart used for navigation. Shorelines of islands or points of land present within a waterway are considered when determining the distance between opposite shorelines.

Dated: September 17, 1982.

H. W. Parker,

Chief, Office of Boating, Public and Consumer Affairs.

[CGD 81-092]

Electrical and Fuel System Standards; Miscellaneous Amendments

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: This notice proposes miscellaneous amendments to the Electrical and Fuel Systems Standards in Subparts I and J of Part 183 that apply to boats having gasoline powered engines for propulsion or electrical generation. The Coast Guard undertook a review of its regulations governing construction standards which apply to the manufacture of recreational boats in an effort to reduce the burden of existing regulations, while insuring that well reasoned regulations were retained. Based upon the review effort, many sections have been determined to be no longer necessary, or are of limited value in terms of their impact toward improving boating safety. Therefore, these proposed amendments would repeal and revise the unnecessary regulations to relieve the regulatory burden recreational boat manufacturers. A proposed change to § 183.460(a) would increase the regulatory standards.

DATES: Comments must be received on or before December 22, 1982.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/44), (CGD 81-092), U.S. Guard, Washington, D.C. 20593. Comments will available for examination at the Marine Safety Council (G-CMC/44), Room 4402, U.S. Coast Guard Headquarters, 2100 Second Street S.W., Washington, D.C. 20593, between 8 am and 4 pm, Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Alston Colihan, Office of Boating, Public, and Consumer Affairs (G-BBT/42), U.S. Coast Guard Headquarters, Washington, D.C. 20593 (202) 426-4027, between 8 am and 4 pm Monday through Friday, except holidays.

SUPPLEMENTARY INFORMATION: The National Boating Safety Advisory Council has been consulted and its opinions and advice have been considered in the formulation of this proposed rule. The transcripts of the proceedings of the National Boating Safety Advisory Council at which this proposed rule was discussed are available for examination in Room 4224, U.S. Coast Guard Headquarters, 2100 Second Street, S.W., Washington, D.C. The minutes of the meetings are available from the Executive Director, National Boating Safety Advisory Council, c/o Commandant (G-BA), U.S. Coast Guard, Washington, D.C. 20593.

Interested persons are invited to participate in this proposed rulemaking by submitting written views, data or arguments. Each comment submitted should include the name and address of the person submitting it, identify this notice [CGD 81-092] and the specific section of the propsal to which the comment applies, and give the reasons for the comment. Those desiring acknowledgement that their comment has been received should enclose a stamped, self-addressed post card or envelope.

The proposal may be changed in light of comments received. All comments received will be considered before final action is taken on the proposal. Copies of all written comments received will be available for examination by interested persons.

No public hearing is planned but one may be held at a time and place to be set in a later notice in the **Federal Register** if written requests for a hearing are received and it appears that an opportunity to make oral presentations will aid the rulemaking process.

DRAFTING INFORMATION: The principal persons involved in drafting this proposal are Mr. Alston Colihan, Project Manager, Office of Boating, Public, and Consumer Affairs, and LT. Mark Hanlon, Project Attorney, Office of the Chief Counsel.

Discussion of the Proposed Amendment

This proposal is in furtherance of Executive Order No. 12291. It will make the Electrical and Fuel Systems regulations easier to understand, easier for a manufacturer to comply with, and make them more cost-beneficial, with a minimal loss in the degree of safety assured by the regulations. The proposed changes would eliminate provisions determined to be necessary because they are standard industry practices. Other proposed changes would ease overly restrictive requirements or clarify confusing language.

Paragraph 183.401(b) presently lists the effective dates for various electrical system regulations, the latest of which became effective on February 1, 1979. This list was published to provide interested parties notice of effective dates 18 to 24 months from the date of publication. Effective dates were delayed to provide manufacturers and distributors time to redesign and retool. Since all of the listed regulations have been in effect for a period of years, the paragraph is unnecessary. This proposal would remove this paragraph.

Paragraph 183.420(e) presently requires that hydrogen gas discharged by a battery must not accumulate in the boat. The industry believes that the present statement is too much of an absolute. The proposal would require the provision of a vent system or other means to permit the discharge from the boat of hydrogen gas discharged by a battery.

Paragraph 183.420(f) presently requires the positive terminal of each battery to be identified by the letters, "POS" or "P" or the symbol "+" marked on the terminal, or on the battery case near the terminal. Since the markings are standard industry practice, the proposal would delete this requirement.

Paragraph 183.425(g) presently specifies certain exceptions to the

general requirements for conductors. Manufacturers of electronic equipment such as fuel vapor detectors and depth sounders have complained that many circuits, particularly sensor circuits, carry only a tiny fraction of an ampere, which require only very small wires, as small as number 32 AWG. Also, automotive electrical circuitry uses strips of metal foil laminated into plastic ribbons for multiple conductors in circuits used for controls and instrumentation. In order to give manufacturers greater flexibility in designing this equipment, the proposal would amend the exceptions noted to except electronic circuits having a current flow of less than one ampere and conductors which are totally inside an equipment housing.

Paragraph 183.445(a) presently requires, with certain exceptions, support and protection for each conductor or group of conductors; paragraph 183.445(b) requires a loop, slack or strain relief for conductors between two components that move in relation to each other; and parapraph 183.445(d) specifies the exceptions for the section. The proposal would delete all three paragraphs, since the only fires that the Coast Guard is aware of that were related to these requirements were caused by chafing on sharp edges, and they are covered by § 183.445(c).

Section 183.450 prescribes requirements for conductor terminations. Paragraph 183.450(a) presently requires the use of a closed ring connector, eyelet connector, captive spade connector, mechanical locking connector or spring locking connector for each connection to a screw terminal or stud that is outside of a junction box or enclosure. Paragraph 183.450(b) requires that each stripped conductor connected to a compression screw terminal that is outside a junction box or enclosure be secured mechanically to provide strain relief for the stripped conductor connection. Paragraph 183.450(c) requires that each single friction connector, spring-type connector, and multi-connector plug that is outside of a junction box or enclosure must not separate if subjected to a six pound tensile force along the axial direction of the connector for one minute. Paragraph 183.450(d) requires that a soldered connection that is outside a function box or enclosure must not be the sole means of connection between two or more conductors or between a conductor and a connector, except a conductor may be soldered to a connector that joins the conductor to a battery terminal or stud, if the length of the stranded joint is at least 1.5 times the diameter of the stranded portion of the battery conductor. Paragraph 183.450(e) requires that each connection that is outside of a junction box or enclosure and that is used to join conductors to each other or that is used to join a conductor to a connector must not break when subjected for one minute to a tensile force shown in Table 6 for the smallest conductor size in the connection. Paragraph 183.450(g) requires that each termination composed of an ungrounded current carrying conductor, terminal fitting, and connector be protected from accidental short-circuiting with: (1) Another termination from another circuit composed of an ungrounded current carrying conductor, terminal fitting, and connector; or (2) any metal that is grounded. Paragraph 183.450(h) prohibits a conductor from being joined to another conductor by a wire nut or wire screw. Paragraph 183.450(i) excepts communication systems and electronic navigation equipment from the requirements of the section. The proposal would delete all eight of these paragraphs as well as Table 6 which gives the tensile test values for conductor splices, because this section is covered in voluntary standards and by normal commercial practices. For example, no crimp connectors are available that would not pass the specified pull test when properly installed. Also, the failure of a connector or the disconnection of a friction connector is unlikely to cause a fire or explosion because the loose conductor usually is still insulated by the remaining part of the connector. Even when it is not insulated and does manage to come into contact with a metal surface which could cause a short circuit, the fuse or circuit breaker, which is required in nearly all circuits, will open the circuit.

Paragraph 183.460(a) presently requires that each ungrounded supply conductor from a storage battery must have a manually reset, tripfree circuit breaker or fuse, unless the supply conductor is in the main power feed circuit from the battery to an engine cranking motor. The circuit breaker or fuse must be within 72 inches of the battery measured along the conductor unless the circuit has a switch that disconnects the battery. The proposal would delete the exception for a circuit that has a switch that disconnects the battery. This is, in effect, an increase in the requirement of the paragraph rather than a relaxation. The phrase has caused some difficulty in the enforcement of the electrical systems regulations because it is inconsistent with the engineering concept that overcurrent protection for a conductor should protect against both an overload and a short to ground. With the fuse or circuit breaker located at the output end of a conductor, away from the source of power, a short to ground would not interrupt the current flow until the conductor itself was destroyed.

Paragraph 183.501(b) presently lists the effective dates for various fuel system regulations, the latest of which became effective on February 1, 1979. This list was published to provide interested parties notice of effective dates 18 to 24 months from the date of publication. Effective dates were delayed to provide manufacturers and distributors time to redesign and retool. Since all of the listed regulations have been in effect for a period of years, this paragraph is unnecessary. This proposal would remove this paragraph.

Paragraph 183.510(a) presently requires that each fuel tank in a boat must have been tested by its manufacturer under § 183.580 and not leak. The proposal would delete the requirement for testing under § 183.580 and would add a requirement that the tank not leak when subjected to the pressure marked on the tank label under § 183.514(b)(5). There are many methods for conducting a leak test and the manufacturer should be granted maximum flexibility in selecting a suitable test as long as the method selected will detect a leaking tank.

Paragraph 183.510(d) presently requires that each fuel tank with a capacity of 25 to 99 gallons not leak if tested under § 183.586. The proposal would change the applicable capacity to 25 to 199 gallons to raise the size threshold limit of fuel tanks tested in accordance with § 183.586.

Paragraph 183.510(e) presently requires that each fuel tank of 100 gallons capacity or more must not leak if tested under §§ 183.586 and 183.588. The proposal would change the applicable capacity to fuel tanks having a capacity of 200 gallons or more to raise the size threshold limit of fuel tanks tested in accordance with the slosh test in § 183.588. The proposal would raise the size above 199 gallons for tanks subject to the slosh test in § 183.588 because it's expensive and testing laboratories have found that very few tanks of smaller sizes fail it. Those which do fail have been damaged by the pressure impulse test. The pressure impulse test is still valid for the larger tanks.

Paragraph 183.514(b)(7) presently requires that the label required on fuel tanks by § 183.514(a) contain the statement, "This tank has been tested

under 33 CFR 183.580." The proposal would change the statement to, "This tank has been tested under 33 CFR 183.510." The Coast Guard would still require that the tank be tested, but would not specify the procedure to be used.

Paragraph 183.516(c) presently requires that polyurethane cellular plastic used to encase metallic fuel tanks must have a density of at least 3.2 pounds per cublic foot, measured under ASTM D–1622, "Apparent-Density of Rigid Cellular Plastics." The proposal would change the minimum density from 3.2 pounds to 2.0 pounds density per cubic foot. Normal production foam used for flotation in boat manufacturing has a nominal two pound density. The higher density foam was originally chosen for this regulation because it is more reliable structurally and physically. However, it is possible to produce a good quality two pound density foam under carefully controlled production conditions. It is also doubtful that polyurethane foam of less than two pound density will be able to pass the physical test prescribed in Section 183.516(a).

Paragraph 183.522 presently requires that fuel must not blow back through the fill fitting when a tank is between one-fourth and three-fourths full and when the tank is refueled at a rate of at least nine gallons per minute. The proposal would delete this paragraph, since, in general, fuel tank fill systems meet this requirement and the Coast Guard does not have any records of any accidents caused by a failure to meet this requirement.

Paragraph 183.528(b) presently requires that if a fuel stop valve is tested under § 183.590, it must not leak fuel. The proposal would require the fire test only when the valve is installed in a system which requires fuel hose that meets the fire test. If "USCG Type B" hose is permitted, then the fuel stop valve would not be required to pass the fire test.

Paragraph 183.532(b) presently requires that a clip, strap or hose clamp, when tested under § 183.590, must not separate under a one pound tensile force. The proposal would require the fire test only when the clip, strap or hose clamp is installed in a system which requires fuel hose that meets the fire test. If "USCG Type B" hose is permitted, then the clip, strap or hose clamp would not be required to pass the fire test.

Paragraph 183.532(c) presently requires that the minimal nominal band width of a hose clamp be determined under Table 7 by the outside diameter of the hose. The proposal would delete this requirement as well as Table 7. The clamp widths delineated in Table 7 were taken from catalog dimensions of commercially available hose clamps. Manufacturers are constrained to purchasing commercially available hose clamps.

Paragraph 183.536(a) presently requires that each gasket and seal used in a fuel filter and strainer must form an unsplit ring. The proposal would delete this requirement, since this requirement has existed in voluntary standards for over 20 years. The Coast Guard knows of no fuel filter available to the marine market that is available with a split ring gasket.

Paragraph 183.540(a) presently requires that each "USCG Type A" hose and each "USCG Type B" hose be identified by the hose manufacturer by a marking on the hose itself, or if the complete text of the marking is not on a section of the hose, the boat manufacturer must attach a tag that meets the requirements of paragraphs (a) and (b) of the section. The proposal would delete the requirement for a tag, since even though a short length of hose may be used in a part of the boat, the same type of hose is probably used elsewhere on the boat. If all else fails, the Coast Guard could contact the manufacturer to determine whether the hose complies with Federal regulations.

Paragraph 183.540(b) states in part, that "each marking and tag must contain * * *" In accordance with the reasoning for the deletion of the requirement for the tag in paragraph 183.540(a) above, the net effect would be to eliminate the requirement for a tag, but retain the requirement that the hose be marked with the required information.

Paragraph 183.542 presently requires that each fuel system in a boat must have been tested under Section 183.582 by the boat manufacturer and not leak. The proposal would require that each fuel system in a boat be tested by the boat manufacturer and not leak when subjected to the greater of: (1) three pounds of pressure per square inch; or one and one-half times the pressure created in the lowest part of the fuel system when it is filled to the level of overflow with fuel. The proposal would further specify that the test pressure must be obtained with air or inert gas. These proposed changes would eliminate the detailed requirements stated in § 183.582 and simply state that the system should be tested and prescribe the pressure for the test.

Paragraph 183.550(d) presently requires that water must drain from the surface of each metallic fuel tank when the boat is in its static floating position. The proposal would specify the top surface of tanks, since the present wording sounds like it prohibits manufacturers from installing fuel tanks where they would come in contact with water in the bilge of a boat.

Paragraph 183.560(b) presently requires that each hose clamp on a hose from the fuel tank to the fuel inlet connection on the engine, a hose between the fuel pump and the carburetor, or a vent line, must be at least one clamp width from the end of the hose. The proposal would delete this requirement, since there are many installation points where this additional space is not available because of the design of standard hose and fuel tank fittings.

Paragraph 183.564(d)(2) presently requires that hose clamps used in the tank fill system must be over the hose and the spud, pipe or hose fitting and must be not less than one-half inch from the end of the hose. The proposal would delete the distance requirement from the end of the hose, since there are many installations where this additional space is not available because of the design of standard hose and fuel tank fittings.

Paragraph 183.568 presently prescribes three alternative methods for providing anti-siphon protection between the fuel tank and the fuel inlet connection on the carburetor. The proposal would provide a fourth alternative if "USCG Type A" hose is used with one or two manual shutoff valves. One manual shutoff valve that is so arranged as to be readily accessible for operation from outside of the compartment would be required directly at the tank connection. An additional shutoff valve would be required at the fuel inlet connection to the engine, if any part of the fuel tank is above the level of the carburetor.

Paragraph 183.582 presently prescribes detailed requirements for the static pressure testing of fuel systems. The procedures are very detailed and specify the type of pressure gauge, the method of testing, and that two separate tests must be conducted, a pressure drop test and some other type of leak detection test. Double testing of the completed system is redundant if one test is conducted properly. The proposal would delete these detailed requirements.

Regulatory Evaluation

These regulations have been reviewed under the provisions of Section 2 of Executive Order No. 12291 and have been determined not to be a major rulemaking. Additionally, these regulations have been determined to be nonsignificant in accordance with the

guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5 of May 22, 1980). An economic evaluation will not be conducted since the impact of these regulations is expected to be minimal. To the extent that there is any impact upon the boating industry it will be favorable, because it will reduce the cost of doing business. Specifically, it is estimated that these proposed amendments will result in savings in the manufacturing costs of a boat of up to ten dollar per boat. The adoption of these proposed amendments will also mean that Coast Guard personnel will not have to inspect as many items per boat on each factory visit, and it is estimated that this will result in savings of one-half manhour per visit. Since the Coast Guard presently makes 5811 factory visits per year, this will save 2905.5 manhours per year. Therefore, the costs to society will decrease with a minimal reduction in the safety level of boats.

In accordance with section 605(b) of the Regulatory Flexibility Act (94 Stat. 1164), it is certified that this rule, if promulgated, will not have a significant economic impact on a substantial number of small entities, since these proposed amendments would result in only a minor reduction in the costs of manufacturing a boat that is subject to the Electrical and Fuel System standards.

List of Subjects in 33 CFR Part 183

Fire prevention, Electrical power, Marine safety, Passenger vessels.

PART 183—BOATS AND ASSOCIATED EQUIPMENT

In consideration of the foregoing, the Coast Guard proposes to amend Part 183 of Title 33, Code of Federal Regulations as set forth below:

Subpart I—Electrical Systems

1. By removing and reserving § 183.401(b) as follows:

§ 183.401 Purpose, applicability, and effective dates.

* * * * *

(b) [Reserved]

2. By revising § 183.420 to read as follows:

§ 183.420 Batteries.

* * * * *

(e) A vent system or other means must be provided to permit the discharge from the boat of hydrogen gas released by the battery.

(f) [Reserved]

* * * * *

3. By revising § 183.425(g) to read as follows:

§ 183.425 Conductors: general.

* * * * *

(g) This section does not apply to communications systems; electronic navigation equipment; electronic circuits having a current flow of less than one ampere; conductors which are totally inside an equipment housing; resistance conductors that control circuit amperage; high voltage secondary conductors and terminations that are in ignition systems; pigtails of less than seven inches of exposed length and cranking motor conductors.

* * * * *

4. By revising § 183.445 to read as follows:

§ 183.445 Conductors: protection.

(a) Each conductor or group of conductors that passes through a bulkhead, structural member, junction box, or other rigid surface must be protected from abrasion.

(b) Each ungrounded terminal or stud that is continuously energized must meet Section 183.455 or must have a boot, nipple, cap, cover, or shield that prevents accidental short-circuiting at the terminals or studs.

§ 183.450 [Removed]

5. By removing § 183.450, conductors: termination.

6. By revising § 183.460(a) to read as follows:

§ 183.460 Overcurrent protection: special applications.

(a) Each ungrounded output conductor from a storage battery must have a manually reset, trip-fee circuit breaker or fuse, unless the supply conductor is in the main power feed circuit from the battery to an engine cranking motor. The circuit breaker or fuse must be within 72 inches of the battery measured along the conductor.

* * * * *

Subpart J—Fuel Systems

7. By removing and reserving § 183.501(b)

§ 183.501 Applicability.

* * * * *

(b) [Reserved]

8. By revising § 183.510(a), (d) and (e) to read as follows:

§ 183.510 Fuel tanks.

(a) Each fuel tank in a boat must have been tested by its manufacturer and not leak when subjected to the pressure marked on the tank label under § 183.514(b)(5).

* * * * *

(d) Each fuel tank with a capacity of 25 to 199 gallons must not leak if tested under Section 183.586.

(e) Each fuel tank of 200 gallons capacity or more must not leak if tested under §§183.586 and 183.588.

9. By revising §183.514(b)(7) to read as follows:

§ 183.514 Fuel tanks: labels.

* * * * *

(b) * * *

(7) The statement, "This tank has been tested under 33 CFR 183.510."

* * * * *

10. By revising § 183.516(c) to read as follows:

§ 183.516 Cellular plastic used to encase fuel tanks.

* * * * *

(c) Polyurethane cellular plastic used to encase metallic fuel tanks must have a density of at least 2.0 pounds per cubic foot, measured under ASTM D–1622, "Apparent Density of Rigid Cellular Plastics."

§ 183.522 Fuel tank fill systems [Removed].

11. By removing § 183.522, "Fuel tank fill systems."

12. By revising § 183.528(b) to read as follows:

§ 183.528 Fuel stop valves.

* * * * *

(b) If tested under § 183.590, a fuel stop valve installed in a fuel line system requiring metallic fuel lines or "USCG Type A" hose must not leak fuel.

13. By revising § 183.532(b) to read as follows:

§ 183.532 Clips, straps, and hose clamps.

* * * * *

(b) If tested under § 183.590 a clip, strap, or hose clamp installed on a fuel line system requiring metallic fuel lines or "USCG Type A" hose must not separate under a one pound tensile force.

* * * * *

14. By removing and reserving § 183.532(c) and removing Table 7.

§ 183.532 Clips, straps and hose clamps.

* * * * *

(c) [Reserved]

15. By removing and reserving § 183.536(a).

§ 183.536 Seals and gaskets in fuel filters and strainers.

(a) [Reserved]

* * * * *

16. By revising § 183.540(a) and (b) to read as follows:

§ 183.540 Hoses: identification.

(a) Each "USCG Type A" hose and each "USCG Type B" hose must be identified by the manufacturer by a marking on the hose itself.

(b) Each marking must contain the following information in English:

* * * * *

17. By revising § 183.542 to read as follows:

§ 183.542 Fuel systems.

(a) Each fuel system in a boat must have been tested by the boat manufacturer and not leak when subjected to the greater of the following pressures:

(1) Three pounds per square inch; or

(2) One and one-half times the pressure created in the lowest part of the fuel system when it is filled to the level of overflow with fuel.

(b) The test pressure shall be obtained with air or inert gas.

18. By revising § 183.550(d) to read as follows:

§ 183.550 Fuel tanks: installation.

* * * * *

(d) Water must drain from the top surface of each metallic fuel tank when the boat is in its static floating position.

* * * * *

19. By removing and reserving § 183.560(b).

§ 183.560 Hose clamps: installation.

* * * * *

(b) [Reserved]

* * * * *

20. By revising § 183.564(d)(2) to read as follows:

§ 183.564 Fuel tank fill system.

* * * * *

(d) * * *

(2) Be over the hose and the spud, pipe, or hose fitting.

21. By revising § 183.568 to read as follows:

§ 183.568 Anti-siphon protection.

* * * * *

(b) Have an anti-siphon device or an electrically operated fuel stop value—

(1) At the tank withdrawal fitting; or

(2) Installed so the line from the fuel tank is above the top of the tank; *OR*

(c) Provided that the fuel tank is below the level of the carburetor inlet, be "USCG Type A" hose with one or two manual shutoff values installed as follows—

(1) Directly at the fuel tank connection arranged to be readily accessible for operation from outside of the compartment, and

(2) If the length of fuel line from the tank outlet to the engine inlet is greater than 12 feet, a manual shutoff value shall be installed at the fuel inlet connection to the engine.

H. W. Parker,

Rear Admiral, U.S. Coast Guard, Chief, Office of Boating, Public and Consumer Affairs

BILLING CODE 4910-14-M

VETERANS ADMINISTRATION

38 CFR Part 36

Loan Guaranty; To Allow Closing of Refinancing Loans on an Automatic Basis and Requiring That the Maximum Allowable Discount Points Paid by a Veteran-Borrower Be Uniformly Established Based on a Readily Ascertainable Source

AGENCY: Veterans Administration.

ACTION: Proposed regulations.

SUMMARY: The VA (Veterans Administration) is proposing to amend its regulations to allow those lenders who have authority to close acquisition loans automatically (without VA prior approval) to begin closing refinancing loans on the automatic basis. The proposal also includes a provision requiring that the maximum allowable discount points, if any, paid by a veteran-borrower for a refinancing loan shall be uniformly established based on a readily ascertainable source.

The governing statute and the regulations currently allow a veteran to pay an unspecified reasonable discount as required by a lender for such loans. The proposed amendment will eliminate the requirement that lenders must obtain the prior approval of the VA as to the amount of discount points charged a veteran for a refinancing loan and provide for a uniform objective determination of the maximum allowable discount points chargeable by lenders for these types of loans. The proposal will allow the lender and the veteran-borrower to compute the maximum allowable discount points on or immediately prior to the day of loan closing. The proposed amendment should simplify the processing of refinancing loans.

DATES: Comments must be received on or before October 25, 1982. VA proposes to make these regulations effective on the date of approval of the final regulations.

ADDRESS: Interested persons are invited to submit written comments, suggestions or objections regarding this proposal to the Administrator of Veterans Affairs (217A), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420. All written comments received will be available for public inspection at the above address only between 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), until November 2, 1982. Persons visiting the Veterans Administration Central Office in Washington, D.C. for the purpose of inspecting comments will be received by the Central Office Veterans Services Unit in room 132 of the above address. Visitors to VA field stations will be informed that the records are available for inspection only in Central Office and will be furnished the address and room number.

FOR FURTHER INFORMATION CONTACT: Mr. George D. Moerman, Assistant Director for Loan Policy (264), Loan Guaranty Service, Veterans Administration, Washington, D.C. 20420, (202) 389-3042.

SUPPLEMENTARY INFORMATION: The VA is proposing to amend §§ 36.4306, 36.4306a and 36.4312 of the regulations to allow for automatic processing of refinancing loans and to incorporate into the regulations a provision for objectively calculating the maximum allowable discount points which a lender may collect from a veteran-borrower when making a refinancing loan.

A VA guarantee refinancing loan is a loan for the purpose of paying off existing mortgage loans or other liens secured by a home which is owned and occupied by the veteran. A veteran may refinance up to 100% of the reasonable value of the property and use the cash proceeds as he or she chooses. Hereafter, this type of loan will be referred to as regular refinancing loans.

Another type of refinancing loan may be used to reduce the interest rate on an existing VA guaranteed loan on a home owned and occupied by the veteran. The veteran may not obtain any cash proceeds from the loan for his/her personal use as the loan may only be used to payoff an existing loan which has a higher interest rate. Hereafter, this type of loan will be referred to as interest rate reduction refinancing loans.

VA currently requires that applications for VA guaranteed loans must be submitted to the local VA office for approval of the amount of loan discount to be paid by the veteran homeowner. Loan discount, sometimes called points, is a charge by the lender. It is based on the fact that investors often do not purchase mortgages for par or 100% of the face amount of the loan notes. An investor will purchase a group of mortgages known as a pool at a

certain simple interest rate and a certain loan term for a price; e.g., the investor would purchase the loans at the price of 97% of the total dollar value shown on the face amount of the loan notes making up the pool of mortgages. Since the lender is lending 100% of the face amount of the note to the consumer and the investor is only purchasing the note at 97%, the lender will charge 3% discount or points to make up the money difference. The investor by paying less than 100% of the face amount of the note increases the return or yield on the mortgage. On VA guaranteed loans to acquire a home the discount may not be paid by the buyer. On a refinancing loan, the veteran homeowner is the party who must bear the expense. Title 38, U.S.C. section 1803(c)(3) authorizes the veteran to pay a reasonable discount on a refinancing loan. Currently, the reasonableness of the proposed discount charge must be approved by the local VA office. In addition regular refinancing loans must be submitted to the local VA office for credit underwriting approval.

We propose to amend the regulations to allow lenders to charge a discount on a refinancing loan without VA prior approval provided the discount charged does not exceed a predetermined reasonable maximum based upon a readily available source for determining such maximum. We propose that lenders may use the GNMA (Government National Mortgage Association) pass through securities Issues bid quote for the day previous to loan closing or two days previous to loan closing as a readily ascertainable point for determining the maximum allowable discount on a VA guaranteed refinancing loan. If a bid quote is more than a whole number it may be rounded to the lower whole number; e.g., 97.7 may be rounded to 97. The GNMA bid quote must be for the GNMA pool for loans with a note rate ½% higher than the pool rate. Thus, if a refinancing loan with a 15½% note rate is to be closed, the lender should refer to the previous day and 2 days' previous GNMA Issues quote. If the bid quotes for example were 97.7 and 97.4, the lender may close the refinancing loan for a discount of up to 3% of the loan amount.

GNMA Issues quotes indicate both a Bid price and an Asked price. We propose to use the bid price as the basis for determining the maximum VA loan discount because this price reflects the price investors are willing to pay for a pool of loans at a particular interest rate.

The proposed amendments would authorize the Administrator to allow a lender to charge a veteran a higher discount than determined by the GNMA Issues in unusual cases. For instance, an investor might determine that a home's size or age would require a slightly higher yield thereby requiring a higher discount than authorized by the use of GNMA Issues. In these unusual circumstances, the lender could seek approval from the Administrator to charge the higher amount of loan discount.

Since we propose to establish a method which would allow lenders to readily determine the maximum allowable discount on refinancing loans, we are also proposing to delete the requirement that all refinancing loans must be submitted to the local VA office for prior approval of the amount of discount or credit underwriting.

Three other types of loans are similar to VA refinancing loans in that the veteran is authorized to pay a loan discount. These are loans on existing, occupied homes for the purposes of repairs, alterations, or improvements when such loans are to be secured by a first lien; loans to construct homes on land already owned or to be acquired by the veteran when the veteran acts as his/her own contractor; and loans to purchase a dwelling from a class of sellers who are legally precluded from paying a loan discount. For consistency, the amendments propose to allow lenders to close these types of loans on the automatic basis using the GNMA Issues bid quote to determine the maximum allowable loan discount to be paid by the veteran.

Alteration, improvement, or repair loans which are unsecured or secured by less than a first lien must continue to be submitted to the local VA regional office for approval of the credit underwriting and the loan discount to be paid by the veteran, if any. These loans are more akin to second mortgage financing or consumer installment loans than to first mortgage loans for the purpose of acquiring real estate. Thus, the use of the GNMA Issues bid price would probably not be reflective of the current discount being charged by lenders for home improvement loans secured by less than a first mortgage.

An advantage to the proposals suggested by these amendments would be that a lender would know in advance that it could collect discount points at closing which would be fully representative of market conditions. Loans could be closed much quicker by lenders with automatic processing authority which would be to the benefit of many veteran-borrowers. It would also simplify the task of the VA regional office personnel in not having to make a determination as to whether the amount of the discount points required by a lender in each individual refinancing loan was reasonable. It would prevent losses by lenders who made loan commitments with discount points predicated on market conditions at the time of commitment only to find that at the time of closing the lender could not sell the loan in the secondary market without a loss due to escalating interest rates since the time of VA loan approval.

A disadvantage of these proposals would be that veteran-borrowers would not know the amount of discount points, if any, they would have to pay until the day before or the day of loan closing. Since the GNMA bid price is based on the composite collective judgment of a wide spectrum of buyers and investors, it may be possible that in some instances the indicated maximum discount rate provided by the index may exceed the market in certain areas. Lender competition in these areas should correct any such imbalances. In addition, a veteran obtaining a refinancing loan or a loan for alterations, improvements or repairs would have the added protection of a Right of Rescission as afforded by the Truth in Lending Act (Pub. L. 90–321, as amended). If the veteran determined that the discount charges requested by the lender were excessive, he/she could rescind the loan transaction thereby canceling the loan.

The proposal to use the GNMA pass through securities bid price as the source for determining reasonable discount points for refinancing and similar loans does not preclude the adoption of some other method for establishing a reasonable uniform discount rate for such loans. Any suggestions for an alternative method by which reasonable discount points may be readily ascertained on a uniform basis are welcomed and will be carefully considered.

An editorial amendment has been proposed to § 36.4312(d)(6)(iii) to correct a regulatory citation. In addition we propose to combine paragraphs (a) and (b) of § 36.4306 to make the regulation more understandable.

The Administrator hereby certifies that these proposed regulation changes will not, if promulgated, have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C., sections 601–612. Pursuant to 5 U.S.C. 605(b), these proposed regulations are exempt from the initial and final regulatory flexibility

analyses requirements of sections 603 and 604. The reason for this certification is that these proposed changes will allow refinancing and similar loans to be closed on the automatic basis with a maximum discount charge reflective of current mortgage money market conditions. Lenders will be only small entities which are directly affected, and the effect on them will not be significant in economic terms. We believe that the proposed regulations, if promulgated, will have no impact on small government jurisdictions. Small lenders should be aided since automatic loan processing of these types of loans is simpler and should be less costly. In addition, they could rely upon the certainty of a competitive discount rate set by market forces at the time of loan closing. Small lenders should be aided but not in a significant manner by these proposed amendments. There will be no new compliance costs or reporting burdens imposed on individuals or small entities.

The proposed regulations have been reviewed pursuant to Executive Order 12291 and have been found to be nonmajor regulation changes. The proposed amendments will expedite processing of refinancing and similar loans and will allow loan discounts to be charged to the veteran based upon free market forces. These changes will not impact on the public or private sectors as major rules. They will not have an annual effect on the economy of $100 million or more, and will not cause a major increase in costs or prices for consumers, individual industries, government agencies, or geographic regions; nor will they have other significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

(Catalog of Federal Domestic Assistance Program number, 64.114)

Condominiums, Handicapped, Housing, Loan programs—housing and community development, Mobile homes, Veterans.

These amendments are proposed under authority granted the Administrator by sections 210(c) and 1803(c) (1) and (3) of title 38, United States Code.

Approved: September 3, 1982.

By direction of the Administration.
Everett Alvarez, Jr.,
Deputy Administrator.

PART 36—LOAN GUARANTY

It is proposed to amend 38 CFR Part 36 as follows:

1. In § 36.4306, paragraph (a) is revised and paragraphs (b) and (e) are removed. Paragraph (a) reads as follows:

§ 36.4306 Refinancing of mortgage or other lien indebtedness.

(a) Any loan for the purpose of refinancing (38 U.S.C. 1810(a)(5)) an existing mortgage loan or other indebtedness secured by a lien of record on a dwelling or farm residence owned and occupied by an eligible veteran as the veteran's home may be submitted to the Administrator for prior approval or may be processed on the automatic basis by those lenders of a class specified in 38 U.S.C. 1802(d). A loan for such purpose shall be eligible for guaranty in an amount not to exceed sixty (60) percent of the loan amount or $27,500, whichever is less, *Provided,* That—(38 U.S.C. 1810(c))

(1) Unless otherwise approved by the Administrator, the discount, if any, to be paid by the veteran may not exceed the difference between the bid price and the par value for GNMA (Government National Mortgage Association) Issues rounded to the lower whole number as quoted in the securities market on the business day preceding or 2 business days previous to loan closing (consummation) for pass through securities ½ percent less than the note rate of the refinancing loan,

(2) The loan is otherwise eligible for guaranty, and

(3) The issuance of a guaranty commitment on any such loan which exceeds eighty (80) percent of the reasonable value of the veteran's dwelling or farm residence shall require, unless the Chief Benefits Director otherwise directs, the approval of the Director, Loan Guaranty Service.

(b) [Removed]

* * * * *

(e) [Removed]

* * * * *

2. In § 36.4306a, paragraph (a) is revised as follows:

§ 36.4306a Interest rate reduction refinancing loan.

(a) Pursuant to 38 U.S.C. 1810(a)(8), a veteran may refinance an existing Veterans Administration guaranteed, insured or direct loan to reduce the interest rate payable on the Veterans Administration loan provided the following requirements are met:

(1) The loan must be secured by the same dwelling or farm residence as the loan being refinanced and such dwelling or farm residence must be owned and occupied by the veteran as such veteran's home;

(2) The amount of the refinancing loan may not exceed an amount equal to the sum of the balance of the loan being refinanced and such closing costs as authorized by § 36.4312(d) and a discount not to exceed a dollar amount determined in accordance with § 36.4312(d)(6)(i);

(3) The dollar amount of the guaranty of the 38 U.S.C. 1810(a)(8) loan may not exceed the original dollar amount of guaranty applicable to the loan being refinanced, less any dollar amount of guaranty previously paid as a claim on the loan being refinanced; and

(4) The term of the refinancing loan (38 U.S.C. 1810(a)(8)) may not exceed the original term of the loan being refinanced.

* * * * *

3. In § 36.4312, paragraph (d)(6)(i), the introductory text of (ii) and (iii), and subdivision (iv) is revised as follows:

§ 36.4312 Charges and fees.

* * * * *

(d) * * *

(6) Allowable discounts. (i) The veteran borrower subject to the limitations set forth in this paragraph, may pay a discount required by a lender when the proceeds of the loan will be used for any of the following purposes:

(A) To refinance existing indebtedness pursuant to 38 U.S.C. 1810(a)(5) or (8);

(B) To repair, alter or improve a dwelling owned by the veteran pursuant to 38 U.S.C. 1810(a)(4) or (7) if such loan is to be secured by a first lien;

(C) To construct a dwelling or farm residence on land already owned or to be acquired by the veteran, provided that the veteran did not or will not acquire the land directly or indirectly from a builder or developer who will be constructing such dwelling or farm residence;

(D) To purchase a dwelling from a class of sellers which the Administrator determines are legally precluded under all circumstances from paying such a discount if the best interest of the veteran would be so served.

Unless otherwise approved by the Administrator, the discount, if any, to be paid by the veteran may not exceed the difference between the bid price and the par value for GNMA (Government National Mortgage Association) Issues

rounded to the lower whole number as quoted in the securities market on the business day preceding or 2 business days previous to loan closing (consummation) for pass through securities ⅛ percent less than the note rate of the refinancing loan.

(ii) The veteran-borrower subject to the limitations set forth in this paragraph, may pay a discount required by the lender when the proceeds of the loan will be used to repair, alter or improve a dwelling owned by the veteran pursuant to 38 U.S.C. 1810(a)(4) or (7) if such loan is unsecured or secured by less than a first lien. No discount may be charged unless:

* * * * *

(iii) A veteran may pay the discount on an acquisition and improvement loan (as defined in § 36.4301) provided:

* * * * *

(iv) All powers of the Administrator under paragraph (d)(6) of this section, except the authority to revise the discount after the commitment is issued and the authority to approve a discount higher than authorized by the GNMA Issues, are hereby delegated to those officials designated by § 36.4342(b). The powers of the Administrator to approve an increase in the discount after the commitment is issued or approve a discount higher than authorized by the GNMA Issues are delegated to those officials designated by § 36.4335.
(38 U.S.C. 1803(c)(1) and (3), 1810(a)).

BILLING CODE 8320-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-7 FRL 2199-7]

Approval and Promulgation of Implementation Plans, State of Nebraska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Nebraska State Implementation Plan (SIP) covering procedures to be followed by a source when excess emissions result from a startup, shutdown or malfunction. The new procedures require a source to submit information to be used by the state to determine if the excess emissions were due to an unavoidable malfunction, or if additional enforcement action is required in addition to a notice of excess emission. The new rule gives the state greater enforcement capability than malfunction provisions currently provided in the approved SIP.

Public comment is invited on the proposal.

DATE: Comments must be received before November 22, 1982.

ADDRESSES: Comments should be sent to Mrs. Eloise Reed, Air Branch, Environmental Protection Agency, 324 East 11th Street, Kansas City, Missouri 64106. Copies of the submittal and the EPA prepared evaluation report are available for review at the address above and at the following locations:

Nebraska Department of Environmental Control, 301 Centennial Mall, Lincoln, Nebraska 68509
Lincoln-Lancaster County Air Pollution Control Agency, 2200 St. Mary's Avenue, Lincoln, Nebraska 68502
Permits and Inspection Division, Housing and Community Development Department, 1819 Farnam, Route 402, Omaha, Nebraska 68102
Lincoln-Lancaster County Planning Commission, 55 South Tenth Street, Lincoln, Nebraska 68508
Omaha-Council Bluffs Metropolitan Area Planning Agency, 7000 West Center Road, Omaha, Nebraska 68106

FOR FURTHER INFORMATION CONTACT: Contact Eloise Reed at (816) 374-3791 or FTS 758-3791.

SUPPLEMENTARY INFORMATION: On August 9, 1982, the state of Nebraska submitted a new Rule 18, "Compliance; Exceptions Due to Startup, Shutdown, or Malfunction," to EPA as a SIP revision. The new rule replaced previous Rule 18 "Compliance; Exceptions Due to Breakdown or Scheduled Maintenance." Former Rule 18 allowed excessive emissions due to malfunctions and/or necessary repairs to control or processing equipment and appurtenances, as long as (1) the source notified the state of the occurrence of the malfunction or repair within a specified time; and (2) the number of breakdowns was not deemed excessive by the state; and (3) appropriate, reasonable action was taken to initiate and complete necessary repairs and place the equipment back in operation as quickly as possible. The new rule recognizes all instances of excess emissions as violations and requires that to mitigate the violation the source must provide information to demonstrate that the excess emissions were due to an *unavoidable* malfunction. The state may initiate additional enforcement action, at its discretion, after review of the submitted information, based on criteria specified in the regulation.

The information to be supplied by the source (not later than fifteen days after receipt of a notice of excess emissions) includes, but is not limited to, identification of the emission points; the magnitude of the excess emissions; the identity of the process or control equipment causing the excess emissions; the cause and nature of the excess emissions; and a description of the steps taken by the owner or operator of the source to remedy the situation causing the emissions, prevent a recurrence and limit the excess emissions.

Similar information as above is also required to be mailed by the owner or operator of a source to the state no later than ten days prior to a *planned* startup or shutdown; within forty-eight hours of the beginning of each period of excess emissions (or potential excess emissions) due to a malfunction or *unplanned* shutdown; and within forty-eight hours of the beginning of a startup following an unplanned shutdown. Based on review of this information, the state will determine if additional enforcement action is needed in these instances.

Nothing in the new regulations relieves the source of its obligations to attain and maintain the National Ambient Air Quality Standards during the excess emission period, nor precludes the state from initiating appropriate enforcement actions.

EPA believes that the new rule is consistent with EPA policy that state enforcement discretion should be used in determining whether excess emissions due to malfunction, startup or shutdown required additional enforcement action.

PROPOSED ACTION: EPA proposes to approve Rule 18 as submitted on August 9, 1982, and to incorporate it into the Nebraska SIP. Previous Rule 18 would be deleted.

List of Subjects in 40 CFR Part 52

Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, Hydrocarbons, Intergovernmental relations.

Under 5 U.S.C. § 605(b), the Administrator has certified that SIP approvals do not have a significant economic impact on a substantial number of small entities (See 46 FR 8709.)

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

This notice of proposed rulemaking is issued under the authority of Section 110 of the Clean Air Act, as amended.

Dated: August 17, 1982.
William W. Rice,
Acting Regional Administrator.

40 CFR Part 81

[A-5-FRL 2204-6]

Designations of Areas for Air Quality Planning Purposes; Attainment Status Designations: Ohio

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to change the sulfur dioxide (SO_2) attainment status designation for a portion of Lorain County, Ohio, from nonattainment to attainment. This revision is in response to a request from the State of Ohio to redesignate this area and is based on the supporting certifications of compliance and ambient air monitoring data the State submitted. Under the Clean Air Act (Act), designations can be changed if sufficient data are available to warrant such change.

DATE: Comments on this revision and on EPA's proposed action must be received by October 25, 1982.

ADDRESSES: Copies of the redesignation request, technical support documents and the supporting air quality data are available at the following addresses:

Environmental Protection Agency, Region V, Air Programs Branch, 230 S. Dearborn Street, Chicago, Illinois 60604

Ohio Environmental Protection Agency, Office of Air Pollution Control, 361 East Broad Street, Columbus, Ohio 43216

Comments on this proposed rule should be addressed to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, USEPA, Region V, 230 South Dearborn Street, Chicago, Illinois 60604 (Please submit an original and thirteen copies if possible).

FOR FURTHER INFORMATION CONTACT: Sharon Reinders (312) 886-6034.

SUPPLEMENTARY INFORMATION: Under Section 107(d) of the Act the Administrator of EPA has promulgated the National Ambient Air Quality Standards (NAAQS) attainment status for each area of every State. See 43 FR 8962 (March 3, 1978) and 43 FR 45993 (October 5, 1978). These area designations may be revised whenever the data warrant.

On October 5, 1978 (43 FR 46014; 40 CFR 81.336), EPA designated the portion of Lorain County north of Route 80 and the City of Elyria as nonattainment for the primary SO_2 NAAQS.

At the time that this designation was made, a number of sources in the nonattainment portion of Lorain County, Ohio, were not complying with the federally promulgated SO_2 emission limits. These limits were developed using reference modeling techniques and have been demonstrated to ensure attainment and maintenance of the NAAQS. Certification of compliance with these limits, thus, is an acceptable basis for redesignation to attainment.

On June 14, 1982, the State of Ohio EPA requested that EPA revise the area of SO_2 primary nonattainment in Lorain County from the entire area north of U.S. Route 80 and the City of Elyria to the area surrounding the U.S. Steel Corporation (USS) facility in northern Lorain County. The boundaries of the remaining nonattainment area would be:

North—The Norfolk and Western Railroad Tracks
East—State Route 301 (Abbe Road)
South—State Route 254
West—Oberlin Road

To support the redesignation request from nonattainment to attainment, the Ohio EPA submitted recent, quality assured ambient SO_2 reference monitoring data collected by the State and two utility companies in the existing nonattainment area. All of the SO_2 monitoring data support the designation of attainment for the area.

In addition to the SO_2 monitoring data, EPA considered modeling data and compliance certifications in its review of the State's request. According to reference modeling analyses, the existing SO_2 emission limitations, which have been promulgated for sources in Lorain County, are adequate to protect the ambient air quality standards. Certifications of compliance with these limits are also an acceptable basis for a redesignation of Lorain County. All major sources of SO_2 emissions in the county have submitted data to EPA and Ohio EPA showing compliance with their federally-approved emission limitations, except for USS. Thus, EPA has determined that all of the county can be designated as attainment except for the area defined above surrounding USS.

EPA today is proposing to revise the SO_2 designation for that portion of Lorain County previously designated nonattainment to attainment, except for the area within the boundaries listed above.

All interested persons are invited to submit written comments on the proposed redesignation. Written comments received by the date specified above will be considered in determining whether EPA will approve the redesignation. After review of all comments submitted, the Administrator of EPA will publish in the **Federal Register** the Agency's final action on the redesignation.

Under 5 U.S.C. 605(b), the Administrator has certified that redesignations do not have a significant economic impact on a substantial number of small entities (see 46 FR 8709).

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

49 CFR Part 218

[FRA Docket No. RSOR-3, Notice No. 19]

Blue Signal Protection of Workmen Recordkeeping Requirements

AGENCY: Federal Railroad Administration (FRA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This Notice proposes to amend the FRA regulations concerning the Blue Signal Protection of Railroad Employees while they are inspecting, repairing, and servicing rolling equipment. It would reduce the recordkeeping requirements of the existing rules. This action is taken by FRA in an effort to improve its safety regulatory program by reducing unnecessary recordkeeping requirements.

DATES: (1) Written Comments: Written comments must be received before November 12, 1982. Comments received after that date will be considered so far as possible without incurring additional expense or delay.

(2) Requests for Public Hearings: Requests for public hearings must be received before October 8, 1982.

ADDRESSES: (1) Written comments: Written comments should identify the docket number and the notice number and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street, S.W., Washington, D.C. 20590. Written comments will be available for examination both before and after the closing date for written comments, during regular business hours in Room 7321A of the Nassif Building at the above address.

(2) Requests for Public Hearings: Requests for public hearings should be submitted in triplicate to the Docket Clerk at the above address.

FOR FURTHER INFORMATION CONTACT: Bruce Fine, Office of Safety, Federal Railroad Administration, Washington, D.C. 20590 (Phone 202–426–4345).

SUPPLEMENTARY INFORMATION:

Background

On April 1, 1981, The Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*, Pub. L. 96–511) became effective. One purpose of that statute was to minimize the paperwork burden imposed by the Federal Government.

The FRA in conjunction with the Office of Management and Budget (OMB) began a review of FRA regulations to identify ways of reducing the regulatory paperwork burden associated with the FRA safety regulatory program. The FRA Railroad Operating Rules (49 CFR Part 218) were selected for detailed analysis. Based on that analysis, the FRA has concluded that the recordkeeping requirements prescribed in Section 218.30(c)(1) should be reduced by eliminating some of the data required to be recorded by operators of remotely controlled switches and by reducing the retention period for the remaining data from 30 days to 15 days. Under the proposal, the date and time an operator actually receives notification that work is to be performed would no longer have to be recorded. FRA believes that, while this information may be useful for internal management purposes, it is not necessary to accomplish the safety objective of assuring that railroad employees are protected against the movement of equipment that they are inspecting, repairing, or servicing. FRA also believes that a 15 day record retention period is sufficient for safety enforcement purposes.

FRA estimates that these changes will result in a annual savings to railroads of approximately 60,000 manhours of effort.

Regulatory Impact

This proposal has been evaluated in accordance with existing regulatory policies. The proposed amendment will only have a direct impact on railroads. It will not have an adverse economic impact on any entity since it reduces regulatory requirements and burdens. It may have a positive economic impact through cost reductions for the approximately 400 railroads to which the regulation is applicable. Even though some of these railroads may constitute small entities, this proposed amendment will not have a significant impact on a substantial number of small entities. In fact, the overall economic impact is sufficiently minimal that it does not warrant a regulatory evaluation under the terms of Executive Order 12291.

Based on the facts contained in this notice, it is certified that this proposed amendment will not have a significant economic impact on a substantial number of small entities under the provisions of the Regulatory Flexibility Act (Pub. L. 95–354, 94 Stat. 1164, September 19, 1980). The proposed amendment does not constitute a major Federal action significantly affecting the quality of the human environment and, therefore, an environmental impact is not required. The proposed amendment does not constitute a significant rule under the Department of Transportation regulatory policies and procedures.

Public Participation

Interested persons are invited to participate in this proceeding by submitting written data, views or comments. Communications should identify the regulatory docket number and the notice number and must be submitted in triplicate to the Docket. Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street S.W., Washington, D.C. 20590. Persons desiring receipt of their communications to be acknowledged should attach a stamped pre-addressed postcard to the first page of each communication. Communications received before November 12, 1982, will be considered before final action is taken on the proposed rule. All comments received will be available for examination by interested persons at any time during regular working hours in Room 7321A, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

FRA has not scheduled a public hearing to provide an opportunity for oral comments because the facts do not appear to warrant a hearing. Requests for a public hearing must be submitted in writing and received by the FRA Docket Clerk at the above address before October 8, 1982.

The Proposed Rule

PART 218—RAILROAD OPERATING RULES

It is proposed to amend Part 218 of Title 49, Code of Federal Regulations by revising paragraph (c) of Section 218.30 to read as follows:

§ 218.30 Remotely controlled switches.

* * * * *

(c) The operator must maintain for 15 days a written record of each notication which contains the following information:

(1) The name and craft of the employee in charge who provided notification;

(2) The number or other designation of the track involved;

(3) The date and time the operator notified the employee in charge that protection had been provided in accordance with paragraph (a) of this section; and

(4) The date and time the operator was informed that the work had been completed, and the name and craft of the employee in charge who provided this information.

This notice is issued under the authority of section 2 of the Hours of Service Act, as amended 45 U.S.C. 61–64(b); and the regulations of the Office of the Secretary of Transportation (49 CFR 1.49(d)).

Issued in Washington, D.C. on September 13, 1982.

Robert W. Blanchette,

Administrator.

[FRA Docket No. HS-4, Notice No. 9]

Hours of Service of Railroad Employees Recordkeeping Requirements

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to amend FRA regulations concerning the Hours of Service of Railroad Employees. It would eliminate two recordkeeping provisions of existing regulations. This action is taken by FRA in an effort to improve its safety regulatory program by reducing unnecessary recordkeeping requirements.

DATES: (1) Written Comments: Written comments must be received before November 12, 1982. Comments received after that date will be considered so far as possible without incurring additional expense or delay.

(2) Requests for Public Hearings: Requests for public hearings must be received before October 8, 1982.

ADDRESSES: (1) Written Comments: Written comments should identify the docket number and the notice number and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Written comments will be available for examination both before and after the closing date for written comments, during regular business hours in Room 7321A of the Nassif Building at the above address.

(2) Requests for Public Hearing: Requests for a public hearing should be submitted in triplicate to the Docket Clerk at the above address.

FOR FURTHER INFORMATION CONTACT: Bruce Fine, Office of Safety, Federal Railroad Administration, Washington, D.C. 20590 (Phone 202-426-4345).

SUPPLEMENTARY INFORMATION:

Background

On April 1, 1981, the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*, Pub. L. 96-511) became effective. One purpose of that statute was to minimize the paperwork burden imposed by the Federal Government.

The FRA in conjunction with the Office of Management and Budget (OMB) began a review of FRA regulations to identify ways of reducing the regulatory paperwork burden associated with the FRA safety regulatory program. The FRA regulations in Part 228 issued under the Hours of Service Act (45 U.S.C. 61-64b) were selected for detailed analysis.

The purpose of Part 228 is to assure that rail carriers maintain appropriate records to enable FRA to administer effectively the requirements of the Hours of Service Act. As a result of a detailed analysis, FRA has concluded that the recordkeeping requirements prescribed in sections 228.13 and 228.15 are not necessary to achieve that purpose. Section 228.13 requires rail carriers to keep a record of time delays of 10 minutes or more that are experienced at a single location by train and engine crews. Section 228.15 requires rail carriers to keep a record of train movements at specified locations. Examination of current enforcement practices revealed that these records were seldom utilized. In those rare instances where the information they contain would be useful, it can be obtained from other sources. For example, section 228.17 requires rail carriers to keep detailed records concerning train movements in each operating district.

FRA estimates that maintenance of the records required under sections 228.13 and 228.15 causes rail carriers to expend approximately 1,200,000 manhours each year.

Regulatory Impact

This proposal has been evaluated in accordance with existing regulatory policies. The proposal will only have a direct impact on railroads. It will not have an adverse economic impact on any entity since it reduces regulatory requirements and burdens. It may have a positive economic impact through cost reductions realized by the approximately 400 rail carriers subject to the regulation. However, the economic impact would be so minimal that it does not warrant a regulatory evaluation under the terms of Executive Order 12291.

Based on the facts set forth in this notice, it is certified that the proposed amendment will not have a significant economic impact on a substantial number of small entities under the provisions of the Regulatory Flexibility Act (Pub. L. 95-354, 94 Stat. 1164, September 19, 1980). The proposed amendment does not constitute a significant rule under the DOT regulatory policies and procedures.

Public Participation

Interested persons are invited to participate in this proceeding by submitting written data, views or comments. Communications should identify the regulatory docket number and the notice number and must be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street S.W., Washington, D.C. 20590. Persons desiring receipt of their communications to be acknowledged should attach a stamped pre-addressed postcard to the first page of each communication. Communications received before November 12, 1982, will be considered before final action is taken on the proposed rule. All comments received will be available for examination by interested persons at any time during regular working hours in Room 7321A, Nassif Building, 400 Seventh Street S.W., Washington, D.C. 20590.

FRA has not scheduled a public hearing to provide an opportunity for oral comments on this proposal because the facts do not appear to warrant it. Requests for a public hearing must be submitted in writing and received by the FRA Docket Clerk at the above address before October 8, 1982

The Proposed Rule

PART 228—HOURS OF SERVICE OF RAILROAD EMPLOYEES

In consideration of the foregoing, it is proposed to amend Part 228 of Title 49, Code of Federal Regulations as follows:

1. The references to §§ 228.13 and 228.15 are to be removed from the list of sections at the beginning of Part 228.

§ 228.13 [Removed]

2. Section 228.13 is to be removed in its entirety.

§ 228.15 [Removed]

3. Section 228.15 is to be removed in its entirety.

This notice is issued under the authority of Section 2 of the Hours of Service Act, as amended, 45 U.S.C. 61-64b; and the regulations of the Office of the Secretary of Transportation (49 CFR 1.49(d).

Issued in Washington, D.C. on September 13, 1982.

Robert W. Blanchette,

Administrator.

BILLING CODE 4910-06-M

National Highway Traffic Safety Administration

49 CFR Parts 565 and 571

[Docket No. 1-22; Notice 11]

Federal Motor Vehicle Safety Standards; Vehicle Identification Number; Notice of Proposed Rulemaking

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes, in response to a petition for rulemaking filed by the Motor Vehicle Manufacturers Association (MVMA), that portions of Federal Motor Vehicle Safety Standard No. 115, Vehicle Identification Number (49 CFR 571.115), be withdrawn and reissued as a regulation. This action is being taken because the recall and remedy provisions which apply to violations of the motor vehicle safety standards would be inappropriate to correct certain vehicle identification number (VIN) errors. Any violations of the VIN regulations could be corrected by submitting corrected data to the agency or by other relatively simple means.

DATE: Comments on this proposal must be submitted by November 22, 1982.

ADDRESS: Comments on this notice should refer to the docket number and notice number set forth in the heading above and should be submitted to: Docket Section, Room 5109, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590 (Docket hours are 8 a.m. to 4 p.m.)

FOR FURTHER INFORMATION CONTACT: Roger Fairchild, Office of Chief Counsel, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202-426-2992)

PAPERWORK REDUCTION ACT: Information collection requirements contained in this regulation have been approved by the Office of Management and Budget under the provisions of the Paperwork Reduction Act (Pub. L. 96-511) and have been assigned OMB Control Number 2127-0051.

SUPPLEMENTARY INFORMATION: The Motor Vehicle Manufacturers Association (MVMA) filed a petition on June 13, 1980, requesting that Federal Motor Vehicle Safety Standard No. 115 be withdrawn as a safety standard and reissued as a general agency regulation. On April 15, 1982, that petition was modified to request that only portions of FMVSS 115 be reissued as a regulation, with the other portions remaining a safety standard. As discussed below, the agency is herein proposing to make the changes sought by MVMA in their April 15 submission.

The current vehicle identification number (VIN) requirements were established on March 22, 1979, in 44 FR 17489, and became effective for the 1981 model year. Standard 115 specifies a 17 digit format, with specified digits or groups of digits providing such information as the identity of the manufacturer, a description of certain vehicle characteristics (such as engine type and body style), the model year, the plant where the vehicle was produced, and the sequence of production of the vehicle. Also included is a "check digit" which assists in detecting errors in transcription of VIN's by users of those numbers.

The standardized VIN serves a variety of functions. The agency's primary use for the VIN is in connection with safety defect recalls under section 154 of the National Traffic and Motor Vehicle Safety Act, 15 U.S.C. 1414, to identify and categorize vehicles. The VIN is also useful to law enforcement officials as an anti-theft mechanism, to insurance companies to identify and classify vehicles, to researchers for identifying vehicles in accident investigation programs, and to State governments for vehicle registration and titling purposes.

The basis for MVMA's concern with regard to the VIN standard is that section 152(b) of the Safety Act specifies that in cases of violation of a Federal motor vehicle safety standard, the affected manufacturer must notify owners and dealers of the violation and remedy the noncompliance. The only exception to this requirement is provided by section 157 of the Act, which authorizes manufacturers to petition for a determination that the noncompliance is "inconsequential." If, however, the VIN requirements were issued not as a standard but as a regulation, the mandatory recall requirements would not apply. That would also eliminate the necessity for submitting inconsequentiality petitions.

MVMA's objections to having to conduct a recall relating to incorrect VIN labeling are: that owners would be unlikely to bring vehicles to dealers to correct the VIN; that the VIN would, as a practical matter, have to be corrected at every location where it appears on the vehicle (one visible and three or more hidden places) to maintain the anti-theft benefits of the VIN, a potentially expensive process; that dealers could not maintain a stock of blank VIN plates due to the expense of the embossing equipment used to imprint the VIN on the plate and the need to control access to blank VIN plates to avoid the creation of false VIN's by thieves; that some States require that law enforcement personnel must witness any changing of VIN plates or require that only employees of the manufacturer may change a VIN, making corrections impracticable; and that many documents would have to be revised if a VIN were corrected, including manufacturer warranty records, State titling and registration files, insurance records, financing records, and records of the National Automobile Theft Bureau. MVMA argues that these problems militate against the use of recall campaigns to remedy VIN errors, and in favor of submitting corrective information to NHTSA, which operates as the central repository for other VIN decoding information.

MVMA argues that the advantage of their modified approach over that advocated in their original petition—coverting the entire VIN standard into a regulation—is clear preservation of Federal preemption. A VIN standard preempts non-identical state VIN requirements on the same aspects of performance (see Section 103(d) of the Safety Act), but MVMA argues that a VIN regulation may preempt state VIN reguirements only when there is a head-on conflict; i.e., when the state requirements cannot be obeyed without disobeying the Federal regulation. Therefore, to the extent that VIN's covered by a Federal standard rather than a Federal regulation, no valid non-identical state VIN requirements would be enforceable. Subjects such as the total number of VIN characters and the permanency and location of the VIN label or plate, which would be retained in MVMA's requested new Federal Motor Vehicle Safety Standard, would occupy the field and preclude non-identical state requirements.

The agency believes that MVMA's suggested course of corrective action may be appropriate. However, the agency is also mindful of the concerns expressed by Allstate Insurance Company in a letter opposing the MVMA petition. Allstate argued that maintaining the accuracy and uniqueness of VIN's issued under Standard 115 is critical to assuring the safety and other benefits of that standard. The agency has tentatively concluded that it can maintain the

accuracy and unique characteristics of the VIN system whether that system takes the form of a Federal Motor Vehicle Safety Standard or a general regulation or a composite of both.

Under the MVMA proposal, the VIN standard would control the more essential elements of the VIN, namely its general physical characteristics and location. The standard would specify that VIN's must have 17 characters including a check digit in the ninth position, and that no two vehicles manufactured within a 30-year period may have identical VIN's. The standard would also specify that the VIN must be affixed clearly and indelibly on the vehicle, and must be located on the driver's side dashboard on passenger cars and light trucks. The VIN regulation would specify the VIN format, structure and content as well as all reporting requirements. Also specified in the regulation would be the manner in which check digits are to be calculated.

From the agency's perspective, the main issue in evaluating the MVMA petition (other than possible impacts on Federal preemption) is the extent to which granting the petition would increase the number of uncorrected VIN errors and thereby possibly impair the usefulness of the VIN system in the agency's research. Certain types of VIN errors, such as numbers having more or less than the specified 17 characters or erroneous check digits, may be detected by State motor vehicle agencies when vehicle purchasers attempt to register vehicles. In that situation, the States may well deny applications for registration. MVMA in its revised petition has assured the agency that in that type of situation, manufacturers would voluntarily correct the error to avoid the inconvenience owners might encounter. Other types of VIN errors could be corrected by simply providing the necessary decoding information to the agency, which would place that information in a public file to make it available to other VIN users. Under the MVMA proposal, the agency could still take enforcement action where necessary, but would not be required to use the recall/inconsequentiality petition process for all errors, no matter how small.

In addition to responding to MVMA's petition, the notice also responds to several issues raised by other parties. Freightliner Corporation and others have raised an issue relating to the requirement in section 6.3 of the current standard that vehicle manufacturers submit to the agency at least 60 days prior to the date a VIN is affixed to a vehicle all information necessary to decipher the VIN. Several manufacturers, particularly small companies which are more likely to build vehicles to fill specific orders, have indicated that they will in many cases not know 60 days prior to the manufacturing date all the necessary VIN-related information about a future vehicle. For example, a company might receive an order for a unique version of a trailer which does not fit within its current VIN numbering system, and might be required to complete manufacturing of the trailer within less than 60 days. The purpose of the 60-day requirement was to permit users of the VIN to obtain necessary decoding information before vehicle purchasers begin registering the vehicles using the new VIN system. Therefore, the agency is proposing to modify section 6.3 of the current standard to permit manufacturing to submit decoding information less than 60 days prior to the manufacturing date if sufficient information to specify the VIN is unavailable in time to meet the generally applicable 60-day requirement.

The agency has also received inquiries as to the applicability of VIN requirements to vehicles manufactured abroad and not in compliance with Federal safety standards, but subsequently imported into the U.S. Requiring full compliance would be burdensome for the individual who imported the vehicle, and would involve obtaining a world manufacturer identifier and submitting diciphering information to NHTSA. Further, adding a conforming VIN would create a situation in which the vehicle had two identifying numbers, the one originally assigned by the manufacturer and the one added by the importer. The potential for confusion and anti-theft problems resulting from two VIN's on the same vehicle is deemed significant by the agency. Therefore, the agency is proposing to exempt such importers from the format and content requirements of the VIN standard and regulation, and basically require that the original VIN assigned by the manufacture be maintained by the importer.

Some minor clarifications are also being proposed in this notice. The first proposed revision would make explicit the agency's policy of requiring vehicle alterers to retain the VIN assigned by the vehicle's original manufacturer. Vehicle alterers modify completed vehicles in some significant manner, such as by replacing the vehicle's original engine with a different one. The agency believes this policy would avoid problems involving tampering with previously assigned VIN's. A second revision would make clear that the manufacturer identifier portion of VIN's will be assigned by the Society of Automotive Engineers, under a contract with the agency. See 44 FR 52784, September 10, 1979. The agency is also proposing to clarify that the VIN for multipurpose passenger vehicles must be affixed in the same location as for light trucks, and that trailers kits are subject to VIN requirements.

The principal impact of this proposal is to remove the threat of an unduly burdensome recall requirement to correct VIN errors. The new Part 565 would have no requirements not now in FMVSS 115. The agency anticipates that the manufacturers will continue to assign VIN's in the same manner regardless of whether VIN requirements take the form of a safety standard or a regulation. Further, the agency anticipates that the corrective action required in case of erroneous VIN's would not essentially differ as a result of this proposed change, since only in extreme cases can the agency envision ordering a vehicle recall.

For these reasons, the agency has concluded that the environmental consequences of this action will be of such limited scope that they clearly will not have a significant effect on the quality of the human environment; that this proposal does not qualify as a "major rule" within the meaning of Executive Order 12291; and that, due to its minimal cost impacts, this rule is not "significant" within the meaning of the Department's regulatory procedures. Therefore, preparation of a regulatory analysis or full regulatory evaluation is not necessary for this proposal. The agency recognizes this rulemaking action, if promulgated, would have a small, positive impact on small firms—particularly small manufacturers and small importers. If established as a final rule, this action would provide relief to small manufacturers from the generally applicable 60-day VIN pre-notification requirements in the case of orders for unique vehicle configurations. The agency is also proposing to exempt small importers (principally individuals importing one vehicle for their own use) from certain VIN format and content requirements. Given the relatively minor economic consequences of these changes, I certify that this proposal, if adopted, would have no significant economic impacts on a substantial number of small entities, including small organizations or governmental units. For this reason no Regulatory Flexibility Analysis will be prepared. If adopted, these proposed changes should have no

impact on vehicle prices. Nor does the agency anticipate any impacts on small organizations or governmental units.

Interested persons are invited to submit comments on the proposal. It is requested but not required that 10 copies be submitted.

All comments must be limited not to exceed 15 pages in length. Necessary attachments may be appended to these submissions without regard to the 15 page limit. This limitation is intended to encourage commenters to detail their primary arguments in a concise fashion.

If a commenter wished to submit certain information under a claim of confidentiality, three copies of the complete submission, including purportedly confidential information, should be submitted to the Chief Counsel, NHTSA, at the street address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. Any claim of confidentiality must be supported by a statement demonstrating that the information falls within 5 U.S.C. section 552(b)(4), and that disclosure of the information is likely to result in substantial competitive damage; specifying the period during which the information must be withheld to avoid that damage; and showing that earlier disclosure would result in that damage. In addition, the commenter or, in the case of a corporation a responsible corporate official authorized to speak for the corporation must certify in writing that each item for which confidential treatment is requested is in fact confidential within the meaning of section 552(b)(4) and that a diligent search has been conducted by the commenter or its employees to assure that none of the specified items has previously been disclosed or otherwise become available to the public.

All comments received before the close of business on the comment closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Those persons desiring to be notified upon receipt of their comments in the rules docket should enclose, in the envelope with their comments, a self addressed stamped postcard. Upon receiving the comments, the docket supervisor will return the postcard by mail.

(Secs. 108, 112, 119, and 152, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1397, 1401, 1407, and 1412); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on August 30, 1982.

Courtney M. Price,

Associate Administrator for Rulemaking.

For the reasons stated above, the agency is proposing to amend Chapter V of Title 49 of the Code of Federal Regulations as follows:

1. A new Part 565 would be added, reading as follows:

PART 565—VEHICLE IDENTIFICATION NUMBER

Sec.

565.1 Purpose and scope.
565.2 Application.
565.3 Definitions.
565.4 General requirements.
565.5 Reporting requirements.

Authority: Secs. 108, 112, 119, 152, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1397, 1401, 1407, and 1412); delegations of authority at 49 CFR 1.50 and 501.8.

§ 565.1 Purpose and scope.

This regulation specifies the format and content for a vehicle identification number (VIN) system to simplify vehicle identification information retrieval and increase the accuracy and efficiency of vehicle defect recall campaigns.

§ 565.2 Applicability.

This regulation applies to passenger cars, multipurpose passenger vehicles, trucks, buses, trailers, trailer kits, incomplete vehicles and motorcycles. Vehicles imported into the United States under 19 CFR 12.80(b)(1)(iii) are exempt from the requirements of this Part.

§ 565.3 Definitions.

(a) Statutory Definitions: All terms used in this part that are defined in section 102 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1391) are used as defined in the Act.

(b) Motor Vehicle Safety Standard Definitions: Unless otherwise indicated, all terms used in this part that are defined in 49 CFR 571.115 are used as defined therein.

(c) "Body Type" means the general configuration or shape of a vehicle distinguished by such characteristics as the number of doors or windows, cargo-carrying features and the roofline (e.g., sedan, fastback, hatchback).

(d) "Engine Type" means a power source with defined characteristics such as fuel utilized, number of cylinders, displacement, and net brake horsepower. The specific manufacturer and make shall be represented if the engine powers a passenger car or a multipurpose passenger vehicle, or truck with a gross vehicle weight rating of 10,000 pounds or less.

(e) "Line" means a name which a manufacturer applies to a family of vehicles within a make which have a degree of commonality in construction, such as body, chassis or cab type.

(f) "Make" means a name which a manufacturer applies to a group of vehicles or engines.

(g) "Model" means a name which a manufacturer applies to a family of vehicles of the same type, make, line, series, and body type.

(h) "Model Year" means the year used to designate a discrete vehicle model irrespective of the calendar year in which the vehicle was actually produced, so long as the actual period is less than two calendar years.

(i) "Plant of manufacture" means the plant where the manufacturer affixes the VIN.

(j) "Series" means a name which a manufacturer applies to a subdivision of a "line" denoting price, size or weight identification, and which is utilized by the manufacture for marketing purposes.

(k) "Type" means a class of vehicle distinguished by common traits, including design and purpose. Passenger cars, multipurpose passenger vehicles, trucks, buses, trailers, incomplete vehicles, and motorcycles are separate types.

§ 565.4 General requirements.

The VIN shall consist of four sections of characters which shall be grouped accordingly:

(a) The first section shall consist of three characters which occupy positions one through three (1–3) in the VIN. This

section shall uniquely identify the manufacturer, make and type of the motor vehicle if its manufacturer produces 500 or more motor vehicles of its type annually. If the manufacturer produces less than 500 motor vehicles of its type annually, those three characters along with the third, fourth and fifth characters of the fourth section shall uniquely identify the manufacturer, make and type of the motor vehicle. These characters are assigned in accordance with section 565.5(c) of this Part.

(b) The second section shall consist of five characters which occupy positions four through eight (4–8) in the VIN. This section shall uniquely identify the attributes of the vehicle as specified in Table I. For passenger cars, and for multipurpose passenger vehicles and trucks with a gross vehicle weight rating of 10,000 pounds or less, the first and second characters shall be alphabetic and the third and fourth characters shall be numeric. The fifth character may be either alphabetic or numeric. The characters utilized and their placement within the section may be determined by the manufacturer, but the specified attributes must be decipherable with information supplied by the manufacturer in accordance with § 565.5(d) of this Part. In submitting the required information to the NHTSA relating to gross vehicle weight rating, the designations in Table II shall be utilized. The use of these designations within the VIN itself is not required.

TABLE I.—TYPE OF VEHICLE AND INFORMATION DECIPHERABLE

Passenger car: Line, series, body type, engine type,[1] and restraint system type.
Multi-purpose passenger vehicle: Line, series, body type, engine type,[1] gross vehicle weight rating.
Truck: Model or line, series, chassis, cab type, engine type,[1] brake system and gross vehicle weight rating.
Bus: Model or line, series, body type, engine type,[1] and brake system.
Trailer: Type of trailer, series, body type, length, and axle configuration.[1]
Motorcycle: Type of motorcycle, line, engine type,[1] and net brake horsepower.[1]
Incomplete vehicle: Model or line, series, cab type, engine type,[1] and brake system.

[1] Engine net brake horsepower when encoded in the VIN shall differ by no more than 10 percent from the actual net brake horsepower; shall, in the case of motorcycle with an actual net brake horsepower of 2 or less, be not more than 2; and shall, in the case of a motorcycle with an actual brake horsepower greater than 2, be greater than 2.

TABLE II.—GROSS VEHICLE WEIGHT RATING CLASSES

Class A	Not greater than 3,000 pounds.
Class B	3,001–4,000 pounds.
Class C	4,001–5,000 pounds.
Class D	5,001–6,000 pounds.
Class E	6,001–7,000 pounds.
Class F	7,001–8,000 pounds.
Class G	8,001–9,000 pounds.
Class H	9,001–10,000 pounds.
Class 3	10,001–14,000 pounds.
Class 4	14,001–16,000 pounds.
Class 5	16,001–19,500 pounds.
Class 6	19,501–26,000 pounds.
Class 7	26,001–33,000 pounds.
Class 8	33,001 pounds and over.

(c) The third section shall consist of one character which occupies position nine (9) in type VIN. This section shall be the check digit whose purpose is to provide a means for verifying the accuracy of any VIN transcription. After all other characters in the VIN have been determined by the manufacturer, the check digit shall be calculated by carrying out the mathematical computation specified in paragraphs (c)(1) through (4) of this section.

(f) Assign to each number in the VIN its actual mathematical value and assign to each letter the value specified for it in Table III.

TABLE III.—ASSIGNED VALUES

A=1	J=1	T=3
B=2	K=2	U=4
C=3	L=3	V=5
D=4	M=4	W=6
E=5	N=5	X=7
F=6	P=7	Y=8
G=7	R=9	Z=9
H=8	S=2	

(2) Multiply the assigned value for each character in the VIN by the position weight factor specified in Table IV.

TABLE IV.—VIN POSITION AND WEIGHT FACTOR

1st	8	10th	9
2d	7	11th	8
3d	6	12th	7
4th	5	13th	6
5th	4	14th	5
6th	3	15th	4
7th	2	16th	3
8th	10	17th	2
9th (check digit)	0		

(3) Add the resulting products and divide the total by 11.

(4) The numerical remainder is the check digit. If the remainder is 10 the letter "X" shall be used to designate the check digit. The correct numerical remainder zero through nine (0–9) or the letter "X" shall appear in VIN position nine (9).

(5) A sample check digit calculation is shown in Table V.

TABLE V.—CALCULATIONS OF A CHECK DIGIT

VIN Position	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
Sample VIN	1	G	4	A	H	5	9	H	———	5	G	1	1	8	3	4	1
Assigned value	1	7	4	1	8	5	9	8	———	5	7	1	1	8	3	4	1
Multiply by weight factor	8	7	6	5	4	3	2	10	0	9	8	7	6	5	4	3	2

Add products 8+49+24+5+32+15+16+80+0+45+56+7+6+40+12+12+2=411
Divide sum of products by 11: 411/11=37 4/11
Remainder is check digit #4 [insert in VIN position nine (9)]

(d) The fourth section shall consist of eight characters which occupy positions ten through seventeen (10–17) of the VIN. The last five (5) characters of this section shall be numeric for passenger cars, and for multi-purpose passenger vehicles and trucks with a gross vehicle weight rating of 10,000 pounds or less, and the last four (4) characters shall be numeric for all other vehicles.

(1) The first character of the fourth section shall represent the vehicle model year. The year shall be designated as indicated in Table VI.

TABLE VI

Year	Code	Year	Code
1980	A	1997	V
1981	B	1998	W
1982	C	1999	X
1983	D	2000	Y
1984	E	2001	1

TABLE VI—Continued

Year	Code	Year	Code
1985	F	2002	2
1986	G	2003	3
1987	H	2004	4
1988	J	2005	5
1989	K	2006	6
1990	L	2007	7
1991	M	2008	8
1992	N	2009	9
1993	P	2010	A
1994	R	2011	B
1995	S	2012	C
1996	T	2013	D

(2) The second character of the fourth section shall represent the plant of manufacture.

(3) The third through the eighth characters of the fourth section shall represent the number sequentially assigned by the manufacturer in the production process if the manufacturer produces 500 or more vehicles of its type annually. If the manufacturer produces less than 500 motor vehicles of its type annually, the third, fourth, and fifth characters of the fourth section, combined with the three characters of the first section, shall uniquely identify the manufacturer, make and type of the motor vehicle and the sixth, seventh, and eighth characters of the fourth section shall represent the number sequentially assigned by the manufacturer in the production process.

§ 565.5 Reporting requirements.

(a) Information collection requirements contained in this regulation have been approved by the Office of Management and Budget under the provisions of the Paperwork Reduction Act (Pub. L. 96–511) and have been assigned OMB Control Number 2127–0051.

(b) Manufacturers of motor vehicles subject to this regulation shall submit, either directly or through an agent, the unique identifier for each make and type of vehicle it manufacturers a least 60 days before affixing the first VIN using the identifier. Manufacturers whose unique identifier appears in the fourth section of the VIN shall also submit the three characters of the first section which constitutes a part of their identifier.

(c) The NHTSA has contracted with the Society of Automotive Engineers (SAE) to coordinate the assignment of manufacturer identifiers. Manufacturer identifiers will be supplied by SAE at no charge. All requests for assignments of manufacturer identifiers should be forwarded directly to: Society of Automotive Engineers, 400 Commonwealth Avenue Warrendale, Pennsylvania 15096, Attention: WMI Coordinator.

Any requests for identifiers submitted to NHTSA will be forwarded to SAE. Manufacturers may requests a specific identifier or may request only assignment of an identifier(s) SAE will review requests for specific identifiers to determine that they do not conflict with an identifier already assigned or block of identifiers already reserved. SAE will confirm the assignments in writing to the requester. Once confirmed by SAE, the identifiers need not be resubmitted to the NHTSA.

(d) Manufacturers of motor vehicles subject to the requirements of this regulation shall submit to the NHTSA the information necessary to decipher the characters contained in its VIN's. Amendments to this information shall be submitted to the agency for VIN's containing an amended coding. The agency will not routinely provide written approvals of these submissions, but will contact the manufacturer should any corrections to these submissions be necessary.

(e) The information required under paragraph (d) of this section 565.5.3 shall be submitted at least 60 days prior to offering for sale the first vehicle identified by a VIN containing that information, or if information concerning vehicle characteristics sufficient to specify the VIN Code is unavailable to the manufacturer by that date, then within one week after that information first becomes available. The information shall be addressed to: Admininistrator, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590, Attention: VIN Coordinator.

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARD

2. Section 571.115 would be revised to read as follows:

§ 571.115 Standard No. 115; Vehicle identification number.

S1. *Purpose and Scope.*

This standard specifies general physical requirements for a vehicle identification number (VIN) and its installation to simplify vehicle information retrieval and to reduce the incidence of accidents by increasing the accuracy and efficiency of vehicle recall campaigns. Vehicles imported into the United States under 19 CFR 12.80(b)(1)(iii) are exempt from the requirements of sections 4.1, 4.2, and 4.7 of this standard.

S2. *Application.*

This standard applies to passenger cars, multipurpose passenger vehicles, trucks, buses, trailers, incomplete vehicles and motorcycles.

S3. *Definitions.*

"Check digit" means a single number or the letter X used to verify the accuracy of the transcription of the vehicle identification number.

"Incomplete vehicle" means an assemblage consisting, as a minimum, of frame and chassis structure, power train, steering system, suspension system, and braking system, to the extent that those systems are to be part of the completed vehicle, that requires further manufacturing operations, other than the addition of readily attachable components, such as mirrors or tire and rim assemblies, or minor finishing operations such as painting, to become a completed vehicle.

"Vehicle identification number" means a series of arabic numbers and roman letters which is assigned to a motor vehicle for identification purposes.

S4. *Requirements.*

S4.1 The VIN shall consist of seventeen (17) characters.

S4.2 A check digit shall be part of each VIN. The check digit shall appear in position nine (9) of the VIN on the vehicle and on any transfer documents containing the VIN and prepared by the manufacturer to be given to the first owner for purposes other than resale.

S4.3 The VIN's of any two vehicles manufactured within a 30-year period shall not be identical.

S4.4 The VIN of each vehicle shall appear clearly and indelibly upon either a part of the vehicle other than the glazing that is not designed to be removed except for repair or upon a separate plate or label which is permanently affixed to such a part.

S4.5 The VIN for passenger cars, multipurpose passenger vehicles, and trucks of 10,000 pounds or less GVWR shall be located inside the passenger compartment. It shall be readable, without moving any part of the vehicle, through the vehicle glazing under daylight lighting conditions by an observer having 20/20 vision (Snellen) whose eye-point is located outside the vehicle adjacent to the left windshield pillar.

S4.6 Each vehicle manufactured in one stage shall have a VIN that is assigned by the manufacturer. Each vehicle manufactured in more than one stage shall have a VIN assigned by the incomplete vehicle manufacturer. Vehicle alterers, as specified in 49 CFR 567.7, shall utilize the VIN assigned by the original manufacturer of the vehicle.

S4.7 Each character in the VIN shall be one of the Arabic or Roman letters set forth in Table 1.

TABLE 1

Numbers:
1234567890
Letters:
ABCDEFGHJKLMNPRSTUVWXYZ

All spaces provided for in the VIN must be occupied by a character specified in Table 1.

S4.8 The type face utilized for the VIN shall consist of capital, san serif characters. Each character in the VIN shall have a minimum height of 4 mm.

BILLING CODE 4910-59-M

49 CFR Part 571

[Docket No. 82-16; Notice 1]

Federal Motor Vehicle Safety Standards; Lamps, Reflective Devices, and Associated Equipment

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The purpose of this notice is to propose an amendment to Safety Standard No. 108 that would allow installation of a modulating headlamp on motorcycles. Such a headlamp, whose use is currently not allowed, could improve conspicuity of a motorcycle and its operator during daylight. The proposal implements the agency's grant of a petition by Harley-Davidson Motor Co., Inc.

DATES: Comment closing date for the proposal is November 8, 1982. Effective date of an amendment would be 30 days after publication of the final rule in the **Federal Register**.

ADDRESSES: Comments should refer to the docket number and notice number of this notice and be submitted to: Docket Section, Room 5109, 400 Seventh Street, SW., Washington, D.C. 20590. (Docket hours are from 8 a.m. to 4 p.m., Monday through Friday.)

FOR FURTHER INFORMATION CONTACT: Marx Elliott, Office of Rulemaking, National Highway Traffic Safety Administration, Washington, D.C. 20590 (202-426-1714).

SUPPLEMENTARY INFORMATION: Paragraph S4.6(b) of Standard No. 108 requires headlamps to be steady burning when in use although allowing them to be flashed for signalling purposes. This allows cycles of activation and deactivation of the headlamp but it has not been interpreted as allowing cycles of varying intensity (modulation).

Harley-Davidson Motor Co., Inc. of Milwaukee, a manufacturer of motorcycles would like to introduce headlamp modulation as an option and petitioned the agency for an amendment to allow it. The agency has granted the petition. Under agency procedures (49 CFR 552.9(a)) the granting of a petition and the commencement of a rulemaking proceeding does not signify, however, that the standard will be amended. A decision as to the amendment of the standard is made on the basis of all available information developed in the course of the rulemaking proceeding, in accordance with statutory criteria.

In 1979, on behalf of the agency, the Highway Safety Research Institute evaluated various means of increasing the conspicuity of motorcycles and their operators (DOT-HS-805143). More than 30 types of conspicuity treatments were developed. Three principal means of improvement were found. One was the wearing by the cyclist of a high visibility vest and helmet cover. Another was continual operation of the low beam of the headlamp during daylight (it is now the practice of virtually all cycle manufacturers to wire the headlamp so that it is on when the engine is running). The third was a modulation of the headlamp from high beam to low beam three times per second. Data show that about 75 percent of motorcycle accidents occur in daytime. Therefore, enhancement of conspicuity is manifestly in the interests of motor vehicle safety. State legislatures have shown interest in allowing modulated headlamps on their highways, and NHTSA believes that cyclists should be afforded an option to choose this type headlamp.

The proposal would amend what is presently designated as S4.6 to allow a normally steady burning motorcycle headlamp to be wired to modulate on the upper beam from higher to lower intensity at a pulse rate from 150 to 240 cycles per minute. S4.6 specifies which lamps are to be steady burning and which may flash. Since those requirements relate to wiring, it is proposed to renumber this section S4.5.8, since paragraph S4.5 contains all the standard's other specific wiring requirements for lighting equipment. S4.7 would then be renumbered S4.6.

The agency is particularly interested in comments from States, and from individuals who have used these lamps, with emphasis on whether there is a potential for misuse, such as the likelihood of use of the modulating mode under conditions such as inclement weather or dusk when the steady-burning mode is required for safety, or inadvertently by novice motorcyclists or others unfamiliar with this type of headlamp system.

NHTSA has considered the impacts of this proposal and has determined that it is neither major within the meaning of Executive Order 12291 nor significant under Department of Transportation guidelines regarding regulatory policy and procedure. The proposal will have an impact only on those who voluntarily choose to produce and buy an alternative headlamp. Because the modulating headlamp will not be required but simply an option to a standard motorcycle headlamp, there will be no mandatory increased manufacturing costs connected with this proposal. The cost to the consumer who wishes to purchase a headlamp with a modulating switch could be as much as $60. The impacts are so minimal that preparation of a regulatory impact analysis or a full regulatory evaluation is not warranted.

NHTSA has analyzed this proposal for the purposes of the National Environmental Policy Act, and has determined that it would not have a significant effect on the human environment since neither the weight nor quantity of materials used in the manufacture of the lamps is greatly affected. The agency has also considered the impacts of this proposal in relation to the Regulatory Flexibility Act, and certifies that this proposal would not have a significant economic impact on a substantial number of small entities. Accordingly, the agency has not prepared a flexibility analysis. Manufacturers of motorcycle headlamps, those affected by the proposal, are generally not small businesses within the meaning of the Regulatory Flexibility Act. Further, compliance with the proposed changes would be optional. Small organizations and governmental jurisdictions would be affected only to the extent that law enforcement agencies chose to purchase motorcycles with modulating headlamps.

Interested persons are invited to submit comments on the proposal. It is requested but not required that 10 copies be submitted.

All comments must be limited not to exceed 15 pages in length. Necessary attachments may be appended to these submissions without regard to the 15 page limit. This limitation is intended to encourage commenters to detail their primary arguments in a concise fashion.

If a commenter wishes to submit certain information under a claim of

confidentiality, three copies of the complete submission, including purportedly confidential information, should be submitted to the Chief Counsel, NHTSA, at the street address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. Any claim of confidentiality must be supported by a statement demonstrating that the information falls within 5 U.S.C. 552(b)(4), and that disclosure of the information is likely to result in substantial competitive damage; specifying the period during which the information must be withheld to avoid that damage; and showing that earlier disclosure would result in that damage. In addition, the commenter or, in the case of a corporation, a responsible corporate official authorized to speak for the corporation must certify in writing that each item for which confidential treatment is requested is in fact confidential within the meaning of section 552(b)(4) and that a diligent search has been conducted by the commenter or its employees to assure that none of the specified items has previously been disclosed or otherwise become available to the public.

All comments received before the close of business on the comment closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Those persons desiring to be notified upon receipt of their comments in the rules docket should enclose, in the envelope with their comments, a self addressed stamped postcard. Upon receiving the comments, the docket supervisor will return the postcard by mail.

The engineer and attorney primarily responsible for this notice are Marx Elliott and Taylor Vinson, respectively.

List of Subjects in 49 CFR Part 571

Imports, Motor vehicle safety, Motor vehicles, Motor vehicle equipment, Lamps—reflective devices and associated equipment.

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

In consideration of the foregoing, it is proposed that 49 CFR 571.108 be amended as follows:

§ 571.108 [Amended]

1. Paragraph S4.6 would be retitled S4.5.8 and revised to read:

S4.5.8 The wiring requirements for lighting equipment in use are:

(a) Turn signal lamps, hazard warning signal lamps, and school bus warning lamps shall be wired to flash;

(b) Headlamps and side marker lamps may be wired to flash for signaling purposes;

(c) A motorcycle headlamp may be wired to be both steady burning and to modulate its upper beam from a higher intensity to a lower intensity at any rate between 150 and 240 pulses per minute;

(d) All other lamps shall be wired to be steady burning.

2. Paragraphs S4.7, S4.7.1 and S4.7.2 would be renumbered "S4.6", "S4.6.1" and "S4.6.2" respectively.

3. The reference in S4.7.2 to "S4.7.1" would be changed to "S4.6.1".

(Secs. 103, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.50 and 501.8)

Issued on September 20, 1982.

Courtney M. Price,

Associate Administrator for Rulemaking.

Foreign-Trade Zones Board

[Docket No. 1–81]

Application for Expansion of Foreign-Trade Zone 62 (Brownsville Customs Port of Entry); Withdrawal Approved

Notice is hereby given that the Brownsville Navigation District, Grantee of Foreign-Trade Zone No. 62, Brownsville, has requested withdrawal of the application to expand its zone, filed with the Foreign-Trade Zones Board on January 5, 1981 (Docket No. 1–81). The reason is that the proposal is no longer appropriate because of a more current and comprehensive application (Docket No. 15–82) for expansion filed on July 26, 1982 (47 FR 35266, 8/13/82).

The withdrawal has been approved and the case is considered closed effective September 15, 1982.

Dated: September 17, 1982.

John J. Da Ponte, Jr.,
Executive Secretary, Foreign-Trade Zones Board.

[FR Doc. 82-26246 Filed 9-22-82; 8:45 am]
BILLING CODE 3510-25-M

[Order No. 200]

Resolution and Order Approving the Application of the City of San Antonio, Tex., for a Foreign-Trade Zone in San Antonio and Bexar County, Within the San Antonio Customs Port of Entry

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

Resolution and Order

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter, hereby orders:

After consideration of the application of the City of San Antonio, Texas, filed with the Foreign-Trade Zones Board (the Board) of February 1, 1982, requesting a grant of authority for establishing, operating, and maintaining a general-purpose foreign-trade zone in San Antonio and Bexar County, within the San Antonio Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

As the proposal involves open space on which buildings may be constructed by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to Section 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army District Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Board's Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

Foreign-Trade Zones Board, Washington, D.C.

Grant To Establish, Operate, and Maintain a Foreign-Trade Zone in San Antonio, Texas

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a–81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the City of San Antonio, Texas (the Grantee), has made application (filed February 1, 1982) in due and proper form to the Board, requesting the establishment, operation, and maintenance of a foreign-trade

zones at three sites in San Antonio and Bexar County, Texas, within the San Antonio Customs port of entry;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and,

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, Therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 80 at the locations mentioned above and more particularly described on the maps and drawings accompanying the application in Exhibits IX and X, subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations:

Operation of the foreign-trade zone shall be commence by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone site in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the Army District Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In Witness Whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C. this 16th day of September 1982, pursuant to Order of the Board.

Foreign-Trade Zones Board.
Malcolm Baldrige,
Chairman and Executive Officer.

Attest:
John J. Da Ponte, Jr.,
Executive Secretary.

BILLING CODE 3510-25-M

International Trade Administration

Chain of Iron or Steel From Japan; Preliminary Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of preliminary results of administrative review of countervailing duty order.

SUMMARY: The Department of Commerce has conducted an administrative review of the countervailing duty order on chain of iron or steel from Japan. The review covers the period January 1, 1981 through December 31, 1981. As a result of this review, the Department has preliminarily determined the amount of the net subsidy to be 1.95 percent of the f.o.b. invoice price of the merchandise. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: September 23, 1982.

FOR FURTHER INFORMATION CONTACT: Joseph A. Black or Richard W. Moreland, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202, 377-1774/2786).

SUPPLEMENTARY INFORMATION:

Background

On May 24, 1982, the Department of Commerce ("the Department") published in the **Federal Register** (47 FR 22391) the final results of its first administrative review of the countervailing duty order on chain of iron or steel from Japan (43 FR 37685) and announced its intent to conduct the next administrative review by the end of August 1982. As required by section 751 of the Tariff Act of 1930 ("the Tariff Act"), the Department has now conducted that administrative review.

Scope of the Review

The merchandise covered by the review is chain of iron or steel, the links of which are essentially round in cross section, and parts thereof. This merchandise is currently classifiable under items 652.2410 through .2450, 652.2710 through .2740, 652.3010 through .3040, 652.3310 thorugh .3330 and 652.3510 through .3530 of the Tariff Schedules of the United States Annotated.

The review covers the period January 1, 1981 through December 31, 1981. The program covered by this review is tax deferrals on funds held in the Overseas Market Development Reserve.

Analysis of Programs

The Government of Japan has not responded to our questionnaire on the status of benefits bestowed on the covered merchandise under this program during the review period. Therefore, the Department is using the subsidy calculated during our previous administrative review as the best information available.

Preliminary Results of Review

As a result of our review, we preliminarily determine that the net subsidy conferred by the program cited above is 1.95 percent *ad valorem*. Accordingly, the Department intends to instruct the Customs Service to assess countervailing duties of 1.95 percent of the f.o.b. invoice price on the merchandise exported during the period January 1, 1981, through December 31, 1981.

Further, the Department intends to instruct the Customs Service to collect a cash deposit of esitmated countervailing duties of 1.95 percent on all shipments of this merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of the current review. This deposit requirement shall remain in effect until publication of the final results of the next administrative review.

Interested parties may submit written comments on these preliminary results within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within 10 days of the date of publication. Any request for an administrative protective order must be made no later than 5 days after the date of publication. The Department will publish the final results of this administrative review including the results of its analysis of issues raised in written comments or at a hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1))

and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Gary N. Horlick,
Deputy Assistant Secretary for Import Administration.

September 30, 1982.

BILLING CODE 3510-25-M

Instant Potato Granules From Canada; Preliminary Results of Administrative Review of Antidumping Finding and Intent To Revoke in Part

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of preliminary results of administrative review of antidumping finding and intent to revoke in part.

SUMMARY: The Department of Commerce has conducted an administrative review of the antidumping finding on instant potato granules from Canada. The review covers the three known exporters of this merchandise to the United States and generally the period October 1, 1980 through September 30, 1981. The review indicates the existence of dumping margins for two of the firms reviewed and no shipments for the third firm.

As a result of this review, the Department has preliminarily determined to assess dumping duties for the two firms based on the best information available. The response by one of the firms was inadequate and that by the other was untimely, incomplete and not properly summarized. The Department intends to revoke the finding with respect to the third firm. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: September 23, 1982.

FOR FURTHER INFORMATION CONTACT: Dennis U. Askey or David R. Chapman, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202-377-2923).

SUPPLEMENTARY INFORMATION:

Background

On November 30, 1981, the Department of Commerce ("the Department") published in the **Federal Register** (46 FR 55297-8) the preliminary results of its first administrative review of, and tentative determination to revoke in part, the antidumping finding on instant potato granules from Canada. For Carnation, Inc., the firm covered by the tenative determination, the review covered the period January 1, 1974 through September 30, 1980. On May 11, 1982, the Department published the final results of the administrative review and announced its intent to conduct the next administrative review by the end of September 1982 (47 FR 20170-1). As required by section 751 of the Tariff Act of 1930 ("the Tariff Act"), the Department has now conducted that administrative review.

Scope of the Review

Imports covered by the review are shipments of instant potato granules from Canada, currently classifiable under items 140.5000, 140.7000, and 141.8610 through 141.8630 of the Tariff Schedules of the United States Annotated (TSUSA).

The review covers the three known exporters of Canadian instant potato granules to the United States and the period October 1, 1980 through September 30, 1981. In addition, we have reviewed for one of the three firms, Carnation, Inc., the period October 1, 1981 through November 30, 1981, the date of publication of the Department's tenative determination to revoke with regard to this firm.

The Department received an inadequate response from one of the firms, Vauxhall Foods, Ltd. ("Vauxhall"). Another firm, McCain Foods, Ltd. ("McCain"), provided an untimely response that was both incomplete and not accompanied by a proper non-confidential summary as required by section 353.28(a) of the Commerce Regulations. Therefore, for Vauxhall and McCain we used the best information available to determine the assessment and estimated duty deposit rates. The best information available is the most recent rate for each firm.

Preliminary Results of the Review

As a result of our review, we preliminarily determine that the following margins exist:

Manufacturer/exporter	Time period	Margin (percent)
Carnation	Oct. 1, 1980 to Nov. 30, 1981	0
McCain	Oct. 1, 1980 to Sept. 30, 1981	8.7
Vauxhall	do.	35.5

[1] No shipments during the period.

As provided for in § 353.54(e) of the Commerce Regulations, Carnation has agreed in writing to an immediate suspension of liquidation and reinstatement of the finding if circumstances develop which indicate that instant potato granules produced by Carnation and thereafter imported into the United States are being sold by it at less than fair value.

Intent To Revoke in Part

As a result of our review we intend to revoke the finding on instant potato granules from Canada with regard to Carnation. If the finding is revoked with regard to Carnation it shall apply to unliquidated entries of instant potato granules exported by Carnation entered, or withdrawn from warehouse, for consumption on or after November 30, 1981.

Interested parties may submit written comments on these preliminary results within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within 10 days of the date of publication. Any hearing, if requested, will be held 30 days after the date of publication or the first workday thereafter. Any request for an administrative protective order must be made within 5 days of the date of publication. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing.

The Department shall determine, and the U.S. Customs Service shall assess, dumping duties on all appropriate entries made with purchase dates during the time period involved. The Department will issue assessment instructions on each exporter directly to the Customs Service.

Further, as provided for in § 353.48(b) of the Commerce Regulations, a cash deposit of estimated antidumping duties based on the above margin for each firm shall be required on all shipments of Canadian instant potato granules from the remaining firms entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results. These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This administrative review, intent to revoke, and notice are in accordance with sections 751 (a)(1) and (c) of the Tariff Act (19 U.S.C. 1675 (a)(1), (c)) and

§§ 353.53 and 353.54 of the Commerce Regulations (19 CFR 353.53, 353.54).

Gary N. Horlick,
Deputy Assistant Secretary for Import Administration.
September 17, 1982.

BILLING CODE 3510-25-M

Preliminary Affirmative Countervailing Duty Determination; Pectin From Mexico

AGENCY: International Trade Administration, Commerce.

ACTION: Preliminary affirmative countervailing duty determination.

SUMMARY: We preliminarily determine that certain benefits which constitute bounties or grants within the meaning of the countervailing duty law are being provided to manufacturers, producers, or exporters in Mexico of pectin as described in the "Scope of the Investigation" section of this notice. The estimated net subsidy is 8.353 percent *ad valorem.* Therefore, we are directing the U.S. Customs Service to suspend liquidation of all entries of the product subject to this determination which are entered, or withdrawn from warehouse, for consumption, and to require a cash deposit or bond on pectin in the amount equal to the estimated net subsidy. If this investigation proceeds normally, we will make our final determination by December 1, 1982.

EFFECTIVE DATE: September 23, 1982.

FOR FURTHER INFORMATION CONTACT: Mary A. Martin, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone: (202) 377-1276.

SUPPLEMENTARY INFORMATION:

Preliminary Determination

Based upon our investigation, we preliminarily determine that there is reason to believe or suspect that the government of Mexico provides certain benefits which constitute bounties or grants within the meaning of section 303 of the Tariff Act of 1930, as amended (the Act), to manufacturers, producers, or exporters in Mexico of pectin as described in the "Scope of Investigation" section of this notice.

We estimate the net subsidy to be 8.353 percent *ad valorem.*

Case History

On June 24, 1982, we received a petition from Hercules, Inc. of Wilmington, Delaware, on behalf of the U.S. industry producing pectin. The petition alleged that certain benefits which constitute bounties or grants within the meaning of section 303 of the Act are being provided, directly or indirectly, to the manufacturer, producer, or exporter of pectin in Mexico.

Since Mexico is not a "country under the Agreement" within the meaning of section 701(b) of the Act, and pectin is dutiable, the domestic industry is not required to allege that, and the U.S. International Trade Commission (ITC) is not required to determine whether, imports of this product cause or threaten material injury to the U.S. industry in question.

We reviewed the petition, and on July 12, 1982, determined that an investigation should be initiated (47 FR 31414).

We presented a questionnaire concerning the allegations to the government of Mexico at its embassy in Washington, D.C. On August 27, 1982, we received a partial response to the questionnaire. Additional information was supplied on September 7 and 9, 1982. We are considering the government of Mexico's request that the response be classified pursuant to Executive Order 12356 (effective August 1, 1982).

Scope of the Investigation

The merchandise covered by this investigation is pectin from Mexico. The merchandise is currently classifiable under *Tariff Schedules of the United States* item number 455.04. Pectin is used as an ingredient in food and drugs. In food, pectin is used principally as a jelling agent for jams, jellies, and confectionary and as an ingredient in dairy products.

Pectina de Mexico, S.A. (Pectina) is the only known producer in Mexico of pectin. The period for which we are measuring subsidization is the first half of 1982.

Analysis of Programs

Based upon our analysis to date of the petition and the response to our questionnarie, we preliminarily determine the following.

I. Program Preliminarily Determined to be a Bounty or Grant

We preliminarily determine that bounties or grants are being provided to Pectina, the manufacturer, producer and exporter of pectin in Mexico, under preferential financing programs.

The Fund for the Promotion of Exports of Mexican Manufactured Products (FOMEX) is a trust established by the government of Mexico to promote the manufacture and sale of exported products. The fund is administered by the Mexican Treasury Department, with the Bank of Mexico (Mexico's central bank) acting as the trustee. The Bank of Mexico administers the financing of FOMEX loans through financial institutions which establish contracts for lines of credit with manufacturers and exporters.

In order for a company to be eligible for FOMEX financing for exports, the following requirements must be met: (1) The product to be manufactured must be included on a list made public by FOMEX; (2) the articles to be exported must have a minimum of 30 percent national content in direct production costs; (3) loans granted for pre-export must be in Mexican currency, while loans for export sales are established in U.S. dollars or any other foreign currency acceptable to the Bank of Mexico; and (4) the exporter must carry insurance against commercial risks to the extent of the loans. We found that the maximum annual interest rate that credit institutions may charge borrowers for FOMEX pre-export financing is 8 percent in Mexican pesos. The maximum annual interest rate for FOMEX export financing is 6 percent in the currency of the country of importation.

The government of Mexcio's response indicated that Pectina received pre-exprt and export financing FOMEX loans. The response provides no information on the commercial rate of interest in Mexico for short term peso and dollar-denominated loans. On the basis of the best information available, we have used a national average commerical rate of interest in Mexico for peso loans and the average company rate received from non-FOMEX dollar-denominated loans in the litharge, red lead and lead stabilizers from Mexico preliminary affirmative countervailing duty determinations of September 15, 1982.

We have preliminarily determined that during the first six months of 1982, comparable peso-denominated loans were available at 46.95 percent, and comparable dollar-denominated loans were available at 17.16 percent.

For those FOMEX loans obtained by Pectina during the period January 1, 1982–June 30, 1982, we computed the difference in interest expense between the FOMEX loans and that which would have been incurred had the loans been made at commercial rates. We allocated this amount over the value of total exports during the same period in the case of pre-export financing loans, and over the value of exports to the U.S.

during the same period in the case of export financing loans.

We have preliminarily determined the net amount of the benefit rate for loans granted for pre-exports to be 4.757 percent *ad valorem* and the net amount of the benefit rate for export financing to be 3.596 percent *ad valorem*, for a total subsidy under the program of 8.353 percent *ad valorem*.

II. Programs Preliminarily Determined Not To Be Utilized

We preliminarily determine that the programs listed below which were described in the notice of "Initiation of Countervailing Duty Investigation" are not being utilized by Pectina for the manufacture, production, or exportation of pectin to the United States.

A. The CEDI Program

The Certificado de Devolucion de Impuesto (CEDI) is a tax certificate issued by the government of Mexico in an amount equal to a percentage of the f.o.b. value of the exported merchandise or, if national insurance and transportation are utilized, a percentage of the c.i.f. value of the exported product. The Secretary of Commerce of Mexico is responsible for setting the CEDI rate, which is not published. Exporters are required to apply for each CEDI by providing to the Ministry of Commerce (SECOM) documentation with respect to each individual shipment of qualifying exports. SECOM processes the application and, on approval, instructs the Ministry of Treasury (TESORERIA) to issue the CEDIs in the amount specified. The CEDIs are non-transferable and may be applied against a wide range of federal tax liabilities (including payroll taxes, value added taxes, federal income taxes, and import duties) over a period of five years from the date of issuance.

The government of Mexico's response states that it discontinued the eligibility of pectin for CEDI tax rebates by an Executive Order published in the *Diario Oficial de la Federacion* (Official Gazette) on August 25, 1982. The order abrogates prior Executive Orders which contained the lists of products eligible to receive CEDI certificates. Discontinuance of the CEDI was effective one day after publication of the Executive Order in the *Diario Oficial*.

B. The CEPROFI Program

In 1979, the government of Mexico introduced a four-year National Industrial Development Plan (NIDP) which spells out broad economic goals for the country. Tax credits, which are called Certificates of Fiscal Promotion (CEPROFI), are used to promote the NIDP goals, which include increased employment, regional decentralization, industrial development, the promotion of small and medium sized firms, and the promotion of exports.

CEPROFI certificates are similar to CEDI certificates; both are non-transferable tax certificates of a set value which may be used for a five-year period to pay federal taxes. CEPROFI certificates are granted for carrying out investments in "priority" industrial activities. The amount of the CEPROFI is based upon the location of the activity, the number of jobs generated, the value of the investments in new plants and equipment, or the value of the purchase of capital goods produced in Mexico.

The response states that Pectina neither received nor applied for CEPROFI certificates during the periods of calendar year 1981 and January–March 1982.

Verification

In accordance with Section 776(a) of the Act, we will verify all the information used in making our final determination.

Suspension of Liquidation

In accordance with section 703 of the Act, we are directing the U.S. Customs Service to suspend liquidation of all entries of pectin from Mexico which are entered, or withdrawn from warehouse, for consumption, on or after the date of publication of this notice in the **Federal Register**, and to require a cash deposit or bond, for each such entry of the merchandise in the amount of 8.353 percent *ad valorem*.

This suspension will remain in effect until further notice.

Public Comment

In accordance with section 355.35 of the Commerce Department Regulations, if requested, we will hold a public hearing to accord interested parties an opportunity to comment on this preliminary determination at 10 a.m. on October 19, 1982, at the U.S. Department of Commerce, Room 3104, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230. Individuals who wish to participate in the hearing must submit a request to the Deputy Assistant Secretary for Import Administration, Room 3099B, at the above address within ten days of this notice's publication. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; (3) the reason for attending; and (4) a list of the issues to be discussed. In addition, prehearing briefs must be submitted to the Deputy Assistant Secretary by October 12, 1982. Oral presentations will be limited to issued raised in the briefs. All written views should be filed in accordance with 19 CFR 355.34, within thirty days of this notice's publication, at the above address and in at least ten copies.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

September 17, 1982.

BILLING CODE 3510-25-M

Preliminary Affirmative Countervailing Duty Determination; Polypropylene Film From Mexico

AGENCY: International Trade Administration, Commerce.

ACTION: Preliminary affirmative countervailing duty determination.

SUMMARY: We preliminarily determine that certain benefits which constitute bounties or grants within the meaning of the countervailing duty law are being provided to manufacturers, producers, or exporters in Mexico of polypropylene film, as described in the "Scope of the Investigation" section of this notice. The estimated net subsidy is 5.945 percent *ad valorem*. Therefore, we are directing the U.S. Customs Service to suspend liquidation of all entries of the product subject to this determination which are entered, or withdrawn from warehouse, for consumption, and to require a cash deposit or bond on polypropylene film in the amount equal to the estimated net subsidy. If this investigation proceeds normally, we will make our final determination by December 1, 1982.

EFFECTIVE DATE: September 23, 1982.

FOR FURTHER INFORMATION CONTACT: Mary A. Martin, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone: (202) 377–1276.

SUPPLEMENTARY INFORMATION:

Preliminary Determination

Based upon our investigation, we preliminarily determine that there is reason to believe or suspect that the government of Mexico provides certain benefits which constitute bounties or grants within the meaning of section 303 of the Tariff Act of 1930, as amended (the Act), to manufacturers, producers, or exporters in Mexico of polypropylene film as described in the "Scope of the Investigation" section of this notice.

We estimate the net subsidy to be 5.945 percent *ad valorem*.

Case History

On June 24, 1982, we received a petition from Hercules, Inc. of Wilmington, Delaware, on behalf of the U.S. industry producing polypropylene film. The petition alleged that certain benefits which constitute bounties or grants within the meaning of section 303 of the Act are being provided, directly or indirectly, to the manufacturers, producers, or exporters of polypropylene film in Mexico.

Since Mexico is not a "country Under the Agreement" within the meaning of section 701(b) of the Act, section 303 of the Act applies to this investigation. Because the merchandise is nondutiable and there is no "international obligation" within the meaning of section 303(a)(2) of the Act which requires an injury determination for nondutiable merchandise from Mexico, the domestic industry is not required to allege that, and the U.S. International Trade Commission is not required to determine whether, imports of this product cause or threaten material injury to a U.S. industry. We reviewed the petition, and on July 12, 1982, determined that an investigation should be initiated (47 FR 31414).

We presented a questionnaire concerning the allegations to the government of Mexico at its embassy in Washington, D.C. On August 30, 1982, we received a partial response to the questionnaire. Additional information was supplied on September 7 and 9, 1982. We are considering the government of Mexico's request that the response be classified pursuant to Executive Order 12356 (effective August 1, 1982).

Scope of the Investigation

The merchandise covered by this investigation is polypropylene film, which is a thin transparent film made from polypropylen resin. It is currently provided for in items 774.5590 and 771.4310 of the *Tariff Schedules of the United States Annotated.*

Polypropylene film is used for packaging a wide variety of articles and in the manufacture of pressure sensitive packaging tape, dielectric material in electrical capacitors, and for wrapping power and communication cables.

The period for which we are measuring subsidization is the first half of 1982.

Analysis of Programs

Based upon our analysis to date of the petition and the response to our questionnaire, we preliminarily determine the following.

I. Programs Preliminarily Determined To Be Bounties or Grants

We preliminarily determine that bounties or grants are being provided to manufacturers, producers, or exporters in Mexico of polypropylene film under the programs listed below.

A. The CEPROFI Program

In 1979, the government of Mexico introduced a four-year National Industrial Development Plan (NIDP) which spells out broad economic goals for the country. Tax credits, which are called Certificates of Fiscal Promotion (CEPROFI), are used to promote the NIDP goals, which include increased employment, regional decentralization, industrial development, the promotion of small and medium sized firms, and the promotion of exports.

CEPROFI certificates are non-transferable tax certificates of a set value which may be used for a five-year period to pay federal taxes. CEPROFI certificates are granted for carrying out investments in "priority" industrial activities. The amount of the CEPROFI is based upon the location of the activity, the number of jobs generated, the value of the investments in new plants and equipment, or the value of the purchase of capital goods produced in Mexico.

The Department has preliminarily determined that the government of Mexico is providing bounties or grants to its manufacturers, producers, and exporters of polypropylene film under the CEPROFI program. We have allocated the countervailable CEPROFI benefits received in the first six months of 1982 over the total production of polypropylene film during that period, which results in a net subsidy of 4.906 percent *ad valorem.*

B. Preferential Financing Programs

The Fund for the Promotion of Exports of Mexican Manufactured Products (FOMEX) is a trust established by the government of Mexico to promote the manufacture and sale of exported products. The fund is administered by the Mexican Treasury Department, with the Bank of Mexico (Mexico's central bank) acting as the trustee. The Bank of Mexico administers the financing of FOMEX loans through financial institutions which establish contracts for lines of credit with manufacturers and exporters. In order for a company to be eligible for FOMEX financing for exports, the following requirements must be met: (1) The product to be manufactured must be included on a list made public by FOMEX; (2) the articles to be exported must have a minimum of 30 percent national content in direct production costs; (3) loans granted for pre-export must be in Mexican currency, while loans for export sales are established in U.S. dollars or any other foreign currency acceptable to the Bank of Mexico; and (4) the exporter must carry insurance against commercial risks to the extent of the loans. We found that the maximum annual interest rate that credit institutions may charge borrowers for FOMEX pre-export financing is 8 percent in Mexican pesos. The maximum annual interest rate for FOMEX export financing is 6 percent in the currency of the country of importation.

The government of Mexico's response indicated that one manufacturer and exporter of polypropylene film received pre-export and export financing FOMEX loans. The response included information on some U.S. loans received by the Mexican manufacturer and exporter. The response provided no information on the commercial rate of interest in Mexico for short term peso and dollar-denominated loans. On the basis of the best information available, we have used a national average commercial rate of interest in Mexico for peso loans and the average company rate received for all non-FOMEX dollar-denominated loans in the litharge, red lead and lead stabilizers from Mexico preliminary affirmative countervailing duty determinations of September 15, 1982.

We have preliminarily determined that during the first six months of 1982, comparable peso-denominated loans were available at 46.95 percent, and comparable dollar-denominated loans were available at 17.16 percent. For those FOMEX loans obtained by the manufacturer during the period January 1, 1982–June 30, 1982, we computed the difference in interest expense between the FOMEX loans and that which would have been incurred had the loans been made at commercial rates. We allocated this amount over the value of total exports during the same period in the case of pre-export financing loans, and over the value of exports to the U.S. during the same period in the case of export financing loans.

We have preliminarily determined the net amount of the benefit rate for loans granted for pre-exports to be 0.408 percent *ad valorem* and the net amount of the benefit rate for export financing to be 0.631 percent *ad valorem*, for a total subsidy under the program of 1.039 percent *ad valorem.*

II. Program Preliminarily Determined Not To Be Utilized

We preliminarily determined that the Certificado de Devolucion de Impuesto (CEDI) program which was described in the notice of "Initiation of Countervailing Duty Investigation" is not utilized by the manufacturers, producers, or exporters in Mexico of polypropylene film.

The CEDI is a tax certificate issued by the government of Mexico in an amount equal to a percentage of the f.o.b. value of the exported merchandise or, if national insurance and transportation are utilized, a percentage of the c.i.f. value of the exported product. The Secretary of Commerce of Mexico is responsible for setting the CEDI rate, which is not published. Exporters are required to apply for each CEDI by providing to the Ministry of Commerce (SECOM) documentation with respect to each individual shipment of qualifying exports. SECOM processes the application and, on approval, instructs the Ministry of Treasury (TESORERIA) to issue the CEDIs in the amount specified. The CEDIs are non-transferable and may be applied against a wide range of federal tax liabilities (including payroll taxes, value added taxes, federal income taxes, and import duties) over a period of five years from the date of issuance.

The government of Mexico's response states that it discontinued the eligibility of polypropylene film for CEDI tax rebates by an Executive Order published in the *Diario Oficial de la Federacion* (Official Gazette) on August 25, 1982. The order abrogates prior Executive Orders which contained the lists of products eligible to receive CEDI certificates. Discontinuance of the CEDI was effective one day after publication of the Exective Order in the *Diario Oficial*.

Verification

In accordance with section 776(a) of the Act, we will verify all the information used in making our final determination.

Suspension of Liquidation

In accordance with section 703 of the Act, we are directing the U.S. Customs Service to suspend liquidation of all entries of polypropylene film from Mexico which are entered, or withdrawn from warehouse, for consumption, on or after the date of publication of this notice in the **Federal Register**, and to require a cash deposit or bond, for each entry of the merchandise in the amount of 5.945 percent *ad valorem*.

This suspension will remain in effect until further notice.

Public Comment

In accordance with section 355.35 of the Commerce Department Regulations, if requested, we will hold a public hearing to afford interested parties an opportunity to comment on this preliminary determination at 10 a.m. on October 20, 1982, at the U.S. Department of Commerce, Room 1851, 14th Street and Constitution Avenue N.W. Washington, D.C. 20230. Individuals who wish to participate in the hearing must submit a request to the Deputy Assistant Secretary for Import Administration, Room 3099B, at the above address within ten days of this notice's publication. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; (3) the reason for attending; and (4) a list of the issues to be discussed. In addition, prehearing briefs must be submitted to the Deputy Assistant Secretary by October 13, 1982. Oral presentations will be limited to issues raised in the briefs. All written views should be filed in accordance with 19 CFR 355.34, within thirty days of this notice's publication, at the above address and in at least ten copies.

BILLING CODE 3910-01-M

USAF Scientific Advisory Board; Meeting

September 13, 1982.

The USAF Scientific Advisory Board Weapons Panel will meet at the Sandia National Laboratory on October 20–21, 1982. The purpose of the meeting is to review the current programs and technology application that affect advanced tactical fighter designs. The meeting will convene at 8:00 a.m. on both days and adjourn at 4:00 p.m. on both days.

The meeting concerns matters listed in Section 552b(c) of Title 5, United States Code, specifically subparagraph (1) thereof, and accordingly, will be closed to the public.

For further information, contact the Scientific Advisory Board Secretariat at 697–4648.

Winnibel F. Holmes,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910-01-M

Department of the Navy

Final Notice of Decision to Construct New Steam Plant at Puget Sound Naval Shipyard, Bremerton, Washington

Pursuant to the regulations implementing the procedural provisions of the National Environmental Policy Act (NEPA) (§ 1505.2 of Title 40, Code of Federal Regulations), the Department of the Navy announces its decision to construct a central, coal-fired steam plant onsite, at the Puget Sound Naval Shipyard (PSNS), Bremerton, Washington.

PSNS is the largest ship-repair and overhaul facility on the West Coast. It is the only west coast facility with a drydock large enough to accommodate Forrestal and Enterprise-class carriers. The shipyard has a range of capabilities exceeding most other facilities, including the repair and overhaul of all ship types. PSNS also provides support to more than 20 tenant commands, the two largest being the Naval Supply Center and the Inactive Ship Maintenance Facility.

The purpose of the proposed action is to provide a reliable and improved-capability utilities system at PSNS.

Although steam would be the principal service provided, other utilities would include compressed air, emergency electrical generation, and pure-water systems. The shipyard utilizes steam as the basic source of heat energy for building space heating, hotel service to ships, and shipyard process uses, as well as to run turbine generators during test evolutions. PSNS currently generates the steam required to satisfy its process and heating demands onsite from multiple plants. There are no offsite sources of steam and/or equivalent thermal energy available for purchase by PSNS.

Four alternative scenarios were proposed for steam generation capability at PSNS. Those were: the preferred alternative, a central, coal-fired steam plant; central steam plant—multiple, oil-fired boilers; multiple, oil-fired satellite boiler plants; and no project.

The siting alternatives also considered alternative fuel sources pursuant to the Powerplant and Industrial Fuel Use Act of 1978 (FUA). All sites were located on-shipyard; no off-shipyard sites were considered feasible. The FUA requires industrial plants which are "major fuel-burning installations" (i.e., single boiler heat input rate in excess of 100 million BTU's/hour or combined rate of 250 million BTU's/hour) to utilize alternate energy resources. Alternative energy resources are fuel sources other than petroleum-derived products or natural gas. The purpose of FUA is to reduce our dependence on foreign oil by making better use of domestic fuel supplies. Thus, the alternative fuel sources considered for this project included coal, with provisions for conversion to use of waste or refuse-derived fuels and synthetic fuels, and oil, the fuel currently used for the existing steam plant. The oil-fired alternatives would also be able to be converted for use of synthetic fuels in the future.

The central steam plant will consist of three new coal-oil fired steam generators to be installed in a new steam plant located at the west end of the shipyard. Each boiler would be designed for stoker coal (low-sulfur) firing with No. 2 fuel oil as a backup source of fuel. The central steam plant will be designed to accommodate a fourth steam generator. The four steam generators would have the capacity to meet the ultimate projected needs of PSNS. The central steam plant will include emergency diesel generators. Additionally, the central steam plant is designed to accommodate a turbine room for steam electric generation at some future date. Air compressors would be installed at two locations within the shipyard, in the new central steam plant and in a new compressor building to be constructed. The plant aslo is designed for modification at a later date to permit the use of 50 percent refuse-derived fuel (RDF) mixed with coal, and liquid and/or solid synthetic fuels.

The following impact summary is based on currently available design information. Treated industrial and cooling wasterwaters from the plant will be discharged separately into either Sinclair Inlet or the City of Bremerton's wastewater treatment system. These discharges would have to meet applicable Washington State Water Quality Standards for thermal and dissolved oxygen criteria.

Since standards are set for both stack emissions as well as ambient air quality, alternatives studied could meet one set of criteria and not the other. The preferred alternative may require the filing of a Prevention of Significant Deterioration (PSD) application. Air quality standards would be met only with the use of pollution control equipment. Also, the preferred alternative would produce the greatest volume of fly ash, but less SO_2 than other arrangements studied. The preferred alternative would also create the largest amount of solid waste due to ash production.

The preferred alternative, due to the size of the facility and its close proximity to the PSNS west boundary, will have a greater impact on surrounding residential land uses than other alternatives studied. Additionally, the preferred alternative is closest to the USS MISSOURI historical site, and would have a visual impact on this historical site. However, it should be noted that the USS MISSOURI is still a Navy ship and is scheduled for reactivation.

Finally, since availability of the Final Environmental Impact Statement in March 1982, several minor changes to projected specifics have occurred. The FEIS was based on an expected building height of 110 feet, and a stack height of 250 feet. The current design calls for a building height of 120.5 feet and a stackheight of 300 feet. Also the building height over the boilers is expected to increase by 20–30 feet, but this will not affect the maximum building height.

The project also calls for tapping into the existing salt water system to cool the air compressors. The existing salt water intake capacity will not be changed. The base usage of salt water will decrease by 9.5 millions gallons/day (MGD) but the usage at one intake will increase by 1 MGD. Because of these changes, the State of Washington Department of Fisheries will not grant approval unless the Navy also modifies the salt water intakes. At present, the most likely changes appear to be modifying the intakes, using separate cooling towers for the air compressors, or negotiating a compromise with the Washington Department of Fisheries.

Dated: September 17, 1982.

F. N. Ottie,

Lieutenant Commander, JAGC, U.S. Navy, Alternate Federal Register Liaison Officer.

BILLING CODE 3810-AE-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER82-785-000]

Cincinnati Gas & Electric Co.; Filing

September 20, 1982.

Take notice that on September 7, 1982, the Cincinnati Gas & Electric Company (Cincinnati) tendered for filing a First Supplemental Agreement dated as of June 24, 1982 to the Agreement for Winter Capacity Reservation Service dated September 18, 1979 , between Cincinnati's Rate Schedule FERC No. 40.

Cincinnati states that the First Supplemental Agreement increases the capacity Charge for Winter Capacity Reservation Service from $3.75 per kilowatt per month to $5.50 per kilowatt per month and adds a provision for a Supplemental Demand Capactiy Charge at the same rate in the event the City's peak demand exceeds 86.956% of the net seasonal demonstrated capability of the City's installed generation. There is no estimate of increased revenues from the proposed charges since Winter Capacity Reservation Service transactions will occur only as load and capacity conditions dictate.

Cincinnati further states that the reason for the increase is to establish equitable rates for Winter Capacity Reservation Service for the City of Lebanon.

A copy of the filing was served upon the City of Lebanon and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed

on or before October 1, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26193 Filed 9-22-82; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ER82-787-000]

Commonwealth Electric Co.; Filing

September 20, 1982.

Take Notice that on September 9, 1982, Commonwealth Electric Company (Commonwealth) tendered for filing, an implementation of its currently-effective Rate Schedule FERC No. 34 as initially accepted for filing by letter order of the Commission issued March 30, 1979 in Docket No. ER78-579.

Boston Edison Company, the party receiving service thereunder, wishes to abandon use and support of certain physical facilities used by Commonwealth to render the wheeling service contemplated by such Rate Schedule. Boston Edison Company has the right to so abandon upon payment to Commonwealth of its unrecovered cost of the facilities proposed to be abandoned. Commonwealth's filing in this docket constitutes the agreement between the parties as to the facilities to be abandoned by Boston Edison and Commonwealth's unrecovered costs thereof at the proposed abandonment date of May 31, 1982.

Copies of this filing have been served by Commonwealth upon Boston Edison Company and upon the Massachusetts Department of Public Utilities.

An person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214) All such motions or protests should be filed on or before October 5, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26194 Filed 9-22-82; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ER82-788-000]

Florida Power & Light Co.; Filing

September 20, 1982.

Take notice that on September 9, 1982, Florida Power & Light Company (FP&L) tendered for filing documents entitled Amendment Number Two, Amendment Number Three, Amendment Number Four and Amendment Number Five to Agreement to Provide Specified Transmission Service between FP&L and City of St. Cloud.

FP&L states that under Amendment Number Two FP&L will transmit power and energy for the City of St. Cloud (St. Cloud) as is required by St. Cloud in the implementation of its interchange agreement with the Utilities Commission, City of New Smyrna Beach.

Under Amendment Number Three FP&L will transmit power and energy for St. Cloud as is required by St. Cloud in the implementation of its interchange agreement with Lake Worth Utilities Authority.

Under Amendment Number Four FP&L will transmit power and energy for St. Cloud as is required by St. Cloud in the implementation of its interchange agreement with the City of Vero Beach.

Amendment Number Five updates the rates for transmission service provided by FP&L, bringing them in accord with the increased rates filed by the Commission on July 1, 1981, in *Florida Power & Light Company,* Docket No. ER81-588-000.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 5, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-781-000]

Idaho Power Co. Filing

September 20, 1982.

Take notice that on September 8, 1982, the Idaho Power Company (Idaho) tendered for filing in compliance with the Federal Energy Regulatory Commission's Order of October 7, 1978, a summary of sales made under the Company's 1st Revised FERC Electric Tariff, Volume No. 1 (Supersedes Original Volume No. 1) during July, 1982, along with cost justification for the rate charged. This filing includes the following supplements:

Utah Power & Light Company—Supplement 10
Montana Power Company—Supplement 10
Sierra Pacific Power Company—Supplement 8
Portland General Electric Company—Supplement 8
Pacific Power & Light Company—Supplement 8
City of Pasadena—Supplement 6
Los Angeles Department of Water & Power—Supplement 6
City of Glendale—Supplement 6
Southern California Edison Company—Supplement 7
City of Burbank—Supplement 6

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 1, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. CP82-397-000]

Midwestern Gas Transmission Co.; Informal Conference

September 20, 1982.

Take notice that an informal conference in the above captioned docket will be held on October 5, 1982, at 10:00 a.m. at the offices of the Federal Energy Regulatory Commission, 825 N. Capitol St. NE., Washington, D.C. 20426.

The informal conference is being called by the Commission Staff to discuss Midwestern Gas Transmission Company's (Midwestern) July 1, 1982, application pursuant to Section 7 of the Natural Gas Act for permission and approval to abandon its storage service to Peoples Gas Light and Coke Company (Peoples) and for a certificate of public convenience and necessity authorizing the use of the top gas capacity available for storage released by Peoples as system storage, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Customers and other interested persons will be permitted to attend but if such persons have not previously been permitted to intervene by order of the Commission, attendance will not be deemed to authorize intervention as a party in this proceeding.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-784-000]

Northern States Power Co.; Filing

September 20, 1982.

Take notice that Northern States Power Company (NSP) on September 7, 1982, tendered for filing a Termination Agreement, dated August 19, 1982, with Missouri Basin Municipal Power Agency.

NSP states that the Agreement terminates the Transmission and Interchange Service Agreement, dated March 28, 1978, between the Parties.

NSP requests an effective date of August 19, 1982.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 1, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER82-791-000]

Pacific Gas and Electric Co.; Filing

September 20, 1982.

Take notice that Pacific Gas and Electric Company (Pacific) on September 10, 1982, tendered for filing a contract dated May 12, 1982, between Pacific and Sierra Pacific Power Company (Sierra), hereinafter jointly referred to as "Parties". This contract, entitled "Interconnection Agreement Between Pacific Gas and Electric Company and Sierra Pacific Power Company" (Contract) provides the terms and conditions for power sales and purchases between the Parties.

Pacific states that on a scheduled basis, either Party, at the other Party's request, may offer to provide capacity as reserve, spinning reserve or capacity and associated energy to satisfy the other Party's requirements. Emergency assistance, limited short-term service, or energy without capacity are other services also provided for by the Contract.

Pacific requests an effective date of September 1, 1982, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 6, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER82-790-000]

Pennsylvania-New Jersey-Maryland Interconnection; Filing

September 20, 1982.

Take notice that on September 8, 1982, the Pennsylvania-New Jersey-Maryland Interconnection (PJM) tendered for filing a new Schedule 4.02 and revised Schedules 7.01 and 9.0 to the Interconnection Agreement dated September 26, 1956, as heretofore amended and supplemented.

PJM states that this filing establishes a rate to be used in accounting for import capability whenever a party to the Agreement is allocated the use of a portion of the share of such capability of other parties to the Agreement. The filing also introduces provisions for sharing negative savings and modifies the procedure of allocating among the parties and the cost and expenses of the Office of the Interconnection.

PJM further states no new facilities will be installed nor will existing facilities be modified in connection with these schedules.

PJM requests an effective date of August 9, 1982, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211

and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 6, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. SA82-19-000]

Phillips & Spradley, et al.,[1] John L. Hada, Jr., Application for Staff Adjustment

September 20, 1982.

On April 29, 1982, Phillips & Spradley, 900 American Bank Tower, Austin, Texas 78701 filed an application for a staff adjustment pursuant to section 502(c) of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301–3432, (Supp. IV 1980), and Rule 1101 of the Federal Energy Regulatory Commission (Commission) Rules of Practice and Procedure. Specifically, Applicant seeks an adjustment from § 273.202 of the Commission's Regulations. This notice for staff adjustment was issued on May 20, 1982, 47 FR 23202 (May 27, 1982). On September 10, 1982, Phillips and Spradley filed on behalf of John L. Hada, Jr., a nonoperator working interest owner of gas produced from the Kirk Gas Unit No. A–3 Well (A–3 Well), an amendment to the application for staff adjustment requesting to be included as a party to this proceeding. The gas produced from the A–3 Well is purchased by Florida Gas Transmission Company and Valero Transmission Company.

Applicants state they would suffer inequity, special hardship and unfair distribution of burdens if unable to collect the section 102 price in place of the section 109 price for natural gas sales for the period between April 20, 1981 and May 5, 1981. Applicants state that they failed to file timely the section 102 application with the jurisdictional agency prior to beginning sales of gas from the A–3 Well due to the blow out of the adjacent A–1 Well. Further Applicants state that it was necessary to immediately attach the A–3 Well to the pipeline in order to relieve bottom hole pressure in the A–1 Well, and bring it under control. As further reason for their inability to file timely, Applicants state that the application included the jurisdictional agency requirement of a completion report which could not be filed until the A–3 Well was completed and tested.

The procedures applicable to the conduct of this adjustment proceeding are found in Rules 1101–17 of the Commission's Rules of Practice and Procedure. Order No. 24, issued March 22, 1979 (44 FR 18961, March 30, 1979).

Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of Rule 214. All petitions to intervene must be filed within 15 days after publication of this notice in the **Federal Register.**

BILLING CODE 6717-01-M

[Docket Nos. CP81-296-001 and CP81-296-002]

Tennessee Gas Pipeline Co., a Division of Tenneco, Inc.; Extended Environmental Comment Period for the Draft Environmental Impact Statement of the Tennessee/Boundary Looping Project

September 17, 1982.

Notice is hereby given that the Federal Energy Regulatory Commission is extending the comment period for the *Tennessee/Boundary Looping Project Draft Environmental Impact Statement* (DEIS). The extended comment period will be 30 days, commencing with the date this notice is published in the **Federal Register.** This action is prompted by recent Tennessee Gas Pipeline Company, a Division of

Tenneco, Inc. (Tennessee) filings to the Commission related to its original application discussed in the DEIS. This extension of time serves a number of purposes by providing for the following: (1) An opportunity for interested parties to incorporate comments on the facility amendments and supplement (most notably the newly proposed Niagara River crossing) into their comments on the DEIS; and (2) an opportunity for interested parties to submit comments on Tennessee's proposed sediment and erosion control plan.

On August 9, 1982, Tennessee submitted four filings related to Docket No. CP81–296–000: (1) an application in Docket No. CP82–470–000, under section 3 of the Natural Gas Act, to import an additional 309 million cubic feet per day (cfd) from Canadian-Montana Pipeline Company, KannGaz Producers Limited, and Ocelot Industries Limited near Niagara Falls, New York; (2) an amendment in Docket No. CP81–296–001 to construct additional facilities to transport the proposed additional volumes; (3) a supplement in Docket No. CP81–296–002 to discuss the feasibility of a 48-inch diameter pipeline to transport all the Canadian gas proposed to be imported near Niagara Falls; and (4) an amendment to its existing Presidential Permit in Docket No. G–1922 for the construction, operation, and maintenance of facilities on the international border near Niagara Falls (as proposed in Docket No. CP81–296–001).

The additional facilities proposed by Tennessee in Docket No. CP81–296–001 to accommodate the additional 309 million cfd of imported gas include:

(1) A new 36-inch-diameter pipeline, 0.25 mile long, to cross the Niagara River as an extension of the originally proposed 42-inch-diameter pipeline (loop 14) in Niagara and Erie Counties, New York;[1]

(2) An additional 6,000 horsepower (hp.) of compression to supplement the currently proposed 6,000-hp. Compressor Station 230B in Niagara County, New York; and

(3) Minor piping modifications at its existing Compressor Station 224 in Chautaugua County, New York, to permit reverse flow.

The estimated cost of these additional facilities to Tennessee is $11,391,000.

In its supplement (Docket No. CP81–296–002), Tennessee expresses its willingness to construct a single large-diameter pipeline to transport proposed U.S. imports of Canadian gas at Niagara Falls, including the 794 million cfd to be transported by Tennessee and 1,418.9 million cfd proposed to be transported by Trans-Niagara Pipeline (Trans-Niagara) in Docket No. CP82–125–003.[2] Tennessee's supplement contemplates that the alternative (similar to the Niagara Spur Alternative identified in the DEIS) would require the following facilities:

1. 48.6 miles of 48-inch-diameter pipeline loop from MP 230B–107+0, Niagara County, to MP 230B–101+0, Erie County, New York;

2. Dual 36-inch-diameter pipelines crossing the Niagara River, Niagara County, New York; and

3. A 52,000-hp. compressor station at the proposed Compressor Station 230B site, Niagara County, New York.

On September 8, 1982, Tennessee indicated that Tennessee and Trans-Niagara have agreed in principle to a joint venture involving the construction of one large diameter pipeline near Niagara Falls, New York. The specific facilities to be constructed are unknown at this time. However, indications are that the facilities would be similar to those described for the alternative submitted by Tennessee and the staff's Niagara Spur Alternative, except that the compression would probably increase (i.e., it would be more than 52,000 horsepower).

Tennessee states that the 36-inch-diameter pipeline crossing of the Niagara River would occur near Stella Niagara, about 6 miles south of Youngstown, where the river is approximately 1,800 feet wide. (See map.) Tennessee indicates that this crossing would use the push/pull method of construction. In this process, the river would be dredged from a dredge barge. The ditch would be dug deep enough to obtain proper cover on the pipeline and wide enough to maintain stability. Pipeline construction would take place on firm ground on the riverbank inside Tennessee's property in Niagara County. The pipeline would be fabricated by welding and joint-coating the concrete-coated pipe in approximately 300-foot-long sections on the bank. The welded and coated pipe would be continuously pulled until it reaches across the river. These sections would have enough floatation devices to keep them off ditch bottom, enabling equipment on the Canadian side of the river to pull the sections across. Divers would continuously inspect and guide the pipe crossing. When the pipeline segment is in position, the floatation devices would be removed and the pipe would be allowed to sink to the bottom of the ditch. As a final step, the ditch would be backfilled.

Crossing the Niagara River would temporarily increase turbidity and sedimentation at the crossing site and for some distance downstream. Fish and other aquatic organisms would temporarily avoid the area of disturbance. Also, construction of the crossing could resuspend contaminated bottom sediments, if they are present at the crossing location. If available information indicated the potential for contaminated sediments, Tennessee could be required to conduct water quality and sediment tests. (See discussion of the Housatonic River crossing, pages 103–104 of the DEIS.)

A possible alternative to the proposed push/pull method of constructing this river crossing would be to use the horizontal directional drilling method. A description of this procedure appears on page 104 of the DEIS.

Because the Niagara River is classified by the U.S. Army Corps of Engineers (Corps) as navigable and because dredging and backfilling are proposed, the crossing would require an individual Department of the Army permit in accordance with section 10 of the Rivers and Harbors Act of 1899 and the guidelines promulgated under section 404(b)(1) of the Clean Water Act. In its application for an individual Corps permit, Tennessee would be required to submit construction plans and specifications for evaluation. Further, crossing of the Niagara River would require a full public interest review before a permit could be issued. This review would involve public notice and receipt of comments, consultations with the U.S. Environmental Protection Agency (EPA), U.S. Fish and Wildlife Service, and various state agencies, and possible public hearings.

The addition of 6,000 horsepower of compression (two 3,000-hp. turbine compressor units) would bring the total horsepower compression proposed at Tennessee's new Compressor Station 230B to 12,000. Tennessee states that all applicable Federal and state emissions and ambient air quality standards would be met. According to calculations made by the Commission's Environmental Evaluation Branch (EEB), a prevention of significant air quality deterioration (PSD) determination by EPA would not be required. However, a compressor station equal to or greater than 52,000 horsepower would require a PSD determination by EPA.

[1] Trans Canada Pipelines Limited would also construct 0.25 mile of 36-inch diameter to complete this river crossing in Canada.

[2] Trans-Niagara has subsequently filed two amendments to its application; one increases the total gas volume proposed to be imported to 1,518.9 million cfd.

Tennessee calculates that with the ambient noise level, an L_{dn} of 57 dB(A), the proposed 12,000-hp. compressor station would produce an L_{dn} at the nearest residence of 60.6 dB(A), an increase of 3.6 dB(A). Under the EEB's recommendation identified in the DEIS (page 162), the noise level of any new compressor station at this site could not exceed an L_{dn} of 59.1 dB(A), an increase of 2.1 dB(A) over the existing ambient level.

To permit reverse flow of gas, Tennessee would make some minor piping changes at its existing Compressor Station 224. These changes would include pipe, valves, and fittings modifications within the compressor station.

On September 10, 1982, Tennessee submitted its sediment and erosion control plan for the proposed project. Concurrent with the EEB's review, copies of the plan have been sent to relevant Federal, state, and local agencies for their review and comment. (See attachment A.) Copies of the plan will be available to other interested parties on request. Copies of the plan or the DEIS may be requested from Mr. James P. Daniel at (202) 357–8042.

After an initial systematic analysis, the EEB believes that no *new significant* environmental impact would result from the construction and operation of facilities proposed in these amendments and the supplement. The EEB's determination is based upon the fact that Tennessee's amendment proposes construction substantially similar to that contemplated by the staff in the Niagara-Spur Alternative described in the DEIS. The EEB's expertise in evaluating the changes in Tennessee's proposal is based, in part, on its numerous environmental analyses of similar proposals for construction of pipeline river crossings and compressor facilities. At present, the staff intends to incorporate in impact analysis of the revisions into the final environmental impact statement (FEIS). However, the staff requests that interested persons comment on the environmental impact of the proposed amendments and supplement and on the EEB's opinion that no new significant environmental impact would result.

The Commission staff therefore requests public comment on the environmental consequences of the modifications in Tennessee's proposed project. These comments, along with those received earlier, will be used in developing the FEIS, which will be *one of the factors used* by the Commission in determining whether the proposed Tennessee/Boundary Looping Project is in the public interest. Comments should be mailed to the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. All comments should reference Docket No. CP81–296.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-796-000]

Virginia Electric and Power Co.; Cancellation

September 20, 1982.

Take notice that Virginia Electric and Power Company (VEPCO) on September 7, 1982, tendered for filing a Notice of Cancellation of service to its Rivers Edge Delivery Point with Prince George Electric Cooperative (FERC Rate Schedule No. 101–15 dated August 9, 1974).

VEPCO requests an effective date of June 24, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 5, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-783-000]

Wisconsin Power and Light Co.; Filing

September 20, 1982.

Take notice that on September 7, 1982, Wisconsin Power and Light Company (WPL) tendered for filing an amendment to its existing wholesale power contract dated May 27, 1982 between the City of Wisconsin Rapids and WPL. WPL states that this filing is for the purpose of modifying the current agreement between the parties to add an additional delivery point for the providing energy and power to the City. The current

agreement was previously designated FERC Rate Schedule 212 by the Commission.

WPL requests an effective date of May 27, 1982, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing were served upon the municipality and the Public Service Commission of Wisconsin.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 1, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[OPTS-140018; TSH-FRL 2211-4]

MITRE Corp.; Transfer of Data to Contractor

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA will transfer to its contractor, the MITRE Corporation of McLean, Virginia, information which has been or will be submitted by manufacturers and importers under section 5 of the Toxic Substances Control Act (TSCA). Some of the information may be claimed to be confidential. The MITRE Corporation will review this information and use it to assist EPA in performing exposure and health and environmental hazard assessments of new chemical substances prior to manufacture.

DATE: The transfer of data submitted to EPA and claimed to be confidential will occur no sooner than 10 working days after publication of this notice in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Douglas G. Bannerman, Acting Director, Industry Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. E-511, 401 M St., SW., Washington, D.C. 20460, Toll-free: (800-424-9065), in Washington, D.C.: (554-1404), Outside the USA: (Operator—202-554-1404).

SUPPLEMENTARY INFORMATION: Under section 5 of TSCA, EPA is provided 90 days to review new chemical substances prior to commercial manufacture to determine whether they present the potential for an unreasonable risk of injury to health or the environment from their manufacture, processing, distribution in commerce, use, or disposal. To make the unreasonable risk determination, the Agency must evaluate the potential exposures and health and/or environmental hazards associated with the substance in question. To accomplish this, EPA will require assistance from an outside contractor. The MITRE Corporation will assist EPA in these evaluations. (Contract No. 68-01-6610). The MITRE Corporation previously performed this work for the Agency under contract No. 68-01-5863 announced in the Federal Register of October 5, 1979 (44 FR 57490).

Under 40 CFR 2.306(j), EPA has determined that it may need to disclose confidential business information to the MITRE Corporation. Under the terms of the contract, EPA will provide the MITRE Corporation with information submitted in the premanufacturing notices (PMN's) on chemical identity, product formulation, and specific processes used to manufacture or process new chemical substances, as well as other information related to the uses, release rates, exposure levels, and assessment of exposures and potential hazards to health and the environment of new chemical substances.

In accordance with the EPA manual, "Contractor Requirements for the Control and Security of TSCA Confidential Business Information", the MITRE Corporation has been authorized to have access to this information. EPA has approved the MITRE Corporation Security Plan and has conducted the required inspection of the MITRE facilities in McLean, Virginia and found them to be in compliance with the provisions of the manual.

Since the MITRE Corporation will review information claimed to be confidential, EPA is publishing this notice to inform all potential submitters of PMN's that the MITRE Corporation will receive confidential business information from EPA. After completing the exposure and health and environmental hazard assessments, the MITRE Corporation will return all confidential business information to EPA.

The MITRE Corporation personnel will be required to sign a nondisclosure agreement before they are permitted access to such information. The MITRE Corporation is required to treat all confidential business information in accordance with the requirements of the "TSCA Confidential Business Information Security Manual" and the "Contractor Requirements for the Control and Security of TSCA Confidential Business Information Manual."

Dated: September 10, 1982.

Marcia Williams,

Acting Director, Office of Toxic Substances.

BILLING CODE 6560-50-M

[WH-FRL 2200-1]

State and Local Assistance; Grants for Construction of Treatment Works

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of allotment.

SUMMARY: This notice sets forth the allotments to the States of the $2.4 billion appropriated for fiscal year 1982 on July 19, 1982 by Pub. L. 97-216 for the municipal wastewater treatment works construction grants program.

Section 205(c)(2) of the Clean Water Act (the Act), as amended by Pub. L. 97-117, provides that sums authorized to be appropriated for fiscal year 1982 be allotted to the States in accordance with Table 3 of Committee Print 95-30 of the Committee on Public Works and Transportation of the House of Representatives. That table was also the basis for the original allotments of fiscal years 1978, 1979, 1980 and 1981 appropriations.

Through promulgation of this notice, the requirements of the Act are fulfilled and the public is notified of the amounts made available to the States for grants for the construction of municipal wastewater treatment works.

EFFECTIVE DATE: September 23, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Albert Pelmoter, Chief, Program Policy Branch, Municipal Construction Division, Office of Water Program Operations, (202) 426-8620.

SUPPLEMENTARY INFORMATION: As required by section 205(c)(2) of the Act, funds authorized to be appropriated for fiscal year 1982 were allotted on the basis of the percentages listed in Table 3 of the Committee Print Numbered 95-30 of the Committee on Public Works and

Transportation of the House of Representatives. The percentages were adjusted as required by several statutory provisions and applied to the appropriation to arrive at the actual dollar amount allotted to each State.

One adjustment was made to satisfy section 205(e) of the Act, which requires that no State shall receive less than one-half of one percent of a total allotment. Since supplemental funds were not provided to raise certain States to the 0.5 percent "floor", the percentages for the other States were adjusted to satisfy the "floor" requirement and, at the same time, have the total amount allotted not exceed the appropriation.

As in previous allotments, the table of fiscal year 1982 allotments reflects adjustments to provide a minimum of 0.5 percent of the $2.4 billion to each State. The table appears at the end of this notice.

Pub. L. 97-117 further amended the Act by adding a subsection (k) to section 205. Subsection (k) provides for an additional allotment within the appropriation to fund a connection sewer for the New York City Convention Center. Pub. L. 97-216 (Urgent FY 1982 Supplemental Appropriation Act) provides that one third of the special project costs be allocated prior to the national distribution of the appropriation, the remaining two thirds to be divided evenly between New York's and New Jersey's regular allotments, as explained below. The estimated total cost of the special project is $2.8 million.

Pub. L. 97-216 also provides for the reinstatment of $3,965,426 to the State of Kansas to compensate for an accounting error by the Federal Government. Like the special project allocation, the $3,965,426 (rounded to $3,965,400) was allocated to Kansas prior to the national distribution of funds.

The allotments were computed by:

(a) Deducting $933,000 (one third of $2.8 million) for the special project in the State of New York and $3,965,400 for Kansas from the total appropriation of $2.4 billion;

(b) Allotting the remaining $2.395 billion to all the States, including New York and Kansas, using the percentages in "Table 3;"

(c) Deducting $933,000 from each of the resulting allotments to New York and New Jersey; and

(d) Allocating $2,799,000 to the New York City Convention Center project.

The $2.4 billion was allotted as follows:

STATE ALLOTMENT BASED ON $2.4 BILLION APPROPRIATION, JULY 16, 1982

	Fiscal year 1982	
	Ratio	Dollars
Alabama	.012664	30,331,500

BILLING CODE 6560-50-M

[SWH-FRL 2215-3]

RCRA Permit Advisory Committee; Establishment

AGENCY: Environmental Protection Agency.

ACTION: Notice of establishment of RCRA Permit Advisory Committee.

SUMMARY: The Administrator of the U.S. Environmental Protection Agency announces the establishment of the RCRA Permit Advisory Committee in accordance with section 9(a)(2) of the Federal Advisory Committee Act.

It has been determined that the establishment of this Committee is in the public interest and essential to the Agency's implementation of the Resource Conservation and Recovery Act of 1976, as amended, (Pub. L. 94-580), 42 U.S.C. 6901 *et seq.*

The Committee will serve to improve communications between the public and the Assistant Administrator, Office of Solid Waste and Emergency Response. The Committee, with membership representing affected interests, will assist the Assistant Administrator in developing effective policies and procedures relating to RCRA permits for hazardous waste treatment, storage and disposal facilities. The Committee will provide expert advice and make recommendations on policy, technical and procedural matters related to the environmental, economic and social impacts of RCRA permits as authorized by and in the manner set forth in the Committee Charter which will be filed with the appropriate Congressional committees and the Library of Congress.

This Committee will terminate within one year of the establishment date.

SUPPLEMENTARY INFORMATION:

1. Composition

The Committee shall consist of no more than 35 members, excluding the Chairperson, who will represent the following groups: State and local government officials, hazardous waste generators, hazardous waste managers, groups involved in the design and construction of hazardous waste facilities, environmental groups, and the affected public.

EPA will select members on the basis of their qualifications and will consider the affiliations of the applicants in order to achieve an appropriate balance of interest and expertise.

It should be noted that members of the Committee will not be compensated nor reimbursed by EPA for travel or per diem.

2. Applications for Committee Membership

Individuals who wish to be considered for membership or organizations and associations which desire representation should apply by providing the following information by October 12, 1982.

Name:
Title:
Organization:
Business address & telephone:
Home address & telephone:
Area of interest or expertise: (a) Storage, (b) class permits, (c) mobile treatment units, (d) incineration, (e) land disposal. Experience and qualifications (a current résumé is acceptable). Membership applications, questions and requests for copies of the Charter should be addressed to: John H. Skinner, Acting Director, Office of Solid Waste (WH–562), U.S. EPA, Washington, D.C. 20460. ATTN: RCRA Permit Advisory Committee.

3. Meetings

It is expected that the first meeting of the Committee will be held in November 1982 and last one day. The Task Forces may meet for an additional day following adjournment of the Committee meeting and four or more times subsequently during the year.

Dated: September 16, 1982.

Rita M. Lavelle,

Assistant Administrator, Office of Solid Waste and Emergency Response.

[FR Doc. 82-26310 Filed 9-22-82; 8:45 am]

FEDERAL EMERGENCY MANAGEMENT AGENCY

Federal Insurance Administration

[Docket Number (N81)]

Offer to Provide Reinsurance Against Excess Aggregate Loss Resulting From Riots or Civil Disorders

Correction

In FR Doc. 82–25000, appearing at page 40477, in the issue of Tuesday, September 14, 1982, make the following change:

On Page 40477, in the third column, following the second paragraph, insert the following paragraph:

"As of August 1, 1982, the States of Connecticut, Georgia, Illinois, Maryland, Massachusetts, Michigan, Minnesota, New Jersey, North Carolina, Rhode Island, Washington, and Wisconsin, and the District of Columbia were in compliance with the statutory requirements."

BILLING CODE 1505-01-M

FEDERAL RESERVE SYSTEM

Acquisition of Bank Shares by Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. Federal Reserve Bank of St. Louis (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *Bank of Poplar Bluff Bancshares, Inc.*, Popular Bluff, Missouri; to acquire at least 80 percent of the voting shares of Bank of Marble Hill, Marble Hill, Missouri. Comments on this application must be received not later than October 18, 1982.

2. *Ridgway Bancorp, Inc.*, Ridgway, Illinois; to acquire 81.1 percent of the voting shares or assets of The Bank of West Frankfort, West Frankfort, Illinois, and 100 percent of the voting shares or assets of Drovers State Bank, Vienna, Illinois. Comments on this application must be received not later than October 18, 1982.

Board of Governors of the Federal Reserve System, September 17, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

[FR Doc. 82-26230 Filed 9-22-82; 8:45 am]

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than the date indicated for each application.

A. Federal Reserve Bank of New York (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *The Chase Manhattan Corporation*, New York, New York (trust services; Florida): To engage through its subsidiary, The Chase Manhattan Trust Company of Florida, National Association, in performing the activities that may be conducted by a trust company (including activities of a fiduciary, investment advisory, agency or custodian nature) in the manner authorized by Federal or State law. These activities would be provided from an office in Boca Raton, Florida, serving the State of Florida. Comments on this application must be received not later than October 18, 1982.

B. Federal Reserve Bank of Chicago (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. **Hawkeye Bancorporation**, Des Moines, Iowa (financing activities; Iowa): To engage directly in making or acquiring and servicing loans or other extensions of credit, including mortgage, consumer and commercial loans. These

activities would be conducted from an office in Des Moines, Iowa, serving Iowa. Comments on this application must be received not later than October 8, 1982.

2. *Heritage Wisconsin Corporation,* Wauwatosa, Wisconsin (crop hail insurance activities; Wisconsin): To engage in the sale of crop hail insurance through its subsidiary Heritage Insurance Agency, Inc., Wauwatosa, Wisconsin. This activity will be conducted from the offices of Heritage Insurance Agency, Inc., in Milwaukee, Wisconsin; Heritage Bank Beloit, Beloit, Wisconsin, and Heritage Bank of West Bend, West Bend, Wisconsin, serving the Beloit and West Bend communities and surrounding rural areas. Comments on this application must be received not later than October 12, 1982.

Federal Reserve Bank of San Francisco (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

1. *U.S. Bancorp,* Portland, Oregon (consumer, industrial and insurance; Colorado): To engage through its subsidary U.S. Bancorp Financial Services, Inc., in the making, acquiring and servicing of loans and other extensions of credit either secured or unsecured for its own account or for the account of others, including the making of consumer installment loans, purchasing consumer installment and real estate sales finance contracts and evidences of debt and making consumer home equity secured by real estate, making industrial loans, and acting as insurance agent with regard to credit life and credit disability insurance. These activities would be conducted from an office in Colorado Springs, Colorado and would serve the entire city of Colorado Springs, Colorado. Comments on this application must be received not later than October 18, 1982.

Board of Governors of the Federal Reserve System, September 17, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Formation of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become bank holding companies by acquiring voting shares and/or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303:

1. *Merchants & Farmers Bancshares, Inc.,* Leesville, Louisiana; to become a bank holding company by acquiring 100 percent of the voting shares of Merchants & Farmers Bank and Trust Company, Leesville, Louisiana. Comments on this application must be received not later than October 18, 1982.

B. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Shell Rock Bancorporation,* Shell Rock, Iowa; to become a bank holding company by acquiring 90 percent of the voting shares of Security State Bank, Shell Rock, Iowa. Comments on this application must be received not later than October 18, 1982.

2. *Viroqua Bancshares, Inc.,* Viroqua, Wisconsin; to become a bank holding company by acquiring 100 percent of the voting shares of The State Bank of Viroqua, Viroqua, Wisconsin. Comments on this application must be received not later than October 15, 1982.

C. **Federal Reserve Bank of Kansas City** (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *Pioneer Bank Shares,* Evanston Wyoming; to become a bank holding company by acquiring at least 80 percent of the voting shares of Pioneer Bank of Evanston, Evanston, Wyoming. Comments on this application must be received not later than October 13, 1982.

D. **Board of Governors of the Federal Reserve System** (William W. Wiles, Secretary) Washington, D.C. 20551:

1. *Dixie Bancorp, Inc.,* and Dixie Financial Services, Inc., both of Miami, Florida; to become a bank holding company by direct and indirect acquisition of at least 80 percent of the voting shares of Dixie National Bank of Dade County, Miami, Florida. This application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta. Comments on this application must be received not later than October 18, 1982.

2. *Drew Bancshares, Inc.,* Monticello, Arkansas; to become a bank holding company by acquiring 80 percent of the voting shares of Commercial Bank and Trust Company, Monticello, Arkansas. This application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis. Comments on this application must be received not later than October 18, 1982.

3. *First National of South Dakota, Inc.,* Omaha, Nebraska; to become a bank holding company by acquiring 92.6 percent of the voting shares of Valley State Bank, Yankton, South Dakota. This application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minneapolis. Comments on this application must be received not later than October 18, 1982

Board of Governors of the Federal Reserve System, September 17, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

GENERAL SERVICES ADMINISTRATION

Rental Contract for Motor Vehicle; Profit and Loss Operating Statement (GSA Form 2817)

AGENCY: General Services Administration.

ACTION: Notice of information collections; new/reinstatement.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the General Services Administration plans to request the Office of Management and Budget to review and approve a new information collection requirement and the reinstatement of an expired reporting requirement for the collection of data.

DATES: Comments on these information collections must be submitted on or before September 30, 1982.

ADDRESSES: Send comments to Franklin S. Reeder, GSA Desk Officer, Room 3235, NEOB, Washington, DC 20503, and to Anthony Artigliere, GSA Clearance Officer, General Services Administration (ORAI), Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: James Flowers, Directives and Reports Management Branch (202-566-1164).

SUPPLEMENTARY INFORMATION:

a. Rental Contract for Motor Vehicle

The purpose of the new information collection is to provide GSA data on motor vehicle rental firms under GSA contract. This information is necessary for future adjustments in vehicle allocations at individual contract locations.

b. Profit and Loss Operating Statement (GSA Form 2817)

The reinstatement of the established information collection will enable GSA to continue receiving data on food service contractors proposing to do business with the agency. The information is used to project the estimated revenue and expense and profit and loss items of contractors.

c. Obtaining copies of the proposals

A copy of the information collection proposals may be obtained from the Directives and Reports Management Branch (ORAI), Room 3011, GS Building, Washington, DC 20405, telephone 566–1164.

Dated: September 10, 1982.

Clarence A. Lee, Jr.,

Director of Administrative Services.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N–82–1131]

Urban Development Action Grants; Revised Minimum Standards for Small Cities; Correction

AGENCY: Office of Assistant Secretary for Community Planning and Development (CPD), HUD.

ACTION: Notice; Correction.

SUMMARY: This document corrects a Notice published in the **Federal Register** of Tuesday, June 8, 1982, at 47 FR 24820, which provided current minimum standards of physical and economic distress for small cities for the Urban Development Action Grants program. The action is necessary to correct an omission.

FOR FURTHER INFORMATION CONTACT: Frank Ridenour, Office of Urban Development Action Grants, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. Telephone: 202–755–0784. This is not a toll free number.

SUPPLEMENTARY INFORMATION: In a **Federal Register** Notice published June 8, 1982 at 47 FR 24820, 48 New York towns were omitted from Part V. This document corrects that omission, and lists the missing towns which met the minimum standards of physical and economic distress and which are in States where towns and townships may have powers comparable to the powers of municipalities.

BILLING CODE 4210-29-M

Office of the Secretary

[Docket No. N–82–1165]

Submission of Proposed Information Collections to OMB

AGENCY: Office of Administration, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirements described below have been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposals.

ADDRESS: Interested persons are invited to submit comments regarding these proposals. Comments should refer to the proposal by name and should be sent to: Robert Neal, OMB Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: David S. Cristy, Acting Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410, telephone (202) 755–5310. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposals described below for the collection of information to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The Notice lists the following information: (1) The title of the information collection proposal; (2) the office of the agency to collect the information; (3) the agency form number, if applicable; (4) how frequently information submissions will be required; (5) what members of the public will be affected by the proposal; (6) an estimate of the total number of hours needed to prepare the information submission; (7) whether the proposal is new or an extension or reinstatement of an information collection requirement; and (8) the names and telephone numbers of an agency official familiar with the proposal and of the OMB Desk Officer for the Department.

Copies of the proposed forms and other available documents submitted to OMB may be obtained from David S. Cristy, Acting Reports Management Officer for the Department. His address and telephone number are listed above. Comments regarding the proposals should be sent to the OMB Desk Officer at the address listed above.

The proposed information collection requirements are described as follows:

Notice of Submission of Proposed Information Collection to OMB

Proposal: Section 8 Housing Assistance Payments Program—Application for Existing Housing
Office: Housing
Form No.: HUD–52515
Frequency of submission: On occasion
Affected public: State or Local Governments
Estimated burden hours: 6,000
Status: Extension
Contact: Myra E. Newbill, HUD, (202) 755–5353, Robert Neal, OMB, (202) 395–6880

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Notice of Submission of Proposed Information Collection to OMB

Proposal: Urban Development Action Grant Program
Office: Community Planning and Development
Form No.: HUD–3440 and SF–424
Frequency of submission: Quarterly
Affected public: State or Local Governments
Estimated burden hours: 57,760
Status: Revision
Contact: Sue Shinderman, HUD, (202) 755–5898, Robert Neal, OMB, (202) 395–6880

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: September 7, 1982.

BILLING CODE 4210-01-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[F–14831–A]

Alaska Native Claims Selection

On November 19, 1974, Aniak Limited, for the Native village of Aniak, filed selection application F–14831–A, as amended, under the provisions of Sec. 12(a) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1611 (1976) (ANCSA), for the surface estate of certain lands in the vicinity of Aniak, Alaska.

Aniak Limited in application F–14831–A excluded several bodies of water. Because certain of those water bodies have been determined to be nonnavigable, they are considered to be public lands withdrawn by Sec. 11(a)(1) of ANCSA and available for selection by the village pursuant to Sec. 12(a) of ANCSA. Section 12(a) and 43 CFR 2651.4 (b) and (c) provide that a village corporation must, to the extent necessary to obtain its entitlement, select all available lands within the township or townships within which the village is located, and that additional lands selected shall be compact and *in whole sections.* The regulations also provide that the area selected will not be considered to be reasonably compact if it excludes other lands available for selection within its exterior boundaries. For these reasons, the water bodies which were improperly excluded in application F–14831–A are considered selected by Aniak Limited.

On April 25, 1977, in accordance with Title 10, Chapter 05, Secs. 396 and 399 of the Alaska Business Corporation Act, and as authorized by 43 U.S.C. 1627, Georgetown Incorporated, a domestic corporation, merged with Aniak Limited, Chuathbaluk Company, Kipchaughpuk Limited, Lower Kalskag Incorporated, Napamute Limited, Red Devil Incorporated, Sleetmute Limited, Stony River Ltd., and Upper Kalskag Incorporated, all domestic corporations, into Georgetown Incorporated, which consolidated individual village interests into one single constituent corporation whose name was changed to The Kuskokwim Corporation. The surviving corporation, The Kuskokwim Corporation, is entitled to all rights, privileges, and benefits of the Alaska Native Claims Settlement Act.

As to the lands described below, selection application F–14831–A, as amended, is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto.

These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a) of ANCSA, aggregating approximately 104,935 acres, is considered proper for acquisition by The Kuskokwim Corporation (for the village of Aniak) and is hereby approved for conveyance pursuant to Sec. 14(a) of ANCSA:

U.S. Survey No. 2638 Amended, Alaska, Aniak Air Navigation Site, excluding Native allotments F–15818 Parcel A and F–15824 Parcel A, Revocation/Restoration F–677, ANCSA Sec. 3(e) application AA–41758 and quitclaim deed F–035092.

Containing approximately 872 acres.

Seward Meridian, Alaska (Unsurveyed)

Secs. 35 and 36.
Containing approximately 2,560 acres.
Aggregating approximately 104,935 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Lands Management to be navigable because they have been or could be used in connection with travel, trade and commerce. The following named water bodies, together with any unnamed water bodies, are identified on the attached navigability maps, the original of which will be found in easement case file F–14831–EE:

Kuskokwim River
Aniak River
Aniak Slough
Doestock Creek
Owhat River

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for one or more of the following reasons: Lands are no longer under Federal jurisdiction; lands are under applications pending further adjudication; lands are pending a determination under Sec. 3(e) of ANCSA; or lands were previously rejected by decision. Lands within U.S. Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(f); and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b), the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F–14831–EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: Travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, and small all-terrain vehicles (ATV's) (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

60 Foot Road—The uses allowed on a sixty (60) foot wide road easement are: Travel by foot, dogsled, animals, snowmobiles, two and three-wheel vehcles, small and large all-terrain vehicles, track vehicles, four-wheel drive vehicles, automibles, and trucks.

One Acre Site—The uses allowed on a one (1) acre site easement are: Vehicle parking (e.g., aircraft, boats, ATV's, snowmobiles, cars, trucks), temporary camping, loading or unloading. Temporary camping, loading or unloading shall be limited to 24 hours.

a. (EIN 3 C3, D1, D9) An easement twenty-five (25) feet in width for an existing access trail from the townsite of Aniak southeasterly to Sec. 33, T. 17 N., R. 56 W., Seward Meridian, thence southwesterly to public land and the village of Tuluksak. The uses allowed are those listed for a twenty-five (25) foot wide trail easement. The season of use will be limited to winter.

b. (EIN 6 C3, D1, D9) A one (1) acre site easement upland of the ordinary high water mark in Sec. 3, T. 17 N., R. 56 W., Seward Meridian, on the left bank of the Owhat River at the river's mouth. The uses allowed are those listed for a one (1) acre site easement.

c. (EIN 8 C3, D1, D9) An easement sixty (60) feet in width for an existing road from the west boundary of the Alaska Division of Aviation Tract 1 (Aniak Airport) westerly for approximately 2,900 feet to the "CT Site" thence northwesterly for approximately 1,830 feet to the "H Marker Site". The uses allowed are those listed for a sixty (60) foot wide road easement.

d. (EIN 16 C4, C5) An easement twenty-five (25) feet in width for a proposed access trail from the Kuskokwim River in Sec. 2, T. 17 N., R. 57 W., Seward Meridian, northeasterly to public land. The uses allowed are those listed for a twenty-five (25) foot wide trail easement.

e. (EIN 16a C4, C5) A one (1) acre site easement upland of the ordinary high water mark in Sec. 2, T. 17 N., R. 57 W., Seward Meridian, on the right bank of the Kuskokwim River. The uses allowed are those listed for a one (1) acre site easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official plat of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therin, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958, 48 U.S.C., Ch. 2, Sec. 6(g)), contract, permit, right-of-way, or easement, and the right of the leasee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1616(b)(2) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law; and

3. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(c), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

The Kuskokwim Corporation (for the village of Aniak) is entitled to conveyance of 115,200 acres of land selected pursuant to Sec. 12(a) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 104,935 acres. The remaining entitlement of approximately 10,265 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate of the lands described above shall be issued to Calista Corporation when the surface estate is conveyed to The Kuskokwim Corporation (for the village of Aniak), and shall be subject to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native village shall be subject to the consent of The Kuskokwim Corporation.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Tundra Drums.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interiór Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 510 L Street, Suite 100, Anchorage, Alaska 99501.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until October 25, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

The Kuskokwin Corporation, 429 D Street, Suite 307, Anchorage, Alaska 99501
Calista Corporation, 516 Denali Street, Anchorage, Alaska 99501
State of Alaska, Department of Natural Resources, Division of Research and Development, Pouch 7–005, Anchorage, Alaska 99510

Ann Johnson,

Chief, Branch of Alaska Nature Claims Settlement Act Adjudication.

[C–12610]

Colorado; Partial Cancellation of Withdrawal Application for Arapaho National Wildlife Refuge

The U.S. Fish and Wildlife Service filed withdrawal application Serial No. C–12610 on March 23, 1971. This application was published as FR Doc. 71–4462 on March 26, 1971, and republished as FR Doc. 79–27783 on September 6, 1979. The requesting agency has canceled this application as to the following described lands:

Sixth Principal Meridian

T. 7 N., R. 79 W.,
Sec. 4, lot 4, SW¼NW¼, NW¼SW¼, and that part of the SW¼SW¼ lying northeast of a diagonal line from the northwest corner to the southeast corner of said quarter-quarter of the section;
Sec. 9, SW¼SE¼;
Sec. 14, that part of the SW¼SW¼ lying northeast of a diagonal line from the northwest corner to the southeast corner of said quarter-quarter of the section;
Sec. 15, that part of the SW¼NE¼ lying northeast of a diagonal line from the northwest corner to the southeast corner of said quarter-quarter of the section.
T. 8 N., R. 79 W.,
Sec. 6, that part of lot 7 lying northwest of a diagonal line from the northeast corner to the southwest corner of said lot, the exact boundary being the existing fence marking the Arapaho National Wildlife Refuge;
Sec. 8, S½;
Sec. 9, S½;
Sec. 17;
Sec. 19, lot 4, SE¼SW¼, and S½SE¼;
Sec. 21, that part of the NW¼SE¼ lying southeast of a diagonal line from the northeast corner to the southwest corner of said quarter-quarter of the section, the exact boundary being the existing fence marking the boundary of the Arapaho National Wildlife Refuge, and SW¼SE¼;
Sec. 28, W½NE¼;
Sec. 33, SW¼SW¼.
T. 8 N., R. 80 W.,
Sec. 11, NE¼NE¼, and that part of the SW¼NE¼ lying northwest of a diagonal line from the northeast corner to the southwest corner of said quarter-quarter of the section, the exact boundary being the existing fence marking the Arapaho National Wildlife Refuge, and those portions of the N½SW¼ and SW¼SW¼ lying northwest of a diagonal line between the northeast corner of the NE¼SW¼ and the southwest corner of the SW¼SW¼ of said quarter-quarter of the section, the exact boundary being the existing fence marking the Arapaho National Wildlife Refuge;
Sec. 12, NE¼, and N½NW¼;
Sec. 15, NW¼NE¼, and NE¼NW¼.

The areas described aggregate approximately 2,315.00 acres.

Therefore, in accordance with the regulations contained in 43 CFR 2310.2–1(c), at 10:00 a.m. on October 28, 1982, the land herein described shall be relieved of the segregative effect of this application and open to operation of the public land laws, including the United States mining laws, subject to any valid existing rights. The land remains open to the mineral leasing laws.

All valid applications received at or prior to 10:00 a.m. on October 28, 1982, shall be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

Any questions concerning this land should be directed to the Chief, Lands and General Mining Law Section, Colorado State Office, Bureau of Land Management, 1037—20th Street, Denver, Colorado 80202.

September 16, 1982.

Robert D. Dinsmore,

Chief, Branch of Lands and Minerals Operations.

Federal-State Coal Advisory Board Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Meeting notice.

SUMMARY: This notice advises the public that a special Federal-State Coal Advisory Board Technical Task Force will meet October 12, 1982, in Denver, Colorado.

DATE AND PLACE: The Technical Task Force will meet at 9:00 a.m. on October 12, at the Travelodge-Denver North, 200 West 48th Avenue, Denver, Colorado 80216, phone (303) 893–8811.

SUPPLEMENTARY INFORMATION: At a technical meeting held August 26, 1982, the Federal-State Coal Advisory Board established a technical task force to further develop the technique for forecasting the demand for coal reserves.

Detailed procedures to be used to develop a range of leasing levels will be discussed by the task force. This is a working meeting; no formal public presentations will be made.

FOR FURTHER INFORMATION CONTACT: Bureau of Land Management, Colorado State Office, 1037 20th Street, Denver, CO 80202, Attn: Ken Smith. Phone: (303) 837–3008.

George C. Francis,

State Director.

[M–046727]

Montana; Partial Termination of Small Tract Classification

1. On September 29, 1961 (26 FR 9387), pursuant to authority delegated to the State Director by Bureau Order No. 541, dated April 21, 1954 (10 FR 2473), and further delegated by State Director's Order of June 28, 1961, 40 acres of public land were classified as suitable for transfer under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U.S.C. 682a–e), as amended. The classification segregated the land from appropriation under the public land laws, including location and entry under the mining laws. The lands have not been selected for transfer.

2. Pursuant to Section 702 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2789), the classification has been reviewed and 32.50 acres have been determined suitable for return to unreserved public lands status. The classification is hereby terminated, in part, as to the following described land:

Principal Meridian

T. 9 N., R. 3 W.,
Sec. 14, N½N½SE¼SE¼, SW¼NW¼SE¼SE¼, and S½SE¼SE¼

The area contains 32.50 acres located in Jefferson County.

3. At 8 a.m. on November 1, 1982, the lands described in Paragraph Two will be open to operation of the public land laws including the general mining laws, subject to valid existing rights, the provisions of existing withdrawals, and requirements of applicable law. All valid applications received at or prior to 8 a.m. on November 1, 1982, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

4. The lands have been and continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning these lands should be addressed to Chief, Branch of Lands and Minerals Operations, Bureau

of Land Management, P.O. Box 30157, Billings, Montana 59107.

Michael J. Penfold,

State Director.

September 15, 1982.

Montana; Termination of Classifications for Multiple Use Management

1. Pursuant to authority delegated by Bureau Order No. 701, dated July 23, 1964 (29 FR 10526), as amended, the Bureau of Land Management multiple use classification orders summarized as follows are hereby terminated:

M 10816, 35 FR 18404 (December 3, 1970), containing 313.96 acres in Valley County;

M 12080, 35 FR 13221 (August 19, 1970), aggregating 17,682.99 acres in Dawson and Wibaux Counties;

M 14191, 35 FR 11419 (July 16, 1970), containing 1,274.88 acres in Prairie County;

M 15352, 35 FR 15852–15853 (October 8, 1970); as corrected, 35 FR 16182 (October 22, 1970), aggregating 2,622.32 acres in Yellowstone, Park, Sweet Grass, Stillwater and Treasure Counties;

M 16782, 35 FR 19528 (December 23, 1970), containing 457.04 acres in Carbon County; and

M 16802, 35 FR 19528–19529 (December 23, 1970), aggregating 2,950.34 acres in Yellowstone County.

The total acreage described in the above orders aggregates approximately 25,301 acres.

2. At 8 a.m. on October 27, 1982, the lands of paragraph one shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 8 a.m. on October 27, 1982, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in order of filing.

3. The lands described in paragraph one have been and continue to be open to location under the mining laws and to application and offers under the mineral leasing laws.

Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107.

Kannon Richards,

Acting State Director.

September 14, 1982.

BILLING CODE 4310-84-M

Reduction and Redesignation of Mathers Research Natural Area in New Mexico—Serial No. NM-53076

AGENCY: Bureau of Land Management, Interior.

ACTION: Reduction and Redesignation of Mathers Research Natural Area.

SUMMARY: Pursuant to the authority in 43 CFR, Subpart 2070, and authorization from the Director, Bureau of Land Management, dated August 9, 1982, I hereby remove the designation "Mathers Natural Area" from 120.8 acres of public lands in the following described area:

T. 10 S., R. 30 E., Section 1, N½SE¼, NMPM and T. 10 S., R. 31 E., Section 6, Lot 6, NMPM.

and change the designation applied to the public lands in the following described area from "Mathers Natural Area" to "Mathers Research Natural Area":

T. 10 S., R. 30 E., Section 1, Lots 1 and, S½NE¼, NMPM and T. 10 S., R. 31 E., Section 6, Lots 4, and 5, NMPM.

The remaining redesignated area aggregates approximately 241.54 acres of public land in Chaves County, New Mexico.

In accordance with 43 CFR 2071.4(a), this designation removal and redesignation action is only for the purpose of identifying the Bureau of Land Management's current management objectives for the area and has no effect upon established use or management of the lands and resources involved. The entire 362.34 acres subject to this action were originally classified for multiple-use management under the Classification and Multiple Use Act of September 19, 1964, and were segregated from all forms of appropriation under the public land laws on August 27, 1970 (FR Vol. 35, No. 167, page 13670). An opening order was published May 29, 1981, (FR Vol. 46, No. 103, page 28954) which opened the 120.8 acres removed from the designation to the operation of the public land laws. This reduction and redesignation of Mathers Natural Area implements decisions contained in the East Chaves Management Framework Plan which was approved in 1976. This action also brings the boundaries of the Mathers Research Natural Area into full conformance with those of the National Natural Landmark designation applied to the area by the Secretary of the Interior on May 14, 1982.

The remaining Mathers Research Natural Area is designated under the general category of Natural Resources Experiment and Research Areas, which covers relatively small areas used for research or experimental purposes (43 CFR 2071.4(b)(4)). The established primary management objectives for Mathers Research Natural Area, as prescribed by the East Chaves Management Framework Plan and implemented in accordance with a site-specific management plan approved in 1978, are to preserve and maintain the natural quality of its unique plant community and to provide opportunities for nondestructive scientific and educational studies of its natural characteristics.

The redesignated area has been determined to meet the Bureau of Land Management's criteria for Research Natural Areas contained in 43 CFR 8223.0–5. Mathers Research Natural Area may be used by individuals and groups for scientific study, research and demonstration purposes, and for other uses compatible with its established management objectives or authorized by the Roswell District Manager, by law, or by other Federal regulations in accordance with 43 CFR 8223.1.

Inquiries concerning these lands should be addressed to the Bureau of Land Management, P.O. Box 1449, Santa Fe, NM 87501.

Marvin LeNoue,

Acting State Director.

Draft Andrews Grazing Management Environmental Impact Statement; Notice of Public Meeting and DEIS Availability

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Meeting on Andrews Grazing Management DEIS.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environment Policy Act of 1969, the Department of the Interior has prepared a Draft Environmental Impact Statement for the Andrews EIS area. The proposal involves implementing a livestock grazing program on public lands within the Andrews EIS area of the Burns District in central Oregon.

Public reading copies will be available for review at the following locations:

Bureau of Land Management, Office of Public Affairs, 825 N.E. Multnomah Street, Portland, Oregon
Bureau of Land Management, Burns District Office, 745 Alvord St., Burns, Oregon
Library, University of Oregon, Eugene, Oregon
Central Oregon Community College, College Way, Bend, Oregon
Library, Portland State University, 727 SW Harrison, Portland, Oregon
Harney County Library, 80 West D, Burns, Oregon
Library, Oregon State University, Corvallis, Oregon

A limited number of copies are available upon request to the BLM Oregon State Office or the Burns District Office.

Informal public information meetings will be held on November 16 in the Community Hall in Denio, Nevada and November 17 in the Club Room of The Harney County Museum in Burns, Oregon.

Written comments on the draft EIS may be sent to: State Director (935), Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Comments should be postmarked on or before December 1, 1982 to be considered in preparation of the Final Andrews EIS.

FOR FURTHER INFORMATION CONTACT: Gerry Fullerton, Oregon State Office, Telephone: (503) 231–6955.

Dated: August 24, 1982.

Stanley D. Butzer,

Chief, Division of Resources.

Oregon; Order Providing for Opening of Public Lands

1. Pursuant to Section 103(a) of the Act of July 14, 1960 (74 Stat. 506, 43 U.S.C. 1384), the following described land was donated and reconveyed to the United States and title was accepted pursuant to Section 205 of the Act of October 21, 1976 (43 U.S.C. 1715):

Willamette Meridian

T. 33 S., R. 5 W.,
Sec. 12, Mineral Survey 920.
The area described contains 19.29 acres in Douglas County, Oregon.

2. At 9:30 a.m., on October 29, 1982, the land will be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 9:30 a.m., on October 29, 1982, will be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

3. At 9:30 a.m., on October 29, 1982, the land will be open to location and entry under the United States mining laws and to applications and offers under the mineral leasing laws.

Inquiries concerning the land should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Harold A. Berends,

Chief, Branch of Lands and Minerals Operations.

Dated: September 15, 1982.

BILLING CODE 4310–84–M

Richfield District Grazing Advisory Board; Meeting

September 17, 1982.

Notice is hereby given in accordance with Pub. L. 92–463 that a meeting of the Richfield District Grazing Advisory Board will be held on November 9, 1982.

The meeting will begin at 9 a.m. in the conference room of the Bureau of Land Management Office at 150 East 900 North, Richfield, Utah.

The agenda for the meeting includes discussion of the following items:

1. A discussion of the function of the Board;
2. The expenditure of range betterment and advisory board funds for range improvements;
3. A review of the current policy and program relating to allotment and management plans, including ongoing and future grazing environmental statement effort;
4. Election of officers;
5. Discussion of the board's future involvement in the allotment management plan program, and;
6. The arrangements for the next meeting.

The meeting is open to the public. Interested persons may make oral statements to the board between 3 p.m. and 4 p.m. on November 9, 1982, or file written statements for the board's consideration.

Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, 150 East 900 North, Richfield, Utah 84701 by November 8, 1982. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager.

Summary minutes of the board meeting will be maintained in the District Office and be available for public inspection and reproductions during regular business hours within 30 days following the meeting.

Donald L. Pendleton,

District Manager.

Wyoming; Proposed Continuation of Public Water Reserves

September 15, 1982.

The Bureau of Land Management, U.S. Department of the Interior, proposes that the existing Public Water Reserves, withdrawn by the Executive and Secretarial Orders as indicated below, be continued in part as to the following described lands for a period of 20 years, pursuant to Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751, 43 U.S.C. 1714. The purpose of the withdrawal is to protect existing permanent water sources.

Sixth Principal Meridian, Wyoming

1. Public Water Reserve No. 32, withdrawn by Executive Order of February 29, 1916.

T. 43 N., R. 93 W.,
Sec. 15, SW¼NE¼;
Sec. 24, SE¼SE¼;
Sec. 27, W½NW¼;
Sec. 29, SW¼NW¼.

The area described contains 200 acres in Hot Springs County, Wyoming.

2. Public Water Reserve No. 45, withdrawn by Executive Order of April 13, 1917.

T. 56 N., R. 103 W.,
Sec. 31, NE¼SW¼.

The area described contains 40 acres in Park County, Wyoming.

3. Public Water Reserve No. 58, withdrawn by Secretarial Order of February 25, 1919.

T. 50 N., R. 100 W.,
Sec. 27, SW¼NW¼, and N½SW¼.
Sec. 28, S½NE¼, and SE¼NW¼.
The area described contains 240 acres in Park County, Wyoming.

4. Public Water Reserve No. 63, withdrawn by Executive Order of April 30, 1919.

T. 49 N., R. 103 W.,
Sec. 15, W½NW¼, NE¼SW¼;
Sec. 16, lots 1, 2, and 3.

The area described contains 226.63 acres in Park County, Wyoming.

5. Public Water Reserve No. 64, withdrawn by Executive Order of June 5, 1919.

T. 49 N., R. 101 W.,
Sec. 1, lot 6.

The area described contains 36.45 acres in Park County, Wyoming.

6. Public Water Reserve No. 75, withdrawn by Executive Order of October 27, 1920.

T. 47 N., R. 87 W.,
Sec. 15, SW¼NE¼.
T. 43 N., R. 94 W.,
Sec. 22, SE¼SE¼;
Sec. 27, E½NE¼.
T. 50 N., R. 101 W.,
Lot 37–D (Sec. 28).
T. 52 N., R. 101 W.,
Sec. 29, SW¼.

The area described contains 360.02 acres in Hot Springs, Park and Washakie Counties, Wyoming.

7. Public Water Reserve No. 119, withdrawn by Executive Order of February 16, 1929.

T. 48 N., R. 87 W.,
Sec. 30, NE¼SE¼, and S½SE¼,
Sec. 31, N½NE¼.
T. 47 N., R. 99 W.,
Sec. 13, NW¼SW¼, and SE¼SW¼.

The area described contains 280 acres in Hot Springs and Washakie Counties, Wyoming.

8. Public Water Reserve No. 132, withdrawn by Executive Order No. 5407 of June 25, 1930.

T. 41 N., R. 90 W.,
Sec. 31, lot 3, and E½SW¼.
T. 55 N., R. 94 W.,
Sec. 1, lots 1, 2, 3, S½NW¼, and NW¼SW¼;
Sec. 2, NE¼SE¼, and S½SE¼;
Sec. 11, NW¼NE¼.

The area described contains 518.90 acres in Hot Springs and Big Horn Counties, Wyoming.

9. Public Water Reserve No. 146, withdrawn by Executive Order No. 5907 of April 18, 1932.

T. 45 N., R. 94 W.,
Sec. 21, lots 1 and 2.

The area described contains 65.51 acres in Washakie County, Wyoming.

10. Public Water Reserve No. 149, withdrawn by Executive Order No. 6025, of February 14, 1933.

T. 46 N., R. 100 W.,
Sec. 14, lot 1;
Sec. 15, NW¼SW¼.

The area described contains 80.13 acres in Hot Springs County, Wyoming.

11. Public Water Reserve No. 107, withdrawn by the Secretarial Orders of February 16, 1929, January 17, and April 15, 1931, April 8, 1932, February 15, and March 23, 1933, May 26, and September 27, 1934, January 18, 1935, March 19, 1936, and August 7, 1959.

T. 56 N., R. 100 W.,
Sec. 1, lot 3.

The area described contains 588.98 acres in Washakie, Big Horn, Hot Springs, and Park Counties, Wyoming.

Upon the Secretary's approval of the Public Land Order, all of the lands described above will be opened to nonmetalliferous mineral location, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. The lands have been and will continue to be open to applications and offers under the mineral leasing laws.

13. The following lands were withdrawn by Public Water Reserve No. 107, established by Executive Order of April 17, 1926, but were not previously noted on the official land office records. Upon the Secretary's approval of the Public Land Order, the following described lands will be segregated from the operations of the public land laws generally. The lands have been and will continue to be open to mineral location and mineral leasing, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

The area described aggregates 11,779.22 acres in Big Horn, Hot Springs, Park, and Washakie Counties, Wyoming.

Notice is hereby given, that a public meeting may be afforded in connection with the proposed withdrawal continuation. All interested persons who desire a meeting to be held on the proposal must submit a written request for a meeting to the undersigned on or before December 22, 1982. Upon the determination by the State Director, Bureau of Land Management, that a public meeting shall be held, a notice stating the time and place of the meeting, shall be published in the **Federal Register** and in at least one newspaper having a general circulation in the vicinity of lands involved, at least 30 days before the scheduled date of the meeting. All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal continuation may present their views in writing to the undersigned authorized officer of the BLM on or before December 22, 1982.

The authorized officer of the BLM will undertake such investigations as are necessary and prepare a report for consideration of the Office of the Secretary of the Interior. The final determination on the continuation of the withdrawal will be published in the **Federal Register.** The existing withdrawals will continue until such final determination is made.

All communications in connection with the proposed withdrawal continuation should be addressed to the undersigned officer, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82001.

Harold G. Stinchcomb,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

Minerals Management Service

Oil and Gas and Sulphur Operations in the Outer Continental Shelf

AGENCY: Minerals Management Service, Interior

ACTION: Notice of the receipt of a proposed development and production plan.

SUMMARY: Notice is hereby given that Chevron U.S.A. Inc. has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS–G 3129, Block 213, Vermilion Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the Plan and that it is available for public review at the Office of the Minerals Manager, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: Minerals Management Service, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837–4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: September 17, 1982.

John L. Rankin,

Acting Minerals Manager, Gulf of Mexico OCS Region.

BILLING CODE 4310-70-M

Office of the Secretary

Alaska Land Use Council Land Use Advisors Committee

The Federal and State Cochairmen of the Alaska Land Use Council are soliciting nominations for appointment or reappointment to the Council's Land Use Advisors Committee.

The Land Use Advisors Committee is mandated by Section 1201(m)(1) of the Alaska National Interest Lands Conservation Act. The Committee plays a key role in the public participation program established by the Alaska Land Use Council. Among other responsibilities, the Committee makes recommendations concerning the Council's annual work program and actions of the Federal agencies as they implement the Alaska Lands legislation.

The Alaska Lands Act requires that the Land Use Advisors Committee be representative of a balance between the State and national interests concerned with use of federally-owned public lands and resources in Alaska and the several geographic regions of the State. Members of the Committee serve without compensation but are reimbursed for necessary approved travel.

If you are interested in serving on the Land Use Advisors Committee send a letter of interest along with a resume to:

Alaska Land Use Council, Governor Jay S. Hammond, State Cochairman; Vernon R. Wiggins, Federal Cochairman, P.O. Box 120, Anchorage, Alaska 99510

The deadline for filing your letter of interest is November 17, 1982. For further information you may write to the above address or call (907) 272–3422.

William P. Horn,

Deputy Under Secretary.

September 20, 1982.

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Please direct status inquiries about the following to Team 2 (202) 275–7030.

Volume No. OP2–227

Decided: September 16, 1982.

By the Commission, Review Board No. 1, Members Parker, Chandler and Fortier.

MC 10223 (Sub-14), filed September 10, 1982. Applicant: CARL BROWN, ESTELLE FUNK, AND ALBERT R. FUNK d.b.a. MACK

TRANSPORTATION COMPANY, 4330 Torresdale Ave., Philadelphia, PA 19124. Representative: Francis W. Doyle, 323 Maple Ave., Southampton, PA 18966, 215–357–7220. Transporting *such commodities* as are dealt in or used by retail department stores, between points in the U.S., on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, MN, then northward along the western boundaries of Itasca and Koochiching Counties, MN, to the international boundary line between the U.S., and Canada.

MC 107012 (Sub-772), filed June 7, 1982 (Clarification), previously published in the FR issue of July 2, 1982. Applicant: NORTH AMERICAN VAN LINES, INC., 5001 U.S. Hwy 30 West, Fort Wayne, IN 46818. Representative: Bruce W. Boyarko, (same address as applicant), 219–429–2224. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the U.S., under continuing contract(s) with Mobil Corporation, of Fairfax, VA, and its following subsidiaries (a) Mobil Oil Corporation of America, of Fairfax, VA, (b) Container Corporation of America, of Northlake, IL, and (c) Montgomery Ward and Company, Inc., of Chicago, IL.

Note.—This republication is to show the names of the contracting shippers.

MC 133262 (Sub-6), filed September 10, 1982. Applicant: TIGGES TRUCKING, INC., 5071 JFK Rd., Dubuque, IA 52001. Representative: James M. Hodge, 3730 Ingersoll Ave., Des Moines, IA 50312, (515) 274–4985. Transporting *commodities in bulk,* between points in IA, IL, MN, and WI.

MC 154912 (Sub-1), filed September 10, 1982. Applicant: MOTRUX TRANSPORTATION, LTD., 2345 Douglas Rd., Burnaby, B.C., Canada V5C 5A9. Representative: Michael D. Duppenthaler, 211 S. Washington St., Seattle, WA 98104, (206) 622–3220. Transporting (1) *lumber and wood products,* (2) *pulp, paper and related products,* and (3) *building materials,* between points in the U.S., under continuing contract(s) with (a) Lignum Limited, (b) MacMillan Bloedel Limited, both of Vancouver, British Columbia, Canada, and (c) Domtar, Inc., of Montreal, Quebec, Canada.

MC 156123 (Sub-1), filed September 13, 1982. Applicant: CALCIUM CHLORIDE SALES, INC., 713 West Main St., Grove City, PA 16127. Representative: S. Berné Smith, P.O. Box 1166, Harrisburg, PA 17108–1166, (717) 232–8000. Transporting *liquid calcium chloride,* between points in the U.S., under continuing contract(s) with Allied Corporation, of Morristown, NJ.

MC 161083 (Sub-2), filed September 10, 1982. Applicant: H & H TRUCKING, P.O. Box 191, Okolona, MS 38860. Representative: Donald B. Morrison, P.O. Box 22626, Jackson, MS 39205, (601) 948–8820. Transporting *metal products,* between points in Lee County, MS, on the one hand, and, on the other, points in AL, AR, FL, GA, LA, MO, OK, TN, and TX.

MC 161892, (Sub-1), filed September 9, 1982. Applicant: HUBBARD EQUIPMENT CORP., Whiskey Rd., P.O. Box 419, Coram, NY 11727. Representative: Robert B. Pepper, 168 Woodbridge Ave., Highland Park, NJ 08904, 201–572–5551. Transporting (1) *building materials,* between New York, NY, and points in Suffolk County, NY, on the one hand, and, on the other, points in CT, NJ, NY, and PA, and (2) *those commodities which because of their size or weight require the use of special handling or equipment,* between those points in the U.S., in and east of WI, IA, MO, AR, and TX.

MC 162933, filed September 10, 1982. Applicant: ELLIS ROBERTS TRUCKING, Rt. 1, Box 61, Remlap, AL 35133. Representative: Donald B. Sweeney, Jr., P.O. Box 2366, Birmingham, AL 35201, 205–254–3880. Transporting (1) *metal products,* (2) *rubber and plastics products,* (3) *furniture and fixtures,* (4) *lumber and wood products,* and (5) *forest products,* between points in AL, FL, GA, LA, MS, TN, TX, NC, SC, IL, IN, AR, KY, and MO.

MC 163622, filed September 13, 1982. Applicant: GERALD N. CREASY, d.b.a. CREASY TRANSPORT, 911 Euclid Ave., Lynchburg, VA 24501. Representative: William F. Quillian, III, 801 Court St., Lynchburg, VA 24504, 804–845–6084. Transporting *enemas, douches, drugs and toilet preparations,* between Lynchburg, VA, on the one hand, and, on the other, points in AL, AR, DE, FL, GA, LA, MD, MS, NJ, NC, OK, SC, TN, TX, VA, and WV, under continuing contract(s) with C-B Fleet Company, Inc., of Lynchburg, VA.

MC 163633, filed September 7, 1982. Applicant: JAMES C. BEMIS, d.b.a. JIM BEMIS TRUCKING, R.R. No. 4, Milaca, MN 56353. Representative: James C. Bemis (same address as applicant), 612–983–6268. Transporting *lumber and wood products,* between points in the U.S., under continuing contract(s) with Foreston Dimensions Co., Inc., of Foreston, MN.

MC 163753, filed September 10, 1982. Applicant: BARD EDRINGTON, d.b.a. B.B.C. ENTERPRISES, 4851 South Pine St., Ocala, FL 32671. Representative: Wade H. Brown, P.O. Box 217, Bessemer, AL 35020, 205–428–8629. Transporting *transportation equipment,* between points in Marion County, FL, on the one hand, and, on the other, points in the U.S. (except AK and HI).

Please direct status inquiries about the following to team 3, (202) 275–5223.

Volume No. OP3–143

Decided: September 15, 1982.

By the Commission Review Board Number 2, Members Carleton, Williams and Ewing.

MC 2484 (Sub-61), filed September 2, 1982. Applicant: E & L TRANSPORT COMPANY, 23420 Ford Rd., Dearborn Heights, MI 48127. Representative: Eugene C. Ewald, 100 W. Long Lake Rd., Suite 102, Bloomfield Hills, MI 48013, (313) 645–9600. Transporting *motor vehicles,* between points in the U.S. (except AK and HI), under continuing contract(s) with persons as defined in Section 10923 of the Motor Carrier Act of 1980 who are equipped in business as manufacturers, distributors or dealers of motor vehicles.

MC 8535 (Sub-129), filed August 30, 1982. Applicant: GEORGE TRANSFER AND RIGGING COMPANY, INCORPORATED, P.O. Box 500, Parkton, MD 21120. Representative: John Guandolo, 1000 Sixteenth St., N.W., Washington, D.C. 20036, (202) 783–6131. Transporting *machinery and parts and accessories,* between points in the U.S. (except AK and HI).

MC 98694 (Sub-2), filed August 31, 1982. Applicant: FRONTIER WAREHOUSE & TRANSFER CO., 300 S. 25th Ave., Phoenix, AZ 85005. Representative: A. Michael Bernstein, 1441 E. Thomas Rd., Phoenix, AZ 85014, (602) 264–4891. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in AZ.

MC 142855 (Sub-6), filed August 26, 1982. Applicant: BAKER TRANSPORT, INC., P.O. Box 668, Hartselle, AL 35640. Representative: Donald B. Sweeney, Jr., P.O. Box 2366, Birmingham, AL 35201, (205) 254–3880. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the U.S. (except AK and HI).

MC 142784 (Sub-2), filed September 1, 1982. Applicant: RICHARD H. GRAVES, Box 193, E. Conway Rd., Center Conway, NH 03813. Representative: Richard H. Graves (same address as

applicant), (603) 356–2257. BILLING CODE 7035-01-M

[Volume No. 296]

Motor Carriers; Permanent Authority Decisions; Restriction Removals, Decision-Notice

Decided: September 16, 1982.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Canadian Carrier Applicants

In the event an application to transport property, filed by a Canadian domiciled motor carrier, is unopposed, it will be reopened on the Commission's own motion for receipt of additional evidence and further consideration in light of the record developed in Ex Parte No. MC–157, *Investigation Into Canadian Law and Policy Regarding Applications of American Motor Carriers For Canadian Operating Authority.*

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with the criteria set forth in 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Shaffer, Williams, and Higgins.

Agatha L. Mergenovich,

Secretary.

MC 25443 (Sub-6)X, filed September 7, 1982. Applicant: V. J. MARRIAN TRUCKING CORPORATION, 60 Hudson Street, New York, NY 10013. Representative: Charles J. Williams, P.O. Box 186, Scotch Plains, NJ 07076. Subs 4 and 5 permits: (1) Remove the "uncrated" restriction, Sub 5; and (2) broaden to "between points in the U.S. (except Alaska and Hawaii)", under continuing contract(s) with named shippers, both Subs.

MC 127156 (Sub-1)X, filed September 7, 1982. Applicant: C&E BRADLEY'S INC., P.O. Box 139, Wrangell, AK 99929. Representative: Warren G. Kellicut, Suite 500, 437 "E" St., Anchorage, AK 99501. Lead certificate, which authorizes "general commodities (except those of unusual value, and classes A and B explosives)," broaden the territory to: "between points within the First Judicial District of AK" (from between points on Wrangell Island, AK).

MC 145797 (Sub-16)X, filed September 7, 1982. Applicant: NANCY TRANSPORTATION, INC., 111 Hilltown Village Center, Chesterfield, MO 60317. Representative: Daniel J. Sweeney and Steven J. Kalish, 1750 Pennsylvania Ave., N.W., Washington, D.C. 20006. Subs 2, 3, 4, 6, 9, and 11: (1) broaden to (a) "drugs and chemicals and related products" from drugs and chemicals, in Subs 2 and 6, (b) "food and related products, and foodstuffs" from foodstuffs, in Subs 4 and 9, (c) "building and construction materials" from materials and hardware used in the manufacture and sale of overhead door sections, in Sub 11 part (2); (2) change one-way to radial, in all Subs; (3) expand to city or counties: (a) in Sub 2, Elkhart, IN (Elkhart County), facilities at St. Louis, MO and Sauget, IL (St. Louis, MO and St. Clair County, IL), Elkhart and South Bend, IN (Elkhart and Saint Joseph Counties), (b) in Sub 3, North Bergen, NJ (Hudson, Bergen, Passaic, and Essex Counties, NJ, and Kings, Queens, New York, and Bronx Counties, NY), facilities at St. Louis, MO (St. Louis, MO), (c) in Subs 4 and 9, facilities at Itasca, IL (Du Page County), facilities at St. Louis, MO (St. Louis, MO), (d) in Sub 6, facilities at Elkhart, IN (Elkhart County), West Haven, CT (New Haven County), (e) in Sub 11, facilities at Dallas and Ft. Worth, TX (Dallas and Tarrant Counties); and (4) remove originating or destined to restriction in Subs 3 and 4.

MC 146485 (Sub-4)X, filed September 7, 1982. Applicant: MARBURGER REFRIGERATED EXPRESS, INC., P.O. Box 387, Peru, IN 46970. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Lead and Sub 1F: (1) Broaden frozen fruits, frozen vegetables, frozen potatoes, frozen meats, and foodstuffs to "food and related products (except in bulk)"; (2) eliminate the facilities limitations; (3) expand (a) Caldwell and Heyburn to Canyon and Minidoka Counties, ID, in the lead; (b) Peru to Miami County, IN, in the lead and Sub 1F; and (c) Indianapolis and West LaFayette to Marion and Tippecanoe Counties, IN in the lead; and (4) remove the orginating at/and destined to restrictions.

MC 146900 (Sub-2)X, filed September 7, 1982. Applicant: BOBBY W. RAGAN d.b.a. TEKAMAH TRANSFER, 1414 "J" Street, Tekamah, NE 68061. Representative: James F. Crosby, 7363 Pacific St., Suite 210B, Omaha, NE 68114. Lead certificate: (1) Broaden commodity description from (a) general commodities with exceptions to "general commodities (except classes A and B explosives and household goods)"; and (b) feed, farm machinery, farm parts and draintile to "food and related products, transportation equipment, machinery, and clay, concrete, glass or stone products"; (2) broaden (a) regular route off-route points from Council Bluffs, IA to

Pottawattamie and Mills Counties, IA and Douglas and Sarpy Counties, NE; and Decatur, NE, to Thurston and Burt Counties, NE, and Monona County, IA; (b) irregular route Sioux City, IA to Woodbury and Plymouth Counties, IA, Dakota County, NE, and Union County, SD; Tekamah, NE and 25 miles thereof to Burt, Thurston, Cuming, Dodge, and Washington Counties, NE, and Harrison and and Monona Counties, IA, and (3) change one-way to radial authority on the irregular route; and authorize service to all intermediate points on the regular route.

Motor Carriers; Permanent Authority; Republications of Grants of Operating Rights Authority Prior to Certification

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the **Federal Register**.

An original and one copy of opposing verified statements must be filed with the Commission within 45 days after the date of this **Federal Register** notice. Applicant may file a verified statement in rebuttal within 60 days. Such pleadings shall comply with 49 CFR 1100.247 (renumbered 1100.251) addressing specifically the issue(s) indicated as the purpose for republication. Special Rule 247 (renumbered 251) was published in the **Federal Register** of July 3, 1980, at 45 FR 45539.

Agatha L. Mergenovich,

Secretary.

MC 92371 (Sub-6), (Republication), filed February 22, 1982, published March 10, 1982, and republished this issue. Applicant: SUNCREST TRANSPORTATION, INC., d.b.a. SHEARERS EXPRESS, PO Box 189, Commercial Drive, Oneonta, NY 13820. Representative: Raymond A. Richards, 35 Curtice PK, Webster, NY 14580, (716) 265-9510. A decision by the Commission, Division 2, acting as an Appellate Division, decided July 29, 1982, served August 4, 1982, finds that applicant is authorized to operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *textile mill products, pulp, paper and related products, chemicals and related products, rubber and plastic products, clay, concrete, glass or stone products, and wood products*, between points in Missouri and in the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, MN, then northward along the western boundaries of Itasca and Koochiching Counties, MN, to the International boundary line between the United States and Canada. Applicant is fit, willing, and able properly to perform the granted service and to conform to statutory and administrative requirements. The purpose of this republication is to include Missouri in the territorial description.

Note.—Certificate served September 1, 1982, will be cancelled upon issuance of the authority granted.

BILLING CODE 7035-01-M

[Docket No. AB-103 (Sub-5)]

Rail Carriers; Kansas City Southern Railway Co.—Abandonment—In Jackson County, MO; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that the Commission, Review Board Number 3, has issued a certificate authorizing the Kansas City Southern Railway Company to abandon its rail line known as the Maywood and Sugar Creek Branch extending from railroad milepost 0 to railroad milepost 1+28184 feet and the Independence Air Line Branch railroad milepost 5E+4161.6 feet to railroad milepost 8E+1874.3 feet, a distance of approximately 4.1 miles in Jackson County, MO, subject to certain conditions. Since no investigation was instituted, the requirement of § 1121.38(b) of the Regulations that publication of notice of abandonment decisions in the **Federal Register** be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on the applicant, with copies to Louis E. Gitomer, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective 30 days from the service date of the certificate.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-3 (Sub-31)]

Rail Carriers; Missouri Pacific Railroad Co.—Abandonment—In Clark and Pike Counties, AR; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that the Commission, Review Board Number 3, has issued a certificate authorizing the Missouri Pacific Railroad Company to abandon a portion of a line of railroad known as the Norman Subdivision, extending from railroad milepost 446.6 near Delight Junction to railroad milepost 453.2 at Delight, a distance of 6.6 miles in Clark and Pike Counties, AR, subject to certain conditions. Since no investigation was instituted, the requirement of § 1121.38(b) of the Regulations that publication of notice of abandonment decisions in the **Federal Register** be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on the applicant, with copies to Louis E. Gitomer, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective 30 days from the service date of the certificate.

[AB 26 (SDM)][1]

Rail Carriers; Southern Railway Co.; Amended System Diagram Map

Notice is hereby given that, pursuant to the requirements contained in Title 49 of the Code of Federal Regulations, Part 1121.23, that the Southern Railway Company has filed with the Commission its amended color-coded system diagram map in docket No. AB 26 (SDM). The Commission on September 9, 1982, received a certificate of publication as required by said regulation which is considered the effective date on which the system diagram map was filed.

Color-coded copies of the map have been served on the Governor of each state in which the railroad operates and the Public Service Commission or similar agency and the State designated agency. Copies of the map may also be requested from the railroad at a nominal charge. The maps also may be examined at the office of the Commission, Section of Dockets, by requesting docket No. AB 26 (SDM).

Agatha L. Mergenovich,

Secretary.

NATIVE HAWAIIANS STUDY COMMISSION

Publication of Draft Report of Findings

The Native Hawaiians Study Commission announces the publication of its Draft Report of Findings. A limited number of copies is available from the Commission's offices in Washington, D.C. (U.S. Department of the Interior Bldg., 18th and C Sts., N.W., Room 6220, Washington, D.C. 20240; 202–343–3107) and in Honolulu (P.O. Box 50247, Honolulu, Hawaii 96850; 808–546–3180).

The Commission was created by Title III of Public Law 96–565 on December 22, 1980. The mandate of the Commission is to "conduct a study of the culture, needs and concerns of the Native Hawaiians." The Commission first met September 23, 1981. The law creating the Commission states that:

> Within one year after the date of its first meeting, the Commission shall publish a draft report of findings of the study and shall distribute copies of the draft report to appropriate Federal and State agencies, to Native Hawaiian organizations, and upon request, to members of the public. The Commission shall solicit written comments from the organizations and individuals to whom copies of the draft report are distributed. (Sec. 303(c))

The Commission has set a 60-day period in which to allow government agencies and the public to comment on the draft report of findings. Written comments must be sent to the Commission no later than November 23, 1982, at the following address:

The Native Hawaiians Study Commission, Department of the Interior Building, 18th and C Sts., N.W.—Room 6220, Washington, D.C. 20240

The Commission will consider all comments received by that date as it prepares its final report. The final report will be submitted to the U.S. Congress and to the President no later than June 23, 1983.

For further information, call Mary Lyon-Allen on 202–343–3107.

Mary Lyon-Allen,

Executive Director.

BILLING CODE 4820-BE-M

NATIONAL LABOR RELATIONS BOARD

Privacy Act of 1974; Systems of Records, Annual Publication

AGENCY: National Labor Relations Board.

ACTION: Annual publication of notices of systems of records.

SUMMARY: The National Labor Relations Board is publishing this document to meet the annual publication requirements of Section 3(e)(4) of the Privacy Act of 1974 (5 U.S.C. 552a). The Agency previously published a complete listing of its systems of records in 45 FR 61821 and an amended listing in 46 FR 47328. This publication is a complete and current listing of the Agency's fourteen Notices of Systems of Records identified as NLRB–1 through NLRB–14 and Appendix, listing the NLRB Offices. Modifications have been made to some of the Notices for purposes of completeness and clarity, and to show changes in organizational designations and locations. These changes are administrative in nature and do not contain any new material which requires a new or altered system report or public comment. The minor changes and the names of the systems of records for which the changes apply are described under the heading "**SUPPLEMENTARY INFORMATION,**" below.

FOR FURTHER INFORMATION CONTACT: John C. Truesdale, Executive Secretary, National Labor Relations Board, Room 701, 1717 Pennsylvania Avenue, NW., Washington, DC 20570, telephone (202) 254–9430.

SUPPLEMENTARY INFORMATION: Those systems of records for which changes apply are:

NLRB–3 Biographical Data File—Presidential Appointees;

NLRB–8 Health Maintenance Program Records;
NLRB–10 Pay Records-Retirement;
NLRB–11 Payroll-Finance Records;
NLRB–13 Time and Attendance Records, NLRB.

Changes to the above systems of records include: (1) The titles of the system managers and locations of records for systems NLRB–3 and NLRB–8; (2) textual changes to NLRB–8 for purposes of clarity and thoroughness; (3) minor modifications of NLRB–10, NLRB–11, and NLRB–13 to provide for the necessary maintenance and processing of information for the purposes of preparing and issuing employee salary and compensation checks under the recently implemented Treasury Payroll/Personnel Information System (TPPIS); and (4) a complete updating of the Appendix.

A listing of all NLRB system notices and their complete texts appear below.

Dated: Washington, D.C., September 17, 1982.

By direction of the Board.

John C. Truesdale,

Executive Secretary.

NLRB–1 Accounting Records—Financial

Appendix

NLRB–1

SYSTEM NAME:

Accounting Records—Financial.

SYSTEM LOCATION:

Current records are maintained in: Financial Management Branch, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570. Each Washington and Field Office is authorized to maintain copies of records relating to reimbursements to employees of that office and other individuals covered within system. See the attached appendix for addresses of these offices. Inactive records are stored at the appropriate Federal records center in accordance with Federal Property Management Regulations of the U.S. General Services Administration (FPMR 101–11.4).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals reimbursed for expenses in connection with the official functions of the NLRB: i.e., travel on official business, witness fees and transportation expenses, and miscellaneous expenses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include name; home or office address; organizational unit number; purpose, duration, and cost for travel assignments of Agency employees; purpose, duration, points of travel, and cost for witnesses used by the Agency; purpose, category, and cost of miscellaneous expenses incurred by Agency employees.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information:

a. In the processing of claims for reimbursements.

b. As a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To individuals who need the information in connection with the processing of an appeal, grievance, or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

4. To the U.S. General Accounting Office for audit purposes or determination of validity of claims.

5. To the U.S. Department of Treasury for issuance of checks.

6. To the appropriate agency, whether Federal, state, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

7. To another agency, whether Federal, state, or local, or private organization where reimbursable arrangements exists between this Agency and such other agency or private organization.

8. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

9. To officials of labor organizations recognized under Pub. L. 95–454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on original source documents except travel summary cards which are maintained on microfilm.

RETRIEVABILITY:

Chronologically by year, and within each year alphabetically by name.

SAFEGUARDS:

Original source documents are maintained in file cabinets within the Finance Section office. Microfilm is maintained in a locked fireproof cabinet within the Services and Systems office. During duty hours cabinets are under surveillance of personnel charged with custody of the records, and after duty hours are behind locked doors. Access is limited to personnel who have a need for access in order to perform their official functions.

RETENTION AND DISPOSAL

Maintained and disposed of in accordance with U.S. General Services Administration retention regulations.

SYSTEM MANAGER(S) AND ADDRESS:

Finance Officer, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

See the attached appendix for the titles and addresses of officials at other locations responsible for this system at their locations.

NOTIFICATION PROCEDURE:

1. Current NLRB employees inquiring whether this system contains records on them should direct such inquiries to their supervisors.

2. An individual other than a current NLRB employee inquiring whether this system contains a record on such individual should direct such inquiry to the "System Manager" specified above, or to the responsible official designated under "System Manager" as responsible for the system in the geographic area where the expense was incurred.

3. In determining whether this system contains records on the inquirer, the following information is required: The inquirer's name and the year about which inquiry is being made.

RECORD ACCESS PROCEDURES:

An individual seeking to gain access to records in this system pertaining to such individual should contact the appropriate official or office designated under "Notification procedure." In granting access to records in this system, the following information is required: The inquirer's name and the year about which inquiry is being made.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this sytem pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

RECORD SOURCE CATEGORIES:

Travel vouchers, witness vouchers, and lodging and miscellaneous receipts submitted by the individual; travel orders submitted by Agency officials; subpoenas; claims for reimbursements; and miscellaneous correspondence and information related thereto.

NLRB-2

SYSTEM NAME:

Applicant Files for Attorney and Field Examiner Positions.

SYSTEM LOCATION:

Office of Executive Assistant to the Associate General Counsel; Board Members' Offices; Office of the Solicitor, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

Washington and Field Offices are authorized to maintain the records or copies of the records in connection with processing of applications for employment in the Agency. See the attached appendix for addresses of the Washington and Field Offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for Attorney or Field Examiner positions in offices under the general supervision of the General Counsel; applicants for Attorney positions on Board Members' staffs and in the Office of the Solicitor.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include copies of employment applications, educational transcripts, resumes, employment interview reports, and other information relative to employment.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information:

a. To process applications and evaluate applicants.

b. As a data source for management information for production of summary statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To individuals who need the information in connection with the processing of a grievance, appeal, or complaint. Wherever feasible, such information shall be furnished in depersonalized form i.e., without personal identifiers.

4. To a congressional office from the record or an individual in response to an inquiry from the congressional office made at the request of that individual.

5. To officials of labor organizations recognized under Public Law 95–454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

6. To the appropriate agency, whether Federal, state, or local, where there is an indication of a violation of potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper including forms, letters, and memoranda.

RETRIEVABILITY:

Alphabetically by name.

SAFEGUARDS:

Maintained in file cabinets. During duty hours cabinets are under surveillance of personnel charged with custody of the records and after duty hours are behind locked doors. Access to the cabinets is limited to personnel having a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Retained for an indefinite period of time.

SYSTEM MANAGER(S) AND ADDRESS:

1. To those applicants for positions under supervision of the General Counsel—Executive Assistant to the Associate General Counsel, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

2. To those applicants for positions under supervision of a Board Member—Chief Counsel to that Board Member, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

3. To those applicants for positions under supervision of the Solicitor—Solicitor, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

NOTIFICATION PROCEDURE:

An individual inquiring whether this system contains a record on such individual should direct such inquiry to the appropriate System Manager specified above.

RECORD ACCESS PROCEDURES:

An individual seeking to gain access to records in this system pertaining to such individual should contact the appropriate System Manager specified above.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the appropriate System Manager specified above.

RECORD SOURCE CATEGORIES:

Applicants, educational institutions, interviewers, evaluators, personnel specialists, references, previous employers.

NLRB-3

SYSTEM NAME:

Biographical Data File—Presidential Appointees

SYSTEM LOCATION:

Office of the Executive Secretary NLRB, 1717 Pennsylvania Avenue NW., Washington, D.C. 20570.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and former Presidential appointees to NLRB positions.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include biographical sketches: news releases, news articles on speeches and other newsmaking activities; photographs, and material incidental thereto.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information in the performance of their duties.

2. To the public upon demonstrated interest.

3. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on original sources or related papers in file folders.

RETRIEVABILITY:

Alphabetically by name.

SAFEGUARDS:

Maintained in file cabinets within the Office of the Executive Secretary. During duty hours, cabinets are under the surveillance of office personnel charged with custody of the records, and after duty hours are behind locked doors.

RETENTION AND DISPOSAL:

Permanently retained.

SYSTEM MANAGER(S) AND ADDRESS:

Office of the Executive Secretary, NLRB, 1717 Pennsylvania Avenue NW., Washington, D.C. 20570.

NOTIFICATION PROCEDURE:

An individual inquiring whether this system contains a record on such individual should direct such inquiry to the System Manager specified above.

RECORD ACCESS PROCEDURES:

An individual seeking to gain access to records in this system pertaining to such individual should contact the appropriate System Manager specified above.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the appropriate System Manager specified above.

RECORD SOURCE CATERGORIES:

Information in this system is submitted by the individual, written by Agency staff and approved by the individual, and obtained from general news sources.

NLRB–4

SYSTEM NAME:

Claim Records.

SYSTEM LOCATION:

Security and Safety Branch, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals filing claims under the Federal Tort Claims Act of 1946, the Military Personnel and Civilian Employees' Claims Act of 1964 and claims filed under subpart 101–39.8 of the Federal Property Management Regulations.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include reports of accidents or other events causing damage or loss; statements of witnesses; claims for damage or loss, investigations of claims, including doctors' reports, if any; records on disposition of claims; and information relative to the above.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information:

a. In processing claims against this Agency.

b. As a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To the U.S. Department of Justice for purpose of processing or adjudicating claims against the Agency.

4. To a court of competent jurisdiction for adjudicating claims.

5. To investigators utilized by the Agency to obtain information relevant to a claim against the Agency.

6. To the appropriate agency, whether Federal, state, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

7. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

8. To individuals who have a need for the information in connection with the processing of an appeal, grievance, or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

9. To officials of labor organizations recognized under Pub. L. 95–454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on forms, documents, and other papers.

RETRIEVABILITY:

Alphabetically by name.

SAFEGUARDS:

Maintained in file safe within the office of the Security and Safety Branch. File safe remains locked except during access to records. During duty hours, file safe is under the surveillance of personnel charged with the custody of the records, and after duty hours is behind locked doors. Combination is known only to designated members of Security and Safety staff. Access is limited to personnel who have a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Security and Safety Branch, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

NOTIFICATION PROCEDURE:

An individual inquiring whether this system contains records on such individual should direct such inquiries to the System Manager specified above.

RECORD ACCESS PROCEDURE:

An individual seeking to gain access to records in this system pertaining to such individual should contact the System Manager specified above.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the System Manager specified above.

RECORD SOURCE CATEGORIES:

Claimants, investigators, and witnesses.

NLRB–5

SYSTEM NAME:

Employment and Performance Records, Attorneys and Field Examiners.

SYSTEM LOCATIONS:

Office of Executive Assistant to Associate General Counsel, Board Members' Offices; Office of the Solicitor, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.
Washington and Field Offices are authorized to maintain the records or copies of the records for current and former NLRB employees of that office. See the attached appendix for addresses of the Washington and Field Offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former Attorneys and Field Examiners in offices under the general supervision of the General Counsel; current and former Attorneys employed on Board Members' Staffs and in the Office of the Solicitor.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include copies of employment applications, copies of personnel records, educational transcripts, resumes, employment interview reports, evaluation reports, career development appraisals, recommendations concerning promotion, copies of the official personnel file, correspondence, memoranda, and other information relevant thereto.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information.

2. To individuals who have a need for the information in connection with the processing of an appeal, grievance, or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

3. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. To officials of labor organizations recognized under Pub. L. 95–454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

5. To the appropriate agency, whether Federal, State, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

Maintained on paper including forms, letters, and memoranda.

RETRIEVABILITY:

Alphabetically by name.

SAFEGUARDS:

Maintained in file cabinets. During duty hours cabinets are under the surveillance of personnel charged with custody of the records, and after duty hours are behind locked doors. Access is limited to personnel having a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Retained for an indefinite period of time.

SYSTEM MANAGER(S) AND ADDRESS:

1. To those applicants for positions under supervision of the General Counsel—Executive Assistant to the Associate General Counsel, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570

2. To those applicants for positions under supervision of a Board Member—Chief Counsel to that Board Member, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570

3. To those applicants for positions under supervision of the Solicitor—Solicitor, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

See the attached appendix for titles and addresses of officials at other locations responsible for this sytem at their locations.

NOTIFICATION PROCEDURE:

1. Current NLRB employees inquiring whether this system contains records on such individuals should direct such inquiries to their supervisors.

2. An individual other than a current NLRB employee inquiring whether this system contains a record on such individual should direct such inquiry to the appropriate System Manager specified above, or to the official designated under "System Manager" as responsible for the system in the office where the individual was formerly employed.

RECORD ACCESS PROCEDURES:

An individual seeking access to records in this sytem pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

RECORD SOURCE CATEGORIES:

The individual, the Personnel Branch, educational institutions, interviewers, evaluators, references, previous employers, and supervisors.

NLKRB–5

SYSTEM NAME:

Employment and Performance Records, Nonprofessionals and Nonlegal Professionals

SYSTEM LOCATIONS:

Records are authorized to be maintained for current and former NLRB employees in all Agency offices. See the attached appendix for the addresses of these offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former nonprofessional employees and nonlegal professional employees of the Agency.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include copies of employment applications, educational transcripts, resumes, employment interview reports, evaluation reports, career development appraisals, recommendations concerning promotion, copies of personnel records, correspondence, memoranda, and other information relevant thereto.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information to evaluate job performance, developmental needs, potential within the Agency, and readiness for promotion.

2. To individuals who have a need for the information in connection with the processing of a grievance, appeal, or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

5. To the appropriate agency, whether Federal, state, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper including forms, letters, and memoranda.

RETRIEVABILITY:

Alphabetically by name.

SAFEGUARDS:

Maintained in file cabinets. During duty hours cabinets are under the surveillance of personnel charged with custody of the records, and after duty hours are behind locked doors. Access is limited to personnel having a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Retained for an indefinite period of time.

SYSTEM MANAGER(S) AND ADDRESS:

See the attached appendix for the titles and addresses of officials responsible for this system at their locations.

NOTIFICATION PROCEDURE:

1. Current NLRB employees inquiring whether this system contains records on such individuals should direct such inquiries to their supervisors.

2. An individual other than a current NLRB employee inquiring whether this system contains a record on such individual should direct such inquiry to the official designated under "System Manager" as responsible for the system in the office where the individual was formerly employed.

RECORD ACCESS PROCEDURES:

An individual seeking access to records in this system pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

RECORD SOURCE CATEGORIES:

The individual, the Personnel Branch, professional employees, educational institutions, interviewers, evaluators, references and previous employers.

NLRB–7

SYSTEM NAME:

Grievances, Appeals, and Complaints Records.

SYSTEM LOCATIONS:

Records are authorized to be maintained for current and former NLRB employees in all Agency offices. See the attached appendix for the addresses of these offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the Agency.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include formal or informal grievances, appeals, and complaints, together with information and documents related thereto; letters or notices to the individual; records of hearings when conducted, material placed in the file to support or contradict the decision or determination on such grievance, appeal, or complaint; affidavits or statements; testimonies of witnesses; investigative reports; and related correspondence and recommendations.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To the appropriate agency, whether Federal, State, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

4. To respond to a subpoena and/or refer to an arbitrator or court of competent jurisdiction.

5. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

6. To officials of labor organizations recognized under Pub. L. 95–454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

7. To individuals who have a need for the information in connection with the processing of a grievance, appeal, or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on forms, documents, letters, memoranda, and other similar papers.

RETRIEVABILITY:

Alphabetically by name.

SAFEGUARDS:

Access to and use of the records are limited to those persons whose official duties require such access until the records are required to be made public in support of an Agency action or position. These records are maintained in file cabinets which during duty hours are under the surveillance of personnel charged with custody of the records and after duty hours are behind locked doors.

RETENTION AND DISPOSAL:

Maintained for an indefinite period of time.

SYSTEM MANAGER(S) AND ADDRESS:

1. To those employees under supervision of the General Counsel—Deputy General Counsel, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

2. To those employees under supervision of the Board—Deputy

Executive Secretary, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

NOTIFICATION PROCEDURE:

1. Inquiries from current NLRB employees on whether this system contains records on such individuals should be directed to their supervisors.

2. Inquiries from individuals other than current NLRB employees as to whether this system contains records on such individuals should be directed to the appropriate System Manager specified above.

RECORDS ACCESS PROCEDURES:

A current NLRB employee seeking to gain access to records in this system pertaining to such employee should contact his or her supervisor.

An individual other than a current NLRB employee seeking to gain access to records in this system pertaining to such individual should contact the appropriate System manager specified above.

CONTESTING RECORD PROCEDURES:

A current NLRB employee seeking to contest records in this system pertaining to such employee should contact his or her supervisor.

An individual other than a current NLRB employee seeking to contest records in this system pertaining to such individual should contact the appropriate System Manager specified above.

RECORD SOURCE CATEGORIES:

Information in this system is obtained from the individual to whom the record pertains; Agency officials; affidavits, statements, and record testimony of individuals; and other documents and memoranda relating to the grievance, appeal, or complaint.

NLRB–8

SYSTEM NAME:

Health Maintenance Program Records

SYSTEM LOCATION:

Personnel Branch, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current NLRB employees participating in Agency sponsored health maintenance programs, such as Employee Health Maintenance Examinations (EHME's), diabetes tests, glaucoma tests, vision tests, blood donor program, and similar program.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may involve recorded information on Health Unit immunization cards which include individuals' names and dates of participation in health maintenance programs, and the name of the screening program in which participated. Also, for blood donor program, contains social security number, sex, donor identification number, home address and telephone, date of last donation, medications being taken, blood type, whether accepted or deferred as donor, and information relevant to the above.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees working with the program who have a need for the records or information:

a. In the administration of voluntary health maintenance programs.

b. As a data source for production of summary description statistics and analytical studies in support of the function for which the records are collected and maintained (without personal identification of individuals).

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To the American Red Cross insofar as the records or information pertain to the blood donor program.

4. To the U.S. Department of Health and Human Services in the administration of public health service programs.

5. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on logs, forms, and other papers.

RETRIEVABILITY:

By program name and within each program alphabetically by name.

SAFEGUARDS:

Maintained in file safe within the offices of the Personnel Branch and the Health Unit. File safe remains locked except during access to records. During duty hours, file safe is under the surveillance of personnel charged with the custody of the records, and after duty hours is behind locked doors. Combination is known only to designated members of the Personnel Branch. Access is limited to personnel who have a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Retained until employee leaves the Agency, or for six years, whichever comes first.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Special Programs and Services Unit, Personnel Branch, Room 334, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570.

NOTIFICATION PROCEDURE:

1. An individual inquiring whether this system contains records on such individual should direct such inquiries to the System Manager specified above.

2. In determining whether this system contains records on the inquirer, the following information is required: the inquirer's name and the particular health maintenance program about which inquiry is being made.

RECORD ACCESS PROCEDURES:

An individual seeking to gain access to records in this system should contact the System Manager specified above.

In granting access to records in this system, the following information is required: The inquirer's name and the particular health maintenance program about which inquiry is being made.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the System Manager specified above.

RECORD SOURCE CATEGORIES:

Information submitted by individual; officials of the servicing health units; and American Red Cross.

NLRB–9

SYSTEM NAME:

Occupational Injury and Illness Records.

SYSTEM LOCATION:

Security and Safety Branch, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570. Each Washington and Field Office is authorized to maintain copies of records in this system. See the attached appendix for addresses of the Washington and Field Offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former NLRB employees who have reported a work-related injury or illness.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include information pertaining to the complete history of the employee's occupational injury or illness, including any doctors' or investigative reports submitted, and the disposition of claims for compensation filed under the Federal Employees Compensation Act and information relative thereto.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information:

a. In processing reports of occupational injury or illness and claims for compensation under the Federal Employees Compensation Act.

b. As a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personal management functions or manpower studies.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To the U.S. Department of Labor for purposes of adjudicating claims for compensation under the Federal Employees Compensation Act.

4. To the U.S. Department of Health and Human Services in the administration of public health service programs.

5. To a court of competent jurisdiction for adjudicating claims arising under the Federal Employees Compensation Act.

6. To an investigator utilized by the Agency to obtain information relevant to a claim arising under the Federal Employees Compensation Act.

7. To the appropriate agency, whether Federal, state, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

8. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

9. To officials of labor organizations recognized under Pub. L. 95–454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

10. To individuals who need the information in connection with the processing of an appeal, grievance or complaint. Whenever feasible such information shall be furnished in depersonalized form, i.e., without personal identifiers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on forms and related correspondence.

RETRIEVABILITY:

Alphabetically by name.

SAFEGUARDS:

Maintained in file safe within the Security and Safety Office. File safe remains locked except during access. During duty hours file safe is under the surveillance of personnel charged with the custody of the records, and after duty hours is behind locked doors. Combination is known only to designated members of Security and Safety staff. Access is limited to personnel who have a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Security and Safety Branch, NLRB, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570. See the attached appendix for the titles and addresses of officials at other locations responsible for this system at their locations.

NOTIFICATION PROCEDURE:

An individual requiring whether this system contains a record on such individual should direct such inquiry to the System Manager specified above.

RECORD ACCESS PROCEDURES:

An individual seeking to gain access to records in this system pertaining to such individual should contact the System Manager specified above.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the System Manager specified above.

RECORD SOURCE CATEGORIES:

Forms completed by the employee; witnesses; investigators; employee's supervisor; claims examiners of the U.S. Department of Labor; and doctors' statements, if any.

NLRB–10

SYSTEM NAME:

Pay Records—Retirement

SYSTEM LOCATION:

Financial Management Branch, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current NLRB employees under the Civil Service Retirement System.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include name, previous name if any; social security number; sex, birth date; entrance-on-duty date; employment history, including prolonged leave without pay; and monetary contributions to retirement fund made during employment, and information relevant thereto.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information:

a. To administer the Civil Service Retirement System within the Agency.

b. As a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To the Office of Personnel Management for administering the Civil Service Retirement System.

4. To the U.S. General Accounting Office for audit purposes.

5. To the appropriate agency, whether Federal, state, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

6. To a congressional office from the record of an individual in response to an

inquiry from the congressional office made at the request of that individual.

7. To officials of labor organizations recognized under Pub. L. 95–454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Whenever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

8. To individuals who need the information in connection with the processing of an appeal, grievance or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on employment history cards and source documents.

RETRIEVABILITY:

By organizational unit and within each unit by employee name or social security number.

SAFEGUARDS:

Maintained in file cabinets within the Payroll and Report Section office. During duty hours file cabinets are under survillance of personnel charged with custody of the records, and after duty hours are behind locked doors. Access is limited to personnel who have a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Maintained only on current employees. Transferred to the Office of Personnel Management upon termination of service with the Agency.

SYSTEM MANAGER(S) AND ADDRESS:

Finance Officer, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

NOTIFICATION PROCEDURE:

1. An individual inquiring whether this system contains a record on such individual to the System Manager designated above.

2. In determining whether this system contains records on the inquirer, the following information is required: The inquirer's name and the organizational unit in which currently employed.

RECORD ACCESS PROCEDURES:

1. An individual seeking to gain access to records in this system pertaining to such individual should contact the System Manager specified above.

2. In granting access to records in this system, the following information is required: The inquirer's name and the year about which inquiry is being made.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the System Manager specified above.

RECORD SOURCE CATEGORIES:

Personnel Branch, timekeepers, and supervisors.

NLRB–11

SYSTEM NAME:

Payroll—Finance Records

SYSTEM LOCATION:

Current records are maintained in:

Financial Management Branch, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

Inactive records are stored at the appropriate Federal records center in accordance with Federal Property Management Regulations of the U.S. General Services Administration (FPMR 101–11.4).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the Agency.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include each employee's name, date of birth, home address, payroll identification number, organizational unit number, block number pay plan, grade and step, social security number, state identification code and name, leave earned and used, composite designator code and account number, and for the current pay period, quarterly and year-to-date hours worked, base pay, overtime pay, premium pay, miscellaneous pay, gross earnings, net earnings, and all withholdings from pay including retirement, taxes (Federal, state, and local), FICA, exemptions (Federal, state, and local), life, group, and optional insurance, bonds (authorization number and date of issuance), and miscellaneous allotments and deductions. Employment history is also maintained for retirement purposes.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information:

a. To compile payroll records.

b. To maintain agency salary and expense accounts.

c. As a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies.

d. To transfer information from the records to the individual to whom the record pertains.

e. To determine life insurance eligibility, costs, and types of coverage employees shall receive.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To individuals who need the information in connection with the processing of an appeal, grievance, or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

4. To the U.S. Department of the Treasury for payroll purposes.

5. To the Office of Personnel Management concerning pay, benefits, retirement deductions and other information necessary for the Office to carry out its Government-wide personnel management functions.

6. To state and local authorities for the purposes of verifying tax collections, unemployment compensation claims, and administering public assistance programs.

7. To the U.S. Department of Health and Human Services for the administration of the social security program.

8. To the U.S. Department of Labor for processing or adjudicating claims under the Federal Employees Compensation Act.

9. To the U.S. General Accounting Office for audit purposes.

10. To the appropriate agency, whether Federal, state, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

11. To a congressional office made at the request of that individual.

12. To officials of labor organizations recognized under Pub. L. 95–454, when relevant and necessary to their duties of exclusive representation of NLRB

employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on original source documents, computer printouts, and on a computer disk file with two magnetic tape backups and microfiche.

RETRIEVABILITY:

Employee payroll file maintained chronologically by year, and within each year by organizational unit, and within each unit by social security number or by employee name.

SAFEGUARDS:

All doors to the computer room are installed with combination locks and during duty hours the computer and magnetic tape backup are under surveillance of office personnel charged with custody of the records. After duty hours all doors remain locked. Access is limited to authorized personnel, only. Use of the machines for information printouts is restricted to designated personnel and access is password protected. Original source documents are maintained in file cabinets. During duty hours cabinets are under surveillance of personnel charged with custody of the records, and after duty hours are behind locked doors. Access is limited to personnel having a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Payroll records retained and disposed of in accordance with the applicable General Accounting Office and General Services Administration retention schedules. Microfilm, magnetic strip ledgers and microfiche are maintained for 56 years after the last entry of data.

SYSTEM MANAGER(S) AND ADDRESS:

Finance Officer, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

Chief, Data Systems Branch, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570

NOTIFICATION PROCEDURE:

1. An individual inquiring whether this system contains a record on such individual should direct such inquiry to the System Manager first specified above.

2. In determining whether this system contains records on the inquirer, the following information is required: the inquirer's name; the year about which inquiry is being made; and, for records other than the payroll file, the organizational unit or units in which employed during that year.

RECORD ACCESS PROCEDURE:

An individual seeking to gain access to records in this system pertaining to such individual should contact the System Manager first specified above.

In granting access to records in this system the following information is required: the inquirer's name; the year about which inquiry is being made; and, for records other than the payroll file, the organizational unit or units in which employed during that year.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this sytem should contact the System Manager first specified above.

RECORD SOURCE CATEGORIES:

The individual, the Personnel Branch, timekeepers, and supervisors; U.S. CIvil Service Commission and Office of Personnel Management bulletins; taxing authority notices; and withholding authorizations.

NLRB–12

SYSTEM NAME:

Prefiling Communications

SYSTEM LOCATION:

Records are authorized to be maintained in all Field Offices of the Agency, at the address listed in the attached appendix, and

Office of the General Counsel, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Perons who have sought assistance regarding possible institution of an unfair labor practice, representation, or other civil action or proceeding before the National Labor Relations Board.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include file memoranda detailing the substance of oral communications, letters of inquiry, and responses thereto, may contain information relating to an individual's employment history, job performance, earnings, home address, telephone number, union activity, or other information relevant to a potential action or proceeding before the National Labor Relations Board.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. These records, or information therefrom, are disclosed to Agency officials and employees who have a need for the records or information in the processing of cases before the Agency.

2. These records, or information therefrom, may be referred, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, state, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto.

3. Disclosures may also be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in paper from file folders.

RETRIEVABILITY:

Alphabetically by name.

SAFEGUARDS:

Maintained in file cabinets in the nonpublic area of the office under the immediate control of the System Manager. During duty hours cabinets are under surveillance of personnel charged with custody of the records and after duty hours are behind locked doors.

RETENTION AND DISPOSAL:

In the recent a civil action or proceeding is instituted prior to the record being destroyed, the record is placed in the case file which is not indexed by the name of the individual. In the event no action or proceeding is instituted, the records are destroyed after varying periods of time; however, not longer than 2 years.

SYSTEM MANAGER(S) AND ADDRESS:

General Counsel, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

See the attached appendix for titles and addresses of officials responsible for this system at their locations.

NOTIFICATION PROCEDURE:

An individual inquiring whether this system contains a record on such individual should direct such inquiry to the General Counsel or to the

appropriate Regional Director, Officer-in-Charge, or Resident Officer of the Agency office where the individual sought or was referred to for assistance, at the address of that office specified in the attached appendix.

RECORD ACCESS PROCEDURE:

An individual seeking to gain access to records in this system pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

RECORD SOURCE CATEGORIES:

Individual who seeks assistance.

NLRB–13

SYSTEM NAME:

Time and Attendance Records, NLRB.

SYSTEM LOCATION: Current records are maintained in:

Financial Management Branch, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

Each Washington and Field Office maintains a copy of time and attendance records for current employees in that office, and is authorized to retain such records on former employees of that office. See the attached appendix for addresses of these offices.

Inactive records are stored at the appropriate Federal records center in accordance with Federal Property Management Regulations of the U.S. General Services Administration (FPMR 101–11.4).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the Agency.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include name; home address; organizational unit number; payroll identification number; entrance-on-duty date; time worked, including regular hours, overtime, compensatory time, and premium pay status; leave earned and used; absences without leave; and doctors' certificates, when required.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the records or information:

a. In the compilation of biweekly payrolls.

b. To maintain leave accounts.

c. As a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To another Federal Government agency in connection with the transfer of an NLRB employee to that agency.

4. To the Office of Personnel Management for administering the Civil Service Retirement System.

5. To the U.S. General Accounting Office for audit purposes.

6. To another Government agency or private organization in connection with an agreement under the Intergovernmental Personnel Act.

7. To the U.S. Department of Labor for processing or adjudicating claims under the Federal Employees Compensation Act.

8. To the appropriate agency, whether Federal, State, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulations, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

9. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

10. To individuals who have a need for the information in connection with the processing of an appeal, grievance, or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

11. To officials of labor organizations recognized under Pub. L. 95–454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYTEM:

STORAGE:

Maintained on Form TDF 10–11.H–1, H–2 and H–3 and related forms and papers, and on microfilm/microfiche.

RETRIEVABILITY:

Chronologically by year, and within each year by organizational unit, and within each unit by social security number or by employee name.

SAFEGUARDS:

Original source documents or copies thereof are maintained in file cabinets. Microfilm/microfiche is maintained in locked fireproof metal cabinets. During duty hours cabinets are under surveillance of personnel charged with custody of the records, and after duty hours are behind locked doors. Access is limited to personnel having a need for access to perform their official functions.

RETENTION AND DISPOSAL:

Retained and disposed of in accordance with General Accounting Office and General Services Administration retention schedules. Original source documents are retained within the Agency for 3 years and then transferred to the appropriate Federal record center for the balance of the retention period. Microfilm/microfiche records are maintained within the Agency for the full period specified in the appropriate retention schedule.

SYSTEM MANAGER(S) AND ADDRESS:

Finance Officer, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

See the attached appendix for the titles and addresses of officials at other locations responsible for this system at their locations.

NOTIFICATION PROCEDURE:

1. Current NLRB employees inquiring whether this system contains records of such individuals should direct such inquiries to their supervisors.

2. An individual other than a current NLRB employee inquiring whether this "System Manager" specified above, or official designated under "System Manager" as responsible for this system in the office where the individual was previously employed.

3. In determining whether this system contains records on the inquirer, the following information is required: year about which inquiry is being made, and inquirer's name and organizational unit

or units in which employed during that year.

RECORD ACCESS PROCEDURES:

1. An indvidual seeking to gain access to records in this system pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

2. In granting access to records in this sytem, the following information is required: the year about which inquiry is being made, and the inquirer's name and organizational unit or units in which employed during that year.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the appropriate official or office designated under "Notification procedure."

RECORD SOURCE CATEGORIES:

Individual to whom the record pertains, timekeeper or supervisor, doctors' statements.

NLRB-14

SYSTEM NAME:

Equal Employment Opportunity Program Management System.

SYSTEM LOCATION:

Data Systems Branch, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former NLRB employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include information such as employee name, social security number, Minority Group Designator (MGD), Code, employment status, sex, date of birth, payroll block and unit number, pay plan, grade and step, entrance-on-duty date, date of last promotion, date of last quality step increase, employment class and date of separation.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records, or information therefrom, are disclosed:

1. To Agency officials and employees who have a need for the record or information:

a. In monitoring and evaluating the status and progress of minority/female employment.

b. As a data source for management information for production of summary descriptive statistics and analytical studies in support of the Agency's EEO Program (without personal identification of individuals).

c. In connection with the investigation, processing, adjudication and/or settlement of an EEO complaint or civil action.

2. To respond to general requests for statistical information (without personal identification of individuals).

3. To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. To the appropriate agency, whether Federal, state, or local, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, charged with the responsibility of investigating or prosecuting such violation or enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto, or to any agency in connection with its oversight review responsibility.

5. To officials of labor organizations recognized under Pub. L. 95-454, when relevant and necessary to their duties of exclusive representation of NLRB employees under the Act. Wherever feasible and consistent with responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

6. To individuals who have a need for the information in connection with the processing of an appeal, grievance, or complaint. Wherever feasible, such information shall be furnished in depersonalized form, i.e., without personal identifiers.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on computer disk file and magnetic tape backup.

RETRIEVABILITY:

By social security account number or alphabetically by name.

SAFEGUARDS:

All doors to the computer room have combination locks and during duty hours the computer and magnetic tape backup are under surveillance of Agency personnel charged with custody of the records. After duty hours the computer disk file and magnetic tape backup are stored in a fireproof safe behind locked doors. Access is limited to authorized personnel only. All format programs are password protected and use of the machines for information printouts restricted to designated personnel.

RETENTION AND DISPOSAL:

The information in these records is updated as necessary as changes in the data elements occur. Information on former employees is retained for three years following their separation from the Agency.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Equal Employment Opportunity, NLRB, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570.

NOTIFICATION PROCEDURE:

An individual inquiring whether this system contains a record on such individual should direct such inquiry to the System Manager specified above.

RECORD ACCESS PROCEDURES:

An individual seeking to gain access to records in this system pertaining to such individual should contact the System Manager specified above.

CONTESTING RECORD PROCEDURES:

An individual seeking to contest records in this system pertaining to such individual should contact the System Manager specified above.

RECORD SOURCE CATEGORIES:

Information in this system is obtained from the individual to whom the record pertains, Agency officials and from personnel records.

Appendix

Names and Addresses of NLRB Offices referenced in Notice of Record Systems shown above:

NLRB Headquarters Offices

Offices of the Board
- Members of the Board
- Executive Secretary, Office of the Executive Secretary
- Solicitor

Offices of the General Counsel
- General Counsel
- Associate General Counsel, Division of Operations Management
- Associate General Counsel, Division of Advice
- Associate General Counsel, Division of Enforcement Litigation
- Director, Office of Appeals
- Director, Division of Administration
- Director, Equal Employment Opportunity

Address: 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570

Chief Administrative Law Judge, Division of Administrative Law Judges

Address: Room 1121, Hamilton Building, 1375 K Street, N.W., Washington, D.C. 20005

San Francisco Office, Division of Administrative Law Judges

Address: Room 12064, Federal Building, 450 Golden Gate Avenue, San Francisco, CA 94102

New York Office, Division of Administrative Law Judges

Address: Paramount Building, 4th Floor, 1501 Broadway Street, New York, NY 10036

Atlanta Office, Division of Administrative Law Judges

Address: 44 Broad Street NW., 9th Floor, Atlanta, GA 30303

BILLING CODE 7545-01-M

NATIONAL SCIENCE FOUNDATION

Application Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit application received under Antarctic Conservation Act of 1978 Pub. L. 95–541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act of 1978 at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATE: Interested parties are invited to submit written data, comments, or views with respect to this permit application by October 18, 1982. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESS: Comments should be addressed to Permit Office, Room 627, Division of Polar Programs, National Science Foundation, Washington, D.C. 20550.

FOR FURTHER INFORMATION CONTACT: Charles E. Myers at the above address or (202) 357–7934.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541), has developed regulations that implement the "Agreed Measures for the Conservation of Antarctic Fauna and Flora" for all United States citizens. The Agreed Measures, developed in 1964 by the Antarctic Treaty Consultative Parties, recommended establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Specially Protected Areas and Sites of Special Scientific Interest. The regulations appeared in final form in the June 7, 1979 **Federal Register.** Additional information was published in the July 13, 1982 **Federal Register**, page 30328.

The application received is as follows:

1. *Applicant:* Mr. Jack Laney, San Diego Hall of Science, P.O. Box 55303, San Diego, California 92103.

Activities for which permit requested.—Taking, Enter Specially Protected Areas, Enter Sites of Special Scientific Interest.

The applicant requests permission to photograph the flora and fauna of Antarctica using the OMNIMAX motion picture technique. In addition, a 16mm film on current science projects will be made. No flora or fauna will be physically taken or handled; the objective of this project is to photograph various species in their natural environment.

Location: McMurdo Station and vicinity, Palmer Station and vicinity, Selected Sites of Special Scientific Interest, Selected Specially Protected Areas.

Dates: November 10, 1982 to January 31, 1983.

Authority to publish this notice has been delegated by the Director, NSF to the Director, Division of Polar Programs.

Edward P. Todd,

Division Director, Division of Polar Programs.

[FR Doc. 82-26220 Filed 9-22-82; 8:45 am]

BILLING CODE 7555-01-M

Permits Issued Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permits issued under the Antarctic Conservation Act of 1978, Pub. L. 95–541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permits issued under the Antarctic Conservation Act of 1978. This is the required notice of permits issued.

FOR FURTHER INFORMATION CONTACT: Charles E. Myers, Permit Office, Division of Polar Programs, National Science Foundation, Washington, D.C. 20550. Telephone (202) 357–7934.

SUPPLEMENTARY INFORMATION: On July 13 and August 10, 1982, the National Science Foundation published notices in the **Federal Register** of permit applications received. On September 13, 1982 permits were issued to: Eric P. Hoberg, Wayne Trivelpiece, David G. Ainley, David E. Murrish, Donald B. Siniff, Arthur L. DeVries, Wesley E. LeMasurier, William M. Hammer, and Vera Komarkova.

Charles E. Myers,

Permit Office, Division of Polar Programs.

BILLING CODE 7555-01-M

NATIONAL TRANSPORTATION SAFETY BOARD

Performance Review Board, Senior Executive Service; Appointment of Members

Appointments of Performance Review Board members are required to be published in the **Federal Register** by 5 U.S.C. 4314(c)(4).

The following persons have been appointed to, and will serve on, Performance Review Boards for senior executives in the National Transportation Safety Board: Patricia A. Goldman, John R. Wheatley, Robert W. Pyle, Lloyd F. Miller, James Danaher, B. Michael Levins, Thomas DeW. Styles, Barry M. Sweedler, and John M. Stuhldreher.

Robert W. Pyle,

Chief, Personnel and Training Division.

September 9, 1982.

[FR Doc. 82-26259 Filed 9-22-82; 8:45 a.m.]

BILLING CODE 4910-58-M

Reports, Recommendations; Availability

Reports Issued

Special Investigation Report —Derailments of New York City Transit Authority Trains Involving Traction Motor Mount Failures (NTSB–TSR–SIR–82–2).

Railroad Accident Reports —Brief Format, Issue Number 3—1980 (NTSB– RAB–82–2).

Highway Accident Report —Truck Engine Fuel Tank Puncture by Bridge Repair Plate, Diesel Spill, and Multiple-Vehicle Skidding Collisions, Interstate Route 10, Lake Charles, Louisiana, August 27, 1981 (NTSB–HAR–82–4).

Aircraft Accident Report —Pilgrim Airlines Flight 458, deHavilland DHC–6–100, N127PM, near Providence, Rhode Island, February 21, 1982 (NTSB–AAR–82–7).

Recommendations Issued

Federal Aviation Administration: Aug. 31: A–82–90: Issue an Airworthiness Directive requiring installation of inboard flow strips on all Piper PA–38–112 aircraft manufactured before January 25, 1979, that have not been modified with these flow strips in accordance with the provisions of Piper Service Letter No. 876. *A–82–106:* Encourage timely adoption of the Society of Automotive Engineers (SAE) standard for "general aviation" flight recorders (intended for installation in multiengine, turbine-power, fixed-wing aircraft and rotorcraft in any type of operation not currently required by 14 CFR 121.343, 121.359, 135.151, and 127.127 to have a cockpit voice recorder and/or a flight data recorder), and issue a Technical Standard Order (TSO) covering such recorders immediately after the SAE document is approved. Include in the TSO requirements that:

(a) specify a cockpit voice recorder (CVR) of high enough audio quality to render intelligible recorded data on each of two channels which reserves one channel for voice communications transmitted from or received in the aircraft by radio, and one channel for audio signals from a cockpit area microphone;

(b) specify all flight data recorder (FDR) parameters, ranges, accuracies, and sampling intervals cited in Tables I and II (attached);

(c) specify crash and fire survivability standards for CVR's and FDR's which are at least as stringent as those of TSO–C51a for Type I (nonejectable) and Type III (ejectable) recorders as appropriate. *A–82–107:* Require that all miltiengine, turbine-powered, fixed-wing aircraft certificated to carry six or more passengers manufactured on or after a

specified date, in any type of operation not currently required by 14 CFR 121.343, 121.359, and 135.151 to have a cockpit voice recorder and/or a flight data recorder, be prewired to accept a "general aviation" cockpit voice recorder (if also certificated for two-pilot operation) with at least one channel for voice communications transmitted from or received in the aircraft by radio, and one channel for audio signals from a cockpit area microphone, and a "general aviation" flight data recorder to record sufficient data parameters to determine the information in Table I (attached) as a function of time. *A–82–108:* Require that all multiengine, turbine-powered rotorcraft certificated to carry six or more passengers manufactured on or after a specified date, in any type of operation not currently required by 14 CFR 127.127 to have a cockpit voice recorder and/or a flight data recorder, be prewired to accept a "general aviation" cockpit voice recorder (if also certificated for two-pilot operation) with at least one channel for voice communications transmitted from or received in the aircraft by radio, and one channel for audio signals from a cockpit area microphone, and a "general aviation" flight data recorder to record sufficient data parameters to determine the information in Table II (attached) as a function of time. *A–82–109:* Require that "general aviation" cockpit voice recorders (on aircraft certificated for two-pilot operation) and flight data recorders be installed when they become commercially available as standard equipment in all multiengine, turbine-powered, fixed-wing aircraft and rotorcraft certificated to carry six or more passengers manufactured on or after a specified date, in any type of operation not currently required by 14 CFR 121.343, 121.359, 135.151, and 127.127 to have a cockpit voice recorder and/or a flight data recorder. *A–82–110:* Require that "general aviation" cockpit voice recorders be installed as soon as they are commercially available in all multiengine, turbine-powered aircraft (both airplanes and rotorcraft), which are currently in service, which are certificated to carry six or more passengers and which are required by their certificate to have two pilots, in any type of operation not currently required by 14 CFR 121.359, 135.151, and 127.127 to have a cockpit voice recorder. The cockpit voice recorders should have at least one channel reserved for voice communications transmitted from or received in the aircraft by radio, and one channel reserved for audio signals from a cockpit area microphone. *A–82–111:* Require that "general aviation" flight data recorders be installed as soon as they are commercially available in all multiengine, turbojet airplanes which are currently in service, which are certificated to carry six or more passengers in any type of operation not currently required by 14 CFR 121.343 to have a flight data recorder. Require recording of sufficient parameters to determine the following information as a function of time (see Table I (attached) for ranges, accuracies, etc.): altitude, indicated airspeed, magnetic heading, radio transmitter keying, pitch attitude, roll attitude, vertical acceleration, longitudinal acceleration, stabilizer trim position or pitch control position.

Federal Railroad Administration: Aug. 31: R–82–96: Conduct a safety review of Seaboard Coastline Railroad and the Duluth, Winnipeg and Pacific Railway to determine if inspection practices on these railroad properties are adequate to detect bolster and center plate interference problems, and provide the National Transportation Safety Board with a report of the findings. *R–82–97:* Inform Federal Railroad Administration safety inspectors of the circumstances of the derailment of the Seaboard Coastline train on November 13, 1981, emphasizing the potentially serious consequences of inadequate bolster and center plate inspections, and require them to include in their scheduled inspections a review of the adequacy of the inspection procedures employed by railroads to detect interference between truck bolsters and the car body center plates.

American Short Line Railroad Association: Sep. 2: R–82–84: Advise its member railroads which handle piggyback traffic to warn employees who may be at the scene of accidents that waybills may not properly identify or describe hazardous materials loaded in TOFC trailers and COFC containers.

Seabulk Transmarine II, Inc.: Sep. 2: M–82–38: Establish a formal training program for the officers of Seabulk Transmarine II, Inc.'s integrated tug-barges which includes instruction in the operation and use of the tug-barge interlocking devices, in emergency procedures to be followed in the event of interlocking device failure or the development of relative motion between the tug and barge, and in the operation of the tug and barge as independent vessels. *M–82–39:* Require each officer assigned to a Seabulk Transmarine II, Inc. integrated tug-barge to satisfactorily complete the training program developed as a result of the above recommendation. *M–82–40:* Require each officer assigned to a Seabulk Transmarine II, Inc. integrated tug-barge to periodically demonstrate competent operation of the interlocking devices and satisfactory knowledge of emergency procedures and tug-barge disconnect/reconnect procedures.

Association of American Railroads: Sep. 2: R–82–88: Inform its membership of the circumstances of the derailment of the Seaboard Coastline train on November 13, 1981, to emphasize the potentially serious consequences of inadequate inspections to detect interference between truck bolsters and body center plates of cars on repair tracks and in train yards. *R–82–82:* Advise its member railroads to warn employees who may be at the scene of accidents that "FAK" waybills may not properly identify or describe hazardous materials loaded in TOFC trailers and COFC containers. *R–82–83:* Develop and disseminate among member railroads procedures designed to provide timely detection and accurate identification of hazardous materials carried in TOFC trailers or COFC containers during rescue, firefighting, or wreck-clearing operations at railroad accidents.

International Association of Fire Chiefs, International Association of Chiefs of Police, National Fire Protection Association, Federal Emergency Management Agency: Sep. 2: R–82–85: Warn firefighters and law enforcement personnel through available communications or training programs that railroad waybills for piggyback TOFC trailers and COFC containers carrying hazardous materials may not adequately describe their contents, and that the contents of derailed trailers or containers must be checked for possible hazardous materials during rescue or firefighting operations at TOFC or COFC derailments.

Research and Special Programs Administration: Sep. 8: P–82–31: Direct its regional field office personnel and State agents to include in their inspection of regulator stations a determination of whether the relief valves are properly set and are operational and whether the control lines are protected against excavation damage.

Missouri Power and Light Company: Sep. 8: P–82–32: Implement a procedure for the systematic review of inspection records to assure that unsafe conditions noted by inspectors are promptly corrected. *P–82–33:* Conduct an inspection of all of its district regulator stations systemwide to determine if all relief valves and control sensing line valves are in their correct positions and if the regulator station control lines are adequately protected against excavation damage and take corrective action as necessary. *P–82–34:* Review its maps and records of district regulator station piping to determine their accuracy and completeness and take appropriate action where necessary to correct these documents. *P–82–35:* Establish a public awareness program for the prevention of excavation-caused damage to underground facilities and support the establishment of a "one-call" notification system in its area of operation. *P–82–36:* Install equipment to transmit gas pressure or gas flow data from district regulator stations in Centralia to the dispatcher at Moberly, Missouri, with alarms to alert the dispatchers in the event of abnormal gas flow rates or pressures.

American Gas Association: Sep. 8: P–82–30: Notify its member companies of the circumstances of the accident in Centralia, Missouri, on January 28, 1982, and urge them to inspect their regulator station relief valves or other overpressure protection equipment to make sure that they are set and operating properly.

Missouri Public Service Commission and State of Missouri: Sep. 8: P–82–37: Encourage operators of underground facilities to develop and implement a statewide one-call excavation notification system.

City of Centralia, Missouri: Sep. 8: P–82–38: Require city officials to give notice to all underground and aboveground utilities of any planned excavation work to be performed for the city by a city employee or a private contractor. *P–82–39:* Instruct the city's excavation equipment operators not to commence excavation activities until they have determined the specific location of underground utility lines in the area.

Governors of the 50 States and the Mayor of the District of Columbia, excluding Colorado, Maryland, Nebraska, Utah, and Washington: Sep. 9: H–82–35: Implement a citizen awareness and citizen drunk driver reporting program such as the REDDI-type programs now used by Colorado, Maryland, Nebraska, Utah, and Washington.

International Association of Chiefs of Police, Inc., and National Safety Council: Sep. 8: H–82–36: Collaborate and act as focal points for gathering information on REDDI-type programs and provide information and assistance to the interested States and local communities.

Manufacturers of multiengine, turbine-powered airplanes and rotorcraft: Sep. 8: A–82–101: Prewire all newly manufactured multiengine, turbine-powered, fixed-wing aircraft certificated to carry six or more passengers in any type of operation not currently required by 14 CFR 121.343, 121.359, and 135.151 to have a cockpit voice recorder and/or a flight data recorder, to accept a "general aviation" cockpit voice recorder (if certificated for two-pilot operation) with at least one channel for voice communications transmitted from or received in the aircraft by radio, and one channel for audio signals from a cockpit area microphone, and a "general aviation" flight data recorder to record sufficient data parameters to determine the information in Table I (attached) as a function of time. *A–82–102:* Prewire all newly manufactured multiengine, turbine-powered rotorcraft certificated to carry six or more passengers in any type of operation not currently required by 14 CFR 127.127 to have a cockpit voice recorder and/or a flight data recorder, to accept a "general aviation" cockpit voice recorder (if certificated for two-pilot operation) with at least one channel for voice communications transmitted from or received in the aircraft by radio, and one channel for audio signals from a cockpit area microphone, and a "general aviation" flight data recorder to record sufficient data parameters to determine the information in Table II (attached) as a function of time. *A–82–103:* Install "general aviation" cockpit voice recorders (on aircraft certificated for two-pilot operation) and flight data recorders when they become commercially available as standard equipment in all newly manufactured multiengine, turbine-powered, fixed-wing aircraft and rotorcraft certificated to carry six or more passengers in any type of operation not currently required by 14 CFR 121.343, 121.359, 135.151, and 127.127 to have a cockpit voice recorder and/or a flight data recorder.

Users of multiengine, turbine-powered airplanes and rotorcraft: Sep. 8: A–82–104: Encourage your members who own or operate multiengine, turbine-powered aircraft (both airplanes and rotorcraft) certificated for two-pilot operation to carry six or more passengers, in any type of operation not currently required by 14 CFR 121.359, 135.151, and 127.127 to have a cockpit voice recorder, to install "general aviation" cockpit voice recorders, and urge that they record voice communications transmitted from or received in the aircraft by radio on one channel, and audio signals from a cockpit area microphone on a separate channel. *A–82–105:* Encourage your members who own or operate multiengine, turbojet airplanes certificated to carry six or more passengers, in any type of operation not currently required by 14 CFR 121.343 to have a flight data recorder, to install "general aviation" flight data recorders as soon as they are commercially available, and urge that they provide for recording sufficient parameters to determine the following information as a function of time (see Table I (attached) for ranges, accuracies, etc.): altitude, indicated airspeed, magnetic heading, radio transmitter keying, pitch attitude, roll attitude, vertical acceleration, longitudinal acceleration, stabilizer trim position or pitch control position.

Note.—Reports may be ordered from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161, for a fee covering the cost of printing, mailing, handling, and maintenance. For information on reports call 703–487–4650 and to order subscriptions to reports call 703–487–4630. Single copies of recommendation letters (identified by recommendation number) and response letters are free on written request to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

H. Ray Smith, Jr.,

Federal Register Liaison Officer.

NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued for public comment a draft of a proposed revision to a guide in its Regulatory Guide Series together with a draft of the associated value/impact statement. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The draft, temporarily identified by its task number, SG 229–4, (which should be mentioned in all correspondence concerning this draft guide), is proposed Revision 1 to Regulatory Guide 5.59, "Standard Format and Content for a Licensee Physical Security Plan for the Protection of Special Nuclear Material of Moderate or Low Strategic Significance." This regulatory guide is being developed to describe the information required in the physical security plan submitted as part of an application for a license to possess, use, or transport special nuclear material of moderate strategic significance or 10 kg or more of special nuclear material of low strategic significance and to recommend a format for its presentation.

This draft guide and the associated value/impact statement are being issued to involve the public in the early stages of the development of a regulatory position in this area. They have not received complete staff review and do not represent an official NRC staff position.

Public comments are being solicited on both drafts, the guide (including any implementation schedule) and the draft value/impact statement. Comments on the draft value/impact statement should be accompanied by supporting data. Comments on both drafts should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, by October 22, 1982.

Although a time limit is given for comments on these drafts, comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of draft guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 16th day of September 1982.

For the Nuclear Regulatory Commission.

Karl R. Goller,

Director, Division of Facility Operations, Office of Nuclear Regulatory Research.

BILLING CODE 7590-01-M

[Docket No. 50-302]

Florida Power Corporation, et.al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 57 to Facility

Operating License No. DPR-72, issued to the Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainsville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised the Technical Specifications (TSs) for operation of the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Florida. The amendment becomes effective 30 days after its date of issuance.

This amendment modifies the Technical Specifications to reflect an expanded Plant Review Committee membership, an expanded procedural review and current title designations for CR-3 management.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 3, 1980, as revised January 19, 1982, (2) Amendment No. 57 to License No. DPR-72, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Crystal River Public Library, 668 N.W. First Avenue, Crystal River, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 13th day of September 1982.

For the Nuclear Regulatory Commission.

John F. Stolz,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

BILLING CODE 7590-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket No. 301-32]

Industrial Union Department, AFL-CIO; Termination of Complaint

Pursuant to 15 CFR 2006.6, the U.S. Trade Representative is terminating, without prejudice, the investigation of the Section 301 complaint filed by the Industrial Union Department, AFL-CIO alleging that Canada has provided subsidized financing on a contract for the sale of subway cars to the New York Metropolitan Transit Authority in a manner inconsistent with the Agreement on the Interpretation and Application of Articles VI, XVI, XXIII of the General Agreement on Tariffs and Trade (the "Subsidies Code") and further alleging that such subsidization is unreasonable and a burden on U.S. commerce. The U.S. Trade Repesentative initiated an investigation on July 19, 1982 (47 FR 31764), based upon the petition filed by the Industrial Union Department, AFL-CIO.

On the date after the Section 301 investigation was initiated, the U.S. Department of Commerce announced the initiation of a countervailing duty investigation regarding the same alleged subsidy practices which were the subject of the Section 301 investigation (47 FR 31415). The countervailing duty investigation was initiated on the basis of a petition filed by The Budd Company and the Industrial Union Department, AFL-CIO. On August 18, 1982 the International Trade Commission made an affirmative preliminary determination of injury in this matter (47 FR 36042).

As a matter of policy in order to avoid redundant remedies and the waste of limited government resources, the U.S. Trade Representative will not initiate a Section 301 investigation concerning a foreign government practice which is the subject of investigation under any other provision of law. The same policy requires that a pending Section 301 investigation be terminated when the same matter is subsequently subject to investigation under some other provision of law.

In view of the pending countervailing duty investigation regarding alleged Canadian financing subsidies on the sale of subway cars, the U.S. Trade Representative is hereby terminating the subject Section 301 investigation. This termination is without prejudice to a resubmission of the Section 301 petition if action is not taken pursuant to the countervailing duty investigation.

Jeanne S. Archibald,

Chairman, Section 301 Committee.

BILLING CODE 3190-01-M

PENSION BENEFIT GUARANTY CORPORATION

Exemption From Bond/Escrow Requirement Relating to Sale of Assets by an Employer: National Fruit Canning Company

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of exemption.

SUMMARY: The Pension Benefit Guaranty Corporation has granted National Fruit Canning Company an exemption from the bond/escrow requirement of section 4204(a)(1)(B) of the Employee Retirement Income Security Act of 1974, as amended. A notice of the request for exemption from this requirement was published on July 6, 1982 (47 FR 29423). The effect of this notice is to advise the public of the decision on the exemption request.

ADDRESS: The request for an exemption and the PBGC response to the request are available for public inspection at the PBGC Public Affairs Office, Suite 7100, 2020 K Street, NW., Washington, D.C. 20006, between the hours of 9:00 a.m. and 4:00 p.m. A copy of these documents may be obtained by mail from the PBGC Disclosure Officer (160) at the above address.

FOR FURTHER INFORMATION CONTACT: David Weingarten, Office of the Executive Director, Policy and Planning (140), 2020 K Street, NW., Washington, D.C. 20006; (202) 254-4862.

SUPPLEMENTARY INFORMATION:

Background

Section 4204(a)(1) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), 29 U.S.C. 1384, provides that the sale of assets of an employer that contributes to a multiemployer pension plan will not constitute a complete or partial withdrawal from the plan if certain conditions are met. One of these conditions is that the purchaser post a bond or deposit money in escrow for five plan years after the sale.

Section 4204(c) of ERISA authorizes the Pension Benefit Guaranty

Corporation ("PBGC") to grant individual or class variances or exemptions from the purchaser's bond/escrow requirement of section 4204(a)(1)(B). Under § 2643.3(a) of the PBGC's regulation on procedures for variances for sales of assets (46 FR 46127, September 17, 1981), the PBGC shall approve a request for a variance or exemption if it determines that approval of the request is warranted, in that it—

(1) Would more effectively or equitably carry out the purposes of Title IV of the Act; and

(2) Would not significantly increase the risk of financial loss to the plan.

The legislative history of section 4204 indicates a Congressional intent that the sales rules be administered in a manner that assures protection of the plan with the least practicable intrusion into normal business transactions.

Section 4204(c) and § 2643.3(b) of the regulation require the PBGC to publish a notice of the pendency of a request for a variance or an exemption in the **Federal Register**, and to provide interested parties with an opportunity to comment on the proposed variance or exemption.

Decision

On July 6, 1982 (47 FR 29423), the PBGC published a notice of the pendency of a request from National Fruit Canning Company ("National") to waive the bond/escrow requirement of section 4204(a)(1)(B) of ERISA in connection with its purchase of substantially all of the assets of Seabrook Foods, Inc. ("Seabrook") located at Seabrook's Albany, Oregon plant, effective as of February 1, 1982. No comments were received in response to the notice.

According to National's request for an exemption, Seabrook contributed to the Western Conference of Teamsters Pension Plan (the "Plan") on behalf of covered employees at its Albany, Oregon plant. As a result of the sale, National agreed to assumed the obligation of Seabrook to contribute to the Plan.

Seabrook's withdrawal liability, absent section 4204, is approximately $734,000.[1] The amount of the bond or escrow required under section 4204(a)(1)(B) of ERISA, absent an exemption from PBGC, would be $177,745.28, the average of the contributions required to be made by Seabrook for the three plan years preceding the year of the sale.

According to its audited financial statement for its fiscal year ended April 30, 1981, National had net assets of approximately $11.6 million. National had net income after taxes of $1,714,570 for its fiscal year ended April 30, 1981, $1,511,182 for its fiscal year ended April 30, 1980 and $2,107,985 for its fiscal year ended April 30, 1979, according to its audited financial statements for those years.

Based on the facts of this case and the representations and statements made in connection with the request for exemption, PBGC has determined that an exemption under section 4204(c) is warranted, in that it would more effectively or equitably carry out the purposes of Title IV of ERISA and would not significantly increase the risk of financial loss to the plan. Therefore, PBGC hereby grants National's request for an exemption from the bond/escrow requirement. The granting of an exemption or variance from the requirement of section 4204(a)(1)(B) does not constitute a finding by PBGC that the transaction satisfies the other requirements of section 4204(a)(1). The determination of whether the transaction satisfies such other requirements is a determination to be made by the plan sponsor.

Issued at Washington, D.C. on this 17th day of September, 1982.

Edwin M. Jones,

Executive Director, Pension Benefit Guaranty Corporation.

[FR Doc. 82-26185 Filed 9-22-82; 8:45 am]

BILLING CODE 7708-01-M

[1] Seabrook has been advised by the Plan that its withdrawal liability is (a $550,833.37, Seabrook's proportional share of the unamortized amount of the Plan's unfunded vested Benefits as of December 31, 1979, plus b) a share of the Plan's "adjusted unfunded vested benefits" as of December 31, 1001, *i.e.*, the change in the plans' unfunded vested benefits between December 31, 1979 and December 31,1981. The Plan has indicated that it cannot calculate the (b) amount at this time. However, the Plan has advised PBGC of a procedure that can be used to approximate the employer's total withdrawal liability. Under this procedure, assuming that the *de minimis* rule in section 4209 of the Act does not apply, an employer's total withdrawal liability is the employer's share of the plan's unfunded vested benefits as if the withdrawal had occurred during 1980, plus an additional 20 percent of that amount for a 1982 withdrawal. Seabrook's estimated withdrawal liability under this procedure would be approximately $734,000 (approximately $612,000 + approximately $122,000). In light of this, the Plan has advised PBGC that it believes that Seabrook's total withdrawal liability in any event should be less than $1 million.

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review

AGENCY: Railroad Retirement Board.

ACTION: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the Board has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of Proposal(s)

(1) Collection title: Report of payments to employee claiming sickness benefits under the RUIA
(2) Form(s) submitted: SI–5
(3) Type of request: Extension
(4) Frequency of use: On occasion
(5) Respondents: Railroads, private companies and individuals
(6) Annual responses: 5,000
(7)Annual reporting hours: 417
(8) Collection description: Section 12(o) of the Railroad Unemployment Insurance Act provides for reimbursement of sickness benefits paid under the Act if the employee receives a settlement for the same injury for which such benefits were paid. The report of personal injury settlement will obtain the information needed for determining the amount of reimbursement the Board is entitled to under the Act.

Additional Information or Comments

Copies of the proposed forms and supporting documents may be obtained from Pauline Lohens, the agency clearance officer (312–751–4692). Comments regarding the information collection should be addressed to Pauline Lohens, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 and the OMB reviewer, Milo Sunderhauf (202–395–6880), Office of Management and Budget, Room 3201, New Executive Office Building, Washington, D.C. 20503.

William A. Oczkowski,

Director of Planning and Information Management.

SMALL BUSINESS ADMINISTRATION

[SBLC No. 09/B-0028]

AID America, Inc.; Issuance of Small Business Lending Company Participation Agreement

On January 21, 1982, a Notice was published in the **Federal Register** (47 FR 3054) stating that an Application had been filed with the Small Business Administration pursuant to § 120.4(b) of the Regulations governing Small Business Lending Companies (13 CFR 120.4(b) (1981)), by AID America, Inc.,

19782 MacArthur Boulevard, Irvine, California 92715, to participate with the SBA as a Small Business Lending Company (SBLC).

Interested parties were given until the close of business February 5, 1982, to submit their comments on the Applicant and/or its management. No comments were received.

Notice is hereby given that after review of the Application and all other pertinent information, SBA issued Small Business Lending Company participation Agreement No. SBLC 09/B-0028 to AID America, Inc. to operate as an SBLC on this date. AID America's area of operations will be limited initially to that territory covering the jurisdiction of SBA's San Diego, Los Angeles, Miami and New York District Offices.

(Catalog of Federal Domestic Programs N. 59.012, Small Business Loans)

Dated: September 10, 1982.

Edwin T. Holloway,

Associate Administrator for Finance and Investment.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Summary Notice No. PE-82-19]

Petitions for Exemption; Summary of Petitions Received; Disposition of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I), dispositions of certain petitions previously received and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before: October 13, 1982.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Petition Docket No. ——, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-204), Room 916, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-3644.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, D.C., on September 17, 1982.

John H. Cassady,

Assistant Chief Counsel, Regulations and Enforcement Division.

PETITIONS FOR EXEMPTION

Docket No.	Petitioner	Regulations affected	Description of relief sought
23242	Mr. Stephen Fellows	14 CFR 91.47	To permit petitioner to use a Lockheed L-18 aircraft for the purpose of sport parachute jumping, carrying 24 properly equipped and trained parachute jumpers.
23257	DHL Cargo	14 CFR Portions of Parts 121	To permit petitioner to perform certain prescribed proficiency check maneuvers during scheduled revenue flights.
23217	Cal-West Aviation	14 CFR 135.261	To permit petitioner to construe duty time to begin when a crewmember is dispatched on a flight and that telephone availability does not constitute duty in connection with flight operations.
23256	Hammonde Commuter Airlines	14 CFR 135.107	To permit petitioner to operate certain aircraft in scheduled and on-call/on-demand charter flight operations with 20 fare paying passenger seats without a flight attendant.
23276	Corsair	14 CFR 121.311(f)	To permit petitioner to operate four DC9-30 aircraft without each flight attendant having a seat for takeoff and landing in the passenger compartment that meets the seat requirements of § 25.785.
23139	Wylie Aircraft Corp.	14 CFR 91.31(a)(3)	To permit petitioner to operate its DC-6B aircraft using a 5 percent increase in zero fuel and landing weight.
19911	Aerovias Nacionales de Columbia, S.A	14 CFR Portions of Parts 21 & 91	To permit petitioner to operate five U.S.-registered B-727-259 aircraft using a FAA approved master minimum equipment list and a continuous airworthiness maintenance program.
23220	Summit Airlines	14 CFR 121.583(a)(ii)	To provide transportation for a dependent of an employee of petitioner on its cargo aircraft without the dependent being accompanied by the employee.
20694	Trans-Colorado Airlines, Inc	14 CFR 135.181(a)(2)	Extension of Exemption No. 3078 to permit petitioner to use alternate means of compliance with the performance requirements, the use of procedures, and operations authorized by § 121.201(a) for compliance with the en route limitations.
23286	Sealand Helicopters, Inc	14 CFR 43.3(h)	To permit petitioners' appropriately trained and certificated pilots to remove, check, and reinstall magnetic chip detector plugs on its Allison 250C series engines used on certain helicopters.

DISPOSITIONS OF PETITIONS FOR EXEMPTION

Docket No.	Petitioner	Regulations affected	Description of relief sought disposition
22992	Miami Air Lease, Inc.	14 CFR 91.31(a)	To permit petitioner to operate its Douglas DC-8S aircraft for the purpose of competing with other operators who are authorized to use the 5 percent increase in zero fuel and landing weight when operating under Part 125. *Denied 9/9/82.*
23117	Air Nevada	14 CFR 135.244	To allow petitioner's pilots to operate a single-engine airplane in commuter air carrier operations without having the prerequisite operating experience. *Denied 9/7/82.*
22444	Transamerica Airlines	14 CFR 121.311(e)	Extension of Exemption No. 3486 to permit petitioner to operate certain aircraft without the aircraft being equipped with a combined seat belt and shoulder harness at the flight observer and the crew bunk triple seats located on the flight deck. *Granted 9/15/82.*
22120	American Airlines	14 CFR 121.291(b)(2), (d), & (e)	To permit petitioner to change the number of required flight attendants without conducting a partial demonstration of emergency evacuation procedures and without conducting a simulated ditching demonstration. *Denied 9/10/82.*
22958	Suburban Airlines	14 CFR 135.2(d) & SFAR 36	To permit petitioner to operate its Shorts Model 360 aircraft under the operating rules of Part 135 in lieu of the Part 121 domestic and supplemental rules. *Denied 9/15/82.*
23049	Air Cortez	14 CFR 121.311 & 25.785	To permit petitioner to operate its Fairchild F-27J aircraft without each flight deck station being equipped with a combined safety belt and shoulder harness that meets the applicable requirements and without each flight attendant having a seat for takeoff and landing in the passenger compartment that meets the seat requirements. *Considered withdrawn 9/8/82.*

BILLING CODE 4910-13-M

Radio Technical Commission for Aeronautics (RTCA); Special Committee 149—Airborne Distance Measuring Equipment (DME); Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of RTCA Special Committee 149 on Airborne Distance Measuring Equipment (DME) to be held on October 13-15, 1982 in Conference Rooms 5A-B, Federal Aviation Administration Building, 800 Independence Avenue, S.W., Washington, D.C. commencing at 9:30 a.m.

The Agenda for this meeting is as follows: (1) Chairman's Introductory Remarks; (2) Approval of Minutes of First Meeting Held on July 7-9, 1982; (3) Briefing on International Civil Aviation Organization (ICAO) Working Group M Activities; (4) Briefing on Interference Problems Between JTIDS and DME/M; (5) Review Task Assignments From First Meeting; (6) Review Second Draft of Committee Report on Minimum Operational Performance Standards for Airborne Distance Measuring Equipment; and (7) Other Business.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1717 H Street, N.W., Washington, D.C. 20006; (202) 296-0484. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C., on September 14, 1982.

Karl F. Bierach,
Designated Officer.

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement Supplement: Cordova, Alaska

AGENCY: Federal Highway Administration, DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that a supplement to a final environmental impact statement (FEIS) will be prepared for a proposed project to establish an overland connection between the City of Cordova, Alaska and the Alaska Highway System. The supplement will consider alternatives to the proposal presented in the FEIS of a highway connection from Cordova through the Copper and Tasnuna River valleys to the Richardson Highway.

FOR FURTHER INFORMATION CONTACT: Glenn E. Johns, Environmental Coordinator, Federal Highway Administration, P.O. Box 1648, Juneau, Alaska 99802, Telephone No. (907)-586-7419 or Michael Tinker, Regional Environmental Coordinator, Alaska Department of Transportation and Public Facilities (DOT/PF), 2301 Peger Road, Fairbanks, Alaska 99701, Telephone No. (907)-452-1911.

SUPPLEMENTARY INFORMATION: A two lane, secondary highway (the Copper River Highway) presently extends from Cordova 49 miles to Miles Lake on the Copper River. The propsed project described in the FEIS would involve the construction of approximately 65 miles of additional two lane secondary roadway between Miles Lake and Mile 22 on the Richardson Highway. The proposed route would follow the Copper River valley north of Miles Lake for about 33 miles, then would turn northwest and follow the Tasnuna River valley for about 32 miles before terminating at the Richardson Highway.

The supplement to the FEIS will address the social, ecomomic and environmental impacts of various alternatives to the proposed action, including the impacts associated with the "no build" alternative. Besides the "no build", other alternatives being considered include routing the highway through the Tiekel River valley to terminate at about Mile 46 on the Richardson Highway, and following the Copper River valley upstream through Woods Canyon to terminate at Chitina (Mile 35 on the Edgerton Highway). The supplement will also discuss the relationship between the various alternatives and the effects of the development of the Bering River coal fields, a project which is under consideration by the Chugach Natives, Inc.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State and local agencies and to private organizations and citizens who have previously

expressed an interest in this proposal. The draft and final supplements will be available for public and agency review and coment. No formal scoping meeting is planned at this time.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the FEIS supplement should be directed to the FHWA or Alaska DOT/PF at the addresses provided above. To be addressed in the draft supplement, comments should be received on or before October 25, 1982.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular A-95 (as amended by Executive Order 12372) regarding State and local clearinghouse review of Federal and federally assisted programs and projects apply to this program)

Issued on: September 17, 1982.

Barry F. Morehead,

Division Administrator, Federal Highway Administration, Juneau, Alaska.

BILLING CODE 4910-22-M

Federal Railroad Administration

[FRA Waiver Petition Dockets HS-82-11 Through HS-82-20]

Petitions for Exemption From the Hours of Service Act

In accordance with 49 CFR 211.41 and 211.9, notice is hereby given that ten railroads have petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91-169, 45 U.S.C. 64a(e)). Each petition requests that the individual railroad be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

Each railroad seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. Each petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, each petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption. The railroads seeking this exemption are as follows:

Louisiana Southern Railroad, Docket Number HS-82-11
Natchez Trace Railroad, Docket Number HS-82-12
Springfield Terminal Railroad, Docket Number HS-82-13
Bay Colony Railroad, Docket Number HS-82-14
Cape Cod and Hyannis Railroad, Docket Number HS-82-15
Wisconsin and Southern Railroad, Docket Number HS-82-16
Fore River Railroad Corporation, Docket Number HS-82-17
East Cooper and Berkeley Railroad Company, Docket Number HS-82-18
Port Utilities Commission of Charleston, South Carolina, Docket Number HS-82-19
Port Terminal Railroad of South Carolina, Docket Number HS-82-20

Interested persons are invited to participate in these proceedings by submitting written views and comments. FRA has not scheduled an opportunity for oral comments since the facts do not appear to warrant it. Communications concerning these proceedings should identify the appropriate Docket Number (e.g., Docket Number HS-82-12) and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590. Communications received before October 30, 1982, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 7321A, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

(Sec. 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a), 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d))

Issued in Washington, D.C., on September 17, 1982.

Joseph W. Walsh,

Chairman, Railroad Safety Board.

BILLING CODE 4910-81-M

Office of the Secretary

Reports, Forms, and Recordkeeping Requirements; Submittals to OMB, August 26–September 10, 1982

AGENCY: Office of the Secretary, DOT.

ACTION: Notice.

SUMMARY: This notice lists those forms, reports, and recordkeeping requirements, transmitted by the Department of Transportation, between Aug. 26 and Sept. 10, 1982, to the Office of Management and Budget (OMB) for its approval. This notice is published in accordance with the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35).

FOR FURTHER INFORMATION CONTACT: John Windsor, John Chandler, or Annette Wilson, Information Requirements Division, M–34, Office of the Secretary of Transportation, 400 7th Street, SW., Washington, D C. 20590, (202) 426–1887 or Donald Arbuckle or Wayne Leiss, Office of Management and Budget, New Executive Office Building, Room 3228, Washington, D. C. 20503, (202) 395–7340.

SUPPLEMENTARY INFORMATION:

Background

Section 3507 of Title 44 of the United States Code, as adopted by the Paperwork Reduction Act of 1980, requires that agencies prepare a notice for publication in the **Federal Register**, listing those information collection requests submitted to the Office of Management and Budget (OMB) for approval under that Act. OMB reviews and approves agency submittals in accordance with criteria set forth in that Act. In carrying out its responsibilities, OMB also considers public comments on the proposed forms, reporting and recordkeeping requirements.

On Mondays and Thursdays, as needed, the Department of Transportation will publish in the **Federal Register** a list of those forms, reporting and recordkeeping requirements that it has submitted to OMB for review and approval under the Paperwork Reduction Act. The list will include new items imposing paperwork burdens on the public as well as revisions, renewals and reinstatements of already existing requirements. OMB approval of an information collection requirement must be renewed at least once every three years. The published list also will include the following information for each item submitted to OMB:

(1) A DOT control number.[1]

(2) An OMB approval number if the submittal involves the renewal,reinstatement or revision of a previously approved item.

(3) The name of the DOT Operating Administration or Secretarial Office involved.

(4) The title of the information collection request.

(5) The form numbers used, if any.

(6) the frequency of required responses.

(7) The persons required to respond.

(8) A brief statement of the need for and uses to be made of the information collection.

Information Availability and Comments

Copies of the DOT information collection requests submitted to OMB may be obtained from the DOT officials

[1] On August 1, 1982, numbers 1988 through 2048 were reserved for new requests proposed for submission during FY 1983.

listed in the "For Further Information Contact" paragraph set forth above.

Comments on the requests should be forwarded, as quickly as possible, directly to the OMB officials listed in the "For Further Information Contact" paragraph set forth above. If you anticipate submitting substantive comments, but find that more than 5 days from the date of publication is needed to prepare them, please notify the OMB officials of your intent immediately.

Items Submitted for Review by OMB

The following information collection requests were submitted to OMB between Aug. 26 and Sept. 10, 1982:

- DOT No: 1972.
OMB No: None.
By: U.S. Coast Guard.
Title: Requirements for the installation and use of oil discharge monitoring equipment on tank vessels and for the retention of discharge data.
Forms: None.
Frequency: On occasion.
Respondents: Tank vessel owners and operators.
Need/Use: Plans for installation of equipment are required to ensure system installation complies with safety standards. Discharge data must be retained in accordance with international treaty requirements.

- DOT No: 2065.
OMB No: 2115–0008.
By: U.S. Coast Guard.
Title: Seaman's certificate application.
Forms: CG–719B.
Frequency: As needed.
Respondents: Applicants for U.S. merchant mariners documents and documented merchant mariners applying for upgrading.
Need/Use: This information is required by the Coast Guard to determine an applicant's suitability for possessing U.S. merchant mariners documentation and to establish permanent record of those issued documents.

- DOT No: 2066.
OMB No: 2130–0022, 2130–0026, 2130–0027, 2130–0040, 2130–0508, 2130,0509, 2130–0510.
By: Federal Railroad Administration.
Title: State Participation Program.
Forms: FRA–F–6180.58; FRA–F–6180.58a; FRA–F–6180.59; FRA–F–6180.59a; FRA–F–6180.68; FRA–F–6180.68a; FRA–F–6180.69; FRA–F–6180.65; FRA–F–6180.65a; FRA–F–6180.67; FRA–F–6180.5; FRA–F–6180.5a; FRA–F–6180.10; FRA–F–6180.29; FRA–F–6180.29a; FRA–F–6180.33; FRA–F–6180.61.
Frequency: Annually; Semi-annually; On occasion (with each inspection).
Respondents: State Transportation Departments or State Public Utility Commissions.
Need/Use: Establishes standards and procedures for State participation in investigative and surveillance activities under the Federal Railroad Safety Laws and Regulations.

- DOT No: 2067.
OMB No.: 2125–0016.
By: Federal Highway Administration.
Title: Driver's Duty Status Record.
Forms: None.
Frequency: Daily.
Respondents: Drivers of commercial motor vehicles operating in interstate or foreign commerce.
Need/Use: The driver's duty status record is required as the principal means of deterring fatigued drivers from operating heavy commercial vehicles in order to protect the motoring public and persons working or residing along highway corridors. It will be the primary regulatory tool used by Federal and State enforcement personnel and commercial motor carriers to determine compliance with the maximum time limitations prescribed in the FMCSR. It will also be used to determine a motor carrier's overall compliance status.

- DOT No: 2068.
OMB No.: 2120–0057.
By: Federal Highway Administration.
Title: Safety Improvement Report Test Program.
Forms: FAA Form 8740–5.
Frequency: Non-Recurring.
Respondents: Individuals—the general aviation public, e.g., pilots, flight instructors, mechanics, etc.
Need/Use: Federal Aviation Act of 1958, Section 601 (49 U.S.C. 1421) directs the Secretary of Transportation to exercise his powers in a manner that will tend to reduce or eliminate the possibility of, recurrence of, air transportation accidents. Safety improvement information is used to initiate corrective actions.

- DOT No: 2069.
OMB No.: None.
By: Maritime Administration.
Title: Inventory of American Intermodal Equipment.
Forms: None.
Frequency: Annually.
Respondents: U.S. steamship and intermodal equipment leasing companies.
Need/Use: The Maritime Administration's Office of Port and Intermodal Development conducts an intermodal operations program. The goals are to assist industry efforts to overcome constraints to the development of improved U.S. intermodal carrier coordination, and interchange. The Maritime Administration has seen the need for the development of an inventory that identifies the capacity of U.S. owned intermodal equipment. The information serves as a planning tool for the movement of Department of Defense containerized traffic. It is also used as a marketing, investment, and planning aid by U.S. flag vessel operators and intermodal equipment leasing companies.

- DOT No: 2070.
OMB No.: 2115–0009; Also consolidates 2115–0001 and 2115–0011 into 2115–0009.
By: U.S. Coast Guard.
Title: Recreational Boat Registration, Duplicate and Change in Status.
Forms: CG–3878, CG–3919, CG–3912.
Frequency: Triennally and On Occasion.
Respondents: Individuals.
Need/Use: 46 U.S.C. 1467 and implementing regulations require the establishment of a standard recreational boat numbering system. Coast Buard is to provide for numbering in States which don't have an approved system, including application and display requirements. The Coast Guard is currently studying the possible consolidation of these three forms into one multiple use form.

- DOT No: 2071.
OMB No.: 2133–0029.
By: Maritime Administration.
Title: Shipbuilding Ordering and Shipyard Employment.
Forms: MA–832.
Frequency: Quarterly.
Respondents: U.S. Commercial Shipyards.
Need/Use: Quality shipbuilding status and employment information is essential for the formulation of national shipbuilding policies and for support of the national defense.

- DOT No: 2072.
OMB No.: 2133–0033.
By: Maritime Administration.
Title: Exporter/Importer Data.
Forms: MA–740.
Frequency: On occasion.
Respondents: Exporters and importers.
Need/Use: The information is needed by the Maritime Administration to identifying existing and potential movements of cargo that can be targeted for the marketing efforts of MARAD and/or the U.S.-flag carriers. In addition to its use in identifying specific markets, this information is passed on to U.S.-flag carriers in order to help them identify and correct

specific service problems and improve the quality of service which further strengthens the overall U.S.-flag market penetration.

Issued in Washington, D.C. on September 14, 1982.

Karen S. Lee,

Deputy Assistant Secretary for Administration.

BILLING CODE 4910-62-M

DEPARTMENT OF THE TREASURY

Public Information Collection Requirements Submitted to OMB for Review

During the period September 10 through September 16, 1982, the Department of Treasury submitted the following public information collection requirements to OMB, for review and clearance under the paperwork Reduction Act of 1980, Pub. L. 96-511. Copies of these submissions may be obtained from the Treasury Department Clearance Officer, by calling (202) 634-2179. Comments regarding these information collections should be addressed to the Treasury Reports Management Officer, Information Resources Management Division, Room 309, 1625 I St. NW., Washington, D.C. 20220; *and* to the OMB reviewer listed at the end of each entry.

- *Date Submitted:* September 14, 1982
- *Submitting Bureau:* Comptroller of the Currency
- *OMB Number:* 1557-0094
- *Form Number:* None
- *Type of Submission:* Reinstatement
- *Title:* Notice for Futures and Forward Placement Contracts Activities
- *Purpose:* The information collection is conducted pursuant to the National Bank Act and related statutes empowering OCC to assure that national banks conduct their operations in a safe and sound manner. Purchase and sale of forward placement or financial futures contracts can pose great risk to the financial institution if Management and internal controls are not adequate.
- *OMB Reviewer:* Michael Abrahams (202) 395-6880, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503
- *Date Submitted:* September 14, 1982
- *Submitting Bureau:* Internal Revenue Service
- *OMB Number:* 1545-0257
- *Form Number:* None
- *Type of Submission:* Extension
- *Title:* Federal Tax Deposit
- *Purpose:* The Federal Tax Deposit (FTD) form is used by taxpayers to deposit the required taxes at authorized financial institutions or Federal Reserve Banks or Branches. The depository sends the card to the IRS center where the deposit amount is credited to the depositor's tax account. The data is used to make the credit and to verify the tax deposit claimed on a return.
- *OMB Reviewer:* Michael Abrahams (202) 395-6880, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503
- *Date Submitted:* September 14, 1982
- *Submitting Bureau:* Internal Revenue Service
- *OMB Number:* 1545-0086
- *Form Number:* 1040C
- *Type of Submission:* Revision
- *Title:* U.S. Departing Alien Income Tax Return
- *Purpose:* Form 1040C is used by aliens departing the U.S. to report income received or expected to be received for the entire taxable year determined as nearly as possible by the date of intended departure. The data collected is used to insure that the departing alien has no outstanding U.S. tax liability.
- *OMB Reviewer:* Michael Abrahams (202) 395-6880, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503
- *Date Submitted:* September 14, 1982

Submitting Bureau: Internal Revenue Service
OMB Number: 1545-0644
Form Number: 6781
Type of Submission: Revision
Title: Gains and Losses from Commodity Futures Contracts and Straddle Positions
Purpose: Form 6781 is used by taxpayers in computing their gains and losses from regulated futures contracts and straddle positions and its special tax treatment. The data is used to verify that the tax reported accurately reflects any such gains or losses.
OMB Reviewer: Michael Abrahams (202) 395-6880, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503

- *Date Submitted:* September 14, 1982

Submitting Bureau: Internal Revenue Service
OMB Number: N/A (New submission)
Form Number: 637A
Type of Submission: New
Title: Registration for Tax Free Sales and Purchases of Fuels Used in Aircraft
Purpose: Certain sellers and purchases are exempt from the IRS section 4041(c) excise tax on aviation fuel if they use this form to register for tax-free transactions. The data collected is used to determine if the applicant qualifies for exemption.
OMB Reviewer: Michael Abrahams (202) 395-6880, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503

- *Date Submitted:* September 14, 1982

Submitting Bureau: Internal Revenue Service
OMB Number: N/A (New submission)
Form Number: PUB 678
Type of Submission: New
Title: Lesson Evalution Booklet (VITA)
Purpose: This form will be used by 500 volunteers to evaluate the new VITA course material. It also permits IRS to give feedback to the volunteers on their attainments of the lessons. This is a one time evaluation.
OMB Reviewer: Michael Abrahams (202) 395-6880, Ofice of Management and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503

- *Date Submitted:* September 14, 1982

Submitting Bureau: Internal Revenue Service
OMB Number: 1545-0601
Form Number: 6745 and 6743
Type of Submission: Reinstatement
Title: VITA/Retest (English) and VITA/Retest (Spanish)
Purpose: As part of the VITA training program, volunteers who fail the initial VITA test (English) and the initial VITA test (Spanish) are permitted to take a retest. If the retest is passed, volunteers may then prepare tax returns.
OMB Reviewer: Michael Abrahams (202) 395-6880, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503

FEDERAL DEPOSIT INSURANCE CORPORATION

Change in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on Monday, September 20, 1982, the Corporation's Board of Directors determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director C. T. Conover (Comptroller of the Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matter:

Recommendation regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Memorandum and Resolution re: (Amended) Penn Square Bank, National Association, Oklahoma City, Oklahoma

By the same majority vote, the Board further determined that no earlier notice of this change in the subject matter of the meeting was practicable.

Dated: September 20, 1982.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary,

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 2:00 p.m. on Monday, September 27, 1982, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Request for consent to capitalize the value of the core deposit intangible acquired in a purchase and assumption transaction:

Commercial Bank, Thomasville, Georgia, in connection with its purchase and assumption transaction with Peoples Banking Company, Boston, Georgia.

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 45,396–L: The Mission State Bank & Trust Company, Mission, Kansas

Memorandum and Resolution re: Bank of Enville, Enville, Tennessee

Recommendations with respect to payment for legal services rendered and expenses incurred in connection with receivership and liquidation activities:

Schall, Boudreau & Gore, San Diego, California, in connection with the liquidation of Pacific Coast Bank, San Diego, California.

Milbank, Tweed, Hadley and McCloy, New York, New York, for itself and on behalf of Gibson, Dunn & Crutcher, Los Angles, California, in connection with the liquidation of The Greenwhich Savings Bank, New York, New York.

Witherspoon, Kelley, Davenport & Toole, P.S., Spokane, Washington, in connection with the liquidation of Fidelity Mutual Savings Bank, Spokane, Washington.

Memorandum and resolution re: Withdrawal of a proposed amendment to Part 337 of the Corporation's rules and regulations, entitled "Unsafe or Unsound Banking Practices," which would have required insured State nonmember banks to maintain their books and records of account on the accrual basis of accounting.

The meeting will be held in the Board Room on the sixth floor of the FDIC building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr.

Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389–4425.

Dated: September 20, 1982.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, September 27, 1982, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors pursuant to sections 552b(c)(2), (c)(6), (c)(8), and (c)(9)(A)(ii) of Title 5, United States Code, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money (penalties) against certain insured banks or officers, directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of banks authorized to be exempt from the disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Note.—Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Discussion Agenda:

Application for consent to merge and establish one branch:

Farmers Bank & Trust Co., Bardstown, Kentucky, for consent to merge, under its charter and title, with Bank of New Haven, New Haven, Kentucky, and to establish the sole office of Bank of New Haven as a branch of the resultant bank.

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning this matter may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389–4425.

Dated: September 20, 1982.

8

POSTAL SERVICE

(Board of Governors)

Vote to Close Meeting

At its meeting of September 10, 1982, the Board of Governors of the United States Postal Service unanimously voted to close to public observation its

meeting scheduled for October 4, 1982. A portion of the meeting to be closed will involve a continuation of the discussion of the most recent general ratemaking proceeding (Docket No. R80–1) in the light of the July 9, 1982, Decision of the U.S. Court of Appeals for the Second Circuit in *Time, Inc. et al* v. *United States Postal Service*, the discussion having been commenced at the meeting of the Board on August 2, 1982, and continued at the meeting of September 9, 1982, those meetings also having been closed to public observation pursuant to the unanimous vote of the Board.

The Board has determined that, pursuant to section 552b(c)(3) of Title 5, United States Code, and § 7.3(c) of Title 39, Code of Federal Regulations, the portion of the meeting to be closed is exempt from the open meeting requirement of the Government in the Sunshine Act (5 U.S.C. 552b(b), in that it is likely to disclose information prepared for use in connection with proceedings under chapter 36 of title 39 (having to do with postal ratemaking, mail classification, and postal services), which is specifically exempted from disclosure by section 410(c)(4) of title 39. The Board determined further that, pursuant to section 552b(c)(10) of title 5, United States Code, and § 7.3(j) of Title 39 Code of Federal Regulations, the discussion is exempt because it is likely to specifically concern the participation of the Postal Service in a civil action or proceeding, and the initiation of a particular case involving a determination on the record after opportunity for a hearing. The Board of Governors has determined that the public interest does not require that the Board's discussion of this matter be open to the public.

In accordance with section 552b(f)(1) of title 5, United States Code, and § 7.6(a) of Title 39, Code of Federal Regulations, the General Counsel of the United States Postal Service has certified that in his opinion the portion of the meeting to be closed may properly be closed to public observation, pursuant to section 552b(c)(3) and (10) of title 5 and section 410(c)(4) of title 39, United States Code, and § 7.3 (c) and (j) of Title 39, Code of Federal Regulations.

Another portion of the Board meeting to be closed will consist of a discussion of Postal Service strategic planning.

The Board is of the opinion that public access to this discussion would be likely to disclose information in connection with future collective bargaining and information that will become involved in future rate litigation.

Accordingly, the Board of Governors has determined that, pursuant to section 552b(c)(3) of title 5, United States Code, and § 7.3(c) of Title 39, Code of Federal Regulations, this portion of the meeting is exempt from the open meeting requirement of the Government in the Sunshine Act (5 U.S.C. 552b(b), because it is likely to disclose information in connection with proceedings under chapter 36 of title 39 (having to do with postal ratemaking, mail classification, and changes in postal services), which is specifically exempted from disclosure by section 410(c)(4) of title 39, United States Code. The Board determined further that, pursuant to section 552b(c)(10) of title 5 and § 7.3(j) of Title 39, Code of Federal Regulations, the discussion is exempt because it is likely to specifically concern the participation of the Postal Service in a civil action or proceeding or the litigation of a particular case involving a determination on the record after opportunity for a hearing. It also determined, pursuant to section 552b(c)(9)(B) and § 7.3(i) of Title 39, Code of Federal Regulations, that the discussion is exempt because premature disclosure of information to be discussed would be likely significantly to frustrate implementation of future action in regard to future collective bargaining. The Board further determined that the public interest does not require that the Board's discussion of this matter to be open to the public.

In accordance with section 552b(f)(1) of title 5, United States Code, and § 7.6(a) of Title 39, Code of Federal Regulations, the General Counsel of the United States Postal Service has certified that in his opinion the portion of the meeting to be closed may properly be closed to public observation, pursuant to sections 552(c)(3), (9)(B) and (10) of title 5 and sections 410(c) (3) and (4) of title 39, United States Code, and § 7.3 (c), (i), and (j) of Title 39, code of Federal Regulations.

Louis A. Cox,

Secretary.

BILLING CODE 7710–12–M

9

SECURITIES AND EXCHANGE COMMISSION

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week of September 27, 1982, at 450 5th Street, N.W., Washington, D.C.

A closed meeting will be held on Tuesday, September 28, 1982, at 10:00 a.m. An open meeting will be held on Wednesday, September 29, 1982, at 10:00 a.m. in Room 1C30.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the close meeting may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4)(8)(9)(A) and (10) and 17 CFR 200.402(a)(4)(8)(9)(i) and (10).

Commissioners Evans, Thomas and Treadway voted to consider the items listed for the closed meeting in closed session.

The subject matter of the closed meeting scheduled for Tuesday, September 28, 1982, at 10:00 a.m., will be:

Litigation matter.
Settlement of administrative proceedings of an enforcement nature.
Institution of administrative proceedings of an enforcement nature.
Institution of injunctive action.
Regulatory matter regarding financial institution.

The subject matter of the open meeting scheduled for Wednesday, September 29, 1982, at 10:00 a.m., will be:

1. Consideration of whether to adopt an amendment to Rule 11Aa2–1 under the Securities Exchange Act of 1934 which would defer the eligibility date for the designation of certain securities as national market system securities from October 1, 1982, to February 1, 1983. For further information, please contact William Uchimoto at (202) 272–2409.

2. Consideration of whether to approve the Municipal Securities Rulemaking Board's ("MSRS") selection of Donald J. Robinson to serve as a public member of the MSRB and whether to delegate its authority to approve public members of the MSRB to the Director of the Division of Market Regulation. For further information, please contact Howard L. Kramer at (202) 272–2411.

The Commission will also consider whether to issue a letter from the Division of Market Regulation to Congressman Dingell commenting on legislation, proposed by the MSRB; which would amend the definition of the term "public representative" in the Securities Exchange Act of 1934 so that persons associated with a broker or dealer that is not a municipal securities broker or a municipal securities dealer could serve on the MSRB as public members. For further information, please contact Katherine A. England at (202) 272–2410.

3. Consideration of whether to approve the application of Claude Locklan Downs to become an associated person in a supervisory capacity with Commonwealth Plan of Church Finance Inc. For further

information, please contact Mary Binno at (202) 272-2318.

4. Consideration of an application filed by Union-Investment-Gesellschaft m.b.H. ("Union-Investment"), a West German management company, on behalf of Unifonds, a West German mutual fund, requesting an order pursuant to Sections 6(c) and 7(d) of the Investment Company Act of 1940, permitting registration of Union-Investment under the Act so that it may sell Unifonds shares in the United States, and granting exemptions from many of the provisions of the Act to the extent necessary to permit Union-Investment to comply with various West German regulations and business practices that conflict with those to which U.S. companies are subject. For further information, please contact Barbara Fraser at (202) 272-3042.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Catherine McGuire at (202) 272-3085.

September 20, 1982.

Part II

Department of the Interior

Bureau of Land Management

Exchanges; Amendments To Modify Appraisal Procedure and Provide Segregation on Public Lands Subject to Exchange

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Part 2200

Exchanges; Amendments To Modify Appraisal Procedure and Provide Segregation on Public Lands Subject to Exchange

AGENCY: Bureau of Land Management, Interior.

ACTION: Proposed rulemaking.

SUMMARY: This proposed rulemaking would make a number of amendments to the existing regulations on exchanges that would clarify and simplify the exchange process. A significant change is one relating to the appraisal standards used in determining equal value of the lands and interests in lands subject to an exchange.

DATE: Comments by November 22, 1982.

ADDRESS: Comments should be sent to: Director (140), Bureau of Land Management, 1800 C Street, NW., Washington, D.C. 20240.

Comments will be available for public review in Room 5555 of the above address during regular business hours (7:45 a.m. to 4:15 p.m.), Monday through Friday.

FOR FURTHER INFORMATION CONTACT:
David Hemstreet (202) 343–8693
or
Robert C. Bruce (202) 343–8735

SUPPLEMENTARY INFORMATION: The proposed rulemaking would make a number of changes in the existing regulations on exchanges. The most significant change would provide for equal value appraisals rather than fair market value appraisals as now required in existing regulations. This amendment brings the regulations into greater conformity with the wording of section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716) than does the wording of the existing regulations. This change will also allow greater flexibility in the exchange process, particularly in the area of oil shale exchanges where there is insufficient information to permit a fair market value appraisal. In connection with this change in the regulations, the Mineral Management Service has developed a methodology for determining equal value appraisals of oil shale and related resources that will be used in making exchanges. The methodology is being published in the **Federal Register** as a separate document, with a request for public comments. The methodology will, for the present, be limited to oil shale exchanges, but the public is asked to consider its application to other minerals when making comments.

A second change made by the proposed rulemaking concerns the notices given in connection with an exchange. The change would provide that when an amendment to the land use plan is needed to accommodate an exchange and that amendment is simultaneously processed with the exchange, the notice of amendment can be used as the notice of realty action. This change will reduce the number of publications and speed the exchange process, while at the same time keeping the public adequately informed as to the actions of the Bureau of Land Management affecting the public lands. A second part of this change would eliminate the requirement that a notice of the proposed exchange be published at the time the exchange is filed with the Bureau of Land Management. With hundreds of exchange proposals being filed each year, this requirement imposed a burden on the Bureau which served no useful purpose. The public has access to all Bureau offices by personal visit, correspondence and by telephone, and may, on a daily basis, if necessary, obtain information on exchange proposals. In addition, the existing regulations require publication of the notice of realty action prior to the execution of an exchange and another publication after issuance of patent or other conveyance document.

Another change made by the proposed rulemaking would eliminate the requirement that exchange acquisitions of non-Federal lands and interests are subject to the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.). As exchanges are a voluntary action on the part of the participants, there is no requirement that relocation assistance be provided. Condemnation or eminent domain proceedings by the United States to acquire lands are not involved in the exchange process. Additionally, exchanges are made on an equal value basis based on the current fair market value of both the lands to be acquired and the public lands to be exchanged.

The principal author of this rulemaking is David C. Hemstreet, Division of Lands, Bureau of Land Management, assisted by the staff of the Office of Legislation and Regulatory Management, Bureau of Land Management.

It is hereby determined that this rulemaking does not constitute a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) is required.

The Department of the Interior has determined that this document is not a major rule under Executive Order 12291 and that it will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

The changes made by this proposed rulemaking are designed to simplify the exchange process and to speed the process of exchange proposals. The changes will impact all entities equally and will benefit all of them. The exchange process is open to anyone, regardless of whether they are a large or small business, wishing to exchange their lands or interests in lands for lands or interests in lands owned by the United States.

List of subject in 43 CFR Part 2200

Administrative practices and procedures, National forests, Public lands, Public lands—classification.

PART 2200—EXCHANGES—GENERAL PROCEDURES

Under the authority of sections 205, 206 and 302 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1715, 1716, 1732), it is proposed to amend Part 2200, Group 2200, Subchapter B, Chapter II of Title 43 of the Code of Federal Regulations as set forth below:

§ 2200.0–5 [Amended]

1. Section 2200.0–5(h) is amended by removing the phrase "where fair market value appraisals" and replacing it with the phrase "where valuations."

§ 2200.1 [Amended]

2. Section 2200.1(a) is amended by adding at the end thereof the sentence "The notice published under § 1601.6–3(b)(1) of this title may, if so designated in the notice, serve as the notice of realty action required by § 2201.1 of this title and may segregate the public lands covered by the exchange proposal to the same extent that they would have been under a notice of realty action issued under § 2201.1 of this title if so stated in the notice."

§ 2200.3 [Amended]

3. Section 2200.3(e) is removed in its entirety.

§ 2201.2 [Amended]

4. Section 2201.2 is amended by:

a. Amending paragraph (a) by removing the last sentence; and

b. Adding a new paragraph (e) to read:

* * * * *

(e) Where 2 or more exchange proposals are submitted covering the same public lands, in whole or in part, the authorized officer shall review the proposals and advise the exchange proponents as to the acceptance or non-acceptance of their proposals in the same manner as specified in paragraphs (b) through (d) of this section.

5. Section 2201.3 is revised to read:

§ 2201.3 Valuations.

(a) Appraisals to determine whether the lands and interests in lands to be exchanged are of equal value shall be in accordance with the principles in the Interagency Department of Justic publication entitle "Uniform Appraisal Standards for Federal Land Acquisitions, where the authorized officer determines such an appraisal is appropriate.

(b) If the authorized officer determines that it is impracticable to asscertain under the procedures provided in paragraph (a) of this section the fair market value of lands or interests in lands containing oil shale which are being exchanged, he/she may utilize another method that will in his/her judgment ascertain their value; provided, that where the authorized officer utilizes another method, such other method shall be set forth in the notice of realty action issued in connection with such exchange.

David G. Houston,

Acting Assistant Secretary of the Interior.

September 14, 1982.

Part III

Department of Health and Human Services

Office of Human Development Services

Proposed Fiscal Year 1983 Priority Areas for the Use of Discretionary Funds; Request for Comments

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of Human Development Services

Request for Comments on Proposed Fiscal Year 1983 Priority Areas for the Use of Discretionary Funds

AGENCY: Office of Human Development Services, HHS.

ACTION: Proposed research, demonstration, evaluation, training and technical assistance priority areas for HDS' FY 1983 Discretionary Funds Program.

SUMMARY: The Office of Human Development Services (HDS) is formulating priority areas for new research, demonstration, evaluation, training and technical assistance grants authorized by its discretionary program legislation and that of its constituent programs—the Administration for Children, Youth and Families (ACYF), the Admininstration on Developmental Disabilities (ADD), the Administration on Aging (AoA), the Administration for Native Americans (ANA), the Office of Policy Development (OPD), the Office of Program Coordination and Review (OPCR) and the President's Committee on Mental Retardation (PCMR). As part of the process, HDS is requesting comments from the public on proposed priority areas for funding in Fiscal Year 1983 and the first quarter of Fiscal Year 1984. *THIS NOTICE SOLICITS PUBLIC COMMENTS ONLY AND IS NOT A REQUEST FOR APPLICATIONS.* An announcement of availability of funds and request for preapplications will be published in the **Federal Register** early this Fall.

FOR FURTHER INFORMATION CONTACT: Mr. Miguel A. Torrado, Acting Director, Division of Research and Demonstration, Office of Policy Development, Office of Human Development Services, Department of Health and Human Services, Room 732E, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, D.C. 20201, (202) 245-6233.

DATE: The closing date for receipt of public comments is October 25, 1982.

SUPPLEMENTARY INFORMATION:

Background

In FY 1982, HDS and its constituent programs initiated a Coordinated Discretionary Funds Program. As a result, a coordinated announcement of availability of funds and request for preapplications was published in the **Federal Register** on November 16, 1981. That announcement included several separate discretionary funding programs which had previously been announced and competed independently of each other. It also requested, instead of full proposals, that preapplications be submitted in the form of concept papers.

By establishing a coordinated discretionary funds process, which included all of its programs, HDS promoted cooperative and coordinated activity around important issues common to all programs. By requesting short (thirteen pages) concept papers, HDS encouraged wider participation in its discretionary funds program.

In FY 1983, HDS plans to continue the coordinated approach initiated in FY 1982 by publishing, later this fall, a coordinated announcement of funds availability and requesting preapplications in the form of concept papers.

HDS is using a priority-setting process that makes provision for State, local and community participation. With the cooperation of several national organizations, State, local, public, private, and voluntary practitioners were invited to discuss major research, demonstration, evaluation, training and technical assistance issues which should be addressed by Human Services Research and Demonstration efforts during the next two years. As a result of the recommendations developed through that process, a review of recent discretionary program activity, and in light of its mission and goals, HDS is proposing the priority areas discussed below for research, demonstration, evaluation, training and technical assistance activities in FY 1983.

Statutory Authorities

The individual statutory authorities under which grants would be awarded by the Office of Human Development Services Discretionary Funds Program are as follows:

Head Start: Head Start Act of 1982.

Child Welfare Services: Section 426 of Social Security Act as amended.

Runaway Youth Program: Runaway and Homeless Youth Act, as amended.

Child Abuse: Child Abuse Prevention and Treatment Act, as amended.

Adoption Opportunities: Title II of Child Abuse Prevention and Treatment and Adoption Reform Act of 1978, as amended.

Native Americans: Native American Programs Act of 1974, as amended.

Developmentally Disabled Special Projects: Section 145 of the Developmental Disabilities and Bill of Rights Act, as amended.

Social Services Research: Section 1110 of Social Security Act, as amended.

Aging Model Projects; Aging Research and Demonstration; Aging Training: Title IV of the Older Americans Act of 1965, as amended.

Purpose

The purpose of this notice is to invite public comment based on these areas, and to request suggestions for additions or deletions to the specific topics within these areas.

Process for Fiscal Year 1983

Comments received by the closing date will be considered in preparing the FY 1983 announcement of availability of discretionary funds and request for concept papers which will be published in the **Federal Register** in the fall of 1982. Concept papers received in response to that announcement will be reviewed by HDS and experts in the field. It is expected that the top ranked applicants will be invited to submit full proposals in early spring to compete for funding to be awarded in the third and fourth quarters of FY 1983 and the first quarter of FY 1984.

In addition to the coordinated HDS Discretionary Funds Program Announcement, program-specific notices and announcements will appear in the **Federal Register** from time to time. This is in accordance with the requirements of legislation establishing some of HDS' discretionary programs. On July 27, 1982 the notice of proposed Fiscal Year 1983 child abuse and neglect research and demonstration activities was published for comment in accordance with the Child Abuse Prevention and Treatment Act (Public Law 93-247, as amended); (**Federal Register** Vol. 47 No. 144 pp. 32481-32483). However, child abuse and neglect preapplications will later be considered for support under the HDS Coordinated Funds Program Announcement.

Process for Commenting

HDS invites interested members of the public to comment on the areas and topics under consideration. The sections below discuss the general themes, priority areas and topics being considered by HDS for its FY 1983 Discretionary Funds Program **Federal Register** Announcement of Funds Availability in early fall of this year.

Comments should be submitted so that they are received by October 25, 1982. Comments should be sent to: OPD/Division of Research and Demonstration, Office of Human Development Services, Department of Health and Human Services, Room 732E, Hubert H. Humphrey Building, 200

Independence Avenue, SW., Washington, D.C. 20201.

In reviewing the areas and topics presented for comment, several things should be noted. First, there has been a substantial number of projects and studies conducted in most of the areas discussed in this notice. Thus, HDS is seeking *innovative* and *new* approaches. Primary emphasis is placed on furthering and building upon previous HDS knowledge and experience through the exploration of creative approaches. Adapting existing material for use in areas of HDS populations other than the area or group for which the material was originally developed will be considered when the proposed adaptation holds promise of significant innovation.

Secondly, the proposed priority areas take into account the priorities and projects funded in FY 1982. Therefore, emphasis has shifted in many instances from FY 1982 priorities.

Finally, this notice is structured around priority areas that cut across several HDS programs and populations. Readers with primary interest in one HDS population are advised to examine all proposed priority areas, as specific research or demonstration topics particular to one population are to be found—or could be suggested—in all priority areas.

Discretionary Program Purpose

The purpose of the HDS coordinated discretionary program is to fund: research activities that seek to inquire into insightful new ways of addressing human service problems; demonstrations intended to test the effectiveness of previously untried approaches; evaluations that will assess the usefulness of existing techniques; technical assistance/training projects that promote the dissemination and use of services and techniques that have been found to be effective. Above all, HDS discretionary funds are intended to expand the boundaries of human service knowledge by drawing on a variety of fields of expertise. These new ideas and perspectives should stimulate and challenge both human service professionals and the public to respond more effectively to local needs. The HDS discretionary program is not intended to fund existing service programs or to serve as a source of supplementary funds for local activities which need operating subsidies.

In FY 1983 HDS proposes to focus its attention on priority areas that relate to four major themes:

I. The reduction of dependency on social services through social and economic development strategies which generate opportunities for individual and family self-sufficiency.

II. Increased responsiveness of social services to local needs and priorities.

III. Improved use of resources through more efficent administration of programs and provision of services.

IV. Prevention of the need for social services.

Additionally, HDS is considering soliciting ideas and issues solely related to region-specific problems.

HDS proposes to guide FY 1983 discretionary program funding decisions through the application of the following:

- The degree to which proposed projects involve new and creative approaches that add to existing knowledge or promote change through dissemination and utilization.
- The degree to which projects have a research or evaluation component.
- The degree to which applicants provide (a) non-Federal funding participation, and (b) time limited Federal support.
- The degree to which grantees have a likelihood of effecting change in the human service delivery system, as opposed to conducting a study of limited local interest.

Fiscal Year 1983 Priorities and Issues

Proposed priority areas for FY 1983 and the first quarter of 1984 are:

I. Reduction of Dependency on Social Services

Social services, when working properly, should supplement assistance from family resources and the private sector for those in need of help, stimulate increased opportunities for HDS populations to become employed, and assist those who can't be employed to become more self-sufficient through participation in family or community care arrangements. Social services should, in most cases, be an interim supplement to an individual's efforts toward self-sufficiency. They should be used in the absence of, rather than as a substitute for, adequate family and community resources.

HDS proposes to promote innovative approaches that encourage self-sufficiency and reduce dependency on publicly supported social services. HDS plans to consider projects for funding in the following priority areas: (A) Employment and income generation; (B) Community and family-based care; and (C) Targeting resources to reduce dependency.

I.A. Employment and Income Generation

In FY 1983 HDS proposes to focus on the development of new and innovative strategies for employment of HDS populations which are a departure from human services/employment approaches that have been tried in the past. Proposed topical areas include:

I.A.1. Development of new approaches to economic development, particularly with regard to older persons, Native Americans, developmentally disabled individuals, mentally retarded individuals, and AFDC recipients.

I.A.2. Investigation and development of alternative income generating strategies for HDS non-employable subgroups, e.g. reverse annuity mortgages, tax deferral, tax incentives for home maintenance and repair, and home sharing etc.

I.A.3. Development and greater utilization of employment strategies to enable HDS subgroups to enter or remain in the job market and become less dependent on public assistance. Techniques might include: flexitime; shared and part-time work; job restructuring; 2nd and 3rd careers; home-based work; and flexible insurance and fringe benefit packages.

I.A.4. Promotion of employment opportunities in high technology areas in industry through private sector training of older persons using the latest technology and through strategies to employ individuals with developmental disabilities.

I.A.5. Demonstrations which identify and build upon existing linkages between Head Start and other human services to assist parents in securing basic educational skills, vocational training, employment counseling and employment.

I.A.6. Examination of existing day care tax credits and other State tax provisions to determine if and how they can be used to increase the involvement of businesses in the provision of employment related day care.

I.A.7. Demonstrations to provide low income, inner city and minority youth with meaningful work experiences as volunteers in Head Start and other human services agencies, e.g. child and family services, and health and recreation. The focus of these efforts should be upon skill development to make these youths marketable for eventual employment by the participating agencies and organizations, as well as private sector firms.

I.A.8. Development of greater educational opportunities for older persons, including training for second careers, health and consumer education and training for greater self-sufficiency.

I.B. Community and Family-Based Care

Strengthening the family is a key factor in socio-economic growth. Of particular interest is the development of greater service and peer group support for primary care givers of older persons, special needs children and developmentally disabled individuals. Foster care and adoptive parents of hard to place children are part of this area of concern as are Head Start parents. Further effort is needed in:

I.B.1. Development of community support groups; including peer groups; intergenerational support groups; and extended family concepts.

I.B.2. Assessment of the implications of changing life styles (family relocations, dual parent employment, labor market demands on levels of education, changing supply/demand issues in the labor market) on HDS populations and service needs.

I.B.3. Conduct of demonstrations to aid families with handicapped children who are at risk of losing their children to inappropriate placement in foster care, or who need help in reducing the risk of child abuse and neglect.

I.B.4. Promotion of the role the private sector and business might play in foster care and adoption including support, identification and recruitment of prospective adoptive parents for special needs children.

I.B.5. Local development of comprehensive community based day care for children, adults and the handicapped.

I.B.6. Increased linkages of residential day care service providers with other community services.

I.B.7. Promotion of private sector involvement in more effectively addressing the mainstreaming and teaching development of learning models for deaf, hearing impaired and learning disabled individuals using advanced technology. Of particular concern are preschool Head Start children.

I.C. Targeting Resources

HDS will assist States and local governments in developing innovative approaches for targeting resources to the most needy. Emphasis in this area is on providing appropriate care in response to individual problems. Inappropriate placement into restrictive institutional settings not only reduces the individual's and family's ability to be self-sufficient, but also results in the expenditure of public funds for high cost and ineffective services. Effective targeting of resources should result in a cost effective use of services consistent with the needs and capabilities of the individuals and families being served.

To achieve this it is necessary to provide the basic, most effective services to aid individuals in attaining their maximum level of independence and self-sufficiency. It is also necessary to obtain a better definition of these target populations; to identify strategies for effective targeting; and to develop techniques which are effective in reaching those most in need.

In FY 1983 HDS is considering providing assistance to conduct projects in the following topic areas:

I.C.1. Adolescents who remain in foster care until the age of emancipation are a problem of growing concern. The number of youths in this area is increasing. With varying State laws and requirements, this group is in need of assistance in preparing for independent living, e.g. networks of coordinated counseling services to older adolescents using existing delivery systems, including schools, mental health organizations, employment agencies and child welfare agencies.

I.C.2. It is important to target resources on the prevention of runaway and homeless youth. Effective targeting is dependent on updated community information on the number of youths who are homeless. The only valid data on the number of runaway youth was collected in 1975. Valid and current data on the extent of the runaway and homeless youth is needed in order to effectively target preventive and family verification efforts.

I.C.3. Better strategies are needed to target resources on older people in the greatest economic and social need. Title III of the Older Americans Act requires State and area agencies to give preference in provision of supportive and nutrition services to older people in greatests need, including minorities, older women, rural older persons, the homebound, the poor, the impaired and those of limited English ability.

I.C.4. Study is needed on families who have a member who is handicapped, as both the parents and the handicapped person get older. To improve care models, additional information on the responsibiity of siblings, whose roles may or may not be well defined, is also needed.

I.C.5. Better strategies are needed to identify primary caregivers, and determine the education or assistance they require to provide effective services. Addtionally, there is a need for improved definition of the target populations most in need, e.g. impaired older person and the permanently poor elderly.

I.C.6. Currently there are serious procedural and operational problems between the States' child welfare agencies and the courts with regard to children in foster care placement. As a result, children are often denied access to prompt and effective decisions concerning custody, case reviews, parental rights, due process protections and permanency planning. Service improvement grants would be awarded to promote cooperative and more effective relationships between placement agencies and the courts.

I.C.7. Current practices make homestudies difficult when dealing across jurisdictions. HDS is seeking innovative practices which stimulate cooperation and sharing of completed homestudies and potential adoptive families.

I.C.8. The adoption process for special needs children is very labor intensive with many agencies being able to complete the adoptions of only 25 to 30 children per worker per year. Placement agencies need to evaluate the adoption process to determine how to streamline and reduce the costs of adoption.

I.C.9. Families adopting special needs children often do not have knowldege of nor access to the resources needed in parenting children with multiple special needs. There appears to be a direct correlation between the lack of supportive resources and the number of disruptions in these families. HDS is interested in local, regional or State adoptive parent groups for the development of innovative processes by which adoptive parents could engage in a volunteer collaborative effort with social service agencies to assist adoptive families to identify and use existing supportive resources.

I.C.10. Assisting Indian tribes to develop and implement tribal codes and court procedures on adoption, thereby reducing the number of Indian children in foster homes and in out-of-home placements.

I.C.11. Assisting Indian Tribes who are operating their own child welfare services system to reduce the number of Indian children inappropriately in out-of-home placement. This includes the application of permanency planning, case reviews and comprehensive emergency services.

I.C.12. Establishing and demonstrating partnerships of Indian Tribes and States for the development of cooperative processes for the disposition and management of child custody, jurisdiction and services.

II. Increased Responsiveness to Local Needs

HDS proposes, as the second theme of its FY 1983 Discretionary Funds Program, to foster an increase in the ability of HDS grantees—including State and local governments as well as private organizations—to administer and develop service programs responsive to local needs and priorities. Through this effort, HDS is promoting innovation in training, technical assistance, grantee cooperation, tribal and territorial relationships, and the dissemination and utilization of grantee R&D products.

The development and funding of activities with HDS discretionary funds has to an extent been dominated by a Federal perspective rather than by grantee or local needs. There is a need to reverse this pattern and to increase the flexibility grantees have in administering service programs. The underlying assumption is that greater State and local control will produce better use of resources to meet identified needs.

In FY 1983 HDS would like to address this issue by funding: (A) Alternative models of State or local planning and management of training resources; (B) successful demonstrations of new and innovative techniques for the dissemination and utilization of R&D products; and (C) projects that would address the unique service needs and special conditions of tribes and territories.

II.A. Training and Technical Assistance

Under this priority area, HDS proposes to primarily explore innovative training strategies that meet the generic needs of more than one HDS program area. Some of the topics that may be explored are:

II.A.1. State and local level training issues need to be locally determined and explicated. Of particular interest is the achievement of cost efficiencies through pooling of resources within agencies, programs and across organizations; identification of generic training needs; and innovative use of existing community resources.

II.A.2. Given the varied needs of clients, professional workers in human service networks are increasingly required to work in mulit-discipline environments. For example, in certain protective service cases it would be valuable if the social worker had the appropriate legal background. HDS is interested in strategies for addressing this issue at the State and local levels. These should use existing resources and networks, public and private expertise, peer group training and other innovative approaches to establish low-cost formal and informal training for coping with miltidiscipline demands and interface problems in the provision of human services.

II.A.3. The need for management training is generic in human service programs. HDS proposes to solicit ideas for State and local models for the provision of management training, at beginning and advanced levels, for human service managers. These should include the need and use of fiscal management and analytic tools in the delivery of human service. Concepts should be initiated by State or local agencies; have cross program involvement; be cost efficient; and have measurable goals. Of specific concern is management training which addresses gerontological and child welfare service provision needs, and joint projects between State and local agencies, and the business sector.

II.A.4. Training and technical assistance in rural areas continues to be a problem. HDS is interested in the development of methods for delivering effective T/TA to remote programs through the use of existing State and local networks and public media. Current technologies in communications should be considered in addressing this problem as well as other innovative and cooperative efforts. The focus should be on coordination and better use of existing training materials rather than the development of additional curricula.

II.A.5. An area of interest is the use of peer groups in the provision of training and technical assistance. HDS proposes to fund efforts to use social service practitioners as sources for T/TA drawing on their "hands on" experiences in upgrading the quality of service across programmatic and geographical boundaries.

II.A.6. HDS is interested in the provision of T/TA to community groups to increase their competencies in supporting service providers and to improve the quality of services provided by agencies that deal with the handicapped, developmentally disabled children, older presons and children in need of day care.

II.A.7. HDS is interested in supporting pre-service gerontological training programs in a variety of disciplinary and multi-disciplinary settings.

II.A.8. Support is important for activities which introduce aging content into the curricula of specific occupations and professions whose members deal with older persons.

II.A.9. There is a need for the development of certification standards related to training and career ladder mobility for the staff of State and Area Agencies on Aging.

II.B. Dissemination and Utilization

Too often new knowledge from research, demonstration, evaluation, training and technical assistance efforts has been unevenly applied. Information that has generic use needs to be disseminated across all program concerns.

Additionally, funds at the Federal, State and local levels should be devoted to efforts which are commonly shared beyond the confines of a local or State boundary.

Until research, demonstration, evaluation, training and technical assistance findings are put into practice, the process is not complete. Subtopics HDS would like to address in this priority area are:

II.B.1. Reshaping of research, demonstration, evaluation, training and technical assistance materials is crucial, so that they are appealing and can be marketed through paying channels. Development of strategies to effectively market creative human service ideas or practices is also central to this area.

II.B.2. There is continued interest in the establishment by a national organization of a self-sufficient and self-sustaining dissemination and utilization mechanism.

II.C. Service Needs of Tribes and Territories

In FY 1983 HDS proposes to improve human service provision to tribes and territories by exploring the following topics:

II.C.1. Regulatory and statutory barriers to improving service delivery.

II.C.2. Effective service delivery systems which take into account the unique conditions and resources in tribes and territories.

II.C.3. Symposia on tribal/territorial issues related to improved services delivery, integration, linkages and cost effectiveness.

II.C.4. Development of joint efforts between Native American tribes and the private sector to undertake social and economic development projects. Cooperative undertakings may entail one "partner" acting as a catalyst, or providing capital, while the second provides tax advantages and the third provides land or an established market; or in which government provides the regulatory/tax freedom, while the tribe provides resources, and the private organization provides the technical expertise.

II.C.5. Development of tribal commercial codes, i.e. real estate, which

protect both creditors and consumers thereby stimulating private sector economic development on Indian reservations and increased tribal management of programs which serve Indians.

III. Improved Use of Resources Through Efficient Administration

The improved use of resources through more efficient and effective administration of programs has long been a major thrust of HDS discretionary activity. Extensive research and development activity has already been undertaken on caseworker and workload management, financial management systems, management information systems, and fees for services.

In FY 1983 HDS proposes to address topics in three priority areas: (A) management information systems development; (B) program management improvements; and (C) evaluation assistance.

III.A. Management Information Systems

In the systems development area HDS is interested in activities which would demonstrate networking or selected integration of social services information systems with other appropriate data systems. Topical areas might include:

III.A.1. Innovative approaches which link information system output to the decision-making process of community organizations and State or local agencies.

III.A.2. Cooperative development and/or use of information systems.

III.A.3. The use of management information systems for evaluation of HDS programs.

III.A.4. The development of compatible State data bases for possible combination to produce national data bases for specific target groups. HDS expects to continue its current efforts to develop such a national data base on older persons.

III.A.5. Assessments of the Federal, State and private data bases in the area of mental retardation to determine the quality and comparability of such data and the possible use of sampling approaches to provide national data.

III.B. Program Management Improvements

HDS is interested in the following management topics:

III.B.1. Development and testing of techniques for determining cost and cost analysis. Further development is needed in assessing the costs and benefits of service delivery mechanisms for the various HDS populations and conducting cost benefit analyses on such topics as alternative work programs, living arrangements for the mentally retarded and other community based care models.

III.B.2. Assisting States and grantees in conducting cost/benefit analyses of indirect services or governance approaches. To be considered here would be assessment of effectiveness and costs of the planning process, and the cost savings of such alternative financing tools as regulation, taxation, administrative reform, public-private collaboration, self-help and public advocacy. For example, what are the values and trade-offs of shared housing for older persons and handicapped?

III.B.3. Purchase of service activities must move beyond good procurement and administration practices to performance contracting that results in more effective and efficient services. Included in this category is use of performance standard contracting (contracts which define minimum acceptable levels of service), as well as accountability, monitoring and effective sanctions.

III.B.4. The use of vouchers for services to specific groups is also of interest. Vouchers have been used in social services and education programs for a number of years; however, there has been no comprehensive analysis of this aproach to determine its effectiveness in the area of day care. The impact of existing voucher programs on the day care delivery system, parents, and children needs to be determined.

III.B.5. The delivery system response to individuals with multiple needs. An example would be individuals with severe behavior problems who are also developmentally disabled, mentally retarded or emotionally disturbed. There is a need for delivery system accountability. Some of the other multiple needs groups which are of interest to HDS with respect to this topic are:

—Mentally retarded individuals who are abused and neglected.
—Isolated older persons who have mental health problems.
—Mentally retarded or developmentally disabled offenders or alleged offenders who are not appropriately identified by the judicial system and, therefore, do not receive the services and treatment required to prepare them for independent living and employment.

HDS proposes to identify the deficiencies in the available information, and the development of effective service models.

III.B.6. The development of innovative service integration models that lend themselves to economies of scale. The lessons of the jointly funded HDS/DOT transportation projects can serve as a foundation upon which new models of service integration can be built.

III.B.7. The application of advanced management science or operation research techniques to the solution of human service delivery problems. In the last ten years, scientific management techniques have increasingly been used outside of industrial settings to assist in the management of service systems. Similar approaches may be useful in managing human service delivery. Many large scale, system-wide human service problems can be addressed by management science techniques. For example,

III.B.7.a. Given improved foster care data resulting from Pub. L. 96–272, many States should have sufficient information to develop more cost effective assignments for children in care, based upon factors related to quality of care, the likelihood of recidivism, and cost of inappropriate placement.

III.B.7.b. The use of probability theory to improve the number of clients that can be effectively served with reduced service workers at service locations.

III.B.7.c. Application of geographical probability techniques to assist in determining the best location for facilities such as senior centers, day care facilities, etc.

III.C. Evaluation Assistance

With States and localities assuming greater responsibility for planning and managing social services, service delivery organizations need to target their resources on the most needy and to delivery services in the most cost-effective manner. State and local delivery organizations are being pressed to assess their operational efficiency, and to determine whether the needs of their communities are being met, how effective their programs and services are, and whether client outcomes are commensurate with the resources being spent to help them. A complicating problem is that many human service delivery organizations do not currently have an adequate evaluation capacity.

In many areas of the country, a variety of non-governmental organizations such as foundations, community planning councils, local United Ways, charities, and private commercial organizations are included in human service efforts. The purpose of these community organizations is to determine community needs, and to plan

and deliver services locally. This includes priority setting, resource allocation, use of volunteers, and integrated or coordinated services at the local level. An independent evaluation capacity may be needed to assess whether or not they are performing as well as they could.

The focus in the evaluation area in FY 1983 should be to assist States, Indian tribes, local agencies and other human service organizations in enhancing their capacity to evaluate their programs. In State models, better use of MIS data for evaluation purposes is a question of concern. Proposed local efforts should involve community-wide planning agencies or public/private partnerships in addition to multi-program human services agencies.

HDS would therefore assist innovative or cost effective models or approaches that demonstrate enhanced evluation capability and its effective use.

IV. Prevention of the Need for Social Services.

In FY 1982 the HDS focus on prevention was primarily upon tertiary prevention (overcoming the effects of a condition).

In FY 1983 HDS intends to take a broader approach in addressing the issue of prevention while at the same time pursuing dissemination and utilization of FY 1982 findings and successful demonstrations.

Primary prevention (preventing a condition from occurring) and secondary prevention (ameliorating the effects of a condition) will be stressed. Demonstration of effective prevention in human services is needed. Better understanding of which services prevent or minimize what problems for given HDS populations needs to be explored, as well as the kinds of data needed to support prevention strategies.

In FY 1983 HDS proposes four prevention priority areas: (A) public awareness; (B) early prevention; (C) costs and benefits; (D) socio-medical linkages; and (E) targeting prevention.

IV.A. Public Awareness

HDS proposes to study the kinds of public awareness activities that constitute effective primary prevention. For example:

IV.A.1. Of interest is how increased public awareness can play a preventive role in family breakdown, chronic dependency, abuse and neglect and other problems which are seen in the HDS populations.

IV.A.2. Family training, peer group support in parenting, public education about the aging process and needed coping mechanism support are additional primary and secondary prevention activities which need testing.

IV.B. Early Prevention

HDS also is considering studying the kinds of early prevention strategies that are most effective for particular subgroups. Topics such as the following address this issue:

IV.B.1. Studies show that an excessively large portion of the population in correctional institutions consists of MR offenders. To deal with this problem, primary, secondary and ameliorative prevention strategies should be developed.

IV.B.2. Data indicates that similar problems exist in secure youth detention facilities i.e. inappropriate handling of at-risk youth. Minimally, innovative approaches for reducing admission of status offenders and other at-risk youth are called for.

IV.B.3. Exploitation of runaway youth is another area where prevention is needed. More effective strategies need to be developed for the provision of appropriate living arrangements, basic educational skills and vocational training for these youth. Additionally, linkages between runaway youth centers and local schools need to be established for the identification of youth in need, and provision of prevention assistance.

IV.C. Costs and Benefits

In addressing the issue of prevention, it is imperative that costs and benefits, long-term and short-term, be addressed. Broad prevention strategies must look at the initial costs versus the future value of the delayed benefits. In this connection, HDS proposes to study the linkages of indicators and problem resolution using these data bases currently being established which relate to specific HDS target groups.

IV.D. Socio-Medical Linkages

Among some HDS subgroups there is an integral health related component to prevention. HDS is interested in topics such as:

IV.D.1. To further identify socio-medical linkages and develop effective institutional communication and linkages to social service support.

IV.D.2. To develop and test models of self-help, self-care and mutual help to prevent functional disability; to make older individuals effective consumers of health care; and to reduce unnecessary reliance on health professionals.

IV.D.3. To develop strategies for the early identification of high risk older persons and at risk mothers to prevent health conditions from deteriorating significantly.

IV.D.4. To increase the capacity of aging and mental health networks and mental health professionals to address the needs of older persons, and to increase the co-location of services.

IV.E. Targeting Prevention

Predictors for given target groups is another topic critical to prevention. What are the indicators of problems? Of success? Which target groups are more likely than others to require future services? HDS proposes to develop improved assessment, screening and predictive capabilities concerning the prevention needs of target groups and the meeting of those needs. Examples would be:

IV.E.1. The development of predictors of need for home care for impaired older persons which would result in preventing institutional care.

IV.E.2. Development of population indicators of dependency and self-sufficiency among the various HDS populations. The maintenance of self-sufficiency is seen as an issue of prevention of the need for services. There is a need to obtain early indicators of decreasing self-sufficiency so that timely prevention strategies can be employed.

Dated: September 17, 1982.

Dorcas R. Hardy,

Assistant Secretary for Human Development Services.

List of Public Laws

Last Listing September 22, 1982

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (telephone 202-275-3030).

H.R. 3663 / Pub. L. 97-261 Bus Regulatory Reform Act of 1982 (September 20, 1982; 96 Stat. 1102) Price: $3.25

UPDATED EDITION NOW AVAILABLE

For those of you who must keep informed about Presidential proclamations and Executive orders, there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period January 20, 1961, through January 20, 1981, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1961–1981 period, along with any amendments, an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register, National Archives and Records Service, General Services Administration

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 47, No. 188
Friday, September 24, 1982

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 910

[Lemon Reg. 378]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period Sept. 26–Oct. 2, 1982. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: September 26, 1982.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291, and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities. This action is designed to promote orderly marketing of the California-Arizona lemon crop for the benefit of producers, and will not substantially affect costs for the directly regulated handlers.

This final rule is issued under the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1981–82. The marketing policy was recommended by the committee following discussion at a public meeting on July 6, 1982. The committee met again publicly on September 21, 1982, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is moderate.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 910

Marketing agreements and orders, California, Arizona, Lemons.

Section 910.678 is added as follows:

§ 910.678 Lemon regulation 378.

The quantity of lemons grown in California and Arizona which may be handled during the period September 26, 1982, through October 2, 1982, is established at 225,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated September 22, 1982.

D.S. Kuryloski,

Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.

[FR Doc. 82-26548 Filed 9-23-82; 11:26 am]
BILLING CODE 3410-02-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

20 CFR Part 404

Limitation on Survivor's Benefits and Payments to Persons Who Intentionally Cause the Death of a Worker on Whose Earnings Record the Benefits and Payments are Based

AGENCY: Social Security Administration, HHS.

ACTION: Final rules.

SUMMARY: These regulations reflect a change in SSA policy. This policy prohibits benefit payments to any survivor who is found to have intentionally caused the death of the worker on whose earnings record the benefit payments are based. It provides for uniform treatment of juveniles and adults in these homicide cases and is consistent with the well-established principle that an individual should not profit directly from intentionally causing another person's death.

EFFECTIVE DATES: These regulations became effective when interim rules were published on March 30, 1982 (47 FR 13324).

FOR FURTHER INFORMATION CONTACT: F. Miranda, Office of Regulations, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone (301) 594–7341.

SUPPLEMENTARY INFORMATION: These regulations reflect a change in SSA policy that a child who is found to have intentionally caused the death of a parent or spouse may not collect Social Security benefits based on that person's earnings. Prior policy denied survivor's payments only to persons finally convicted of a felony for intentionally causing a worker's death. In most jurisdictions, no conviction of a felony is possible for individuals who are under the jurisdiction of the juvenile court system. On that basis, the Social Security Administration has paid

benefits to children in this category who otherwise qualified for benefit payments.

These regulations also remove the term "finally" before "convicted" in the regulations to make clear, both with respect to adults and juveniles, that benefit payments will not be made beginning with the month a court pronounces a conviction and withholding of the benefits or payments will continue unless and until the conviction is reversed.

Provisions of the Regulations

The major portion of this regulation deals directly with juveniles and reflects our policy that an individual subject to the juvenile justice system may not become entitled to, or continue to receive, benefit payments based on the earnings record of the deceased person if he or she has been found by a court of competent jurisdiction to have intentionally caused that person's death by committing an act which, if committed by an adult, would have been considered a felony or an act in the nature of a felony.

The regulations also clarify our rules of administrative finality with respect to individuals involved in proceedings arising out of the intentional killing of the worker in the juvenile justice system to treat such individuals in the same way as adults convicted of the felonious homicide of the worker.

In addition, we are also removing the term "finally" before "convicted" in the regulations in order to make clear with respect to adults and juveniles that benefit payments will not be made beginning with the month a court pronounces a conviction and withholding of the benefits or payments will continue unless and until the conviction is reversed. In situations involving reversals, the rules of administrative finality in § 404.988 will apply.

Interim regulations were published in the Federal Register on March 30, 1982 (47 FR 13324). These rules reflected a change in SSA policy which applies to juveniles and are based on the well-established principle that an individual should not profit from intentionally causing another person's death. As provided by the Administrative Procedure Act (5 U.S.C. 553(b)(B)), we found that publication of a notice of proposed rulemaking (NPRM) was "contrary to the public interest" because the already widely manifested interest of the public in prompt effectuation of this change would have been defeated by any requirement of advance notice. However, to insure that the public had an opportunity to give us their views about these regulations, we asked interested persons to send us their comments before proceeding with these final amendments. The comment period ended on June 1, 1982. We did not receive any comments on or before that date, and we have not made any significant changes in the final regulations.

Regulatory Procedures

Executive Order 12291—These regulations have been reviewed under Executive Order 12291 and do not meet any of the criteria for a major regulation. Therefore, a regulatory impact analysis is not required.

Regulatory Flexibility Act—We certify that these regulations do not have a significant impact on small entities because they affect only individuals. Consequently, we have determined that a regulatory flexibility analysis as provided by Pub. L. 96–354, the Regulatory Flexibility Act of 1980, is not necessary.

Paperwork Reduction Act—These regulations impose no reporting or recordkeeping requirements requiring OMB clearance.

(These regulations are issued under the authority contained in sections 205 and 1102 of the Social Security Act; 49 Stat. 624 and 646; 42 U.S.C. 405 and 1302)

PART 404—FEDERAL OLD AGE, SURVIVORS AND DISABILITY INSURANCE (1950—)

Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. In § 404.305, paragraph (b) is revised to read as follows:

§ 404.305 When you may not be entitled to benefits.

* * * * *

(b) Insured's death caused by an intentional act. You may not become entitled to or continue to receive any survivor's benefits or payments on the earnings record of any person if you were convicted of a felony or an act in the nature of a felony of intentionally causing that person's death. If you were subject to the juvenile justice system, you may not become entitled to or continue to receive survivor's benefits or payments on the earnings record of any person if you were found by a court of competent jurisdiction to have intentionally caused that person's death by committing an act which, if committed by an adult, would have been considered a felony or an act in the nature of a felony.

2. In § 404.988, paragraph (c)(9) is revised to read as follows:

§ 404.988 Conditions for reopening

* * * * *

(c) At any time if—

* * * * *

(9) It finds that you are entitled to monthly benefits or to a lump-sum death payment based on the earnings of a deceased person, and it is later established that (i) you were convicted of a felony or an act in the nature of a felony for intentionally causing that person's death; or (ii) if you were subject to the juvenile justice system, you were found by a court of competent jurisdiction to have intentionally caused that person's death by committing an act which, if committed by an adult, would have been considered a felony or an act in the nature of a felony.

BILLING CODE 4110-11-M

Food and Drug Administration

21 CFR Part 5

Delegations of Authority and Organization; Orphan Products (Drugs, Biologics, and Medical Devices)

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the regulations for delegations of authority to add a new delegation of authority regarding orphan products. The Director, Orphan Products Development, Office of the Commissioner, is being delegated the authority to issue notices inviting sponsorship and submission of documentation to obtain marketing approval for orphan products (drugs, biologics, and medical devices).

EFFECTIVE DATE: September 24, 1982.

FOR FURTHER INFORMATION CONTACT: Robert L. Miller, Office of Management and Operations (HFA–340), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4976.

SUPPLEMENTARY INFORMATION: FDA has established a new program to facilitate the availability of products (drugs, biologics, and medical devices) useful in treating or diagnosing rare diseases or common diseases for which no sponsor exists. The first notices implementing this program are published elsewhere in this issue of the **Federal Register**.

FDA is adding new § 5.58 (21 CFR 5.58) to provide the Director, Orphan Products Development, with authority to issue such notices in the future.

Further redelegation of the authority delegated is not authorized. Authority delegated to a position by title may be exercised by a person officially designated to serve in such position in an acting capacity or on a temporary basis.

List of Subjects in 21 CFR Part 5

Authority delegations (Government agencies), Organization and functions (Government agencies).

PART 5—DELEGATIONS OF AUTHORITY AND ORGANIZATION

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a)) and the Public Health Service Act (sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 5 is amended by adding new § 5.58, to read as follows:

§ 5.58 Issuance of notices inviting sponsorship and submission of documentation for marketing approval for orphan products.

The Director, Orphan Products Development, Office of the Commissioner, is authorized to issue notices, and amendments thereto, inviting sponsorship for orphan products (drugs, biologics, and medical devices) and submission of new drug applications, new animal drug applications, applications for product license for biologics, or premarket approval applications for medical devices, as appropriate.

Effective date.—This regulation shall become effective September 24, 1982.

(Sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a)); sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262))

Dated: September 9, 1982.

Arthur Hull Hayes, Jr.,

Commissioner of Food and Drugs.

[FR Doc. 82-26169 Filed 9-23-82; 8:45 am]

BILLING CODE 4160-01-M

21 CFR Part 442

[Docket No. 82N-0277]

Antibiotic Drugs; Cefamandole Nafate for Injection

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the antibiotic drug regulations to provide for the certification of cefamandole nafate for injection produced by a new manufacturing process. The manufacturer has supplied sufficient data and information to establish its safety and efficacy.

DATES: Effective September 24, 1982; comments, notice of participation, and request for hearing by October 25, 1982; data, information, and analyses to justify a hearing by November 23, 1982.

ADDRESS: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Joan M. Eckert, National Center for Drugs and Biologics (HFD–140), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4290.

SUPPLEMENTARY INFORMATION: FDA has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 357), as amended, with respect to providing for the certification of cefamandole nafate for injection manufactured by a new process which does not involve isolation of cefamandole nafate in the preparation of the finished drug product. The agency has concluded that the data supplied by the manufacturer concerning this antibiotic drug are adequate to establish its safety and efficacy when the drug is used as directed in the labeling and that the regulations should be amended in Part 442 (21 CFR Part 442) to provide for its certification.

The agency has determined pursuant to 21 CFR 25.24(b)(22) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 442

Antibiotics, Cepha.

PART 442—CEPHA ANTIBIOTIC

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 507, 701 (f) and (g), 52 Stat. 1055–1056 as amended, 59 Stat. 463 as amended (21 U.S.C. 357, 371 (f) and (g))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 442 is amended in § 442.208 by revising paragraphs (a) (1) and (3) and (b)(1) and adding (b)(7) to read as follows:

§ 442.208 Cefamandole nafate for injection.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity.* Cefamandole nafate for injection is a dry mixture of cefamandole nafate and one or more suitable and harmless buffering agents. The cefamandole nafate may be isolated in the manufacture of cefamandole nafate for injection. Its cefamandole content is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of cefamandole that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. Its moisture content is not more than 3.0 percent. Its pH is not less than 6.0 and not more than 8.0. If isolated, the cefamandole nafate used conforms to the standards prescribed by § 442.8a(a)(1). If the cefamandole nafate is not isolated, the potency of the dry mixture is not less than 810 micrograms and not more than 1,000 micrograms of cefamandole per milligram on an anhydrous basis when corrected for sodium carbonate; and the dry mixture gives a positive identity test.

* * * * *

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on: (*a*) If isolated, the cefamandole nafate used in making the batch for cefamandole content, moisture, pH, and identity.

(*b*) The batch for cefamandole content, sterility, pyrogens, safety, moisture, and pH. In addition, if the cefamandole nafate is not isolated, results of tests and assays on the dry mixture for potency and identity.

(ii) Samples required: (*a*) For all tests except sterility: A minimum of 10 immediate containers, unless the cefamandole nafate is not isolated, a minimum of 15 immediate containers.

(*b*) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay*—(1) *Cefamandole content.* Proceed as

directed in § 436.324 of this chapter, preparing the sample solution and calculating the cefamandole content as follows:

(i) *Sample preparation.* Reconstitute the sample as directed in the labeling. If it is represented as a single dose container, remove all of the withdrawable contents with a suitable hypodermic needle and syringe. If the labeling specifies the amount of cefamandole content in a given volume of the resultant preparation, remove an accurately measured representative portion from each container. Further dilute an aliquot of this solution with distilled water to obtain a concentration of 2.0 milligrams of cefamandole per milliliter (estimated). Transfer 5 milliliters of this solution to a 50-milliliter volumetric flask, add 30 milliliters of pH 2.3 buffer, dilute to volume with distilled water, and mix. In addition, if the cefamandole nafate is not isolated, prepare the sample solution as described in § 436.324(d) of this chapter. Determine the sodium carbonate content as follows: Dissolve an accurately weighed portion of the dry mixture, approximately 1.0 gram, with approximately 100 milliliters of distilled water. Titrate with 0.2*N* hydrochloric acid. Determine the end-point potentiometrically to the first equivalent using a glass calomel combination electrode. Each milliliter of 0.2*N* hydrochloric acid is equivalent to 21.2 milligrams of sodium carbonate.

(ii) *Calculations*—(*a*) Calculate the cefamandole content as follows:

$$\text{Milligrams of cefamandole} = \frac{A \times \text{Milligrams of working standard} \times \text{Potency of working standard in micrograms per milligram.} \times f}{B \times 50 \times 1{,}000}$$

where:
A = The peak height of the sample;
B = The peak height of the working standard; and
f = The dilution factor of the sample.

(*b*) If the cefamandole nafate is not isolated in the manufacture of cefamandole nafate for injection, calculate the micrograms of cefamandole per milligram of sample as described in § 436.324(f) of this chapter. The micrograms per milligram of cefamandole is corrected for sodium carbonate content and moisture content.

* * * * *

(7) *Identity.* Proceed as directed in § 436.323 of this chapter.

This regulation announces standards that FDA has accepted in a request for approval of an antibiotic drug. In accordance with the conditions for certification in section 507 of the act (21 U.S.C. 357), FDA permits the manufacturer to market this drug on a "release" status pending this regulation's becoming effective. Because this regulation is not controversial and because when effective it provides notice of accepted standards and permits earlier certification of regulated products, notice and comment procedure and delayed effective date are found to be unnecessary and not in the public interest. The amendment, therefore, is effective September 24, 1982. However, interested persons may, on or before October 25, 1982, submit written comments on this rule to the Dockets Management Branch (address above). Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Any person who will be adversely affected by this regulation may file objections to it and request a hearing. Reasonable grounds for the hearing must be shown. Any person who decides to seek a hearing must file (1) on or before October 25, 1982, a written notice of participation and request for hearing, and (2) on or before November 23, 1982, the data, information, and analyses on which the person relies to justify a hearing, as specified in 21 CFR 430.20. A request for hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for hearing that no genuine and substantial issue of fact precludes the action taken by this order, or if a request for hearing is not made in the required format or with the required analyses, the Commissioner of Food and Drugs will enter summary judgment against the person(s) who request(s) the hearing, making findings and conclusions and denying a hearing. All submissions must be filed in three copies, identified with the docket number appearing in the heading of this order and filed with the Dockets Management Branch.

The procedures and requirements governing this order, a notice of participation and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and grant or denial of a hearing are contained in 21 CFR 430.20.

All submissions under this order, except for data and information prohibited from public disclosure under 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall be effective September 24, 1982.

(Secs. 507, 701 (f) and (g), 52 Stat. 1055–1056 as amended, 59 Stat. 463 as amended (21 U.S.C. 357, 371 (f) and (g)))

Dated: September 16, 1982.

James C. Morrison,
Acting Assistant Director for Regulatory Affairs.

BILLING CODE 4160-01-M

---

21 CFR Parts 510, 548, and 558

New Animal Drugs; Bacitracin Methylene Disalicylate and Bacitracin Zinc With and Without Penicillin

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to withdraw approval of certain claims contained in the new animal drug applications (NADA's) filed by A. L. Laboratories, Inc., and International Minerals & Chemical Corp. for use of various bacitracin products in the drinking water and feed of chickens, turkeys, pheasants, quail, swine, and cattle. The withdrawals comply with the conclusions of the National Academy of Sciences/National Research Council's (NAS/NRC) evaluation of the products.

EFFECTIVE DATE: September 24, 1982.

FOR FURTHER INFORMATION CONTACT: Lonnie W. Luther, Bureau of Veterinary Medicine (HFV–147), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4317.

SUPPLEMENTARY INFORMATION: A. L. Laboratories, Inc., 452 Hudson Terrace, Englewood Cliffs, NJ 07632, is sponsor of NADA's 48–592, 65–470, and 98–452. International Minerals & Chemical Corp., P.O. Box 207, Terre Haute, IN 47808, is sponsor of NADA's 46–920 and 65–313. The applications provide for

various uses of bacitracin methylene disalicylate and/or bacitracin zinc for chickens, turkeys, pheasants, quail, swine, and cattle. Applications for use of bacitracin alone or with penicillin were approved before October 10, 1962. Bacitracin (with or without penicillin) was the subject of NAS/NRC notices published in the Federal Register of July 17, 1970 (DESI 0061NV; 35 FR 11531) and October 2, 1970 (DESI 0061NV; 35 FR 15408). In response to the notices, A. L. Laboratories, Inc., and International Minerals & Chemical Corp. filed supplemental NADA's with final printed labeling and requested that the regulations be amended to remove those claims which were NAS/NRC reviewed and found not effective or probably not effective, or which are not otherwise supported by adequate and well-controlled studies. The final printed labeling reflects the conclusions of the NAS/NRC reviews and complies with the other provisions of the regulations.

A. L. Laboratories, Inc., and International Minerals & Chemical Corp. did not submit NADA's or supplements for bacitracin plus penicillin combination premixes, neither firm is marketing a bacitracin/penicillin combination premix, and both firms have waived opportunity for hearing on withdrawal of approval. Therefore, all approved uses of bacitracin plus penicillin in combination are withdrawn by this action because of the absence of effectiveness data to support the combination products and/or claims (these were therapeutic claims which were judged by NAS/NRC to be probably not effective).

Based on new data and information and revised labeling reflecting newer knowledge concerning the bacitracin products and their use, supplemental NADA's were approved and the regulations were amended accordingly. FDA published these approvals on December 9, 1980 (45 FR 81038); April 10, 1981 (46 FR 21362 and 21363); April 14, 1981 (46 FR 21748); April 17, 1981 (46 FR 22361); April 21, 1981 (46 FR 22754); July 17, 1981 (46 FR 37043); August 14, 1981 (46 FR 41041); December 11, 1981 (46 FR 60571); December 15, 1981 (46 FR 61073); April 27, 1982 (47 FR 17985); April 30, 1982 (47 FR 18591); and June 8, 1982 (47 FR 24693). However, not all of the outdated claims and use levels were removed from the regulations when these supplemental NADA's were approved. This document revises the bacitracin regulations for medicated drinking water and feed premixes by removing those claims not approved by NAS/NRC or not otherwise supported by adequate and well-controlled studies. A summary of specific claims being withdrawn follows:

Claim(s) and dose(s) removed	Sections affected	NADA's affected
1. Treatment of chronic respiratory disease (air-sac infection); infectious sinusitis, and blue comb (non-specific infectious enteritis) in poultry:		
(500 grams bacitracin zinc per ton)	510.515(b)(10)	46-820
(200 grams bacitracin methylene disalicylate per ton)	510.515(b)(10)	46-592
2. As an aid in the treatment of chronic respiratory disease (air-sac infection); infectious sinusitis, blue comb (non-specific infectious enteritis, mud fever) in poultry: (100 grams bacitracin per ton).	510.515(b)(17)	46-820; 46-592
3. Prevention of chronic respiratory disease (air-sac infection); blue comb (nonspecific infectious enteritis) in chickens:		
(100 to 200 milligrams per gallon)	548.112a(c)(5)(i)(a)	65-470
(50 to 100 grams per ton)	558.76(e)(1)(iv)1	46-592
	558.78(e)(1)(iv)1	46-820
4. Treatment of chronic respiratory disease (air-sac infection); blue comb (nonspecific infectious enteritis) in chickens:		
(200 to 400 milligrams per gallon)	548.112a(c)(5)(i)(b)	65-470
(100 to 200 grams per ton)	558.76(e)(1)(iv)1	46-592
(100 to 500 grams per ton)	558.78(e)(1)(iv)1	46-820
5. Prevention of infectious sinusitis; blue comb (mud fever) in turkeys:		
(200 milligrams per gallon)	548.112a(c)(5)(iii)(a)	65-470
(50 to 100 grams per ton)	558.76(e)(1)(iv)3	46-592
	558.78(e)(1)(iv)2	46-820
6. Treatment of infectious sinusitis; blue comb (mud fever) in turkeys: (200 to 400 milligrams per gallon).	548.112a(c)(5)(iii)(b)	65-470
7. Chickens, turkeys, and pheasants; growth promotion and feed efficiency: (4 to 50 grams per ton)	558.76(e)(1)(i)1	46-592
	558.78(e)(1)(i)1	46-820
8. Quail, not over 8 weeks of age; growth promotion and feed efficiency: (5 to 20 grams per ton)	558.76(e)(1)(ii)1	46-592
	558.78(e)(1)(ii)1	46-820
9. Swine; growth promotion and feed efficiency: (10 to 50 grams per ton)	558.76(e)(1)(iii)1	46-592
	558.78(e)(1)(iii)1	46-820
10. Chickens; maintaining or increasing egg production: (10 to 50 grams per ton)	558.76(e)(1)(iii)2	46-592
	558.78(e)(1)(iii)2	46-820
11. Swine; aid in prevention of bacterial swine enteritis: (50 to 100 grams per ton)	558.76(e)(1)(iv)2	46-592
	558.78(e)(1)(iv)3	46-820
12. Chickens; maintaining or increasing hatchability of eggs: (100 grams per ton)	558.76(e)(1)(v)1	46-592
	558.78(e)(1)(v)1	46-820
13. Chickens; during times of stress, prevention of diseases named in this section caused by organisms susceptible to bacitracin: (100 grams per ton).	558.76(e)(1)(v)2	46-592
14. Chickens; prevention of early mortality of chicks due to susceptible organisms:	558.78(e)(1)(v)2	46-820
(100 grams per ton)	558.76(e)(1)(v)3	46-592
(100 to 500 grams per ton)	558.78(e)(1)(v)2	46-820
15. Swine; treatment of bacterial swine enteritis: (100 grams per ton)	558.76(e)(1)(v)3	46-592
	558.78(e)(1)(v)3	46-820
16. Chickens; treatment of chronic respiratory disease (air-sac infection); blue comb (nonspecific infectious enteritis):		
100 to 200 of combination (bacitracin methylene disalicylate and penicillin)	558.76(e)(1)(vi)	46-592
100 to 500 of combination (bacitracin zinc and penicillin)	558.78(e)(1)(vi)	46-820
17. Turkeys; treatment of infectious sinusitis; blue comb (mud fever):		
100 to 200 of combination (bacitracin methylene disalicylate and penicillin)	558.76(e)(1)(vi)	46-592
100 to 500 of combination (bacitracin zinc and penicillin)	558.78(e)(1)(vi)	46-820
18. Swine; treatment of bacterial swine enteritis:		
100 of combination (bacitracin methylene disalicylate and penicillin)	558.76(e)(1)(v)	46-592
100 of combination (bacitracin zinc and penicillin)	558.78(e)(1)(v)	46-820

Also, the approved premix levels for A. L. Laboratories' bacitracin methylene disalicylate had not previously been codified (April 30, 1982; 47 FR 18591). This document amends the regulations in 21 CFR 558.76(a) to add those premix

levels (10, 25, 40, and 50 grams per pound).

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

Administrative practice and procedure, Animal foods, Labeling, Reporting requirements.

21 CFR Part 548

Animal drugs, Antibiotics, peptides.

21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Parts 510, 548, and 558 are amended as follows:

PART 510—NEW ANIMAL DRUGS

1. Part 510 is amended in § 510.515 by revising paragraphs (b)(10) and (b)(17)(i), to read as follows:

§ 510.515 Animal feeds bearing or containing new animal drugs subject to the provisions of section 512(n) of the act.

* * * * *

(b) * * *

(10) It is intended for use solely in the treatment of chronic respiratory disease (air-sac infection), infectious sinusitis, and blue comb (nonspecific infectious enteritis) in poultry and/or bacterial swine enteritis; its labeling bears adequate directions and warnings for such use; and it contains, per ton of feed, the equivalent of 100 grams of penicillin. When intended for uses specified in this paragraph, it may also contain, in the amount specified, one, but only one, of the ingredients prescribed by paragraph (a) of this section.

* * * * *

(17)(i) It is intended for use solely as an aid in the treatment of chronic respiratory disease (air-sac infection), infectious sinusitis, blue comb (nonspecific infectious enteritis, mud fever) in poultry; its labeling bears adequate directions and warnings for such use; and it contains not less than 100 grams of chlortetracycline or oxytetracycline or a combination of these two drugs per ton of food.

* * * * *

PART 548—CERTIFIABLE PEPTIDE ANTIBIOTIC DRUGS FOR ANIMAL USE

2. Part 548 is amended in § 548.112a by revising paragraph (c)(5), to read as follows:

§ 548.112a Bacitracin methylene disalicylate soluble powder.

* * * * *

(c) * * *

(5) *Conditions of use.* It is used in drinking water as follows:

(i) *Growing turkeys—(a) Amount per gallon.* 400 milligrams.

(*1*) *Indications for use.* Aid in control of transmissible enteritis complicated by organisms susceptible to bacitracin methylene disalicylate.

(*2*) *Limitations.* Prepare a fresh solution daily.

(*b*) [Reserved]

(ii) *Broiler chickens (a)—Amount per gallon.* 100 milligrams.

(*1*) *Indications for use.* Aid in prevention of necrotic enteritis caused by *Clostridium perfringens* susceptible to bacitracin methylene disalicylate.

(*2*) *Limitations.* Prepare a fresh solution daily.

(*b*) *Amount per gallon.* 200 to 400 milligrams.

(*1*) *Indications for use.* Aid in control of necrotic enteritis caused by *C. perfringens* susceptible to bacitracin methylene disalicylate.

(*2*) *Limitations.* Prepare a fresh solution daily.

(iii) *Swine—(a) Amount per gallon.* One gram.

(*1*) *Indications for use.* For treatment of swine dysentery associated with *Treponema hyodysenteriae.* Administer continuously for 7 days or until signs of dysentery disappear.

(*2*) *Limitations.* Prepare a fresh solution daily. Treatment not to exceed 14 days. If symptoms persist after 4 to 5 days consult a veterinarian. Not to be given to swine that weigh more than 250 pounds.

(*b*) [Reserved]

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

3. Part 558 is amended:

a. In § 558.76 by adding new paragraph (a) and in the table in paragraph (e)(1) by revising items (i) and (ii), by removing items (v), (vii), and (viii) and marking them reserved, and by revising item (ix), to read as follows:

§ 558.76 Bacitracin methylene disalicylate.

(a) *Approvals.* Premix levels of 10, 25, 40, and 50 grams of bacitracin activity per pound granted to No. 046573 in § 510.600(c) of this chapter.

* * * * *

(e) * * *

(1) * * *

Bacitracin methylene disalicylate in grams per ton	Combination in grams per ton	Indications for use	Limitations	Sponsors
(i) 4 to 50		Chickens, turkeys, and pheasants; increased rate of weight gain and improved feed efficiency.[1]		046573
(ii) 5 to 20		Quail not over 6 weeks of age; increased rate of weight gain and improved feed efficiency.[1]		046573
(v) [Reserved]				
(vi)–(viii) [Reserved]				
(ix) 100 to 200		Broiler chickens, as an aid in the control of necrotic enteritis caused or complicated by *Clostridium* spp. or other organisms susceptible to bacitracin.		046573

[1] These conditions are NAS/NRC reviewed and found effective. Applications for these uses may not require effectiveness data as specified by § 514.111 of this chapter, but may require bioequivalency and safety information.

b. In § 558.78 in the table in paragraph (e)(1) by removing items (vii), (viii), and (ix), and by revising items (i), (ii), and (iv), to read as follows:

§ 558.78 Bacitracin zinc.

* * * * *

(e) * * *

(1) * * *

Bacitracin zinc in grams per ton	Combination in grams per ton	Indications for use	Limitations	Sponsors
(i) 4 to 50		Chickens, turkeys, and pheasants; for increased rate of weight gain and improved feed efficiency[1].	Growing chickens, turkeys, and pheasants[1]	012799, 046573
(ii) 5 to 20		Quail; for increased rate of weight gain and improved feed efficiency[1].	Growing quail; feed as the complete feed to starting quail through 5 weeks of age[1].	012799, 046573
(iv) 10 to 50		Swine; increased rate of weight gain and improved feed efficiency.	Growing and finishing swine	046573

[1]These conditions are NAS/NRC reviewed and found effective. Applications for these uses may not require effectiveness data as specified by § 514.111 of this chapter, but may require bioequivalency and safety information.

* * * * *

§ 558.460 [Amended]

c. In § 558.460 *Penicillin* by removing paragraph (f)(2) (iii) and (iv) and marking them reserved.

Effective date. September 24, 1982.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: September 15, 1982.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1952

Approval of Supplements to Oregon State Plan

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Final rule.

SUMMARY: The State of Oregon has submitted various supplements to its Occupational Safety and Health Plan. This document announces the approval of those supplements.

EFFECTIVE DATE: September 24, 1982.

FOR FURTHER INFORMATION CONTACT: Joseph C. Acton, Project Officer, Office of State Programs, Occupational Safety and Health Administration, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-8045.

SUPPLEMENTARY INFORMATION:

Background

Part 1953 of Title 29, Code of Federal Regulations, provides procedures under Section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with Section 18(c) of the Act and Part 1902 of this chapter. On December 28, 1972, notice was published in the **Federal Register** (37 FR 28628) of the approval of the Oregon developmental plan and the adoption of Subpart D to Part 1952 containing the decision and a description of the plan. A notice of approval of a Revised Developmental Schedule was published on April 1, 1974 in the **Federal Register** (39 FR 11881).

Subsequently, the State of Oregon submitted State-initiated program changes, and developmental supplements which provide: administrative rules for inspections, citations, extensions of abatement, etc.; rules governing contested cases before the Workers' Compensation Board; rules of the Bureau of Labor and Industries for handling discrimination complaints; a revised State poster; and amended legislation reflecting changes made to the originally approved Oregon Safe Employment Act.

Review of the State supplements by the Regional and National Offices identified some procedural concerns which needed to be addressed before approval. In response, the Oregon Workers' Compensation Department provided adequate corrections, clarifications, and assurances to address those concerns by letters dated May 24, 1982, August 13, 1982 and August 27, 1982. The supplements with the assurances, etc., were then forwarded by the Regional Administrator to the Assistant Secretary for Occupational Safety and Health (hereinafter called the Assistant Secretary) for approval.

Description of Plan Supplements

1. Oregon Administrative Rules (Chapter 436, Division 46-005 through 750). In accordance with the requirements of 29 CFR 1952.106 (c) and (g) the Oregon Workers' Compensation Department adopted rules including procedures for conduct and scheduling of inspections, issuance of citations, proposal of penalties for violations, extension of abatement dates, employee complaints, variances from the standards and on-site consultations to assist public sector employers in voluntary compliance. Private sector employees are provided on-site consultation services through a separate program funded under section 7(c)(1) of the Act. The State originally submitted regulations effective July 1, 1974, which were subsequently revised to address Federal and State-identified procedural concerns. The State also deleted a requirement that an employee observed violating a standard be named on a citation. The most recent complete revision to these State rules became effective August 1, 1982, and incorporated all earlier revisions. By letters dated May 24, 1982, August 13, 1982, and August 27, 1982, to the Regional Administrator, the State provided assurances in response to Federal review and comment that an employer must prove that an extension of abatement application is proper if an administrative hearing is held on his application, that notice and opportunity to comment is provided to affected employees when the director considers discretionary amendment of a citation which has not been appealed in a case of manifest injustice, that employee complaints are assured of confidentiality, and that in imminent danger situations where a red tag is issued to prevent employee exposure a citation will also be issued for any violations of standards.

2. Rules of Practice and Procedure for Contested Cases Under the Oregon Safe Employment Act (Chapter 438, Workers' Compensation Board, Division 85-006 through 870). In accordance with the requirements of 29 CFR 1952.108(c), Oregon adopted rules effective December 20, 1973, governing the review of contested cases, which subsequently were revised to address Federal and State-identified procedural concerns. The revised State rules under this chapter became effective August 2, 1982. In response to Federal review and comment on the contested case rules,

the State Workers' Compensation Department provided under its administrative rules effective August 13, 1982 that settlement agreements of contested cases must be posted for employees before becoming final and that notices of hearings before the Board must also be posted for employees.

3. Complaint Procedures and Substantive Rules, Opposition to Health and Safety Hazards (Chapter 839, Oregon Administrative Rules, Division 3 and 6—Bureau of Labor and Industries). In accordance with 29 CFR 1902.4(v), the State's plan provides for complaints of discrimination against an employee for exercising rights under the Oregon Safe Employment Act to be enforced by the Bureau of Labor and Industries. By letter dated August 13, 1982, to the Regional Administrator, the State Bureau of Labor and Industries provided assurance in response to Federal comment that oral complaints of discrimination are considered timely and investigated if followed by a written complaint. The State rules under Division 3 became effective June 25, 1982, and those rules under Division 6, became effective March 12, 1982.

4. Oregon State Poster. The State submitted a revised poster which references alternate filing of discrimination complaints in accordance with assurances provided with its earlier poster approved November 5, 1975 (40 FR 52367).

5. Oregon Safe Employment Act. The Oregon Safe Employment Act which contained changes to the enabling legislation outlined in its developmental plan was approved June 3, 1975 (40 FR 24522). Revisions to the legislation were made in 1975, 1977, and 1981 and included changes which renamed the designated enforcement agency from the Workmen's Compensation Board to the Workers' Compensation Department, established a director for the department, provided authority to require employers of ten or more workers to establish safety and health committees when an employer exceeds a certain lost work day case incidence rate for its industry, and restricted first-instance penalties for other-than-serious violations in labor camps.

Location of the Plan and Its Supplements for Inspection and Copying

A copy of the State's plan and the supplements may be inspected and copied during normal business hours at the following locations:

Office of the Director of Federal Compliance and State Programs, Occupational Safety and Health Administration, Room N-3619, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210.

Office of the Regional Administrator, Occupational Safety and Health Administration, Room 6003, Federal Office Building, 909 First Avenue, Seattle, Washington 98174.

Office of Director, Workers' Compensation Department, Labor and Industries Building, Salem, Oregon 97310

Public Participation

Under 29 CFR 1953.2(c) of this chapter, the Assistant Secretary for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) may prescribe alternative procedures to expedite the review process or for any good cause which may be consistent with applicable law. The Assistant Secretary finds that the Oregon regulations for complaints of discrimination under the Oregon Safe Employment Act were adopted in accordance with procedural requirements of State law and consistent with commitments made in the approved plan. Accordingly, it is found that further public participation would be unnecessary.

List of Subjects in 29 CFR Part 1952

Intergovernmental relations, Law enforcement, Occupational safety and health.

Decision

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

After careful consideration, the Oregon plan supplements outlined above are approved under Part 1953 of this chapter. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. Accordingly, § 1952.109 of 29 CFR Part 1952 is amended to reflect the completion of developmental steps and the revision of previously approved developmental steps by adding a paragraph (a)(3), revising paragraph (b), and adding new paragraphs (i), (j) and (k) to the list of completed developmental steps as follows:

§ 1952.109 Completed developmental steps.

(a) * * *

(3) The Oregon Safe Employment Act as last amended in the 1981 legislative session included changes renaming the designated enforcement agency, establishment of a director for that agency, authority for requiring certain employers to establish safety and health committees, and limiting penalties for other-than-serious violations in temporary labor camps. The Assistant Secretary approved the amended legislation on September 15, 1982.

(b) In accordance with the requirements of 29 CFR 1952.10 the Oregon State Poster with assurance submitted on September 2, 1975, was approved by the Assistant Secretary on November 5, 1975. The State's revised poster which implemented the assurance was approved by the Assistant Secretary on September 15, 1982.

* * * * *

(i) In accordance with § 1952.108 (c) and (g), the Oregon Workers' Compensation Department adopted administrative regulations providing procedures for conduct and scheduling of inspections, extension of abatement dates, variances, employee complaints, posting of citations and notices, and voluntary compliance consultation in the public sector, effective July 1, 1974, with revisions incorporated in rules effective August 1, 1982 and August 13, 1982. These regulations with supplemental assurances were approved by the Assistant Secretary on September 15, 1982.

(j) In accordance with § 1952.108(c) the Oregon Workers' Compensation Board adopted rules effective December 20, 1973, governing practice and procedures for contested cases with revisions incorporated in rules effective August 2, 1982. These rules were approved by the Assistant Secretary on September 15, 1982.

(k) The Oregon Workers' Compensation Department submitted rules of the Oregon Bureau of Labor and Industries, the agency asigned responsibility for investigation of complaints of discrimination under the Oregon Safe Employment Act. These regulations and rule effective June 21, 1982, and March 12, 1982 with supplemental assurance were approved by the Assistant Secretary on September 15, 1982.

(Sec. 18, Pub. L. 91-596; 84 Stat. 1608; (29 U.S.C. 667))

Signed in Portland, Oregon, this 15th day of September, 1982.

Thorne G. Auchter,

Assistant Secretary of Labor.

BILLING CODE 4510-26-M

29 CFR Part 1952

Certification of Completion of Developmental Steps for Oregon State Plan

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Final rule.

SUMMARY: The State of Oregon on or before December 28, 1975, submitted documentation attesting to the completion of all structural and developmental aspects of its approved State plan. After extensive review of those documents and subsequent revisions, and opportunity for State correction, all developmental plan supplements have now been approved. This notice certifies this completion and the beginning of the final evaluation phase of State plan development. This certification attests only to the fact that Oregon now has in place those structural components necessary for an effective program. It renders no judgment on the adequacy of the State's actual performance.

EFFECTIVE DATE: September 24, 1982.

FOR FURTHER INFORMATION CONTACT: Joseph C. Acton, Project Officer, Office of State Programs, Occupational Safety and Health Administration, 200 Constitution Avenue, NW., Washington, D.C. 20210, (202) 523–8045.

SUPPLEMENTARY INFORMATION:

Background

Section 18 of the Occupational Safety and Health Act of 1970 (the "Act," 29 U.S.C. 667) provides that States which desire to assume responsibility for the development and enforcement of occupational safety and health standards shall submit for Federal approval a State plan for such development and enforcement. Part 1902 of Title 29, Code of Federal Regulations, sets forth procedures under which the Assistant Secretary of Labor for Occupational Safety and Health ("Assistant Secretary") shall approve such plans. Under the Act and regulations, plan approval is essentially a two step procedure. First a State must submit its plan for an initial determination under Section 18(b) of the Act. If the Assistant Secretary, after reviewing the State submission determines that the plan satisfies or will satisfy within a maximum three year development period the criteria set forth in Section 18(c) of the Act, a decision of "initial approval" is issued and the State may begin enforcement of its safety and health standards in accordance with the plan and with the maintenance of concurrent enforcement authority by the Occupational Safety and Health Administration (OSHA).

A State plan may receive initial approval even though at the time of submission not all essential components of the plan are in place. Pursuant to 29 CFR 1902.2(b), the Assistant Secretary may initially approve the submission as a "developmental plan," and a schedule within which the State must complete specified "developmental steps" is issued as part of the initial approval decision.

When the Assistant Secretary finds that the State has completed all developmental steps specified in the initial approval decision, a notice of such completion is published in the **Federal Register** (see 29 CFR 1902.34 and 1902.35). Certification of completion of developmental steps initiates a thorough evaluation of the State plan by the Assistant Secretary to determine on the basis of actual operations, whether the plan adequately provides safety and health protection to the employees in the State. Certification does not render judgment as to the adequacy of State performance.

The second step of the approval process is final approval of the plan under Section 18(e) of the Act and 29 CFR Part 1902. Final approval may not be granted until at least three years after initial approval and one year after certification of completion of developmental steps. Thereafter, when the Assistant Secretary determines on the basis of actual performance under the plan that the criteria are being met, a decision of final approval may be granted. This decision is based on a thorough evaluation of the State plan under Section 18(e) of the Act and reflects a determination that on the basis of actual operations the plan adequately protects the safety and health of the State's workers. In making this evaluation under Section 18(e), the Assistant Secretary must monitor the continuing development of the State program, applying criteria which assure that the State will have an at least as effective program for achieving the goals of the Act.

On December 28, 1972, a notice was published in the **Federal Register** (37 FR 28628) initially approving the Oregon developmental plan and adopting Subpart D of Part 1952 containing the decision, a description of the plan and the developmental schedule. Approval of a revised developmental schedule was published in the **Federal Register** on April 1, 1974 (39 FR 11861). During the three year period ending December 28, 1975, following commencement of State operations, the Oregon Workers' Compensation Department submitted documentation attesting to the completion of each State developmental commitment for review and approval as provided in 29 CFR Part 1953. Following Agency review and subsequent explanation and modification of the State's submission in response to Federal comment, the Assistant Secretary has approved the completion of all individual developmental steps.

Completion of Developmental Steps

All developmental steps specified in the December 28, 1972, notice of initial approval and other relevant steps not explicitly referred to have been completed as follows:

(a) In accordance with the requirements of 29 CFR 1952.108(a) the Oregon Safe Employment Act (S.B. 44, ORS Chapter 654) effective July 1, 1973, was approved by the Assistant Secretary on June 3, 1975 (40 FR 52388). Revised legislation as last amended by the legislature in 1981 was approved by the Assistant Secretary on September 15, 1982.

(b) In accordance with the requirements of 29 CFR 1952.10 the Oregon State Poster with assurance submitted on September 2, 1975, was approved by the Assistant Secretary on November 5, 1975. The State's revised poster which implemented the assurance was approved by the Assistant Secretary on September 15, 1982.

(c) In accordance with 29 CFR 1952.108(c) Oregon has completed its training of State inspection personnel as described, which completion was approved by the Assistant Secretary on February 24, 1976 (41 FR 8955).

(d) In accordance with 29 CFR 1952.108(d) Oregon has developed and implemented a computerized Management Information System which was approved by the Assistant Secretary on February 24, 1976 (41 FR 8955). Oregon has since begun participation in a Unified Federal-State Management Information System.

(e) In accordance with 29 CFR 1952.108(f) Oregon has developed and implemented an Affirmative Action Plan which was approved by the Assistant Secretary on June 8, 1976 (41 FR 23671).

(f) The personnel operations of the Oregon Workers' Compensation Department under merit system rules were certified by the Director of the Seattle Regional Office, United States Office of Personnel Management (previously U.S. Civil Service Commission) as being in accordance with merit system standards by letter of January 15, 1976.

(g) In accordance with 29 CFR 1952.108(e) a Statement of Goals and Objectives has been developed by the State and was approved by the Assistant Secretary on June 24, 1977 (42 FR 34281).

(h) The Oregon State Compliance Manual modeled after the Federal Field Operations Manual was developed by the State and was approved by the Assistant Secretary on June 24, 1977 (42 FR 34281).

(i) In accordance with 29 CFR 1952.108(c) Oregon has adopted administrative regulations providing procedures for conduct and scheduling of inspections, extension of abatement dates, variances, employee complaints, posting of citations and notices, effective July 1, 1974, with revisions incorporated in rules effective August 1, 1982, Likewise, the Workers' Compensation Board adopted rules effective December 20, 1973, governing practice and procedures for contested cases with revisions incorporated in rules effective August 2, 1982. Also, the Oregon Bureau of Labor and Industries which was assigned responsibility for investigations of complaints of discrimination under the Oregon Safe Employment Act provided its rules effective June 21, 1981, and March 21, 1982. These regulations and rules with supplemental assurances dated May 24, 1982, August 13, 1982 and August 27, 1982 were approved by the Assistant Secretary on September 15, 1982.

(j) In accordance with the requirements of 29 CFR 1952.4, Oregon State recordkeeping and reporting regulations adopted on June 4, 1974, and revised on January 1, 1978, and September 24, 1979, were approved by the Assistant Secretary on August 28, 1980.

(k) Oregon occupational safety and health standards as effective as Federal standards have been promulgated and subsequently amended to reflect changes in and additions to Federal standards, and approved by the Regional Administrator on: October 25, 1974 (39 FR 38037), January 16, 1975 (40 FR 2885), August 22, 1975 (40 FR 36817), September 18, 1975 (40 FR 43102), October 30, 1975 (40 FR 56583), December 12, 1975 (40 FR 57804), December 18, 1975 (40 FR 58704), February 17, 1976 (41 FR 7186), March 16, 1976 (41 FR 11087), April 14, 1976 (43 FR 15806), July 28, 1976 (43 FR 33834), August 8, 1976 (43 FR 35125), May 18, 1979 (44 FR 29174), December 11, 1979 (44 FR 71469), June 27, 1980 (45 FR 43483), July 15, 1980 (45 FR 47545), November 7, 1980 (45 FR 74104), December 9, 1980 (45 FR 81132), February 27, 1981 (46 FR 14489), May 1, 1981 (46 FR 24750), September 22, 1981 (46 FR 46856), October 13, 1981 (46 FR 50444), and May 25, 1982 (47 FR 22622).

(l) In accordance with the requirements of 29 CFR 1952.108(g), the State of Oregon developed and implemented administrative rules relative to an on-site voluntary compliance consultation program which is limited to the public sector, which were approved by the Assistant Secretary on September 15, 1982. (The State operates a voluntary compliance consultation program for the private sector under section 7(c)(1) of the Occupational Safety and Health Act in accordance with the regulations of 29 CFR Part 1908.)

This certification covers all occupational safety and health issues covered under the Federal program (with the exception of the longshoring industry) as well as the State's program covering State and local government employees.

Location of the Plan and Its Supplements for Inspection and Copying

Copies of the supplements along with the approved plan, may be inspected and copied during normal business hours at the following locations:

Office of the Director of Federal Compliance and State Programs, Occupational Safety and Health Administration, Room N-3619, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210
Office of the Regional Administrator, Occupational Safety and Health Administration, Room 6003, Federal Office Building, 909 First Avenue, Seattle, Washington 98174
Office of the Director, Workers' Compensation Department, Labor and Industries Building, Salem, Oregon 97310

Effect of Certification

The Oregon plan is certified effective September 15, 1982, as having completed all developmental steps on or before December 28, 1975. This certification attests to structural completion, but does not render judgment on adequacy of performance. The Oregon occupational safety and health program will be monitored and evaluated for a period of not less than one year after publication of this certification to determine whether the State program in operation provides for an effective program of enforcement. The Assistant Secretary will then determine whether Federal authority should be withdrawn with respect to issues covered by the plan pursuant to Section 18(e) of the Act.

Level of Federal Enforcement

In accordance with 29 CFR 1902.38 Federal enforcement authority under Sections 5(a)(2), 8, 9, 10, 13, and 17 of the Act (29 U.S.C. 654(a)(2), 657, 658, 659, 662, and 666) and Federal standards authority under Section 6 of the Act (29 U.S.C. 655) will not be relinquished during the evaluation period. However, under the terms of an operational status agreement entered into between Occupational Safety and Health Administration and the Oregon Workers' Compensation Department effective April 28, 1975 (40 FR 18428) and as amended effective August 2, 1977 (42 FR 40268) and August 8, 1978 (43 FR 36624), the exercise of this authority will continue to be limited to, among other things: complaints about employee discrimination; enforcement of new Federal standards including temporary emergency standards until adopted by the State, enforcement of standards in the Warm Springs Indian Reservation and in the longshoring industry which are excluded from plan coverage; investigations for fulfillment of monitoring obligations under Section 18(e) and (f) of the Act; and abatement dates from OSHA-issued citations, which extend beyond the date of State assumption of inspection responsibility. Pursuant to 29 CFR 1954.3(f)(1) the agreement provides for resumption of Federal enforcement activity for failure to substantially comply with the provisions of the agreement or as a result of evaluation or other factors.

List of Subjects in Part 1952

Intergovernmental relations, Law enforcement, Occupational safety and health.

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

In accordance with this certification 29 CFR 1952.109 is hereby amended to reflect successful completion of the developmental period by changing the title of the section and by adding a paragraph (l) as follows:

§ 1952.109 Completion of developmental steps and certification.

* * * * *

(l) In accordance with § 1902.34 of this chapter, the Oregon occupational safety and health plan was certified effective September 15, 1982, as having completed all developmental steps specified in the plan as approved on December 28, 1972, on or before December 28, 1975. This certification attests to structural

completion, but does not render judgment on adequacy of performance.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Portland, Oregon, this 15th day of September 1982.

Thorne G. Auchter,

Assistant Secretary of Labor.

BILLING CODE 4510-26-M

DEPARTMENT OF DEFENSE

Department of the Air Force

32 CFR Part 888e

Disposition of Conscientious Objectors

AGENCY: Department of the Air Force, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Air Force is amending its military personnel regulations by removing Part 888e of Chapter VII, Title 32. The source document, Air Force Regulation (AFR) 35-24 has been revised. It is intended for internal guidance and has limited applicability to the general public. This action is a result of departmental review in an effort to insure that only regulations which substantially affect the public are maintained in the Air Force portion of the Code of Federal Regulations.

EFFECTIVE DATE: September 24, 1982.

FOR FURTHER INFORMATION CONTACT: Ms Hughes, AF Manpower and Personnel Center, CAKO, Randolph AFB, TX 78148, (512) 652-2148.

SUPPLEMENTARY INFORMATION:

List of Subjects in 32 CFR Part 888e

Conscientious objectors, Investigations, Military personnel, Selective service system.

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Accordingly, 32 CFR is amended by removing Part 888e.

(10 U.S.C. 8012.)

Winnibel F. Holmes,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910-01-M

VETERANS ADMINISTRATION

38 CFR Part 21

Definition of Program of Education

AGENCY: Veterans Administration.

ACTION: Final regulation.

SUMMARY: This regulation updates the definition of a program of education and makes other minor, technical changes. Previously, the regulation made an incorrect reference to a section of the United States Code. This regulation now agrees with the law.

EFFECTIVE DATE: September 7, 1982.

FOR FURTHER INFORMATION CONTACT: June C. Schaeffer (225), Assistant Director for Policy and Program Administration, Education Service, Department of Veterans Benefits, Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420 (202-389-2092).

SUPPLEMENTARY INFORMATION: On pages 24603 and 24604 of the **Federal Register** of June 7, 1982, there was published notice of intent to amend Part 21 to make technical corrections in the definition of a program of education.

Interested people were given 30 days in which to submit comments, suggestions or objections regarding the proposal. The Veterans Administration received no comments. Accordingly, the agency is adopting this proposal.

The Veterans Administration has determined that this regulation does not contain a major rule as that term is defined by Executive Order 12291, Federal Regulation. The annual effect on the economy will be less than $100 million. The regulation will not result in any major increases in costs or prices for anyone. It will have no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Administrator of Veterans' Affairs hereby certifies that this regulation will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (RFA) 5 U.S.C. 601-612. This regulation is exempt under 5 U.S.C. 605(b) from the initial and final regulatory flexibility analyses requirements of sections 603 and 604. This certification is based on the fact that this regulation will affect only individual benefit recipients. They will have no significant impact on small entities, i.e. small businesses, small private and nonprofit organizations, and small governmental jurisdictions.

(Catalog of Federal Domestic Assistance number for the program affected by the amended regulation is 64.111.)

List of Subjects in 38 CFR Part 21

Civil rights, Claims, Education, Grant programs—education, Loan programs—education, Reporting requirements, Schools, Veterans, Vocational education, Vocational rehabilitation.

Approved: September 7, 1982.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

The Veterans Administration amends 38 CFR Part 21 as follows:

Section 21.4230 is revised to read as follows:

§ 21.4230 Requirements.

(a) *Definition.* A program of education—(1) Is a combination of subjects or unit courses pursued at a school which is generally accepted as necessary to meet requirements for a predetermined educational, professional or vocational objective;

(2) Under chapter 34 may consist of subjects or courses which fulfill requirements for more than one objective if all objectives pursued are generally recognized as being related to a single career field; or

(3) Is any unit course or subject or combination of courses or subjects, pursued by an eligible veteran at an educational institution, required by the Administrator of the Small Business Administration as a condition to obtaining financial assistance under the provisions of 15 U.S.C. 636. (38 U.S.C. 1652(b), 1670, 1691(a))

(d) *Educational.* An educational objective is one that leads to the awarding of a diploma, degree or certificate which reflects educational attainment.

(c) *Professional or vocational.* A professional or vocational objective is one that leads to an occupation. It may include educational objectives essential to prepare for the chosen occupation. When a program consists of a series of courses not leading to an educational objective, such courses must be directed toward attainment of a designated professional or vocational objective.

(d) *Selection—Chapter 34.* The Veterans Administration will approve a program of education under Chapter 34 selected by an eligible veteran or serviceperson if it meets the requirements of paragraph (a) of this section; has an objective as described in paragraph (b) or (c) of this section; the courses or subjects in the program are approved for Veterans Administration training; and the veteran or serviceperson is not already qualified for the objective of the program, except: (38 U.S.C. 1671)

(1) A course or courses at the secondary school level for persons who have previously received a secondary school diploma or an equivalency certificate and deficiency courses needed or required to qualify for an educational or training program may be authorized under the provisions of § 21.4235, and

(2) An eligible veteran may receive up to 6 months educational assistance, or the equivalent in part-time assistance, for training in a program of education in which the veteran is already qualified, provided that the program pursued is refresher training to permit the veteran to update knowledge and skills and to be instructed in the technological advances which have occurred in the veteran's field of employment during and since the veteran's period of service. The program of education must be a course to be taken after the date of the veteran's discharge or release from active duty. It may be to update skills learned either during or prior to service but not for skills first acquired after discharge from service. Educational assistance allowance paid under this paragraph (d)(2) will be charged against the veteran's basic entitlement.

(e) *Provisional—Chapter 35—child.* When the Veterans Administration approves an application for educational assistance under chapter 35, the Veterans Administration will inform the eligible child and, if a minor, the parent or guardian also of the need to develop a program of education consistent with paragraphs (a) and (b) or (c) of this section. An educational plan may be submitted and approved without counseling if it meets the requirements of paragraphs (a) and (b) or (c) of this section. (38 U.S.C. 1713, 1720)

(f) *Selection—Chapter 35—spouse or surviving spouse.* The Veterans Administration will approve a program of educational assistance selected by an eligible spouse or surviving spouse if—

(1) It meets the requirements of paragraphs (a) and (b) or (c) of this section, and

(2) The individual is not already qualified for the objective of the program of education. (38 U.S.C. 1721)

BILLING CODE 8320-01-M

POSTAL SERVICE

39 CFR Part 601

Procurement of Property and Services; Amendments to Postal Contracting Manual

AGENCY: Postal Service.

ACTION: Amendments to the Postal Contracting Manual.

SUMMARY: The Postal Service announces revisions of section 1, part 4, of the Postal Contracting Manual, which deals with the authority and responsibility for Postal Service procurement. In general, contracting authority of postal officers has been increased, and additional delegations of contracting authority are made to certain offices. Also, the text of this part of the Manual has been revised for greater readability, and certain renumbering of the sections has been done.

EFFECTIVE DATE: September 13, 1982.

FOR FURTHER INFORMATION CONTACT: Eugene A. Keller, (202) 245-4818.

SUPPLEMENTARY INFORMATION: The Postal Contracting Manual, which has been incorporated by reference in the Code of Federal Regulations (See 39 CFR 601.100) has been amended by the issuance of PCM Circular 82-1, dated September 13, 1982.

In accordance with 39 CFR 601.105, notice of these changes is hereby published in the **Federal Register** and the text of the changes is filed with the Director, Office of the Federal Register. Subscribers to the basic manual will receive these amendments from the Postal Service. (For other availability of the Postal Contracting Manual, see 39 CFR 601.104).

List of Subjects in 39 CFR Part 601

Government procurement.

Explanation of these amendments to the Postal Contracting Manual follows:

Explanation of Changes

This circular revises *Postal Contracting Manual,* Section 1, Part 4, Procurement Responsibility and Authority. The text was revised for readability and most of the paragraph numbers do not coincide with the old. Those that have been renumbered are:

Ex. 1-401.1a includes what was 1-407.1 (d)-(h), 1-407.2 (a)(3)-(b), and 1-407.3
Ex. 1-401.1b includes what was 1-407.2(d).
1-401.2b was 1-407.4 (a), (c), (d), and (e).
1-401.2c was 1-407.4(b).
1-401.3 was 1-407.1 (a)-(c).
1-402 was 1-401.
1-402.2 was 1-403.3.
1-403.1 was 1-402.
1-403.2 was 1-403.1 and 1-406.
1-403.3 was 1-403.2.
1-407.4 was 1-407.2(a) (1) and (2).

Policy changes are:

1. The Assistant for Procurement Policy is now the Senior Advisor, Procurement Policies.

2. The dollar thresholds for legal reviews of contracts increase by $50,000, except the threshold for solicitations for construction contracts which increases from $25,000 to $100,000.

3. Show-cause letters must now be submitted for legal review.

4. Contracting authority changes as follows:

a. The limit on the RPMG's authority to contract for A/E-services increases from $300,000 to $500,000.

b. The limit on the RPMG's authority for lease acquisition increases from $300,000 to $500,000.

c. The MSC Managers and the Postmasters for Chicago, Washington, DC, and Los Angeles now have authority for contract postal unit contracting.

d. The Managers of the area supply center Contract Branches now have direct contracting authority.

e. The Director, Office of Real Estate, has real estate acquisition authority (formerly held by the General Managers, Facilities Procurement Divisions, and the Director, Office of Design and Construction).

f. The General Managers of the regional Procurement Divisions, now have direct contracting authority.

g. The Managers, Procurement Services Offices, now have direct contracting authority.

h. Inspectors-in-Charge receive local purchasing authority ($1,500).

This circular obsoletes the following *Postal Bulletin* notices:

1. PB 21348, 4-22-82, p. 7, "Contracting Authority for CPUs."

2. PB 21362, 7-29-82, p. 2, "Contracting Authorities—Summary."

(5 U.S.C. 552(a), 39 U.S.C. 401, 404, 410, 411)

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

Federal Register
Vol. 47, No. 186
Friday, September 24, 1982

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 315

Career and Career-Conditional Employment

AGENCY: Office of Personnel Management.

ACTION: Proposed regulations.

SUMMARY: These proposed regulations establish an authority under which persons having at least 1 year of service under the Panama Canal Employment System (PCES) may be given noncompetitive career-conditional or career appointments in the competitive civil service.

DATE: Comments must be received on or before November 23, 1982.

ADDRESS: Written comments may be sent to Richard B. Post, Associate Director, Staffing Group, Office of Personnel Management, 1900 E Street, NW., Washington, D.C. 20415, or delivered to Room 6F08, 1900 E Street, NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: William Bohling, Noncompetitive Staffing Branch, (202) 632–6000.

SUPPLEMENTARY INFORMATION: Section 1212 of Public Law 96–70, the Panama Canal Act of 1979, provides for replacement of the Canal Zone Merit System by the Panama Canal Employment System (PCES), and further provides for appropriate interchange of United States citizen personnel between the PCES and the competitive civil service. The PCES became effective March 31, 1982. Its personnel regulations on most subjects are patterned on or require PCES agencies to follow those of the competitive civil service. The only significant differences between the PCES and the competitive civil service are: (1) That 11 points are added to the scores of Panamanian eligibles on registers although veterans preference eligibles still receive 5 or 10 extra points and veterans preference applies within score groups; (2) that basic pay is based on local pay rates; (3) that PCES regulations contain no provisions relating to labor-management relations; and (4) that service of non-Panamanian employees appointed in the PCES on or after October 1, 1979, is limited to 5 years.

The proposed regulations provide comparable noncompetitive appointment eligibility for present and former employees of the PCES and its predecessor, the Canal Zone Merit System. Basic eligibility for noncompetitive appointment is established after 1 year of service under a career-conditional appointment in either system. Eligible employees who are entitled to veterans preference or who have 3 years of substantially continuous service under the PCES, the Canal Zone Merit System, or a combination of the two may be noncompetitively appointed in the competitive civil service at any time. Other eligible employees may be noncompetitively appointed within 3 years after separation from the PCES or Canal Zone Merit System. Service in Panama in a position excluded from the Canal Zone Merit System or the PCES, which immediately follows qualifying service under one or both of those systems, may extend noncompetitive eligibility.

In proposing regulations which extend to PCES employees the noncompetitive appointment benefits previously afforded to employees of the Canal Zone Merit System, OPM recognizes both the close parallel between the PCES, the Canal Zone Merit System, and the competitive civil service and the intent of the Panama Canal Treaty and Panama Canal Act of 1979 to maintain as much as possible the level of benefits available to U.S. employees in Panama before adoption of the Treaty.

E.O. 12291, Federal Regulation

OPM had determined that this is not a major rule as defined under Section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because it affects only the procedures used to appoint certain employees in Federal agencies.

List of Subjects in 5 CFR Part 315

Government employees.

Office of Personnel Management,
Donald J. Devine,
Director.

PART 315—CAREER AND CAREER-CONDITIONAL EMPLOYMENT

Accordingly, the U.S. Office of Personnel Management proposes to revise 5 CFR 315.601 to read as follows:

§ 315.601 Appointment of former employees of Canal Zone Merit System and Panama Canal Employment System.

(a) *Agency authority.* An agency may appoint noncompetitively, for other than temporary or term employment, a United States citizen separated from a career or career-conditional appointment under the Canal Zone Merit System, which was in effect before March 31, 1982, or under the Panama Canal Employment System, which became effective on March 31, 1982.

(b) *Service requirement.* An agency may appoint such a former employee under this section only when, immediately prior to separation from a qualifying appointment, the employee served continuously for at least 1 year under a nontemporary appointment in the Canal Zone Merit System, the Panama Canal Employment System, or a combination of nontemporary appointments in the two systems.

(c) *Time limits.* (1) There is no time limit on the appointment under this section of an employee who:

(i) Is a preference eligible; or

(ii) Has completed at least 3 years of service, which did not include any break in service longer than 30 days, under one or more career-conditional or career appointments in the Canal Zone Merit System and/or the Panama Canal Employment System.

(2) An agency may appoint under this section an employee who does not meet the conditions in (c)(1) above provided no more than 3 years have elapsed since:

(i) separation from a qualifying Canal Zone Merit System or Panama Canal Employment System appointment; or

(ii) separation from service in Panama in a position excluded from the Canal Zone Merit System or Panama Canal Employment System, when such service immediately followed service under a qualifying appointment in one of those systems.

(d) *Tenure on appointment.* (1) On appointment under paragraph (a) of this section, a former career employee of the Canal Zone Merit System or Panama Canal Employment System becomes a career employee.

(2) A former Canal Zone Merit System and/or Panama Canal Employment System employee whose service from the date of career-conditional appointment in the Canal Zone Merit System or Panama Canal Employment System through the date of noncompetitive appointment under this section, inclusive, does not include any break in service of more than 30 days and totals at least 3 years becomes a career employee.

(3) All other former Canal Zone Merit System and Panama Canal Employment System employees become career-conditional employees.

(e) *Acquisition of competitive status.* A person appointed under paragraph (a) of this section automatically acquires a competitive status:

(1) On appointment, if he or she has satisfactorily completed a 1-year probationary period under the Canal Zone Merit System and/or the Panama Canal Employment System.

(2) On satisfactory completion of probation in accordance with § 315.801(a)(3) if he or she had not completed a 1-year probationary period under the Canal Zone Merit System or Panama Canal Employment System.

(Pub. L. 96–70)

BILLING CODE 6325-01-M

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 989

Raisins Produced From Grapes Grown in California; Proposed Increase in Payment Rates for Services With Respect To Reserve Tonnage Raisins

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice proposes to increase the rates of payment to raisin handlers for receiving, storing, fumigating, and handling reserve tonnage raisins during and beyond the crop year of acquisition. The proposal is based on a recommendation of the Raisin Administrative Committee, which works with the Department in administering the marketing agreement and order program for California raisins.

DATES: Comments must be received by October 12, 1982.

ADDRESSES: Send two copies of comments to the Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250, where they will be available for public inspection during regular business hours.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250 (202) 447–5697.

SUPPLEMENTARY INFORMATION:

This proposal has been reviewed under USDA guidelines implementing Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been determined to be a "non-major" rule.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would result in only minimal costs being incurred by the regulated 20 handlers.

J. S. Miller, has determined that a comment period of less than 60 days is warranted so the Committee can begin paying raisin handlers and other persons as soon as practicable for those services at the increased rates.

To initiate the proposed rate increases, it is necessary to amend § 989.401 (a)(1) and (b) of Subpart–Schedule of Payments (7 CFR 989.401; 46 FR 37054). This action would be taken under § 989.66(f) of the marketing agreement and Order No. 989 (7 CFR 989), both as amended, regulating the handling of raisins produced from grapes grown in California (hereinafter referred to collectively as the "order"). The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposed action would increase handler payment rates for: (1) Receiving, storing, fumigating, and handling reserve tonnage raisins during the crop year of acquisition from $32.50 to $36 per ton; and (2) holding reserve tonnage raisins beyond the crop year of acquisition from $1.62 to $1.80 per ton for each month of the three-month period ending November 30, and from 84 cents to 93 cents per ton each month of the next nine months.

Funds to pay these costs are deducted from proceeds from the sale of reserve tonnage raisins held by handlers for the account of the Committee. Net proceeds from such sales are remitted to equity holders in the reserve pool.

List of Subjects in 7 CFR Part 989

Marketing Agreements and Orders, Grapes, Raisins, and California.

PART 989—DISPOSITION OF CONSCIENTIOUS OBJECTORS [REMOVED]

The proposal to revise § 989.401 (a)(1) and (b) of Subpart—Schedule of Payments (7 CFR 989.401; 46 FR 37054) is as follows:

Subpart—Schedule of Payments

§ 989.401 Payments for services performed with respect to reserve tonnage raisins.

(a) *Payment for crop year of acquisition*—(1) *Receiving, storing, fumigating, and handling.* Each handler shall, beginning August 15, 1982, be compensated at the rate of $36 per ton (natural condition weight at the time of acquisition) for receiving, storing, fumigating, and handling the reserve tonnage raisins, as determined by the final reserve tonnage percentage, acquired during a particular crop year and held by him for the account of the Raisin Administrative Committee during all any part of the same crop year: *Provided,* That reserve tonnage acquired during the 1981–82 crop year and held as of August 15, 1982, shall be comnpensated at the rate of $36 per ton (natural condition weight at the time of acquisition).

(2) * * *

(b) *Additional payment for reserve tonnage raisins held beyond the crop year of acquisition.* Additional payment for reserve tonnage raisins held beyond the crop year of acquisition shall be made in accordance with this paragraph. Each handler holding such raisins for the account of the Committee on August 15 and the following September 1 shall be compensated for storing, handling, and fumigating such raisins at the rate of $1.80 per ton per month, or any part thereof, for each month of the three-month period ending November 30, and 93 cents per ton per month, or any part thereof, for each month of the next nine months. Such services shall be completed so that the Committee is assured that the raisins are maintained in good condition.

* * * * *

Dated: September 20, 1982.

D. S. Kuryloski

Deputy Director, Fruit and Vegetable Division.

[FR Doc. 82-26362 Filed 9-23-82; 8:45 am]
BILLING CODE 3410-02-M

Commodity Credit Corporation

7 CFR Part 1430

Dairy Products

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule sets forth a procedure for implementing certain changes in the dairy price support program. Such changes are authorized by the Omnibus Budget Reconciliation Act of 1982, which provides that during the period of October 1, 1982, through September 30, 1985, the Secretary of Agriculture may provide for the deduction of 50 cents per hundredweight from the sale of all milk marketed commercially by producers. The deductions would be remitted to the Commodity Credit Corporation to offset a portion of the cost of the price support program. Because of the substantial purchases of dairy products by the U.S. Government under the support program, the Secretary has determined that the deductions should become effective on December 1, 1982. Comments on whether the dairy collection plan should be implemented in the manner set forth in this proposed rule are invited.

DATE. Comments should be received by the Department by November 8, 1982, to be assured of consideration.

ADDRESS: Written comments should be sent to the Director, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Maurice M. Martin, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447–7183.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed in accordance with Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been classified as a "major" action since the rule would result in an annual effect on the economy of $100 million or more.

The title and number of the Federal Assistance program to which this proposed rule applies are: Title—Commodity Loans and Purchases; Number—10.051, as found in the Catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this proposed rule since the Commodity Credit Corporation (CCC) is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this proposed rule.

Statutory Authority for Proposed Rule

Section 201 of the Agricultural Act of 1949 was amended on September 8, 1982, by the Omnibus Budget Reconciliation Act of 1982, to specify that during the period of October 1, 1982, through September 30, 1985, the Secretary may provide for a deduction of 50 cents per hundredweight from the proceeds of the sale of all milk marketed commercially by producers. These deductions are to be remitted to the Commodity Credit Corporation to offset a portion of the cost of the price support program. The authority would not apply for any fiscal year for which the Secretary projects that the annual price support purchases will be less than 5 billion pounds milk equivalent. If at any time during a fiscal year the Secretary estimates that the net price support purchases during that year will be less than 5 billion pounds, the authority for making deductions would not apply for the balance of the year.

It has been estimated that the net price support purchases of milk or the products of milk will exceed 5 billion pounds milk equivalent for the 1982–83 marketing year.

Summary of Proposed Rule

The proposed rule sets forth the administrative procedures that would be used to implement the deduction of 50 cents per hundredweight from the proceeds of the sale of all milk marketed commercially by producers. The provisions of the proposed rule would apply only to the milk that is marketed commercially by producers during those months for which the Secretary has announced that the deductions are required.

The Dairy Division of the Department's Agricultural Marketing Service would administer the proposed regulations and would be responsible for the collection and verification of all monies deducted from producers for remittance to the Commodity Credit Corporation.

The proposed regulations specify that any individual, partnership, corporation, association or other business unit that pays the individual producer for his milk would be the "responsible person" for remitting to the CCC the deduction of 50 cents per hundredweight from each producer's proceeds. Additionally, a producer who markets all or part of his own production in the form of milk or milk products to consumers, either direclty or through retail or wholesale outlets, also would be defined as a "responsible person" for remitting monies to the CCC. Such a producer would be required to remit an amount equal to 50 cents per hundredweight on the quantity of his own production used in such marketings. If the producer has additional milk production that is marketed to another "responsible person," the person receiving the milk would be required to make the deduction on that milk.

For milk marketed during a particular month, the proposed regulations prescribe that the deductions from a producer's proceeds be remitted to the CCC by the last day of the following month, or on the same date as final payment is made to the producer for such milk, whichever is earlier. In the case of a producer who markets milk of his own production during the month to consumers, such person would be required to remit the money due the CCC by the last day of the following month.

When remitting the monies to the CCC, each responsbile person would be required to report to the Dairy Division: (1) The identity of the responsible person, including such person's business address, (2) the month in which the applicable producer marketings occurred, and (3) the total amount of milk to which the remittance applies.

The proposed regulations also provide that the amounts due the CCC are to be remitted in the form of a check made payable to the "Commodity Credit Corporation." Checks and related reports would have to be mailed to the location designated by the Dairy Division in its instructions to responsible persons.

A late-payment charge would be assessed with respect to any responsible person's obligation that is due the CCC but which is remitted late. Such late-payment charge would be applied on the first day after the date that such obligation was due and would be applied again on the same day of each succeeding month to any such outstanding obligation, including any outstanding late-payment charge, until the obligation is paid. The amount of the late-payment charge would be based on a rate of interest determined periodically by the CCC, which currently is 17 percent per year.

Each responsible person would be required to maintain certain records for the purpose of demonstrating compliance with the regulations. Also, such persons would be required to make available all records and facilities pertaining to their operations as are necessary for determining compliance.

In addition, all records which would be required to be made available would have to be retained by the responsible person for a period of three years, which begins at the end of the month to which such records pertain, unless the Dairy Division notifies the responsible person that such records are necessary in connection with litigation. In such case, such records would have to be retained until the litigation is terminated or a waiver is granted by the Dairy Division.

List of Subjects in 7 CFR Part 1430

Milk, Agriculture, Price support programs, Dairy products.

Proposed Rule

Accordingly, it is proposed that 7 CFR Part 1430 be amended by inserting immediately before § 1430.282 the subpart heading "Subpart—Price Support Program" and by adding immediately after § 1430.282 a new subpart, consisting of §§ 1430.291–1430.299 which would read as follows:

PART 1430—DAIRY PRODUCTS

Subpart—Regulations Governing Certain Deductions on Milk Marketings of Producers

Sec.

1430.291 General Statement.
1430.292 Definitions.
1430.293 Period of applicability.
1430.294 Responsibility for administration of regulations.
1430.295 Remittance of producer deductions to CCC.
1430.296 Responsibility for records and facilities.
1430.297 Adjustment of accounts.
1430.298 Late-payment charge.
1430.299 Continuing obligations.

Authority.—Sec. 201(d) of the Agricultural Act of 1949, as amended, (7 U.S.C. 1446); Commodity Credit Corporation Charter Act, as amended (15 U.S.C. 714).

Subpart—Regulations Governing Certain Deductions on Milk Marketings of Producers

§ 1430.291 General statement.

This subpart provides for the implementation of certain provisions of the dairy price support program, which is authorized by section 201 of the Agricultural Act of 1949, as amended (referred to as the "Act"). Section 201(d)(2) of the Act specifies that during the period of October 1, 1982, through September 30, 1985, the Secretary may provide for a deduction of 50 cents per hundredweight from the proceeds of the sale of all milk marketed commercially by producers, including producers who market milk of their own production directly to consumers. The deductions are to be remitted to the Commodity Credit Corporation to offset a portion of the cost of the dairy price support program. The Act also specifies that the Secretary's authority for requiring such deductions shall not apply for any fiscal year for which the Secretary estimates that the net price support purchases of milk or the products of milk would be less than 5 billion pounds milk equivalent. In addition, if at any time during a fiscal year the Secretary should estimate that such net price support purchases during that fiscal year would be less than 5 billion pounds milk equivalent, the Secretary's authority for requiring such deductions shall not apply for the balance of that fiscal year. The regulations set forth in this subpart establish the administrative procedures that will be used in carrying out this phrase of the dairy price support program whenever it is in operation.

§ 1430.292 Definitions.

For purposes of this subpart, the terms listed below shall have the following meanings:

(a) *"United States"* means the 50 states of the United States of America, the District of Columbia, Puerto Rico, and the affected territories of the United States of America.

(b) *"Department"* means the United States Department of Agriculture.

(c) *"Secretary"* means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated to act in his stead.

(d) *"Dairy Division"* means the Dairy Division of the Department's Agricultural Marketing Services.

(e) *"CCC"* means the Commodity Credit Corporation.

(f) *"Person"* means any individual, partnership, corporation, association, or other business unit.

(g) *"Producer"* means any dairy farmer within the United States who produces milk.

(h) *"Responsible person"* means:

(1) Any person who pays a producer for milk marketed commercially by the producer. This shall include a handler regulated under a Federal milk order to the extent of any payments for milk that are transmitted by the handler to the market administrator for transmittal by the market administrator to individual producers.

(2) Any producer with respect to milk of his own production that he commercially markets in the form of milk or milk products to consumers, either directly or through retail or wholesale outlets.

(i) *"Deduction"* means the money that is subtracted under the authority described in § 1430.291 from the proceeds of the sale of all milk marketed commercially by producers.

§ 1430.293 Period of applicability.

The provisions of this subpart shall apply only to the milk that is marketed commercially by producers during those months for which the Secretary has announced that the deductions described in § 1430.291 are required.

§ 1430.294 Responsibility for administration of regulations.

The Dairy Division shall have the responsibility for administering this subpart.

§ 1430.295 Remittance of producer deductions to CCC.

The following procedures shall apply with respect to remitting to the CCC the deductions described in § 1430.291:

(a) Each responsibile person who pays a producer for milk marketed commercially during the month shall remit to the CCC by the last day of the following month, or at the time of making final payment to the producer for such milk, whichever is earlier, an amount equal to 50 cents per hundredweight times the quantity of milk for which payment is being made.

(b) Each responsible person who markets milk of his own production to consumers (either directly or through retail or wholesale outlets) in the form of milk or milk products during the month shall remit to the CCC by the last day of the following month an amount equal to 50 cents per hundredweight times the quantity of such person's own production used in such marketings.

(c) When remitting amounts in accordance with paragraphs (a) and (b) of this section, each responsible person shall file a report prescribed by the Dairy Division showing:

(1) The identity of the responsible person, including such person's business address;

(2) The month in which the applicable producer marketings occurred; and

(3) The total pounds of milk to which the remittance applies.

(d) The amounts remitted under this section shall be in the form of a check made payable to "Commodity Credit Corporation."

(e) Checks and reports required under this section shall be mailed to the location designated by the Dairy Division.

§ 1430.296 Responsibility for records and facilities.

(a) *Records to be maintained.* Each responsible person shall maintain records in a manner that will demonstrate compliance with the provisions of this subpart.

(b) *Availability of records and facilities.* Each responsible person shall make available all records and facilities pertaining to such person's operations that are necessary to determine compliance with the provisions of this subpart.

(c) *Retention of records.* All records required under this subpart shall be retained by the responsible person for a period of three years that shall begin at the end of the month to which such records pertain, unless the Dairy Division notifies the responsible person that such records are necessary in connection with litigation. In such case, the records shall be retained until the litigation is terminated or a waiver is granted by the Dairy Division.

§ 1430.297 Adjustment of accounts.

Whenever an audit of any responsible person's reports, records, books or accounts discloses adjustments to be made in monies due the CCC or due such person from the CCC, such responsible person shall be notified of any such amount due. Any such amount due the CCC shall be remitted by the next date for remitting deductions as provided in § 1430.295.

§ 1430.298 Late-payment charge.

Any unpaid obligation of a responsible person under this subpart shall be increased by a late-payment charge which shall be applied on the first day after the date such obligation was due and on the same day of each succeeding month until such obligation is paid. The total obligation due from such person shall include any unpaid charges computed previously under this section. The charge shall be an amount equal to one-twelfth (rounded to the nearest one-hundredth of one percent) of the annual rate of interest announced by the CCC under 7 CFR 1403.5.

§ 1430.299 Continuing obligations.

Obligations of a responsible person that have arisen under this subpart shall continue in effect until the final disposition of such obligations even though the Secretary has announced that the deductions described in § 1430.291 are no longer required.

Signed at Washington, D.C., on September 21, 1982.

Everett Rank,

Executive Vice President, Commodity Credit Corporation (CCC).

BILLING CODE 3410-02-M

Rural Electrification Administration

7 CFR Part 1701

Equipment Contract Requirements Proposed Revision to REA Contract Form 198

AGENCY: Rural Electrification Administration, USDA.

ACTION: Proposed rule.

SUMMARY: The Rural Electrification Administration (REA) proposes to revise REA Contract Form 198, "Equipment Contract." The REA Contract Form 198 provides REA borrowers with a standardized contract document with which equipment for electric generating stations, substations and transmission line construction can be purchased. The proposed revision to the existing document is intended to update the form by incorporating various clarifications and improvements gained from past experience and by including numerous comments received from the public.

DATE: Public comments must be received by REA no later than November 23, 1982.

ADDRESS: Submit written comments to Frank W. Bennett, Director, Power Supply Division, Rural Electrification Administration, Room 0232, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Mr. John W. Holt, Chief, Power Plants Branch, Rural Electrification Administration, Room 0236, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 382-1390. The Draft Impact Analysis describing the options considered in developing this proposed rule and the impact of implementing each option is available on request from the above office.

SUPPLEMENTARY INFORMATION: Pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to revise REA Contract Form 198, "Equipment Contract." 7 CFR Part 1701, Appendix A—REA Bulletins, will be amended to include the revised REA Contract Form 198 upon its issuance as a final rule. This proposed action has been issued in conformance with Executive Order 12291, Federal Regulation. The action will not (1) have an annual effect on the economy of $100 million or more; (2) result in a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies; or (3) result in significant adverse effects on competition, employment, investment or productivity and therefore has been determined to be "not major." This action is not subject to the Regulatory Flexibility Act or to OMB Circular A-95 review requirements. This program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

This revision incorporates various clarifications and improvements gained from past experience and includes numerous comments received from the public resulting from the Advance Notice of Proposed Rulemaking which was published in the **Federal Register** on July 31, 1981. The most significant change is the incorporation of the informal bidding procedure permitted by the May 23, 1973, Supplement to REA Bulletin 40-6.

REA hereby solicits comments and recommendations from interested parties regarding the proposed revision to REA Contract Form 198.

A copy of the proposed REA Contract Form 198 is available upon request from the address indicated above. All written submissions made pursuant to this action will be made available for public inspection during regular business hours at the above address.

BILLING CODE 3410-15-M

Packers and Stockyards Administration

9 CFR Parts 201 and 203

Regulations and Policy Statements; Review of Existing Regulations

AGENCY: Packers and Stockyards Administration, USDA.

ACTION: Notice of proposed rulemaking; review of existing regulations.

SUMMARY: This notice proposes to remove three recordkeeping and accounting regulations and to retain, in their present form, two regulations concerning the responsibilities of agents in accounting to their principals. It

proposes to revise and consolidate four additional accounting regulations into two and to consolidate the two regulations and one policy statement authorizing the disposal of records into a single regulation.

This proposal would also revise and consolidate eight trade practice regulations into a single, simplified regulation. Three other trade practice regulations involving employment restrictions, solicitation of consignments, and gratuities would be removed. One regulation concerning price guarantees and one policy statement concerning payment of buyers' expenses would be retained in their current form.

DATE: Comments must be received on or before November 23, 1982.

ADDRESS: Comments may be mailed to the Administrator, Packers and Stockyards Administration, Room 3039, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. Comments received may be inspected during normal business hours in the office of the Administrator.

FOR FURTHER INFORMATION CONTACT: John A. Sands, Jr., Director, Livestock Marketing Division, (202) 447–6951 or Kenneth Stricklin, Chief, Livestock Procurement Branch, (202) 447–6772.

SUPPLEMENTARY INFORMATION: This is the fourth group of regulations and policy statements selected for review in the Revised Plan of Review published in the **Federal Register** (46 FR 25279) by the Packers and Stockyards Administration in July 1981.

In developing this proposal, consideration has been given to the comments filed in response to two earlier publications in the **Federal Register** (44 FR 71802; 45 FR 21168) which outlined the Administration's plans for review of the existing regulations and policy statements. Consideration has also been given to the recommendations of an agency task force which were widely circulated throughout the livestock marketing and meat packing industries and to the comments received from industry groups and individuals as a result of the circulation of the task force report.

The following proposal would remove §§ 201.46, 201.52, 201.54, 201.63, and 201.65 (9 CFR 201.46, 201.52, 201.54, 201.63, and 201.65). Sections 201.55 and 201.61 (9 CFR 201.55 and 201.61) would be revised. Sections 201.43 and 201.111 (9 CFR 201.43 and 201.111) would be revised and consolidated as § 201.43 (9 CFR 201.43). Sections 201.49 and 201.107 (9 CFR 201.49 and 201.107) would be revised and consolidated as § 201.49 (9 CFR 201.49). Sections 201.50 and 201.101 (9 CFR 201.50 and 201.101) and policy statement 203.4 (9 CFR 203.4 would be revised and consolidated as § 201.50 (9 CFR 201.50) of the regulations. Sections 201.53 and 201.102 (9 CFR 201.53 and 201.102) would be revised and consolidated as § 201.53 (9 CFR 201.53).

This proposal would also consolidate and revise §§ 201.47, 201.56, 201.57, 201.58, 201.59, 201.60, 201.62, and 201.66(b) (9 CFR 201.47, 201.56, 201.57, 201.58, 201.59, 201.60, 201.62 and 201.66(b)) into § 201.56 (9 CFR 201.56). No changes are proposed in §§ 201.44, 201.45, 201.64, and 201.66(a) (9 CFR 201.44, 201.45, 201.64, and 201.66(a)) and policy statement 203.5 (9 CFR 203.5).

Accounting and Records

Prompt Payment and Accounting. Section 201.43 of the regulations prescribes the duty of market agencies selling livestock on a commission basis to provide prompt and accurate accounting to their customers and the responsibility of principals to promptly reimburse their agents for livestock purchases. Further, it sets forth the terms and conditions which packers, market agencies, and dealers are to follow in complying with the prompt pay provisions of section 409 of the Packers and Stockyards Act (7 U.S.C. 228b). Section 201.111 of the regulations requires prompt payment for live poultry purchases by packers and live poultry dealers and handlers.

The proposed revision would remove from § 201.43(a) the requirement that market agencies selling on commission routinely show the name of the purchaser on the account of sale furnished to the consignor. Entering the names of the buyers on the account of sale requires considerable time and effort on the part of the market agency on sale days during the peak of the workload of the office staff. The market agency would continue to be required to disclose the name of the buyer on its accounting to the consignor whenever livestock is sold to an owner, officer, or employee of the market agency. The market agency, in the normal course of business and pursuant to the Act, must maintain records sufficient to disclose the name of the buyer in every transaction, and the consignor, upon proper request to the market agency, would be entitled to know who purchased his livestock.

Paragraph (b) of § 201.43 would be retained without amendment. This paragraph implements the prompt payment and trust amendments enacted in 1976.

The cross references to §§ 201.61 and 201.66 in the current paragraph (d) of § 201.43 are no longer necessary. Section 201.43(d) will be replaced by § 201.111, thereby consolidating §§ 201.43 and 201.111.

Paragraph (c), as proposed, retains the current requirements for prompt payment for livestock by principals to their agents.

This proposal would also remove the current paragraph (d) of § 201.43. A new paragraph (d) would contain prompt payment requirements for live poultry by packers and live poultry dealers and handlers currently set forth in 201.111 of the regulations. These requirements remain necessary to assure timely payment to live poultry sellers and growers. The prompt payment requirements do not preclude the parties to a transaction from agreeing to credit terms.

The proposal would retain § 201.44 in its current form. This regulation requires market agencies to make prompt and accurate accounting to their principals for livestock purchased on commission, and specifies the minimum information which should be provided to a principal by his agent.

Inspection of Records by Principals. Market agencies are required by § 201.45 to make those records disclosing the charges paid by the market agency on behalf of a customer available to the customer for inspection. This notice proposes to retain this regulation. If does not require the market agency to create records; rather, it merely requires the market agency to make existing records documenting pertinent expenditures made on behalf of a customer available for inspection by the customer.

Daily Records. This proposal would remove § 201.46, which requires stockyard owners, market agencies, and dealers to make and keep a daily record of livestock received and shipped or bought and sold or otherwise disposed of each day. Records sufficient to fully and correctly disclose all transactions are required by section 401 of the Packers and Stockyards Act (7 U.S.C. 221). This statutory requirement is not altered by the proposed removal of § 201.46, but persons subject to the Act would be afforded greater flexibility in meeting the recordkeeping requirements of the Act.

Scale Tickets. The current requirements pertaining to the issuance of scale tickets in connection with livestock and live poultry transactions, §§ 201.49 and 201.107, would be retained and consolidated into a single regulation by this proposal. The Administration believes these requirements are necessary for the protection of livestock and poultry sellers. Scale tickets show

that livestock or poultry has been weighed and provide pertinent data to the parties about the weighing, including the actual weight, the number and kind of livestock or poultry weighed, the date, and identity of the weighmaster.

In addition, this proposal would require that scale tickets be used in serially numbered order. Such a requirement is implied, but not specifically required, in the present requirement that scale tickets be serially numbered. Control of scale tickets is important to the issuing firm and to the Administration in enforcing the Act in that it facilitates the identification of fraudulent or unauthorized scale tickets.

This proposal would add the requirement that the hot carcass weights be recorded and also retained as a part of a packer's business records when livestock is purchased on a carcass weight basis. A substantial volume of livestock purchased for slaughter is purchased on a carcass weight basis, and the Administration has found that some packers do not retain documentation of hot carcass weights after the carcasses are sold or otherwise disposed of. These records provide the Administration with essential information in connection with investigations of carcass weight purchases.

Finally, this proposal would remove paragraphs (c) of §§ 201.49 and 201.107. These paragraphs duplicate other provisions of the regulations dealing with accurate weights.

Disposal of Records. Authority for persons subject to the Act to dispose of records after specified time periods is currently contained in two regulations and one policy statement. Section 201.50 provides authority for stockyard owners, market agencies and dealers to dispose of certain records after two years. Authority for records disposal by poultry processors and live poultry dealers or handlers is contained in § 201.101 of the regulations and for meat packers in § 203.4 of the Statements of General Policy.

This proposal would consolidate these two provisions into a single regulation, thereby combining similar requirements for different segments of the industry. It does not impose any new recordkeeping requirements or lengthen the retention periods. In fact, this proposal would reduce the retention period for certain packer records from three years to two years. It would also permit records to be kept on microfilm in lieu of retaining the actual documents.

Withholding of Information by Market Agency. Section 201.52 currently prohibits market agencies from furnishing livestock sales information to unauthorized parties. This notice proposes to remove § 201.52, and to leave decisions concerning release of information to the discretion of the market agency. Agency intervention would be warranted where release of information constitutes an unfair or deceptive practice. Removal will not preclude state and Federal agencies from requesting or requiring information necessary to administer or enforce state or Federal laws.

Trade Practices—Livestock Purchased From Consignment

The current trade practice regulations discussed under this heading are closely related, each dealing with some aspect of a market agency's responsibility to consignors when selling livestock on a commission basis. This proposal would rewrite and simplify §§ 201.47, 201.56, 201.57, 201.58, 201.59, 201.60, 201.62, and 201.66(b) to create a single regulation, thereby removing unnecessary repetition and confusing provisos and cross-references, and eliminating or reducing several of the current restrictions on the business activities of market agencies selling on commission.

Requirements of the Current Regulations (§§ 201.47, 201.56, 201.57, 201.58, 201.59, 201.60, 201.62, 201.66(b)). When a market agency is permitted to sell livestock to any person having a financial interest in the market agency performing the selling service, § 201.47 requires the livestock to be sold openly and at a price higher than the highest available bid. In such a sales transaction, the market agency must disclose to the consignor the nature of the relationship between the buyer and market agency.

These requirements and preconditions for selling livestock to any person having a financial relationship with the selling agency are essential requirements, which reflect and safeguard the fiduciary responsibility of the selling agent to his consignors. The disclosure requirement is of particular significance because it alerts the consignor to potential conflicts of interest.

Sections 201.56 and 201.62 specify the conditions which must be met when a market agency purchases consigned livestock for off-market purchasers. In such transactions, § 201.62 permits the market agency to assess only a selling commission, but allows an additional charge to the buyer to offset expenses incurred by the market agency in soliciting the off-market bids.

Section 201.57 prohibits market agencies selling livestock at auction from purchasing consigned livestock for speculative resale or permitting their owners, officers, and employees from purchasing consigned livestock for speculative resale. It further prohibits the auction markets from permitting their auctioneers, weighmasters, and certain other employees from purchasing consigned livestock for any purpose. Section 201.57 permits a market agency to purchase consigned livestock for market support. If market support livestock is resold by the market agency in one lot on the same day at a higher price, the market agency must remit the difference to the consignor, pursuant to § 201.59.

Section 201.58 requires each consignment to be sold on its own merits and prohibits string sales. Commingling of graded lots of livestock for sale with consignor's consent is allowed.

Sales of consigned livestock by a market agency to its owners, officers, employees, or other persons holding a financial interest in the market agency are prohibited by § 201.60(a), except where otherwise permitted by the regulations. Paragraph (b) of § 201.60 prohibits a market agency from selling its own livestock or livestock owned by its owners, officers, or employees in such a manner as to prejudice the interests of its consignors.

Section 201.66(b) prohibits a market agency from employing any person engaged in buying livestock as a dealer or market agency if that person engages in market agency or dealer transactions at the stockyard where he is employed.

Provisions of the Current Regulations Which Would be Removed By this Proposal. The existing regulations do not expressly prohibit owners, officers, and employees of a market agency from purchasing consigned livestock to fill oders which such persons themselves have obtained as distinguished from orders held or obtained by the market agency. The Packers and Stockyards Administration has, however, generally interpreted the provisions of §§ 201.56, 201.60(a), 201.62, and 201.66(b), taken as a group, to prohibit such persons in their individual capacities from filling orders from consignment.

The proposed § 201.56 will not preclude owners, officers, and employees of a market agency (except key employees whose duties in connection with auction sales involve activities which directly affect consignors' interests) from purchasing livestock from consignments to fill orders on an agency basis. It will continue to permit the market agency itself and wholly-owned subsidiaries of the market agency to fill orders. It is the opinion of the Administration that

removal of this restriction on a market agency's owners, officers,and non-key employees will foster increased demand in the local market and will not interfere with the enforcement of the Act. The regulations will continue to require that the market agency sell consigned livestock openly, at the highest available bid, and in such a manner as to best promote the interest of each consignor. It will further require full disclosure of the relationship between the market agency and buyer.

This proposal would also remove the prohibition against the assessment of a buying commission and the limitation on the charges for expenses when a market agency purchases consigned livestock to fill orders. Continuation of this limitation would be inconsistent with the general deregulation of rates previously accomplished by the Packers and Stockyards Administration.

The new proposed regulation would continue to prohibit auctioneers, weighmasters, and other key employees from purchasing from consignments for speculation or to fill orders. However, these employees would be permitted to purchase livestock for their own farm or ranching operation. Full disclosure to the consignor of the employee's relationship to the market agency would be required. If a situation arises in which a key employee's purchases from consignments for his ranch or farming operation are harmful to the interests of consignors, appropriate action will be taken.

Market agencies would continue to be permitted to purchase livestock for market support under this proposal. However, the provision requiring the market agency to remit any profit derived from the resale, in one lot on the same day, of such livestock, would be removed. Market agencies provide a service to their consignors when they purchase livestock to support the market. This proposal specifies the manner in which such purchases shall be made and requires disclosure to the consignor. Requiring the market agency to relinquish incidental profits while absorbing market support losses imposes an inequitable burden on the market agency and may discourage legitimate market support.

The prohibition against market agencies employing a dealer or order buyer if that person engages in any market agency or dealer activity at the market would be removed. While it is possible that a market agency might favor an employee in connection with sales of the employee's livestock, such a possibility does not warrant a *per se* prohibition.

Lastly, in lieu of a *per se* prohibition against string sales, the proposed regulation focuses on the market agency's responsibility to its consignors.

Provisions of the Proposed Regulation (201.56). Most of the trade practice regulations which deal with a market agency's responsibilities to consignors would be consolidated into a single, simplified regulation by this proposal. Several substantive changes are proposed to give greater flexibility to market agencies in filling orders on an agency basis and to remove restrictions on their business activities. This proposal affirms that the principal duty of a market agency selling on commission is to sell consigned livestock in such a manner as to best promote the interests of each consignor and to obtain the highest available price. In addition, it places greater emphasis on full disclosure as a means of protecting the interests of consignors.

Paragraph (a) of the proposed regulation states simply and concisely the market agency's responsibility to sell livestock in the best interest of its consignors. This requirement is essential to the agent-principal relationship which exits between the market agency and consignor.

Paragraph (b) circumscribes the conditions under which a market agency and its owners, officers, and employees may use consigned livestock to fill orders on an agency basis and requires that the livestock first be offered for sale in an open and competitive manner. Such a requirement is necessary to protect the legitimate interests of the consignors and the integrity of the marketing system.

The prohibition against purchasing livestock out of consignment for speculative resale is continued in paragraph (c) of this proposal. Market agencies and their owners, officers, and employees would be barred from purchasing consigned livestock for speculative resale. However, a proviso is included which permits market agencies to purchase consigned livestock to support their market when necessary to protect the legitimate interests of the consignors. When livestock is purchased for speculative resale, the buyer's interest is a quick resale at a profit. When that buyer is a market agency selling on commission, its self-interest in the transaction necessarily conflicts with its responsibility to consignors. Therefore, this regulatory prohibition continues to be viable and necessary.

Key employees of an auction market, such as the auctioneer, weighmaster, or ringman, would be prohibited from speculating out of consignments or filling orders for their own accounts by paragraph (d) of the proposed regulation. They would not be precluded by this regulation, however, from making incidental purchase for their own farm or ranching operation.

In order to adequately represent and protect the interests of consignors at an auction market, key employees engaged in conducting the auction sale must perform proficiently and with integrity. A failure to do so will result in some consignors receiving less than the highest available price for their livestock. Such a failure, unless flagrant, would not be readily detectable by the consignors and in many instances would not be detectable by the auction market operator.

The key element of this proposed regulation, which eases many of the restrictions on the business activities of selling agencies, is the disclosure requirement of paragraph (e). Under this provision, the market agency would be required to disclose to the consignor the name of the buyer and the nature of the relationship between the market agency and buyer whenever the market agency or its owners, officers, or employees purchase livestock out of consignment for any purpose. Such disclosure is an essential protection to the seller when an agent takes goods received on consignment into his own account or sells such goods to an owner, officer, or employee.

Trade Practices—Other

Market Conditions and Prices—False Reports. This notice proposes to consolidate §§ 201.53 and 201.102 into a single regulation which would proscribe false or misleading reports about market conditions and prices for livestock and live or dressed poultry. In addition, the proposal would apply this section to meat. Accurate reports of market conditions and prices are vital to all segments of the livestock, poultry, and meat packing industries. The regulation would make explicit the position that knowingly circulating false or misleading market information is an unfair trade practice. It would not impose any burden or restriction on the business activities of firms subject to the Act.

Gratuities. Section 201.54 of the regulations would be removed by this proposal. Stockyard owners, market agencies, and dealers are currently prohibited from giving gratuities to truckers by this regulation. Further, stockyard owners and market agencies cannot now receive or permit any

owner, officer, or employee to receive gratuities.

By removing this regulation, the Packers and Stockyards Administration would not be condoning bribery or the granting of unreasonaable inducements intended to procure an unfair preference or advantage. Such practices are considered to be violations of section 312(a) of the Act (7 U.S.C. 213(a)). Because it is unrealistic to establish by regulation an acceptable level of gratuities, each case will require individual scrutiny.

Actual Weights. When livestock is bought and sold on a weight basis, § 201.55 requires the transaction to be on the basis of the actual weights unless otherwise appropriately explained. This proposal would rewrite § 201.55 to make clear the requirements that the weight be an actual weight and that any adjustments to the actual weight be fully and accurately explained. This is an important and necessary regulation which does not impose an unreasonable burden on the industry.

Clearing Services. Section 201.61 of the current regulations prohibits practices resulting in a conflict of interest for selling agencies which finance or clear dealers buying out of consignments and for buying agencies who use livestock purchased from clearees to fill orders. In its present form, this regulation is more restrictive than is necessary to effectuate the intent and purposes of the Act under current marketing conditions.

This proposal rewrites § 201.61 to emphasize the prohibition against entering into any agreement, relationship, or association which may impair the market agency's loyalty to its consignors or principals. It proposes to remove the restriction against market agencies selling on commission furnishing clearing, financing, or bookkeeping services for independently operated and separately registered dealers. A prohibition is included, however, against a selling agency providing clearing services for any dealer who purchases livestock from consignments to such selling agency. Financing the operations of a dealer who purchases livestock from consignments would be prohibited by the proposed § 201.56(c). A conflict of interest exists when a market agency has a financial interest in dealer livestock bought out of consignment through either a clearing or a financing arrangement with the purchaser, and these prohibitions therefore remain necessary.

The restriction against a buying agency purchasing livestock from a dealer whose operations it clears would also be removed by proposed § 201.61. Disclosure to the buying agency's principal of the relationship between the buying agency and dealer would be required in such a situation. Prohibiting a buying agency, which also acts as a clearing agent, from using livestock from a clearee to fill orders removes a source of livestock from the buying agency's principal. However, to permit such purchases presents a potential conflict of interest. These opposing factors are reconciled by requiring full disclosure of the buying agency's relationship with the clearee.

Consignments Not To Be Solicited or Intercepted. Packers, market agencies, and dealers are restricted by § 201.63 from intercepting or soliciting consignments at a stockyard after the livestock has been received and while it is being delivered to a consignee. Section 201.63 would be removed by this proposal. This practice is no longer a significant problem to the industry. Any problems which may occur can and should be controlled by the stockyard where the problem arises.

Price Guarantees Not To Be Given. It is proposed to retain § 201.64 in its current form. Market agencies selling on commission are prohibited by this regulation from guaranteeing the price at which consigned livestock will be sold.

This practice is used to solicit consignments which may otherwise be consigned to a competitior's market. It results in unfair competition to other firms, particularly smaller firms, which cannot afford to engage in this practice. When this practice is left unchecked, market agencies tend to compete on the basis of price guarantees rather than on the basis of the selling services offered. The practice may result in discriminatory prices and selling services, and may also be used as a form of commission rebate.

Employment of Salesman on Split Commission. This proposal would remove § 201.65 which prohibits a market agency from employing a salesman on the basis of a split of the commissions received from consignors considered to be "followers" of the particular salesman. The unfair practices that this regulation was originally intended to prohibit are no longer a problem in the industry. Thus, under current marketing conditions, this regulation is unnecessary.

Market Agencies Not To Employ Packers. Paragraph (a) of § 201.66 would be retained in its current form. Market agencies selling on commission are prohibited by this regulation from employing a packer, or any person employed by a packer to purchase livestock, to provide any of the market agency's services. Packers, or persons employed by packers to purchase livestock for slaughter, are actual or potential livestock buyers at such market agencies. As such the market agency selling on commission and the packer or the packer's employed livestock buyer have conflicting interests which are best resolved through the maintenance of an arm's length relationship.

Paying the Expenses of Buyers. This proposal would retain section 203.5 of the Statements of General Policy in its current form. That policy statement sets forth the Administration's position with respect to market agencies selling on commission paying the expenses of buyers attending their sales. Such payments may become a method of unfair competition between similarly engaged market agencies resulting in unnecessary cost burdens on consignors because of increased rates and charges. It may also result in unreasonable discrimination between buyers.

Executive Order

It has been determined that the proposals to amend and remove the regulations relating to the accounting and recordkeeping and trade practices of market agencies, dealers, meat packers, and live poultry dealers and handlers as proposed herein are not "major" rules as defined by section 1(b) of E.O. 12291.

The proposed rules will not have an annual effect on the economy of $100 million or more, will not result in major increases in costs or prices for consumers, individual industries, Government agencies, or geographic regions, and will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S. based enterprises to compete with foreign based enterprises in domestic or export markets. Accordingly, regulatory impact analyses are not required.

Regulatory Flexibility Act

B. H. (Bill) Jones, Administrator, Packers and Stockyards Administration, has determined that these proposals will not have a significant economic impact on a substantial number of small entities.

These proposals would remove several restrictions on the business activities of market agencies and greatly simplify and clarify the trade practice regulations. These regulations simply proscribe certain unfair and deceptive practices which are unlawful under the Packers and Stockyards Act.

Consolidation of the records disposal regulations and policy statement would not impose any new recordkeeping requirements and, in fact, would reduce the retention period for some packer records.

PART 201—REGULATIONS UNDER THE PACKERS AND STOCKYARDS ACT

PART 203—STATEMENTS OF GENERAL POLICY UNDER THE PACKERS AND STOCKYARDS ACT

§§ 201.46, 201.47, 201.52. 201.54, 201.57-201.60, 201.62, 201.63, 201.65, 201.101, 201.102, 201.107, 201.111 and 203.4 [Removed]

1. It is proposed to remove §§ 201.46, 201.47, 201.52, 201.54, 201.57, 201.58, 201.59, 201.60, 201.62, 201.63, 201.65, 201.101, 201.102, 201.107, 201.111 (9 CFR 201.46, 201.47, 201.52, 201.54, 201.57, 201.58, 201.59, 201.60, 201.62, 201.63, 201.65, 201.101, 201.102, 201.107, and 201.111) of the regulations and § 203.4 (9 CFR 203.4) of the Statements of General Policy.

2. It is proposed to revise §§ 201.43, 201.49, 201.50, 201.53, 201.55, 201.56, 201.61, and 201.66(a). (9 CFR 201.43, 201.49, 201.50, 201.53, 201.55, 201.56, 201.61, and 201.66) of the regulations to read as set forth below.

§ 201.43 Payment and accounting for livestock and live poultry.

(a) *Market agencies to make prompt accounting and transmittal of net proceeds.* Each market agency shall, before the close of the next business day following the sale of any livestock consigned to it for sale, transmit or deliver to the consignor or shipper of the livestock, or the duly authorized agent, in the absence of any knowledge that any other person, or persons, has any interest in the livestock, the net proceeds received from the sale and a true written account of such sale, showing the number, weight, and price of each kind of animal sold, the date of sale, the commission, yardage, and other lawful charges, and such other facts as may be necessary to complete the account and show fully the true nature of the transaction.

(b) *Prompt payment for livestock—terms and conditions.* (1) No packer, market agency, or dealer shall purchase livestock for which payment is made by a draft which is not a check, unless the seller expressly agrees in writing before the transaction that payment may be made by such a draft. (In cases of packers whose average annual purchases exceed $500,000, and market agencies and dealers acting as agents for such packers, see also § 201.200.)

(2)(i) No packer, market agency, or dealer purchasing livestock for cash and not on credit, whether for slaughter or not for slaughter shall mail a check in payment for the livestock unless the check is placed in an envelope with proper first class postage prepaid and properly addressed to the seller or such person as he may direct, in a post office, letter box, or other receptacle regularly used for the deposit of mail for delivery, from which such envelope is scheduled to be collected (*a*) before the close of the next business day following the purchase of livestock and transfer of possession thereof, or (*b*) in the case of a purchase on a "carcass" or "grade and yield" basis, before the close of the first business day following determination of the purchase price.

(ii) No packer, market agency, or dealer purchasing livestock for slaughter, shall mail a check in payment for the livestock unless (*a*) the check is made available for actual delivery and the seller or his duly authorized representative is not present to receive payment, at the point of transfer of possession of such livestock, on or before the close of the next business day following the purchase of the livestock and transfer of possession thereof, or, in the case of a purchase on a "carcass" or "grade and yield" basis, on or before the close of the first business day following determination of the purchase price; or unless (*b*) the seller expressly agrees in writing before the transaction that payment may be made by such mailing of a check.

(3) Any agreement referred to in paragraphs (b) (1) or (2) of this section shall be disclosed in the records of any market agency or dealer selling such livestock, and in the records of the packer, market agency or dealer purchasing such livestock, and retained by such person for such time as is required by any law, or by written notice served on such person by the Administrator, but not less than two calendar years from the date of expiration thereof.

(4) No packer, market agency, or dealer shall, as a condition to its purchase of livestock, impose, demand, compel, or dictate the terms or manner of payment, or attempt to obtain a payment agreement from a seller through any threat or retaliation or other form of intimidation.

(c) *Purchaser to promptly reimburse agents.* Each packer, market agency, or dealer who utilizes or employs an agent to purchase livestock for him, shall, in transactions where such agent uses his own funds to pay for livestock purchased on order, transmit or deliver to such agent the full amount of the purchase price before the close of the next business day following receipt of notification of the payment of such purchase price, unless otherwise expressly agreed between the parties before the purchase of the livestock. Any such agreement shall be disclosed in the records of the principal and in the records of any market agency or dealer acting as such agent.

(d) *Purchasers to pay promptly for live poultry purchases.* Each packer or live poultry dealer or handler shall, before the close of the fifth business day following slaughter of any poultry purchased, transmit or deliver to the seller of such poultry or his duly authorized agent the full amount of the purchase price thereof, unless otherwise expressly agreed between the parties before the purchase of the poultry. Any such agreement shall be disclosed in such purchaser's records and on all accountings or other documents issued by such purchaser relating to the transaction.

§ 201.49 Requirements regarding scale tickets evidencing weighing of livestock and live poultry.

(a) *Livestock.* When livestock is weighed for purpose of purchase or sale, a scale ticket shall be issued which shall show: (1) The name and location of the agency performing the weighing service; (2) the date of the weighing; (3) the name of the buyer and seller or consignor, or a designation by which they may be readily identified; (4) the number of head; (5) kind; (6) actual weight of each draft of livestock; and (7) the name, initials, or number of the person who weighed the livestock, or if required by State law, the signature of the weigher. Scale tickets issued under this section shall be serially numbered and used in numerical sequence. Sufficient copies shall be executed to provide a copy to all parties to the transaction. In instances where the weight values are automatically recorded directly on the account of purchase, account of sale or

other basic record, this record may serve in lieu of a scale ticket. When livestock is purchased on a carcass weight or carcass grade and weight basis, the hot carcass weights shall be accurately recorded on a permanent record, either manually or automatically, to substantiate settlement of each transaction.

(b) *Live poultry.* When live poultry is weighed for purpose of purchase, sale, acquisition, or settlement by a packer or live poultry dealer or handler, a scale ticket shall be issued which shall show: (1) The name of the agency performing the weighing service; (2) the name of the packer or live poultry dealer or handler; (3) the name and address of the grower, purchaser, or seller; (4) the name or initial of the person who weighed the poultry; (5) the location of the scale; (6) the gross weight, tare weight, and net weight; (7) the date and time gross weight and tare weight are determined; (8) the number of poultry weighed; (9) the weather conditions; (10) whether the driver was on or off the truck at the time of weighing; (11) the license number of the truck or the truck number; *Provided,* That when live poultry is weighed on a scale other than a vehicle scale, the scale ticket need not show the information specified in paragraphs (b)(9), (10), and (11) of this section. Scale tickets issued under this paragraph shall be at least in duplicate form and shall be serially numbered and used in numerical sequence. One copy shall be furnished to the grower, purchaser, or seller, and one copy shall be furnished to or retained by the packer or live poultry dealer or handler.

§ 201.50 Records; disposition.

(a) *Records may be disposed of after two years except as otherwise provided.* Except as provided in paragraph (b) of this section, no packer, live poultry dealer or handler, stockyard owner, market agency, or dealer shall, without the consent in writing of the Administrator, destroy or dispose of books, records, documents, or papers which contain, explain, or modify transactions in its business under the Act for a period of two full calendar years: *Provided,* That the following records made or kept by a packer may be disposed of after one year; cutting tests; departmental transfers; buyers' estimates; drive sheets; scale tickets received from others; inventory and products in storage; receiving records; trial balances; departmental overhead or expense recapitulations; bank statements, reconciliations and deposit slips; production or sale tonnage reports (including recapitulations and summaries of routes, branches, plants, etc.) buying or selling pricing instructions and price lists; correspondence, telegrams, teletype communications and memoranda relating to matters other than contracts, agreements, purchase or sales invoices, or claims or credit memoranda. *Provided further,* That microfilm copies of records may be substituted for and retained in lieu of the actual records.

(b) *Retention for longer periods may be required.* The periods specified in paragraph (a) of this section shall be extended if necessary to comply with any Federal, State, or local law, or if the packer, live poultry dealer or handler, stockyard owner, market agency or dealer is notified in writing by the Administrator that specified records should be retained for a longer period. The periods herein after which records may be disposed of have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942 (56 Stat. 1078; 5 U.S.C. 139 *et seq.*).

§ 201.53 Persons subject to the Act not to circulate misleading reports about market conditions or prices.

No packer, live poultry dealer or handler, stockyard owner, market agency, or dealer shall knowingly make, issue, or circulate any false or misleading reports, records or representation concerning the market conditions or prices of livestock, meat, live poultry, or dressed poultry.

§ 201.55 Purchases and sales to be made on actual weights.

When livestock is bought or sold on a weight basis, settlement therefor shall be on the basis of the actual weight shown on the scale ticket. If the actual weight used is not obtained on the date and at the place of transfer of possession, this information shall be disclosed with the date and location of the weighing on the accountings, bills, or statements issued. Any adjustment to the actual weights shall be fully and accurately explained on the accountings, bills, or statements issued and records shall be maintained to support such adjustment.

§ 201.56 Market agencies selling on commission; purchases from consignment.

(a) *Livestock to be sold openly at highest available bid.* Every market agency engaged in the business of selling livestock on a commission or agency basis shall sell the livestock consigned to it openly, at the highest available bid, and in such a manner as to best promote the interests of each consignor.

(b) *Purchases from consignment to fill orders.* No market agency engaged in the business of selling and buying livestock on a commission basis shall use livestock consigned to it for sale to fill orders on an agency basis, nor shall it permit its owners, officers, agents, employees, or any firm in which such market agency or its owners, officers, agents, or employees have an ownership or financial interest to use livestock consigned to such market agency to fill orders on an agency basis, without first offering the livestock for sale in an open and competitive manner to other available buyers, and then only at a price higher than the highest available bid on such livestock.

(c) *Market agencies not to speculate on purchases from consignments.* No market agency engaged in selling livestock on a commission basis shall purchase livestock from consignments to such market agency for speculative resale, and no such market agency shall permit its owners, officers, agents, employees, or any firm in which such market agency or its owners, officers, agents, or employees have an ownership or financial interest to purchase livestock from consignments to such market agency for speculative resale. *Provided,* That this paragraph shall not be construed to prohibit a market agency from purchasing livestock for its own account to support the market when necessary to protect the legitimate interest of its consignors.

(d) *Key employees at auction sales; not to purchase livestock out of consignments to fill orders or for speculation.* No market agency engaged in selling livestock at auction shall permit its auctioneers, weighmasters, ringmen, or other employees performing duties of comparable responsibility in connection with the actual conduct of the auction sales, to purchase livestock out of consignments, directly or indirectly, for speculative resale or to fill orders on an agency basis for their own account.

(e) *Purchases from consignment; disclosure required.* When a market agency purchases livestock consigned to it for sale to fill orders for to support the market, or sells consigned livestock to any owner, officer; agent, employee, or any person in whose business such market agency, owner, officer, agent, or employee has an ownership or financial interest, the market agency shall disclose the name of the buyer and the nature of the relationship existing between the market agency and buyer. Such disclosure shall be made at the time of sale and on the account of sale.

§ 201.61 Market agencies selling or purchasing livestock on commission; relationships with dealers.

(a) *Market agencies selling on commission.* No market agency selling consigned livestock shall enter into any agreement, relationship or association with dealers or other buyers which has a tendency to lessen the loyalty of the market agency to its consignors or impair the quality of the market agency's selling services. No market agency selling livestock on commission shall provide clearing services for any independent dealer who purchases livestock from consignments to such market agency.

(b) *Market agencies buying on commission.* No market agency purchasing livestock on commission shall enter into any agreement, relationship, or association with dealers or others which will impair the quality of the buying services furnished to its principals. No market agency purchasing livestock on commission shall, in filling orders, purchase livestock from a dealer whose operations it clears or finances without disclosing the relationship between the market agency and dealer to its principals on the accounting furnished to the principal.

§ 201.66 Market agencies not to employ packers or persons employed to purchase livestock for a packer.

No maker agency shall employ or permit any packer, or any person employed by a packer to buy livestock to perform any duty in connection with the services furnished by such market agency.

BILLING CODE 3410-02-M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 337

Insured Nonmember Banks; Request for Comments

AGENCY: Federal Deposit Insurance Corporation ("FDIC").

ACTION: Advance Notice of Proposed Rulemaking.

SUMMARY: The FDIC, having concluded that the Banking Act of 1933 (commonly known as "the Glass-Steagall Act") does not prohibit FDIC insured banks which are not members of the Federal Reserve System ("insured nonmember banks") from being affiliated with companies that engage in the securities business or from having bona fide subsidiaries that engage in securities activities, is soliciting comments on (1) whether there is a need for rulemaking to condition, restrict, or prohibit insured nonmember banks from establishing or acquiring subsidiaries that issue, underwrite, sell, or distribute stocks, bonds, debentures, notes, or other securities, (2) whether there is a need for rulemaking in order to restrict the manner in which an insured nonmember bank may deal with a securities affiliate, and (3) what criteria should be taken into account in deciding if a securities subsidiary is in fact a bona fide subsidiary.

DATE: Comments must be received by October 25, 1982.

ADDRESS: Send comments to Hoyle L. Robinson, Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, D.C. 20429. Comments may be hand delivered to Room 6108 between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Pamela E. F. LeCren, Senior Attorney, Legal Division (202-389-4171), Room 4126-E, or Arthur L. Beamon, Counsel, Legal Division (202-389-4171), Room 4037, 550 17th Street, N.W., Washington, D.C. 20429.

SUPPLEMENTARY INFORMATION: On August 23, 1982 the FDIC adopted a policy statement on the applicability of the Glass-Steagall Act to securities activities of insured nonmember banks (47 FR 38984). That policy statement expressed the opinion of the Board of Directors that under the Glass-Steagall Act (1) insurance nonmember banks may be affiliated with companies that engage in securities activities, and (2) securities activities of bona fide subsidiaries of insured nonmember banks are not prohibited by section 21 of the Glass-Steagall Act (12 U.S.C. 378) which prohibits deposit taking institutions from engaging in the business of issuing, underwriting, selling, or distributing stocks, bonds, debentures, notes or other securities.

The policy statement applies solely to insured nonmember banks. As noted in the policy statement, the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et. seq.*) places certain restrictions on non-banking activities. Insured nonmember banks that are members of a bank holding company system need to take into consideration sections 4(a) and 4(c)(8) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843 (a) and (c)) and applicable Federal Reserve Board regulations before entering into securities activities through subsidiaries.

The policy statement also expressed the opinion of the Board of Directors of the FDIC that there may a need to restrict or prohibit certain securities activities of subsidiaries of nonmember banks. As the policy statement noted, "the FDIC * * * recognizes its ongoing responsibility to ensure the safe and sound operation of insured nonmember banks, and depending upon the facts, the potential risks inherent in a bank subsidiary's involvement in certain securities activities." In view of the Board's opinion as articulated in the policy statement and recent challenges to the safety or soundness of securities activities when carried on by bank subsidiaries,[1] the FDIC is soliciting public comment on, among other things, whether or not it is inherently unsafe or unsound for a bank subsidiary to engage in securities activities or whether there is a need to condition or restrict such activities (on a case-by-case basis or by regulation) even though they may not be inherently unsafe or unsound in all instances.

The FDIC is specifically requesting comments that address the following:

(1) Whether it is inherently unsafe or unsound for insured nonmember banks to establish or acquire subsidiaries that will engage in securities activities or for insured nonmember banks to be affiliated with a business engaged in securities activities;

(2) Whether certain securities activities when engaged in by subsidiaries of insured nonmember banks pose safety and soundness problems whereas others do not;

(3) Whether, and in what circumstances, securities activities of insured nonmember banks should be considered unsafe or unsound;

(4) Whether securities activities of subsidiaries present conflicts of interest that warrant restricting the manner in which the bank may deal with its securities subsidiary (or its securities affiliate), or the manner in which common officers or employees may function, etc.;[2]

---

[1] Two petitions have been filed with the FDIC challenging as unsafe or unsound the proposed entry of insured nonmember banks into the securities area through subsidiaries. One petition specifically requested that the FDIC adopt a rule prohibiting insured nonmember banks from issuing, underwriting, selling, or distributing stocks, bonds, or other securities or engaging in brokerage activities through subsidiaries or affiliates. The FDIC is issuing this advance notice of proposed rulemaking in part so that it may more ably assess the issues raised in the rulemaking request.

[2] The FDIC has in the past imposed conditions in connection with deposit insurance applications where, for example, a trust company owned by a securities dealer wished to obtain FDIC deposit insurance. Conditions that have been imposed due to possible conflicts of interest were (1) that the bank not enter into any securities transactions involving the affiliated securities dealer, (2) that no common director, officer, or employee while acting as a director, officer, or employee of the bank or while on the premises of the bank shall enter into

(5) Should securities activities be limited to subsidiaries of banks of a certain asset size, banks with a certain composite rating, etc. (See "Uniform Financial Institutions Rating system", FDIC Press Release PR 126, 1979; FDIC (P–H) p. 5079 for a definition of "composite rating");

(6) Should nonmember banks obtain FDIC's prior approval before establishing or acquiring subsidiaries that will engage in securities activities in all cases, in some cases, or not at all;

(7) Do the potential benefits, if any that would be available to insured nonmenber banks as a result of competing in the securities area through subsidiaries offset potential disadvantages to the banks; and

(8) Are there any perceived public harms in insured nonmenber banks embarking on such activities.

The FDIC is also requesting comment on how to determine if a securities subsidiary is in fact a bona fide subsidiary and not the alter ego of the parent insured nonmember bank. The policy statement issued by the FDIC indicates that, in the opinion of the Board of Directors of the FDIC, Section 21 of Glass-Steagall does not reach the securities activities of a bona fide subsidiary of an insured nonmember bank. If the subsidiary is, however, merely the alter ego of the parent bank, the bank may be deemed to be engaged in securities activities in violation of Section 21 of Glass-Steagall. The FDIC is therefore soliciting comments on whether it would be appropriate to define the term "bona fide" by listing a number of criteria. Would any of the following be appropriately included if criteria were established:

(1) Whether the bank and the subsidiary have the same or similar names so that the public might be confused as to the separate identity of the two;

(2) Whether the subsidiary maintains separate accounting and other records or conducts separate board meetings;

(3) Whether the subsidiary operates out of the same facilities as the parent bank;

(4) Whether the subsidiary has the same directors, officers, and employees as the parent bank and if there are separate employment contracts; and

(5) Whether the subsidiary is inadequately capitalized.

The public is also invited to address the following general issues:

What additional criteria, if any, should be considered? Is it appropriate at all to try to define "bona fide"? If a definition is developed and criteria used, should certain criteria be given more weight than others in making the assessment?

Comments addressing these issues and any other aspects of the general subject of permitting subsidiaries of insured nonmenber banks to engage in securities activities will be welcomed.

List of Subjects in 12 CFR Part 337

Insured nonmember banks, Glass-Steagall Act, Subsidiaries, Securities activities.

By order of the Board of Directors.

Dated: September 20, 1982.

Federal Deposit Insurance Corporation.

BILLING CODE 6714-01-M

any securities transaction with any customer of the bank, and (3) that the bank make no loans to any person for the purpose of acquiring securities from the affiliated securities dealer so long as any officer, director, or employee of the bank is a registered representative of the dealer.

See also, for example, Federal Reserve Board Regulation Y (12 CFR Part 225) which contains restrictions that have been imposed on bank holding companies that act as advisors to closed-end investment companies. Those, or similar restrictions which address conflicts of interest may or may not be appropriate in the context under consideration here.

CIVIL AERONAUTICS BOARD

14 CFR Part 399

[Policy Statements Docket 40823; PSDR-78A]

Statements of General Policy; Extension of Comment Period

AGENCY: Civil Aeronautics Board.

ACTION: Extension of comment period.

SUMMARY: This action extends until November 29, 1982 the filing date for comments in advance notice of proposed rulemaking proceeding that considers alternatives for changing the duration of experimental certificates awarded to U.S. air carriers to provide foreign air transportation in limited designation international market.

DATES:

Comments by November 29, 1982.

Reply comments by December 14, 1982.

Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

ADDRESSES: Twenty copies of comments should be sent to Docket 40823, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Comments may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT: Donald H. Horn, Associate General Counsel, Office of the General Counsel, 202–673–5205, or Joseph A. Brooks, Office of the General Counsel, 202–673–5442 or Jeffrey B. Gaynes, Legal Division, Bureau of International Aviation, 202–673–5035; Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: By Advance Notice of Proposed Rulemaking, PSDR–78, 47 FR 32442 July 27, 1982, the Board invited comment on its policy with respect to certificates in limited-designation international markets. Specifically, the Board asked for comment on alternatives that would change the duration of experimental certificates awarded to U.S. air carriers that provide service in these markets. The comment deadline was September 27, 1982.

Pan American World Airways (Pan Am) has requested an extension of this deadline. Pan Am states that recent Congressional action on Section 531 of the Airport and Airway Improvement Act of 1982, and Title V of the Tax Equity and Fiscal Responsibility Act of 1982 greatly affect the issues presented by the current rulemaking. Citing the possibility that the Board will shortly issue an order discussing the impact of the new legislation, Pan Am suggests that the comment date on this rulemaking be deferred until an order is issued.

After consideration of the foregoing, there appears to be good cause to grant a reasonable extension of time. A 60-day extension should suffice at this point for interpretation of the new legislation.

Accordingly, under authority delegated in 14 CFR 385.20(d), the time for filing comments is extended to November 29, 1982 and the time for reply comments is extended to December 14, 1982.

List of Subjects in 14 CFR Part 399

Administrative practice and procedure, Advertising, Air carriers, Antitrust, Archives and records, Consumer protection, Freight forwarders, Grant program-transportation, Hawaii, Motor carriers, Puerto Rico, Railroads, Reporting requirements, Travel agents, Virgin Islands.

Regulatory Flexibility Act

The statement required by the Regulatory Flexibility Act (Pub. L. 96–354) about the effect of the proposed rule on small business remains the same as set forth in PSDR–78.

(Sec. 204 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 49 U.S.C. 1324)

Food and Drug Administration

21 CFR Part 167

[Docket No. 78N–0364]

Virgin Olive Oil, Refined Olive Oil, and Refined Olive-Residue Oil; Termination of Consideration of Codex Standard

AGENCY: Food and Drug Administration.

ACTION: Advance notice of proposed rulemaking; termination of consideration.

SUMMARY: The Food and Drug Administration (FDA) is terminating consideration of the establishment of a U.S. standard for virgin olive oil, refined olive oil, and refined olive-residue oil based on the "Recommended International Standard for Olive Oil, Virgin and Refined, and Refined Olive-Residue Oil" (Codex standard) because there is neither sufficient interest nor need to warrant proposing a U.S. standard for these foods.

FOR FURTHER INFORMATION CONTACT: Eugene T. McGarrahan, Bureau of Foods (HFF–215), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–245–1155.

SUPPLEMENTARY INFORMATION: In the Federal Register of February 23, 1979 (44 FR 10742), FDA published an advance notice of proposed rulemaking which offered interested persons an opportunity to review the Codex standard and to comment on the desirability and need for a U.S. standard for virgin olive oil, refined olive oil, and refined olive-residue oil. The Codex standard was submitted to the United States for consideration for acceptance by the Codex Alimentarius Commission whose worldwide food standards program is sponsored jointly by the Food and Agriculture Organization (FAO) and the World Health Organization (WHO).

Sixty-five comments were received in response to the advance notice of proposed rulemaking. The majority of the comments favored establishing a U.S. standard because they wanted the sale of lower quality "refined olive-residue oil" as higher priced pure or refined olive oil to be curtailed. A number of comments opposing these standards objected to the requirement that the name for olive oil obtained by solvent extraction would be "refined olive-residue oil." The comments pointed out that solvent extraction is a commonly used method of obtaining high quality oil from oilseeds such as safflower and cotton seeds, but that the names of these oils are not required to include the word "residue" as the name of solvent-extracted olive oil would be required to do.

FDA acknowledges that solvent extraction is a standard procedure for removing oil from substances having low oil contents, such as safflower and cotton seeds. Olives, however, have a high oil content and the oil is easily removed by a mechanical or physical process, such as pressing. Solvent extraction of oil from olives is used to remove the residual oil from the pomace and pits remaining from pressing operations. Solvent-extracted olive oil is lower in quality than pressed olive oils due to the higher free fatty acid content caused by breakdown to triglycerides by enzymes liberated from the olive material during the pressing operations. As the free fatty acid content increases, the flavor and keeping quality of the oil deteriorate and the oil must undergo several refining processes to make it suitable for human consumption. For these reasons, the agency believes that it is reasonable to identify a solvent extracted olive oil as a "residue oil."

Many of the opposing comments also expressed the opinion that the "refined olive-residue oil" referred to by the Codex standard is actually "grade B glycerol olive oil," a very low quality oil that should not be permitted for sale in the United States.

The agency advises that refined olive-residue oil and grade B glycerol olive oil are not the same food. Grade B glycerol olive oil is an esterified oil produced by reacting very low quality olive-residue oil (high in free fatty acids), or alternatively, distilled fatty acids, with glycerol to form triglycerides. The result, after refining, is an edible oil, but, because it is retrieved from low quality material, it is not considered saleable in most countries of the world including the United States.

Several comments indicated that there is some confusion as to the proper labeling and nomenclature for various types of olive oils.

The name "virgin olive oil" may be used only for the oil resulting from the first pressing of the olives and which is suitable for human consumption without further processing. The name "refined olive oil" refers to the oil obtained from subsequent pressings and which is made suitable for human consumption by refining processes which neutralize the acidity and remove particulate matter. Oil extracted from olive pomace and pits by chemical means and refined to make it edible must be labeled either "refined olive-residue oil" or "refined extracted olive-residue oil." Blends of virgin olive oil and refined olive oil may be labeled as "olive oil," but blends of olive oil with other edible fats or oils must be labeled in accordance with 21 CFR 102.37.

In view of the fact that no data were submitted to support the need for this standard, FDA has concluded that there is not sufficient need to warrant proposing a U.S. standard at this time for virgin olive oil, refined olive-oil, and refined olive-residue oil under the authority of section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341).

Therefore, under the procedures in 21 CFR 130.6, notice is given that the Commissioner of Food and Drugs has terminated consideration of developing a U.S. standard for virgin olive oil, refined olive oil, and refined olive-residue oil based on the Codex standard. This action is without prejudice to further consideration of the development of a U.S. standard for virgin olive oil, refined olive oil, and refined olive-residue oil upon appropriate justification.

FDA will inform the Codex Alimentarius Commission that an imported food which complies with the requirements of the Codex standard may move freely in interstate commerce in this country, providing it complies with applicable U.S. laws and regulations.

Dated: September 16, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-4-FRL 2200-7; FL-003]

Approval and Promulgation of Implementation Plans; Florida: Proposal for TSP Nonattainment Areas

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA today proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Florida Department of Environmental Regulation (DER) for the Hillsborough County (Tampa) and Duval County (Jacksonville) particulate nonattainment areas. This action is based on the State's submittal of a control strategy and regulations as required by Part D of Title I of the Clean Air Act (CAA) of 1977. An improvement in the air quality in Hillsborough and Duval Counties is expected from this action. The public is invited to submit written comments.

DATE: To be considered, comments must be received on or before October 25, 1982.

ADDRESSES: Written comments should be addressed to Barry Gilbert of EPA Region IV's Air Management Branch (see EPA Region IV address below). Copies of the materials submitted by the Florida DER may be examined during normal business hours at the following locations:

Environmental Protection Agency, Region IV, Air Management Branch, 345 Courtland Street, N.E., Atlanta, Georgia 30365

Bureau of Air Quality Mgmt., Twin Towers Office Building, 2600 Blair Stone Road, Tallahassee, Florida 32301

FOR FURTHER INFORMATION CONTACT: Barry Gilbert of EPA Region IV's Air Management Branch, 345 Courtland Street, NE., Atlanta, Georgia 30365, telephone 404/881-3286 (FTS 257-3286).

SUPPLEMENTARY INFORMATION: In the March 3, 1978 **Federal Register** (43 FR 8962 at 8980), a number of areas within the State of Florida were designated as not attaining certain national ambient air quality standards (NAAQS). Hillsborough and Duval Counties were designated nonattainment for the secondary ambient standard for total suspended particulates (TSP). On September 11, 1978 (FR 40412), the size of these nonattainment areas were reduced. The Florida DER has developed particulate regulations requiring reasonably available control technology (RACT) in the violating areas so that the TSP secondary standard can be attained and maintained.

General Discussion

The implementation plan revision developed for these areas by the Florida DER under Part D of Title I of the CAA was submitted for EPA's approval on Feburary 27, 1981. Action on this submittal was delayed until control strategies were submitted by Florida. The revision has now been reviewed by EPA in light of the CAA of 1977, EPA regulations, and additional guidance. Section 172(b) of the Clean Air Act contains the minimum requirements for approval of Part D plans for designated nonattainment areas.

The two areas in Florida designated as nonattainment for total suspended particulate are defined as follows: The portion of downtown Jacksonville area in Duval County located just north and west of the St. Johns River and east of I-95 and just south of Trout River, and the portion of Hillsborough County that falls within the area of the circle having a centerpoint at the intersection of U.S. 41 South and State Road 60 and a radius of 12 kilometers.

The application of RACT to existing stationary sources is a required part of the particulate nonattainment corrective portion of the State Implementation Plan. Agency personnel investigated the major source categories that represent the type of sources that are located in the two Florida nonattainment areas to assist in determining specific emission limitations. These categories include (1) phosphate process operations, (2) Portland cement plants, (3) electric arc furnaces, (4) sweat or pot furnaces, and (5) materials handling, sizing, screening, crushing, and grinding operations.

The Florida Environmental Regulation Commission adopted these regulatory and non-regulatory SIP revisions following the required public hearings and participation on January 21, 1981. The control strategies, as approved and adopted for the local program agencies (the Duval County Bio-Enviromental Service Division and the Hillsborough County Environmental Protection Commission) were submitted to EPA on March 16 and April 20, 1982, respectively. In preparing the plan, both agencies prepared an extensive inventory of air pollution sources in and impacting the nonattainment area. Using this data base, the primary source categories were modelled following EPA guidelines to determine their respective contribution to the ambient air concentrations. The agencies then evaluated this information and proposed an attainment plan which, by applying RACT to traditional point and industrial process fugitive sources, would result in attainment of the TSP secondary standard by July 31, 1986.

The attainment plan for the secondary standard calls for a reduction in ambient TSP concentrations by the implementation of RACT control measures on industrial point and process fugitive emission sources, primarily in the form of more stringent mass and visible emission limits. The regulations also require certain operation and maintenance activities. Malfunctions of process or control equipment are specifically defined, along with procedures to be followed to minimize emissions when malfunctions occur. Reporting of malfunctions is required.

In reference to FAC Section 17-2.13(3)(g)-Electric Arc Furnaces, DER has placed fugitive visible emission limits of 20% opacity for charging and 40% opacity for tapping operations, to be determined by Test Reference Method 9. Where processes and operations are long-time or continuous, Method 9 would be appropriate. In the case of electric arc furnace charging and tapping emissions, a more appropriate time averaging period would be three minutes, consisting of twelve readings taken at fifteen second intervals. Florida DER has agreed to consider the issue of modifying Method 9 for short-term or intermittent processes which discharge emissions for a shorter time period. For this reason, EPA has recommended to Florida DER that they consider the need to modify and allow visible emission determinations for intermittent processes to be based on time periods shorter than six (6) minutes.

Florida DER has certified in writing to EPA that all sources of air pollution subject to this proposed action, are in fact, in compliance with the stipulated compliance schedules where add-on equipment was required. Any request for redetermination of RACT rules or regulations by an owner or operator requesting such shall be submitted to EPA for approval as a SIP revision.

Since submittal of the SIP revision, Florida Administrative Code (FAC) 17-2 was subsequently reformatted, a revision approved by EPA in the **Federal Register** on March 30, 1982 (47 FR 13338). It should be noted that the RACT rule will be contained in FAC Rules 17-2.400 and 17-2.600.

As required in Section 172(b) of the CAA, the plan also requires preconstruction review of proposed new

or modified major sources before the issuance of a permit. Through emissions offsets and the application of Lowest Achievable Emission Rate (LAER), the plan provides for reasonable further progress toward attainment of the standard as new sources construct in the area. The plan also allows growth and expansion of new sources or modification to take place in the nonattainment areas without jeopardizing progress towards attainment.

The revision submitted by Florida satisfies the requirements of Section 172(b) of the CAA.

Action. Based on the foregoing, EPA is proposing to approve the SIP under Part D of Title I of the CAA as it relates to the attainment of the secondary TSP standards in Hillsborough and Duval Counties, Florida.

As previously stated, written comments must be received on or before October 25, 1982. A thirty-day comment period is being used because the SIP submission and the issues involved are not so complex as to warrant a longer comment period. At the close of the comment period, EPA will review all comments and publish a notice of final rulemaking.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under 5 U.S.C. Section 605(b), the Administrator has certified that SIP approvals do not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709.)

[A-3-FRL 2205-6]

Commonwealth of Pennsylvania Attainment Status Designations

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Commonwealth of Pennsylvania has recommended that the sulfur dioxide (SO_2) air quality attainment designation for certain areas in Northumberland and Snyder Counties be revised from nonattainment to "Cannot be Classified". EPA proposes to approve this change as submitted by Pennsylvania. The purpose of this notice is to solicit public comment on the proposed action.

DATE: Comments must be submitted on or before October 25, 1982.

ADDRESSES: Copies of the proposed SIP revision and the accompanying support documents are available for public inspection during normal business hours at the following locations:

U.S. Environmental Protection Agency, Region III, Air Programs and Energy Branch, Curtis Building, Sixth and Walnut Streets, Philadelphia, PA 19106, ATTN: Patricia Sheridan (3AW12)

Commonwealth of Pennsylvania, Department of Environmental Resources, Bureau of Air Quality Control, 200 North 3rd Street, Harrisburg, PA 17120, ATTN: Gary Triplett

All comments on the proposed revision submitted on or before October 25, 1982 will be considered and should be submitted to Mr. Glenn Hanson at the EPA Region III address stated above.

FOR FURTHER INFORMATION CONTACT: Laurence J. Budney at the Region III address stated above or call 215/597-2842.

SUPPLEMENTARY INFORMATION:

Background

Section 107(d)(1) of the Clean Air Act (Act) requires the States to submit to the Administrator a list identifying all air quality control areas, or portions thereof, that have not attained the National Ambient Air Quality Standards. The Act further requires that the Administrator promulgate this list, with such modifications as he deems necessary, as required by Section 107(d)(2) of the Act. On March 3, 1978, based on dispersion model estimates, the administrator promulgated nonattainment designations for certain areas in Northumberland and Snyder Counties in Pennsylvania (See 43 FR 8962). The Act also provides that a State, from time to time, may review and revise its designations list and submit these revisions to the Administrator for promulgation (Section 107(d)(5) of the Act). On June 4, 1982, Pennsylvania recommended to EPA that the SO_2 air quality nonattainment designations for the areas in Northumberland and Snyder Counties be changed to "Cannot be Classified". That recommendation is based upon new information regarding the uncertainty of dispersion modeling in those areas and two years of SO_2 ambient air quality data showing attainment of the NAAQS for SO_2. The recommendation includes a commitment by the major SO_2 source in that area to conduct extensive ambient monitoring to help determine the true attainment status of the area.

Conclusion

EPA is proposing to approve the SO_2 redesignations as follows:

Northumberland County—Reclassify Lower Augusta and Point Townships from "Does Not Meet Primary Standards" to "Cannot be Classified".

Northumberland County—Reclassify Little Mahanoy, Rockefeller and Shamokin Townships from "Does Not Meet Secondary Standards" to "Cannot be Classified".

Snyder County—Reclassify Shamokin Dam from "Does Not Meet Primary Standard" to "Cannot be Classified".

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under 5 U.S.C. Section 605(b), the Administrator has certified that redesignations do not have a significant economic impact on a substantial number of small entities (See 46 FR 8709.)

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 82-357; RM-4103]

FM Broadcast Station in Terrell Hills, Texas; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed Rule; Extension of reply comment period.

SUMMARY: Action taken herein extends the time for filing reply comments in BC Docket No. 82–357 (RM–4103) concerning a proposal to substitute FM Channel 294 for Channel 292A at Terrell Hills, Texas, and to modify the license to specify operation on the Class C channel. Petitioner states that the additional time is needed to formulate a proper response.

DATE: Reply comments must be filed on or before October 1, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:
D. David Weston, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION:

Order Extending Time for Filing Reply Comments

Adopted: September 15, 1982.
Released: September 17, 1982.

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations, (Terrell Hills, Texas).

1. On June 28, 1982, the Commission adopted a Notice of Proposed Rule Making, 47 FR 31016, published July 16, 1982, in the above-captioned proceeding. Comments have been filed and reply comments were due August 31, 1982.

2. We now have before us for consideration a request for extension of time for filing reply comments, filed on September 13, 1982, by S I T Broadcasting Corporation, petitioner in the above-referenced rule making proceeding. Petitioner requests an extension to and including October 1, 1982. Petitioner states that as a result of the extraordinary circumstances set forth in the comments and the effect thereof upon petitioner's proposal to modify the existing license of its station (KESI(FM)), it will need additional time to prepare and file its reply comments.

3. Section 1.46(b) of the Commission's rules states that extension requests for filing reply comments must be filed seven days in advance of the deadline. Although this request is extremely late and we do not generally act favorably on extension requests if filed after the deadline, the Commission is of the view that under the circumstances recited, an extension of time is warranted. It appears that no other party to the proceeding would be prejudiced by the grant of the instant request and we are desirous of knowing S I T's position with respect to the comments in order to develop a sound comprehensive record on which to base a decision herein.

4. Accordingly, it is ordered, that the time for filing reply comments in BC Docket No. 82–357 (RM–4103), is extended to and including October 1, 1982.

5. This action is taken pursuant to authority contained in section 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and §§ 0.204(b) and 0.281 of the Commission's rules.

Federal Communications Commission.

Martin Blumenthal,
Assistant Chief, Policy and Rules Division, Broadcast Bureau.

[FR Doc. 82-26949 Filed 9-23-82; 8:45 am]
BILLING CODE 6712-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Parts 1300, 1306, 1307, 1309 and 1310

[Ex Parte No. 435]

Modify Rules Governing Tariff Amendments

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission is proposing to adopt a policy to allow (1) piecemeal amendments to items and pages of tariffs and schedules in lieu of requiring the reissue of entire items or pages; (2) an increase in the number of supplements and supplemental pages authorized; and (3) carriers and agents to transmit tariffs or schedules to subscribers up to 5 days after transmitting them to the Commission, unless the subscriber has requested concurrent transmission. These actions are necessary due to the escalation of carriers' independent action proposals which have necessitated a dramatic increase in the number of amendments to tariffs and schedules. This will allow carriers and agents to publish proposals quickly in an efficient manner and will save countless pages of supplemental matter.

DATE: Comments are due November 23, 1982.

ADDRESS: Send an original and, if possible, 15 copies of comments to: Interstate Commerce Commission, Ex Parte No. 435, Room 5340, Washington, D.C. 20423.

The decision with specific text of the amendments proposed can be obtained by contacting: Office of the Secretary, Room 2215, Interstate Commerce Commission, 12th and Constitution Ave., NW., Washington, D.C. 20423 (202) 275–7428.

FOR FURTHER INFORMATION CONTACT:
William P. Geisenkotter (202) 275–7739.

SUPPLEMENTARY INFORMATION: The number of tariffs or schedules filed, and amendments thereto, has increased dramatically over the past two years. The increase was the combined result of (1) the "Staggers Rail Act of 1980", enacted October 14, 1980; (2) the "Motor Carrier Act of 1980", enacted July 1, 1980; (3) the depressed economy; and (4) the Commission's Ex Parte No. 297 (Sub-No. 5), *Motor Carrier Rate Bureaus—Implementation of PL 96–296,* proceeding.

All of the above force or stress increased competition among carriers and independent rate actions by individual carriers, as opposed to collective proposals.

Competition, particularly among motor carriers, has been fierce, and the resulting increase in the number of publications has been overwhelming and very expensive.

Our rules governing the method of publication of amendments are restrictive and have resulted in the filing of tens of thousand of pages that would have been unnecessary under less restrictive regulatory requirements.

These rules were designed to avoid the over supplementation of tariffs, to keep tariff amendments clear and simple, and to transmit quickly to subscribers. All were designed to aid the tariff user. However, due to the volume increase, they appear to have become a burden to the carriers and agents, both in expenses and delays in publication.

Also, since the number of special tariff authority applications increases in proportion to the number of tariff pages filed, the proposal, if adopted, could reduce the number of applications filed.

The time has come for this Commission to reconsider these rules and its policy to determine if the burdens can be lifted without adversely affecting the public in an unreasonable manner. The following is a brief explanation of the changes we are proposing.

Tariffs and schedules are subject to limitations on the number of effective pages and supplements they may contain. We propose to revise §§ 1300.9(e)(1), 1307.5(u) and 1310.9(d)(2) to lessen the limitation to allow 8 effective supplements, each unlimited to the number of pages, but collectively subject to a maximum of 70 percent of the number of pages in the original tariff. Further, we are proposing in § 1307.5(u)(2) to authorize motor

contract carriers to publish schedules without supplemental page limitation provided the schedules are reissued at the end of two years. Also, we are proposing to change the one-year reissue requirement to two years for carriers now authorized to file these kinds of tariffs under the terms of § 1300.9(f) and 1310.9(d)(3).

We realize this will increase the size of the amended tariff and create more pages for review by the user. But carriers often will not be required to bring forward unchanged matter and negate the reissuance of tariffs or schedules prematurely. This would result in substantial savings for carriers and agents and should not overburden tariff users.

When a tariff or schedule, in bound form, is amended now, our rules require that an item be canceled completely by a new item, and that the new item bring forward all matter in the old item, even the matter not being changed. The same practice is true when a page of a tariff or schedule in loose-leaf form is amended, since the amended page is required to be specifically canceled and reprinted, as amended.

While these rules tend to assure that the rate searching process is not overly complicated, compliance therewith is costing the carriers a substantial amount of money. Therefore, we are proposing in §§ 1300.9(a)(1), 1307.5(w)(2) and (3), and 1310.10(c)(6) and (7) to authorize partial amendments to bound tariffs and allow supplements to partially amend loose-leaf pages in §§ 1300.9(e)(14), 1307.31(f)(9) and 1310.10(d)(19). This will permit the filing of relatively small supplements which would expedite publication and reduce costs for compilation, printing and mailing.

Motor common carriers of property are authorized to publish blanket supplements (a common supplement to five or more tariffs). Since the railroad agents occasionally have a need for this authority, we are extending the authority for their use in proposed § 1300.9(o).

In Docket No. 35613, *Regulations—Transmission of Tariffs and Schedules*, 349 I.C.C. 119, decided January 30, 1975, the Commission adopted regulations for the transmission of tariffs. The primary rule required that publications be transmitted to subscribers not later than the time the copies are transmitted to the Commission.

The rules were adopted to cure abuses brought to light by shipper complaints. The rules cause about a seven day delay in mailing publications and increase both handling and postage costs of the carriers.

It is our understanding that more and more carriers are publishing their own individual tariffs due to the delay, since the rate bureaus have huge mailing lists. If the rate bureaus were allowed to mail 5 days later, their costs would come down and less publications would be filed due to carriers remaining in rate bureau tariffs. This would create additional savings.

We are aware that the Commission stated in Docket No. 35613 that immediate transmission takes precedence over costs. We still agree with this general position but believe exceptions must be recognized since the economic and regulatory climate is different today than in 1975.

Therefore, we propose to amend §§ 1300.30, 1306.17, 1307.14, 1309.5 and 1310.31 to provide that the present reqirement for immediate mailing to a subscriber will only apply upon written request. The rules would authorize mailing to all other subscribers up to 5 days later. We believe this would benefit the carriers and still protect subscribers who need and desire the tariffs immediately.

Certain of the proposals would result in an additional burden on tariff users by introducing further complexity to tariffs. However, the changes we are proposing should allow carriers to react more promptly to the demands of the shipping public at reduced tariff publication costs. We specifically invite interested parties to address this issue.

Under the Regulatory Flexibility Act of 1980, we must consider whether this proceeding will have a significant economic impact on a substantial number of small entities. We do not believe that this action will significantly affect a substantial number of small entities.

This action will not significantly affect either the quality of the human environment or conservation of energy resources.

(Sec. 10762 of the Interstate Commerce Act, 49 U.S.C. 10762, and under Sec. 553 of the Administrative Procedure Act, 5 U.S.C. 553)

Decided: September 8, 1982.

By the Commission, Chairman Taylor, Vice Chairman Gilliam, Commissioners Sterrett, Andre, Simmons, and Gradison. Commissioner Sterrett concurred with a separate expression.

Agatha L. Mergenovich,

Secretary.

COMMISSIONER STERRETT, concurring:

In an environment as competitive as the motor carrier industry, carriers should have as much interest in tariff simplicity as their shippers. Easy-to-understand tariffs are a marketing tool, and are being recognized as a valuable one by many in the industry. I am not convinced that our intervention as an arbiter or monitor of what is "reasonable" tariff form is necessary or appropriate, nor do I believe that we can perform this function better than the industry can.

I believe this proposal represents an important first step in a reassessment of all existing tariff circular rules. I encourage parties to suggest other tariff publishing rules that warrant reexamination.

Advisory Committee on Instrument Standards for Cotton; Establishment

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of intent to establish advisory committee.

SUMMARY: This notice announces the intent of the Secretary of Agriculture to establish an advisory committee to provide the Department with advice on the technical and scientific aspects of measuring cotton fiber quality with instruments. The members of the committee will be drawn from all segments of the cotton industry directly affected by the use of instruments to classify cotton. Interested persons and organizations are invited to submit comments on the establishment of this committee.

EFFECTIVE DATE: October 12, 1982.

ADDRESS: Mail written comments to: Director, Cotton Division, Agricultural Marketing Service, Room 302, Cotton Annex, U.S. Department of Agriculture, Washington, DC 20250; (202) 447–3193.

FOR FURTHER INFORMATION CONTACT: Harvin R. Smith, Chief, Standards and Testing Branch, Cotton Division, Agricultural Marketing Service, Washington, DC 20250; (202) 447–2167.

SUPPLEMENTARY INFORMATION: Under the United States Cotton Standards Act (7 U.S.C. 56–58) the Secretary of Agriculture is responsible for providing cotton inspection services and official standards for the classification of cotton. In recent years instruments have been developed to replace human judgment in cotton classification and to provide additional measures of cotton quality.

The purpose of the Advisory Committee on Instrument Standards for Cotton is to advise the Secretary on the technical and scientific aspects of measuring cotton fiber quality with instruments, and make recommendations with respect to the development and application of appropriate standards, calibration, and measurement procedures. The Committee will help reconcile different interpretations of test results and scientific data between industry and the Department, and secure balanced advice from the cotton industry. The Committee's involvement will tend to insure that the program will operate in a manner which provides an effective service which can be relied upon by the industry.

The Committee shall be appointed by the Secretary and shall consist of members representing all segments of the cotton industry directly affected by the use of instruments to classify cotton. To the extent practicable, the Committee will have an ethnic, racial and sexual balance.

Advance notice of all meetings of the Advisory Committee will be published in the **Federal Register** at least 15 days prior to a scheduled meeting.

Interested persons and organizations are invited to submit comments on the establishment of this Committee.

Dated: September 21, 1982.

John Franke, Jr.,

Deputy Assistant Secretary for Administration.

BILLING CODE 3410-02-M

Commodity Credit Corporation

1982–83 Milk Price Support Program

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Notice of determinations for 1982–83 milk price support program.

SUMMARY: This Notice of Determination sets forth the support price for milk and the prices Commodity Credit Corporation (CCC) will pay for butter, cheese and nonfat dry milk (NDM) under the Milk Price Support Program for the period October 1, 1982 through September 30, 1983. The notice also sets forth the determination that beginning December 1, 1982, 50 cents per hundredweight shall be deducted from the proceeds of sale of all milk marketed commercially by producers to offset a portion of the cost of the milk price support program. Such deductions are to be collected and remitted to the CCC in accordance with regulations issued by the U.S. Department of Agriculture (USDA). These determinations are made in accordance with Section 201 of the Agricultural Act of 1949, as amended.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Charles N. Shaw, Dairy/Sweeteners Group, Analysis Division, ASCS–USDA, 3741 South Building, P.O. Box 2415, Washington, D.C. 20013; (202–447–7601). The Final Regulatory Impact Analysis describing the action taken in this rule and its impact is available from Charles N. Shaw.

SUPPLEMENTARY INFORMATION: This Notice of Determination has been reviewed under USDA procedures established to implement Executive Order 12291 and Secretary's Memorandum 1512–1 and has been classified as "major" since the determinations with respect to the level of support for milk and deductions from proceeds of milk sold by producers during the 1983 fisal year will have an effect on the economy exceeding $100 million.

The title and number of the federal assistance program to which this notice applies are: Title—Commodity Loans and Purchases; Number—10.051 as found in the Catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this Notice of Determination since the CCC is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this notice.

The Omnibus Budget Reconciliation Act of 1982, approved September 8, 1982, amends the dairy price support provisions contained in Section 201 of the Agricultural Act of 1949. Since the level of support becomes effective October 1, 1982, it has been determined that this notice should be issued without prior opportunity for public comment in order that producers, handlers, and others might be informed of these determinations as soon as possible.

Section 201(c) of the Agricultural Act of 1949, as amended (the "1949 Act"), provides that the price of milk shall be supported through purchases, at a level not in excess of 90 percent nor less than

75 percent of parity as the Secretary determines necessary in order to assure an adequate supply of pure and wholesome milk to meet current needs, reflect changes in the cost of production, and assure a level of farm income adequate to maintain productive capacity sufficient to meet anticipated future needs. Section 201(d) of the 1949 Act further provides that for the period beginning October 1, 1982, and ending September 30, 1984, the price of milk shall be supported at not less than $13.10 per hundredweight for milk containing 3.67 percent milkfat. In addition, if the Secretary estimates that the net price support purchases of milk or the products of milk will equal or exceed 5 billion pounds milk equivalent during fiscal year 1983, the Secretary may provide for a deduction of 50 cents per hundredweight from the proceeds of sale of all milk marketed commercially by producers to be remitted to the CCC to offset a portion of the cost of the milk price support program. Such deductions shall be collected and remitted to the CCC. If at any time during a fiscal year the Secretary should estimate that such net price support purchases during that fiscal year will be less than 5 billion pounds milk equivalent, the deduction shall not be applicable for the remainder of such fiscal year.

The price of milk is supported through purchases by CCC of butter, cheese and nonfat dry milk (NDM) at prices calculated to enable plant operators to pay dairy farmers a price equal to the support price. The effectiveness of the program depends on competition by manufacturers for available supplies of milk so that the average price received by farmers will equal the announced support price. At times of significant price support purchases, the purchase prices for these products tend to become the floor for the market prices of such products. Since most of the fluid milk prices are based on prices paid for manufacturing milk, the price support program undergirds all milk and dairy products prices.

Summary of the Final Regulatory Impact Analysis

The Final Regulatory Impact Analysis for the 1982–83 milk price support program analyzes the support program for manufacturing milk at the statutory minimum, $13.10 per hundredweight for milk containing 3.67 percent milkfat. This price is equivalent to $12.80 per hundredweight for milk containing 3.5 percent milkfat. With the support price at the minimum ($13.10 per hundredweight) for the 1982–83 marketing year, milk production is projected to be about 1.4 billion pounds higher than in 1981–82. However, consumption is expected to increase by 2 billion pounds, and CCC price support purchases are expected to decrease by 1.1 billion pounds (milk equivalent), thereby resulting in somewhat lower costs to the government.

A level of support of $13.10 per hundredweight is still expected to result in continued over-production of milk, large removals of dairy products by the CCC, and excessive costs to the government. A higher support price would only compound the problem by further increasing milk production. This would lead to even greater market removals by CCC and increased government costs.

Based on $13.10 per hundredweight for the 1982–83 marketing year, CCC removals of dairy products are projected to be 12.6 billion pounds, milk equivalent, compared with a projected 13.7 billion pounds in 1981–82, and 12.7 billion pounds in 1980–81.

In addition, the impact analysis for the 1982–83 milk price support program analyzes supply and use conditions which would result from the implementation of the 50-cent deduction on December 1, 1982. Even with the implementation of such 50-cent deduction, milk production in 1982–83 is likely to increase from 1981–82 levels—although the increase would likely be less than 0.5 percent. Accordingly, it is estimated that net purchases will exceed 5 billion pounds and will total 11.8 billion pounds.

Based on commercial marketings of 133.1 billion pounds of milk, the amount remitted to CCC as a result of the deduction with respect to milk marketed commercially by producers would be $561 million, thereby reducing CCC costs to about $1.5 billion.

The implementation of the deduction program would principally affect the farm income in 8 States—Wisconsin, California, New York, Minnesota, Pennsylvania, Michigan, Ohio and Iowa—that produce more than 60 pecent of the nation's milk. However, every milk producer in the United States (as defined in regulations implementing the program) who markets milk commercially will be affected by the program, including those who market milk directly to consumers.

Determination

Accordingly, it is determined that, effective for the period October 1, 1982, through September 30, 1983, the level of price support shall be $13.10 per hundredweight for manufacturing grade milk of national average milkfat content, 3.67 percent. This support level will assure an adequate supply of pure and wholesome milk to meet current needs, reflect changes in the cost of production, and assure a level of farm income adequate to maintain productive capacity sufficient to meet anticipated future needs.

The CCC purchase prices for butter, cheese and nonfat dry milk for the period October 1, 1982 through September 30, 1983 are as follows:

	Dollars per pound
Butter, U.S. grade A or higher, New York City and Jersey City, Newark and Secaucus, New Jersey [1]	1.5000
Nonfat dry milk (spray) U.S. extra grade (but not more than 3.5 percent moisture). 50-pound bags:	
Unfortified	.9400
Fortified (vitamins A and D)	.9525
Cheddar cheese, standard moisture basis:	
40-pound blocks, U.S. grade A or higher	1.3950
500-pounds in fiber barrels, U.S. extra grade	1.3650

[1] The price of butter located at any other point outside these cities will be the price at New York City minus 80 percent of the lowest published domestic railroad through freight rate for frozen butter in effect on October 1 of each marketing year from such other point to New York City. The appropriate freight car rate will be calculated on a per pound gross weight basis for a 60,000 pound carlot. However, the price at any location shall be not less than the purchase price at New York City minus 3 cents per pound. For any location in Wisconsin or Kentucky, the price shall not exceed the purchase price at Chicago which will be $1.49 per pound.

It is further estimated that net price support purchases by the Commodity Credit Corporation of milk or milk products will exceed 5 billion pounds milk equivalent during the 1983 fiscal year. A deduction of 50 cents per hundredweight shall be made from the proceeds of the sale of all milk marketed commercially by producers which shall be remitted to the Commodity Credit Corporation to offset a portion of the cost of the milk price support program beginning December 1, 1982. The deduction shall be made in accordance with regulations issued by USDA.

(Sec. 201 (c) and (d) of the Agricultural Act of 1949, as amended (7 U.S.C. 1446); and secs. 4 and 5 of the Commodity Corporation Charter Act, as amended (15 U.S.C. 714b and 714c))

Signed at Washington, D.C. on September 22, 1982.

John R. Block,

Secretary of Agriculture.

CIVIL AERONAUTICS BOARD

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits

Filed under Subpart Q of the Board's Procedural Regulations (see, 14 CFR 302.1701 et. seq.); week ended September 17, 1982.

Subpart Q Applications

The due date for answers, conforming, application, or motions to modify scope are set forth below for each application. Following the answer period the Board may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Date filed	Docket No.	Description
Sept. 15, 1982	40987	Taino International Airways, Inc., c/o George Volsky, 1522 K Street, N.W., Suite 1030, Washington, D.C. 20005. Application of Taino International Airways, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations applies for authority to engage in scheduled air transportation of passengers, property and mail to the following domestic and overseas markets: (a) Fort Lauderdale, Florida and Atlantic City, New Jersey. (b) New York, N.Y. and Aguadilla, Ponce and San Juan, Puerto Rico. Conforming Applications, motions to modify scope, and Answers may be filed by October 13, 1982.
Sept. 17, 1982	40993	Ellis Air Taxi, Inc., c/o W. T. Ellis, P.O. Box 106, Glennallen, Alaska 99588 Application of Ellis Air Taxi, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations applies for a certificate of public convenience and necessity for an indefinite term to perform scheduled intrastate air transportation of persons, property and mail within the State of Alaska between the terminal point Glennallen (Gulkana Airport), the intermediate points: McCarthy, May Creek, Chisana. Conforming Applications, motions to modify scope, and Answers may be filed by October 15, 1982.
Do	40994	Unicorn Air, Ltd., c/o Stephen L. Gelband, Hewes, Morella & Gelband & Lamberton, 1010 Wisconsin Avenue, N.W., Suite 640, Washington, D.C. 20007. Application of Unicorn Air, Ltd., pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations applies for a certificate of public convenience and necessity to provide scheduled interstate and overseas air transportation, and for a fitness determination. Conforming Applications, motions to modify scope, and Answers may be filed by October 15, 1982.
Do	40995	Unicorn Air, Ltd., c/o Stephen L. Gelband, Hewes, Morella & Gelband & Lamberton, 1010 Wisconsin Avenue, N.W., Suite 640, Washington, D.C. 20007. Application of Unicorn Air, Ltd., pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, requests issuance of a certificate of public convenience and necessity which would authorize it to engage in scheduled foreign air transportation of passengers, property and mail, as follows: New York, NY; Chicago, IL; Atlanta, GA; Washington, DC/Baltimore, MD; Boston, MA; Houston, TX; San Francisco, CA; Denver, CO; New Orleans, LA; Tampa, FL; Newark, NJ; Detroit, MI; Miami, FL; Philadelphia, PA; Dallas, TX; Los Angeles, CA; Seattle, WA; Pittsburgh, PA; St. Louis, MO; Orlando, FL. and points in the following countries: United Kingdom, including London. Federal Republic of Germany, including Frankfurt. The Netherlands, including Amsterdam. Belgium, including Brussels. Conforming Applications, motions to modify scope, and Answers may be filed by October 15, 1982.
Do	40996	Air Ontario Limited, c/o James M. Burger, Shaw, Pittman, Potts & Trowbridge, 1800 M Street, N.W., Washington, D.C. 20036. Application of Air Ontario Limited pursuant to Section 402 of the Act and Subpart Q of the Board's Procedural Regulations applies for a Foreign Air Carrier Permit to authorize it to engage in foreign scheduled air transportation of persons, property, and mail between London, Ontario and Cleveland, Ohio. Answers may be filed by October 15, 1982.

Phyllis T. Kaylor,
Secretary.

Petition of Air Midwest, Inc.; Establishment of Subsidy Mail Rates

AGENCY: Civil Aeronautics Board.

ACTION: Notice of order 82-9-66, petition of Air Midwest, Inc., for establishment of subsidy mail rate, Docket 40661.

SUMMARY: The Board is proposing to set the subsidy mail rate for the provision of service to eight Kansas and Colorado points at $2,125,536 for annual periods beginning May 4, 1982.

DATES: Objections: All interested persons having objections to the establishment of the subsidy mail rate shall file and serve upon all parties to Docket 40661, no later than September 30, 1982, a statement of objections, together with a summary of testimony, statistical data, or other material expected to be relied upon to support the stated objections.

ADDRESSES: Objections should be filed in Docket 40661, Docket Section, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428, and served upon all parties.

FOR FURTHER INFORMATION CONTACT: John R. Hokanson, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825

Connecticut Avenue, NW., Washington, D.C. 20428. (202) 673–5368.

SUPPLEMENTARY INFORMATION: The complete text of Order 82–9–66 is available from our Distribution Section, Room 100, 1825 Connecticut Avenue, NW., Washington, D.C. 20428. Persons outside the metropolitan area may send a post card request for the order to the Distribution Section, at the above address.

Dated: September 17, 1982.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

BILLING CODE 6320-01-M

[Order 82-9-58; Order 40967]

Passenger Fares Between the United States and Denmark, Norway, and Sweden; Scandinavian Airlines System; Order of Suspension and Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 7th day of September, 1982.

Scandinavian Airlines System (SAS) has filed the following tariff revisions with the Board:

(1) New winter group inclusive tour (GIT) fares from Scandinavia to New York. The fares would apply for travel from October 1, 1982, through March 31, 1983, with a holiday season blackout from December 16 through January 5. The fares would be available on Thursday or Friday flights, with return Sunday or Monday (minimum stay three nights), for groups of two persons. The proposed fare levels are about 10–28 percent lower than eastbound GIT fares from New York to Scandinavia.

(2) New "YFLA" non-affinity group fares from Scandinavia to Miami, Ft. Lauderdale and Honolulu. The fares would apply for travel from October 1, 1982, through either December 10, 1982, December 31, 1982, or March 31, 1983, for groups of 50 (Florida) or 15 (Honolulu). The new YFLA fares to Florida represent reductions of 1–9 percent from last year's YFLA levels; there were no comparable fares to Honolulu last year.[1]

(3) New normal economy and APEX fares between Spokane and Scandinavia, for travel beginning September 19, 1982, on a joint routing with Republic Airlines between Spokane and Seattle and SAS between Seattle and Scandinavia. The proposed APEX fares are 7–13 percent lower than comparable fares of Northwest Airlines.[2]

We have decided to suspend SAS' filings. Although we are always reluctant to suspend proposals which offer fare reductions to the traveling public, recent actions of the Scandinavian Governments denying fare filings of U.S. carriers and otherwise hampering their ability to compete in the Scandinavia market require us to review SAS tariff proposals more closely than we would prefer.

The actions of Denmark, Norway and Sweden have severely restricted the price/quality of service options available to U.S. and Scandinavian passengers and have imposed a higher array of fares than would otherwise exist. Therefore, we are not inclined to give sympathetic consideration to SAS fare proposals at this time.

Although we continue to hope for an acceptable resolution of U.S.-Scandinavian bilateral difficulties through negotiation, under present circumstances we have no choice but to find that it is in the public interest to suspend SAS' filing.

Accordingly, acting under the Federal Aviation Act of 1958, as amended, and particularly sections 102, 204(a), and 1002(j):

1. We shall institute an investigation to determine whether the fares and provisions set forth in the attached Appendix and rules, regulations or practices affecting such fares and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful or contrary to the public interest; and if we find them to be unlawful or contrary to the public interest, to act appropriately to prevent the use of such fares and provisions of rules, regulations, or practices;

2. Pending hearing and decision by the Board, we suspend and defer the use of the tariff provisions in the attached Appendix from September 19, 1982, to and including September 18, 1983, unless otherwise ordered by the Board, and shall permit no changes to be made therein during the period of suspension except by order or special permission of the Board;

3. We shall submit this order to the President[3] and, unless disapproved by the President within ten days, it shall become effective September 19, 1982; and

4. We shall file copies of this order in the aforesaid tariff and serve them on Scandinavian Airlines System and the Ambassadors of Denmark, Norway and Sweden in Washington, D.C.

We shall publish this order in the Federal Register.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

BILLING CODE 6320-01-M

DEPARTMENT OF COMMERCE

Bureau of the Census

Agency Forms Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of the Census.
Title: 1982 Census of Manufacturers: Report From Penal Institutions.
Type of Request: New.
Burden: 52 respondents; 104 reporting hours.
Needs and Uses: The "Report From Penal Institutions" is conducted as part of the 1982 Economic and Agriculture Censuses in accordance with the requirements of Title 13, United States Code. The data from this report are used by the Bureau of Economic Analysis in its benchmarking of national accounts and are the only source of measured output of manufactured products produced by penal institutions.
Affected Public: State and Federal prisons.
Frequency: Quinquennially.
Respondent's Obligation: Voluntary.
OMB Desk Officer: Timothy Sprehe, 395-4814.

* * * * *

Agency: Bureau of the Census.
Title: Economic Censuses.
Type of Request: Extension.
Burden: 10,000 respondents; 83,333 reporting hours.
Needs and Uses: Questions are added to the IRS income tax forms in years covered by the quinquennial economic censuses. Answers to these questions determine the establishment count for approximately 5 million businesses. This relieves these businesses from filing census reports due to the availability of IRS administrative records.
Affected Public: Sole proprietors, partnerships, and small corporations.
Frequency: Nonrecurring.
Respondent's Obligation: Mandatory.
OMB Desk Officer: Timothy Sprehe, 395-4814.

* * * * *

Agency: Bureau of the Census.
Title: 1982 Census of Agriculture Coverage Evaluation.
Type of Request: New.
Burden: 20,000 respondents; 4,833 reporting hours.
Needs and Uses: The purpose of the 1982 Census of Agriculture Rural Coverage Evaluation is to estimate the number and characteristics of farms not on the census of agriculture mail list. The results are published in order to provide users of census data information that might affect their use of the data.
Affected Public: Housing units across the U.S.
Frequency: Nonrecurring.
Respondent's Obligation: Mandatory.
OMB Desk Officer: Timothy Sprehe, 395-4814.

* * * * *

Agency: Bureau of the Census.
Title: Construction Progress Report (Multi-family Residential).
Type of Request: Extension.
Burden: 3,000 respondents; 7,500 reporting hours.
Needs and Uses: These statistics are used in economic research and analysis to assess the effect of construction activity on the economy and for direct input to the National Income and Products Accounts. They are also used for marketing research and by private business.
Affected Public: Owner of multi-family residential buildings.
Frequency: Monthly.
Respondent's Obligation: Voluntary.
OMB Desk Officer: Timothy Sprehe, 395-4814.

* * * * *

Agency: Bureau of the Census.
Title: Current Population Survey.
Type of Request: Revision.
Burden: 174,000 respondents; 90,480 reporting hours.
Needs and Uses: The data will be used to determine differences in the characteristics of union members vs. non-union workers.
Affected Public: Household respondents in one-fourth of monthly sample of 58,000 interviewed households.
Frequency: Monthly.
Respondent's Obligation: Voluntary.
OMB Desk Officer: Timothy Sprehe, 395-4814.

* * * * *

Agency: Bureau of the Census.
Title: Survey of Plant Capacity Utilization.
Type of Request: Revision.
Burden: 9,000 respondents; 13,500 reporting hours.
Needs and Uses: Survey results are used by the Federal Reserve Board to benchmark its monthly series and by other government agencies, such as the Bureau of Industrial Economics and the Bureau of Economic Analysis, business firms, trade associations, and research organizations to measure inflationary pressures and capital flows, to understand productivity determinants, to forecast economic trends, and to analyze industry trends and averages.
Affected Public: Manufacturing establishments.
Frequency: Annually.
Respondent's Obligation: Mandatory.
OMB Desk Officer: Timothy Sprehe, 395-4814.

* * * * *

Agency: Bureau of Economic Analysis.
Title: Industry Classification Questionnaire (Foreign Direct Investment in the United States).
Type of Request: Revision.
Burden: 1,750 respondents; 875 reporting hours.
Needs and Uses: Secures data necessary for classifying by industry U.S. business enterprises in which a foreign person has an equity interest of 10 percent or more. Required for the preparation of the balance of payments and international investment accounts of the United States.
Affected Public: U.S. affiliates of foreign companies.
Frequency: On occasion.
Respondent's Obligation: Mandatory.
OMB Desk Officer: Timothy Sprehe, 395-4814.

* * * * *

Agency: Bureau of Economic Analysis.
Title: Benchmark Survey of U.S. Direct Investment Abroad—1982.
Type of Request: New.
Burden: 3,600 respondents; 414,000 reporting hours.
Needs and Uses: Secures financial and operating data on U.S. parent companies and their foreign affiliates, including information on balance sheets, income statements, external financing by transactor, employment, U.S. trade, sales by destination and affiliation; property, plant, and equipment, and research and development expenditures; and transactions between U.S. parents and their foreign affiliates. Required for preparation of the balance of payments, international investment, and GNP accounts.
Affected Public: U.S. persons owning foreign business enterprises.
Frequency: Quinquennially.
Respondent's Obligation: Mandatory.
OMB Desk Officer: Timothy Sprehe, 395-4814.

* * * * *

Agency: Bureau of Economic Analysis.
Title: Industry Classification Questionnaire (Direct Investment Abroad).
Type of Request: Revision.
Burden: 550 respondents; 550 reporting hours.
Needs and Uses: Secures data necessary for classifying by industry foreign business enterprises in which a U.S. person has an equity interest of 10 percent or more.

Required for the preparation of the balance of payments and international investment accounts of the United States.

Affected Public: U.S. companies with foreign investments.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Timothy Sprehe, 395–4814.

* * * * *

Agency: Economic Development Administration.

Title: Current and Projected Employee and Payroll Data.

Type of Request: Extension.

Burden: 1,000 respondents; 1,000 reporting hours.

Needs and Uses: In the pre- and post-approval review of projects, EDA needs information from beneficiaries of its financial assistance to evaluate their: (1) job development efforts; (2) civil rights posture; and (3) business and financial plans and practices.

Affected Public: Recipients of EDA assistance.

Frequency: On occasion, annually.

Respondent's Obligation: Required to obtain or retain benefit.

OMB Desk Officer: Timothy Sprehe, 395–4814.

* * * * *

Agency: International Trade Administration.

Title: Scope and Impact of Oil and Gas Sanctions.

Type of Request: New.

Burden: 40 respondents; 80 reporting hours.

Needs and Uses: The information obtained would be used to identify foreign dependence on U.S. oil/gas equipment and technology.

Affected Public: U.S. manufacturers and distributors of oil and gas equipment and technology, their foreign affiliates and licensees.

Frequency: Nonrecurring.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ken Allen, 395–3785.

* * * * *

Agency: International Trade Administration.

Title: Questionnaire for Major Producers and Importers of Nuts, Bolts and Large Screws of Iron and Steel.

Type of Request: New.

Burden: 89 respondents; 890 reporting hours.

Needs and Uses: This survey is required to satisfy the agency's statutory responsibilities for an investigation of the industrial fastener industry per Section 232 of the Trade Expansion Act of 1962, as amended.

Affected Public: Producers of and import wholesalers of nuts, bolts, and large screws of iron or steel.

Frequency: Nonrecurring.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Ken Allen, 395–3785.

* * * * *

Agency: International Trade Administration.

Title: Copper Controlled Materials.

Type of Request: Extension.

Burden: 1,000 respondents; 540 reporting hours.

Needs and Uses: The information collected is required for the enforcement and administration of the delegated authority of the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061; *et seq.*), to manage the consumption and use of copper and copper base alloys.

Affected Public: Copper producers.

Frequency: Quarterly.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Kken Allen, 395–3785.

* * * * *

Agency: National Oceanic and Atmospheric Administration.

Title: Dealer Purchases and Trip Interviews.

Type of Request: Revision.

Burden: 4,547 respondents; 8,474 reporting hours.

Needs and Uses: Data on dealer purchases and from trip interviews are required inputs in proposing and evaluating fishery management and development activities of the National Marine Fisheries Service.

Affected Public: Commercial fishermen and dealers.

Frequency: On occasion, weekly, and monthly.

Respondent's Obligation: Voluntary, required to obtain or retain benefit, and mandatory.

OMB Desk Officer: Ken Allen, 395–3785.

* * * * *

Agency: National Oceanic and Atmospheric Administration.

Title: European Weekly Frozen Fish Report and Export Opportunities Evaluation.

Type of Request: New.

Burden: 3,140 respondents; 248 reporting hours.

Needs and Uses: The *European Weekly Frozen Fish Report* project and the publishing of *Fishery Export Opportunities* commenced in 1979 at the request of the New England fishing industry. This evaluation is necessary to gauge the usefulness of these reports to the U.S. fishing industry and to identify areas for improvement in the reports. Evaluation results will determine if reports will be continued or need to be revised to meet industry needs.

Affected Public: Seafood producers, seafood exporters.

Frequency: Nonrecurring.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ken Allen, 395–3785.

* * * * *

Agency: National Oceanic and Atmospheric Administration.

Title: Automatic Picture Transmission (APT) Station Questionnaire.

Type of Request: New.

Burden: 400 respondents; 200 reporting hours.

Needs and Uses: This information collection will be used to maintain an address and status file for all satellite ground stations, which will enable the Department to provide information on current and proposed environmental satellite operations to such stations. In addition, the questionnaire will be used to collect information for the Department's data base which plays a role in the design and operation of satellites, and helps determine applications of satellite data.

Affected Public: U.S. and foreign meteorological space agencies, academic and commercial institutions, and amateur radio operators.

Frequency: Annually.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ken Allen, 395–3785.

* * * * *

Agency: National Oceanic and Atmospheric Administration.

Title: Hawaii Fish Dealer Survey.

Type of Request: Extension.

Burden: 110 respondents; 55 reporting hours.

Needs and Uses: Survey will contribute to the analysis of the wholesale fisheries sector by evaluating the impact of various management alternatives. Additionally, domestic processing capability will be estimated and used to determine optimal yield for fishery management plans.

Affected Public: Fish wholesalers.

Frequency: Bimonthly random sample.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ken Allen, 395–3785.

* * * * *

Agency: National Telecommunications and Information Administration.

Title: Public Telecommunications Facilities Program Grant Application.

Type of Request: Extension.

Burden: 816 respondents; 5,490 reporting hours.

Needs and Uses: The Public Telecommunications Financing Act of 1978 as amended by the Public Broadcasting Amendments Act of 1981 authorized grants to be awarded for the planning and construction of public telecommunications facilities. In order to monitor the use of grant funds, grantees are required to submit certain reports annually.

Affected Public: Public telecommunications stations.

Frequency: Annually.

Respondent's Obligation: Required to obtain or retain benefit.

OMB Desk Officer: Ken Allen, 395–3785.

Copies of the above information collection proposals can be obtained by calling or writing DOC Clearance Officer, Edward Michals (202) 377–4217, Department of Commerce, Room 6622, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Written comments and recommendations for the proposed information collections should be sent to the respective OMB Desk Officer, Room 3235, New Executive Office Building, Washington, D.C. 20503.

Edward Michals,

Departmental Clearance Officer.

BILLING CODE 3510-CW-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcing Import Restraint Level for Certain Cotton, Wool, and Man-Made Fiber Apparel Products From Mauritius

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing an import restraint level of 115,000 dozen for cotton, wool, and man-made fiber knitwear apparel products in Categories 338, 339, 345, 438, 445, 446, 638, 639, 645, and 646, as a group, produced or manufactured in Mauritius and exported to the United States during the twelve-month period beginning on October 1, 1982 and extending through September 30, 1983.

(A detailed description of the textile categories in terms of T.S.U.S.A. number was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963), October 27, 1981 (46 FR 52409), February 9, 1982 (47 FR 5926), and May 13, 1982 (47 FR 20654))

SUMMARY: The Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of October 2 and 5, 1981 between the Governments of the United States and Mauritius establishes a twelve-month period of restraint for cotton, wool, and man-made fiber knitwear apparel products in Categories 338, 339, 345, 438, 445, 446, 638, 639, 645, and 646, as a group, in the third agreement period beginning on October 1, 1982 and extending through September 30, 1983. In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs, in accordance with the terms of the bilateral agreement, to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of textile products in Categories 338, 339, 345, 438, 445, 446, 638, 639, 645, and 646, as a group, produced or manufactured in Mauritius and exported during the twelve-month period beginning on October 1, 1982 and extending through September 30, 1983, in excess of 115,000 dozen.

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Diana Bass, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230; (202/377–4212).

Walter C. Lenahan,

Acting Chairman, Committee for the Implementation of Textile Agreements.

September 21, 1982.

Committee for the Implementation of Textile Agreements

Commissioner of Customs, Department of the Treasury, Washington, D.C. 20229.

Dear Mr. Commissioner: Under the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of October 2 and 5, 1981, between the Governments of the United States and Mauritius and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on October 1, 1982 and extending through September 30, 1983, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in Categories 338, 339, 345, 438, 445, 446, 638, 639, 645, and 646, as a group, in excess of 115,000 dozen.

In carrying out this directive entries of textile products in Categories 338, 339, 345, 438, 445, 446, 638, 639, 645, and 646, as a group, which have been exported to the United States on and after April 1, 1982 and extending through September 30, 1982, shall, to the extent of any unfilled balance, be charged against the level of restraint established for such goods during that six-month period. In the event the level of restraint established for that period has been exhausted by previous entries, such goods shall be subject to the level set forth in this letter.

The level set forth above is subject to adjustment in the future according to the provisions of the bilateral agreement of October 2 and 5, 1981, between the Governments of the United States and Mauritius, which provide, in part, that (1) the level may be exceeded by not more than 7 percent for carryforward and (2) the two governments agree to consult on any question arising in the implementation of the bilateral agreement. Any appropriate adjustments under the provisions of the agreement, referred to above, will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963), October 27, 1981 (46 FR 52409), February 9, 1982 (47 FR 5926), and May 13, 1982 (47 FR 20654).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The action taken with respect to the Government of Mauritius and with respect to imports of cotton, wool and man-made fiber textile products from Mauritius has been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register.**

Sincerely,

Walter C. Lenahan,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

DEPARTMENT OF DEFENSE

Department of the Air Force

Community College of the Air Force (CCAF) Advisory Committee; Meeting

The Community College of the Air Force Advisory Committee will hold a meeting on October 19, 1982 at 8:30 a.m. in the Conference Room, Number 121, Building 836, located at Maxwell Air Force Base, Montgomery, Alabama.

The meeting is open to the public.

Agenda items include: State of the College, Academic Policy Considerations, Manpower Plan Review, Accreditation Visit Schedule, New Computer System, Catalog, and Student Affairs.

For further information contact Lt. Col. James H. Conely, 205–293–6386, Community College of the Air Force, Maxwell, AFB, Alabama 36112.

Winnibel F. Holmes,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910-01-M

Engineers Corps

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the Study To Determine the Feasibility of Modifying Hodges Village Dam and Reservoir, Oxford, Massachusetts

AGENCY: New England Division, Army Corps of Engineers, DOD.

ACTION: Notice of intent to prepare a draft environmental impact statement.

SUMMARY: 1. The proposed action is a plan to provide improved water quality in a portion of the French River in Massachusetts and Connecticut. During the course of the study, other water resource needs have also been investigated, including flood control

recreation, and fish and wildlife management.

2. The alternative being considered include: (a) Improving water quality in the French River downstream of the towns of Webster and Dudley, Massachusetts by providing water storage at Hodges Village Dam for low flow augmentation releases in conjunction with advanced wastewater treatment at the Webster treatment plant. Water storage would be provided by the creation of a 200 acre seasonal impoundment.

(b) Take no action.

3. (a) Close coordination with key resource agencies and local interests is underway to determine the problems and needs to be addressed and to identify the significant issues related to each alternative being considered. Additional coordination with other agencies will be made as issues and alternatives are more clearly defined. Affected Federal, State and local agencies and other interested organizations and parties will continue to be encouraged to participate in the identification of issues, problems and needs and the formulation of alternative courses of action by communicating with the addressee listed below.

(b) Significant issues to be analyzed in depth in the DEIS include river basin water quality improvement needs, fish and wildlife habitat requisites, potential impacts on existing recreation usage, and reservoir vegetation clearing impacts.

(c) Consultation with the Massachusetts State Historic Preservation Officer, and the U.S. Department of Interior will be initiated in accordance with the National Historic Preservation Act of 1966 and Executive Order 11593. Planning is being coordinated with the U.S. Fish and Wildlife Service on an informal and formal basis, including the procedures required by the Fish and Wildlife Coordination Act of 1958 and the Endangered Species Act Amendments of 1978.

4. A scoping meeting will be held. The date and location will be identified through Public Notice procedures.

5. the DEIS is scheduled to be completed and available for review in August 1982.

ADDRESS: Information concerning the proposed action and DEIS can be obtained by contacting: Charles B. Freeman, Impact Analysis Branch, New England Division, U.S. Army Corps of Engineers, 424 Trapelo Road, Waltham, Massachusetts 02254, ATTN: NEDPL–I, Phone (617) 647–8139, (FTS 839–7139).

Dated: September 16, 1982.

Carl B. Sciple,

Colonel, Corps of Engineers Division Engineer.

BILLING CODE 3710-24-M

Office of the Secretary

Defense Advisory Committee on Women in the Services (DACOWITS); Meeting

Pursuant to Pub. L. 92–463, notice is hereby given that a meeting of the Defense Advisory Committee on Women in the Services (DACOWITS) will be held 7–11 November 1982 at the Bordeaux Motor Inn Convention Center, Fayetteville, North Carolina.

The purpose of the DACOWITS Committee is to assist and advise the Secretary of Defense on matters relating to women in the Services. The Committee meets semiannually.

Sessions will be conducted daily as indicated and will be open to the public. The agenda will include the following meeting and discussions:

Sunday, 7 November 1982—**Bordeaux Motor Inn Convention Center**

12:00 noon–9:00–p.m.–Registration
2:00 p.m.–Executive Committee Meeting
3:00 p.m.–5:00 p.m.–Chair's Procedural Session for all DACOWITS Members, Former Members, and Military Representatives
5:00 p.m.–6:30 p.m.–Subcommittee Meeting
7:00 p.m.–8:30 p.m.–"No-Host" Cocktail Buffet

Monday, 8 November 1982—**Bordeaux Motor Inn Convention Center**

8:00 a.m.–12:00 noon–Registration
8:00 a.m.–8:45 a.m.–Official Opening
9:00 a.m.–12:30 p.m.–OSD/Service Briefings
12:30 p.m.–2:00 p.m.–Official Department of Defense Luncheon (By invitation only)
2:00 p.m.–3:30 p.m.–OSD/Service Briefings
3:30 p.m.–5:30 p.m.–Subcommittee Meetings
7:00 p.m.–10:30 p.m.–Official Department of Defense Reception and Dinner (By invitation only)

Tuesday, 9 November 1982—**Fort Bragg**

8:00 a.m.–5:00 p.m.–Field Trip to Fort Bragg, Fayetteville, North Carolina

Wednesday, 10 November 1982—**Bordeaux Motor Inn Convention Center**

8:30 a.m.–12:00 noon–OSD/Service Briefings
12:00 noon–1:30 p.m.–"No Host" Luncheon
1:30 p.m.–4:30 p.m.–Subcommittee Meetings

Thursday, 11 November 1982—**Bordeaux Motor Inn Convention Center**

8:00 a.m.–9:45–General Business Session Adjourn

Members of the public will not be permitted to go on the field trip or attend the social functions.

The following rules and regulations will govern the participation by members of the public at the meeting:

(1) All business sessions, to include the Executive Committee sessions, will be open to the public.

(2) Interested persons may submit a written statement and/or make an oral presentation for consideration by the Committee during the meeting.

(3) Persons desiring to make an oral presentation or submit a written statement to the Committee must notify Captain Mary J. Mayer, USAF, DACOWITS Executive Secretary, OASD (Manpower, Reserve Affairs and Logistics), Room 3D769, the Pentagon, Washington, D.C. 20301, (202) 697–2122 by 22 October 1982.

(4) Length and number of oral presentations to be made will depend on the number of requests received from the members of the public.

(5) Oral presentations by members of the public will be permitted only from 8:00 a.m. to 8:30 a.m. on Thursday, 11 November 1982, before the full Committee.

(6) Each person desiring to make an oral presentation or submit a written statement must provide the DACOWITS Secretariat with 55 copies of the presentation/statement by 22 October 1982.

(7) Persons submitting a written statement only for inclusion in the minutes of the meeting must submit one (1) copy either before or during the meeting or within (5) days after the close of the meeting.

(8) Members of the public will not be permitted to enter into oral discussion conducted by the Committee members at any of the sessions; however, they will be permitted to reply to questions directed to them by the members of the Committee.

(9) Members of the public will be permitted to orally question the scheduled speakers if time allows after the official participants have asked questions and/or made comments.

(10) Questions from the public will not be accepted during the subcommittee sessions, the Executive Committee sessions, or the Business Session on Thursday, 11 November 1982.

Additional information regarding the Committee and/or this meeting may be obtained by contacting the DACOWITS Executive Secretary, OASD (MRA&L), the Pentagon, Room 3D769, Washington, D.C. 20301.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

September 21, 1982.

[FR Doc. 82-26097 Filed 9-23-82; 8:45 am]

BILLING CODE 3810-01-M

DEPARTMENT OF ENERGY

Bonneville Power Administration

Environmental Record of Decision on the 1982 Rate Proposal

AGENCY: Bonneville Power Administration (BPA), DOE.

ACTION: Record of Decision.

SUMMARY: I have decided to submit to the Federal Energy Regulatory Commission (FERC) a proposal to adjust BPA's wholesale power rates in order to achieve total revenues of $2.2 billion in Fiscal Year (FY) 1983. The decisions made regarding the proposed wholesale power rates are incorporated into the wholesale power rate schedules which are attached as Exhibit B to the rate order filed with FERC. These recommendations are based on a comprehensive review of BPA's Final Environmental Impact Statement (EIS) on the 1982 Rate Proposal, as well as all other materials appurtenant to the rate process. A draft EIS was prepared on BPA's wholesale power rate proposal and circulated to the public for review and comment. Notice of availability of the draft EIS was published in the Federal Register and comments were accepted through the close of BPA's formal rate hearings on wholesale power rates on June 25, 1982. Subsequent to the close of these hearings, a final EIS was prepared based on the draft EIS and comments received on the draft EIS. Copies of the final EIS have been distributed to interested public and additional copies are available upon request from the BPA Environmental Manager.

The proposed rates would permit BPA to collect sufficient revenue to meet its statutorily mandated repayment requirement. Pending FERC approval, the proposed rate adjustment is scheduled to become effective on October 1, 1982. A formal appeal process allows those who desire to comment on the final EIS or the Record of Decision to intervene by filing a petition with FERC.

This Record of Decision is being issued concurrently with the publication of the final EIS pursuant to the Council on Environmental Quality Regulations (40 CFR 1506.10(b)(2) 1981).

SUPPLEMENTARY INFORMATION:

Alternatives Considered and Environmental Impacts

A number of alternative revenue levels and rate designs were evaluated in the EIS. These alternatives were selected in a manner intended to insure consideration of the range of all reasonable alternatives.

Revenue Level Alternatives: The EIS examined five basic revenue alternatives: no action; the initial proposal; modification of the proposal to exclude payment of irrigation assistance, extend the amortization period for generation facilities, and exclude recovery of increased shared facility costs resulting from the termination of two nuclear plants under construction by the Washington Public Power Supply System; long run incremental cost (LRIC) pricing; and phased-in LRIC pricing.

Under the no action alternative, BPA would maintain its existing rate structure, resulting in a revenue deficiency of $731 million, given initial estimated FY 1983 loads. Consequently, if this alternative were implemented, BPA would be prohibited from meeting its financial obligations, its statutory requirement to be self-financing would be violated, and the shortfall would have to be recovered from future ratepayers.

Revenues derived under the proposed revenue level alternative would be sufficient to meet BPA's FY 1983 revenue requirement as determined in BPA's initial proposal and would represent a 43 percent increase over the estimated revenues that would be collected under current rates during FY 1983 using the initial FY 1983 load forecast. This alternative allows BPA to meet all financial obligations and provides that customers receiving service during FY 1983 would pay the full costs incurred during FY 1983 to provide that service.

Several aspects of BPA's repayment analysis could be modified to reduce BPA's revenue requirements. However, these modifications are either outside BPA's current statutory authority, and thus would require Congressional action in order to implement, or would violate current contractual agreements. One way the repayment analysis could be modified would be to eliminate irrigation assistance from BPA's revenue requirement. The effect, however, would be so small that the total revenue requirement for FY 1983 would be virtually unaffected. BPA's repayment process also could be modified by extending the amortization period for generation facilities, thereby reducing the proposed increase in the revenue by approximately 2 percent. Finally, if shared costs of Supply System Plants 4 and 5 were excluded from the budgets for Plants 1 and 3, BPA's revenue requirement for FY 1983 would decrease by approximately 3 percent.

LRIC or marginal cost based rates would price wholesale power at the projected long run cost of acquiring new power resources in the Pacific Northwest. Rates based on the long run incremental costs developed in BPA's 1982 Time-Differentiated Long Run Incremental Cost Analysis if applied to BPA's projected FY 1983 sales volume would produce revenues of approximately $5.7 billion. These revenues would be approximately 250 percent higher than revenues recovered under the no action revenue alternative and 133 percent higher than revenues received under the proposed alternative.

One method of easing the impact of shifting to LRIC pricing would be to phase in the LRIC rates over a 5-year period. One-fifth of the difference between rates based on the proposed rate level and rates based on the 1982 LRIC Analysis could be added to the proposed rate each year for 5 years. Rates designed in this manner and applied to BPA's projected FY 1983 sales volume would recover revenues of approximately $3.1 billion. This would represent an increase of 90 percent over revenues recovered under the no action alternative and 27 percent over revenues collected under the proposed alternative.

Both the revenue level based on LRIC pricing and that based on graduated LRIC would violate the directive in the Bonneville Project Act that BPA rates be the lowest possible consistent with sound business principles. Potential questions also would be raised as to how excess revenues should be distributed or invested.

Increases in the price of electricity discourage consumption. Correspondingly, the level of adverse physical environmental impact associated with the production and consumption of electricity can be expected to vary inversely with the price of electricity (revenue level). These changes in impact would be offset to some extent by changes in the use of alternative forms of energy such as wood, oil, and natural gas. Some alternative energy sources (e.g., solar or wind) may involve lower levels of environmental impact than those associated with conventional thermal generation; other alternatives (e.g., wood) may involve higher levels of impact.

In contrast to physical environmental impacts, socioeconomic impacts would be expected to increase directly with the price of electricity (revenue level). The level of revenue produced by rates based on marginal cost, for example, could have substantial adverse

economic impacts on virtually all regional power consumers, particularly irrigators and low income residential consumers. However, BPA's October 1, 1982, rate proposal is not expected to have serious economic consequences for the Region's electricity consumers (EIS Chapter V(B)(3)).

It is my conclusion after reviewing all pertinent information that the revenue increase I am proposing is the least harmful from an environmental standpoint. It recognizes both the need to minimize potential adverse impacts to the physical environment associated with increases in the use of electricity, as well as the need to take account of the socioeconomic consequences of increases in electricity rates. I believe that the socioeconomic effects of my proposal are within reason and would not result in undue hardship for BPA's customers. I recognize that, on the one hand, the impacts of this proposed rate increase may include reduced growth in the demand for electricity, a lowered rate of new resource additions, and spurred development of alternative energy sources. On the other hand, these impacts also may include additional air pollution, associated with increased use of woodstoves, a strain on lower income groups to stay within their budgets, and a somewhat reduced rate of growth within the region of irrigated agriculture. The proposed revenue increase also will enable BPA to conform to its statutory guidelines for meeting repayment requirements and to ensure the prudent operation of the Federal Columbia River Power System (FCRPS).

Rate Design Alternatives: I considered the environmental effects of several potentially feasible rate design alternatives in arriving at my decision regarding the design of specific rate schedules. Such schedules included those applicable to the sale of priority firm power, industrial and modified firm power, new resources firm power, nonfirm energy, and firm capacity. I did not consider alternatives to the other rate schedules because I do not anticipate that revenues from sales under these rates or associated environmental effects will be significant.

I am proposing a uniform demand/energy rate structure for the priority firm rate with a daily and seasonal differential in the demand charge and a seasonal differential in the energy charge. The alternatives considered for the proposed structure of the priority firm rate include tiered rates and rates based on the inverse elasticity principle. Tiered rates involve application of different rates to specific blocks of consumption. Under the inverse elasticity approach, customers most responsive to an increase in the cost of electricity would be charged rates closer to incremental costs than those rates charged less elastic customers. I chose to exclude tiered rates from the rate proposal because of unresolved concerns about their effects on BPA revenue stability, the potential that they might unnecessarily duplicate the function of BPA's billing credit program, and variations they might produce in customer power costs. I rejected basing rates on the inverse elasticity principle because of the lack of reliable elasticity estimates for BPA's customer classes.

The industrial firm power rate schedule which I am proposing reflects a value of reserves credit that recognizes the value of reserves provided by BPA rights to interrupt direct-service industry (DSI) load. Alternatives I considered and rejected included eliminating the credit, providing a different amount of credit, applyng the credit in a different manner, or tiering the rates. BPA conducted an extensive study to evaluate the reserves offered by DSI's. Alternative methods considered for applying the reserve credit or tiering the rates could create revenue stability problems. Elimination of the credit would violate the requirements of the Pacific Northwest Electric Power Planning and Conservation Act.

The new resources rate that I am proposing would be based on the cost of exchange recources. An alternative to the proposed rate would be a rate similar to the existing rate that is based on an averaging of the power costs of all new resources acquired by BPA. However, such a rate may cause this power to be unmarketable. No purchases have been made under the existing rate, as no investor-owned utilities in the Pacific Northwest have signed the offered power sales contracts which would allow them to purchase power at the new resources rate. A second alternative would be to include two levelized rates in the rate schedule, the first based on lowest cost new resources and the second based on BPA's most costly new resources, the output of which would be marketed as surplus power. This alternative was rejected because sales under the first level would underrecover the average cost of new resources, and power marketed under the second level would be so expensive it would be unmarketable.

The nonfirm rate schedule I am proposing consists of (1) a standard rate in effect at all times, except when a spill or imminent spill condition exists; (2) a spill rate; and (3) an incremental rate applied when the incremental cost of power produced or purchased concurrently with the nonfirm sale is greater than the standard rate. Alternative nonfirm rate schedules considered include a schedule similar to the existing schedule that reflects costs of resources used to produce Federal nonfirm energy, a share-the-savings rate similar to BPA's 1979 nonfirm energy rate, and a flat rate. The proposed rate was selected because it appears to be more acceptable to customers than the current rate, easier to administer than the share-the-savings rate, and more flexible in responding to water and market conditions than the flat rate. If the flat rate were set too high it could discourage purchases of nonfirm energy, resulting in less displacement of thermal resources and increased air and water pollution levels.

I am proposing a firm capacity rate that includes a provision for an additional monthly charge if capacity use exceeds 9 hours per day. In addition to the firm capacity rate I am proposing, I considered a firm capacity rate with no additional monthly charge for capacity use in excess of 9 hours per day and a time-differentiated firm capacity rate. The elimination of the excess capacity charge could result in the need for additional facilities to provide peaking capacity and associated negative physical and socioeconomic environmental impacts. The time-differentiated alternative would have approximately the same effect on the demand for capacity as the proposed rate, but would involve a greater level of administrative complexity.

Decision Factors

I based my decisions concerning level and design of the rates on legal requirements, rate design objectives, and a consideration of environmental impacts.

1. *Legal Requirements.* The Bonneville Project Act requires BPA to establish rates that will recover all costs associated with production, acquisition, and transmission of electric power and to recover the Federal investment in the Federal Columbia River Power System. This Act directs that rates be designed to "* * * encourage the widest diversified use of electric energy * * *" at the "* * * lowest possible rate * * * consistent with sound business principles." The Transmission System Act placed BPA on a self-financing basis, requiring it to pay all operating expenses with revenues collected from its rates.

The Pacific Northwest Power Planning and Conservation Act reaffirms

directives in previous statutes and expands BPA's responsibilities. The Act contains specific provisions regarding power sales, rates, and procedures for establishing rates.

2. *Rate Design Objectives.* In addition to meeting legal requirements, BPA rates are designed to meet its revenue requirement while distributing the burden in an equitable manner among recipients of the service, encourage conservation and minimize environmental impacts, and encourage efficient use of resources by reflecting costs incurred and benefits received. Additionally, consideration is given to rate continuity, ease of administration, revenue stability, customer acceptability, and ease of understanding.

3. *Environmental Impacts.* BPA's analysis of the environmental impacts of the alternatives revealed that the 1982 proposed revenue level would reduce regional load requirements from that expected if rates were not increased. Over time, decreases in electricity load growth would limit the regional need for new generation resources equal to three 500 megawatt coal plants and one 1,000 megawatt nuclear plant. Elimination of the new generation would avoid accompanying land use, solid waste, water, and air quality impacts associated with mining, processing, and power production. These avoided environmental effects would be somewhat offset by physical environmental effects resulting from increases in use of alternative energy sources.

The socioeconomic impacts of the revenue level I am proposing for recovery during FY 1983 would be significant for certain types of consumers. Low-income consumers would be more seriously affected by an increase in electricity rates than other residential consumers; the mental, physical, and economic well-being of the low-income elderly could be strained. The proposal could cause DSI's or other energy intensive industrial consumers to hasten decisions to either improve plant efficiency or shut down operations entirely. Some farmers could be forced to go out of business and some acreage could revert to dryland agriculture or be taken out of production. A decrease in irrigated acreage and DSI operations, while creating economic hardships for those employed in these areas, may produce certain benefits to the physical environment.

The proposed rate design alternatives would not cause environmental impacts significantly different than those experienced under BPA's current rate design.

Mitigation

Existing and proposed conservation programs offered by BPA could mitigate socioeconomic impacts of the proposed rate increase. BPA offered in FY 1981 and FY 1982 and is planning to offer in FY 1983 energy conservation programs through its utility customers to residential, irrigation, business, and industrial consumers. The programs would help residential consumers decrease electricity used for space and water heating, improve the use and distribution efficiencies of irrigators, and would aid commercial and industrial consumers in conserving electricity used in industrial processes, lighting, and water heating.

BPA also is implementing or plans to implement energy conservation programs for other consumers in the Pacific Northwest. These include technical assistance to State and local governments, energy conservation audits and installation of conservation measures in institutional buildings, and efficiency improvements for the transmission and distribution systems of regional utilities.

No monitoring or enforcement programs are applicable for mitigation of the adverse impacts of the proposed action and none have been adopted. However, under the terms of the Regional Act, EPA is required, among other things, to provide for the development of plans to protect and enhance fish and wildlife resources and to provide for environmental quality. BPA's proposed increase includes the cost of implementing these requirements.

Integration with Other Records

This Environmental Record of Decision has been integrated into the Record of Decision filed by the Administrator with FERC in support of BPA's proposed 1982 rate increase.

Engle Enterprises, Inc.; Proposed Remedial Order

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration of the Department of Energy hereby gives Notice of a Proposed Remedial Order which was issued to Engle Enterprises, Inc. and Robert J. Young of Englewood Cliffs, New Jersey. This Proposed Remedial Order alleges pricing violations of $69,838.00 in connection with the resale of crude oil at prices in excess of those permitted by 10 CFR Part 212, Subpart L during the period of March 1980 through December 1980.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from: U.S. Department of Energy, Economic Regulatory Administration, Attn: John W. Sturges, Director, 440 S. Houston, Room 306, Tulsa, Oklahoma 74127.

Within 15 days of publication of this notice any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, U.S. Department of Energy, 12th & Pennsylvania Avenue, NW., Washington, D.C. 20461, in accordance with 10 CFR 205.193.

Issued in Tulsa, Oklahoma on the 13th day of September 1982.

John W. Sturges,
Director, Tulsa Office, Economic Regulatory Administration.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket No. CP82-523-000]

ANR Storage Co.; Application

September 20, 1982.

Take notice that on September 3, 1982, ANR Storage Company, One Woodward Avenue, Detroit, Michigan 48220 filed in Docket No. CP82-523-000 an application pursuant to Section 7 of the Natural Gas Act and Subpart F of Part 157 of the Commission's Regulations for a blanket certificate of public convenience and necessity authorizing the construction, acquisition, and operation of certain facilities and the transportation and sale of natural gas and for permission and approval to abandon certain facilities and service, all as more fully set forth in the application on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 13, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 384.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Section 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on it own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project Nos. 4305-001 and 4322-001]

City of Hibbing, Minnesota and Northeastern Minnesota Municipal Power Agency; Application for Preliminary Permit

September 21, 1982.

Take notice that City of Hibbing, Minnesota and Northeastern Minnesota Municipal Power Agency (Applicants) filed on April 27, 1981, and April 30, 1981, respectively, an application for preliminary permit [pursuant to the Federal Power Act, 16, U.S.C. 791(a) 825(r)] for Projects Nos. 4305-001 and 4322-001 to be known as the Mississippi River Lock and Dam No. 5 located on the Mississippi River in Winona County, Minnesota. The applications are on file with the Commission and are available for public inspection. Correspondence with the Applicants should be directed to: Mr. Joseph A. Vumbaco, General Manager, Public Utilities Commission, City of Hibbing, 19th Street & 6th Avenue East, Hibbing, Minnesota 55746, for Project No. 4305, and Mr. Norman G. Schroeder, Chairman, Northeastern Minnesota Municipal Power Agency, Staples, Minnesota 56479, for Project No. 4322.

Project Description—The proposed projects would utilize an existing dam and lands owned by the U.S. Army Corps of Engineers. Projects Nos. 4305 and 4322 would consist of: (1) A proposed powerhouse containing two generating units having a total installed capacity of 5.8 MW; (2) a proposed 69,000-volt transmission line; and (3) appurtenant facilities. The estimated annual energy output for each project is 45,000,000 kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicants seeks issuance of a preliminary permit for a period of 36 months. During this time studies would be made to determine the engineering, economic, and environmental feasibility of the project. Consultation with Federal, state, and local government agencies would be made to determine the environmental effects of the project. The Applicants estimate that the cost of the studies would be $86,000.

Competing Applications—These applications were filed as a competing application to Mitchell Energy Company, Inc.'s application for Project No. 3652 filed on November 3, 1980. Public notice of the filing of the initial application, which has already been given, established the due date for filing competing applications or notices of intent. In accordance with the Commission's regulations, no competing application for preliminary permit, or notices of intent to file an application for preliminary permit or license will be accepted for filing in response to this notice. Any application for license or exemption from licensing, or notice of intent to file an exemption application, must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et seq. or § 4.101 et seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Motions To Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rules 18 CFR 385.211, 385.212, or 385.214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before October 27, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch,

Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825, North Capitol Street, NE., Room 208 RB at the above address. A copy of any petition to intervene must also be served upon each representative of the Applicants specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26283 Filed 9-23-82; 8:45 am]
BILLING CODE 6717-01-M

[Project Nos. 4307-001 and 4321-001]

City of Hibbing, Minnesota and Northwestern Minnesota Municipal Power Agency; Application for Preliminary Permit

September 21, 1982.

Take notice that City of Hibbing Minnesota and Northeastern Minnesota Municipal Power Agency (Applicants) filed on April 27, 1981, and April 30, 1981, respectively, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a) 825(r)] for Projects Nos. 4307–001 and 4321–001 to be known as the Mississippi River Lock and Dam No. 5A located on the Mississippi River in Winona County, Minnesota. The applications are on file with the Commission and are available for public inspection. Correspondence with the Applicants should be directed to: Mr. Joseph A. Vumbaco, General Manager, Public Utilities Commission, City of Hibbing, 19th Street & 6th Avenue East Hibbing, Minnesota 55746, for Project No. 4307, and Mr. Norman G. Schroeder, Chairman, Northeastern Minnesota Municipal Power Agency, Staples, Minnesota 56479, for Project No. 4321.

Project Description—The proposed projects would utilize an existing dam and lands owned by the U.S. Army Corps of Engineers. Projects Nos. 4307 and 4321 would consist of: (1) A proposed powerhouse containing two generating units having a total installed capacity of 6 MW; (2) a proposed 69,000-volt transmission line; and (3) appurtenant facilities. The estimated annual energy output for each project is 30,000,000 kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Both Applicants seeks issuance of a preliminary permit for 36 months to assess the technical and economic feasability of the proposed project and consult with Federal, state, and local government agencies concerning the environmental effects of the project. The Applicants estimated the cost of the studies would be $86,000.

Competing Applications—These applications were filed as a competing application to Continental Hydro Corporation's application for Project No. 3641 filed on November 3, 1980. Public notice of the filing of the initial application, which has already been given, established the due date for filing competing applications or notices of intent. In accordance with the Commission's regulations, no competing application for preliminary permit, or notices of intent to file an application for preliminary permit or license will be accepted for filing in response to this notice. Any application for license or exemption from licensing, or notice of intent to file an exemption application, must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et seq. or 4.101 et seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Motions To Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rules 18 CFR 385.211, 385.212, or 385.214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before October 27, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB at the above address. A copy of any motion to intervene must also be served upon each representative of the Applicants specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26284 Filed 9-23-82; 8:45 am]
BILLING CODE 6717-01-M

[Docket Nos. CP82-204-000 and CP82-204-001]

Columbia Gas Transmission Corp.; Amended Application

September 20, 1982.

Take notice that on August 20, 1982, Columbia Gas Transmission Corporation (Applicant), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314, filed in Docket No. CP82–204–001 an amended application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of natural gas to The Brooklyn Union Gas Company (Brooklyn Union), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 5,000,000 dekatherms (dt) equivalent of natural gas per year at a maximum rate of 30,000 dt equivalent per day on a best-efforts basis to Brooklyn Union for a period through October 31, 1986, pursuant to a limited-term gas sales agreement dated May 15, 1981. Applicant indicates that the price Brooklyn Union would pay for all gas delivered by Applicant would be the higher of Applicant's Zone 6 Rate Schedule SR rate in effect at the time of Brooklyn Union's purchase or the maximum lawful price under Section 102 of the Natural Gas Policy Act of 1978.

Applicant asserts that it would deliver the gas sold to Brooklyn Union by reducing receipts from Texas Eastern Transmission Corporation (Texas Eastern) in Texas Eastern's Zone C and/or from Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee) in Tennessee's Zone 3 or at such other delivery points as may be agreed to by Applicant and Brooklyn Union. Applicant explains that it would not be necessary for Applicant to construct any facilities to accomplish the deliveries of the gas proposed for sale herein.

On July 20, 1982, the Commission issued an order setting the above-styled proceeding in Docket No. CP82–204–000 for hearing and in which it also convened a pre-hearing conference on August 5, 1982 for the purpose of having the Presiding Administrative Law Judge render a determination as to whether

Applicant's application was sufficiently adequate to enable the proceeding to proceed to formal hearing. The Presiding Administrative Law Judge pursuant to the July 20, 1982 order heard argument on this matter on August 5, 1982, and thereafter required that Applicant file an amended application by August 20, 1982 and set other procedural dates for the purpose of holding an expedited hearing as provided for in the Commission's order.

Applicant in its initial application asserted that the proposed arrangement arises out of the settlement between Applicant and Brooklyn Union, *Brooklyn Union Gas Co.* v. *Distrigas of Massachusetts Corp.*, No. 77–Civ–439 (E.D. N.Y., filed March 4, 1977). Applicant in its August 20, 1982 amended application further indicates that another reason necessitating the proposed sale to Brooklyn Union is the fact that it is incurring take-or-pay obligations of significant proportions. In its amended application, Applicant supplemented its initial filing relative to Brooklyn Union's need for this gas and the techniques that would be employed for purposes of treating the revenues resulting from the sale.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 4, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedures (18 CFR 1.8, 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP80-547-002]

NGPL–Canyon Compression Co.; Notice of Filing of Initial FERC Gas Tariff

September 20, 1982.

Take notice that on July 30, 1982, NGPL–Canyon Compression Co. (NGPL–Canyon), 122 South Michigan Ave., Chicago, Illinois 60603, tendered for filing its initial FERC Gas Tariff, Original Volume No. 1. NGPL–Canyon stated that these tariff sheets set out the initial rates as well as all tariff components relative to the compression service authorized by order issued March 30, 1982, in Docket No. CP80–547. The tariff is on file with the Commission and open to the public inspection.

Any person desiring to be heard or to make any protest with reference to said filing should on or before September 27, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26286 Filed 9-23-82; 8:45 am]
BILLING CODE 6717-01-M

[Docket No. CP79-80-007]

Overthrust Pipeline Co.; Tariff Filing and Service Agreement

September 20, 1982.

Take notice that on July 30, 1982, Overthrust Pipeline Company (Overthrust), P.O. Box 11150, Salt Lake City, Utah 84147, tendered for filing its FERC Gas Tariff, Original Volume No. 1. The tariff is on file with the Commission and open to the public inspection.

Overthrust asserts that its proposed tariff sets out the terms under which shippers may receive transportation service on Overthrust's pipeline in Uinta and Sweetwater Counties, Wyoming. The tariff is proposed to be effective October 1, 1982, the scheduled date of commencement of operations for the Overthrust Segment of the Trailblazer System.

It is stated that the initial recipients of transportation service on Overthrust's pipeline are Columbia Gas Transmission Corporation, Natural Gas Pipeline Company of Amerca and Colorado Interstate Gas Company and that these companies have executed Service Agreements date July 26, 1982, which were submitted by Overthrust along with its tariff.

Any person desiring to be heard or to make any protest with reference to said filing should on or before September 27, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26287 Filed 9-23-82; 8:45 am]
BILLING CODE 6717-01-M

[Docket No. CP79-80-011]

Overthrust Pipeline Co.; Alternate Tariff Filing and Proposed Initial Rates

September 20, 1982.

Take notice that on August 3, 1982, Overthrust Pipeline Company (Overthrust), P.O. Box 11150, Salt Lake City, Utah 84147, tendered for filing, as part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheets:

"Alternate" Original Sheet No. 2
Original Sheet No. 6–A
Original Sheet No. 6–B (Rate Schedule PSC)

It is stated that on July 30, 1982, Overthrust submitted a tariff filing reflecting rates in compliance with Opinion No. 138. On August, 1982, Overthrust jointly filed a petition to amend the authority granted in Opinion No. 138, and Overthrust states that the petition to amend seeks to defer the implementation of Opinion No. 138-based rates until January 1, 1983, and to implement a Plant Start-up Coordination Rate for the period prior to January 1, 1983.

Overthrust states that the instant filing is submitted in the event that the Commission grants the certificate amendment requested. The tariff sheets are on file with the Commission and open to public inspection.

Overthrust asserts that Rate Schedule PSC provides for a special rate to be applicable only during the period from the operational date of the Overthrust segment until January 1, 1983, and that the rate would be volumetric in nature and designed to recover all operating

and maintenance expenses and taxes other than income taxes. It is maintained that the rate would not recover any depreciation, interest expense or return on equity. Under Overthrust's proposed Rate Schedule PSC, the project costs would continue to be treated as construction work in progress with continued capitalization of allowance for funds used during construction, it is asserted. It is indicated that the rates under Rates Schedules T and I would go into effect on January 1, 1983, rather than October 1, 1982, as originally proposed.

In its filing Overthrust requests that the Commission waive the provisions of § 154.22 of its regulations and any other of its rules and regulations as may be required to permit the submitted tariff sheets to become effective on October 1, 1982, as proposed.

Any person desiring to be heard or to make any protest with reference to said filing should on or before September 27, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP79-80-006]

Trailblazer Pipeline Co. et al.; Filing of Initial FERC Gas Tariff

September 20, 1982.

In the matter of Trailblazer Pipeline Co., Overthrust Pipeline Co., Colorado Interstate Gas Co.

Take notice that on July 30, 1982, Trailblazer Pipeline Company (Trailblazer), 122 South Michigan Ave., Chicago, Illinois 60603, tendered for filing its initial FERC Gas Tariff, Original Volume No. 1. Trailblazer states that these tariff sheets set out the initial rates as well as all tariff components relative to the service authorized by Opinion No. 138 in Docket No. RP79-80. The tariff is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said filing should on or before September 27, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[Docket No. CP79-80-009]

Trailblazer Pipeline Co. et al.; Filing of Alternate Tariff Sheets

September 20, 1982.

In the matter of Trailblazer Pipeline Co., Overthrust Pipeline Co., Colorado Interstate Gas Co.

Take notice that on August 3, 1982, Trailblazer Pipeline Company (Trailblazer), 122 South Michigan Ave., Chicago, Illinois 60603, tendered for filing alternate sheets to institute the revisions to Trailblazer Gas Tariff—filed under separate cover on July 30, 1982—that are necessary to reflect the changes proposed in the Joint Petition filed concurrently to amend Opinion No. 138. The alternate sheets reflect a Plant Start-Up Coordination (PSC) Rate on Trailblazer effective for the period ending December 31, 1982, together with appropriate revisions to Rate Schedules T and I, it is asserted. The sheets are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said filing should on or before September 27, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP79-80-005, et al.]

Wyoming Interstate Company Ltd.; Notice of Proposed FERC Gas Tariff and Service Agreements

September 20, 1982.

Take notice that on July 30, 1982 Wyoming Interstate Company, Ltd. (WIC), P.O. Box 1087, Colorado Springs, Colorado, 80944, tendered for filing its proposed initial FERC Gas Tariff, Original Volume No. 1 (Tariff), and service agreements with each of its four existing jurisdictional customers (shippers). Rate Schedules T and I are included in the Tariff and procedures for accommodating requests for transportation by existing and new shippers are deliniated. The Tariff and agreements are on file with the Commission and open to the public inspection.

WIC states that Rate Schedule T consists of a demand and a commodity rate, with the Demand Rate designed to recover all operating and maintenance expenses, taxes other than income taxes, the debt-related portion of depreciation, and interest expense. WIC states further, that the Commodity rate is designed to recover return on equity, depreciation expense related to equity, and income taxes. The commodity volume is 87 percent of free flow capacity and cost of service includes return on equity capital at the authorized rate of 16.8 percent, it is asserted.

WIC states that Rate Schelule I provides a means to charge shippers for deliveries in excess of their contract demand and is based on the commodity portion of Rate Schedule T plus a computed surcharge which is related to the Rate Schedule T demand charge. Rate Schedule I also provides for a credit to the shippers for any collection of excess demand charges, it is said.

It is indicated that the service agreements establish each shipper's contract demand, maximum daily transportation volumes, and points of delivery and receipt for volumes transported.

WIC asserts that the transportation service to be performed by it under the

proposed Tariff and Service Agreement was approved by the Commission in its Opinion No. 138 issued in Docket No. CP79–80, *et al.*, on March 12, 1982. Pursuant to Ordering Paragraph (E) of Opinion No. 138 and § 154.22 of the Commission's Regulations, WIC requests that the proposed Tariff and service agreements be made effective on September 28, 1982, which is the date the facilities are expected to become operational.

Any person desiring to be heard or to make any protest with reference to said filing should on or before September 27, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-26291 Filed 9-23-82 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP79–80–013 et al.]

Wyoming Interstate Company, Ltd., Alternate Tariff Filing and Proposed Initial Rates

September 21, 1982.

Take notice that on August 20, 1982, Wyoming Interstate Company, Ltd., (WIC), P.O. Box 1087, Colorado Springs, Colorado 80944, tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheets which include provisions for a new Rate Schedule PSC.

"Alternate" Original Sheet No. 1.
"Alternate" Original Sheet No. 5.
Original Sheet No. 5A.
Original Sheet No. 5B.
"Alternate" Original Sheet No. 6.
"Alternate" Original Sheet No. 8.

The tariff sheets are on file with the Commission and open to the public inspection.

It is stated that on July 30, 1982, WIC submitted a tariff filing reflecting rates in compliance with the Commission's Opinion No. 138 issued on March 12, 1982, in this proceeding. On August 3, 1982, WIC jointly filed a petition to amend the authority granted in Opinion No. 138 and WIC states that the petition to amend seeks to implement a Plant Start-Up Coordination (PSC) Rate for the period prior to January 1, 1983. Implementation of the PSC rate would defer the implementation of Opinion No. 138-based rates until January 1, 1982, it is asserted.

WIC states that the instant filing is submitted as a compliance filing in the event that the Commission grants the certificate amendment requested.

WIC asserts that Rate Schedule PSC provides for a special rate to be applicable only during the period from the operational date of the WIC pipeline through December 31, 1982, and that the rate would be volumetric in nature and designed to recover all operating and maintenance expenses and taxes other than income taxes. It is maintained that the rate would not recover any depreciation, interest expense or return on equity. It is asserted that under WIC's proposed Rate Schedule PSC, the project costs would continue to be treated as construction work in progress with continued capitalization of allowance for funds used during construction, and the PSC Rate revenues would be credited to construction work in progress. It is indicated that the rates under Rate Schedules T and I, as revised to reflect the implementation of Rate Schedule PSC, would be implemented on January 1, 1983, rather than September 28, 1982, as originally proposed.

In its filing WIC requested that the Commission waive the provisions of § 154.22 of its regulations and any other of its rules and regulations as may be required to permit the submitted tariff sheets to become effective on September 28, 1982, as proposed.

Any person desiring to be heard or to make any protest with reference to said filing should on or before September 27, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Cases Filed; Week of August 6 Through August 13, 1982

During the week of August 6 through August 13, 1982, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under DOE procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

September 17, 1982.

George B. Breznay,

Director, Office of Hearings and Appeals.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS

[Week of Aug. 6, 1982 Through Aug. 13, 1982]

Date	Name and location of applicant	Case No.	Type of submission
August 6, 1982	Chevron, U.S.A. San Francisco, California	HER-0033	Request for Modification/Recision. If granted: The July 19, 1982 Decision and Order (Case No. BEE-0373) issued to Ashland Oil by the Office of Hearings and Appeals would be modified regarding the amount of relief granted to Ashland Oil, Inc.
August 9, 1982	National Conference of Black Mayors, Inc., Atlanta, Georgia.	HFA-0074	Appeal of an Information Request Denial. If granted: The Information Request Denial issued by the Inspector General would be rescinded, and the National Conference of Black Mayors would receive access to certain DOE information.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS—Continued

[Week of Aug. 6, 1982 Through Aug. 13, 1982]

Date	Name and location of applicant	Case No.	Type of submission
August 9, 1982	Shell Oil Company, Houston, Texas	HER-0034	Request for Modification/Rescission. If granted: The July 19, 1982 Decision and Order (Case No. BEE-0373) issued to Ashland Oil, Inc. by the Office of Hearings and Appeals would be modified regarding the relief granted to Ashland Oil, Inc.
August 11, 1982	Cities Service Company/Little America Refining Company, Tulsa, Oklahoma.	HEJ-0022	Protective Order. If granted: Cities Service Company would enter into a Protective Order with Little America Refining Company regarding the release of proprietary information to Cities Service Company in connection with Little America Refining Company's year end review (Case Nos. HYX-0014 and HYX-0006).
August 12, 1982	Oklahoma Refining Company, Oklahoma City, Oklahoma	HEE-0040	Exception to the Reporting Requirements. If granted: Oklahoma Refining Company would not be required to file certain DOE forms.

Objection to Proposed Remedial Order Filed; Week of August 16 Through August 20, 1982

During the week of August 16 through August 20, 1982, the notice of objection to proposed remedial order listed in the Appendix to this Notice was filed with the Office of Hearings and Appeals of the Department of Energy.

Any person who wishes to participate in the proceeding the Department of Energy will conduct concerning the proposed remedial orders described in the Appendix to this Notice must file a request to participate pursuant to 10 CFR 205.194 within 20 days after publication of this Notice. The Office of Hearings and Appeals will then determine those persons who may participate on an active basis in the proceeding and will prepare an official service list, which it will mail to all persons who filed requests to participate. Persons may also be placed on the official service list as non-participants for good cause shown.

All requests to participate in these proceedings should be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

George B. Breznay,

Director, Office of Hearings and Appeals.

Powerine Oil Company, Santa Fe Springs, California; HRO-0065, gasoline

On August 18, 1982, Powerine Oil Cmpany, 12354 Lakeland Road, Santa Fe Springs, CA

90070, filed a Notice of Objection to a Proposed Remedial Order which the DOE Pacific District Office of Economic Regulatory Administration (ERA) issued to the firm on July 22, 1981. In the PRO the ERA found that from August 1973 through September 1976, Powerine charged prices for gasoline and No. 2 oil which exceed the maximum allowable price levels established pursuant to 6 CFR 150.355 and 10 CFR 212.82(a) and 212.83(a)(1).

According to the PRO the Powerine violation resulted in $12,225,806 of overcharges.

BILLING CODE 6450-01-M

Issuance of Decisions and Orders; Week of August 9 Through August 13, 1982

During the week of August 9 through August 13, 1982, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeal

Petroleum Operations and Support Services, Inc., August 11, 1982, HFA-0071.

Petroleum Operations and Support Services, Inc. filed an Appeal from a denial by the Inspector General of a Request for Information which the firm had submitted under the Freedom of Information Act (the FOIA). In considering the Appeal, the DOE found that the Inspector General's July 15, 1982 response had correctly determined that, at the time of the FOIA request, the requested document did not exist. Accordingly, the Appeal was denied.

Remedial Orders

Claypool Hill Exxon, August 12, 1982, BRO-1544.

Claypool Hill Exxon objected to a Revised Proposed Remedial Order which the Southeastern District of the Economic Regulatory Administration (ERA) issued to the firm on November 3, 1980. In the Revised Proposed Remedial Order, the ERA found that from August 1, 1979, to June 17, 1980, (the audit period), Claypool Hill Exxon sold motor gasoline at price levels which exceeded its maximum lawful selling price calculated pursuant to 10 CFR 212.93. The DOE concluded that the Revised Proposed Remedial Order should be issued in final form. The important issues discussed in the Decision and Order include (i) the specificity

of the Revised Proposed Remedial Order, (ii) the constitutionality of § 205.196(b) of the DOE regulations, (iii) whether this Remedial Order proceeding is part of a criminal investigation, and (iv) whether Claypool Hill Exxon had already refunded overcharges through a reduction in prices.

Barry Ivers d.b.a. Barry Ivers Chevron Service, August 11, 1982, BRO–1496.

Barry Ivers d.b.a. Barry Ivers Chevron Service objected to a Proposed Remedial Order (PRO) issued to it by the DOE Economic Regulatory Administration. In the PRO, the DOE found that Ivers had charged prices for motor gasoline which exceed its maximum lawful selling prices calculated pursuant to 10 CFR 212.93. After considering Ivers' objections, the DOE determined that the PRO should be issued as a final Remedial Order. The important issues considered in the Decision and Order included (i) the validity of the amendments to the retailer price rule adopted in July 1979; (ii) whether or not a retailer may add his costs of installing vapor recovery equipment to his maximum lawful selling price; (iii) and the petitioner's burden of going forward with the evidence once the DOE has established a *prima facie* case.

Southern Terminal & Transport Company, August 11, 1982, HRO–0042, HRH–0063, HRD–0063.

Mr. W. Guy McKenzie, Sr., former president of Southern Terminal & Transport Company (ST&T) filed a Statement of Objections, Motion for Discovery and Motion for Evidentiary Hearing in response to a Proposed Remedial Order which the DOE Southeast District Office of Enforcement issued to the firm on March 17, 1982. In his statement, Mr. McKenzie argued that he and ST&T were not liable for the PRO's allegations of overcharges by three resellers of fuel oil. In response, the Office of Enforcement sought to withdraw the PRO without prejudice. In reply, Mr. McKenzie requested that the PRO be dismissed with prejudice to future enforcement actions against ST&T and himself. The DOE concluded that fundamental defects in the PRO required that it be dismissed and that the related objection proceeding be terminated. Based upon statements made by the Office of Enforcement in support of its motion to withdraw the PRO, the DOE dismissed the PRO with prejudice with respect to allegations of overcharges by the Baker Service Company. In all other respects, the PRO was dismissed without prejudice.

St. Louis Fuel and Supply Company, August 12, 1982, DRO–0159.

St. Louis Fuel and Supply Company objected to a Proposed Remedial Order which Region VII of the ERA Office of Enforcement issued to the firm on November 15, 1978. In the Proposed Remedial Order, the Office of Enforcement found that St. Louis Fuel had charged prices in sales of No. 2 diesel fuel that were in excess of its maximum legal selling prices calculated in accordance with the Mandatory Petroleum Price Regulations. The findings in the PRO were largely based on the Office of Enforcement's determination that the firm should be audited on a single firm-wide inventory basis. St. Louis Fuel claimed that it was entitled to employ separate inventory accounting methods for its stocks of Mobil and Texaco fuels, which it sold from separate barges. After consideration of St. Louis Fuel's arguments, the DOE found that the Proposed Remedial Order should be issued as a final order, since the firm had failed adequately to show that it had consistently and historically used separate inventory accounting for purposes of pricing and cost management throughout the entire relevant period from May 15, 1973 to the end of its audit period, April 30, 1974.

Request for Exception

Mt. Airy Refining Company, August 13, 1982, DEE–1496.

Mt. Airy Refining Company filed an Application for Exception from the provisions of 10 CFR 212.94, as modified by Special Rule No. 2, 44 FR 93972 (1979), in which the firm sought relief from its crude oil pricing obligations under the Buy-Sell Entitlements Programs. In considering Mt. Airy's request, the DOE found that the firm had failed to establish that it would experience a serious hardship in the absence of exception relief. Accordingly, exception relief was denied.

Dismissals

The following submissions were dismissed without prejudice:

Company name	Case No.
Equipment, Inc	BRO–1483; HRD–0016.
Rettinger Bros. Oil Co.	HEE–0034.
L. O. Ward	BRO–1235; BRH–1235; BRD–1235.

Copies of the full text of these decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room 1111, New Post Office Building, 12th and Pennsylvania Ave., NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays. They are also available in *Energy Management; Federal Energy Guidelines*, a commercially published loose leaf reporter system.

George B. Breznay,

Director, Office of Hearings and Appeals.

Southeastern Power Administration

Order Confirming and Approving Power Rates on an Interim basis

AGENCY: Southeastern Power Administration (SEPA), DOE.

ACTION: Notice of approval on an interim basis of Kerr-Philpott projects' rates

SUMMARY: On September 2, 1982, the Assistant Secretary for Conservation and Renewable Energy confirmed and approved, on an interim basis, the extension of two existing Rate Schedules, KP–1–B and KP–2–B, and a third replacement Rate Schedule JHK–1–D, for Kerr-Philpott Projects' power. The rates were approved on an interim basis through March 31, 1983, and are subject to confirmation and approval by the Federal Energy Regulatory Commission on a final basis.

DATE: Approval of rates on an interim basis is effective on October 1, 1982.

FOR FURTHER INFORMATION CONTACT:

Leon Jourolmon, Jr., Chief, Division of Fiscal Operations, Southeastern Power Administration, Department of Energy, Samuel Elbert Building, Elberton, Georgia 30635

John J. DiNucci, Office of Power Marketing Coordination, Department of Energy, 12th Street and Pennsylvania Avenue, NW., Washington, D.C. 20461

SUPPLEMENTARY INFORMATION: The Federal Energy Regulatory Commission by Order issued March 19, 1982, in Docket No. EF81–3041 confirmed and approved Wholesale Power Rate Schedules KP–1–B, KP–2–B, and JHK–1–C applicable to Kerr-Philpott Projects' power for a period ending September 30, 1982. Rate Schedules KP–1–B, and KP–2–B have been extended and JHK–1–D replaces JHK–1–C.

Issued in Washington, D.C., September 2, 1982.

Joseph J. Tribble,

Assistant Secretary, Conservation and Renewable Energy.

September 2, 1982.

In the Matter of Southeastern Power Administration—Kerr-Philpott Projects' Power Rates; Rate Order No. SEPA–14; Order Confirming and Approving Power Rates on an Interim Basis.

Pursuant to sections 302(a) and 301(b) of the Department of Energy Organization Act, Pub. L. 95–91, the functions of the Secretary of the Interior and the Federal Power Commission under Section 5 of the Flood Control Act of 1944, 16 U.S.C. 825s, relating to the Southeastern Power Administration (SEPA) were transferred to and vested in the Secretary of Energy. By Delegation Order No. 0204–33, effective January 1, 1979, 43 FR 60636 (December 28, 1978), the Secretary of Energy delegated to the Assistant Secretary for Resource Applications the authority to develop power and transmission rates, acting by and through the Administrator, and to confirm, approve, and place in effect such rates on an interim basis and delegated to the Federal Energy

Regulatory Commission (FERC) the authority to confirm and approve on a final basis or to disapprove rates developed by the Assistant Secretary under the delegation. Due to a Department of Energy organizational realignment, Delegation Order No. 0204–33 was amended, effective March 19, 1981, to transfer the authority of the Assistant Secretary for Resource Applications to the Assistant Secretary for Conservation and Renewable Energy. This rate order is issued pursuant to the delegation to the Assistant Secretary for Conservation and Renewable Energy.

Background

Power from the Kerr-Philpott Projects is presently sold under Wholesale Power Rate Schedules KP–1–B, KP–2–B, and JHK–1–C, confirmed and approved through September 30, 1982. SEPA recently issued a new Interim Power Policy for the Kerr-Philpott Projects and represents that it is presently negotiating on an expedited schedule with all affected parties to implement the policy prior to March 31, 1983. To allow time to complete nogotiations under the interim policy, and present revised rate schedules, SEPA has requested that I approve for six additional months extension of two of the currently effective rate schedules and an adjustment to the third rate schedule. Issuance of the interim policy became necessary when SEPA's originally proposed long-term policy ran into insurmountable problems requiring the issuance of a revised proposed long-term policy and the receipt of extensive additional public input.

Public Notice and Comment

Opportunities for public review and comments on the extension of two existing rate schedules and the proposed adjustment of the remaining rate schedule were announced by Notice published in the **Federal Register** on June 22, 1982, 47 FR 26908, and all affected customers were additionally notified by mail. Written comments were invited by the Notice through July 26, 1982. No comments were received.

Discussion

System Repayment

SEPA's Power Repayment Study, prepared in June 1982, for the Kerr-Philpott Projects, shows that the rate schedules proposed for the six-month extension will not produce revenues on a long-term basis sufficient to meet repayment criteria. However, because the shortfall is very moderate and of definite short duration, and because SEPA is engaged in a definite course of action to extricate itself from difficult and complex policy problems, the proposal to extend two of the existing rate schedules and to modify the third to pass on additional wheeling charges applicable to the Carolina Power & Light Company area appears, under the circumstances, to be reasonable and justifiable. Furthermore, SEPA's representation that it will develop and present rate schedules during the requested extension period which will produce revenue adequate to recover on a timely basis all project power costs appears realizable and will be accepted.

Rate Design

Because the rates are expected to be in effect for only a six-month period, Rate Schedules KP–1–B and KP–2–B are proposed for extension and the added wheeling charge from CP&L is being passed directly through to the affected customers. Rate Schedule JHK–1–D is identical to JHK–1–C currently in effect except that the monthly wheeling charge has been increased from $0.58 per kilowatt of contract demand to $0.72 to cover the additional cost.

Environmental Impact

SEPA has reviewed the possible environmental impacts of the rate adjustment under consideration and has concluded with Departmental concurrence that, because the increased rates would not significantly affect the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, the proposed action is not a major Federal action for which preparation of an Environmental Impact Statement is required.

Availability of Information

Information regarding these rates including studies, and other supporting materials are available for public review in the offices of Southeastern Power Administration, Samuel Elbert Building, Elberton, Georgia 30635, and in the Office of the Director of Power Marketing Coordination, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461.

Submission to the Federal Energy Regulatory Commission

The rates herein confirmed and approved on an interim basis, together with supporting documents, will be submitted promptly to the Federal Energy Regulatory Commission for confirmation and approval on a final basis for a period ending no later than March 31, 1983.

Order

In view of the foregoing and pursuant to the authority delegated to me by the Secretary of Energy, I hereby confirm and approve on an interim basis, effective October 1, 1982, attached Wholesale Power Rate Schedules KP–1–B, KP–2–B, and JHK–1–D. The rate schedules shall remain in effect on an interim basis through March 31, 1983, unless such period is extended or until the FERC confirms and approves them or substitute rate schedules on a final basis.

Issued at Washington, D.C., this 2nd day of September 1982.

Joseph J. Tribble,

Assistant Secretary of Conservation and Renewable Energy.

Wholesale Firm Power Rate Schedule KP–1–B

Availability

This rate schedule shall be available to public bodies and cooperatives (any one of which is hereinafter called the Customer) within a 150 mile radius of the John H. Kerr Project, purchasing power generated at the John H. Kerr and Philpott Projects in wholesale quantities under appropriate contracts and served through the facilities of the Virginia Electric and Power Company (hereinafter called the Company).

Applicability

This rate schedule shall be applicable to firm power and accompanying energy generated at the John H. Kerr and Philpott Projects and to deficiency energy purchased by the Government from the Company, purchased in wholesale quantities under appropriate contracts for a specified number of kilowatts of capacity and shall be applied to each Customer's system consisting of one or more delivery points.

Character of Service

The electric capacity and energy supplied hereunder will be 3-phase alternating current at a nominal frequency of 60 Hertz. The voltage of delivery will be maintained within the limits established by the state regulatory commission.

Monthly Rate

The monthly rate for capacity and energy sold under this rate schedule shall be:

Demand Charge

$1.25 per kilowatt of contract demand.

Energy Charge

5.00 mills per kilowatt-hour.

Contract Demand

The contract demand is the amount of capacity in kilowatts stated in the contract which the Government is obligated to supply and the Customer is entitled to receive.

Energy To Be Furnished by the Government

The Government will sell to the Customer and the Customer will purchase from the Government energy each billing month equivalent to a total amount annually of 5,000 kilowatt-hours per kilowatt of contract demand prorated on an equal daily amount throughout the year. The Customer's contract demand and accompanying energy will be allocated proportionately to its individual delivery points served from the Company's system.

Billing Month

The billing month for power sold under this schedule shall end at 12:00 midnight on the last day of each calendar month.

Conditions of Service

The Purchaser shall at its own expense provide, install and maintain on its side of each delivery point the equipment necessary to protect and control its own system. In so doing, the installation, adjustment, and setting of all such control and protective equipment at or near the point of delivery shall be coordinated with that which is installed by and at the expense of the Company on its side of the delivery point.

Service Interruption

When energy delivery to the Customer's system is reduced or interrupted for 1 hour or longer, and such reduction or interruption is not due to conditions on the Customer's system, the demand charge for the month shall be appropriately reduced.

July 1, 1975.

Availability

This rate schedule shall be available to the Carolina Power and Light Company and the Virginia Electric and Power Company (either one of which is hereinafter called the Company).

Applicability

This rate schedule shall be applicable to electric capacity and energy generated at the John H. Kerr and Philpott Projects (hereinafter called the Projects) and sold under appropriate contracts between the Government and the Company.

Character of Service

Electric capacity and energy delivered to the Company will be 3-phase alternating current at a nominal frequency of 60 Hertz delivered at points of delivery specified by appropriate contract.

Monthly Rate

The monthly rate for capacity and energy sold under this rate schedule shall be:

Demand Charge

$1.25 per kilowatt per month for dependable capacity made available to the Company for their own use.

Energy Charge

An amount for dump energy equal to eighty percent (80%) of the calculated saving in the cost of fuel for the Company's operating generating units due to the generation avoided therein by the delivery of such dump energy; provided, that the procedures to determine saving in the cost of fuel will be agreed upon from time to time by the Government and the Company.

Billing Month

End-of-month meter readings shall be made at 12:00 midnight at the end of the calendar month where meters are located in continously attended power plants and substations.

Service Interruptions

When the dependable capacity available to the Company is reduced or interrupted for 1 hour or longer during on-peak hours and such reduction or interruption is not due to conditions on the Company's system, or in the case of Philpott, the Appalachian Power Company's or the Company's system, or agreed to outages, the dependable capacity to be paid for by the Company for that month shall be reduced for billing purposes for each on-peak hour (the nearest number of whole hours) that dependable capacity available to the Company is reduced or interrupted by an amount equal to one/(number of on-peak hours in the month) times such reduction in kilowatts of dependable capacity. In the event such reduction in dependable capacity to be paid for by the Company should be greater than the dependable capacity sold to the Company in any month, any such excess shall be applied to the dependable capacity sold to the Company in subsequent months. If such reduction or interruption results in a total delivery of energy in that month to or for the account of the Company's system by the Government amounting to less than the total declared available, the declaration of energy for that month shall be reduced for accounting purposes to the amount actually delivered. On-peak hours shall be the hours between 8:00 a.m. and 10:00 p.m. on all days except Sunday.

Power Factor

The Company shall take power and energy from the Government at such power factor as will best serve the Company's system from time to time; provided, that the Company shall not impose a power factor of less than .85 lagging on the Government's facilities which requires operation contrary to good operating practice or results in overload or impairment of such facilities or unreasonably interferes with the delivery of power and energy by the Government to its other customers.

Termination of Contract

The Company shall pay the Government 5.00 mills per kilowatt-hour for energy remaining in the energy bank and for energy remaining as a net debit balance in the storage account at the termination of the contract between the Government and the Company.

July 1, 1975.

Wholesale Firm Power Rate Schedule JHK-1-D

Availability

This rate schedule shall be available to public bodies and cooperatives (any one of which is hereinafter called the Customer) within a 165 mile radius of the existing interconnection point between the Virginia Electric and Power Company and the Carolina Power and Light Company (hereinafter called the Company) at the Virginia-North Carolina State line in the vicinity of John H. Kerr Project (hereinafter called the Project), purchasing power from the Project in wholesale quantities under appropriate contracts and served through the facilities of the Company.

Applicability

This rate schedule shall be applicable to Project firm power and accompanying energy, purchased in wholesale quantities under appropriate contracts for a specified number of kilowatts of capacity and shall be applied to each Customer's system consisting of one or more delivery points.

Character of Service

Electric capacity and energy supplied hereunder will be 3-phase alternating current at a nominal frequency of 60

Hertz delivered at existing or future delivery points on the Company's transmission and distribution system.

Monthly Rate

The monthly rate for capacity and energy sold under this rate schedule shall be:

Demand Charge

$1.25 per kilowatt of contract demand.

Energy Charge

5.00 mills per kilowatt-hour.

An additional rate for wheeling service provided under this rate schedule shall be:

Wheeling Charge

$0.72 per kilowatt of contract demand.

Contract Demand

The contract demand is the amount of capacity in kilowatts stated in the contract which the Government is obligated to supply and the Customer is entitled to receive.

Energy To Be Furnished by the Government

(a) If the Customer does not own or operate generating facilities (other than mobile generating equipment used for emergency purposes), the Government will supply Project energy to such Customer each month, to the extent that such energy is available, based on the ratio of the Customer's energy requirements (determined by multiplying the Customer's total energy requirements at all points of delivery located within 165 miles of the existing interconnection point between the Company and VEPCO at the Virginia-North Carolina State line in the vicinity of the Project by the ratio of the Customer's contract demand to its maximum 30-minute integrated measured demand for that month at said points of delivery) to the sum of the individual energy requirements of all such Customers purchasing under this rate schedule determined on this same basis. (The maximum 30-minute integrated measured demand of the Customer for the month shall be determined by adding together the highest 30-minute integrated measured demand at each point of delivery located within 165 miles of the aforementioned interconnection point, exclusive of abnormal nonrecurring demands resulting from transfer of loads from one point of delivery to another where such transfers are previously approved by the Company.)

(b) If the Customer owns or operates generating facilities (other than mobile generating equipment used for emergency purposes), the Government will supply Project energy each month in an amount determined by multiplying the ratio of the Customer's contract demand to the dependable capacity made available to the Company's system from the Project by 100/106 of the total energy (exclusive of dump energy) declared and made available to the Company's system from the Project.

Energy Accounting

For the purposes of energy accounting an energy bank shall be maintained, and the Government shall keep the official record of such account. In any month in which the total Project energy (exclusive of dump energy) declared and made available by the Government to the Company exceeds the energy accounted for in such month as accompanying the capacity required to meet the contract demands of the Government to preference customers, increased by six percent (6%) to provide for losses in transmission, such remaining energy shall be credited to the energy bank. Energy stored in this energy bank shall be used in subsequent months to supply to the extent possible preference customer energy requirements not supplied by energy declared and made available from the Project during such months. Withdrawals of energy from the energy bank shall reduce the bank account and shall be accounted for as Proejct energy available to be transmitted by the Company to the preference customers for the account of the Government.

In those months when Project energy (including energy available from the energy bank) multiplied by 100/106 is equal to or more than the total energy requirements of preference customers of the Government, all such energy requirements shall be deemed to have been supplied from the Project and transmitted by the Company for the account of the Government. In those months when Project energy (including energy available from the energy bank) multiplied by 100/106 is less than the total energy requirements of preference customers of the Government, the quantity of energy which shall be deemed to have been transmitted by the Company for the account of the Government shall be 100/106 of the total Project and bank energy available for transmission. In such months each preference customer of the Government that owns or operates generating facilities (other than mobile generating equipment used for emergency purposes) shall receive a portion of the available energy that results from multiplying the ratio of each such Customer's contract demand to the dependable capacity made available to the Company's system by 100/106 of the total energy declared and made available to the Company's system (excluding energy available from the energy bank), and each of the other preference customers of the Government shall receive a proportionate part of the remaining available energy based on the ratio of such Customer's individual energy requirements (determined by multiplying each such Customer's total energy requirements at all points of delivery by the ratio of its contract demand to its maximum 30-minute integrated measured demand for the month at said points of delivery) to the sum of the individual energy requirements of all such preference customers determined on this same basis.

Billing Month

End-of-month meter readings for billing under this schedule shall be made on the last regular working day of each month or as near thereto as may be practicable.

Conditions of Service

(a) *Parallel Operation:* The Government may condition service to the Customer upon payment by the Customer to the Company of the cost of such facilities, including special meters, as are made necessary by the Customer's operation of any generating facilities in parallel with the Company's system and in such event will require the operation and maintenance of such facilities by the Customer in accordance with good operating practices.

(b) *Energy Scheduling:* If the Customer owns or operates generating facilities (other than mobile generating equipment used for emergency purposes), it shall schedule and receive its proportionate share of the minimum monthly declarations of energy as provided in the contract between the Government and the Company dated March 30, 1973, in quantities reasonably distributed over the period of declaration. In the event energy in addition to minimum is available at the Project, the Customer shall receive its proportionate share of any excess energy so declared during the period for which it is declared.

(c) *Service interruption:* When energy delivery to the Customer's system is reduced or interrupted for 1 hour or longer, and such reduction or interruption is not due to conditions on the Customer's system, the demand charge for the month shall be appropriately reduced.

(d) *Power Factor:* If the Customer owns or operates generating facilities (other than mobile generating equipment used for emergency purposes), the Customer will so utilize its generating units and power factor corrective equipment as to minimize its reactive requirements; provided, however, that unless otherwise specifically agreed, the Government will not be obligated to make available for delivery power and energy to the Customer at any time at a power factor below .85 lagging.

October 1, 1981.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[A-7-FRL 2213-3]

Approvals of PSD Permits to Meredith Corp. et al.

In the matter of Meredith Corp., Des Moines, Iowa; City of Beloit, Beloit, Kansas; Mallinckrodt, Inc., St. Louis, Missouri; Empire District Electric Co., La Russell, Missouri; ORTHO/Chevron Chemical Co., Fort Madison, Iowa.

Notice is hereby given that the Environmental Protection Agency (EPA) has issued construction permits under the Prevention of Significant Air Quality Deterioration (PSD) regulations (40 CFR 52.21) to: Meredith Corporation; City of Beloit; and Mallinckrodt, Inc. Notice is also given that EPA approved a change in permits previously issued to: Empire District Electric Company; and ORTHO/Chevron Chemical Company.

On April 15, 1982, the EPA formally approved, with conditions, a proposal by the Meredith Corporation of Des Moines, Iowa, to construct a rotogravure printing press at the company's Des Moines printing plant. The proposed project qualified as a major modification of an existing major stationary source due to a significant increase in emissions of volatile organic compounds (VOC).

On May 26, 1982, the EPA formally approved with conditions, a proposal by the City of Beloit to install one 6000 kilowatt dual fuel engine generator at the Beloit, Kansas, municipal generating plant. The engine addition qualified as a major modification of an existing major stationary source due to a significant increase in nitrogen oxides (NO_x), carbon monoxide (CO), and sulfur dioxide (SO_x) emissions.

On June 17, 1982, the EPA formally approved, with conditions, a porposal by Mallinckrodt, Inc., to install a 115.1 million Btu's per hour coal-fired boiler at its chemical plant in St. Louis, Missouri. The proposed project qualified as a major modification of an existing major stationary source due to a significant increase in emissions of SO_x and NO_x.

On March 25, 1982, the EPA formally approved revisions to a PSD permit condition that was issued to Empire District Electric Company of La Russell, Missouri, on January 7, 1981. The permit modifications corrected an erroneously specified reference condition and added an equivalent CO concentration (parts per million by volume) emission limit. The changes will have no substantial impact in emissions or on air quality.

On March 25, 1982, the EPA formally approved a requested change to a PSD permit issued to the ORTHO/Chevron Chemical Company of Fort Madison, Iowa, on August 15, 1979. The revision adjusted an emission limit upwards to be more representative of variations in emissions over time and also established an additional permit condition which required an increase in the height of a stack. The revisions will have no substantial impact in emissions or on air quality.

Under Section 307(b)(1) of the Clean Air Act, as amended in August 1977, judicial review of any of these determinations is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2), the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by the EPA to enforce these requirements.

A petition for review for any of the above must be filed with the appropriate court on or before November 23, 1982.

Copies of these permits and related information are available for public inspection at: U.S. Environmental Protection Agency, Air and Waste Management Division, Air Branch, 324 East 11th Street, Kansas City, Missouri 64106.

Dated: September 8, 1982.

William W. Rice,

Acting Regional Administrator.

[FR Doc. 82-26329 Filed 9-23-82; 8:45 am]
BILLING CODE 6560-50-M

[OPTS-59097D; TSH FRL 2214-3]

Benzoic Acid Ester; Approval of Test Marketing Exemption

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA received an application for a test marketing exemption (TM-82-37) under section 5 of the Toxic Substances Control Act (TSCA) on August 4, 1982. Notice of receipt of the application was published in the Federal Register of August 13, 1982 (47 FR 35331). EPA has granted the exemption.

EFFECTIVE DATE: September 15, 1982.

FOR FURTHER INFORMATION CONTACT: Rose Allison, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-201, 401 M St., SW., Washington, D.C. 20460 (202-382-3738).

SUPPLEMENTARY INFORMATION: Under section 5 of TSCA, anyone who intends to manufacture in, or import into, the United States a new chemical substance for commercial purposes must submit a notice to EPA before manufacture or import begins. A "new" chemical substance is any chemical substance that is not on the Inventory of existing substances compiled by EPA under section 8(b) of TSCA. Section 5(a)(1) requires each premanufacture notice (PMN) to be submitted in accordance with section 5(d) any and applicable requirements of section 5(b). Section 5(d)(1) defines the contents of a PMN and section 5(b) contains additional reporting requirements for certain new chemical substances.

Section 5(h), "Exemptions," contains several provisions for exemptions from some or all of the requirements of section 5. In particular, section 5(h)(1) authorizes EPA, upon application, to exempt persons from any requirements of section 5(a) or section 5(b), and to permit them to manufacture or process chemical substances for test marketing purposes. To grant an exemption, the Agency must find that the test marketing activities will not present any unreasonable risk of injury to health or the environment. EPA must either approve or deny the application within 45 days of its receipt, and under section 5(h)(6) the Agency must publish a notice of this disposition in the Federal Register. If EPA grants a test marketing exemption, it may impose restrictions on the test marketing activities.

On August 4, 1982, EPA received an application for an exemption from the requirements of sections 5(a) and 5(b) of TSCA to manufacture a new chemical substance for test marketing purposes. The application was assigned test marketing exemption number TM-82-37. The submission is for benzoic acid ester. The submitter claimed its identity, the specific chemical identity, specific use, production volume, and industrial sites as confidential business information. The TME substance will be test marketed for a period not to exceed 4

months. During manufacture, six workers may be exposed for 2 hours/day for 2 days.

A notice published in the Federal Register of August 13, 1982 (47 FR 35331) announced receipt of this application and requested comment on the appropriateness of granting the exemption. The Agency did not receive any comments concerning the application.

EPA has established that the test marketing of the new chemical substance submitted under TM–82–37, will not present any unreasonable risk of injury to health or the environment under the specific conditions set out in the application. The Agency did not identify any significant health or ecological concern for the TME substance. Bioconcentration could occur if significant quantities of the TME substance were released. However, the Agency does not expect this to occur.

This test marketing exemption is granted based on the facts and information obtained and reviewed, but is subject to all conditions set out in the exemption application and, in particular, those enumerated below.

1. This exemption is granted solely to this manufacturer.

2. The applicant must maintain records of the date(s) of shipment(s) to the customers specified in the application, and the quantities shipped in each shipment, and must make these records available to EPA upon request.

3. Each bill of lading that accompanies a shipment of the substance during the test marketing period must state that the use of the substance is restricted to that described to EPA in the test marketing exemption application.

4. The production volume of the new substance may not exceed the quantity described in the test marketing exemption application.

5. The test marketing activity approved in this notice is limited to a 4-month period commencing on the date of signature of this notice by the Director of the Office of Toxic Substances.

6. The number of workers exposed to the new chemical should not exceed that specified in the application, and the exposure levels and duration of exposure should not exceed those specified in the application.

The Agency reserves the right to rescind its decision to grant this exemption should any new information come to its attention which casts significant doubt on the Agency's conclusion that the test marketing of this substance under the conditions specified in the application will not present an unreasonable risk of injury to human health or the environment.

Dated: September 15, 1982.

Don R. Clay,

Director, Office of Toxic Substances.

[OPTS–59101; TSH FRL 2214–6]

Certain Chemicals; Premanufacture Exemption Applications

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA may upon application exempt any person from the premanufacturing notification requirements of section 5 (a) or (b) of the Toxic Substances Control Act (TSCA) to permit the person to manufacture or process a chemical for test marketing purposes under section 5(h)(1) of TSCA. Requirements for test marketing exemption (TME) applications, which must either be approved or denied within 45 days of receipt, are discussed in EPA's revised statement of interim policy published in the Federal Register of November 7, 1980 (45 FR 74378). This notice, issued under section 5(h)(6) of TSCA, announces receipt of three applications for exemptions, provides a summary, and requests comments on the appropriateness of granting each of the exemptions.

DATE: Written comments by: October 12, 1982.

ADDRESS: Written comments, identified by the document control number "[OPTS–59101]" and the specific TME number should be sent to: Document Control Officer (TS–793), Office of Pesticides and Toxic Substances, Management Support Division, Environmental Protection Agency, Rm. E–401, 401 M Street, SW, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: David Dull, Acting Chief, Notice Review Branch, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–216, 401 M Street, SW, Washington, DC 20460.

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the non-confidential version of the submission provided by the manufacturer on the TMEs received by EPA. The complete non-confidential document is available in the Public Reading Room E–107.

TME 82–48

Close of Review Period. October 19, 1982.

Manufacturer. Confidential.

Chemical. (G) Modified polyurethane.

Use/Production. (S) Binder for electron beam-curable coatings. Prod. range: 8 mos.-500 gals. max.

Toxicity Data. No data submitted.

Exposure. Manufacture: dermal and inhalation, a total of 20 workers, up to 4 hrs/da, up to 10 da/yr. Use: A total of 5 workers, up to 8 hrs/da.

Environmental Release/Disposal. No release. Disposal by Resource Conservation Recovery Act (RCRA)—licensed waste handler.

TME 82–49

Close of Review Period. October 29, 1982.

Manufacturer. Confidential.

Chemical. (G) Modified polyurethane.

Use/Production. (S) Binder for electron beam-curable coatings. Prod. range: 8 mos.-500 gals. max.

Toxicity Data. No data submitted.

Exposure. Manufacture and use: Dermal and inhalation, a total of 14 workers, up to 4 hrs/da, up to 7 da/yr.

Environmental Release/Disposal. No release. Disposal by RCRA.

TME 82–50

Close of Review Period. October 29, 1982.

Manufacturer. Texaco Chemical Company.

Chemical. (G) Substituted polyethyleneamine polyisobutenyl succinimide.

Use/Production. (S) Lubricant additive. Prod. range: Confidential.

Toxicity Data. Acute oral: >10g/kg; Acute dermal: >8g/kg; Skin irritation: 1.5/8.0; Eye irritation: 0.67/110.

Exposure. Manufacture: Dermal and inhalation, a total of 1 worker, up to 1.5 hrs/da, up to 300 da/yr. Processing: Dermal and inhalation, 2 workers at each site, up to .2 hr/da, up to 52 da/yr.

Environmental Release/Disposal. Less than 10 kg/yr released to air, water and land at each site. Disposal by landfill and privately owned treatment works.

Dated: September 17, 1982.

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the Federal Register of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). This notice announces receipt of seventeen PMNs and provides a summary of each.

DATES: Close of Review Period:

PMN 82–658—December 8, 1982.

PMN 82–659, 82–660, 82–661, 82–662, 82–663, 82–664 and 82–665—December 11, 1982.

PMN 82–666, 82–667 and 82–668—December 12, 1982.

PMN 82–669 and 82–670—December 13, 1982.

PMN 82–671, 82–672, 82–673 and 82–674—December 14, 1982.

Written comments by:

PMN 82–658—November 8, 1982.

PMN 82–659, 82–660, 82–661, 82–662, 82–663, 82–664 and 82–665—November 11, 1982.

PMN 82–666, 82–667 and 82–668—November 12, 1982.

PMN 82–669 and 82–670—November 13, 1982.

PMN 82–671, 82–672, 82–673 and 82–674—November 14, 1982.

ADDRESS: Written comments, identified by the document control number "[OPTS–51432]" and the specific PMN number should be sent to: Document Control Officer (TS–793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–409, 401 M St., SW., Washington, D.C. 20460, (202–382–3532).

FOR FURTHER INFORMATION CONTACT: David Dull, Chief, Notice Review Branch, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–216, 401 M St., SW., Washington, D.C. 20460, (202–382–3729).

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the non-confidential version of the submission provided by the manufacturer on the PMNs received by EPA. The complete non-confidential document is available in the Public Reading Room E–107.

PMN 82–658

Importer. Confidential.

Chemical. (G) Substituted pyrazine salt.

Use/Import. (G) Minor component of a commercial formulation. Import range: 200–400 kg/yr.

Toxicity Data. Acute oral: 500 mg/kg; Acute dermal: >1,000 mg/kg; Skin irritation: Strong irritant; Eye irritation: Strong irritant; Skin sensitization: Low potential.

Exposure. Use: Dermal, a total of 500 workers, minimal exposure.

Environmental Release/Disposal. Minimal release to land. Disposal by incineration and approved landfill.

PMN 82–659

Manufacturer. Ashland Chemical Company.

Chemical. (G) Substituted succinic anhydride.

Use/Production. (S) Captive intermediate. Prod. range: 130,000–285,000 lbs/yr.

Toxicity Data. No data submitted.

Exposure. Confidential.

Environmental Release/Disposal. Confidential.

PMN 82–660

Manufacturer. Ashland Chemical Company.

Chemical. (G) Polycarboxylic anhydride polymer.

Use/Production. Confidential. Prod. range: Confidential.

Toxicity Data. No data submitted.

Exposure. Confidential.

Environmental Release/Disposal. Confidential.

PMN 82–661

Manufacturer. Confidential.

Chemical. (G) Modified polyurethane.

Use/Production. (S) Binder for electron beam-curable coatings. Prod. range: 5,000–30,000 kg/yr.

Toxicity Data. No data submitted.

Exposure. Manufacture and use: Dermal and inhalation, a total of 35 workers, up to 8 hrs/da.

Environmental Release/Disposal. No release. Disposal by approved landfill.

PMN 82–662

Manufacturer. Confidential.

Chemical. (G) Modified polyurethane.

Use/Production. (S) Binder for electron beam-curable coatings. Prod. range: 5,000–30,000 kg/yr.

Toxicity Data. No data submitted.

Exposure. Manufacture: dermal and inhalation, a total of 19 workers, up to 8 hrs/da.

Environmental Release/Disposal. No release. Disposal by approved landfill.

PMN 82–663

Manufacturer. Confidential.

Chemical. (G) Modified diol.

Use/Production. (S) Site-limited intermediate for production of modified polyurethanes. Prod. range: 500–3,000 kg/yr.

Toxicity Data. No data submitted.

Exposure. Manufacture and use: Dermal and inhalation, a total of 24 workers, up to 3 hrs/da.

Environmental Release/Disposal. No release. Disposal by approved landfill.

PMN 82–664

Manufacturer. Confidential.

Chemical. (G) 4-hydroxy-N-substituted-3-nitrobenzenesulfonamide.

Use/Production. (S) Site-limited intermediate. Prod. range: Confidential.

Toxicity Data. No data submitted.

Exposure. Manufacture and use: Dermal, a total of 4 workers, up to 3 hrs/da, up 5 da/yr.

Environmental Release/Disposal. Confidential.

PMN 82–665

Manufacturer. Confidential.

Chemical. (G) 3-amino-4-hydroxy-N-substituted benzenesulfonamide.

Use/Production. (S) Site-limited intermediate. Prod. range: Confidential.

Toxicity Data. No data submitted.

Exposure. Manufacture and use: Dermal, a total of 4 workers, up to 3 hrs/da, up to 4 da/yr.

Environmental Release/Disposal. Confidential.

PMN 82–666

Manufacturer. Werner G. Smith, Inc.

Chemical. (S) Oleic, linoleic and palmitic acid ester of ethoxylated C_{15}–C_{18} alcohols.

Use/Production. (S) Non ionic emulsifier for metal working lubricants. Prod. range: 400,000–600,000 kg/yr.

Toxicity Data. No data submitted.

Exposure. Manufacture: Dermal, a total of 4 workers, up to 12 hrs/da, up to 72 da/yr.

Environmental Release/Disposal. No release. Disposal by publicly owned treatment works (POTW).

PMN 82–667

Importer. Naarden International.

Chemical. (G) Cyclic aldehyde.

Use/Import. (S) Used in fragrance compounds. Import range: Confidential.

Toxicity Data. Skin sensitization: Negative.

Exposure. Processing: inhalation, a total of 24 workers.

Environmental Release/Disposal. No release. Disposal by incineration.

PMN 82–668

Importer. Sherex Chemical Company, Inc.

Chemical. (S) Poly(oxy-1,2-ethanediyl) alpha-C_{12}-C_{18} alkyloxy-omega methoxy.

Use/Import. (S) Industrial and commercial surfactant textile aid and cleaning agent. Import range: 200,000–600,000 lbs/yr.

Toxicity Data. Acute oral: 5.2 g/kg; Eye irritation: 11.33, 8.83, 11.83, 10.67 @24, 48, 72 hrs. and 7 days.

Exposure. No data submitted.

Environmental Release/Disposal. No data submitted.

PMN 82–669

Manufacturer. Ashland Chemical Company.

Chemical. (G) Unsaturated polyester with halogenated glycol.

Use/Production. (S) Reinforced thermosetting plastic for industrial articles. Prod. range: 40,000–500,000 lbs/yr.

Toxicity Data. No data submitted.

Exposure. Manufacture and processing: An unknown number of workers, up to 2 hrs/da.

Environmental Release/Disposal. Disposal by incineration and landfill.

PMN 82–670

Manufacturer. Confidential.

Chemical. (G) Oxirane polymer of isocyanic acid ester.

Use/Production. Confidential. Prod. range: Confidential.

Toxicity Data. Skin irritation: Slight irritant; Eye irritation: Minimal irritant.

Exposure. Manufacture and use: Dermal and inhalation.

Environmental Release/Disposal. Confidential. Disposal by certified waste disposal service.

PMN 82–671

Manufacturer. Confidential.

Chemical. (G) Vinyl chloride-ethylene copolymer.

Use/Production. Confidential. Prod. range: Confidential.

Toxicity Data. No data submitted.

Exposure. Manufacture and processing: Dermal, a total of 60 workers, up to 8 hrs/da, up to 100 da/yr.

Environmental Release/Disposal. No release. Disposal by approved landfill.

PMN 82–672

Manufacturer. Texaco Chemical Company.

Chemical. (G) Substituted polyethyleneamine. polyisobutenylsuccinimide.

Use/Production. (S) Lubricant additive. Prod. range: Confidential.

Toxicity Data. Acute oral: >10 g/kg; Acute dermal: >8 g/kg; Skin irritation: 0.83/8.0; Eye irritation: 2.33/110.

Exposure. Manufacture and processing: Dermal and inhalation, a total of 17 workers, up to 1.5 hrs/da, up to 300 da/yr.

Environmental Release/Disposal. Less than 10 kg/yr released to air, water and land. Disposal by biological treatment system, and approved landfill.

PMN 82–673

Manufacturer. Texaco Chemicals Company.

Chemical. (G) Substituted polyethyleneamine polyisobutenylsuccinimide.

Use/Production. (S) Industrial, commercial and consumer lubricant additive. Prod. range: Confidential.

Toxicity Data. Acute oral: >g/kg; Acute dermal: >8 g/kg; Skin irritation: 1.50/8.0; Eye irritation: 0.67/110.

Exposure. Manufacture, processing, use and disposal: Dermal and inhalation, a total of 17 workers, up to 1.5 hrs/da, up to 300 da/yr.

Environmental Release/Disposal. Less than 10 kg/yr released to air, water and land. Disposal by biological treatment system, and approved landfill.

PMN 82–674

Importer. Interox America.

Chemical. (S) Hexa-aquomagnesium (II) bis(2-carboxylatomonoperoxy-benzoic acid).

Use/Production. (S) Bleaching agent. Import range: Confidential.

Toxicity Data. Acute oral: >5,000 mg/kg; Acute dermal: >200 mg/kg; Skin irritation: Severe; Eye irritation: Positive; Inhalation: 1.72 mg/1; Skin sensitization: Sensitizer.

Exposure. Manufacture, processing, and use: Dermal, inhalation.

Environmental Release/Disposal. Release minimal. Disposal by incineration and approved landfill.

Dated: September 17, 1982.

Denise F. Swink,

Acting Director, Management Support Division.

BILLING CODE 6560-50-M

[W-9-FRC 2213-2]

Groundwater System of the Upper Santa Cruz Basin and the Avra-Altar Basin of Pima, Pinal, and Santa Cruz Counties, Arizona; Request for EPA Determination Regarding Aquifer System.

AGENCY: Environmental Protection Agency.

ACTION: Notice of public comment period and public hearing.

SUMMARY: The Environmental Protection Agency announced the receipt of a petition requesting the designation of the groundwater system of the upper Santa Cruz and Avra-Altar Basins as a sole or principal source of drinking water in the November 18, 1981, Federal Register. EPA has prepared a Support Document summarizing the available information regarding the aquifers, and proposes to make the requested determination. The purpose of this notice is to announce that the Support Document is available for review, to request public comments, and to provide information regarding a public hearing on this matter.

DATES: The public hearing will be held on Thursday, December 9, 1982. A morning session will begin at 9:30 a.m. and an evening session will begin at 7:30 p.m. The public is also encouraged to sumit written comments which must be received before the close of business on December 17, 1982 at the EPA Regional Office in San Francisco.

ADDRESSES: Written comments should be sent to: Environmental Protection Agency, Region 9, Water Management Division, Attn: Arizona, Hawaii, Nevada Branch (W–4), 215 Fremont Street, San Francisco, CA 94105. The public hearing will be held at the Pima County Board of Supervisors Hearing Room, Courts Building, First Floor, 111 West Congress Street, Tucson.

FOR FURTHER INFORMATION CONTACT: George Wilson, Project Officer, at the above address, or telephone (415) 974–8345. Copies of the petition and aquifer study are available upon request.

SUPPLEMENTARY INFORMATION: Section 1424(e) of the Safe Drinking Water Act (Pub. L. 93–523) authorizes the Administrator of the Environmental Protection Agency (EPA) to determine that an area has an aquifer which is the sole or principal drinking water source for the area. On November 18, 1981, EPA announced in the **Federal Register** that the Southwest Environmental Service, Tucson, Arizona, had requested the Administrator to determine that the Upper Santa Cruz and Avra-Altar aquifers are the sole or principal drinking water source for south-central Arizona. The petitioned area includes the eastern portion of Pima County, Santa Cruz county, and a portion of southeast Pinal County. Major metropolitan centers in the area include Tucson and Nogales. Information is solicited about the petitioned area's hydrogeologic system including the surface boundary of its recharge area and about the number and kinds of small entities (businesses, governmental jurisdictions, and organizations) receiving Federal financial assistance in the area. This will assist EPA in evaluating the aquifer system and the potential impact of a designation on

small entities pursuant to Regulatory Flexibility Act requirements. Based on EPA experience with other sole source designations, some Federal financially assisted projects that potentially may be affected include highway construction, subdivision construction, and waste disposal sites. EPA has prepared a Support Document on the aquifers and proposes to grant the requested sole source aquifer designation based on the Support Document and public comments received in response to the November 18, 1981 notice. A public hearing will be held on December 9, 1982. Any interested persons unable to attend the public hearing are invited to send their written comments to Environmental Protection Agency, Region 9, Water Management Division, Attn: Arizona, Hawaii, Nevada Branch (W-4), 215 Fremont Street, San Francisco, CA 94105. If received on or before December 17, 1982, these comments will be included in the public record.

Persons who wish to present prepared statements at the public hearing are urged to given notice to George Wilson, Arizona/Hawaii/Nevada Branch (W-4), Environmental Protection Agency, Region 9, 215 Fremont Street, San Francisco, CA 94105, (415) 974-8345, prior to the hearing. If possible, written copies of these statements should be submitted at the hearing for inclusion in the record.

Dated: August 26, 1982.

Sonia F. Crow,

Regional Administrator.

[A-9-FRL 2213-5]

Issuance of PSD Permit To Guardian Industries

AGENCY: Environmental Protection Agency (EPA), Region 9.

ACTION: Notice.

SUMMARY: Notice of Approval of Prevention of Significant Air Quality Deterioration (PSD) permit to Guardian Industries, Victorville, San Bernardino County, California, EPA project number SE 82-01.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on June 10, 1982 the Environmental Protection Agency issued a PSD permit to the applicant named above for approval to construct and operate a float glass manufacturing plant in Victorville, San Bernardino County, California.

This permit has been issued under EPA's PSD (40 CFR 52.21) regulations and is subject to certain conditions including allowable emissions of SO_2 at 33.5 lbs/hr, and NO_x at 315 lbs/hr.

Best Available Control Technology (BACT) requirements for SO_2 include the burning of natural gas rather than fuel oil, limiting the saltcake-to sand ratio to 10 lbs. Saltcake to 1,000 lbs. sand, and recycling all available cullet. BACT requirements for NO_x include proper furnace design and the recycling of all available cullet.

Air Quality Impact Modeling was required for NO_2 and SO_2; continuous monitoring is not required. The source is subject to New Source Performance Standards.

DATE: The PSD permit is reviewable under Section 307(b)(1) of the Clean Air Act only in the Ninth Circuit Court of Appeals. A petition for review must be filed by November 23, 1982.

FOR FURTHER INFORMATION CONTACT: Copies of the permit are available for public inspection upon request; address requests to: Kathryn Strickland (M-5), U.S. Environmental Protection Agency, Region 9, 215 Fremont Street, San Francisco, CA 94105; (415) 974-8201.

Dated: September 31, 1982.

David P. Howekamp,

Acting Director, Air Management Division, Region 9.

Issuance of PSD Permit to Merck & Co., Kelco Division

AGENCY: Environmental Protection Agency (EPA), Region 9.

ACTION: Notice.

SUMMARY: Notice of Approval of Prevention of Significant Air Quality Deterioration (PSD) permit to Merck & Co., Kelco Division, San Diego County, California, EPA project number SD 81-01.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on February 10, 1982 the Environmental Protection Agency issued a PSD permit to the applicant named above for approval to construct a cogeneration facility utilizing gas turbines with duct burners and waste heat boilers in San Diego County, California.

This permit has been issued under EPA's Prevention of Significant Air Quality Deterioration (40 CFR 52.21) regulations and is subject to certain conditions including an allowable emission rate for NO_x of 303 tons per year.

Best Available Control Technology (BACT) requirements include proper operation and design of the turbines using a water injection system. Air quality Impact Modeling was required for NO_x. Continuous monitoring is required; the source is not subject to New Source Performance Standards.

DATE: The PSD permit is reviewable under Section 307(b)(1) of the Clean Air Act only in the Ninth Circuit Court of Appeals. A petition for review must be filed by November 23, 1982.

FOR FURTHER INFORMATION CONTACT: Copies of the permit are available for public inspection upon request; address requests to: Kathryn Strickland (M-5), U.S. Environmental Protection Agency, Region 9, 215 Fremont Street, San Francisco, CA 94105; (415) 974-8201.

Dated: August 31, 1982.

[A-9-FRC 2213-7]

Issuance of PSD Permit to Pacific Gas & Electric Company

AGENCY: Environmental Protection Agency (EPA), Region 9.

ACTION: Notice.

SUMMARY: Notice of Approval of Prevention of Significant Air Quality Deterioration (PSD) permit to Pacific Gas & Electric Company for their Geysers Unit 16 facility north of Healdsburg, Lake County, California.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on May 21, 1982 the Environmental Protection Agency issued a PSD permit to the applicant named above for approval to construct a 110 MW geothermal-electric generating station in Lake County, California, EPA project number NC 81-02.

This permit has been issued under EPA's PSD (40 CFR 52.21) regulations and is subject to certain conditions including an allowable emission rate of 7.5 lbs/hr for hydrogen sulfide.

Best Available Control Technology (BACT) requirements include Stretford process for noncondensible gases and a hydrogen perioxide/catalyst system to treat condensate, as necessary to meet emission limits. Pacific Gas & Electric Company will enter into agreement with their steam supplier regarding the necessary degree of control during turbine outages.

Air Quality Impact Modeling was not required; continuous monitoring is not required; the source is not subject to New Source Performance Standards.

DATE: The PSD permit is reviewable under Section 307(b)(1) of the Clean Air Act only in the Ninth Circuit Court of Appeals. A petition for review must be filed by November 23, 1982.

FOR FURTHER INFORMATION CONTACT: Copies of the permit are available for public inspection upon request; address requests to: Kathryn Strickland (M–5), U.S. Environmental Protection Agency, Region 9, 215 Fremont Street, San Francisco, CA 94105; (415) 974–8201.

Dated: September 31, 1982.

Issuance of PSD Permit to Union Oil Company of California

AGENCY: Environmental Protection Agency (EPA), Region 9.

ACTION: Notice.

SUMMARY: Notice of Approval of Prevention of Significant Air Quality Deterioration (PSD) permit to Union Oil Company of California, Kern County, California, EPA project number SJ 82–04.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on June 21, 1982 the Environmental Protection Agency issued a PSD permit to the applicant named above for approval to construct one 62.5 MMBtu/hr steam generator with control equipment retrofit on an existing generator, and contemporaneous relocation of two generators to their McKittrick 8 Lease, Kern County, California.

This permit has been issued under EPA's PSD (40 CFR 52.21) regulations and is subject to certain conditions including an allowable emission rate of 0.13 lb/MMBtu for NO_x.

Best Available Control Technology (BACT) requirements for NO_x include use of MHI Lo-NO_x Burners. Air Quality Impact Modeling was required for NO_x. Continuous monitoring is not required; the source is not subject to New Source Performance Standards.

DATE: The PSD permit is reviewable under Section 307(b)(1) of the Clean Air Act only in the Ninth Circuit Court of Appeals. A petition for review must be filed by November 23, 1982.

FOR FURTHER INFORMATION CONTACT: Copies of the permit are available for public inspection upon request; address requests to: Kathryn Strickland (M–5), U.S. Environmental Protection Agency, Region 9, 215 Fremont Street, San Francisco, CA 94105; (415) 974–8201.

Dated: August 31, 1982.

David P. Howekamp,

Acting Director, Air Management Division, Region 9.

BILLING CODE 6560-50-M

[OPTS–59057B; TSH FRL 2214–4]

Copolymer of Acrylamide; Extension of Test Marketing Exemption Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is extending the test marketing period for an additional 12 months for test marketing exemption (TME) TM–81–25, under the authority of section 5(h)(1) of the Toxic Substances Control Act (TSCA). The test marketing exemption was granted for a 1-year period to expire on August 28, 1982, and a Notice of Approval was published in the **Federal Register** of September 8, 1981 (46 FR 44884).

EFFECTIVE DATE: September 15, 1982.

ADDRESS: Written comments, identified by the document control number "[OPTS–59057B; TM–81–25]," may be submitted on or before October 13, 1982 and should be addressed to: Document Control Officer (TS–793), Office of pesticides and Toxic Substances, Management Support Division, Environmental Protection Agency, Rm. E–409, 401 M St., SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: June Thompson, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–201, 401 M St., SW., Washington, D.C. 20460; (202–382–3737).

SUPPLEMENTARY INFORMATION: Under section 5 of TSCA, anyone who intends to manufacture in, or import into, the United States a new chemical substance for commercial purposes must submit a notice to EPA 90 days before manufacture or import begins. Section 5(h)(1) authorizes EPA, upon receipt of an application, to exempt any person from the notice requirements of section 5 and to permit them to manufacture a new chemical substance for test marketing purposes. EPA may impose restrictions on the test marketing activity, including a limit on the time period during which it may take place.

On August 28, 1981, EPA granted a test marketing exemption (TM–81–25) for a copolymer of acrylamide (generic description). The generic use of the test market substance is as a paper additive. The submitter claimed the company identity, specific chemical identity, specific use, and production volume to be confidential business information. Notice of Approval of the TME was published in the **Federal Register** of September 8, 1981 (46 FR 44884). Approval was based on an Agency finding that, under the conditions set out in the application, the test market substance did not present an unreasonable risk of injury to health or to the environment. Overall concerns for health and environmental effects were low. Minimal human exposure and environmental release is expected. Test marketing activity was limited to 1 year. On July 29, 1982, EPA received a request from the submitter to extend the test marketing period for an additional 12 months. The company states that due to adverse economic conditions, the market for the new chemical has developed more slowly than was anticipated and that further test marketing is desirable prior to commercialization consideration.

EPA has decided to extend the 1 year exemption period by an additional 12 months, provided that all other restrictions specified in the notice of approval of the test marketing exemption remain unchanged. These include record-keeping requirements, limit on production volume as originally specified, and worker protection measures. This decision is based on a finding that the additional time will not affect the Agency's original conclusion that test marketing of this substance will not present an unreasonable risk of injury to human health or the environment. The Agency reserves the right to rescind its decision to grant this extension should any new information come to its attention which casts significant doubt on this conclusion.

Dated: September 15, 1982.

Don R. Clay,

Director, Office of Toxic Substances.

[FR Doc. 82-26318 Filed 9-23-82; 8:45 am]

BILLING CODE 6560-50-M

[A–9–FRL 2213–7]

Issuance of PSD Permit to U.S. Borax & Chemical Corp.

AGENCY: Environmental Protection Agency (EPA), Region 9.

ACTION: Notice.

SUMMARY: Notice of Approval of Prevention of Significant Air Quality Deterioration (PSD) permit to U.S. Borax and Chemical Corporation in Boron, Kern County, California, EPA project number SE 81–04.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on April 27, 1982 the Environmental Protection Agency issued a PSD permit to the applicant named above for approval to install a combustion gas turbine with a heat recovery steam generator at their existing plant at Boron, CA, which will allow them to produce electricity and process steam to be used at the plant. Electricity not utilized by this facility would be exported for use in the public utility grid.

This permit has been issued under EPA's PSD (40 CFR 52.21) regulations and is subject to certain conditions including allowable emission rates as follows: nitrogen oxides at 245.0 lbs/hr, carbon monoxide at 172.0 lbs/hr, particulate matter at 13.0 lbs/hr, and sulfur dioxide at 147.9 lbs/hr.

Best Available Control Technology (BACT) requirements include water injection with a water-to-fuel ration of approximately 0.8 for NO_x and burning natural gas or No. 2 oil with a sulfur content of 0.4% or less for SO_2. Air Quality Impact Modeling was required for SO_2, Particulates, NO_x and CO. Continuous monitoring is required and the source is subject to New Source Performance Standards.

DATE: The PSD permit is reviewable under Section 307(b)(1) of the Clean Air Act only in the Ninth Circuit Court of Appeals. A petition for review must be filed by November 23, 1982.

FOR FURTHER INFORMATION CONTACT: Copies of the permit are available for public inspection upon request; address request to: Kathryn Strickland (M-5), U.S. Environmental Protection Agency, Region 9, 215 Fremont Street, San Francisco, CA 94105; (415) 974-8201.

Dated: September 31, 1982.

David P. Howekamp,

Acting Director, Air Management Division, Region 9.

[FR Doc. 82-26325 Filed 9-23-82; 8:45 am]

BILLING CODE 6560-50-M

[OPTS-59097E; TSH FRL 2214-2]

Metal Compounds; Approval of Test Marketing Exemptions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA received applications for test marketing exemptions (TM-82-39, TM-82-40, TM-82-41, TM-82-42) under section 5 of the Toxic Substances Control Act (TSCA) on August 5, 1982. Notice of receipt of the applications were published in the **Federal Register** of August 13, 1982 (47 FR 35331). EPA has granted the exemptions.

EFFECTIVE DATE: September 15, 1982.

FOR FURTHER INFORMATION CONTACT: Rose Allison, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-201, 401 M St., SW., Washington, D.C. 20460; (202-382-3738).

SUPPLEMENTARY INFORMATION: Under section 5 of TSCA, anyone who intends to manufacture in, or import into, the United States a new chemical substance for commercial purposes must submit a notice to EPA before manufacture or import begins. A "new" chemical substance is any chemical substance that is not on the Inventory of existing substances compiled by EPA under section 8(b) of TSCA. Section 5(a)(1) requires each premanufacture notice (PMN) to be submitted in accordance with section 5(d) and any applicable requirements of section 5(b). Section 5(d)(1) defines the contents of a PMN and section 5(b) contains additional reporting requirements for certain new chemical substances.

Section 5(h), "Exemptions," contains several provisions for exemptions from some or all of the requirements of section 5. In particular, section 5(h)(1) authorizes EPA, upon application, to exempt persons from any requirements of section 5(a) or section 5(b), and to permit them to manufacture or process chemical substances for test marketing purposes. To grant an exemption, the Agency must find that the test marketing activities will not present any unreasonable risk of injury to health or the environment. EPA must either approve or deny the application within 45 days of its receipt, and under section 5(h)(6) the Agency must publish a notice of this disposition in the **Federal Register.** If EPA grants a test marketing exemption, it may impose restrictions on the test marketing activities.

On August 5, 1982, EPA received applications for exemptions from the requirements of sections 5(a) and 5(b) of TSCA to manufacture new chemical substances for test marketing purposes. The applications were assigned test marketing exemption numbers, TM-82-39, TM-82-40, TM-82-41, and TM-82-42. The submissions are for an organic complex of a halogenated metal; product of an alcohol and a halogenated metal; product of an alcohol, halogenated metal, and an organic complex of a halogenated metal; and an organic complex of a halogenated metal. The submitter claimed its identity, the specific chemical identities, specific uses, production volume, industrial sites, exposure, process information, and toxicological values of components as confidential business information. The TME substances will be test marketed for a period not to exceed 1 year.

A notice published in the **Federal Register** of August 13, 1982 (47 FR 35331) announced receipt of these applications and requested comment on the appropriateness of granting the exemptions. The Agency did not receive any comments concerning the applications.

EPA has established that the test marketing of the new chemical substances submitted under TM-82-39, TM-82-40, TM-82-41, and TM-82-42 will not present an unreasonable risk of injury to health or to the environment under the specific conditions set out in the applications. The Agency identified possible health and ecological concerns, but the Agency determined that lack of exposure and environmental release mitigates these concerns.

These test marketing exemptions are granted based on the facts and information obtained and reviewed, but are subject to all conditions set out in the exemption applications and, in particular, those enumerated below.

1. These exemptions are granted solely to this manufacturer.

2. The applicant must maintain records of the date(s) of shipment(s) to the customers and the quantities shipped in each shipment, and must make these records available to EPA upon request.

3. Each bill of lading that accompanies a shipment of the substances during the test marketing period must state that the use of the substances is restricted to that described to EPA in the test marketing exemption applications.

4. The production volume of the new substances may not exceed the quantity described in the test marketing exemption applications.

5. The test marketing activity approved in this notice is limited to a 1-year period commencing on the date of signature of this notice by the Director of the Office of Toxic Substances.

6. The number of workers exposed to the new chemicals should not exceed that specified in the applications, and the exposure levels and duration of exposure should not exceed those specified in the applications.

The Agency reserves the right to rescind its decision to grant these exemptions should any new information come to its attention which casts significant doubt on the Agency's conclusion that the test marketing of these substances under the conditions specified in the applications will not

present an unreasonable risk of injury to human health or the environment.

Dated: September 15, 1982.

Don R. Clay,

Director, Office of Toxic Substances.

[FR Doc. 82-26022 Filed 9-23-82; 8:45 am]

BILLING CODE 6560-50-M

[A-7-FRL 2213-1]

Non-Applicability of PSD Regulations to Hawkeye Chemical Co. and Northern Natural Gas Co.

Notice is hereby given that the Environmental Protection Agency (EPA) has determined that construction proposals by the above companies are not subject to the review requirements of the Prevention of Significant Air Quality Deterioration (PSD) regulations (40 CFR 52.21).

On June 25, 1982, the EPA issued a non-applicability determination to the Hawkeye Chemical Company for a proposal to install a nitric acid distillation unit at an existing ammonia plant. Since the proposed project would not result in a significant increase in emissions from the plant, the PSD regulations did not apply.

On May 3, 1982, the EPA issued a non-applicability determination to the Northern Natural Gas Company for a proposal to install two 1000-horse-power natural gas reciprocating engines at their Stevens County No. 6 compressor station. Since the existing station was not a "major" stationary source and the modification itself could not be classified as "major," the PSD regulations did not apply.

Under Section 307(b)(1) of the Clean Air Act, as amended in August 1977, judicial review of any of the above actions is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2), the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by the EPA to enforce these requirements.

In the above cases, the appropriate courts are the Eighth Circuit Court of Appeals for Hawkeye Chemical Company of Clinton, Iowa, and the Tenth Circuit Court of Appeals for the Northern Natural Gas Company of Liberal, Kansas. A petition for review must be filed with the appropriate court on or before November 23, 1982.

Copies of these determinations and related information are available for public inspection at: U.S. Environmental Protection Agency, Air and Waste Management Division, Air Branch, 324 East 11th Street, Kansas City, Missouri 64106.

Dated: September 8, 1982.

William W. Rice,

Acting Regional Administrator.

BILLING CODE 6712-01-M

FEDERAL DEPOSIT INSURANCE CORPORATION

Privacy Act of 1974, Amendments; Annual Publication of Systems of Records

AGENCY: Federal Deposit Insurance Corporation ("FDIC").

ACTION: Notice of Amendments; Annual Publication of Systems of Records.

SUMMARY: The purpose of this document is to meet the requirements of the Privacy Act to (1) provide public notice of changes to FDIC's existing systems of records, and (2) publish an annual notice of the existence and character of FDIC's systems of records. The majority of the changes in the systems of records are housekeeping in nature and reflect changes in office designations and programs. The two significant changes are (1) the consolidation of four existing systems relating to employee financial information into one system, and (2) expanding the exemption to disclosure of investigatory material. Each system, as amended, is republished in its entirety.

DATE: Comments on the changes to the systems of records must be received on or before November 23, 1982. The amendments will be effective November 30, 1982, unless the FDIC publishes a superseding notice on or before that date.

ADDRESS: Comments may be mailed to Hoyle L. Robinson, Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, D.C. 20429, or hand delivered during work days to Room 6108, 550 17th Street, NW., Washington, D.C., between 9:00 a.m. and 5:00 p.m. Comments received may also be inspected during work days in Room 6108 between 9:00 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Margaret M. Olsen, Assistant Executive secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Room 6108, Washington, D.C. 20429, (202) 389-4446.

SUPPLEMENTARY INFORMATION: As stated above, two major changes are being made. First, information relating to employee financial records will be consolidated into one system (30-64-0012). Presently, this information is contained in four systems (30-64-0008, 30-64-0012, 30-64-0013, 30-64-0014) This consolidation does not expand the categories of individuals or records in the system, the routine uses of the system or access to the information. For the purpose of uniformity, the retention period will be three years or during employment. Presently one system (30-64-0013) has a two-year retention period.

Second, as provided for in the Privacy Act, FDIC regulation § 310.13 (12 CFR 310.13) provides that investigatory material compiled for law enforcement purposes is exempt from disclosure (unless a person would otherwise be denied an entitled to right, privilege or benefit). In its system description of the two exempt systems (30-64-0002, 30-64-0011), the FDIC further limited the use of this exemption to circumstances where disclosure would interfere with the investigation and preparation of law enforcement proceedings. In a few instances, a concern has been raised that disclosure of investigatory material could have an adverse impact on FDIC's law enforcement functions even if the investigation and preparation of the proceedings has ended. Consequently, this criterion would be deleted from the system description. As a matter of policy, the FDIC will continue to disclose otherwise exempt investigatory material unless disclosure will harm the interests of the FDIC.

The remaining changes are viewed as housekeeping in nature and include the following:

1. Disclosure to an arbitrator is added as a routine use to six systems (30-64-0001, 30-64-0007, 30-64-0009, 30-64-0012, 30-64-0015, 30-64-0018) to reflect the fact that an arbitration procedure was established by employee collective bargaining agreements.

2. The Board of Directors has delegated or may delegate authority to standing committees or other officials to take administrative action. System 30-64-0003 is revised to reflect this delegation in the system name and description of categories of individuals and records covered. The authority provision of this system is revised to reflect the addition of section 9 of the Federal Deposit Insurance act ("FDI Act") (12 U.S.C. 1819) and the deletion of section 2 of the FDI Act (12 U.S.C. 1812).

3. The Legal Division no longer maintains information on persons seeking FDIC's consent under section 19 of the FDI Act (30-64-0011). The categories of individuals covered and the authority provision are changed to reflect this.

4. Several changes are made to the system on personnel-related records (30-64-0015). The changes reflect that (1) records may be located in field offices; (2) FDIC-sponsored life and health insurance is available; (3) upward mobility is now coordinated by the Office of Personnel Management; (4) records on employee performance, assignments and experience may be in the system; and (5) computer discs are accessed only by authorized personnel.

5. Assistant examiner progress evaluation records are maintained for a two-year period and no longer three years (30-64-0009).

6. Records relating to employee grievances will be maintained by the Office of Personnel Management (30-64-0018).

7. The description of the categories of individuals covered by the system including change in bank control records (30-64-0012) is amended to include "persons." This is for clarification purposes and does not expand the category of covered individuals.

8. The title of the office administering to consumer complaints is change (30-64-0005).

9. Because of amendments to the Federal Reports Act, reference to that statute in the authority citation for records on municipal securities dealers is deleted (30-64-0016).

The FDIC is reprinting each system, as amended, in its entirety.

FDIC Systems of Records

30-64-0001

SYSTEM NAME:

Attorney—Legal Intern Applicant System—FDIC.

SYSTEM LOCATION:

Office of the General Counsel, FDIC, 550 17th Street, N.W., Washington, D.C. 20429.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for the position of attorney or legal intern with the General Counsel's office of the FDIC.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains correspondence from the applicants and individuals whose names were provided by the applicants as references, applicants' resumes, application forms, and, in some instances, comments of individuals who interviewed applicants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sec. 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of information may be made: (1) In requesting information of individuals or concerns whose names were supplied by the applicant as references and/or past or present employers; (2) to the United States Office of Personnel Management, the Merit Systems Protection Board, the Office of Special Counsel, the Federal Labor Relations Authority, an arbitrator, and the Equal Employment Opportunity Commission, to the extent disclosure is necessary to carry out the government-wide personnel management, investigatory, adjudicatory and appellate functions within their respective jurisdictions; (3) to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of the individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

File folders.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Maintained in lockable metal file cabinets.

RETENTION AND DISPOSAL:

Records of unsuccessful applicants are retained two years after their submission; records of successful applicants are retained four years after the successful applicant leaves the employ of the FDIC.

SYSTEM MANAGER(S) AND ADDRESS:

General Counsel, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

NOTIFICATION PROCEDURE:

Executive Secretary, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

RECORD ACCESS PROCEDURES:

Same as "Notification" above.

CONTESTING RECORD PROCEDURES:

Same as "Notification" above.

RECORD SOURCE CATEGORIES:

The information is obtained from the applicants, references supplied by the applicants, current and/or former employers of the applicants, and FDIC employees who interviewed the applicants.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to § 310.13(b) of the FDIC's Rules and Regulations, investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for FDIC employment may be withheld from disclosure to the extent that disclosure of such material would reveal the identify of a source who furnished information to the FDIC under a promise of confidentiality.

30-54-0002

SYSTEM NAME:

Bank and Proposed Bank Irregularity Records System—FDIC.

SYSTEM LOCATION:

Operations Branch, Division of Bank Supervision, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Directors, officers and employees of FDIC-insured banks who have been involved in reported irregulaties. Directors and officers of noninsured banks and organizers of proposed banks which have applied for Federal deposit insurance and who have been involved in reported irregularities. Customers of FDIC-insured banks, and other individuals, who have been involved in reported irregularities at such banks. In addition, the system may contain information on individuals who have been the subject of background checks designed to uncover irregularities bearing on these individuals' fitness to be directors, officers, or employees of their banks or to control management. These individuals may include the following: directors, officers and employees of FDIC-insured banks; directors and officers of uninsured banks and organizers of proposed banks which have applied for Federal deposit insurances; and controlling shareholders of banks or persons endeavorting to gain control over FDIC-insured banks.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains interagency correspondence, intra-agency memoranda and reports of investigation. May contain newspaper clippings. May contain Federal or State criminal law enforcement agency investigatory and/or arrest and conviction reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 5, 6, 7, 9, 18 and 19 of the Federal Deposit Insurance Act (12 U.S.C. 1815, 1816, 1817, 1819, 1828, 1829).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) In the event that information contained in this system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records may be referred to the appropriate agency, whether Federal or State, charged with the responsibility of investigating or prosecuting such violation or charges with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

(2) In the event of litigation, the appropriate records may be presented to the appropriate court, magistrate, or administrative tribunal as evidence, or to counsel for the presentation of evidence and/or in the course of discovery.

(3) Disclosure may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of the individual.

(4) Disclosure may be made to the bank affected by a discovered irregularity.

(5) Disclosure may be made to another Federal of State financial institution regulatory agency if the individual involved has notified that agency of his/her intent to acquire controlling interest in a bank or bank holding company, has filed an application for a bank charter or to form a bank holding company, or has or will become associated with an insured bank under that agency's supervision.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on file cards and in file folders.

RETRIEVABILITY:

Indexed by name

SAFEGUARDS:

Index cards and file folders are maintained in lockable metal file cabinets.

RETENTION LAND DISPOSAL:

Destruction after five years. Destruction is by shredder.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Bank Supervision, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

NOTIFICATION PROCEDURE:

Executive Secretary, FDIC, 550 17th Street, NW., Washington, D.C. 20429. Inquirers must provide their full names and notarized statement attesting to their identity.

RECORD ACCESS PROCEDURES:

Same as "Notification" above.

CONTESTING RECORD PROCEDURES:

Same as "Notification" above.

RECORD SOURCE CATEGORIES:

FDIC-insured banks and applicants for Federal deposit insurance; Federal and State banking supervisory authorities; newspapers; Federal and State criminal law enforcement and prosecutorial agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to section 310.13(a) of the FDIC's rules and regulations, investigatory material compiled for law enforcement purposes, concerning irregularities involving (1) officers, directors, employees, customers, or other individuals at FDIC-insured banks or (2) directors and officers of noninsured banks or organizers of proposed banks which have applied for Federal deposit insurance, is exempted from the accounting provisions of section 310.10(d)(2) of the FDIC's rules and regulations and may be withheld from disclosure. Federal criminal law enforcement investigatory reports maintained as part of this system may be the subject of exemptions imposed by the originating agency pursuant to 5 U.S.C. 552a(j)(2).

30-64-0003

SYSTEM NAME:

Administrative Action System—FDIC.

SYSTEM LOCATION:

Office of the Executive Secretariat, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been subject to administrative actions by the FDIC Board of Directors or by standing committees or other officials under delegated authority.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains minutes of the meetings of the Board of Directors or standing committees, intra-agency memoranda, orders of the Board of Directors, standing committees, or other officials, and correspondence with the subject individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sec. 8, 9 and 19 of the Federal Deposit Insurance Act (12 U.S.C. 1818, 1819, 1829); Sec. 506 of the Federal Records Act of 1950 (44 U.S.C. 3101).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of the individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Index cards and minute ledgers.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Index cards are stored in lockable metal file cabinets; minute ledgers are stored in vault.

RETENTION AND DISPOSAL:

Permanent.

SYSTEM MANAGER(S) AND ADDRESS: EXECUTIVE SECRETARY, FDIC, 550 17TH STREET, NW., WASHINGTON, D.C. 20429.

NOTIFICATION PROCEDURE:

Same as "System manager" above.

RECORD ACCESS PROCEDURES:

Same as "System manager" above.

CONTESTING RECORD PROCEDURES:

Same as "System manager" above.

RECORD SOURCE CATEGORIES:

Intra-agency records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

30-64-0004

SYSTEM NAME:

Changes in Bank Control Ownership Records—FDIC.

SYSTEM LOCATION:

Operations Branch, Division of Bank Supervision, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been involved in the change of bank control or ownership in FDIC-insured banks and/or have obtained loans from insured banks, when such loans are secured by 25 percent or more of the outstanding stock of an insured bank.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains the name of the individual seller or purchaser of shares of stock, the number of shares of stock involved and outstanding, the name of the bank whose control is changing, the purchase price of the stock, the names of beneficial owners if the shares are registered in another name, the total number of shares owned by the seller, purchaser, or beneficial owner, both before and after the transactions, the personal history, business backgound and experience, and pending legal or administrative proceedings involving each purchaser or beneficial owner, financial and income statements of purchasers or beneficial owners, the source of funds used in the purchase, the identity of any person who will solicit stockholders in connection with the purchase, ther terms and conditions of the acquisition, any plans to make a major change to the business or corporate structure of the acquired bank, copies of invitations, tenders, or advertisements used in making tender offers to stockholders, comments by State and Federal regulatory agencies, and changes of directors and chief executive officers within one year of the change in control and a statement of their past and current business and professional affiliations. In the case of loans, contains all of the information listed above and contains the name and location of the lending bank, the name and address of the borrower, the amount of the loan and the name of the bank issuing the stock securing the loan and the number of shares securing the loan.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sec. 7(j) of the Federal Deposit Insurance Act (12 U.S.C. 1817(j)).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) The name of the bank whose control is changing, the seller and purchaser, and the number of shares involved, may be distributed to periodicals for publication.

(2) In the event that the system of recordes indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred to the appropriate agency, whether Federal or State, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or

implementing the statute, or rule, regulation or order issued pursuant thereto.

(3) In the event of civil, criminal, or administrative law enforcement proceedings, the relevant records may be disclosed to the appropriate court and/or counsel for purposes of discovery and the development of the proceedings.

(4) Disclosure may be made to the appropriate State banking authority and the appropriate Federal financial institutions regulatory agency as required by the Change in Bank Control Act of 1978 (section 7 (j)(11)) of the Federal Deposit Insurance Act (12 U.S.C. 1817(j)(11)) as added by section 602 of the Financial Institutions Regulatory and Interest Rate Control Act of 1978 (92 Stat. 3686).

(5) Disclosure may be made to a law enforcement or other government agency, whether Federal or State, for the purpose of identity verification.

(6) Disclosure may be made to a congressional office from the record of an individual as may be necessary to respond to an inquiry from the congressional office made at the request of the individual.

(7) The records may be disclosed to third parties for the purposes of verifying the accuracy and/or completeness of any of the information contained in these records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained in file folders and on index cards.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Maintained in lockable metal file cabinets.

RETENTION AND DISPOSAL:

Destruction after 10 years. Destruction is by shredder.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Bank Supervision, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

NOTIFICATION PROCEDURE:

Executive Secretary, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

RECORD ACCESS PROCEDURES:

Same as "Notification" above.

CONTESTING RECORD PROCEDURES:

Same as "Notification" above.

RECORD SOURCE CATEGORIES:

The persons who are acquiring control of an FDIC-insured bank, the bank in which control is changing, the bank which makes a loan secured by 25 percent or more of the outstanding voting stock of an insured bank, and State and Federal regulatory agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

30-64-0005

SYSTEM NAME:

Consumer Complaint and Inquiry Records—FDIC.

SYSTEM LOCATION:

Division of Bank Supervision, Consumer Affairs Unit, FDIC, 550 17th Street, NW., Washington, D.C. 20429, and the appropriate FDIC regional office for complaints or inquiries originating within or involving a bank located in an FDIC region. (See Appendix A for the location of FDIC regional offices.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have filed complaints or inquiries concerning activities and practices of FDIC-insured banks.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains the names of individuals and the nature of their complaints or inquiries. Contains correspondence and records of other communications between the FDIC and the individuals filing complaints and/or making inquiries. May contain correspondence between the FDIC and the bank in question and/or Federal or State supervisory authorities. May contain copies of supporting documents supplied by a complainant and intra-agency memoranda.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sec. 202 of title II of the Federal Trade Improvement Act (15 U.S.C. 57a(f)); sec. 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) Since records are compiled and used for investigation and resolution of consumer inquiries and complaints, disclosure may be necessary to the institution which is the subject of the complaint.

(2) Resolution of the complaint or inquiry may also require disclosure limited to the name of the inquirer and the nature of the inquiry to third party sources during the course of the investigation.

(3) Transmittal may be made to the Federal or State supervisory authority that has direct supervision over the financial institution that is the subject of the complaint.

(4) In the event that the system of records indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system may be referred to the appropriate agency, whether Federal or State, charged with the responsibility of investigating or prosecuting such violations or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

(5) In the event of civil, criminal or administrative proceedings, the relevant records may be disclosed to the appropriate court and/or counsel for purposes of discovery and the development of the proceedings.

(6) Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of the individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained in file folders and on computer discs and tapes.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Maintained in lockable metal file cabinets; computer tapes and discs are accessed only by authorized personnel.

RETENTION AND DISPOSAL:

SYSTEM NAME:

Employee Financial Disclosure Statements—FDIC.

SYSTEM LOCATION:

Office of the Executive Secretariat, FDIC, 550 17th Street, NW., Washington, D.C. 20429.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former officers and employees, including Special Corporation employees and employees occupying noncompetitive positions, required to file Public Financial Disclosure Reports pursuant to the Ehtics in Government Act of 1978 (92 Stat. 1836); current and former employees required to file Confidential Statements of Employment and Financial Interests pursuant to Executive Order 11222 and 12 CFR Part 336; current and former bank examiners and assistant bank examiners required to file disclosures of their personal indebtedness to insured banks or affiliates thereof pursuant to Part 336; and all current and former employees required to disclose their ownership of insured bank securities and other outside interests pursuant to Part 336.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information in this system includes records relating to, or data directly furnished by, the subject individual, on the following four forms:

(1) Financial Disclosure Reports, Standard Form 278—Contains financial information such as income from salaries, honoraria, dividends, rent, interest, trusts and captial gains; interest in property held in a trade or business or for investment or the production of income; income from the sale, exchange or purchase of real property or property such as stocks and bonds; gifts; reimbusements; liabilities in excess of $10,000 owed to any creditors; copies of and documents relating to qualified blind trusts; information on positions held in private organizations and on agreements with private employers; and other documents that may be generated in the course of administering the Ethics in Government Act of 1978;

(2) Confidential Statements of Employment and Financial Interests—Contains statements of personal and family holdings, interests in business enterprises and real property, creditors, outside employment, and other documents that may be generated in the course of administering the provisions of Executive Order 11222 and Part 336;

(3) Confidential Disclosures of Indebtedness by Bank Examiners—Contains information on extensions of credit (loans and credit cards) by FDIC-insured banks and noninsured banks to examiners and assistant examiners; may also contain memoranda and correspondence relating to requests for approval of certain loans extended by insured banks to examiners and assistant examiners;

(4) Disclosures of Direct or Indirect Financial Interests in Bank or Other Interests—Contains information on whether or not employees own or control, directly or indirectly, any securities of an insured bank or its affiliates, and if so, lists specific securities; also contain information on other outside interests which may impact on an employee's offiical duties; may also contain memoranda and correspondence relating to requests for approval or retention of bank securities by employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title II of the Ethics in Government Act of 1978 (92 Stat. 1836); section 402 of Executive Order 11222 dated May 8, 1965; section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819); and 44 U.S.C. 3101.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) Financial Disclosure Reports may be disclosed upon written request to any requesting person pursuant to section 205 of the Ethics in Government Act of 1978 (92 Stat. 1836), as amended, or as otherwise authorized by law.

(2) Confidential Statements of Employment and Financial Interests, Confidential Disclosures of Indebtedness by Bank Examiners, and Disclosures of Direct or Indirect Financial Interests in Bank or Other Interests may be disclosed where the Director of the Office of Government Ethics or the Chairman of the Board of Directors of the FDIC determines that good cause has been shown for such use (a) to the appropriate Federal, State or local agency responsible for investigating, prosecuting, enforcing or implementing a statute, rule, regulation or order where FDIC becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation; (b) to provide information to a Congressional office from the record of an individual in response to an inquiry from that Congressional office made at the request of that individual; (c) to another Federal agency or to a court where the government is party to a judicial proceeding before the court; (d) to any source where necessary to obtain information relevant to a conflict-of-interest investigation or determination; (e) in response to a request for discovery or for an appearance of a witness, information that is relevant to the subject matter involved in a pending judicial or administrative proceeding.
